1924

ADDENDA AND CORRIGENDA.

Page 2.—Against January 3, for “Last day of application for LL.M., M.D., M.S., D.Hy. and M.C.E. Examinations” read “Last day of application for LL.M. and M.C.E. Examinations.”

Page 2.—Against January 10, *delete* the entry “Last day for receiving applications for M.A. Examination from candidates who do not present a thesis.”

Page 3.—Against February 7, *delete* the entry “Last day of application for B.Hy. Examination.”

Page 3.—Against February 23, *insert* “Last day of application for M.A. Examination from candidates who do not present a thesis.”

Page 4.—Against March 3, *delete* the entry “LL.M., M.D., M.S., D.Hy., Intermediate Agriculture, B.Ag., and M.C.E. Examinations begin.”

Page 4.—Against March 5, *insert* “LL.M., Intermediate Agriculture, B.Ag., and M.C.E. Examinations begin.”

Page 4.—Against March 10, for “M.A. and M.Sc. Examinations begin” read “B.T. Examination (Part I) begins.”

Page 4.—Against March 17, *delete* “B.T. (Part I)” in line 1 and read “Examination” for “and Final M.B., B.S. Examinations” in line 3.

Page 5.—Against April 7, for “Intermediate M.B., B.S., Final M.B., B.S. (Part I) and B.Hy. Examinations begin” read “Intermediate M.B., B.S. and B.T. (Part II) Examinations begin.”

Page 5.—Against April 14, *delete* the entry “Final M.B., B.S. and B.T. Examinations (Part II) begin.”

Page 5.—Against April 16, *insert* “Last day of application for B.Hy., M.D., M.S. and D.Hy. Examinations.”

Page 5.—Against April 23, *insert* “M.A. and M.Sc. Examinations begin.”

Page 6.—Against May 26, *insert* “Last day of application for Final M.B., B.S. Examination.”

Page 7.—Against June 3, after ‘1865’ *insert* “First Term in Medicine begins.”

Page 7.—Against June 16, for “First Term in Medicine begins” read “Final M.B., B.S., B.Hy., M.D., M.S. and D.Hy. Examinations begin.”

Page 9.—Against August 25, *insert* “First Term in Medicine ends.”

Page 10.—Against September 9, *delete* the entry “Last day for receiving intimations from candidates who select the special groups in Mathematics at the M.A. and M.Sc. Examinations.”

Page 10.—Against September 15, read “Last day of application for B. Com. Examination” for “Last day of application for B.Com. and Final M.B., B.S. Examinations.”

Page 10.—Against September 30, *delete* “in Medicine and” in line 1 and *add* after ‘ends’ in line 2 “Second Term in Medicine begins.”

Page 11.—Against October 6, for “B.A. (Pass) and Final M.B., B.S. (Part I) Examinations begin” read “B.A. (Pass) Examination begins.”

Page 11.—Against October 13, for “First LL.B., Second LL.B., B.E. and Final M.B., B.S. (Part II) Examinations begin” read “First LL.B., Second LL.B. and B.E. Examinations begin.”

Page 11.—Against October 20, *insert* “Last day for receiving intimations from candidates who select the special groups in Mathematics at the M.A. and M.Sc. Examinations.”

Page 11.—Against October 27, *insert* “Last day of application for Final M.B., B.S. Examination.”

Page 12.—Against November 8, *delete* the entry “Last day for receiving applications and theses for M.A. and M.Sc. Examinations.”

Page 12.—Against November 15, *delete* the entry “Second Term in Medicine begins.”

Page 12.—Against November 17, *insert* “Final M.B., B.S. Examination begins.”

Page 13.—Against December 20, *insert* “Last day of application for M.A. Examination from candidates who present a thesis.”

Page 13.—Against December 22, *insert* “Second Term in Medicine ends.”

Page 14.—Against January 2, *delete* “M.D., M.S., D.Hy.” in line 1.

Page 14.—Against January 6, *insert* “Third Term in Medicine begins.”

Page 14.—Against January 9, *delete* the entry “Last day for receiving applications for M.A. Examination from candidates who do not present a thesis.”

Page 15.—Against February 6, *delete* the entry “Last day of application for B.Hy. Examination.”

Page 15.—Against February 14, *insert* “Last day for receiving applications and theses for M.Sc. Examination.”

Page 15.—Against February 20, *add* after ‘Examinations’ in line 2:—“Last day of application for M.A. Examination from candidates who do not present a thesis.”

Page 16.—Against March 2, *delete* “M.D., M.S., D.Hy.” in line 1.

Page 16.—Against March 9, for “M.A. and M.Sc. Examinations begin” *read* “B.T. Examination (Part I) begins.”

Page 16.—Against March 16, *delete* “B.T. (Part I)” in line 1 and *read* ‘Examination’ for “and Final M.B., B.S. Examinations” in line 3.

Page 16.—Against March 30, *insert* “Third Term in Medicine ends.”

Page 17.—Against April 6, for “Intermediate M.B., B.S., Final M.B., B.S. (Part I) and B.Hy. Examinations begin” *read* “Intermediate M.B., B.S. and B.T. (Part II) Examinations begin.”

Page 17.—Against April 13, *delete* the entry “Final M.B., B.S. and B.T. (Part II) Examinations begin.”

Page 17.—Against April 15, *insert* “Last day of application for B.Hy., M.D., M.S. and D.Hy. Examinations.”

Page 17.—Against April 20, *insert* M.Sc. (Mathematics) and M.A. Examinations begin.”

Page 17.—Against April 30, *delete* “Second Term in Medicine ends.”

Page 18.—Against May 25, *insert* “Last day of application for Final M.B., B.S. Examination.”

Page 19.—Against June 2, *insert* “First Term in Medicine begins.”

Page 19.—Against June 15, *delete* “First Term in Medicine begins” and *insert* “Final M.B., B.S., B. Hy., M.D., M.S. and D.Hy. Examinations begin.”

Page 20.—Against July 27, *insert* “M.Sc. Examination (Branches other than Mathematics) begins.”

Page 21.—Against August 24, *insert* “First Term in Medicine ends.”

Page 22.—Against September 7, *delete* the entry “Last day of application for Intermediate M.B., B.S. Examination.”

Page 22.—Against September 8, *delete* the entry “Last day for receiving intimations from candidates who select the special groups in Mathematics at the M.A. and M.Sc. Examinations.”

Page 22.—Against September 14, for “Last day of application for B.Com. and Final M.B., B.S. Examinations” *read* “Last day of application for B.Com. Examination.”

Page 22.—Against September 29, *insert* “Second Term in Medicine begins.”

Page 22.—Against September 30, *delete* “in Medicine and” in line 1.

Page 23.—Against October 5, for “B.A. (Pass) and Final M.B., B.S. (Part I) Examinations begin” read “B.A. (Pass) Examination begins.”

Page 23.—Against October 12, for “First LL.B., Second LL.B., B.E. and Final M.B., B.S. (Part II) Examinations begin” read “First LL.B., Second LL.B. and B.E. Examinations begin.”

Page 23.—Against October 19, insert “Last day for receiving intimations from candidates who select the special groups in Mathematics at the M.A. and M.Sc. Examinations.”

Page 23.—Against October 26, insert “Last day of application for Intermediate and Final M.B., B.S. Examinations.”

Page 24.—Against November 7, delete the entry “Last day for receiving applications and theses for M.A. and M.Sc. Examinations.”

Page 24.—Against November 16, read “Intermediate M.B., B.S. and Final M.B., B.S. Examinations begin” for “Second Term in Medicine begins.”

Page 25.—Against December 19, insert “Last day of application for M.A. Examination from candidates who present a thesis.”

Page 25.—Against December 21, insert “Second Term in Medicine ends.”

Pages 34-36.—Delete Section 12, headed “Transitory Provisions.”

Page 42.—Delete Section 29.

Page 43.—Delete “The Second Schedule.”

Pages 47-48.—Under “Faculty of Science,” for “(i) Physics, (ii) Chemistry.... shall elect two members in Board (iii).” read—

- “(i) Physics.
- (ii) Chemistry.
- (iii) Botany.
- (iv) Zoology.
- (v) Geology.
- (vi) Engineering.
- (vii) Agriculture, including Veterinary Science.

Boards (i), (ii), (iii), (iv) and (v) shall each consist of five members. Boards (vi) and (vii) shall consist of not less than three and not more than eight members.”

Page 50.—In regulation 51, line 8, insert “Bachelor of Teaching” between “Bachelor of Arts” and “Bachelor of Hygiene”.

Page 61.—In regulations 150 and 153, delete “Medicine” and all the entries against “Medicine”.

Page 75.—Add the following paragraph immediately after the paragraph headed “I—English—Three Papers”:—

“Each student shall write at least ten exercises in English composition in class to the satisfaction of his teacher during the year.”

Page 79.—With effect from the 1st of January 1926, read the following for regulation 40:—

“40. Candidates who appear only for the Pass Degree Examination must, in order to pass the Examination, obtain at least 30 per cent. of the full marks in (i) course III in Compulsory English, (ii) courses I, II and III in Compulsory English taken together, and (iii) the Optional Group. In Group (a) candidates must also obtain at least 25 per cent. of the full marks assigned to each language of the Group and in groups (e) and (f) at least 30 per cent. of the full marks allotted to the practical examinations taken together. Should a candidate, however, not obtain the prescribed minima under not more than one head of passing, he shall be declared to have passed the Examination if, on a review of his marks, a majority of not less than two-thirds of the Examiners present decide that he should pass, provided always that no candidate shall so pass unless he obtains at least 40 per cent. of the total marks obtainable.”

Page 79.—With effect from the 1st of January 1926, *read the following for the words “separately (a) in Compulsory English and (b) in” occurring in regulation 42, line 4 :—*

“in (i) course III in Compulsory English, (ii) courses I, II and III in Compulsory English taken together and (iii).”

Page 79.—With effect from the 1st of January 1926, *read the following for the words “Compulsory English” in regulation 43, line 3 :—*

“course III in Compulsory English and also 30 per cent. in courses I, II and III taken together.”

Page 80.—For regulations 45 and 46 *read the following :—*

“45. A candidate who has been found qualified for a pass degree in any group will be permitted to appear on a subsequent occasion at the honours examination in the subject which he has qualified for the pass degree or in a different group or subject. He will not be required to keep any additional terms if he offers to be examined in an honours subject other than one of the Science groups, but must keep at least two additional terms at a College recognized for the purpose if he appears in a Science group. A candidate who, previous to graduation, has attended during four terms the honours courses in one of the Science groups at an affiliated College but has qualified for a pass degree, will not be required to keep any additional terms if he offers the same group, but will be required to keep at least two additional terms if he offers the other Science group. Candidates appearing under this regulation will be required to take all the honours papers as defined in paragraphs 3 and 4 of regulation 49, and will be eligible for first or second class honours if they qualify for them according to regulation 42 or 43.”

46. A candidate who has been found qualified for a degree with first or second class honours in any subject or group will be permitted to appear on a subsequent occasion for the honours examination in another subject or group. He will not be required to keep any additional terms if he appears in a subject other than one of the Science groups, but must keep at least two additional terms if he offers a Science group. He will be required to take all the honours papers as defined in paragraphs 3 and 4 of regulation 49, and will be eligible for first or second class honours if he qualifies for them according to regulation 42 or 43. Candidates passing the Examination according to the provisions of regulations 45 and 46 will not be eligible for any prizes or scholarships awarded at the examination.

Page 81.—With effect from the 1st of January 1926, *for the fourth paragraph beginning “I—English—Three papers” read the following :—*

“In ‘Compulsory English’ there will be three courses, *viz.* :—

Course I.—Two plays of Shakespeare for detailed literary study. The Syndicate will change one of the plays each year.

Course II.—Selections from one poet and one prose writer of the 19th century, to be read without minuteness. The Syndicate will change one of the authors every year.

Course III.—Four modern texts* for rapid reading in illustration of present day English life and thought; of these at least one shall consist of verse, another of essays to be made the basis of practice in composition. A minimum of ten compositions shall be written each year by each student. The Syndicate will change half the texts each year.

Courses I and II will each be examined by means of a paper of three hours carrying 80 marks : Course III by means of a paper of three hours carrying 90 marks, containing themes for an essay or other exercises in composition suggested by the texts prescribed.”

Page 81.—In the fifth paragraph beginning “(a) Languages,” *read ‘five’ for ‘four’ in line 2 and insert ‘Sindhi’ between ‘Kanarese’ and ‘Urdu’ in line 5.*

* Modern texts are defined to mean works published in or after 1892.

Page 81.—With effect from the 1st of January 1926, for the sixth paragraph beginning “English (Pass Examination)” read the following :—

“English—(Pass Examination.)”

Course IV.—The principles of literary criticism with special study of two literary forms, supplemented by a general study of not more than three texts illustrating each literary form. The Syndicate will prescribe one literary form and its illustrative texts each year.

The course will be examined by two papers each of three hours and each carrying one hundred marks. A literary form and its illustrative texts will be examined in each paper.”

Page 81.—With effect from the 1st of January 1926, for the seventh paragraph beginning “Three additional papers for Honours” read the following :—

“Additional English for Honours.”

For honours there shall be three additional courses, viz. :—

Course V.—Special study of a period of English literary history, with selections from four representative writers, two being poets and two prosaists. The following are the periods to be successively studied :—

1550—1650, 1600—1700, 1650—1750, 1700—1800, 1750—1850, 1800—1900.

Course VI.—Study of the social history and institutions of the period prescribed for course V.

Course VII.—Chaucer studied from a literary and social point of view with the reading of either the Prologue to the Canterbury Tales or one of the Tales.

Courses V, VI and VII shall each be examined by means of a paper of three hours carrying one hundred and fifty marks.

The Syndicate will prescribe texts, literary forms and period for all the seven courses in literature at least two years before the examination.”

Page 82.—Add ‘Sindhi’ to the list of languages in paragraph 1 beginning “Languages other than English (Pass Examination).”

Page 90.—In regulation 50, for “second Monday in March” read “third Monday in April.”

Page 107.—Add the following *N. B.* to regulation 7 :—

“*N. B.* (4).—The Preliminary Scientific Examination of October 1922, April 1923 and October 1923 will be recognized as equivalent to the Intermediate Examination in Science in the case of students who apply to the Syndicate for such recognition for enabling them to study for the B. Sc. Examination.”

Page 131.—For regulation 29 read the following :—

“The Examination for the Degree of Master of Science will be held annually in Bombay, commencing in the case of Mathematics on the third Monday in April and in the case of the other Branches on the last Monday in July.”

Page 131.—In regulation 32, for “four months before the date of his examination” read “not later than the 14th of February” and add the following at the end :—
“and such decision shall be communicated to him by the 30th of April.”

Page 132.—In regulation 33, for “at least four months before the Examination” read “not later than the 14th of February.”

Page 154.—For regulation 68 read the following :—

“68. A candidate for the Degree of Bachelor of Engineering must produce a certificate showing that he has passed the Intermediate Examination in Science of this University (or of a University recognized by this University) in the group of Mathematics, Physics and Chemistry.”

Page 188.—Under the heading “Degrees of M.B., B.S.” insert “Old Regulations.”

Page 193.—Insert after regulation 32 the following new regulations for the Degrees of M.B., B.S. :—

NEW REGULATIONS* FOR THE DEGREES OF M.B., B.S.

GENERAL.

1. A candidate for the degrees of M.B., B.S. shall have wholly passed the Preliminary Scientific Examination of this University or the Intermediate Examination in Science of this University in the group of Physics, Chemistry and Biology or an equivalent examination of another recognized University before being eligible for admission to a Medical College affiliated to the University.

2. The academic year for medical students shall consist of three terms, each of twelve weeks' duration, viz. :—

(1) The Monsoon term commencing on the first Tuesday in June ;

(2) The Winter term commencing on the Tuesday preceeding the 1st October or on the 1st October if that date falls on a Tuesday ;

(3) The Spring term commencing on the first Tuesday in January.

3. Before appearing for his degree examination a candidate shall be required to complete at least fourteen terms at a recognized Medical College, and to pass two examinations, namely—

(i) The Intermediate Examination to be held in the fifth term after entering the College, provided that these terms have been satisfactorily kept.

(ii) The Final Examination which shall be held in two Parts, namely, Part I which shall be taken at least five terms, and Part II, at least nine terms, after passing the Intermediate Examination. An interval of not less than one clear term shall elapse after passing in the whole of Part I of the examination before a student is eligible to sit for Part II.

3. (a) The Winter term of 1923-24 under the old nomenclature shall count as two terms for the purposes of these regulations.

(b) A Candidate admitted to the Intermediate class of a Medical College in or before June 1923 shall only be required to complete the courses of study laid down in the old regulations. Provided that he shall have completed to the satisfaction of the head of the Medical College the courses as therein laid down, he shall be eligible to sit for the Intermediate Examination after two years and, when successful at that examination, eligible to sit for the Final Examination after a further two years : and, should no examination under the old regulations be held at the time at which he would be eligible to sit he shall be permitted to appear for the corresponding examination under the new regulations without completing any further terms or any additional courses of study and with any exemptions previously earned.

For the purposes of this rule—

(i) The Intermediate Examination under the new regulations shall be held to correspond with the Intermediate under the old regulations except as regards Materia Medica, Pharmacology and Pharmacy, and furthermore any candidate who shall have passed the Intermediate Examination under the old regulations or shall have been exempted from sitting again therein in Materia Medica, Pharmacology and Practical Pharmacy shall be exempted from sitting in or keeping terms in those subjects at any subsequent examination conducted by the University ; and any candidate who shall have passed the Intermediate Examination under the old regulations in Anatomy and Physiology but shall have failed in Materia Medica, Pharmacology and Practical Pharmacy shall be eligible to keep terms for the Final Examination and shall be eligible without keeping any further terms in these subjects to sit for Materia Medica, Pharmacology and Practical Pharmacy at

Except where otherwise stated these regulations shall only be applicable to candidates admitted to the Intermediate classes of a Medical College of the University after June 1923.

Part I of the Final Examination when otherwise eligible to sit for that examination (*vide ii infra*) or at his option to sit again in Materia Medica, Pharmacology and Practical Pharmacy at the Intermediate Examination so long as these subjects shall be included in the Intermediate Examination (*vide* paragraph 15A below).

(ii) The April Examinations for Part I and Part II under the new regulations taken simultaneously shall together be held to correspond to the June Examination for the Final under the old regulations and the November Examination for Part II under the new regulations and the examination for Part I held in the preceding September shall together be held to correspond to the November Examination for the Final under the old regulations. Candidates appearing under this rule shall be eligible to sit for Part II before passing in Part I, wholly or in part, and without the lapse of a term between the examinations for the two Parts.

4. All the Examinations for the degrees of M.B., B.S. to be taken by a candidate after gaining admission to a Medical College shall be held twice a year, but only such candidates shall be eligible for University awards as shall have passed at the main sessions of the examinations, *i.e.*, at the session of the Intermediate Examination held in November and at the session of Part I of the Final Examination held in September and of Part II held in November. In the awards for prizes at the Final Examination a candidate shall have passed in Part I at a September session and in Part II at the November session of the next following year.

THE INTERMEDIATE EXAMINATION FOR THE DEGREES OF M.B., B.S.

5. The Intermediate Examination for the degrees of M.B., B.S. shall be held twice a year in Bombay, commencing on the third Monday in November and the first Monday in April.

6. No candidate shall be admitted to this Examination unless he shall have—

(a) passed the Preliminary Scientific Examination of this University or the Intermediate Science Examination of this University in the group of Physics, Chemistry and Biology, and shall have been engaged in medical studies at a recognized Medical College for at least five terms after passing such Examination; and

(b) attended the following courses :—

In Anatomy, including Embryology.—A course of lectures, demonstrations and dissections extending over five terms during which the whole body shall have been dissected twice.

In Physiology, including Histology and Bio-Chemistry.—A course of lectures and practical work extending over five terms.

In Applied Organic Chemistry.—A course of lectures and practical work extending over a period of two terms.

In Physics.—A course of ten lectures in Magnetism and Electricity as applied to Physiology extending over one term.

7. Candidates shall apply to the Registrar three weeks before the commencement of the Examination.

8. Each candidate shall pay to the Registrar through the Head of his College, or otherwise as the Syndicate may direct, a fee of Rs 30 for which a receipt shall be given.

9. Failure to pass the Examination shall not debar the candidate from appearing at any subsequent Examination on the submission of a new application and the payment of a fresh fee.

10. Candidates shall be examined in the following subjects :—

(1) Anatomy, Descriptive and Practical, including Embryology.

(2) Physiology, including Histology and Bio-Chemistry.

11. The Examination shall consist of two written papers and one practical examination in each subject.

12. To pass the Examination the candidate shall obtain in each subject 40 per cent. of the full marks in the practical test and 50 per cent. in the written and practical tests taken together. Those of the successful candidates who obtain 66 per cent. of the total marks obtainable shall be placed in the First Class.

13. A candidate who shall have obtained 40 per cent of the full mark in the practical test in either Anatomy or Physiology and 60 per cent. in the written and practical tests taken together may at his option be excused from appearing in that subject at a subsequent examination and shall be declared to have passed the whole examination when he shall have passed in both the subjects of the examination. Candidates passing the examination in this manner in compartments shall not be eligible for a class or for any prize or scholarship to be awarded at the examination.

14. As soon as practicable after the conclusion of the Examination, the Examiners shall publish a list of successful candidates in two Classes, viz., a First Class arranged in order of merit, and a Second Class arranged in alphabetical order.

15. A certificate will be given to those who pass the Examination.

15A. The last Intermediate Examination under the old regulations shall be held in September 1924. Thereafter the Intermediate examination shall be held under the new regulations but up to September 1926, with the addition of Materia Medica, Pharmacology and Practical Pharmacy which shall be conducted according to the old regulations. In and from April 1927 the examination in Materia Medica, Pharmacology and Practical Pharmacy shall be included in Part I of the Final Examination and shall be conducted according to the new regulations.

THE FINAL EXAMINATION FOR THE DEGREES OF M.B., B.S.

16. The Final Examination for the Degrees of M.B., B.S. shall be held in two Parts, Part I commencing on the first Monday in September and the first Monday in April, and Part II on the first Monday in November and the first Monday in April.

Part I.

17. No candidate shall be admitted to Part I of the Examination unless he shall have passed the Intermediate Examination and shall have been engaged in medical studies at a Medical College recognized by this University for at least five terms after passing that Examination.

18. Before admission to Part I of the Examination, each candidate shall have attended the following courses :—

In General Pathology.—A course of lectures, demonstrations and practical work extending over two terms and a course of practical work as *Post Mortem* Clerk on at least ten cases.

In Bacteriology.—A course of lectures and practical work extending over two terms.

In Forensic Medicine (excluding Mental Diseases), Hygiene and Public Health.—A course of systematic lectures and practical demonstrations extending in each case over one term.

In Materia Medica.—A course of lectures and demonstrations extending over two terms.

In Pharmacology.—A course of lectures extending over two terms.

In Practical Pharmacy.—A course of lectures and practical work extending over one term.

Each candidate shall also have—

(a) attended hospital practice with clinical lectures and instruction in the subjects of Medicine and Surgery during a period of at least five terms during which the candidate shall have completed courses as clinical clerk and as surgical dresser in the out-patient departments of a recognized Hospital for periods in each department of not less than one term's duration. These two courses may be taken concurrently ;

(b) completed three months at the practice of an Infectious Diseases Hospital with clinical instruction ;

(c) received practical instruction in Vaccination from one of the authorized Government Vaccinators.

19. Candidates shall apply to the Registrar three weeks before the commencement of the Examination.

20. Each candidate shall pay to the Registrar through the Head of his College, or otherwise as the Syndicate may direct a fee of Rs. 30. A receipt shall be given.

21. Candidates shall be examined in the following subjects :—

- (1) General Pathology and Bacteriology.
- (2) Hygiene.
- (3) Medical Jurisprudence, including Toxicology but excluding Mental Diseases.
- (4) Materia Medica and Pharmacology.

22. The examination shall consist of one written paper and one practical or oral examination in each subject.

23. Failure to pass shall not debar the candidate from appearing at any subsequent Examination on the submission of a new application and the payment of a fresh fee.

24. To pass the Examination the candidate shall obtain in each subject 40 per cent. of the full marks in the practical or oral test and 50 per cent. in the written and practical or oral tests taken together.

25. A candidate who has obtained 40 per cent. in the practical test and 60 per cent. in the written and practical tests taken together in any subject may at his option be excused from appearing in that subject at a subsequent examination but shall not be declared to have passed the whole of Part I until he shall have passed in all the subjects of the examination. Candidates passing the examination in this manner in compartments shall not be eligible for a class or for any prize or scholarship to be awarded at the examination.

26. As soon as practicable after the conclusion of the Examination, the Examiners shall publish a list of successful candidates arranged in alphabetical order.

27. A certificate will be given to those who pass the Examination.

Part II.

28. No candidate shall be admitted to Part II of the Final Examination unless he shall have passed in the whole of Part I of that Examination and shall have been engaged in medical studies at a Medical College recognized by this University for at least one clear term after passing in the whole of Part I of the Examination and for at least nine terms after passing the Intermediate Examination.

29. Before admission to Part II of the Final Examination, each candidate shall have attended the following courses :—

In Medicine, including Diseases of Children—

(a) A course of systematic lectures in Medicine including Clinical Pathology and Therapeutics extending over six terms.

(b) A course of clinical lectures and demonstrations extending over nine terms.

(c) A course of demonstrations in Applied Anatomy and Applied Physiology extending over three terms.

In Surgery and Surgical Pathology, including Surgical Diseases of Children—

(a) A course of systematic lectures extending over six terms.

(b) A course of clinical lectures and demonstrations extending over nine terms.

(c) A course of demonstrations in Applied Anatomy and Applied Physiology extending over three terms.

(d) A course of instruction in Operative Surgery extending over one term.

In Midwifery and Diseases of Women—

(a) A course of systematic lectures extending over six terms.

(b) A course of demonstrations and clinical lectures extending over six terms.

In Ophthalmology—

A course of systematic lectures extending over one term.

In Mental Diseases—

A course of not less than ten lectures and demonstrations to be completed in properly constituted Mental Hospital.

In Applied Physics—

A course of ten lectures.

Each candidate shall also have been afforded instruction in the form of systematic and clinical lectures in the following special subjects :—

Diseases of the Ear, Nose and Throat.

Diseases of Skin.

Electro-therapeutics.

Dentistry.

Tuberculosis.

Venereal Diseases.

Anæsthetics.

Each candidate shall further have attended hospital practice during a period of at least nine terms, including the terms in the out-patient departments as laid down in the regulations for Part I, and including also the following periods which shall have been completed subsequent to the periods spent in the out-patient departments :—

(a) *Medical Wards*—as Clinical Clerk for a period of not less than two terms.

(b) *Surgical Wards*—as Surgical Dresser for a period of not less than two terms.

(c) *Midwifery and Gynæcological Wards*—to be completed after finishing (a) and (b)—as Clinical Clerk and Dresser for a period of not less than one term during which each candidate must have attended five labours conducted under the supervision of a qualified member of the medical staff and subsequently conducted five labour cases in the Maternity Wards of a recognized Hospital. Each student shall, either at the same time or subsequently, also conduct under adequate supervision a further ten cases of labour so as to complete not less than twenty cases in all; he shall have also attended the Gynæcological wards and out-patient department of a recognized hospital which provides an ante-natal clinic, for one term.

(d) *Ophthalmology*.—A period of clinical instruction of not less than one term's duration during which instruction shall be given in the use of the ophthalmoscope and in the reading of refractions.

During the final year of the curriculum the candidates shall have received clinical and practical instruction in the special departments mentioned in the last section of the preceding paragraph.

30. Candidates shall apply to the Registrar three weeks before the commencement of the Examination.

31. Each candidate shall pay to the Registrar through the Head of his College, or otherwise as the Syndicate may direct, a fee of Rs. 30. A receipt will be given.

32. Candidates shall be examined in the following subjects :—

(1) The Principles and Practice of Medicine and Therapeutics, including Mental Diseases, Skin Diseases and Anatomy and Physiology as applied to Medicine.

(2) The Principles and Practice of Surgery, including Ophthalmology, Diseases of the Ear, Nose and Throat, and Anatomy and Physiology as applied to Surgery.

(3) Midwifery and Gynæcology.

33. The Examination shall consist of two written papers and an oral and a practical examination in each subject.

34. Failure to pass the Examination shall not debar the candidate from appearing at any subsequent Examination on the submission of a new application and the payment of a fresh fee.

35. To pass the Examination the candidate shall obtain (a) 50 per cent. of the full marks in each subject and (b) 40 per cent. in the oral and practical tests in each subject taken together. Those of the successful candidates who obtain 66 per cent. of the total marks obtainable in Parts I and II together shall be placed in the First Class.

36. A candidate who has obtained 40 per cent. in the practical test and 60 per cent. in the written and practical tests taken together in any subject may at his option be excused from appearing in that subject at a subsequent examination but shall not be

declared to have passed in Part II until he shall have passed in all the subjects of the examination. Candidates passing the examination in this manner in compartments shall not be eligible for a class or for any prize or scholarship to be awarded at the examination.

37. As soon as practicable after the conclusion of the Examination, the Examiners shall publish a list of successful candidates in two Classes, viz., a First Class arranged in order of merit according to the marks obtained by the candidates in the two Parts added together, and a Second Class arranged in alphabetical order.

38. A certificate will be given to those who pass the Examination.

38A. The last Final Examination under the old regulations shall be held in June 1927 and the first Examination under the new regulations shall be held for Part I in April 1927 and for Part II in November 1927.

Page 193:—In regulation 33, for "Monday following the Monday fixed for the commencement of the B.A. Honours Examination" read "third Monday in June".

Page 195:—In regulation 41, line 2, for "first Monday in March" read "third Monday in June".

Page 197:—In regulation 49, for "first Monday in March" read "third Monday in June".

Page 198:—In regulation 57, line 2, for "first Monday in March" read "third Monday in June".

Page 465:—Add the following at the end of the list of University representatives on the Bombay Legislative Council:—

"1923. November, Mukund Ramrao Jayakar, M.A., LL.B., Bar.-at-Law."

Page 510:—Add the following at the end of the list of endowments, line 4:—

"Principal A. M. Masani Scholarships:—Two scholarships of Rs. 15 per mensem each will be awarded annually to students of the Baroda College passing with the highest number of marks at the Intermediate Arts and Intermediate Science Examinations and prosecuting further studies at the Baroda College."

Page 570:—Insert the following between the paragraphs headed B.Com. and B.Sc.:—

"B. T.

Gown:—Black silk or stuff, shape as B.A.

Hood:—Black silk, bound with rose coloured silk, two inches wide."

Page 700:—Add the following at the end of the list of Scholarships attached to the M.A. Examination:—

"9. The Sir Pherozeshah M. Mehta Research Scholarship—

(Rs. 850 per annum).—Awarded triennially to the graduate of this University who passes the Examination with the highest total of marks in Branch II (History) on condition that he does research work in either History or Economics to the satisfaction of the Syndicate during his tenure of the Scholarship.—The Scholar to submit at the end of each year for approval by the Syndicate a full report of the Research work done by him during the year—Tenable for three years."

Page 789:—Add the following after the list of M.A. English text-books for 1925:—

1926,

Poetry—

1. Chaucer:—Prologue; Minor Poems 8 to 20, both inclusive, in the one volume edition of Chaucer's Complete Works, edited by Skeat. (Clarendon Press).

II. Acts.

ACT OF INCORPORATION.

ACT No. XXII of 1857.

PASSED BY THE LEGISLATIVE COUNCIL OF INDIA.

(Received the Assent of the Governor General on the 18th July 1857.)

AN ACT to establish and incorporate a University at Bombay.

WHEREAS, for the better encouragement of Her Majesty's subjects of all classes and denominations within the Presidency of Bombay and other parts of India in the pursuit of a regular and liberal course of education, it has been determined to establish a University at Bombay for the purpose of ascertaining, by means of examination, the persons who have acquired proficiency in different branches of Literature, Science, and Art, and of rewarding them by Academical Degrees as evidence of their respective attainments, and marks of honour proportioned thereunto; and whereas, for effectuating the purposes aforesaid, it is expedient that such University should be incorporated: It is enacted as follows: (that is to say)—

- I. The following persons, namely, The Right Honourable
Incorporation. JOHN, LORD ELPHINSTONE, Governor of
Bombay,
The Honourable Sir WILLIAM YARDLEY, Knight, Chief Justice
of the Supreme Court of Judicature at Bombay, *Ex-officio*,
The Right Reverend JOHN HARDING, Doctor of Divinity, Bishop
of Bombay, *Ex-officio*,
The Honourable Sir HENRY SOMERSET, Lieutenant-General,
Knight Companion of the Most Honourable Order of the Bath,
Commander-in-Chief of the Forces in Bombay, *Ex-officio*,
The Honourable JAMES GRANT LUMSDEN, Member of the Council
of Bombay, *Ex-officio*,
The Honourable ARTHUR MALET, Member of the Council of Bom-
bay, *Ex-officio*,
EDWARD IRVINE HOWARD, Esquire, Director of Public Instruction,
Presidency Division, *Ex-officio*,
ROBERT HAINES, Esquire, M.B., Acting Educational Inspector,
Presidency Division, *Ex-officio*,
C. MOREHEAD, Esquire, M.D., Principal of the Grant Medical
College, *Ex-officio*,

JOHN HARKNESS, Esquire, LL.D., Principal of the Elphinstone College, *Ex-officio*,

The Reverend JAMES McDUGALL, Acting Principal of the Poona College, *Ex-officio*,

PHILIP WILLIAM LEGEY, Esquire, Member of the Legislative Council of India,

The Honourable Sir MATTHEW RICHARD SAUSSE, Knight, Puisne Judge of the Supreme Court of Judicature at Bombay,

Sir JAMSETJEE JEEJEEBHAY, Knight,

METCALF LARKEN, Esquire, Judge of the Sudder Court in Bombay, and President of the late Board of Education,

JUGONNATH SUNKERSETT, Esquire, Member of the late Board of Education,

BOMANJEE HORMUSJEE, Esquire, Member of the late Board of Education,

BHAO DAJEE, Esquire, Graduate of the Grant Medical College, Member of the late Board of Education,

MATTHEW STOVELL, Esquire, Surgeon in the Bombay Army, Secretary to the late Board of Education,

CLAUDIUS JAMES ERSKINE, Esquire, Civil Service, late Director of Public Instruction,

WILLIAM EDWARD FRERE, Esquire, Member of the Royal Asiatic Society, and President of the Bombay Branch of the Royal Asiatic Society, Judge of the Sudder Court in Bombay,

Major-General CHARLES WADDINGTON, Companion of the Most Honourable Order of the Bath, Chief Engineer of Public Works,

The Reverend JOHN WILSON, Doctor of Divinity, Fellow of the Royal Society, Honorary President of the Bombay Branch of the Royal Asiatic Society,

The Reverend PHILIP ANDERSON, Master of Arts, Chaplain on the Bombay Establishment,

HENRY BARTLE EDWARD FRERE, Esquire, Commissioner in Sind,

Lieutenant EDWARD FREDERICK TIERNEY FERGUSSON, Indian Navy,

MAHOMED YUSOOF MOORGAY, Cazeer of Bombay,

JAMES JOHN BERKLEY, Esquire, Fellow of the Geographical Society, M.I.C.E., President of the Bombay Mechanics' Institute, and Chief Resident Engineer of the Great Indian Peninsula Railway Company,

HENRY LACON ANDERSON, Esquire, Secretary to Government,

Being the first Chancellor, Vice-Chancellor, and Fellows of the said University, and all the persons who may hereafter become or be appointed to be Chancellor, Vice-Chancellor, or Fellows as hereinafter mentioned, so long as they shall continue to be such Chancellor, Vice-Chancellor, or Fellows, are hereby constituted and declared to be one Body Politic and Corporate by the name of the University of Bombay; and such Body Politic shall by such name have perpetual succession and shall have a common Seal, and by such name shall sue and be sued, implead and be impleaded, and answer and be answered unto, in every Court of Justice within the

territories in the possession and under the Government of the East India Company.

II. The Body Corporate shall be able and capable in law to take, purchase, and hold any property, moveable or immovable, which may become vested in it for the purposes of the University, by virtue of any purchase, grant, testamentary disposition, or otherwise; and shall be able and capable in law to grant, demise, alien, or otherwise dispose of all or any of the property, moveable or immovable, belonging to the University; and also to do all other matters incidental or appertaining to a Body Corporate.

III. If any person being Chancellor, Vice-Chancellor or Fellow of the said University, shall leave India without the intention of returning thereto, his office shall thereupon become vacant.

IV. The Governor of Bombay for the time being shall be the Chancellor of the said University, and the first Chancellor shall be the Right Honourable JOHN, LORD ELPHINSTONE.

V. The first Vice-Chancellor of the said University shall be Sir WILLIAM YARDLEY, Knight. The office of Vice-Chancellor shall be held for two years only; and the Vice-Chancellor hereinbefore nominated shall go out of office on the 1st day of January 1859. Whenever a vacancy shall occur in the office of Vice-Chancellor of the said University by death, resignation, departure from India, effluxion of time, or otherwise, the Governor of Bombay in Council shall, by notification in the *Bombay Gazette*, nominate a fit and proper person, being one of the Fellows of the said University, to be Vice-Chancellor in the room of the person occasioning such vacancy. Provided that, on any vacancy in the said office which shall occur by effluxion of time, the Governor of Bombay in Council shall have power to re-appoint the Vice-Chancellor hereinbefore nominated, or any future Vice-Chancellor to such office.

VI. (*Repealed by the Indian Universities Act No. VIII of 1904.*)

VII. The Governor of Bombay in Council may cancel the appointment of any person already appointed or hereafter to be appointed a Fellow of the University, and as soon as such order is notified in the *Gazette* the person so appointed shall cease to be a Fellow.

VIII. The Chancellor, Vice-Chancellor, and Fellows for the time being shall have the entire management of and superintendence over the affairs, concerns, and property of the said University; and in all cases unprovided for by this Act, it shall be lawful for the Chancellor, Vice-Chan-

cellor, and Fellows to act in such manner as shall appear to them best calculated to promote the purposes intended by the said University.

IX—XIV. (*Repealed by the Indian Universities Act No. VIII of 1904.*)

XV. The said Chancellor, Vice-Chancellor, and Fellows shall have power to charge such reasonable fees for the degrees to be conferred by them and upon admission into the said University, and for continuance therein, as they, with the approbation of the Governor of Bombay in Council, shall from time to time see fit to impose. Such fees shall be carried to one General Fee Fund for the payment of expenses of the said University, under the directions and regulations of the Governor of Bombay in Council, to whom the accounts of income and expenditure of the said University shall, once in every year, be submitted for such examination and audit as the said Governor of Bombay in Council may direct.

THE INDIAN UNIVERSITIES ACT.

ACT No. VIII OF 1904.

PASSED BY THE COUNCIL OF THE GOVERNOR GENERAL OF INDIA.

(Received the Assent of the Governor General on the 24th March 1904.)

THE FIRST SCHEDULE.—*EX-OFFICIO* FELLOWS OF THE UNIVERSITY.

THE SECOND SCHEDULE.—ENACTMENTS REPEALED.

An Act to amend the law relating to the Universities of British India.

WHEREAS by Acts II, XXII and XXVII of 1857, Act XIX of 1882 and Act XVIII of 1887 Universities were established and incorporated at Calcutta, Bombay, Madras, Lahore and Allahabad;

And whereas by Act XLVII of 1860 the Universities of Calcutta, Madras and Bombay were empowered to confer such degrees as should be appointed in the manner provided by the Act;

And whereas by Act I of 1884 the Universities of Calcutta, Madras and Bombay were further empowered to confer the Honorary Degree of Doctor in the Faculty of Law;

And whereas it is expedient to amend the law relating to the Universities of British India;

It is hereby enacted as follows :—

Short title and commencement.

1. (1) This Act may be called the Indian Universities Act, 1904; and

(2) It shall come into force on such date as the Government may fix in this behalf* by notification in the Gazette of India or the local official Gazette, as the case may be.

2. (1) This Act shall be deemed to be part of each of the Acts by which the said five Universities were respectively established and incorporated.

Interpretation.

(2) In this Act, unless there is anything repugnant in the subject or context—

(a) the term “College” or “affiliated College” includes any collegiate institution affiliated to or maintained by the University;

(b) the expression “the Government” means in relation to the University of Calcutta the Governor General in Council, and in relation to the other Universities the Local Government; and

(c) the expressions “the University” and “the Act of Incorporation” and any expression denoting any University authority or officer or any statute, regulation, rule or by-law of the University shall be construed with reference to each of the said Universities respectively.

The University.

3. The University shall be and shall be deemed to have been incorporated for the purpose (among others) of making provision for the instruction of students, with power to appoint University Professors and Lecturers, to hold and manage educational endowments, to erect, equip and maintain University libraries, laboratories and museums, to make regulations relating to the residence and conduct of students, and to do all Acts, consistent with the Act of Incorporation and this Act, which tend to the promotion of study and research.

* In exercise of the powers conferred by this sub-section the Governor of Bombay in Council fixed the eighteenth day of July 1904 as the date on which the Act should come into force in the Bombay Presidency.

4. (1) Notwithstanding anything contained in the Act of Incorporation Constitution and powers of the Body Corporate of the University shall consist of—

- (a) the Chancellor;
- (b) in the case of the University of Calcutta, the Rector;
- (c) the Vice-Chancellor;
- (d) the *ex-officio* Fellows; and
- (e) the Ordinary Fellows—
 - (i) elected by registered Graduate or by the Senate,
 - (ii) elected by the Faculties, and
 - (iii) nominated by the Chancellor.

(2) The Ordinary Fellows shall, save as herein otherwise provided, hold office for five years :

Provided that an Ordinary Fellow who has vacated his office may, subject to the provisions of this Act, be elected or nominated to be an Ordinary Fellow.

(3) The Body Corporate shall be the Senate of the University, and all powers which are by the Act of Incorporation or by this Act conferred upon the Senate, or upon the Chancellor, Vice-Chancellor and Fellows in their corporate capacity, or, in the case of the University of Calcutta, upon the Chancellor, Rector, Vice-Chancellor and Fellows in their corporate capacity, shall be vested in, and exercised by, the Senate constituted under this Act, and all duties and liabilities imposed upon the University by the Act of Incorporation shall be deemed to be imposed upon the Body Corporate as constituted under this Act.

(4) No act done by the University shall be deemed to be invalid merely by reason of any vacancy among either class of elected Ordinary Fellows, or by reason of the total number of Ordinary Fellows or of members of the profession of education to be included among Ordinary Fellows, being less than the minimum prescribed by this Act.

Fellows.

5. (1) Notwithstanding anything contained in the Act of Incorporation the persons for the time being performing the duties of the offices mentioned in the list contained in the first schedule to this Act or added to the said list under sub-section (2) shall be the *ex-officio* Fellows of the University.

Ex-officio Fellows.

(2) The Government may, by notification published in the Gazette of India or in the local official Gazette, as the case may be, make additions to, or alterations in, the list of offices contained in the said schedule :

Provided that the number of *ex-officio* Fellows shall not exceed ten.

6. (1) In the case of the Universities of Calcutta, Bombay and Madras, the number of Ordinary Fellows shall not be less than fifty nor exceed one hundred ; and of such number—

Ordinary Fellows.

- (a) ten shall be elected by registered Graduates;
- (b) ten shall be elected by the Faculties; and
- (c) the remainder shall be nominated by the Chancellor.

(2) In the case of the Universities of the Punjab and Allahabad, the number of Ordinary Fellows shall not be less than forty nor exceed seventy five; and of such number—

- (a) ten shall be elected by the Senate or by registered Graduates;

(b) five shall be elected by the Faculties; and

(c) the remainder shall be nominated by the Chancellor.

(3) The election of any Ordinary Fellow shall be subject to the approval of the Chancellor.

(4) Elections of Ordinary Fellows by the Faculties and nominations of such Fellows by the Chancellor under this section shall be made in such manner as to secure that not less than two-fifths of the Fellows so elected and so nominated respectively shall be persons following the profession of education.

7. (1) Once in every year, on such date as the Chancellor may appoint in this behalf, there shall, if necessary, be an election to fill any vacancy among the Ordinary Fellows elected by registered Graduates.

(2) The Syndicate shall maintain a register on which any Graduate who—

(a) has taken the degree of Doctor or Master in any Faculty, or

(b) has graduated in any Faculty not less than ten years before registration,

shall, subject to the payment of an initial fee of such amount as may be prescribed by the regulations, be entitled to have his name entered upon application made within the period of three years from the commencement of this Act or of one year from the date on which he becomes so entitled :

Provided that if such application is made after the expiry of either of the said periods, the applicant shall be entitled to have his name entered on payment of the said initial fee, and of such further sum as may be prescribed by the regulations.

(3) The name of any Graduate entered on the register shall, subject to the payment of an annual fee of such amount as may be prescribed by the regulations, be retained thereon, and, in case of default, shall be removed therefrom, but shall, at any time, be re-entered upon payment of all arrears :

Provided that a Graduate whose name has been already entered on the register may at any time compound for all subsequent payments of the annual fee by paying the sum prescribed in this behalf by the regulations.

(4) No person other than a Graduate whose name is entered on the said register shall be qualified to vote or to be elected at an election held under sub-section (1).

(5) A Graduate registered under this section shall be entitled to such further privileges as may be determined by the regulations.

8. (1) The provisions of section 7 shall not apply to the University of the Punjab or to the University of Allahabad until the Chancellor, with the previous sanction of the Governor General in Council and by notification in the local official Gazette, so directs; and until such time the Ordinary Fellows of the said Universities who would be elected by registered Graduates if the said provisions were in force, shall be elected by the Senate.

(2) In the case of the University of the Punjab and the University of Allahabad, there shall, if necessary, be an election, once in every year, on such date as the Chancellor may appoint in this behalf, to fill any vacancy among the Ordinary Fellows elected by the Senate.

9. (1) Once in every year on such date as the Chancellor may appoint in this behalf, there shall, if necessary, be an election to fill any vacancy among the Ordinary Fellows elected by the Faculties.

(2) An election under sub-section (1) shall be held subject to such directions prescribing the qualifications of the persons to be elected as may, from time to time, be given by the Chancellor, with a view to secure the return of duly qualified persons and the fair representation of different branches of study in the Senate.

10. Subject to the provisions of section 6, the Chancellor may nominate any number of fit and proper persons to be Ordinary Fellows.

Nomination by the Chancellor.

Vacating of office.

11. (1) Any Ordinary Fellow may, by letter addressed to the Chancellor, resign his office.

(2) Where any Ordinary Fellow has not attended a meeting of the Senate, other than a Convocation, during the period of one year, the Chancellor may declare his office to be vacated.

Transitory Provisions.

12. In their application to the election and nomination of Ordinary Fellows within the period of one year after the commencement of this Act and to the current business of the University, the provisions of this Act shall be read as subject to the following restrictions and modifications:—

Election and nomination of Ordinary Fellows within one year after commencement of Act, and temporary continuance of existing University administration.

- (a) In the case of the Universities of Calcutta, Bombay and Madras the Chancellor shall, as soon as may be after the commencement of this Act, make an order directing that the Ordinary Fellows who under the said provisions are to be elected by registered Graduates, shall be elected by the elected Fellows holding office at the commencement of this Act, or by such Graduates of the University as the Chancellor may determine, or partly by elected Fellows and partly by such Graduates, and in such manner as the Chancellor may direct.
- (b) When the Ordinary Fellows mentioned in clause (a) have been elected, the Chancellor shall proceed to the nomination of Ordinary Fellows under section 6, sub-section (1), clause (c).
- (c) The Ordinary Fellows mentioned in clauses (a) and (b) shall, as soon as may be after their appointment and in such manner as the Chancellor may direct, elect the Fellows who under the said provisions are to be elected by the Faculties.
- (d) In the case of the Universities of the Punjab and Allahabad, the Chancellor shall, as soon as may be after the commencement of this Act, proceed to nominate Ordinary Fellows under section 6, sub-section (2), clause (c).
- (e) When Ordinary Fellows have been appointed under clause (d), the Chancellor shall make an order directing that the Fellows who under the said provisions are to be elected by the Senate, shall be elected by the Ordinary Fellows appointed under clause (d), or by elected Fellows holding office at the commencement of this Act, or partly by such Ordinary Fellows and partly by elected Fellows, in such manner as the Chancellor may direct.
- (f) The Ordinary Fellows mentioned in clauses (d) and (e) shall, as soon as may be after their appointment, and in such manner as the Chancellor may direct, elect the Fellows who under the said provisions are to be elected by the Faculties.
- (g) An election under clause (c) or clause (f) shall be made subject to such directions prescribing the qualifications of the persons to be elected as may be given by the Chancellor, with a view to secure

the return of duly qualified persons and a fair representation of different branches of study in the Senate.

- (h) As soon as Ordinary Fellows have been nominated and elected under clauses (a), (b) and (c), or under clauses (d), (e) and (f), as the case may be, and the persons so elected have been approved by the Chancellor, the Chancellor shall declare that the Body Corporate of the University has been constituted in accordance with the provisions of this Act, and shall append to the declaration a list of the Senate and shall forward the said declaration and the appended list to the Governor General in Council, who shall cause the declaration and list to be published in the Gazette of India.
- (i) The seniority of the Fellows included in the list mentioned in clause (h) shall be determined by the order in which their names appear in the list.
- (j) Until the said declaration is published under clause (h), the Fellows holding office at the commencement of this Act shall, together with the Chancellor and the Vice-Chancellor, continue to be the Senate of the University, and shall be entitled to exercise the powers conferred upon them by the Act of Incorporation.
- (k) Every Ordinary Fellow elected or nominated under this section shall, unless his Fellowship is previously vacated by death, resignation or any other cause, hold office for not less than three years.
- (l) At or about the end of the third year from the publication of the declaration mentioned in clause (h), the names of, as nearly as may be, one-fifth of the total initial number—
 - (i) of Ordinary Fellows elected under clause (a) or clause (e) as the case may be,
 - (ii) of Ordinary Fellows elected under clause (c) or clause (f), and
 - (iii) of Ordinary Fellows nominated by the Chancellor,
 (after deducting from the said one-fifth the names in each class which have previously been removed from the list mentioned in clause (h) by reason of death, resignation or any other cause) shall be drawn by lot from among the elected and the nominated Ordinary Fellows whose names were included in the list mentioned in clause (h) and those whose names are so shown shall thereupon cease to be Ordinary Fellows.
- (m) At or about the end of the fourth, fifth and sixth years from the publication of the said declaration, the names of Ordinary Fellows shall be drawn by lot from each class of Ordinary Fellows included in the said list, in the manner provided in clause (l), so as to secure that, as nearly as may be, one-fifth of the Fellowships of the Ordinary Fellows so included in each class shall be vacated in each year.
- (n) An Ordinary Fellow elected or nominated under this section, who has not previously vacated his Fellowship, shall cease to be a Fellow at the end of the seventh year from the publication of the said declaration.
- (o) The Vice-Chancellor holding office at the commencement of this Act shall continue to hold office until the publication of the said declaration, and shall, if he is a member of the Senate as constituted under this Act, continue to hold office as Vice-Chancellor for the remainder of the term for which he was originally appointed.
- (p) The members of the Syndicate holding office at the commencement of this Act shall continue to conduct the executive business of the

University until the publication of the said declaration ; and, upon such publication, the Senate shall, in such manner as the Chancellor may direct, appoint a provisional Syndicate to conduct the executive business of the University until the Syndicate has been constituted under this Act.

- (q) The Senate as constituted under this Act may give orders for the provisional constitution of Faculties, Boards of Studies and of any Board or Committee of the Senate, pending the constitution of such Faculties, Boards and Committees in conformity with the regulations.
- (r) University Examiners and all officers and servants of the University shall continue to hold office and to act, subject to the conditions governing their tenure of office or employment, except in so far as such conditions may be altered by competent authority.
- (s) The statutes, regulations and by-laws of the University in force at the commencement of this Act shall continue to be in force, except in so far as the said statutes, regulations and by-laws shall be altered or repealed by competent authority.

Honorary Fellows.

Honorary Fellows. 13. (1) (a) A Fellow holding office at the commencement of this Act shall cease to be a Fellow.

(b) Where a Fellow included in clause (a) does not become a Fellow under this Act, he shall be an Honorary Fellow for life.

(c) Where a Fellow included in clause (a) becomes a Fellow under this Act, he shall, whenever and so often as he ceases to be a Fellow under this Act, become an Honorary Fellow as provided in clause (b).

(2) The Chancellor may nominate any person to be an Honorary Fellow for life, who is eminent for his attainments in any branch of learning, or is an eminent benefactor of the University, or is distinguished for services rendered to the cause of education generally.

(3) Notwithstanding anything contained in this section, any Fellow who at the commencement of this Act is entitled as such to vote for the election of any person to be a member of any Council for the purpose of making laws and regulations or of any local authority shall continue to be so entitled as if this Act had not been passed.

Faculties and Syndicate.

14. (1) Nothing contained in the Act of Incorporation shall be deemed to prohibit the constitution of a new Faculty or the abolition or reconstitution of any existing Faculty by the Senate under regulations made in accordance with the provisions of this Act.

(2) Regulations made under sub-section (1) may—

(a) provide for the assignment of Fellows to the several Faculties by order of the Senate ; and

(b) empower the Fellows so assigned to add to their number, in such manner and for such period as may be prescribed, Graduates in the Faculty and other persons possessing special knowledge of the subjects of study represented by the Faculty :

Provided that the number of persons so to be added to the Faculty shall not exceed half the number of Fellows assigned to the Faculty.

(3) A person added to a Faculty under sub-section (2), clause (b), shall have the right to take part in the ordinary business of the Faculty, and in any

election of an Ordinary Fellow by the Faculty, but shall not be entitled to take part in the election of the Syndicate.

15. (1) The executive government of the University shall be vested in the Syndicate, which shall consist of—

- (a) the Vice-Chancellor as Chairman ;
- (b) the Director of Public Instruction for the Province in which the head-quarters of the University are situated ; and, in the case of the University of Allahabad, also the Director of Public Instruction in the Central Provinces ; and
- (c) not less than seven or more than fifteen *ex-officio* or Ordinary Fellows elected by the Senate or by the Faculties in such manner as may be provided by the regulations, to hold office for such period as may be prescribed by the regulations.

(2) The regulations referred to in sub-section (1) shall be so framed as to secure that a number not falling short by more than one of a majority of the elected members of the Syndicate shall be Heads of, or Professors in, Colleges affiliated to the University.

(3) If in the case of any election the question is raised whether any person is or is not a Professor within the meaning of sub-section (2), the question shall be decided by the Senate.

Degrees.

16. The Senate may institute and confer such degrees, and grant such diplomas, licenses, titles and marks of honour in respect of degrees and examinations as may be prescribed by regulation.

17. Where the Vice-Chancellor and not less than two-thirds of the other members of the Syndicate recommend that an honorary degree be conferred on any person on the ground that he is in their opinion, by reason of eminent position and attainments, a fit and proper person to receive such a degree and where their recommendation is supported by not less than two-thirds of the Fellows present at a meeting of the Senate and is confirmed by the Chancellor, the Senate may confer on such person the honorary degree so recommended without requiring him to undergo any examination.

18. Where evidence is laid before the Syndicate showing that any person on whom a degree, diploma, license, title or mark of honour conferred or granted by the Senate has been convicted of what is, in their opinion, a serious offence, the Syndicate may propose to the Senate that the degree, diploma, license, title or mark of honour be cancelled, and, if the proposal is accepted by not less than two-thirds of the Fellows present at a meeting of the Senate and is confirmed by the Chancellor, the degree, diploma, license, title or mark of honour shall be cancelled accordingly.

Affiliated Colleges.

19. Save on the recommendation of the Syndicate, by special order of the Senate, and subject to any regulations made in this behalf, no person shall be admitted as a candidate at any University examination other than an examination for matriculation, unless he produces a certificate from a College affiliated to the University, to the effect that he has completed the course of instruction prescribed by regulation.

20. Any College affiliated to the University before the passing of this Act may continue to exercise the rights conferred upon it by such affiliation, save in so far as such rights may be withdrawn or restricted

in the exercise of any power conferred by the Act of Incorporation or by this Act.

21. (1) A College applying for affiliation to the University shall send
 Affiliation. a letter of application* to the Registrar, and shall satisfy the Syndicate—

- (a) that the College is to be under the management of a regularly constituted governing body ;
- (b) that the qualifications of the teaching staff and the conditions governing their tenure of office are such as to make due provision for the courses of instruction to be undertaken by the College ;
- (c) that the buildings in which the College is to be located are suitable, and that provision will be made, in conformity with the regulations, for the residence, in the College or in lodgings approved by the College, of students not residing with their parents or guardians, and for the supervision and physical welfare of students ;
- (d) that due provision has been or will be made for a library ;
- (e) where affiliation is sought in any branch of experimental science, that arrangements have been or will be made in conformity with the regulations for imparting instruction in that branch of science in a properly equipped laboratory or museum ;
- (f) that due provision will, so far as circumstances may permit, be made for the residence of the Head of the College and some members of the teaching staff in or near the College or the place provided for the residence of students ;
- (g) that the financial resources of the College are such as to make due provision for its continued maintenance ;
- (h) that the affiliation of the College, having regard to the provision made for students by other Colleges in the same neighbourhood, will not be injurious to the interests of education or discipline ; and
- (i) that the College rules fixing the fees (if any) to be paid by the students have not been so framed as to involve such competition with any existing College in the same neighbourhood as would be injurious to the interests of education.

The application shall further contain an assurance that after the College is affiliated any transference of management and all changes in the teaching staff shall be forthwith reported to the Syndicate.

(2) On receipt of a letter of application under sub-section (1), the Syndicate shall—

- (a) direct a local inquiry to be made by a competent person authorized by the Syndicate in this behalf ;
- (b) make such further inquiry as may appear to them to be necessary ; and
- (c) report to the Senate on the question whether the application should be granted or refused, either in whole or in part, embodying in such report the results of any inquiry under clauses (a) and (b).

And the Senate shall, after such further inquiry (if any) as may appear to them to be necessary, record their opinion on the matter.

(3) The Registrar shall submit the application and all proceedings of the Syndicate and Senate relating thereto to the Government, who, after such

* The Syndicate have resolved that an application for the affiliation of a College must reach the Registrar's Office at least nine months before the date on which it is proposed to start the College. This resolution also applies to an application for the extension of affiliation.

further inquiry as may appear to them to be necessary, shall grant or refuse the application or any part thereof.

(4) Where the application or any part thereof is granted, the order of the Government shall specify the courses of instruction in respect of which the College is affiliated; and, where the application or any part thereof is refused, the grounds of such refusal shall be stated.

(5) An application under sub-section (1) may be withdrawn at any time before an order is made under sub-section (3).

22. Where a College desires to add to the courses of instruction in respect of which it is affiliated the procedure prescribed by section 21 shall, so far as may be, be followed.

Extension of affiliation.

23. (1) Every College affiliated to the University, whether before or after the commencement of this Act, shall furnish such reports, returns and other information as the Syndicate may require to enable it to judge of the efficiency of the College.

Inspection and reports.

(2) The Syndicate shall cause every such College to be inspected from time to time by one or more competent persons authorized by the Syndicate in this behalf.

(3) The Syndicate may call upon any College so inspected to take, within a specified period, such action as may appear to them to be necessary in respect of any of the matters referred to in section 21, sub-section (1).

24. (1) A member of the Syndicate who intends to move that the rights conferred on any College by affiliation be withdrawn, in whole or in part, shall give notice of his motion and shall state in writing the grounds on which the motion is made.

Disaffiliation.

(2) Before taking the said motion into consideration, the Syndicate shall send a copy of the notice and written statement mentioned in sub-section (1) to the Head of the College concerned, together with an intimation that any representation in writing submitted within a period specified in such intimation on behalf of the College will be considered by the Syndicate:

Provided that the period so specified may, if necessary, be extended by the Syndicate.

(3) On receipt of the representation or on expiration of the period referred to in sub-section (2), the Syndicate, after considering the notice of motion, statement and representation and after such inspection by any competent person authorized by the Syndicate in this behalf, and such further inquiry as may appear to them to be necessary, shall make a report to the Senate.

(4) On receipt of the report under sub-section (3), the Senate shall, after such further inquiry (if any) as may appear to them to be necessary, record their opinion on the matter.

(5) The Registrar shall submit the proposal and all proceedings of the Syndicate and Senate relating thereto to the Government, who, after such further inquiry (if any) as may appear to them to be necessary, shall make such order as the circumstances may, in their opinion, require.

(6) Where by an order made under sub-section (5) the rights conferred by affiliation are withdrawn, in whole or in part, the grounds for such withdrawal shall be stated in the order.

Regulations.

25. (1) The Senate, with the sanction of the Government, may from time to time make regulations consistent with the Act of Incorporation as amended by this Act and with this Act to provide for all matters relating to the University.

(2) In particular, and without prejudice to the generality of the foregoing power, such regulations may provide for—

- (a) the procedure to be followed in holding any election of Ordinary Fellows ;
- (b) the constitution, reconstitution or abolition of Faculties, the proportion in which the members, other than the *ex-officio* members, of the Syndicate shall be elected to represent the various Faculties, and the mode in which such election shall be conducted ;
- (c) the procedure at meetings of the Senate, Syndicate and Faculties and the quorum of members to be required for the transaction of business ;
- (d) the appointment of Fellows and others to be members of Boards of Studies, and the procedure of such Boards and the quorum of members to be required for the transaction of business ;
- (e) the appointment and duties of the Registrar and of officers and servants of the University, and of Professors and Lecturers appointed by the University ;
- (f) the appointment of Examiners, and the duties and powers of Examiners in relation to the examinations of the University ;
- (g) the form of the certificate to be produced by a candidate for examination under section 19 and the conditions on which any such certificate may be granted ;
- (h) the registers of Graduates and students to be kept by the University and the fee (if any) to be paid for the entry or retention of a name on any such register ;
- (i) the inspection of Colleges and the reports, returns and other information to be furnished by Colleges ;
- (j) the registers of students to be kept by Colleges affiliated to the University ;
- (k) the rules to be observed and enforced by Colleges affiliated to the University in respect of the transfer of students ;
- (l) the fees to be paid in respect of the courses of instruction given by Professors or Lecturers appointed by the University ;
- (m) the residence and conduct of students ;
- (n) the courses of study to be followed and the conditions to be complied with by candidates for any University examination, other than an examination for matriculation, and for degrees, diplomas, licenses, titles, marks of honour, scholarships and prizes conferred or granted by the University ;
- (o) the conditions to be complied with by schools desiring recognition for the purpose of sending up pupils as candidates for the matriculation examination and the conditions to be complied with by candidates for matriculation, whether sent up by recognised schools or not ;

- (f) the conditions to be complied with by candidates, not being students of any College affiliated to the University, for degrees, diplomas, licenses, titles, marks of honour, scholarships and prizes conferred or granted by the University; and
- (g) the alteration or cancellation of any rule, regulation, statute or by-law of the University in force at the commencement of this Act.

26. (1) Within one year after the commencement of this Act, or within such further period as the Government may fix in this behalf,—

New body of regulations.

- (a) the Senate as constituted under this Act shall cause a revised body of regulations to be prepared and submitted for the sanction of the Government;
- (b) if any additions to, or alterations in, the draft submitted appear to the Government to be necessary, the Government, after consulting the Senate, may sanction the proposed body of regulations, with such additions and alterations as appear to the Government to be necessary.

(2) Where a draft body of regulations is not submitted by the Senate within the period of one year after the commencement of this Act, or, within such further period as may be fixed under sub-section (1), the Government may, within one year after the expiry of such period or of such further period, make regulations which shall have the same force as if they had been prepared and sanctioned under sub-section (1).

Miscellaneous.

27. The Governor General in Council may, by general or special order, define the territorial limits* within which, and specify the Colleges in respect of which, any

Territorial exercise of powers.

* The following order was issued by the Governor General in Council on the subject of territorial limits :—

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

EDUCATION.

The 20th August 1904.

No. 717.—In exercise of the powers conferred by section 27 of the Indian Universities Act, 1904 (VIII of 1904), the Governor General in Council is pleased to define the territorial limits hereinafter set forth below as those within or in relation to which the powers conferred upon the Universities respectively entered against them by or under the Act of Incorporation or the said Indian Universities Act, 1904, shall be exercised :—

Territorial Limits.		University.
Province (including any Native State under its political control and any foreign possession included within its boundaries).	Native State or Colony.	
Bengal, Burma and Assam ..	Hyderabad, Mysore and Ceylon ...	Calcutta.
Madras and Coorg ..	Baroda ..	Madras.
Bombay and Sind ...	The States included in the Rajputana and Central India Agencies.	Bombay.
United Provinces of Agra and Oudh, the Central Provinces (including Berar and Ajmer-Merwara).	Kashmir, Baluchistan ...	Allahabad.
Punjab, North-West Frontier Province and British Baluchistan.		Punjab.

powers conferred by or under the Act of Incorporation or this Act shall be exercised.

28. (1) The Lieutenant-Governor of Bengal for the time being shall be the Rector of the University of Calcutta and shall have precedence in any Convocation of the said University next after the Chancellor and before the Vice-Chancellor.

(2) The Chancellor may delegate any power conferred upon him by the Act of Incorporation or this Act to the Rector.

29. The Acts mentioned in the second schedule are hereby repealed to the extent specified in the fourth column thereof.

THE FIRST SCHEDULE.

(Section 5.)

EX-OFFICIO FELLOWS OF THE UNIVERSITY.

The University of Calcutta.

The Chief Justice of the High Court of Judicature at Fort William in Bengal.

The Lord Bishop of Calcutta.

The Civil Ordinary Members of the Council of the Governor General.

The Directors of Public Instruction in Bengal, Burma and Assam.

The University of Bombay.

The Chief Justice of the High Court of Judicature at Bombay.

The Bishop of Bombay.

The Ordinary Members of the Council of the Governor of Bombay.

The Director of Public Instruction in Bombay.

The University of Madras.

The Chief Justice of the High Court of Judicature at Madras.

The Bishop of Madras.

The Ordinary Members of the Council of the Governor of Madras.

The Director of Public Instruction in Madras.

The University of the Punjab.

The Chief Judge of the Chief Court of the Punjab.

The Bishop of Lahore.

The Director of Public Instruction in the Punjab.

The Representatives of such Chiefs (if any) of territories not comprised in British India as the Local Government may, by notification in the local official Gazette, specify in this behalf.

The University of Allahabad.

The Chief Justice of the High Court of Judicature for the North-Western Provinces.

The Bishop of Lucknow.

The Directors of Public Instruction in the United Provinces of Agra and Oudh and in the Central Provinces.

THE SECOND SCHEDULE.

(Section 29.)

ENACTMENTS REPEALED.

Year.	No.	Short title.	Extent of repeal.
1857	II	The Calcutta University Act, 1857.	In section 2, the word "said", wherever it occurs. In section 3, the first sentence and the words "Provided that". In section 5, the words "in the Calcutta Gazette". Section 6. Section 8, except the first sentence. Sections 9, 10 11, 12, 13 and 14.
	XXII	The Bombay University Act, 1857.	In section 2, the word "said", wherever it occurs. In section 3, the first sentence and the words "Provided that". Section 6. Section 8, except the first sentence. Sections 9, 10, 11, 12, 13 and 14.
	XXVII	The Madras University Act, 1857.	In section 2, the word "said", wherever it occurs. In section 3, the first sentence and the words "Provided that". Section 6. Section 8, except the first sentence. Sections 9, 10, 11, 12, 13 and 14.
1860	XLVII	The Indian Universities (Degrees) Act, 1860.	The whole Act.
1882	XIX	The Punjab University Act, 1882.	Section 6. In section 7, sub-section (1). In section 8, in sub-section (1), the words after the word "Fellow" to the end of the sub-section and, in sub-section (2), the words from the word "appointed" to the words "this Act". In section 9, the words "under this Act". Sections 10 and 11. Section 12, except the last paragraph. Sections 13, 14, 15, 16 and 18. In section 20, the words "made or" "section six, clauses (b) and (c), and" and "under sections fourteen, fifteen and sixteen". In the Schedule, Part I.
1884	I	The Indian Universities (Honorary Degrees) Act, 1884.	The whole Act.
1887	XVIII	The Allahabad University Act, 1887.	Section 5. In section sub-section (1). In section 7, sub-section (1), and in sub-section (2), the words after the word "Fellow" to the end of the sub-section. Sections 10, 11, 12, 13, 14, 15 and 17. In section 20, the words and figures "appointments made and", "under section 5, sub-section (1), clauses (b) and (c)", "under sections 14 and 15" and "under section 17". In the Schedule, Part I.

III.

General Regulations.

CONSTITUTION OF THE SENATE AND OF
THE FACULTIES.

I.—THE SENATE.

1. The Chancellor, Vice-Chancellor, Director of Public Instruction, the Deans of the Faculties of Arts, Science, Law and Medicine, the Syndics, and Fellows of the University, according to section 4, sub-section 1, clauses (a), (c), (d) and (e), and section 6, sub-section 1, clauses (a), (b) and (c) of the Indian Universities Act of 1904, shall have seniority and precedence, first, in the order above specified down to the Syndics, and, secondly, according to their official precedence in the case of *ex officio* Fellows, and, thirdly, in the case of other Fellows, according to the sequence of their original appointments.

2. The Senate may, for gross misbehaviour unfitting a Fellow in its opinion for his office, and after hearing such Fellow or any other Fellow nominated by him on his behalf, request that his appointment be cancelled under the provisions of section VII of the Act of Incorporation.

3. At a convenient time, soon after the appointment of any Fellow, the Syndicate shall, and at any subsequent time the Syndicate may, consider and recommend his appointment to one of the Faculties or, in the case of special personal qualifications, to more than one. Such qualifications shall be stated to the Senate and recorded in the Minutes of their Meetings. Such recommendation shall be considered and adopted, altered or rejected at the next following Meeting of the Senate. When an Ordinary Fellow who has ceased to hold office under section 4 (2) of the Indian Universities Act, is renominated or re-elected, he shall, till the Senate allots him to a Faculty be deemed to belong to the Faculty or Faculties to which he originally belonged.

4. Each Fellow shall inform the Registrar in writing of his address and of any change of address. The Registrar shall keep a record of the address so communicated to him. The last address of each Fellow so recorded by the Registrar shall be deemed his recorded address.

II.—THE FACULTIES.

5. There shall be four Faculties, namely, of Arts, Science, Law and Medicine. Every member of the Senate shall be a member of at least one Faculty and may, in the circumstances above stated, be a member of more than one Faculty.

6. Each Faculty shall meet ordinarily once a year, within three weeks after the fixed date of the Annual Convocation for Conferring Degrees, for the purpose of electing a Dean and Syndics for the year, and at other times when convened by the Dean, or as provided in Regulation 6.

7. A Meeting of any Faculty shall also be convened by the Dean, or in his absence, by the Senior member of the Faculty, on the requisition of any three of its members. The Dean, or Senior Fellow present, shall be Chairman at such Meeting, and the Chairman shall have a vote, and, in case of an equality of votes, a casting vote.

8. The office of Dean shall be vacated by death, resignation, or, by the Dean's ceasing to reside in the Presidency of Bombay for a period of more than three calendar months, or by his leaving the Presidency of Bombay without giving notice to the Registrar of his intention to return within three calendar months.

9. On the occurrence of such a vacancy, the Vice-Chancellor, or in his absence from the Bombay Presidency, the Senior Fellow in the Senate, shall direct the Registrar to take steps for the election of a new Dean as follows.

10. Seven clear days before the day fixed by the Registrar as the last day for receiving nominations, the Registrar shall send to every member of the Faculty a notice of the date of election.

11. No candidate shall be put in nomination at such election unless a proposition for his nomination in writing, signed by the intending proposer and seconder, shall have been handed in at the University Office at least eight clear days before the day on which the election is announced to take place.

12. In all cases of contested election, when the nominations have been received, the Registrar shall, six clear days before the election, send to each member of the Faculty concerned, a voting paper, an addressed envelope for the same and a certificate of identity to be signed by the voter. The voter shall forward his voting paper unsigned in the envelope provided, under seal, enclosed in a cover containing also the signed certificate of identity, to the Registrar, so that it shall arrive not later than the time fixed for the election to take place. The Registrar shall then check the qualification of the voter, and if correct, shall place the sealed envelope containing the voting paper in a box with others for the inspection of the scrutineers.

13. Two scrutineers shall be appointed by the Senior Fellow in the Faculty, who shall, at the time fixed for the election, open the envelopes containing the votes, count the votes which have been given, and report the result to the Registrar who shall then notify the members of the Faculty and the Syndicate of the result of the election.

14. Not less than one-fifth of the members of a Faculty shall constitute a quorum of that Faculty.

III.—THE SYNDICATE.

15. The Executive Government of the University shall be vested in a Syndicate, consisting of the Vice-Chancellor, the Director of Public Instruction, and fifteen Ordinary Fellows, who shall be elected for one year in the following manner:—

Four by the Faculty of Arts, of whom three must be Heads or Professors of Colleges affiliated to this University.

Three by the Faculty of Science, two of whom must be Heads or Professors of Colleges affiliated to this University.

Two by the Faculty of Medicine, one of whom must be a Head or Professor of a College affiliated to this University.

Two by the Faculty of Law.

(The eleven members to be elected as above must be members of the respective Faculties electing them.)

Four to be elected by the Senate, one of whom must be a Head or Professor of a College affiliated to this University, provided however that in the event of seven Heads or Professors of Colleges being elected in the elections by the Faculties, the Senate need not elect any Head or Professor of a College.

The elections shall take place in the following order :—

(1) Medicine, (2) Law, (3) Science, (4) Arts, (5) the Senate.

In the event of a Fellow elected under this Regulation ceasing during his term of office to be the Head of, or a Professor in, a College affiliated to this University, he shall, in all cases in which the number of Heads or Professors falls below the statutory minimum, cease to hold office as a member of the Syndicate, and the body whom he represented shall elect one of its members who may be eligible to hold office, provided always that the Fellow so appointed shall hold office for the remainder of the period for which the person in whose place he is elected was originally appointed.

16. It will be the duty of the Syndicate, subject to the revision and control of the Senate, to appoint and, if necessary, to remove Examiners, Moderators and officers required for the efficient working of the Examinations and all other officers and servants of the University except the Registrar; to fix their salaries and emoluments, save as provided by any Regulation; to order Examinations in conformity with the Regulations, and to declare the results of the various University Examinations, and to recommend for degrees, honours, diplomas, licenses, titles and marks of honour, and to award stipends, scholarships, medals, prizes and other rewards in conformity with the Regulations; to prescribe or recommend text-books in conformity with the Regulations; to recommend to the Senate the appointment of University Lecturers and Professors; to keep the accounts of the University, and to correspond on the business of the University with the Government and all other authorities and persons; to consider proposals laid before it by members of the Senate, and from time to time frame such Regulations as may be necessary, subject to the approval of the Senate.

17. The Syndicate shall meet ordinarily once a month and at other times when convened by the Vice-Chancellor, or in his absence, by the Senior Fellow in the Syndicate.

18. The office of Syndic shall be vacated by death, resignation, or by the Syndic's being absent from three consecutive ordinary monthly Meetings.

19. On the occurrence of such a vacancy the Vice-Chancellor, or in his absence from the Presidency, the Senior Fellow in the Senate, shall direct a Meeting of the Faculty in which the vacancy has occurred to be convened for the election of a new Syndic.

20. Four members of the Syndicate shall constitute a quorum, and all questions shall be decided by a majority.

21. The Vice-Chancellor, or in his absence, the Senior Fellow present, shall preside at all Meetings of the Syndicate. The Chairman at such Meetings shall have a vote and, in case of an equality of votes, a casting vote.

22. Whenever any emergency arises and there is not time to convene a Meeting of the Syndicate, the Vice-Chancellor may take such immediate action as he deems necessary, and shall report the circumstances to the next Meeting of the Syndicate for confirmation of such action.

23. Each Faculty shall report on any subject that may be referred to it by the Syndicate.

24. Any Faculty, or any Member of the Senate, may make any recommendation to the Syndicate, and may propose any Regulation for the consideration of the Syndicate.

25. Subject to Regulation 54, the decision of the Syndicate on any such recommendation or proposal may be brought before the Senate

by any member of the Senate by way of Resolution at one of its Meetings, and the Senate may approve, revise, modify or overrule any such decision, or may direct the Syndicate to review it.

26. No proposal shall be entertained by the Senate that has not, in the first instance, been considered by the Syndicate, or submitted for a period of at least three months for consideration by the Syndicate: provided that when any proposal has been duly brought before the Senate, it shall be competent to the Senate to deal with all proposed amendments or modifications thereof, in whatever form the same may be submitted to the Senate, without referring such amendments or modifications to the Syndicate for consideration.

IV.—BOARD OF ACCOUNTS.

27. A Board of Accounts, consisting of three Ordinary Fellows of the University not being members of the Syndicate, shall be appointed annually by the Senate at a Meeting to be held not later than the 30th June.

28. The Board shall meet ordinarily once every three months, and at other times when convened by the Vice-Chancellor.

29. The Board shall examine and audit the University Accounts, prepare the University Budget, and the account of Endowment and Trust Funds; consider ways and means; and make recommendations, where necessary, to the Syndicate on all matters relating to the finances of the University. A copy of the Budget prepared by the Board and approved by the Syndicate shall be sent to all members of the Senate in the month of April every year and the consideration of the Budget shall be an item on the Agenda of the next following Meeting of the Senate. The financial year of the University shall be from 1st July to 30th June.

30. Members of the Board shall hold office for the financial year immediately following their election. They shall be eligible for re-appointment at the expiration of their office. All vacancies in the Board occurring between two Annual Elections shall be filled up by persons appointed by the Syndicate.

V.—BOARDS OF STUDIES.

31. Boards of Studies may be constituted by the several Faculties from among their members for the subjects of University studies as under :—

Faculty of Arts—

- (i) English Literature.
- (ii) Latin, Greek and Hebrew.
- (iii) Persian, Arabic and Urdu.
- (iv) Modern European Languages.
- (v) Sanskrit, Pali, Ardha-Magadhi, Avesta and Pahlavi.
- (vi) Marathi.
- (vii) Gujarati.
- (viii) Kanarese.
- (ix) History and Economics.
- (x) Logic and Philosophy.
- (xi) Mathematics.
- (xii) Teaching.

Boards (vi), (vii) and (viii) shall each consist of three members Board (xii) shall consist of seven members. Each of the other Boards shall consist of not less than three and not more than eight members.

In Board (xi) one member shall be elected by the Faculty of Science.

Faculty of Science—

- (i) Physics.
- (ii) Chemistry.
- (iii) Biology and Geology.

(iv) Engineering.

(v) Agriculture, including Veterinary Science.

Boards (i) and (ii) shall each consist of five members. The number of members in Boards (iii), (iv) and (v) shall not be less than three or more than eight.

The Faculty of Medicine shall elect two members in Board (iii).

Faculty of Law—

One Board of Studies consisting of not less than three and not more than seven members.

Faculty of Medicine—

(i) Anatomy, Physiology and Materia Medica.

Members of this Board shall not be less than four and not more than six.

(ii) Medicine, Surgery, Midwifery and Medical Jurisprudence, etc.

Members of this Board shall not be less than seven and not more than ten.

32. The members of all these Boards shall be elected every five years and any vacancy occurring between two consecutive elections shall be filled up in the manner prescribed for the election of a new Dean of a Faculty under Regulations Nos. 9, 10, 11, 12 and 13, save that the scrutineers shall be appointed, in the election of a member of a Board of Studies by the Dean of the Faculty.

33. The office of member of a Board shall be vacated by death, resignation or by the member's being absent from three consecutive Meetings.

34. Each Board shall elect its own President. Each Meeting of a Board shall be convened by the President, or in his absence from the Presidency, by the Senior Fellow in the Board. Three members shall constitute a quorum. The President of a Board shall convene a Meeting of the Board on the requisition of two members of the Board. Provided no member of a Board objects to such a course, any item of business before a Board may, at the discretion of the President, be disposed of by correspondence.

35. The duties of the Boards shall be to recommend text-books, to recommend courses of study in their respective departments, to advise on all matters relating to their respective departments referred to them by the Syndicate or the Faculty to which they belong.

36. A Board of Studies may bring to the notice of the Syndicate important matters connected with the Examinations in its special subject or subjects and may also address the Faculty concerned on any matters connected with the improvement of the courses in its special subject or subjects.

37. Any two or more Boards may, and at the request of the Syndicate shall, meet and act in concurrence and render a joint report upon any matter which lies within the province of both. In such cases the Joint Meeting shall elect its own President. The quorum of a joint Board Meeting must include a full quorum of each Board represented, no member present being counted on more than one separate quorum.

38. All Meetings of the Boards shall be convened through the Registrar, who shall keep a record of the proceedings of the Meetings.

VI.—THE REGISTRAR.

39. The Registrar shall be ordinarily appointed by the Senate at an Ordinary Annual Meeting, except when a vacancy occurs between two such Meetings, when he may be appointed at any other Meeting of the Senate. His term of office shall be two years, provided that when he is elected at any Meeting of the Senate other than the Ordinary Annual Meeting, he shall hold office till the second Ordinary Annual Meeting after such election.

40. The duties of the Registrar shall be as follows:—

- (a) To be the custodian of the Records, Library, Common Seal, and such other property of the University as the Syndicate shall commit to his charge.
- (b) To act as Secretary to the Syndicate and to attend all Meetings of the Senate, Faculties, Syndicate, Board of Accounts, Boards of Studies and Examiners, and to keep Minutes thereof.
- (c) To conduct the official correspondence of the Syndicate.
- (d) To issue all notices convening Meetings of the Senate, Faculties, Syndicate, Board of Accounts and Boards of Studies.
- (e) To perform such other duties as may be from time to time prescribed by the Syndicate, and generally to render such assistance as may be desired by the Vice-Chancellor in performance of his official duties.

41. The salary of the Registrar shall be Rs. 400 per mensem.

42. Leave of absence may be granted to the Registrar by the Syndicate for a period not exceeding two months for any one term of office, or six months in all, on such terms as to salary as the Syndicate may think proper. During the absence of the Registrar on leave, an Acting Registrar may be appointed by the Syndicate, who shall be paid at such rate not exceeding the salary of the Registrar as the Syndicate may determine. If the Registrar shall overstay his leave, his appointment shall become vacant.

43. In case of necessity the Vice-Chancellor is empowered to provide for the performance of the duties of the Registrar.

VII.—MEETINGS OF THE SENATE.*

44. Meetings of the Senate shall be held in the Sir Cowasjee Jehangir Hall of the University, unless for special reasons the Chancellor or Vice-Chancellor otherwise directs.

45. The Chancellor, or in his absence the Vice-Chancellor, or in the absence of both, a member elected by the Meeting, presides at the Meetings of the Senate. The Senior member present shall take the chair for and until such election only. Fifteen members of the Senate form a quorum, and all questions shall be decided by a majority of the votes of the members present, the Chairman, in case of an equality of votes, having a second or casting vote.

46. Such proposals and amendments only as are immediately connected with the University of Bombay, and are in accordance with the Act of Incorporation, and the Indian Universities Act of 1904, shall be entertained and debated in the Senate.

47. The Senate shall meet ordinarily once a year, on the last Saturday in January, and at other times when convened by the Vice-Chancellor, or in his absence from the Presidency, by the Syndicate.

48. A Meeting of the Senate shall be convened on the requisition of any six of the members to the Vice-Chancellor.

49. A Convocation for conferring Degrees shall be held on the third Tuesday in August or, if that day happens to be a holiday, on the next

*The following rule relating to the Travelling Allowance to be paid to Fellows for attending University meetings has been sanctioned by the Syndicate:—

To a Fellow residing outside Bombay but within the limits of the Presidency, who attends a meeting or meetings called by the Registrar for the transaction of business connected with the University, will be paid two single First Class Fares to be paid by him for travelling from his registered address to Bombay and back by the cheapest route; in addition to this he will receive a halting allowance of Rs. 7-8 for each day of attending one or more such meetings, except that he shall receive Rs. 15 for the first day of attending such meeting or meetings if his registered address is at a distance exceeding 400 miles from Bombay.

When a Fellow resides beyond the limits of the Bombay Presidency, his journey will be counted as commencing from or ending at the first station at which he enters or leaves the Bombay Presidency.

working day, and on such other graduation days as may be appointed by the Chancellor or Vice-Chancellor.

50. Persons entitled to Degrees, and desirous of being admitted, must apply in writing and pay the fees mentioned in regulation 53 twenty clear days previously to the Registrar, who will communicate their names, together with the necessary certificates, to the respective Deans of Faculty, for submission to the Senate on the next graduation day.

51. The Senate will, on the motion of the Dean of each Faculty, or in his absence, the Senior member of the Faculty, respectively pass the necessary graces in that behalf, and the persons so approved shall be presented to the Chancellor or Vice-Chancellor successively in the following order:—Licentiate of Civil Engineering, Licentiate of Medicine and Surgery, Bachelor of Agriculture, Bachelor of Commerce, Bachelor of Engineering, Bachelor of Medicine and Bachelor of Surgery, Bachelor of Science, Bachelor of Arts, Bachelor of Hygiene, Bachelor of Laws, Master in Agriculture, Master of Civil Engineering, Master of Science, Master of Arts, Doctor of Hygiene, Master of Laws, Doctor of Medicine and Master of Surgery.

52. Nothing in the foregoing is to be held to prevent the Chancellor admitting to the Degree of M.D. or M.A. any person who may be presented to him by the Senate with a certificate that he has been examined and judged worthy of such special distinction.

53. Every candidate seeking admission to a Degree in person must pay a fee of Rs. 10. In special cases and at the discretion of the Syndicate, Candidates who have passed the Examinations may be permitted to take their Degree *in absentia* on payment of a fee of Rs. 20.

54. Sixteen clear days before the day fixed for a Meeting of the Senate the Registrar shall forward to each member of the Senate a statement of all business to be brought before the Meeting and of the terms of all Resolutions to be then proposed, together with the name of the proposer of each, intimation in writing of which has previously reached him. The inclusion of a Report of any Committee of the Senate in the agenda paper shall be held to be equivalent to notice of motion for its adoption. Notice in writing of proposed amendments and the terms thereof and of motions for any change in the order of business as set forth in the statement must be forwarded so as to reach the Registrar five clear days* before the day of Meeting. The Registrar shall, two clear days before the day of Meeting, forward to each member of the Senate a statement of all the motions and amendments; and no motion or amendment, of which such notice has not been given, shall be put to the Meeting, other than a motion for dissolution, adjournment, or suspension of the sitting, for passing to the next business on the statement, for directing the Syndicate to review their decision, for referring the matter under consideration to the Syndicate or a Faculty for report, or an amendment which shall be accepted by the Chairman as merely formal.

VIII.—ORDER OF BUSINESS.

55. Each member, before he takes his place, shall register his attendance in a book placed for the purpose at the entrance of the place of Meeting.

56. At the expiration of a quarter of an hour from the time of Meeting, the Chairman shall take notice whether there are fifteen members present; and if there are not, the Meeting shall forthwith be adjourned to such a date as the Chairman may appoint. Such adjourn-

* "Five clear days" means five days exclusive of the day on which notice reaches the Registrar and of the day of meeting. Thus, if the meeting is fixed for Thursday, the notice must reach the Registrar on the previous Friday; if for Saturday, the notice must reach him on the previous Saturday.

ment shall be recorded by the Registrar under the signature of the Chairman. In case of a Meeting adjourned for want of a quorum, no quorum will be required.

57. At every Meeting the business to be entertained shall, unless the Meeting shall by special vote otherwise determine, be taken in the following order:—

- (1) The election, if it is part of the business to be entertained at the Meeting, of the Chairman.
- (2) The signing of the minutes of the previous Meeting or adjourned Meeting.
- (3) The election, if it is part of the business to be entertained at the Meeting, of any official of the University.
- (4) Any motion for a change in the order of business.
- (5) Any business and motions of which due notice has been given in the order in which such business and motions are entered in the statement of the business and motions to be brought forward subject to the provisions of this Regulation and to Regulation 63.

IX.—RULES OF DEBATE.

(i) *Motions.*

58. Every motion shall be moved by the member in whose name it stands, or, if he is absent or declines to move it, it may be moved by any other member.

59. Every motion at a Meeting must be seconded; otherwise it shall drop. The seconder of a motion may reserve his speech.

60. When a motion has been seconded, it shall be stated from the Chair.

61. When the proposal has been thus stated, it may be discussed as a question to be resolved simply in the affirmative or negative, or as proposed to be varied by way of amendment. When before or after debate, no member rises to speak to the motion, the Chairman shall proceed to put the question to the vote in the manner hereinafter mentioned.

62. A substantive proposal once brought forward shall not be proposed a second time at the same Meeting, or at any adjournment thereof. A proposal substantially identical in part with one already disposed of may be brought forward at the same Meeting or at any adjournment thereof with the omission of such part.

63. Not more than one proposal and one amendment thereto shall be placed before the Meeting at the same time. Each amendment shall be disposed of before the next is moved. All amendments, which are not withdrawn under Regulation 72, or which do not violate rule 65, shall be considered and voted upon. In case no notice of amendment under Regulation 54 has been given, the Senate shall at once proceed to consider and to vote upon the proposal.

(ii) *Amendments.*

64. No amendment shall be proposed which would reduce the proposal to a negative form.

65. No amendment shall be proposed which raises a question already disposed of by the Meeting, or is inconsistent with any resolution already passed by it.

66. The order in which amendments to a proposal are to be brought forward shall be determined by the Chairman with reference to their extent and mutual relation.

67. An amendment, the substance of which has been disposed of in part, may be modified by its proposer so as to retain only the parts not so disposed of.

68. When an amendment has been moved and seconded, it shall be stated from the Chair, and then the debate may proceed on the original proposal and the amendment together; but so far as the question raised by the amendment is one on which he has not yet spoken, any member may speak to that question, though he has spoken to the original question, or a previous amendment.

69. Every amendment shall be in such form that it can be used to modify the original motion by any or all of the following methods:—

(1) by addition of words; (2) by deletion of words; (3) by substitution of words;

and the mover may state the motion or the part thereof affected as it would stand when so amended.

70. If any amendment be carried, it shall become part of the motion before the Senate, and the motion shall be modified accordingly.

71. When all the amendments have been considered, of which due notice has been given, the original motion, or the original motion as amended in course of debate, shall be placed before the Senate and put to the vote without further discussion.

(iii) *Withdrawal of a Question.*

72. No question shall be withdrawn from the decision of the Senate without its unanimous consent. If the mover states his wish to withdraw a proposal or amendment and if no objection is stated thereto in the interval allowed by the Chairman for the purpose, the Chairman shall declare that the question is withdrawn with the consent of the Senate.

(iv) *Resolution of the Senate into a Committee.*

73. The Senate may, when it thinks fit, resolve itself into a Committee to consider any item which may be on the *agenda* of business. A motion for the resolution of a Meeting into a Committee may be made by any member at any time (but not so as to interrupt a speech) without the notice required under Regulation 54, but can only be placed before the Senate for consideration if the Chairman gives permission for this to be done. No speech shall be allowed in moving the motion. No such motion shall be considered unless fifteen members rise in support thereof. The motion, then having been duly seconded, shall be put to the Meeting without further discussion and shall only be carried if two-thirds of the members present vote in its favour.

74. When the Senate decides in this manner to resolve itself into a Committee, the Chairman shall be the same as for the Meeting of the Senate, and the quorum shall be the same as for a Meeting of the Senate. The manner in which the discussion of the matter under consideration shall be conducted shall be in the discretion of the Chairman. When in the judgment of the Chairman, the matter has been sufficiently discussed, the Committee shall embody its conclusions in a report to be signed by the Chairman. The period during which the Senate is sitting in Committee shall be considered as a suspension of the sitting of the Senate, and immediately it terminates the Senate shall be again called to order by the Chairman, and the report of the Committee's deliberations presented to it by the Registrar. If any of the resolutions of the Committee involve recommendations not covered by the motion and the amendments

to that motion on the *agenda* of the Meeting, they shall not be considered by the Senate until notice of these has been given as required under Regulation 54, and the Meeting of the Senate shall be adjourned to allow this to be done. A motion made as a result of the deliberations of such a Committee may be presented to the Senate without previous consideration by the Syndicate.

(v) *Adjournments, etc.*

75. A proposal "That this Meeting be now dissolved" may be moved at any time as a distinct question, but not as an amendment nor so as to interrupt a speech. If the motion is carried, the business before the Meeting shall drop.

76. A proposal "That the Meeting be now adjourned to some specified time" may be moved at any time as a distinct question, but not as an amendment nor, except on the motion of the Chairman, so as to interrupt a speech. If it be negatived, the debate shall be resumed. The same rule will apply to a Meeting of the Senate in Committee.

77. No amendment shall be moved to a proposal under the last preceding Regulation, except one for substituting a different time for that to which it is proposed to adjourn the Meeting.

78. A Meeting renewed or continued after an adjournment is to be deemed one with that preceding the adjournment, provided that if the Meeting be adjourned to such date as to admit of the notice required by Regulation 54, any amendment otherwise in order may be moved at an adjourned Meeting if the notice so required be duly given.

79. The motion "That the Meeting pass to the next business on the statement" may be made at any time as a distinct question, but not as an amendment nor so as to interrupt a speech. If such a motion be carried, the proposal under consideration and the amendments thereto shall not be further dealt with at the Meeting.

80. No motion for the dissolution or for the adjournment of the Meeting, or for the suspension of the sitting, or to pass to the next business, shall be made or spoken to during a debate by any member who has spoken in the debate. Any such motion shall take the place of any question that may be before the Meeting, and, if not withdrawn, must be disposed of before such question.

81. When a motion of the class contemplated in the last preceding Regulation has been brought forward and negatived, no other motion of that class shall be again brought forward until after the lapse of what the Chairman shall deem a reasonable time; nor shall a debate be allowed on such second or subsequent motion brought forward during a debate on the same proposal discussed alone, or the same proposal and amendment discussed together.

(vi) *Miscellaneous.*

82. On each proposal, or proposal and amendment in debate, a member may speak once, subject to the provisions of Regulations 68 and 80.

83. The member who is first up, at the conclusion of a speech, has the right to be heard. In cases of competition the Chairman shall decide.

84. The mover of an amendment, or when there is no amendment, the mover of the original resolution may reply upon the debate before each vote is taken. But the mover of a motion for a dissolution or adjournment, or for the suspension of the sitting, or for passing to the next business on the statement, has no right to reply.

85. No member shall speak to the question after the mover has entered on his reply.

86. The Chairman has the same right of moving or seconding a motion or amendment and of otherwise taking part in the debate as any other member. When the Chairman thus takes part in the debate he shall vacate the Chair whilst he is addressing the Meeting, and the Chair shall during such time be taken by the Senior member present not being the Chairman.

(vii) *Points of Order.*

87. Any member may call the Chairman's attention to a point of order even whilst another member is addressing the Meeting, but beyond stating the precise point of order raised, he shall not make a speech. Such a call pronounced by the Chairman to be vexatious, and any interruption or obstruction to the progress of the business before the Senate pronounced by the Chairman to be unseemly or unreasonable, shall be deemed a breach of order.

88. The Chairman shall be the sole judge on any point of order, and may call any member to order, and, if the member so called to order shall in speaking disregard such call, the Chairman may direct him to sit down and thereon another member may speak. In the event of any contumacious disregard of a ruling or call to order by the Chairman, he may request the member so offending to leave the Meeting, and on such requisition the member named by the Chairman shall be suspended from his functions as a member during the Meeting, and shall be bound immediately to withdraw.

(viii) *Voting.*

89. On putting any question to the vote, the Chairman shall call for an indication of the opinion of the Senate by a show of hands in the affirmative and negative, or by sitting and rising, and shall declare the result thereof according to his opinion. If the votes are actually counted, the number of votes on either side shall be recorded in the Minutes.

90. Any member may then demand a Division except on a motion for adjournment. Voting in all Divisions shall be by ballot.

91. The Chairman shall thereupon appoint four Tellers, two on each side; and shall give such directions for effecting the Division as he shall consider expedient.

92. In every Division only such members as were present at the putting of the question shall be entitled to vote. Voting shall be on papers supplied at the Meeting by the Registrar and every voting paper shall be returned with or without the vote.

93. Upon the Chairman announcing the Division to be closed, the Tellers shall state in writing the numbers on each side, sign the statement, and hand it to the Chairman, together with the voting papers (in two separate bundles), whereupon the Chairman shall declare the result of the Division to the Meeting, and the result shall be recorded in the Minutes.

94. If, after a Division has been taken, five members present shall demand a recount, the Chairman shall appoint two or more members to act with the Tellers who shall report the facts found by them to the Chairman, who shall thereupon declare the result to the Meeting, and such declaration shall be conclusive.

95. Pending the recount, the Chairman may, in his discretion, either suspend the sitting or call for such business as may, in his opinion, be most conveniently proceeded with. Business thus entered on shall be proceeded with; but on its disposal the regular order of subjects, if it has been departed from, shall be resumed.

(ix) *Minutes.*

96. After every Meeting or adjourned Meeting of the Senate, the Registrar shall as early as possible send a copy of the Minutes of such Meeting to the address of each member of the Senate. In the event of any exception being taken to the correctness of the Minutes as circulated, the attention of the Chairman shall be called to the matter before he signs the Minutes, and he shall make such alterations as he may find to be necessary.

X.—ELECTIONS OF UNIVERSITY OFFICIALS.

97. Elections of University Officials by the Senate shall be conducted according to the rules hereinbefore provided, subject to the modification prescribed by the Regulations next following. The method prescribed in these Regulations shall not apply to a casual vacancy occurring in the office of Dean of a Faculty, when the election shall be conducted as prescribed under Regulations Nos. 9, 10, 11, 12, and 13.

98. No Candidate shall be put in nomination at any Meeting of the Senate for a seat on the Syndicate or Board of Accounts or as Registrar or at any Meeting of a Faculty for the office of Dean of such a Faculty, or Syndic, unless a proposition for his nomination in writing, signed by the intending proposer and seconder, shall have been handed in to the University Office at least five clear days previously in the case of an appointment to be made by the Senate, at least four clear days previously in the case of an appointment to be made by a Faculty. And the University Registrar shall, two clear days before the Meeting, forward to every Member of the Senate or Faculty, as the case may be, a list of the proposed nominations.

99. In all cases of contested election, the election shall be by ballot by means of voting papers. In case of a contested election amongst more than two candidates for a single appointment, the candidate who has the smallest number of votes on a first ballot shall be withdrawn and another ballot between the remaining candidates shall then be taken; and so on until the number of candidates is reduced to two, when the final ballot between these two shall be taken. In case of a contested election for more than one appointment, each member shall be entitled to give as many votes as there are appointments to be filled, but shall not give more than one vote for one person.

XI.—ELECTION OF ADDITIONAL MEMBERS
BY FACULTIES.

100. When a Faculty resolves to add to its number, the election of such additional members shall take place as provided under Regulations Nos. 9, 10, 11, 12 and 13 for the election of a new Dean of a Faculty, save that the Scrutineers shall be appointed, in the election of additional members of a Faculty, by the Dean of the Faculty. The notice of election shall state how many such members are to be added and the special subject of study in which the Faculty desires the co-operation of such added number.

101. Each member of the Faculty shall be entitled to give as many votes as there are appointments to be filled, but shall not give more than one vote for one person.

102. Each member added to a Faculty shall hold office for five years from the date of his appointment, but he may be re-elected.

XII.—REGISTRATION OF GRADUATES.

103. Graduates entitled to vote at the election of Ordinary Fellows under section 6, sub-section 1, clause (a) of the Indian Universities Act,

shall, subject to the payment of an initial fee of Rs. 5, be entitled to have their names entered on the Register of the University within either of the periods provided for in section 7, sub-section 2 of the said Act.

104. If the application for such enrolment is made after the expiry of either of the said periods, the applicant shall be entitled to have his name entered on the Register on payment of the said initial fee of Rs. 5 and of a further sum of Rs. 2 in addition to the annual fee of Rs. 2 for the year in which he applies for registration.

105. The name of a Graduate entered on the Register shall, subject to the payment of an annual fee of Rs. 2, be retained thereon and, in case of default of such payment within one month after demand made, shall be removed therefrom, but shall at any time be re-entered on payment of all the arrears : provided that a Graduate whose name is on the Register may, at any time, compound for all subsequent payments² of the annual fee by paying a sum of Rs. 10.

106. The year for the purposes of Regulations 104 and 105 shall run, in the case of persons holding a Master's or Doctor's degree, from the date of their first admission to such degree, and, in the case of persons holding a degree of Bachelor or Licentiate, ten years after the date of their first admission to such degree.

107. Graduates wishing to have their names registered shall fill in a printed form* to be supplied on application to the Registrar.

108. Registered Graduates shall notify to the Registrar every change of their address.

109. A Register shall be kept in the University Office containing the names, degrees and addresses of Registered Graduates according to the provisions of section 7, sub-section 2 of the Indian Universities Act.

XIII.—ELECTION OF ORDINARY FELLOWS BY REGISTERED GRADUATES.

110. All Graduates of the University of Bombay whose names are entered on the Register of Graduates under section 7, sub-section 2 or 3 of the Indian Universities Act, at least eight clear weeks before the date of election, shall be entitled to vote or to be elected at such election, and shall be the only persons so entitled.

111. The election will be held in the University Buildings at 5-45 P.M. on such day as the Chancellor may appoint. A notice of the election shall be published in the *Bombay Government Gazette* and forwarded to all Electors at least five clear weeks before the date of election.

112. An Electoral Roll showing the names, degrees and addresses of all persons qualified to vote or be elected under Regulation 110, shall be prepared in the Registrar's Office and shall be there open for inspection at least five clear weeks before the date of election. Printed copies of such Roll shall also be delivered to any person requiring the same on payment of a fee of Rs. 2 per copy. In the event of any omission or mistake in such Roll, being discovered not less than two days before the day of election, the Registrar is authorized to duly rectify the said Roll.

113. Candidates qualified for election under Regulation 110 must be proposed and seconded by persons qualified as Electors under Regulation 110, but no Elector shall propose or second the nomination of more persons than may be required to fill up vacancies. In the event of an Elector violating this rule all the nomination papers bearing his signature shall be cancelled. Every proposal must be in writing and must be signed by the proposer and seconder and be sent either by post or otherwise, so as to reach the Registrar at his Office not less than three clear weeks before the date of election. If the number of Candidates proposed do not exceed the number of Fellows to be elected, the Candidates so proposed shall be declared to have been duly elected; otherwise the following procedure shall be followed.

114. At least fifteen clear days before the day of election the Registrar shall forward to every Elector at his registered address a list of nominations received under Regulation 113 and a printed form of voting paper. The said list shall also be published at as early a date as possible in the *Bombay Government Gazette*.

115. Each Elector shall be entitled to as many votes as there are vacancies, but he shall not record more than one vote for any one of the Candidates. If more than one vote be recorded by any Elector for the same Candidate, such votes shall be reckoned as one vote. If the Elector record more votes than the number of vacancies, his votes shall be cancelled by the Registrar.

116. Voting papers furnished to Electors must be filled up in the manner described in Regulation 117 and forwarded by post or otherwise so as to reach the Registrar not later than 12 noon on the day of election.

117. The Elector shall record his votes by placing his initials on the voting paper against the name of every candidate for whom he wishes to vote and signing the voting paper at the foot thereof. The Elector's signature on the voting paper must further be attested by a Magistrate*, a Judicial or Political Officer, a gazetted officer of Government, or a member of the Senate of the University of Bombay for the time being. Without such attestation the voting paper shall be invalid.

118. Voting papers which do not contain the requisite particulars, or are not received by or within the time specified, shall be cancelled by the Registrar.

119. All valid voting papers received by or within the time specified in these Regulations shall, at 5-45 P.M. on the day of election, be scrutinized by the Registrar and any two Ordinary Fellows of the University nominated by the Syndicate. After the scrutiny is completed, the Registrar will forthwith report to the Vice-Chancellor the names of the required number of Candidates who have received the highest number of votes; and such Candidates shall be deemed to have been duly elected, subject to the Chancellor's approval.

120. If an equality of votes is found to exist between any two or more Candidates and the addition of a vote would entitle any of those Candidates to be declared elected, the determination of the Candidate or Candidates to

* The voting papers of Electors residing in Native States may be filled up in the presence of a British Officer in the Political Department not lower in rank than a Tharadar exercising Magisterial powers, or they may be filled in the presence of a Magistrate of a Native State whose signature should be authenticated by the countersignature of the Chief or the Karbhari or the Chief Judge of the Native State or of a Political Officer not lower in rank than an Assistant Political Agent or Deputy Assistant Political Agent.

whom such additional vote shall be deemed to have been given will be made by lot, to be drawn by the Registrar, in such manner as he and the persons nominated under Regulation 119 may determine. The result of such drawing by lot shall be final and conclusive.

121. The decision of the Registrar and the persons nominated under Regulation 119 or that of a majority of them in all cases falling under Regulations 115, 118, 119 and 120 shall be final and conclusive.

122. On the result of the election being so reported as aforesaid, the voting papers shall be destroyed.

123. The Vice-Chancellor, after the result of such election shall have been so reported as aforesaid, shall report to and for the approval of the Chancellor the names of the Candidates who shall have been duly elected under these Regulations.

124. The names of the elected Candidates shall, after the Chancellor has signified his approval, be published in the *Bombay Government Gazette*.

XIV.—ELECTION OF ORDINARY FELLOWS BY THE FACULTIES.

125. All members of the Faculty of _____* shall be entitled to vote at this election and shall be the only persons entitled to vote thereat.

126. A notification shall be sent out by the Registrar not less than 16 clear days before the day of election to each of the members of the Faculty specified in Regulation 125, appointing a Meeting of those members on a day to be named therein for the purpose of holding the election.

127. The Dean of the Faculty, or in his absence, the Senior Fellow present, will preside at this Meeting and shall have a vote and a casting vote.

128. The person or persons possessing the qualifications prescribed by the Chancellor under section 9. sub-section 2 of the Indian Universities Act shall be eligible for election under these Regulations and shall be the only person or persons eligible.

129. No Candidate shall be balloted for at the election unless he is eligible for election under Regulation 128 and a proposition in writing nominating him as Candidate (hereinafter called the Nomination Paper) shall have been received at the University Office not less than 5 clear days before the day of election. The decision of the Registrar as to whether a person is eligible for election (a) as following the profession of Education or (b) otherwise, shall be final, subject to the sanction of the Vice-Chancellor.

130. The Nomination Paper shall comply with the following regulations, failing which it will not be accepted :—

(a) It shall state whether a Candidate is a person following the profession of Education.

(b) It shall be signed by a proposer and seconder, both of whom must be persons entitled to vote at the election.

(c) When the same person signs more than one Nomination Paper than the number of vacancies, all such Nomination Papers shall be cancelled.

The decision of the Registrar on these points shall be final, subject to the sanction of the Vice-Chancellor.

131. Two clear days before the day of election, the Registrar shall send out to each of the Electors a list of all nominations that have been received fulfilling the conditions laid down in Regulations 129 and 130.

* Insert Arts, Science, Law or Medicine, as the case may be.

Whenever the Chancellor's directions render it necessary, the names shall be distributed in two groups as follows:—

- (a) Those nominated as following the profession of Education.
- (b) Others.

132. The election shall be by ballot by means of voting papers. Each Elector shall be entitled to as many votes as there are Fellows to be elected in each ballot; but he shall not record more than one vote for any one Candidate nor shall he record in any one ballot more votes than the number of Fellows to be elected in such ballot. In case he fails to attend to either of these provisions, his voting paper shall be cancelled.

133. The election shall be by ballot in the following order:—

- (1) Election of persons from among those whose names appear in group (a).
- (2) Election of persons from among those whose names appear in groups (a) and (b), excluding only those persons who have received the highest number of votes in the first election.

134. The Chairman shall select as many Scrutineers as he may consider to be necessary from among the proposers and seconders of the Candidates for the purpose of collecting the voting papers in each ballot. The votes shall be counted by the Scrutineers who shall submit a signed report in writing to the Chairman who shall declare the name or names of the Candidate or Candidates who shall have obtained the highest number of votes, and such Candidate or Candidates shall be declared to be duly elected, subject to the approval of the Chancellor.

135. If an equality of votes is found to exist between any two or more Candidates and the addition of a vote would entitle any of those Candidates to be declared elected, the result shall be determined by the casting vote of the Chairman given to one or more Candidates as may be necessary.

136. Any question as to the validity of any voting paper reported on by the Scrutineers shall be decided by the Chairman and such decision shall be final and conclusive.

137. After the result of the election has been declared as aforesaid, the Registrar shall forward to and for the approval of the Chancellor the names of the Candidates who shall have been declared to have been duly elected.

138. The names of the elected Candidates shall, after the Chancellor has signified his approval, be published in the *Bombay Government Gazette*.

XV.—UNCONTESTED ELECTIONS.

139. Notwithstanding anything contained in Regulation 6, Regulations 97 and 98 and 125 to 138, if the number of Candidates proposed do not exceed the number of vacancies to be filled, the Candidates so proposed shall be declared to have been duly elected without any Meeting being held for such election.

XVI.—ELECTION OF A MUNICIPAL COUNCILLOR BY FELLOWS RESIDENT IN BOMBAY.

140. Ten clear days before the day fixed for the election, the Registrar shall issue to all Fellows, both Ordinary and Honorary, residing in the city of Bombay.

a notification stating the date of the election and the number of vacancies to be filled.

141. No Candidate shall be entered on the list of nominations unless a proposition for his nomination in writing, signed by the proposer and seconder, who shall both be Fellows entitled to vote at the election, shall have been handed in to the University Office four clear days before the day fixed for the election.

142. In the event of the number of Candidates not exceeding the number of persons to be elected, the Candidate so nominated shall be declared as elected. In the event of the number of Candidates exceeding the number of persons to be elected, on the following day, the Registrar shall issue to each Fellow on the Fellows' Electoral Roll a copy of the list of nominations.

143. The election shall take place at the Sir Cowasji Jehangir Hall of the University between the hours of 4 and 6 p.m. on the day fixed and shall be conducted by the Registrar.

144. The election shall be by ballot by means of voting papers, which shall be delivered personally by the electors to the Registrar at the time and place aforesaid.

145. Each elector shall be entitled to as many votes as there are vacancies but shall not give more than one vote for one person.. In the event of an elector having given more than one vote for any one person, but not having voted for more persons than there are vacancies, then he shall be deemed to have given one vote for the person for whom he has voted, but in the event of his having voted for more persons than there are vacancies, then his voting paper shall be cancelled.

146. Immediately after 6 p.m. on the day of election all the voting papers shall be scrutinized by the Registrar and any two persons nominated by the Syndicate and they shall ascertain the number of valid votes given for each Candidate. The Candidate with the highest number of votes shall be returned by the Registrar as elected.

147. If an equality of votes is found on such scrutiny to exist between any two or more Candidates and the addition of a vote would entitle any of those Candidates to be declared elected, the determination of the Candidate to whom such one additional vote shall be deemed to have been given shall be made by lot to be drawn by the Registrar in such manner as he shall then and there determine.

148. The decision of the Registrar after such scrutiny and ballot (if any) as to the Candidate who is to be returned as duly elected shall be final; and on the result of the election being so ascertained as aforesaid the voting papers shall be destroyed.

XVII.—ENDOWMENTS.

149. A statement of all Endowment and Trust Funds held by the University shall be published annually in the University Calendar.

XVIII.—UNIVERSITY TERMS.

150. The University year for the Faculties of Arts, Science, Law and Medicine shall be divided into two terms.

The following is the arrangement of terms in each of the Faculties:—

Faculty.	First Term.		Second Term.	
	Date of Commencement.	Date of Conclusion.	Date of Commencement.	Date of Conclusion.
Arts	20th June ...	10th October.	10th November.	10th March.
Science (Science students).	20th June ...	10th October.	10th November.	10th March.
Science (Engineering students).	10th June ...	30th September.	1st November.	10th March.
Science (Agricultural students).	1st June ...	15th September.	15th October.	10th February.
Law	20th June ...	10th October.	10th November.	10th March.
Medicine	15th June ...	30th September.	15th November.	30th April.

151. Notwithstanding anything contained in Regulation 150, the Syndicate shall have the power, whenever they consider it necessary to do so, to shift a College vacation by a period not exceeding two weeks without in any way altering the period of its duration. In such cases, the period added to either term shall be regarded for the purposes of Regulation 153 as part of the other term which has been reduced.

152. Terms can be kept only by matriculated students who shall attend for a prescribed number of days at one or more of the Colleges or Institutions recognized by the University.

153. The following shall be the number of days' attendance necessary for keeping terms:—

Faculty.	First Term.	Second Term.
Arts (Arts students) ..	65	65
Science (Science students) ...	65	65
Science (Engineering students) ..	60	60
Science (Agricultural students) ..	70	70
Medicine	70	80
Arts (Commerce students) ..	Three-fourths of the days on which lectures are delivered.	Three-fourths of the days on which lectures are delivered.
Law	Do.	Do.

154. When a student, on account of *bona fide* illness, has attended less than 65 days but not less than 55 days in any one term of an academic year he may, at the discretion of the Principal of his College, be allowed to count both terms, provided that his total attendances throughout the same year amount to the total required for both terms under regulation 153.

For all Colleges in any town that may, in the judgment of the Syndicate, be affected with Plague or any other epidemic disease, the operation of Regulation 153 is suspended as regards the number of days' attendance to be required during any University term, and such attendance is at the discretion of the authorities of the institution to which each student belongs.

Principals of Colleges are empowered to excuse attendance to students who, having volunteered under the Indian Auxiliary and Territorial Forces Acts, are unable to attend College during the period they are under training or engaged in other military duties.

155. The Principals and Heads of Colleges and Institutions are requested to register the daily attendance of matriculated students with a view to being able to certify their having kept terms.

156. To keep a term at a College or Recognized Institution, an Undergraduate must go through the full course of study at that College or Institution prescribed for such term to the class to which such Undergraduate then belongs.

XIX.—EX-STUDENTS.

157. Except as herein otherwise provided, an ex-student who wishes to appear at any University Examination shall be admitted to that Examination if he has been admitted on a previous occasion for the same Examination, and produces a certificate to that effect from the Principal of the College from which he was sent up.

XX.—ALTERATION OF DATES OF EXAMINATIONS.

158. Whenever any of the days, on which any Examination has to be held according to the Regulations for the time being in force, happens to be a public holiday, or when in the opinion of the Syndicate there is sufficient reason for altering the days for holding any Examination as fixed by the Regulations, it shall be competent to the Syndicate to fix such days other than the days fixed by the Regulations for holding such Examination as they may consider proper: provided that notice shall be given by a notification in the *Bombay Government Gazette* of any such alteration of dates, as the Syndicate may direct, at least fifteen days before the day fixed by the Regulations for the commencement of such Examination.

XXI.—UNIVERSITY PROFESSORS, READERS AND LECTURERS.

159. Every University Professor, Reader or Lecturer who is to be paid from funds derived by grants from the Government of India shall be appointed with the sanction of the Governor in Council.

XXII.—RECOGNITION OF EXAMINATIONS OF OTHER UNIVERSITIES.

160. The Matriculation Examination of every statutory Indian University and the University of Mysore will be deemed equivalent to the Matriculation Examination of this University.*

161†. The Intermediate Arts and Intermediate Science Examinations of other Indian Universities and the University of London will be accepted as equivalent to the corresponding Examinations of this University in the case only of those Universities which reciprocate with this University in this respect. Where such reciprocation does not exist, the Intermediate

* The Examinations recognized under this regulation are the Matriculation or Entrance Examinations conducted and controlled by the Universities. Except in the case of the European High School Examination and the Government of India Simla School-Leaving Examination, Secondary School-Leaving certificates of a province other than Bombay are not accepted for the purposes of matriculation at this University even though they may entitle their holders to matriculate at some other University.

† With reference to Rule 161, the Syndicate after making enquiries as to reciprocity by the various Universities, have notified as follows:—

(a) That the Intermediate Arts and Science Examinations of the Calcutta, Punjab, Patna and Aligarh Universities be deemed equivalent to the corresponding Examinations of this University.

(b) That the Intermediate Examination of the Madras, Allahabad and Benares Universities be deemed equivalent to the Intermediate Arts Examination of this University if passed in a literary optional group and to the Intermediate Science Examination if passed in a science optional group.

(c) Principals of Colleges are desired by the Syndicate to note that in no circumstances will the First Year's College Examination by Colleges affiliated to any other Indian University be considered equivalent to the First Year College Examination by the Colleges affiliated to this University.

Arts Examination will be deemed equivalent to the First Year Certificate Examination of an Arts College affiliated to this University and will qualify for admission to the Intermediate Arts, Intermediate Science, Intermediate Commerce, Intermediate Agriculture and First Engineering Classes of this University and the Intermediate Science Examination will be deemed to qualify for admission to the Intermediate Science, Intermediate Agriculture and First Engineering Classes of this University.

A student passing the Intermediate Arts Examination of a University reciprocating with this University may join the Intermediate Science Class of this University.

162. The First Year Examination of the Mysore University will be deemed equivalent to the First Year Certificate Examination of an Arts College affiliated to this University.

***163.** In conformity with the principles underlying Regulations 160, 161 and 162, the Syndicate shall have power to declare any other Examinations of these or any other Universities equivalent to the Examinations of this University.

XXIII.—EXEMPTIONS.

164. Except as herein otherwise provided, a Candidate who has passed a University Examination in a subject or subjects in which identical papers or practical tests are prescribed for another Examination, shall (at his option) be entitled to exemption at the other Examination from such subject or subjects, provided always that the standard attained at the original Examination is not lower than that required at the other Examination. Candidates so exempted shall not be eligible for classes or for University awards, except that a B.A with Honours in Science, who appears at the B.Sc. Examination in the principal subject, shall be eligible for a class or a distinction or for any prize or scholarship awarded at the Examination according to his marks in his principal subject.

***In exercise of the power vested in them by this regulation, the Syndicate have declared the Examination for the Diploma in Commerce of the Punjab University as equivalent to the Intermediate Examination in Commerce of this University. They have also recognized the B.A., B.Sc. and B. L. Degrees of the Dacca University as equivalent to the corresponding Degrees of this University.**

IV

Regulations.

In the following Regulations the pronoun "he" and its derivatives, are used to denote either sex, the male or the female.

**REGULATIONS RELATING TO THE CONSTITUTION AND FUNCTIONS
OF THE JOINT EXAMINATION BOARD FOR CONDUCTING
THE SCHOOL-LEAVING EXAMINATION.**

1. On or before the 1st of January 1918 there shall be constituted a Joint Board consisting of ten members, five of whom, including the Chairman of the Board, shall be elected by the Senate from among the Ordinary Fellows, three shall be nominated by Government, and two schoolmasters of registered schools in the Presidency shall be co-opted by the other eight members.

2. The Board shall continue in office up to the end of June 1924.

3. The office of a member of the Board shall be vacated by death, resignation or by the member being absent from three consecutive ordinary periodical meetings.

4. If a member of the Board elected by the Senate ceases to be an Ordinary Fellow he shall cease to be a member of the Board. If a co-opted member ceases to be a schoolmaster he shall cease to be a member of the Board.

5. In the event of a vacancy occurring under the provisions of the two last preceding rules, the vacancy shall be filled up by the election, nomination, or co-option, as the case may be, of an eligible person by the body concerned, and the person so becoming a member shall hold office during the period for which the member whose place became vacant would have held office.

6. The University Registrar shall be the Ex-Officio Secretary to the Board. It will be competent to the Board to provide the necessary establishment to enable the Secretary to carry on the work of the Board.

7. The Board shall conduct the School-leaving Examination as provided for in the Regulations in that behalf, and it shall be competent to the Board to appoint Examiners and to make all necessary arrangements for the purpose.

8. The Board shall receive the fees paid by candidates for the Examination and, after paying thereout the emoluments of Examiners and all other necessary expenses for conducting the Examination and keeping in hand sufficient working balance for establishment and other charges, hand over the net balance to the University.

9. The Board shall keep a Register of schools permitted to present candidates for the School-leaving Examination. The schools that are on the list of registered schools maintained by the University and Government respectively on the 1st January 1918 shall be included in the Register to be kept as aforesaid by the Board, with the same conditions or limitations, if any, subject to which they stand in the University and Government lists. Fresh applications for registration should be addressed to the Secretary to the Board, accompanied by such information as may be prescribed by the Board. The conditions which shall ordinarily qualify for registration are:—

- (i) that the school supplies a want in the locality in which it is situated ;
- (ii) that the management is so constituted as to offer a reasonable prospect that the school will be well conducted ;
- (iii) that the teaching staff is sufficient and sufficiently qualified ;
- (iv) that the school is housed in suitable buildings and adequately equipped ;

- (v) that the resources at the disposal of the Managers are such as to afford a reasonable expectation that the school will be efficiently maintained;
- (vi) that the school maintains regular classes from the fourth standard upwards.

The Board may, at any time, and after due warning to the Managers, withdraw recognition from any school for failure to maintain the conditions of registration, provided that such withdrawal has been supported by eight out of the ten members of the Board.

10. It shall be the duty of every registered school—

- (a) to supply the Board with such returns and information as it may require;
- (b) to afford facilities for inspection to the members or representatives of the Board;
- (c) to maintain a school-record in the prescribed form for every pupil in the 6th and 7th Anglo-Vernacular Standards (or those corresponding to them in the case of other schools).

11. Every School shall pay a fee of Rs. 10 on being registered and all registered Schools shall pay the same fee in the month of July every year. Failure to pay the fee will involve the withdrawal of recognition.

**REGULATIONS RELATING TO THE SCHOOL-
LEAVING EXAMINATION.**

1. The Examination will be held once a year at Bombay and at such other places* as shall from time to time be determined by the Joint Board, commencing on the third Monday in March. It shall be competent to the Joint Board to hold one additional Examination, at some other convenient time in the year, for such candidates only as are qualified under the Regulations to appear at the March Examination of that calendar year. The first Examination shall be held in March 1919.

2. Candidates must forward their applications to the Secretary one month before the commencement of the Examination.

3. If a candidate, at the date of his application for permission to appear at the School-leaving Examination, belongs to a Registered School, he must submit his application through the Head Master of such School in the prescribed form. If such candidate has, during the period commencing from the month of June of the calendar year preceding that in which he applies, attended any other registered School or Schools, his application must further be countersigned by the Head Master of each such School.

4. If a candidate, at the date of his application for permission to appear at the School-leaving Examination, does not belong to a Registered School, he must appear at the Preliminary Examination to be conducted by any Registered School approved by the Board for that purpose, on payment of a fee fixed by the Board, and submit his application through the Head Master of such School with a certificate from the latter that he considers the candidate a fit person, as regards character and knowledge, to be admitted to the Examination. If such candidate has, during the period commencing from the month of June of the calendar year preceding that in which he applies, attended any Registered School or Schools, his application must further be countersigned by the Head Master of each such School.

5. One month before the commencement of the Examination, each candidate for the Matriculation or the Government Service certificate must pay or cause to be paid to the Secretary at Bombay or to such person as he may appoint in the Mutussil, a fee of Rs. 15, for which a receipt will be given. Candidates who

* The following places have been appointed by the Board :—Poona, Ahmedabad, Surat, Baroda, Rajkot, Dharwar, Kolhapur, Karachi.

† The fee fixed is Rs. 5.

take up subjects in excess of those required either for the Matriculation or the Government Service certificate must also pay an additional fee of Rs. 2 for every such subject.

6. Failure to pass the Examination will not disqualify the candidate for again presenting himself at any subsequent School-leaving Examination on a new application being forwarded and a fresh fee paid.

7. As soon as practicable after the conclusion of the Examination, the Board will publish a list of the candidates who qualify for Matriculation and Government Service with the total number of marks obtained by each candidate and the name of his School.

8. The certificate granted to the candidates will show the subjects in which they have passed, or passed with distinction*. Each certificate must bear the holder's signature in English. These certificates will be issued through the heads of the schools from which the candidates appeared.

9. The Board will conduct Examinations in the following subjects:—

- (1) English.
- (2) The Vernaculars of the Presidency (Marathi, Gujarati, Kanarese, Sindhi, Urdu and Portuguese) or an additional course in English.
- (3) Additional languages (Sanskrit, Avesta and Pahlavi, Arabic, Persian, Hebrew, Latin, Greek, French, German and Portuguese).
- (4) Arithmetic.
- (5) Algebra and Geometry.
- (6) History.
- (7) Geography.
- (8) Elementary Science.
- (9) Drawing and Manual Training.
- (10) Book-keeping and Commercial Correspondence.
- (11) Shorthand and Typewriting.
- (12) Domestic Science (for girls).

and such other subjects as the Board may approve.

A candidate may present himself in as many of the above subjects or other subjects approved by the Board as he likes.

A candidate who takes Portuguese as an additional language cannot offer it as a Vernacular and *vice versa*.

10. The Board shall frame a syllabus showing the nature of the examination in each subject in accordance with the following instructions or such other instructions as may be given from time to time by the University and Government jointly. The syllabus adopted by the Board shall be reported to the University and Government and published:—

English.—There shall be two papers including questions on prescribed texts and on grammar, composition, a passage for translation from the vernacular (with an option for those who do not offer any vernacular) and unseen passages.

Vernaculars.—There shall be one paper including questions on prescribed texts and on grammar, and composition and unseen passages and translation from English.

Additional Language.—There shall be one paper containing unseen passages for translation from and into English and questions in grammar.

Arithmetic.—There shall be one paper of two hours.

Algebra and Geometry.—There shall be two papers, each of two hours.

History.—There shall be one paper containing questions in the Histories of England and India.

* To gain distinction in a subject a candidate must obtain 60 per cent. of the full marks in that subject.

Geography.—There shall be one paper containing questions on general geography (Physical, Political and Commercial) and on the geography of the British Empire in particular.

Elementary Science.—There shall be one paper containing questions on the course approved by the Board.

<p><i>Drawing.</i> <i>Manual Training.</i> <i>Book-keeping and Commercial Correspondence.</i> <i>Shorthand and Typewriting.</i> <i>Domestic Science (for girls).</i></p>	}	<p>There shall be one paper in each subject containing questions on the course approved by the Board.</p>
--	---	---

11. The Examination shall be conducted by means of printed papers and in the following subjects also by *Oral* and *Practical* tests:—

Shorthand and Typewriting, Drawing and Manual Training, Domestic Science (if the Board deems it necessary). There shall be a written examination but no practical examination in Elementary Science.

12. Prior to admission to the Examination each candidate shall be required to produce a certificate from the Head Master of a registered school showing that he possesses facility in speaking and reading English and that he has completed a course in Vernacular or Optional English and Geography prescribed by the Board, and, if he offers Elementary Science, that he has carried out satisfactorily the practical course prescribed.

13. The candidates must answer the printed question papers in English.

14. The Board will require the Examiners in each subject to submit a detailed report on the work of the candidates examined by them, which will be circulated to the schools, and the Board will, as soon as possible after the publication of the results of each year's Examination, publish a general report on the Examination.

15. The School-leaving Examination certificate will be accepted by the University of Bombay for the purposes of Matriculation, provided the candidate has passed at one and the same Examination in English, an additional language, Arithmetic, Algebra and Geometry, History and has produced a certificate from the Head Master of a registered school showing that he possesses a satisfactory knowledge of Geography, Vernacular (or Optional English) and Elementary Science according to the courses prescribed by the Board and has carried out satisfactorily the practical courses prescribed in the latter subject.

N.B.—For passing under rule 17 Arithmetic, Algebra and Geometry will be considered as one subject and marks will be lumped together for that purpose.

16. A candidate who produces a certificate from the Head Master of a registered school showing that he possesses a satisfactory knowledge of Geography and who passes the School-leaving Examination in English, Arithmetic and History shall be qualified for Government service, provided that he also passes at the same Examination or within two years in a Vernacular and any two of the following subjects, namely, Algebra and Geometry, Elementary Science, Drawing and Manual Training, Book-keeping and Commercial Correspondence, Shorthand and Typewriting, and (in the case of girls) Domestic Science.

17. To pass the Examination, a candidate, who offers to be examined for the School-leaving Examination certificate which is either accepted by the University of Bombay for the purposes of Matriculation or which shall qualify him for Government service, shall obtain at least 33 per cent of the full marks in each paper in English and in the paper in Additional language, 25 per cent. of the full marks in each of the other subjects [excepting, however, subject (10) in which he must obtain 25 per cent. of the full marks separately in the sections dealing with (i) Book-keeping and (ii) Commercial Correspondence], and 33 per cent. in the grand total.

All other candidates for the Examination shall, to pass it, obtain at least 33 per cent. of the full marks in each subject in which they offer to be examined.

Should a candidate, however, fail by not more than three marks in one paper only in English or by any number of marks in one of the other subjects, he shall be declared to have passed the Examination if, on a review of his marks, a majority of not less than two-thirds of the Examiners present at the final meeting decide that he should pass, provided always that no candidate shall so pass unless he obtains at least 40 per cent. of the total marks in all subjects.

18. The Board shall have power to frame by-laws and rules for itself and for the Examiners appointed by it, not inconsistent with these regulations or any instructions given by the University and Government jointly.

19. The operation of regulations 1—5 and 10—17 of the regulations relating to the Matriculation Examination is suspended up to the end of June 1924.

20. All references in the University regulations to the Matriculation Examination shall, unless repugnant to the subject or context, be read as made to the School-leaving Examination.

I.—ARTS.

MATRICULATION EXAMINATION.

1—5. (The operation of these regulations is suspended up to the end of June 1924.)

6. The European High School Examination is considered equivalent to the Matriculation Examination of this University.

7. The Oxford and Cambridge Senior Local Examinations are each considered equivalent to the Matriculation Examination of this University, provided that the selected subjects of a candidate who wishes to take advantage of this equivalence include English, a Second Language, History and Geography, Mathematics and one of the Science subjects.

*8. Other Examinations may, on the recommendation of the Syndicate, be accepted by the Senate as equivalent to the Matriculation Examination in so far as they cover the required subjects and are equivalent in standard. As regards subjects which are not common to the two examinations, the candidate shall submit to an examination in these subjects at the University Matriculation Examination.

9. Whenever a candidate is exempted from the whole or part of the University Matriculation Examination he will be required to pay the full fee of Rs. 15.

10—17. (The operation of these regulations is suspended up to the end of June 1924.)

BACHELOR OF ARTS.

18. Candidates for the Degree of Bachelor of Arts must have passed the Matriculation Examination, and will be required to pass two subsequent examinations, the first to be called the Intermediate Examination in Arts, and the second the Examination for the Degree of Bachelor of Arts. Texts and periods of study are from time to time prescribed by the Syndicate, and text books are recommended by them where it is deemed desirable.

FIRST YEAR'S COURSE IN ARTS.

19. During the first year there is no University Examination for a candidate proceeding to a Degree in Arts. Such a candidate will be permitted at the end of the first year to enter on a course for the Intermediate Examination in Arts, provided that he produces a certificate (*vide* Form 6) from the Principal of an Arts College showing that he has satisfactorily carried out the work appointed by the University for the first two terms in Arts.

20. Heads of Colleges are empowered to charge for each candidate who applies to be examined as in Regulation 19 a fee of not more than Rs. 10.

Under the provisions of this Regulation the Senate has accepted the following Examinations as equivalent to the Matriculation Examination :—

- (1) The Preliminary Examination in General Education of the Educational Institute of Scotland and the Qualifying Examination of the Pharmaceutical Society of Great Britain (taken together).
- (2) The Government of India Simla School-leaving Certificate Examination, provided the candidate has passed in all the compulsory subjects as well as in the optional group (a) of that Examination and provided also he produces a certificate of having satisfactorily gone through a course of Elementary Science, both theoretical and practical.

The Head of each College shall also collect and forward to the Registrar of the University a fee of R. 10 for each Candidate who has been certified and shall submit the names of all Candidates who have been certified in accordance with Regulation 20 and the names of such Candidates shall be registered by the University.

21. The following are the subjects appointed by the University for the first two terms in Arts :—

- I.—English.
- II.—Second Language.
- III.—Mathematics.
- IV.—Elementary Physical Science.
- I.—ENGLISH.—Three papers.

There shall be three papers of two hours each, two on prescribed texts carrying 100 marks each, and one for composition carrying 100 marks also, which shall comprise an essay carrying 50 marks and exercises in composition based upon books prescribed for general reading which shall test the candidate's power of writing correct and idiomatic English. The Syndicate will prescribe texts before the commencement of the course for a particular year.

Each student should write at least 12 exercises in English composition in class to the satisfaction of his teacher during the year. Each College should keep a record of these exercises and the marks obtained in them for the purposes of inspection by the Inspection Committee of the University.

II.—SECOND LANGUAGE.—One paper.

One of the following :—

Sanskrit.	Latin.	Arabic.	Avesta and	Persian.
Greek.	Hebrew.	French.	Pahlavi. Pali.*	German.
Ardha-Mâgadhi.†				Portuguese.

Candidates will be examined in books prescribed by the Syndicate.

The paper in the Second Language will contain unseen passages for translation both out of that language into English and *vice versa*, and such passages shall together carry at least 30 per cent. of the total marks. It will also contain questions in grammar, as well as in the matter of the books prescribed (including passages for translation and explanation).

III.—MATHEMATICS.—Two papers.

Algebra.—One paper.

Indices, surds. Simultaneous equations involving quadratics and graphical illustrations. Quadratic expressions and graphs. Progressions. Simple Permutations and Combinations. Logarithms with application to Interest. Summation of squares and cubes of natural numbers. Binomial theorem for positive integral index.

Geometry treated in conjunction with Trigonometry of one angle.—One Paper.

Geometry.

The questions in Practical Geometry shall be set on the constructions contained in Schedule A together with easy extensions of them as riders if desired. A candidate should provide himself with a ruler graduated in

* Subject to the condition that a candidate taking this language has passed in Sanskrit at any preceding Examination conducted or recognized by this University. This condition will apply only to candidates who matriculate in 1921 or any following year.

† Subject to the condition that a candidate taking this language has passed in Sanskrit at any preceding Examination conducted or recognized by this University.

inches and tenths of an inch and in centimetres and millimetres, a set square, a protractor, compasses and a hard pencil. All figures should be drawn accurately.

The questions on theoretical Geometry shall consist of theorems contained in Schedule B, together with questions upon these theorems, easy deductions from them and arithmetical illustrations. Any proof of a proposition shall be accepted which forms a part of any systematic treatment of the subject; the order in which the theorems are stated in Schedule B is not imposed as the sequence of the treatment. Proofs which are only applicable to commensurable quantities shall be accepted. The use of intelligible abbreviations is recommended.

SCHEDULE A.

Division of straight lines into parts in any given proportions.

Construction of a triangle or a square equal in area to a given polygon.

Construction of common tangents to two circles.

Simple cases of the construction of circles from sufficient data.

Construction of a fourth proportional to three given straight lines and a mean proportional to two given straight lines.

Construction of a regular pentagon.

Description in a given triangle of a triangle similar and similarly placed to another given triangle.

Description of squares in a triangle and in or about a given quadrilateral.

SCHEDULE B.

Proportion : Similar Triangles.

If a straight line is drawn parallel to one side of a triangle, the other two sides are divided proportionally; and the converse.

If two triangles are equiangular, their corresponding sides are proportional; and the converse.

If two triangles have one angle of the one equal to one angle of the other and the sides about these equal angles proportional, the triangles are similar.

If two triangles have one angle of the one equal to one angle of the other and the sides about another angle of each proportional, the sides opposite the equal angles being homologous, the third angles of the triangles are either equal or supplementary.

The internal bisector of an angle of a triangle divides the opposite side internally in the ratio of the sides containing the angle, and likewise the external bisector externally.

In a right-angled triangle the perpendicular drawn from the right angle to the base will divide the triangle into two parts which are similar to the whole and to each other.

If an angle of a triangle be bisected by a straight line which cuts the opposite side, the sum of the rectangle contained by the two segments of that side and the square on the bisecting line is equal to the rectangle contained by the other two sides of the triangle.

If a perpendicular be drawn from a vertex of a triangle to the opposite side, the rectangle contained by the other sides of the triangle is equal to the rectangle contained by the perpendicular and the diameter of the circle described about the triangle.

The rectangle contained by the diagonals of a quadrilateral inscribed in a circle is equal to the sum of the rectangles contained by the two pairs of opposite sides.

The ratio of the areas of similar triangles is equal to the ratio of the squares on corresponding sides.

If two triangles (or parallelograms) have one angle of the one equal to one angle of the other, their areas are proportional to the areas of rectangles contained by the sides about the equal angles.

Concurrency and Collinearity.

If three concurrent straight lines are drawn from the angular points of a triangle to meet the opposite sides, the product of three alternate segments taken in order is equal to the product of the other three segments.

If a transversal is drawn to cut the sides or the sides produced of a triangle, the product of three alternate segments taken in order is equal to the product of the other three segments.

The three medians of a triangle meet in a point, and their common point is a point of trisection of each median.

The three lines drawn through the angular points of a triangle perpendicular to the opposite sides are concurrent.

The three lines which bisect the angles of a triangle are concurrent; and so also are the bisector of one of the interior angles of a triangle and the bisectors of the other two exterior angles.

The three lines drawn through the middle points of the sides of a triangle perpendicular to those sides are concurrent.

In any triangle the three middle points of the sides, the three feet of the perpendiculars drawn from the angular points on the sides, and the three middle points of the lines joining the orthocentre to the angular points all lie on a circle whose diameter is equal to the radius of the circumscribed circle and whose centre is the middle point of the line joining the orthocentre and circumcentre.

If from any point on the circumference of a circle, perpendiculars be drawn to the sides of an inscribed triangle, the three feet of the perpendiculars lie on a straight line.

Harmonic Section.

Division of a given straight line internally and externally so that its segments may be a given ratio.

The locus of a point whose distances from two fixed points have a constant ratio is a circle.

Centre of Similitude.

If any two unequal similar figures are placed so that their homologous sides are parallel, the lines joining corresponding points in the two figures meet in a point, whose distances from any two corresponding points are in the ratio of any pair of homologous sides.

Every straight line which passes through the extremities of two parallel radii of two fixed circles passes through one or other of the fixed points.

Pole and Polar.

If a straight line be drawn through a given point to cut a given circle the intersection of the tangents at the two points of section always lies on a fixed straight line.

If one point lie on the polar of another point, the second point lies on the polar of the first point.

Radical Axis.

Determination of the locus of points from which tangents drawn to two given circles are equal.

The radical axes of three circles taken in pairs are concurrent.

Construction of the radical axis of two given circles.

Expressions for radii of circumcircle, in-circle and ex-circle of a triangle.

Trigonometry.

Trigonometrical functions of positive angles less than two right angles.

The formulæ relating to triangles with radii of circles connected with triangles, formulæ for $\tan \frac{A}{2}$, etc.

Four figure logarithms.

Solution of triangles with simple two dimensional problems in heights and distances.

IV.—ELEMENTARY PHYSICAL SCIENCE.—One paper.

Each student shall complete a laboratory course in accordance with the regulations laid down from time to time by the Syndicate.

Students are expected to understand the principles involved in all the exercises of the course.

Each student shall record his observations directly in his laboratory journal and write therein a report on each exercise performed. The journals shall be regularly inspected by the instructors and certified at the end of the year.

On the recommendation of the Board of Studies, the Syndicate may modify from time to time as may be found necessary the details of the practical course laid down for the Examination.

Course of practical work at present prescribed.

Students will be required to carry out at least 25 of the following exercises practically in the laboratory :—

1. Measurement of lengths and areas, using the Metric System.
2. Construction and use of the Vernier.
3. Measurement of area of sheets of metal or cardboard by weighing.
4. Determination of the diameter of wires by linear measurement and weight.
5. Measurement of the volume of regular solids by using simple callipers and determination of their density by weighing.
6. Determination of the volume and density of solids, both heavier and lighter than water, by measuring the displacement of water when they are immersed in a graduated vessel and weighing the solids in air.
7. Determination of the density of liquids by means of a flask and balance.
8. Verification of the laws of equilibrium of three forces acting on a small body.
9. Verification of the law of Equality of Moments with experimental determination of the resultant of parallel forces.
10. Experimental determination of the centre of gravity of plates.
11. Measurement of the efficiency of any system of pulleys.

12. Experimental determination of the law of equilibrium on an inclined plane, and of the efficiency of the inclined plane as a machine.

13. Determination of co-efficient of statical friction by observations on a horizontal surface.

14. Determination of co-efficient of dynamical friction by observations on a horizontal surface.

15. Measurement of the acceleration produced by the action of a constant force upon a body and of the kinetic energy after the force has moved it through a certain distance.

16. Determination of the period of vibration of a pendulum—investigation of the relation between the length of the pendulum and the period of vibration.

17. Determination of the upward pressure of water, or any other liquid, on a solid immersed in it, by observation of the loss of weight.

18. Determination by means of the hydrostatic balance of the specific gravity of solids heavier than water.

19. Determination by means of the hydrostatic balance of the specific gravity of solids lighter than water.

20. Determination of the specific gravity of heavy solids by Nicholson's hydrometer.

21. Determination of the specific gravity of light solids by Nicholson's hydrometer.

22. Comparison of the densities of liquids by means of U-tubes.

23. Verification of Boyle's law for pressures less than that of the atmosphere.

24. Construction of a water thermometer, and comparison of the water thermometer with the mercury thermometer.

25. Observation of the error in the fixed points of a thermometer.

26. Measurement by means of a simple form of calorimeter of the specific heat of a solid.

27. Determination of the latent heat of fusion of ice.

28. Comparison of the conductivity of rods.

29. Comparison of the periods of vibrations of two tuning forks made to register their own vibrations.

30. Verification by means of the monochord of the laws of vibration of strings.

31. Verification of the laws of vibration of strings by means of Melde's experiment.

32. Calculation of the velocity of sound by experiments with resonators and tuning forks of known vibration frequency.

33. Measurement of the radiant energy of different sources of light by Rumford's photometer.

34. Verification of the laws of reflection in a plane mirror.

35. Determination of radius of curvature and focal length of a concave mirror by means of images.

36. Verification of the laws of refraction, using a rectangular block of glass.

37. Determination of the focal length of a convex lens by means of images.

INTERMEDIATE EXAMINATION IN ARTS.

22. The Intermediate Examination in Arts will be held annually at Bombay and at such other places as shall, from time to time, be appointed by the Syndicate*, commencing on the fourth Monday in March.

23. No candidate will be admitted to this Examination unless, after obtaining a certificate (*vide* Form 6) from the Principal of an Arts College showing that he has satisfactorily carried out the work appointed by the University for the first two terms in Arts, or else after passing the Previous Examination, he shall have kept two terms at a College or Institution recognized in Arts, and unless he produces satisfactory testimonials under Form 7.

24. Candidates must forward their applications (*vide* Form 7) to the Registrar on or before the 20th February accompanied by certificates of attendance during the first term. Certificates of attendance during the second term should be forwarded by Principals of Colleges on or before the 10th March (*vide* Form 8).

25. Each candidate must pay to the Registrar, through the Principal of his College or otherwise, as the Syndicate may direct, a fee of Rs. 25.

26. Failure to pass the Examination will not disqualify the candidate for presenting himself on a subsequent occasion on a new application being forwarded and a fresh fee paid.

27. Candidates will be examined in the following subjects :—

- I.—English.
- II.—Second Language.
- III.—Indian History and Administration.
- IV.—Mathematics or Logic.

I.—ENGLISH.—Three Papers.

There shall be three papers of two hours each, two on prescribed texts carrying 80 marks each, and one for composition carrying 90 marks, which shall comprise an essay carrying 45 marks and exercises in composition based upon books prescribed for general reading which shall test the candidate's power of writing correct and idiomatic English. The first two papers will contain questions of a grammatical kind as well as questions on the subject matter of the books. The poetry paper will contain at least one question of a more general kind on the poetic art illustrated in one or other of the texts; and the prose paper will contain at least one question involving elementary principles of composition. Some knowledge of the life and literary productions of each author is expected. The Syndicate will prescribe texts at least one year before the examination.

II.—SECOND LANGUAGE.—One paper of 100 marks.

One of the following :—

Sanskrit.	Latin.	Arabic.	Avesta and	Persian.
Greek.	Hebrew.	French.	Pahlavi.	German.
		Portuguese.	Pali.†	Ardha-Maga- Chi.‡

Candidates will be examined in books to be prescribed by the Syndicate at least one year before the examination.

* The following places have been appointed by the Syndicate :—Poona, Ahmedabad, Karachi.

† Subject to the condition that a candidate taking this language has passed in Sanskrit at any preceding Examination conducted or recognized by this University. This condition will apply only to candidates who matriculate in 1921 or any following year.

‡ Subject to the condition that a candidate taking this language has passed in Sanskrit at any preceding Examination conducted or recognized by this University.

The paper in Second Language will contain unseen passages for translation both out of that language into English and *vice versa*, and such passages shall together carry at least 30 per cent. of the total marks. It will also contain questions in grammar, as well as on the matter of the books prescribed (including passages for translation and explanation).

III.—INDIAN HISTORY AND ADMINISTRATION.—One paper of 100 marks.

(a) A period of Indian History.

(b) Indian Administration—

The Secretary of State for India and his Council.

The Government of India.

The Provincial Governments.

District Administration.

Village Organization.

Legislative Councils.

Municipal and Local Self-Government.

Finance.

Land Revenue.

Law and Justice.

Police and Jails.

Education.

Medical Relief and Sanitation.

Public Works.

Famine and Famine Relief.

IV —MATHEMATICS OR LOGIC—Two papers (of three hours) of 100 marks each.

IV.—(a) MATHEMATICS.

Two papers (of three hours) of 100 marks each.

Paper I.

(a) *Trigonometry*—

Trigonometrical functions of any angle, graphs of $\sin x$, etc. Addition formulæ, etc. Properties of triangles. Use of logarithm tables. Solution of general equations. Circular measure and $\sin \theta < \theta$, etc. Simple problems in 3 dimensions in heights and distances.

Summation of $\sin a + \sin (a + \beta) + \dots\dots\dots$
 $\cos a + \cos (a + \beta) + \dots\dots\dots$

Inverse functions.

(b) *Analytical Geometry (Rectangular axes only)*—

Meaning of a graph, equations of a straight line, two straight lines, circle. Equations of the parabola and ellipse referred to the principal axes. Simple tangent and normal properties of these curves. Geometrical illustrations should be given but are not to be required in the Examination. Parallel chords, two tangent properties, etc., to be excluded.

Paper II.

(c) *Solid Geometry*—

Elementary properties of lines and planes. Surfaces and volumes of parallelopipeds, pyramids and cones.

(d) *Calculus*—

Differentiation of simple functions; second differential co-efficient; statements of binomial, exponential and logarithmic series and those for $\sin \theta$, $\cos \theta$, $\tan^{-1} \theta$; maxima and minima by general and graphical considerations; applications to the tangent and normal properties of conic sections and other simple curves; integration as the inverse of differentiation; direct integration of simple functions; integration by parts; definite integration and application to simple cases of areas; uniform and uniformly accelerated motion.

IV.—(b) LOGIC.

Two papers (of three hours) of 100 marks each.

1. The nature and scope of Logic and its relation to the other sciences.
2. Names and Terms—Classification of terms, denotation and connotation of terms.
3. The Predicables.
4. Propositions—their classification and import.
5. Nature of Inference and the laws of Thought.
6. Immediate Inferences.
7. The Syllogism. Nature and rules of syllogistic reasoning. Moods and figures.
8. Direct and Indirect reduction of arguments. Enthymeme. Sorites.
9. Hypothetical and Disjunctive arguments. The Dilemma.
10. Probable Reasoning.
11. Definition.
12. Classification and Division.
13. The nature and presuppositions of Induction.
14. Empirical Laws.
15. Inductive Methods.
16. Observation and experiment.
17. Explanation.
18. Hypothesis.
19. Analogy.
20. Fallacies—Deductive and Inductive.

28. The Examination will be conducted, so far as practicable, by means of printed questions to be answered in English, except when otherwise specified.

29. To pass the Examination the Candidate must obtain 30 per cent. of the full marks in the paper on English Composition, 30 per cent. in all the three papers in English (taken together), and 30 per cent. in each of the other subjects. Should a Candidate, however, not obtain 30 per cent. of the full marks *in one head of passing only*, he shall be declared to have passed the Examination, if on a review of the Candidate's marks, a majority of not less than two-thirds of the Examiners present decide that the Candidate should pass, provided always that no Candidate shall so pass unless he obtains at least 40 per cent. of the total marks in all subjects. Those of the successful Candidates who obtain 60 per cent. of the total marks obtainable will be placed in the First Class, and those obtaining 45 per cent. in the Second Class.

30. A candidate who has obtained 40 per cent. of the total marks in any subject may, at his option, be excused from appearing in that subject at a subsequent examination and will be declared to have passed the whole examination when he has passed in all the subjects of the examination, provided that in the subject or subjects in which he appears on the last occasion he must obtain the minima in each paper or subject required by Regulation 29. Candidates passing the examination in this manner in compartments will not be eligible for a class or for any prize or scholarship to be awarded at the examination.

31. On such day as the Syndicate may appoint the Examiners will publish a list of successful candidates in two Classes and Pass, the names in each Class and Pass being arranged in alphabetical order.

32. A Certificate will be given to those who pass the Examination (*vide* Form 9).

EXAMINATION FOR THE DEGREE OF B.A.

33. The written portion of the Pass Examination for the Degree of Bachelor of Arts will be held twice a year in Bombay, Poona, Karachi and Ahmedabad, commencing on the Monday following the fourth Monday in March and on the first Monday in October. The oral and practical examinations will be held in Bombay after the conclusion of the written examination. The Honours Examination will be held once a year in Bombay, commencing on the Monday following the fourth Monday in March. The Honours Examination in Sanskrit, History and Philosophy will be held also in Poona.

34. No candidate will be admitted to this Examination unless, after passing the Intermediate Examination in Arts, he shall have completed the minimum attendance at courses of instruction in the subjects offered by him during four terms in one or more Colleges each of which is recognized for the course offered and unless he produces satisfactory testimonials under Form 10.

N.B.—Students who have passed the B.Sc. Examination of this University will be allowed to take the B.A. (Pass) degree by passing subsequently the Intermediate Arts and B.A. Examinations in one year or one after another in this order. They will not be required to keep terms at a College and may at their option be excused an examination in the following subjects:—

Intermediate Arts—Mathematics (In the case of those who have passed the I.Sc. in Group A or B Sc. in Mathematics and Physics).

B.A.—Optional subject (In the case of those who have passed the B.Sc. Examination in any of the groups (a) Mathematics (Principal) and Physics, (b) Physics and Chemistry, (c) Botany and Zoology).

Candidates claiming this exemption at any Examination will not be classed or be eligible for prizes at that Examination.

35. A student who has passed in all subjects but one at the Intermediate Arts Examination in conformity with Regulation 30 of that Examination will be allowed to keep terms for the B.A. Examination and will be allowed to appear for the B.A. Examination after keeping four terms, but will not be declared to have passed that examination under any circumstances, unless he has passed in the remaining subject of the Intermediate Examination held either in a previous or in the same examination season.

36. Candidates wishing to appear at the April Examination must forward their applications (*vide* Form 10) to the Registrar on or before the 20th February accompanied by certificates of attendance during the first three terms. Certificates of attendance during the fourth term should be forwarded by Principals of Colleges on or before the 10th March (*vide* Form 8). Candidates wishing to appear at the October Pass Examination must forward their applications to the Registrar on or before the 1st September. Certificates of attendance during the fourth term should, if necessary, be forwarded by Principals of Colleges on or before the 30th September.

37. Each candidate must pay to the Registrar, through the Principal of his College or otherwise, as the Syndicate may direct, the admission fee. The admission fee is Rs. 50 for the Honours Examination, Rs. 45 for the Pass Examination in Science subjects, and Rs. 40 for the Pass Examination in other subjects.

38. Failure to pass the Examination will not disqualify the candidate from presenting himself on a subsequent occasion on a new application being forwarded and a fresh fee paid.

39. The Examination will be conducted, so far as practicable, by means of printed questions to be answered in English, except when otherwise specified: provided that candidates who offer the Vernacular Languages

will have the option of answering all the questions in the papers on those languages except the one for translation into English in the Vernaculars which they offer.

40. Candidates who appear only for the Pass Degree Examination must, in order to pass the Examination, obtain at least 30 per cent. of the full marks separately in Compulsory English and in the Optional Group. In Group (e) or (f) candidates must also obtain at least 30 per cent. of the full marks allotted to the practical examinations taken together. Should a candidate, however, not obtain 30 per cent. of the full marks either in Compulsory English or in his Optional Group, he shall be declared to have passed the Examination if, on a review of his marks, a majority of not less than two-thirds of the Examiners present decide that he should pass, provided always that no candidate shall so pass unless he obtains an aggregate of at least 40 per cent. of the total marks obtainable.

41. A candidate who has obtained 40 per cent. of the total marks in any subject at any one examination may be excused from appearing in that subject (provided he has obtained the minima in the practicals of that subject required by Regulation 40) at a subsequent examination and will be declared to have passed that Examination when he passes in the remaining subject as required by Regulation 40.

42. Candidates who appear for the Honours Examination in English, Sanskrit, Avesta and Pahlavi, Latin, Persian, Arabic, French, German, History and Economics or Mental and Moral Philosophy must obtain at least 30 per cent. of the full marks separately (a) in Compulsory English and (b) in the four optional papers (taken together), which they have in common with the candidates for the Pass Examination. Candidates will be declared to have passed with First Class Honours if they obtain not less than 60 per cent. of the total number of marks in all the Honours papers as defined in paragraph 3 or 4, regulation 40, of the subject or group in which they appear for Honours, and with Second Class Honours if they obtain not less than 40 per cent. of the total number of marks in all the above papers. Those who obtain less than 40 per cent. but have obtained not less than 30 per cent. in the papers which they have in common with the Pass Examination will be entitled only to the Pass Degree and will be placed in the same list with those who have obtained the Pass Degree; and the latter part of Regulation 40 shall apply to the case of such candidates, their Pass papers only being considered.

43. Of those candidates who appear for Honours in Mathematics, Physics and Chemistry, or Botany and Zoology, and have obtained not less than 30 per cent. of the full marks in Compulsory English, such as have obtained not less than 60 per cent. in their Honours papers will be declared to have obtained First Class Honours, and such as have obtained not less than 40 per cent. will be declared to have obtained Second Class Honours. Those who obtain less than 40 per cent. will be declared to have obtained a Pass Degree if the Examiners of the Group recommend that the Pass Degree be given. In Groups (e) and (f), candidates for Honours, in order to be entitled to Honours, must obtain also at least 30 per cent. of the full marks in the written papers and 40 per cent. in the practical examinations in each subject of the group. Should a candidate, however, fail under not more than one head of passing, he shall be declared to have passed the Pass Examination if, on a review of his marks, a majority of not less than two-thirds of the Examiners present decide that he should pass, provided always that no candidate shall so pass unless he obtains an aggregate of at least 40 per cent. of the total marks obtainable.

44. A candidate who has obtained 40 per cent. of the total marks in Compulsory English at any one examination but failed to pass in the honours.

examination will, if his honours subject be a subject other than English, be excused the examination in Compulsory English and allowed to appear for the honours examination on a subsequent occasion. He will be required to take all papers excepting those in Compulsory English and will be eligible for first or second class honours if he qualifies for them according to rule 42 or 43. A candidate who has failed in Compulsory English but obtained 40 per cent. of the full marks in the pass papers of the optional group Languages, History and Economics, or Philosophy, or the same percentage in the optional group Mathematics, Physics and Chemistry, or Botany and Zoology, will be excused the examination in the optional group at a subsequent examination and will be declared to have passed the *Pass Examination* on his passing in Compulsory English according to the standard laid down in Regulation 40. Candidates passing the examination in compartments according to the provisions of rules 41 and 44 will not be eligible for any prizes or scholarships awarded at the examination.

45. A candidate who has been found qualified for a pass degree will be permitted to appear on a subsequent occasion at the examination for the degree of B.A. with honours. He will be required to take all the honours papers as defined in paragraph 3 or 4 of Regulation 49, and will be eligible for first or second class honours if he qualifies for them according to Regulation 42 or 43.

46. A candidate who has been found qualified for the degree with first or second class honours in any subject or group will be permitted to appear on a subsequent occasion for the honours examination in another subject or group. He will be required to take all the honours papers as defined in paragraph 3 or 4 of Regulation 49, and will be eligible for first or second class honours if he qualifies for them according to Regulation 42 or 43. Candidates passing the examination according to the provisions of Regulations 45 and 46 will not be eligible for any prizes or scholarships awarded at the examination.

47. As soon as practicable after the conclusion of the examination the Examiners will publish a list of successful candidates, in two Classes and Pass, the names in each Class and Pass being arranged in alphabetical order.

48. A certificate will be given to every candidate who passes the Examination (*vide* Forms 11 and 12).

49. Candidates will be examined in the following subjects :—

I.—English Language and Literature, with Composition.

II.—One of the following six groups :—

- (a) Languages.
- (b) Mathematics.
- (c) History and Economics.
- (d) Mental and Moral Philosophy.
- (e) Physics and Chemistry.
- (f) Botany and Zoology.

There shall be an Honours Examination in English, Sanskrit, Avesta and Pahlavi, Latin, Persian, Arabic, French, German, Mathematics, History and Economics, Philosophy, Physics and Chemistry, and Botany and Zoology.

For the Honours Examination, there shall be eight papers in English (three in Compulsory English and five in Optional English), seven papers in Mathematics, History and Economics, and Philosophy, and five in each of the Languages, Sanskrit, Avesta and Pahlavi, Latin, Persian, Arabic, French, German; these shall consist of the ordinary Pass papers and three additional papers; each additional Honours paper shall carry 150 marks, except in Mathematics in which the Problem paper shall carry 130 marks and the other six papers 120 each.

The Honours Examination in groups (e) and (f) will be identical with the Subsidiary B.Sc. Examination in each subject of the group.

For the Pass Examination, there shall be two papers in Optional English and two in each of the other Languages, and four in each of the subjects, Mathematics, History and Economics, and Philosophy, each paper carrying 100 marks. In groups (e) and (f) there shall be two papers and two practical examinations in each of the two subjects of either group. In group (e) or (f) for the Pass Examination there will be 75 marks for each paper and 25 for each Practical.

I.—ENGLISH—Three papers.

In English, there will be three papers, one on prescribed poetry texts (100 marks), one on prescribed prose texts (100 marks), and one for composition on a theme relating to the books or subjects prescribed for the examination (50 marks). The poetry paper will contain at least one question on poetic or dramatic art as illustrated in the texts; and the prose paper will contain at least one question on prose style. Some knowledge of the life, works, and literary characteristics of each author is expected. The Syndicate will prescribe texts at least two years before the examination.

II.—OPTIONAL GROUPS.

(a) LANGUAGES.

Two languages to be selected from the following provided that both these languages are not taken out of the last four:—English, Sanskrit, Greek, Latin, Hebrew, Arabic, French, Avesta and Pahlavi, Pali, Persian, German, Portuguese, Ardha-Magadhi, Marathi, Gujarati, Kanarese, Urdu.

ENGLISH—(*Pass Examination*).

In English, there will be two papers, one on a prescribed period of literature and one on prescribed texts. In order that the student may supplement his study of histories by a direct acquaintance with leading authors, books or portions belonging to the period will be named for general but not minute reading. The Syndicate will appoint and announce the subjects at least two years before the examination.

(*Three additional papers for Honours.*)

There will be three additional papers: one on prescribed poetry texts, one on prescribed prose texts, and a third of a more general character containing critical questions suggested by the texts and questions on (a) principles of English Prosody and (b) principles of English Criticism, as in text-books to be prescribed from time to time by the Syndicate. The candidate will be expected to show some critical knowledge of the literary forms prescribed and of the relation of the authors to the ideas and literary fashions or tendencies of their time. The Syndicate will appoint and announce the texts at least two years before the examination.

LANGUAGES OTHER THAN ENGLISH—(*Pass Examination*).
Two papers.

Sanskrit.	Hebrew.	Avesta and Pahlavi.	German.	Gujarati.
Greek.	Arabic.	Pali.*	Ardha-Māgadhi†	Kanarese.
Latin.	French.	Persian.	Marathi.	Urdu.
				Portuguese.

In all Languages other than English books both of prose and poetry will be prescribed and the papers will contain unseen passages for translation both out of the language into English and *vice versâ* and such passages shall together carry at least 25 per cent. of the total marks. The papers will also contain questions of a critical and historical nature bearing on the texts, as well as passages for translation and explanation from the text books. In Persian, French, German, Marathi, Gujarati, Kanarese and Urdu, one or more questions will require to be answered in those languages and there will be an oral examination carrying 30 marks.

In Greek, Candidates will be supposed to understand the principles of iambic and hexameter verse and the chief peculiarities of Homeric dialect, grammar and syntax; in Latin, a knowledge of the metres used by Horace will be required.

(*Three additional papers for Honours*).‡

Two papers will be set in additional text books to be prescribed by the Syndicate at least three years before the examination. Candidates will be examined in the text books prescribed. Some knowledge will be required of literature and of the philosophical or literary or historical environment of the authors of the books prescribed.

In Sanskrit, all the three papers will be on the text books.

In Persian, Arabic, French and German, in the papers on the text books, one or more questions will require to be answered in those languages.

The third paper in Latin and Avesta and Pahlavi will contain unprepared passages for translation into English and *vice versâ*.

In Persian, Arabic, French and German, the third paper will contain a short essay in the language on the history of its literature, or on a subject connected with the course, paraphrase of an unseen passage, and translation from and into English, unseen.

(b) MATHEMATICS—(*Pass Examination*).—Four papers.

Paper I.

Algebra and Theory of Equations—

Convergency, Binomial, Exponential, Logarithmic Series including De Moivre's Theorem, hyperbolic functions, series for $\sin \theta$, $\cos \theta$.

Partial fractions, summation of simple series.

Theory of equations, as in Hall and Knight's Algebra.

Analytical Geometry of parabola, ellipse, hyperbola including polar co-ordinates. Also reduction and tracing of curves given by the general equation of the second degree.

* Subject to the condition that a candidate taking this language has passed in Sanskrit at any preceding Examination conducted or recognized by this University. This condition will apply only to candidates who matriculate in 1921 or any following year.

† Subject to the condition that a candidate taking this language has passed in Sanskrit at any preceding Examination conducted or recognized by this University.

‡ No Examination for Honours is held in Greek, Hebrew, Pali, Ardha-Māgadhi-Portuguese, Marathi, Gujarati, Kanarese and Urdu.

*Paper II.**Differential and Integral Calculus and Differential Equations—*

Taylor's theorem for a single variable and expansions. Partial differentiation, notation and application to two variables. Undetermined forms, maxima and minima of one variable including implicit functions. Application to curves with elementary theory of singular points, curve tracing and fundamental formula for radius of curvature.

Integral Calculus—

Integration and evaluation of areas, lengths, surfaces and volumes of revolution, centroids and centres of pressure. Differential equations, the standard forms of the first order and linear equations with constant coefficients.

Paper III.

Statics including virtual work of two dimensions and application to frameworks.

Dynamics—Elementary (methods of calculus permitted but not required).

Paper IV.

Hydrostatics.

Astronomy treated mathematically but without the use of spherical trigonometry.

MATHEMATICS—(*Honours Examination*).—Seven papers.

Paper I.

Analytical Geometry of conic sections including polar co-ordinates, oblique axes and general equation of second degree.

Algebra and Theory of Equations.—The pass course together with determinants of fourth order and multiplication of determinants. The numerical solution of equations and theory and solution of cubic and biquadratic.

*Paper II.**Trigonometry and Differential Calculus—*

Trigonometry may be treated by the methods of the calculus and will include De Moivre's Theorem, expansions of $\sin n\theta$, $\cos n\theta$ in powers of $\cos \theta$, expansions and infinite products for $\sin \theta$, $\cos \theta$ with partial fraction expressions obtained by differentiation. Factorisation.

Taylor's Theorem for two variables, partial differentiation, radius of curvature, singular points and easy curve tracing. Maxima and minima of functions of two variables.

*Paper III.**Integral Calculus and Differential Equations—*

Pass course together with elementary definite integrals, the double integral (excluding transformation) centroids, centres of pressure, moments of inertia. Fourier's Series without formal proof, with illustrations.

Ordinary differential equations of the second order excluding integration by series.

Paper IV.

Spherical Trigonometry.—Properties of triangles relating to sides and angles. Napier's analogies and formulæ of right angled triangle. Solution of triangles.

Solid Geometry.—Analytical geometry of point, line, plane, sphere and ellipsoid referred to its principal axes.

Paper V.

Statics.—Principally two dimensions.

Principle of virtual work for two dimensions with application to frame-works. Simple applications of the funicular and force polygons. Equilibrium of strings in two dimensions.

Dynamics—

Elementary, with rectilinear and simple harmonic motion and pendulum. Parabolic motion and motion when variation of gravity is taken into account. Principles of momentum, work, energy. Collision of two bodies. Integration of motion under the law of gravitation and motion in ellipse and parabola. Composition of harmonic motions. Motion about a fixed axis.

Paper VI.

Hydrostatics—

Equilibrium of floating bodies. Metacentre for surfaces of revolution. Centre of pressure treated by the integral calculus. Rotating fluids about a vertical axis under gravity. Laws of gases, hydrostatic and pneumatic machines.

Astronomy—

General, with use of properties of right angled spherical triangle, excluding all errors and correction formulæ.

Paper VII.

A problem paper.

(c) **HISTORY AND ECONOMICS**—(*Pass Examination*).—Four papers.

1. History of England (Political and Constitutional).
2. Political Economy.
- 3 and 4. Any two of the following :—
 - (i) History of Rome and the Outlines of the History of Greece.
 - (ii) A Period of Indian History.
 - (iii) European History.

(*Three additional papers for Honours.*)

5. Politics.
6. Indian Economics.
 - Taxation. Currency and Banking.
 - The Co-operative Movement.
 - Land Tenures. Capital and Labour.
 - Village Communities.

7. Essay.

(d) **MENTAL AND MORAL PHILOSOPHY**.—(*Pass Examination*).

The course in Philosophy shall be as follows :—

(i) **ELEMENTS OF ETHICS**—(One paper).

1. The nature and methods of Ethics and the relation of Ethics to the allied sciences.
2. The Psychology of moral action—appetite, impulse, desire, will.
3. The nature and the object of the moral judgment.
4. Theories of the moral ideal—Hedonism (Egoistic and Universal), Intuitionism, Eudæmonism, Self-realization.
5. The nature of particular virtues and duties, and their derivation from the moral ideal.

6. The origin and growth of the chief ethical conceptions.
7. The metaphysics of Ethics—the problems of freedom, immortality, God.

(ii) **ELEMENTS OF PSYCHOLOGY.**—(One paper).

1. The nature and methods of Psychology and the relation of this science to the allied sciences.
2. Physiological Psychology—a general knowledge of the structure and functions of the brain and of the nerves. The functions of the various senses ; stimulus and sensation, the Weber-Fechner Law.
3. Definition and classification of states of mind.
4. Sensation and perception—perception of space, time and external objects ; illusions and hallucinations.
5. Imagination—productive and reproductive. The laws of association.
6. Conception, judgment, reasoning. Thought and language.
7. Nature and classification of the emotions. Description of the chief emotions.
8. Conation—instinct, impulse, desire, volition.

(iii) **HISTORY OF PHILOSOPHY.**—(One paper).

1. History of Ancient Philosophy up to Aristotle.*
2. History of Modern Philosophy from Descartes to Kant.

These subjects to be taken alternately every two years.

Examiners are expected to set only such questions as can be answered from standard books.

(iv) **PHILOSOPHICAL ESSAY.**—(One paper).

The Essay paper shall contain at least four questions ; and not more than two shall be attempted.

(Three additional papers for Honours.)

(v) **HISTORY OF ETHICS.**—(One paper).

The course shall be determined by, and the questions limited to, the prescribed text-book.

(vi) **METAPHYSICS.**—(One paper).

1. The method and scope of metaphysics and its relation to science, natural and normative.
2. Theories of knowing—empiricism, rationalism, criticism, pragmatism.
3. Theories of the nature of Being—monism and pluralism.
4. Theories regarding the relation of Mind and Body.
5. The problem of personality—divine and human.

(vii) **SPECIAL PHILOSOPHER.**—(One paper).

The Syndicate shall determine upon one of the following special texts at least two years before the Examination :—

(a) Spinoza : Ethics, Part I.

* The Philosophy of Aristotle is *not* included in this course.

- (b) Hume: Enquiry concerning Human Understanding, omitting Sections X and XI.
- (c) Plato: Republic.
- (d) Locke: Essay on Human Understanding, Books I and II.
- (e) Berkeley: Treatise on Human Understanding and Dialogues between Hylas and Philonous.

(e) PHYSICS AND CHEMISTRY.—(*Pass Examination.*)

(i) PHYSICS.

(Two papers and two practical examinations.)

Candidates will be examined in the subjects specified for the Intermediate Examination in Science with the addition of the following :—

Mechanics of Solids and Fluids.

Dimensions of derived units. Use of dimensional equations.

Composition of uniform motion with uniformly accelerated motion.

Composition of simple harmonic motions. Fourier's theorem.

Conservation of energy.

Motion of a rigid body. Kinetic energy of rotation.

*Moment of inertia, and radius of gyration. Calculation of moment of inertia for rod, and for circular disc about its centre.

*Periodic time of a compound pendulum.

Theory of the balance.

Deviations from Boyle's law. Manometers. Barometers. Corrections to the barometer. Air pumps.

Kinetic theory of gases. Pressure exerted by a gas. Avogadro's law.

Hydraulic press.

Cohesion and surface tension of liquids. Angle of contact. Capillarity.

Heat.

Calibration of thermometer tube. Errors of the mercury thermometer.

Compensation of clocks and watches.

Maximum density of water. The gas thermometer.

The two specific heats of gases. Dulong and Petit's law.

Effect of pressure on melting point. Vapour density. Measurement of vapour pressure. Mixture of gases and vapours.

Prevost's theory of exchanges. Coefficients of absorption and emission.

Rowland's method of determining the mechanical equivalent of heat.

Relation between the mechanical equivalent and the two specific heats of a gas.

* Portions not marked with an asterisk are sufficiently treated in Watson's Text-Book of Physics

Sound.

Waves on the surface of a liquid. Interference and reflection of waves.

Stationary waves.

Musical scale. Temperament. Harmonics. Overtones.

Interference of sound waves. Doppler's principle. Beats.

Transverse and longitudinal vibration of strings and rods. Tuning forks. Lissajou's figures.

Vibrating columns of gases. Organ pipes.

Forced and free vibrations. Kundt's experiment.

Light.

Measurement of angles with mirror and scale. Sextant. Images in two plane mirrors. Parabolic mirrors.

Total internal reflection.

The eye as an optical instrument. Defects of vision.

Compound microscope. Telescope.

Velocity of light by methods of Romer, Fizeau, Foucault and Bradley. Theories of the nature of light.

Dispersive power. Achromatic prisms. Direct vision spectroscop.

Interference of light from two image sources. Fresnel's mirrors and bi-prism.

Spectra. Absorption of light. Fraunhofer's lines.

Plane polarisation. Double refraction. Nicol's prism.

Magnetism and Electricity.

Action of one magnet on another. Time of vibration of a magnet.

Measurement of magnetic field intensity. Terrestrial magnetism.

Specific inductive capacity. Energy of a charged body. Tubes of force.

Potential and capacity of a uniformly charged sphere. Quadrant electrometer.

Electrical machines.

Strength of field due to current in straight and circular conductors. Sine galvanometer.

Mechanical equivalent of heat from electrical experiments.

Intensity of magnetisation. Magnetic induction and magnetising force. Permeability.

Magnetic shell. Magnetic field in a long solenoid.

The earth inductor. Foucault currents. Induction coil.

Gramme armature. Series, shunt and compound field windings in dynamos.

Electric telegraph. Telephone. Microphone.

Practical system of electro-magnetic units.

Electrolytic dissociation. Storage cell.

Paper I.—Mechanics of Solids and Fluids, General Properties of Matter, Sound and Heat.

Paper II.—Light, Electricity and Magnetism.

The subject to be treated experimentally and mathematically (using the mathematics of the Intermediate Examination in Arts) as in the text books to be recommended from time to time by the Syndicate.

The first of the two practical examinations will be on the exercises prescribed for the Intermediate Examination in Science. The second will consist of more advanced exercises.

The regulations for the practical work and practical examinations are the same as for the Intermediate Examination in Science.

(ii) CHEMISTRY.

(Two papers and two practical examinations of not more than six hours each.)

Candidates will be examined in the subjects specified for the Intermediate Examination in Science with the addition of the following :—

Fundamental laws of chemical combination—Mass action—The elements—Atomic weights and the general methods adopted for their determination. The molecular theory and its application to chemical compounds.

Gases and the laws relating to them. The kinetic theory of gases.

Liquids and their properties. Elementary notions as to the nature of solution. Colloidal solutions.

Elementary notions as to chemical dynamics; chemical equilibrium and balanced actions, catalysis, dissociation, chemical affinity, elements of thermo-Chemistry.

Boron and its principal compounds.

Manufacturing methods with special reference to the alkali and sulphuric acid industries.

The remaining elements (except the metals of the rare earths) and their compounds treated in less detail.

The relation of the elements and their compounds to one another. Periodic law.

Analysis of organic compounds; empirical and molecular formulae; determination of molecular weight. Classification of organic compounds. Chief hydrocarbons of the fatty series and their halogen derivatives.

Alcohols; Ethers. Fermentation.

Aldehydes and ketones.

Chief fatty acids and their derivatives including esters.

Derivatives of the hydrocarbons of the fatty series containing nitrogen.

Carbohydrates including cane sugar, dextrose, maltose. Use of polarimeter. Starch, dextrin, cellulose.

Hydrocarbons of the aromatic series and their chief derivatives.

Practical Examinations.

The regulations for the practical work and the practical examinations are the same as for the Intermediate Science Examination with the addition of the following :—

Part I.

11. The preparation of standard and normal solutions.

12. Preparation of the common gases such as chlorine, and investigation of their effect on various substances.

13. Determination of melting point, boiling point, density, including that of vapours.

14. Preparation of alcohol from sugar; iodoform from alcohol; ethyl acetate from acetic acid; oxalic acid; nitro-benzene.

Part II.

The mixtures given may contain two metals and one acid from the list given.

Part III.

The gravimetric determination of the following metals and acids as occurring in simple substances not containing more than one metal and one acid.

Silver, lead, copper, iron, aluminium, calcium.

Chlorides, sulphates, phosphates, carbonates.

(e) PHYSICS AND CHEMISTRY.—(*Honours Examination.*)

Honours will be awarded to candidates who take special papers and practical examinations instead of the ordinary Pass papers. The Honours papers and practical examinations will be identical with those for the Subsidiary B.Sc. Examination.

(f) BOTANY AND ZOOLOGY.—(*Pass Examination.*)

(i) BOTANY.

(Two papers and two practical examinations.)

The fundamental principles of Biology; the distinctive properties of protoplasm, nutrition, growth, respiration, irritability, reproduction.

The cell, cell-fusions, tissues, and organs.

Transpiration, respiration, the absorption and movement of water and other substances in the plant body.

Reproduction, sexual and asexual; fertilisation, self and cross fertilisation and the agencies by which they are secured; hybridisation, the discoveries of Mendel and his followers.

The fundamental facts of heredity, variation, adaptation, environment and evolution.

Students must have a practical knowledge of the structure, functions life history and relationships of *Bacillus*, *Yeast*, *Mucor*, *Protococcus*, *Spirogyra*, Fern, *Cycas*, Maize, Bean, *Torenia*, and Sunflower.

The principles of classification; a special acquaintance must be made of the following group:—

Cycadaceæ, *Graminaceæ*, *Palmaceæ*, *Araceæ*, *Liliaceæ*, *Anonaceæ*, *Leguminosæ*, *Euphorbiaceæ*, *Malvaceæ*, *Asclepiadaceæ*, *Convolvulaceæ*, *Labiata*, *Rutaceæ*, *Cucurbitaceæ*, *Compositæ*.

(ii) ZOOLOGY.

(Two papers and two practical examinations.)

Distinction between living and non-living matter. The distinctive properties of Protoplasm. Distinctions between animals and plants.

The cell; differentiation of structure; modification and division of function.

Blood, lymph, epithelium, muscle and nerve, connective and skeletal tissues.

The elements of Animal Physiology. Nutrition; digestion of common food substances, carbohydrates, fats, proteids; secretion; excretion; respiration; circulation of blood and lymph.

Reproduction, asexual and sexual; gametogenesis; maturation, fertilisation of the ovum; the more common types of segmentation of the zygote.

Development of Fowl to end of third day of incubation. Formation of the fetal membranes in Fowl and Mammal.

The principles of Biology. The main facts bearing on the theories of creation, evolution, heredity, variation, environment and adaptation.

The principles of classification and the origin of species.

The distinctive characters of the following groups :—

Protozoa.—Rhizopoda, Foraminifera, Radiolaria, Mastigophora, Ciliata.

Coelenterata.—Hydrozoa, Actinozoa.

Porifera.

Platyhelminthes.—Turbellaria, Trematoda, Cestoda

Nemathelminthes.—Nematoda.

Rotifera.

Annelida.—Oligochaeta, Polychæta.

Echinodermata.

Arthropoda.—Crustaceæ, Myriapoda, Insecta.

Mollusca.—Pelecypoda, Gastropoda, Cephalopoda.

Hemichordata, Cephalochordata, Urochordata, Pisces, Amphibia.

Reptilia, Aves, Mammalia.

Candidates must show a practical acquaintance with the structure, functions and life history of Amœba, Vorticella, Paramecium, Euglena, Trypanosoma, Hydra, Pheretima, Panulirus, Periplaneta, Myzomyia. Snail, Ciona, Amphioxus, Shark, Frog, Fowl and Dog.

(f) BOTANY AND ZOOLOGY.

Honours Examination.

Honours will be awarded to candidates who take special papers and practical examinations instead of the ordinary Pass papers. The Honours papers and practical examinations will be identical with those for the Subsidiary B.Sc. Examination.

MASTER OF ARTS.

50. The Examination for the Degree of Master of Arts will be held annually in Bombay, commencing on the second Monday in March.

51. Any person, being a Bachelor of Arts in the University of Bombay, may, after he has spent at least two years subsequent to his passing the B.A. Examination, be admitted to the Examination for the degree of Master of Arts and, should he pass the Examination in any one of the undermentioned branches, he will be admitted to the degree of M.A.

*52. A Bachelor of Arts of a University recognized by this University will also be admitted to this Examination, provided he submits with his application a certificate, signed by the Principal of an affiliated Arts College or by a University Professor, Reader or Lecturer, to the effect that he has studied for the Examination under the direction of Professors in any College affiliated to this University or Professors, Readers or Lecturers in this University for a period of two years after passing the B.A. Examination of his own University. Candidates appearing under the provisions of this Regulation will not be eligible for the Chancellor's Medal awarded at the Examination.

53. Candidates must forward an application to the Registrar at least two months before the Examination. (*Vide* Form 13.)

54. Each Candidate must pay to the Registrar a fee of Rs. 75, for which a receipt will be given.

55. Failure to pass the Examination will not disqualify the Candidate for presenting himself at any subsequent M.A. Examination on a new application being forwarded and a fresh fee paid. On the same conditions a Candidate who has already passed in one Branch of the Examination may appear on a subsequent occasion in a different Branch: provided, however, that a Candidate who has passed in one of the alternative Groups of Branch IV (Mathematics) may similarly appear in the other Group.

56. The Examination will comprise the following Branches:—

- I.—Languages.
- II.—History.
- III.—Philosophy.
- IV.—Mathematics.

I.—LANGUAGES.—(Eight Papers.)

Candidates may take any two of the following:—

English, Latin, Greek, Sanskrit, Hebrew, Arabic, French, German, Portuguese, Persian, Avesta and Pahlavi, Pali†, Ardha-Māgadhī‡, Marathi, Kanarese, Gujarati and Urdu: provided that any Candidate who takes up an Indian vernacular must take English or a classical language as the other language. Candidates who offer the vernacular languages will have the option of answering all the questions in the papers on these Languages except the one for translation into English in the vernaculars which they offer.

In English there will be four papers:—

- (a) *Language and Literature* —The language section will be on Middle English and the changes undergone since the 15th century. The literature section will be on the period beginning with the Age of Chaucer and extending to the death of Tennyson.
- (b) Poetry texts including works of Chaucer, Shakespeare and a modern poet.
- (c) Prose texts including works of three authors of different epochs or styles.
- (d) Essay on a theme suggested by the texts.

* The intention of this regulation is that the candidate must study under the immediate direction of the Professors of an affiliated College or University Professors and that he can do so only by attending such College or by attending courses of lectures given by University Professors or Lecturers.

† Subject to the condition that a candidate taking this language has passed in Sanskrit at any preceding Examination conducted or recognized by this University. This condition will apply only to candidates who matriculate in 1921 or any following year.

‡ Subject to the condition that a candidate taking this language has passed in Sanskrit at any preceding Examination conducted or recognized by this University.

Languages (other than English).—(Four Papers.)

One paper.—Unseen. Translation from English into the language and *vice versa* (including, in the latter, explanation, if desired).

Sanskrit.

Three papers.—Questions on the books prescribed, including points of scholarship, comparative philology, criticism and the history of Literature.

Other Ancient Languages.

Two papers.—Questions on the books prescribed, including points of scholarship and criticism.

One paper.—(a) General questions on the texts and on the history of Literature.

(b) Questions on the political, social and religious life of the people.

Living Languages.

(Written and *viva voce* examination.)

Two papers.—Questions on the books prescribed, including points of scholarship and criticism.

One paper.—(a) An essay in the language on a subject connected with the history of literature or the subjects of the prescribed books, carrying about half the marks.

(b) Paraphrase in the language of an unseen passage may be asked. General questions on the texts and on the history of the language and literature, and on philosophy, prosody and rhetoric, will also be set.

II. HISTORY. (Eight Papers.)

The course in History shall be as follows :—

A.—NECESSARY PAPERS.

1. English Constitutional History.
2. A special subject in Indian History to be selected from—
 - (a) Ancient India.
 - (b) Mahomedan India.
 - (c) The Marathas, Sikhs and Rajputs.
 - (d) European Powers in India.
3. Politics.
4. Political Economy.

B.—GROUP OF PAPERS IN LIEU OF WHICH A THESIS* CONNECTED WITH ANY ONE OF THE SUBJECTS DEALT WITH THEREIN OR A SPECIAL PERIOD IN INDIAN HISTORY OTHER THAN THE ONE SELECTED BY THE CANDIDATE FOR NECESSARY PAPER 2 MAY BE OFFERED.

(i) History.

5. Mediæval History.
6. Modern History.
7. British Colonial History.
8. Historical Essay.

* For the rules regarding the thesis please see page 95.

or

(ii) Economics.

5. Economic History.
6. History of Economics.
7. Indian Economics.
8. An Essay on Economics.

or

(iii) Sociology.**5.—NATURE AND SCOPE OF SOCIOLOGY.—(One paper.)**

Origin and progress of Sociology, in observation and interpretation of human societies in their life and working, their institutions and products; concrete studies thus becoming general.

Sociology especially aided by studies of life and mind (Biology and Psychology). Conception of Evolution ("progress" or "deterioration") in societies.

Other associated Sciences; leading classifications of the Sciences and Arts.

Social life and organisation thus influenced by various factors: (a) Physical and Geographic (climate and natural resources as determining fundamental occupations); (b) Biological (nutrition and reproduction, heredity and variation, Ethnography); (c) Psychological factors; (d) Ethical factors; (e) Religious factors; (f) All these through time (Historic factors).

Outlines of Archæology: Paleolithic and Neolithic ages; Bronze and Iron ages.

Main Historic Periods of Western and Indian Civilisation.

6.—SOCIAL INSTITUTIONS.—(One paper.)***Forms of Social Organisation.***

Economic Organisation.

Main types of occupation; their later and modern developments.

Slavery and Serfdom.

Contract and Wages.

Forms of Industrial Co-operation.

Class and caste distinctions.

Other Forms of Social Organisation.

Constructive elements in human life.

Sex and the Family; position of woman; history of marriage.

Paternal and maternal descent; property and inheritance.

Educational systems.

The clan; the tribe; the caste; the race; the nation.

The State; City-states, Modern States, Empires and larger groupings.

Village, town, and city; conditions of city development; methods of survey.

Origin and Growth of Moral and Religious Ideas.

Early beliefs : their relation to family, marriage, position of woman, property, clan and tribe, treatment of strangers, etc.

Further moral developments ; Moral education as social.

Religious institutions, rituals and priesthoods.

Social value of Religion.

Significance of Art.

Social Order and Law.

Disruptive forces in life : Blood-feuds, Retaliation, Compensation, etc.

Primitive Courts and Processes : Growth of Public Justice.

Social Evils : Poverty, Ignorance, Vice and Crime, etc.

Responsibility : Punishment and prevention of crime.

Economic and social conditions (and moral conceptions) as modifying past laws and evolving new ones.

Administration, municipal and general.

Civil Equality and Political Liberty.

Study of Sociology as introductory to Political Science and Philosophy and helpful towards Social Service.

7.—INDIAN SOCIAL INSTITUTIONS.—(One paper.)

The village. • The caste. Panchayats. The family (Matriarchal Malabar system and traces elsewhere). Marriage. Adoption. Education. Foreign elements. Assimilation and Segregation. The Depressed Classes.

Mahomedan influence, and influence on Mahomedans of Indian Institutions. Law and Custom. The sphere of the State. Effects of British Rule on Indian Society.

8.—ESSAY.—(One paper.)

III.—PHILOSOPHY.—(Eight Papers.)

The course in Philosophy shall be as follows :—

A.—NECESSARY PAPERS.

1. History of Ancient Philosophy. (One paper).
2. History of Modern Philosophy. (One paper).
3. Moral Philosophy. (One paper).
4. Psychology. (One paper).

B.—GROUP OF PAPERS IN LIEU OF WHICH A THESIS CONNECTED WITH ANY ONE OF THE SUBJECTS DEALT WITH THEREIN MAY BE OFFERED.

(i) *Philosophy.*

1. Natural Theology or the History of Indian Philosophy. (One paper).

2, 3. Any two of the following Philosophies. (Two papers).

(a) The Philosophy of Plato.

(b) The Philosophy of Aristotle.

- (c) The Philosophy of Kant.
 - (d) Sankhya.
 - (e) Buddhism.
 - (f) The Advaita of Shankaracharya.
 - (g) Vishistadwaita of Ramanujacharya.
4. Essay. (One paper).

or

(ii) *Sociology.* (Four papers.)

As prescribed for the History Branch.

1. The thesis will be accepted in lieu of the whole group B under the head of History or Philosophy.

2. The candidate shall submit four months before the date of the Examination along with his application and fee for admission to the Examination two copies of his thesis, with a declaration that it is his own *bona fide* production and a statement of the reading and research work which he has done in connection with its preparation. This declaration and statement shall be endorsed by the Professor of Sociology, History, Philosophy or Economics in the University School of Economics and Sociology or in a first grade College affiliated to the University, under whose guidance he has carried through his studies and researches. The Professor shall also state whether he is of opinion that the thesis may be accepted and submitted to the examination. A thesis which is submitted under the joint names of the candidate and another worker will not be accepted.

3. If the said Professor certifies that he is of opinion that the thesis may be accepted, the Board of Studies shall submit the thesis to a referee or referees, who shall, after a *viva voce* test, if necessary, on the subject of his thesis to which the candidate shall be required to submit, report to the Registrar the number of marks he or they assign to the thesis out of a maximum of 400 marks. If the candidate gets less than 100 marks he will be held to have failed in the Examination as a whole.

IV.—MATHEMATICS.—(Eight Papers.)

N.B.—If a candidate has passed his M.Sc. Examination in one of the Mathematics groups A or B, he will have to appear for the other group to qualify for the degree of M.A.

Candidates must select one of the following Groups :—

GROUP A.—PURE MATHEMATICS.

Paper I.—Algebra and Pure Geometry.

Paper II.—Solid Geometry.

Paper III.—Theory of Equations, Plane and Spherical Trigonometry.

Paper IV.—Plane Analytical Geometry, Higher Plane Curves.

Paper V.—Differential Calculus, Integral Calculus, Elements of the Theory of Functions.

Paper VI.—Differential Equations, Spherical Harmonics.

Paper VII.—Statics, Attractions, Dynamics of a Particle, Rigid Dynamics.

Paper VIII.—Hydrostatics, Spherical Astronomy.

Instead of papers VII and VIII, candidates may offer any one of the following groups, on which two papers will be set :—

- 1. Higher Algebra and Theory of Finite Groups.
- 2. Theory of Functions of a Complex Variable,

3. Elliptic Functions and Elementary Algebraic Functions.
4. Theory of Numbers.
5. Differential Equations.
6. Projective Geometry and the Theory of the Line Complex.
7. Quaternions and Vector Analysis.
8. Analytical Geometry of Curves and Surfaces.
9. Calculus of Variations, Fourier's Series, Harmonic Analysis.

A candidate selecting any one of the above groups must intimate his intention of so doing to the Syndicate at least six months before the date of the examination and should further indicate the general extent and nature of his reading.

A candidate may submit an original Thesis or Essay on any portion of the group selected, with reference to original papers and works consulted which the Examiners will take into account in examining the candidate in the group selected.

Text-books will be recommended at least two years before the commencement of the examination.

GROUP B.—APPLIED MATHEMATICS.

Paper I.—Differential and Integral Calculus, Solid Geometry.

Paper II.—Differential Equations, Fourier's Series and Spherical Harmonics.

Paper III.—Statics, Attractions and Theory of Potential, Elementary Elasticity.

Paper IV.—Dynamics of a Particle, Rigid Dynamics.

Paper V.—Hydrostatics and Spherical Astronomy.

Paper VI.—Electricity and Magnetism, Hydrodynamics and Sound.

And two papers in any one of the following groups:—

1. Elasticity.
2. Higher Dynamics.
3. Hydrodynamics and Theory of Tides.
4. Theory of Vibrations and Sound.
5. Physical Optics.
6. Physical Astronomy.
7. Electricity and Magnetism.
8. Quaternions and Vector Analysis.

A candidate selecting any one of the above groups must intimate his intention of so doing to the Syndicate at least six months before the date of the examination and should further indicate the general extent and nature of his reading.

A candidate may submit an original Thesis or Essay on any portion of the group selected, with reference to original papers and works consulted, which the Examiners will take into account in examining the candidate in the group selected.

Text-books will be recommended at least two years before the commencement of the examination.

57. To pass the Examination the Candidate must obtain (a) one-fourth of the full marks in each *paper*, and (b) three-eighths of the total marks obtainable. Those of the successful Candidates who obtain 65 per cent. of the total marks obtainable will be placed in the First Class and those obtaining 50 per cent. in the Second Class.

58. On such day as the Syndicate may appoint the Examiners in each Branch will publish a list of successful candidates in two Classes and Pass, the names in each Class and Pass being arranged in alphabetical order.

59. A Certificate will be given to those who pass the Examination. (*Vide* Form 14).

BACHELOR OF COMMERCE.

60. Candidates for the Degree of Bachelor of Commerce (B.Com.) must have passed the Matriculation Examination, and will be required to pass two subsequent Examinations, the first to be called the Intermediate Examination in Commerce, and the second the Examination for the Degree of Bachelor of Commerce.

INTERMEDIATE EXAMINATION IN COMMERCE.

61. The Intermediate Examination in Commerce will be held annually in Bombay, commencing on the fourth Monday in March.

62. No candidate will be admitted to this Examination unless after obtaining a certificate (*vide* Form 6) from the Principal of an Arts College, affiliated to this University, showing that he has satisfactorily carried out the work appointed by the University for the first two terms in Arts, or else after passing the Previous Examination of this University, he shall have kept two terms at a College or Institution recognized by this University in Commerce, and unless he produces satisfactory testimonials under the prescribed Form.

63. Candidates must forward an application to the Registrar two weeks before the commencement of the Examination. (*Vide* Form 15).

64. Each Candidate must pay to the Registrar, through the Principal of his College or otherwise, as the Syndicate may direct, a fee of Rs. 25.

65. The Syndicate may from time to time prescribe or recommend text-books in the various subjects of the Examination.

66. To pass the Examination the Candidate must obtain 40 per cent. of the full marks in each subject. Should a candidate fail to obtain 40 per cent. of the full marks in one only of the following subjects, General Elements of Economics, Geography, Accounting, he should be declared to have passed the Examination if, on a review of his marks, a majority of not less than two-thirds of the Examiners present at the final meeting decide that he should pass, provided always that no candidate shall so pass unless he obtains at least 50 per cent. of the total marks in all subjects. Those of the successful Candidates who obtain 66 per cent. of the total marks obtainable will be placed in the First Class and those obtaining 50 per cent. in the Second Class.

67. A candidate who obtains 50 per cent. of the total marks in any subject at any one examination may be excused from appearing in that subject at a subsequent examination and will be declared to have passed the whole examination when he has passed in all the subjects of the examination; provided that

in the subject or subjects in which he appears on the last occasion he must obtain the minima in each subject required by Regulation 66. Candidates passing the Examination in this manner in compartments will not be eligible for a class or for any prize or scholarship to be awarded at the Examination.

68. As soon as practicable after the conclusion of the Examination, the Examiners will arrange and publish a list of successful Candidates in two Classes and Pass, the names in the First Class being arranged in order of merit, and those in the Second Class and Pass in alphabetical order.

69. A Certificate will be given to those who pass the Examination. (*Vide* Form 16).

70. Candidates will be examined in the following subjects :—

- I. English.
- II. General Elements of Economics.
- III. Geography.
- IV. Accounting.

I.—ENGLISH—Two Papers and an Oral Examination.

(1) Essay.

(2) A General English Paper.

In the General English Paper, the following will be included :—The general rules of composition ; précis writing ; correspondence.

Importance will be attached to handwriting.

II.—GENERAL ELEMENTS OF ECONOMICS—Two Papers.

Subject matter of Economics.

Human wants. Effort to provide for the present and future

Fundamental conditions of wealth—physical environment. Social order. Combination and division of labour. Population.

Exchange—Price formation. Values under custom, competition and monopoly.

Incomes from (a) property, (b) work. Causes of their variations.

Consumption—Relation between individual income and individual well-being.

The wealth of nations.

III.—GEOGRAPHY—Two Papers.

Physical Geography, as a basis of the various types of civilization, and a determining factor of national and economic development.

Configuration of the great land masses and oceans.

Wind and water currents, Climate—Distribution of flora and fauna, and of mankind.

Detailed study of the physical characteristics of India.

Main features of other continents.

Trade routes.

Commercial Geography—Present day production of the chief countries—in agriculture, mining, industry and commerce.

N.B.—Candidates will be expected to illustrate their answers by sketch maps.

IV.—ACCOUNTING—One Paper.

Keeping the subsidiary books, posting into the ledger, preparing Trading and Profit and Loss Accounts and Balance Sheets of General Merchants, Partnerships, and Joint Stock Companies. Bad Debts, Depreciation and Reserves.

EXAMINATION FOR THE DEGREE OF BACHELOR
OF COMMERCE (B.Com.).

71. The Examination for the Degree of Bachelor of Commerce will be held twice a year in Bombay, commencing on the fourth Monday in March and the last Monday in September.

72. No Candidate will be admitted to this Examination unless, after passing the Intermediate Examination in Commerce at this University* he shall have kept four terms at a College or Institution recognized by this University in Commerce, and unless he produces satisfactory testimonials under Form 17.

N.B.—Notwithstanding anything contained in this Regulation, Masters of Arts of every statutory Indian University and the University of Mysore who have passed the Examination for the Degree of B.A. with Economics as one of their subjects, will be admitted to this Examination after an attendance of two terms only at a College recognized by this University in Commerce.

73. A student who has passed in all subjects but one at the Intermediate Examination in Commerce in conformity with Regulation 67 of that Examination will be allowed to keep terms for the B. Com. Examination and will be allowed to appear for the B. Com. Examination after keeping four terms, but will not be declared to have passed that examination under any circumstances, unless he has passed in the remaining subject of the Intermediate Examination held either in a previous or in the same examination season.

74. Candidates must forward an application to the Registrar two weeks before the commencement of the Examination. (*Vide* Form 17).

75. Each Candidate must pay to the Registrar, through the Principal of his College or otherwise, as the Syndicate may direct, a fee of Rs. 50.

76. The Syndicate may from time to time prescribe or recommend text-books in the various subjects of the Examination.

77. To pass the Examination the candidate must obtain 40 per cent. of the full marks in each subject. Should a candidate, however, fail to obtain 40 per cent. of the full marks in one subject only, he shall be declared to have passed the Examination if, on a review of his marks, a majority of not less than two-thirds of the Examiners present at the final Meeting decide that he should pass, provided always that no candidate shall so pass unless he obtains at least 50 per cent. of the total marks in all subjects. Those of the successful Candidates who obtain 66 per cent. of the total marks obtainable will be placed in the First Class and those obtaining 50 per cent. in the Second Class.

78. A candidate who has obtained 50 per cent. of the total marks in any subject at any one examination may, at his option, be excused from appearing in that subject at a subsequent examination and will be declared to have passed the whole examination when he has passed in all the subjects of the examination; provided that in the subject or subjects in which he appears on the last occasion he must obtain the minima in each subject required by Regulation 77. Candidates passing the examination in this manner in compartments will not be eligible for a class or for any prize or scholarship to be awarded at the Examination.

* In exercise of the power vested in them by General Regulation 163 the Syndicate have declared the Examination for the Diploma in Commerce of the Punjab University as equivalent to the Intermediate Examination in Commerce of this University.

79. As soon as practicable after the conclusion of the Examination the Examiners will arrange and publish a list of successful Candidates in two Classes and Pass, the names in the First Class being arranged in order of merit, and those in the Second Class and Pass, in alphabetical order.

80. A Certificate will be given to those who pass the Examination. (*Vide* Form 18).

81. Candidates will be examined in the following subjects :—

- I. Business Organization.
- II. Administration.
- III. Mercantile and Industrial Law.
- IV. Special Branches of Economics—
 - (a) Public Finance.
 - (b) Currency, Banking, and the Money Market. (Elementary Principles.)
 - (c) Elements of Statistics.
- V. Economic History.
- VI. One of the following special subjects :—
 - A. Advanced Accounting and Auditing.
 - B. Advanced Economic Theory and History.
 - C. Advanced Banking.
 - D. Actuarial Science.
 - E. The Organization of the Indian Cotton Industry.

I.—BUSINESS ORGANIZATION—One Paper.

The nature and constitution of business houses (Partnerships, Companies, etc.). The financing of businesses. Control and responsibility. Office routine: including correspondence, drafting, etc. Methods of remuneration. Industrial efficiency and scientific management. Skilful advertising.

II.—ADMINISTRATION—One Paper.

(a) Indian Administration—

- (1) The Secretary of State and his Council.
- (2) The Governor General and his Council.
- (3) The Provincial Governments.
- (4) Municipal and District Administration.
- (5) Administrative Machinery, with respect to Finance, Public Works, Police, Justice, Medical and Sanitary Services, Education, Transport, Irrigation, Land Tenures, Land Revenue, Commerce and Agricultural Departments, etc.
- (b) Main points in the Government of the United Kingdom, so far as they are of general imperial interest.

Fundamental features of the constitution—Crown, Parliament, Cabinet, Executive Departments, Civil Service, Method of Legislation.

(c) Relation between the component parts of the Empire.

III.—MERCANTILE AND INDUSTRIAL LAW—Two Papers.

The Indian Law relating to Contracts, Mortgages, Joint Stock Companies, Negotiable Instruments, Charter Parties, Bills of Lading, Fire and Marine Insurance, and the Insolvency in Presidency Towns.

The Provisions of the Indian Stamp and Limitation Acts relating to the above.

N.B.—Candidates who have passed the Intermediate Examination in Commerce under the old regulations shall be required to pass in Geography as prescribed for the Examination under the new regulations instead of in this subject.

IV.—SPECIAL BRANCHES OF ECONOMICS—Two Papers.

(a) *Public Finance*—

(1) The Fiscal System of India.

Analysis of annual expenditure and income, imperial, provincial and local. Comparison with other fiscal systems.

(2) Theoretical Classification of the various kinds of expenditure and revenue.

Taxation—Its justification and its different bases. Proportional and graduated methods. Direct and indirect systems. Taxes on property, income, consumption, with theories of incidence.

National and municipal loans—Productive and unproductive expenditure. Redemption. Sinking Funds.

(b) *Currency, Banking, and the Money Market. (Elementary Principles.)*

Functions of good money. Present day Coinage.

The various standards. Preservation of parity. Legal tender.

Variations in the purchasing power of money.

Indian Currency system.

Development of Banking. The Bank of England.

The Act of 1844. Modern Deposit Banks and the Cheque system. The Clearing House.

The Money Market—Bill Brokers, the Stock Exchange.

Foreign Exchanges.

(c) *Elements of Statistics*—

Method of collecting, tabulating and graphically representing data.

Averages. Index numbers.

Important Historical Statistics as to population, commerce, wages, etc.

V.—ECONOMIC HISTORY—One Paper.

(a) Summary of the contributions made by older civilizations to the economic development of mankind.

(b) English Economic History as typical of the line of industrial and social evolution in Europe. (The Manor, Fairs, Gilds, Mercantilism, the Domestic System, the Industrial Revolution, Capitalistic production, Control of labour conditions. Commercial Policy.)

(c) Indian Economic Development.

VI.—SPECIAL SUBJECTS—Three Papers.

A. *Advanced Accounting and Auditing*—

- (1) The accounts of different kinds of business, including Banks, Insurance Companies, Factories, Mining Companies, Railways, and Hotels, Charitable Institutions, and other non-trading concerns. Partnership accounts, including treatment of goodwill. Income and Expenditure Accounts, Branch Accounts, Cost Accounts, Bankruptcy Accounts, Departmental Accounts, Depreciation, Reserves, Sinking Funds; The Double Account System; Columnar Book-keeping.
- (2) Auditing—The continuous and the completed audit, the Detection of Fraud, Technical Errors, and Errors of Principle, First and Subsequent Audit; Verifying Cash, Securities, Stock Sheets, Wages Sheets. Special considerations in different classes of audit; Valuation of Fixed and Floating Assets. Forms of Accounts and Balance Sheets. Capital and Revenue Items, the Auditor's Certificate; the Liabilities of Auditors, the Conduct of Investigations and the Certifying of Average Profits.

B. *Advanced Economic Theory and History*—

- (1) Important modern problems of Theory.
- (2) History of Economic Thought.
- (3) Indian Economics.

C. *Advanced Banking*—

(a) Principles—

- (1) Metallic Currency.—The functions and economic significance of money. Various forms of money. Metallic currencies and coinage. The English Mint regulations and coinage Acts. Currency deterioration—its causes, measures and remedies. Legal tender; the various systems prevailing in different countries. Methods of maintaining internal equivalence of legal tender moneys. Question and monetary standard and valuation. Decimal coinage. Various proposals for international money. Method of measuring variations in the value of money. Indian Currency problems.
- (2) Banking and the Money Market.—The functions and economic significance of Banking. The general structure and methods of English Banking. The Cheque system and the clearing house. Banking investments. The short loan fund. The money market—Its fluctuations, periodic and other. The reserve and the discount rate. The regulation of note-issue, and the Bank Acts. £1 notes. Comparison with Foreign systems. Recent developments in English Banking. Indian Banking. General Banking Statistics. The Foreign Exchanges. Financial and Commercial crisis.

(b) Banking Law.

D. *Actuarial Science*—

- (1) The Binomial and Exponential Theorems; the theory and use of Logarithms, the Elements of the Theory of Probabilities, the Elements of the Calculus of Finite Differences including Interpolation and Summation; Elementary Differential and Integral Calculus excluding questions requiring the use of Trigonometry.

- (2) Compound Interest and Annuities—Certain including the construction and use of Relative Tables. Valuation of Perpetuities, Varying Annuities and Increasing Annuities, Capital Redemption Assurances.
- (3) Life Contingencies, including Life Annuities and Assurances and the construction and use of the Life Table, and monetary and other Tables based thereon; excluding questions on the compilation of Tables from Statistics, or on Graduation.
- (4) The Classification of Policies for Valuation, and the preparation of Valuation Class Books.

E. *The Organization of the Indian Cotton Industry—Introduction.*

The Botany of Cotton.

The History of Cotton Cultivation and of the Cotton Trade with special reference to India.

The World's Production of Cotton and India's share in it

Supply of Raw Cotton.

- (1) Cotton producing areas.
- (2) Organization of cotton cultivation.
- (3) Commercial varieties of cotton.
- (4) Ginning, Baling and Pressing.
- (5) The marketing and consumption of raw cotton.
- (6) The mechanism of the Home and Export Trade.

Supply of Cotton Yarn.

- (1) Condition of the spinning industry prior to the rise of the factory system, and its development since that time.
- (2) Organization of the spinning industry.
- (3) India's internal and external trade in yarn.

Supply of Cotton Piece-goods.

- (1) Indigenous weaving in India.
- (2) Introduction of factory methods and their development.
- (3) Organization of (a) the manufacture of, (b) the trade in, cotton goods.
- (4) Legislation affecting the cotton industry.
- (5) Life and labour of the cotton operatives.

Labour questions and Social Problems connected with the Cotton Industry.

82. A candidate who is declared to have passed the Examination for the Degree of Bachelor of Commerce under the foregoing regulations, will, on payment of a fresh fee of Rs. 50, be admitted to a subsequent Examination without keeping any additional terms in any one of the subjects specified in regulation 81 (VI), in which he has not already passed, and will, on passing in such additional subject, be awarded a certificate to that effect: provided that no candidate will be allowed to appear thus for examination in more than two special subjects.

REGULATIONS FOR THE AFFILIATION. OF TRAINING COLLEGES AND SCHOOLS FOR THE DEGREE OF BACHELOR OF TEACHING.

83. A Training College applying for affiliation to the University shall send a letter of application to the Registrar, and shall satisfy the Syndicate—

(a) that the College is to be under the management of a regularly constituted governing body ;

(b) that the qualifications of the teaching staff and the conditions governing their tenure of office are such as to make due provision for the course of instruction to be undertaken by the College ;

(c) that the buildings in which the College is to be located are suitable ;

(d) that due provision has been or will be made for a library and equipment for instructional purposes, including arrangements for the practical training in the teaching of science in the case of institutions applying for permission to train teachers in science ; and

(e) that the financial resources of the College are such as to make due provision for its continued maintenance.

84. A School applying for recognition for the purpose of the Degree of Bachelor of Teaching should send a letter of application to the Registrar, and should satisfy the Syndicate—

(a) that the School shall have on its staff teachers (to be approved by the Syndicate) qualified to give instruction in the theory and practice of teaching ;

(b) that during the two years immediately preceding the examination teachers under training shall not be required to do in a week more than 15 hours of ordinary school teaching ; and that they shall receive in a week not less than 8 hours training in the theory and practice of teaching ; and

(c) that due provision has been or will be made for a library and equipment for instructional purposes, including arrangements for the practical training in the teaching of science in the case of institutions applying for permission to train teachers in science.

REGULATIONS FOR THE DEGREE OF BACHELOR OF TEACHING.

85. A candidate for the Degree of Bachelor of Teaching must be a graduate of the University of Bombay, or of a University recognized by the University of Bombay, in any Faculty, and in addition must, after graduation, have either—

(a) kept two terms (the first and the second) in a Training College recognized by this University for the purposes of this degree and after completing his training at the Training College, served for a period of at least one year on the staff of a High School recognized by the Joint Examination Board,

or

(b) served to the satisfaction of the Head Master of a High School for a period of at least three years on the staff of a High School which makes special provision for the training of its staff, and is recognized for this purpose by the Syndicate.

86. A candidate will be required to pass an Examination, held in two Parts, as follows in accordance with the subjoined Regulations :—

Part I.—Written Examination.

Part II.—Practical Examination.

The Written Examination may be taken after two terms' attendance at a Training College as required in 85 (a).

87. The Examination in Part I will be held annually in Bombay, in March and that in Part II annually in April, on such dates as may be fixed by the Syndicate. Only those who have already in the same or in a previous year passed in Part I of the Examination will be admitted to the Examination in Part II.

88. A candidate for Part I must apply to the Registrar by January 31st in each year, with the certificate required by Regulation 85 (a) or (b), through the Head of the institution in which his training has been taken. Candidates who wish to appear for Part II, must apply to the Registrar also by January 31st in the year in which they wish to present themselves for examination. (*Vide* Form 19). No candidate may appear for Part II unless he has already passed in Part I.

89. Each candidate must pay to the Registrar, through the Head of the Institution in which his training has been taken, or otherwise as the Syndicate may direct, a fee of Rs. 15 for each Part of the Examination.

90. Failure to pass the Examination or Part of the Examination will not disqualify a candidate for presenting himself at any subsequent Examination on a new application being forwarded and a fresh fee paid.

91. In Part I of the Examination the candidates will be examined by means of written papers in the following subjects :—

I.—The Science of Education.

II.—The History of Education.

III.—The Practice of Education.

I.—THE SCIENCE OF EDUCATION—Two Papers, of 100 marks each.

The aims of Education with regard to the individual pupil and the community.

The endowment of the child as a datum of educational process. The relation of development to endowment.

The fundamental aspects of development and their interrelations.

The chief stages in general development ; their order and mode of succession in children of different types.

The function of the School in regard to general development, with special reference to the work of the class teacher.

The acquisition of skill, knowledge and tact ; the nature and growth of the mental functions involved in these processes.

The development of spontaneity ; the forms of self-expression.

The development of conduct ; will : character.

The characteristics of individual children with regard to the foregoing.

The characteristics of infancy, childhood and adolescence.

The general psychological conditions of class instruction and class management ; the special psychology of reading, writing and numbers.

II.—THE HISTORY OF EDUCATION—Two Papers, 75 marks each.

(a) History of Education in Europe from the Renaissance and History of Education in India (one paper).

(b) Study of present day problems with special reference to India (one paper).

III.—THE PRACTICE OF EDUCATION—Three Papers.

(a) School management, including Hygiene, one paper, 75 marks.

(b) Methods of teaching in general, one paper, 75 marks.

(c) Methods of teaching particular subjects, one paper, 100 marks.

Candidates must take two of the following subjects of which English or Science must be one :—

(a) English, (b) Classical language, (c) Vernacular language,
(d) Mathematics, (e) History, (f) Geography, (g) Science.

92. In Part II of the Examination, the candidates will be tested as to their practical skill in class management and class teaching, and no candidate will be declared to have passed unless he has given satisfactory evidence of his ability to manage a class. Each candidate will be required to give lessons in the two special subjects selected by him for Part I.

Due consideration shall be given to the report on the practical work done by the candidate throughout his training by the Head of the Institution which he has attended.

93. A candidate for Part I of the Examination must obtain, in order to pass, 40 per cent. of the marks allotted to each of the three subjects specified in Rule 91. A candidate for Part II must obtain, in order to pass, at least 50 per cent. of the total marks. Candidates who obtain 60 per cent. of the total in both Parts taken together will be placed in the First Class.

94. Candidates who fall short of the minimum required to pass, in one subject as in Rule 91, Part I, by not more than 5 per cent. and who obtain an aggregate of at least 50 per cent. of the total marks obtainable in that Part, shall, on the recommendation of a majority of not less two-thirds of the Examiners present at the final meeting in connection with that Part, be declared to have passed the Examination.

95. As soon as practicable after the conclusion of Part I of the Examination, the Examiners will publish a list of successful candidates, the names being arranged in alphabetical order. After the conclusion of Part II of the Examination a list of those who have passed in both Parts will be published in two classes, the names being arranged in alphabetical order. No candidate who has failed at any time in either Part of the Examination will be placed in Class I.

96. A certificate will be given to those who have passed in both Parts I and II of the Examination. (*Vide* Form 20).

II.—SCIENCE.

BACHELOR OF SCIENCE.

1. Candidates for the Degree of Bachelor of Science must have passed the Matriculation Examination, and will be required to pass two subsequent Examinations, the first to be called the Intermediate Examination in Science and the second the Examination for the Degree of Bachelor of Science.

N.B.—A Bachelor of Arts who has taken either of the Optional Science groups shall be allowed to appear in any Science group in the B.Sc. Examination, provided he has kept four terms at a College or Institution recognized in Science, subsequent to his passing the B.A. Examination. Further, a Bachelor of Arts shall be allowed to appear for the B.Sc. Examination in the optional group in which he has passed the B.A. Examination (*i. e.*, either Physics and Chemistry or Botany and Zoology) after he has kept, subsequent to his passing the B.A. Examination, two terms at a College or Institution recognized in Science.

INTERMEDIATE EXAMINATION IN SCIENCE.

2. The Intermediate Examination in Science will be held annually at Bombay, commencing on the fourth Monday in March.

3. No candidate will be admitted to this Examination, unless he shall have, after obtaining a certificate (*vide* Form 6) from the Principal of an Arts College showing that he has satisfactorily carried out the work appointed by the University for the first two terms in Arts, or, after having passed the Previous Examination, kept two terms at a College or Institution recognized for the purposes of the Intermediate Examination in Science by the University of Bombay, and unless he produces satisfactory testimonials under Form 21.

4. Candidates must forward their applications (*vide* Form 21) to the Registrar on or before the 20th February with certificates of attendance during the first term. Certificates of attendance during the second term should be forwarded by Principals of Colleges on or before the 10th March. (*Vide* Form 8).

5. Each candidate must pay to the Registrar, through the Principal of his College or otherwise, as the Syndicate may direct, a fee of Rs. 30.

6. Failure to pass the Examination will not disqualify the candidate from presenting himself on a subsequent occasion on a new application being forwarded and a fresh fee paid.

7. Candidates will be examined in one of the following groups of subjects:—

- (a) Mathematics, Physics and Chemistry;
- (b) Chemistry, Geology and Elementary Biology;
- (c) Geology, Botany and Zoology;
- (d) Physics, Chemistry and Elementary Biology.

N.B. (1) —Candidates who pass in Biology at the Preliminary Scientific Examination of October 1917 and subsequent years with the standard of marks required at the Intermediate Examination in Science will at their option be exempted from examination in Elementary Biology in group (b) or group (d). Candidates who have passed the B.Ag. Examination will be allowed to appear at this Examination without attendance at a College in group (b) or group (d) and will at their option be exempted from undergoing an examination in Chemistry and Elementary Biology in either group. Candidates so exempted shall not be eligible for a class or for University awards.

N.B. (2) —The Preliminary Scientific Examination of April 1922 will be recognized at the discretion of the Syndicate as equivalent to the Intermediate Examination in Science with retrospective effect from the commencement of the academic year 1922-23 in the case of those students who apply to the Syndicate for such recognition for enabling them to study for the B.Sc. Examination.

N.B. (3) —Students who have failed in the Preliminary Scientific Examination held in the year 1923 will be permitted to appear at the Intermediate Science Examination in the D Group without being required to produce certificates of attendance at a College recognized for the latter Examination.

8. There shall be two papers in Mathematics of 100 marks each and one paper and one practical Examination of 100 marks each in all other subjects.

9. On the recommendation of the Boards of Studies, the Syndicate may from time to time prescribe or recommend text-books in the various subjects of this Examination and modify from time to time as may be found necessary the details of the practical courses laid down for this Examination.

I.—MATHEMATICS—(TWO PAPERS.)

(As at the Intermediate Examination in Arts.)

II.—PHYSICS.

(One paper and a practical examination of three hours.)

Candidates shall be examined only on such portions as are distinctly mentioned in the syllabus, or which are required for a thorough understanding of the exercises in the laboratory course.

*Mechanics and Properties of Matter.**(a) Introductory.*

Physical Magnitudes. Fundamental and derived units. Absolute system of units. Units of length, mass, time and angular measurement.

Methods of measurement of length.

(b) Kinematics.

Representation of position of a particle. Vectors and scalars.

Velocity, uniform and variable. Acceleration. Velocity curve. Graphical representation of space passed over by moving particle. Composition and resolution of velocities and accelerations. Hodograph. Motion in a circle.

Definition of periodic motion. Simple harmonic motion. Velocity and acceleration in simple harmonic motion. Harmonic curve.

(c) Dynamics.

Newton's laws of motion. Derivation of unit of force. Graphical representation of a force. Composition and resolution of forces. Moment of a force. Parallel forces. Couples.

Conditions for equilibrium of a particle.

Definition of work. Units of work, absolute and gravitational. Graphical representation of work done by a force. Power. Energy, potential and kinetic.

Simple machines, including lever, pulley, wheel and axle, inclined plane and screw. Statical friction. Limiting angle. Angle of repose.

Gravitational attraction and repulsion. Law of inverse squares. Centre of gravity. Stable, unstable and neutral equilibrium.

Time of oscillation of a simple pendulum.

(d) Properties of Matter.

General properties of matter. Elasticity. States of matter.

Pressure exerted by a fluid. Principle of Archimedes. Expansive property of gases. Elasticity of a perfect gas. Pressure of the atmosphere. The mercury barometer.

Equilibrium of a liquid at rest. Level of liquid surface in communicating vessels. Density of liquids. Hydrometers. Pumps. Siphon.

General properties of solids. Young's modulus for a stretched wire.

Heat.

Temperature. Thermometric scales. The mercury thermometer. Determination of the fixed points of a thermometer. Maximum and minimum thermometers. Definition and measurement of co-efficient of linear expansion of solids. Co-efficient of expansion of liquids, real and apparent. Expansion of a gas at constant pressure and at constant volume. Charles's law. Absolute zero.

Quantity of heat. Specific heat. Measurement of specific heat by method of mixtures.

Melting point. Latent heat of fusion. Bunsen's ice calorimeter. Boiling point. Latent heat of vaporization. Vapour pressure. Humidity of the atmosphere.

Conduction of heat. Definition of thermal conductivity.

First law of thermodynamics. Determination of mechanical equivalent of heat by Joule's method.

Sound.

Wave-motion. Relation between velocity, wave length and frequency.

Production and propagation of sound. Measurement of velocity of sound in air, water and in solids. Calculation of velocity of sound. Temperature effect on the velocity of sound.

Quality of sounds. Pitch.

Reflection and refraction of sound waves.

Light.

Images produced by small apertures. Laws of reflection. Reflection in plane and spherical mirrors.

Laws of refraction. Refraction through a prism. Minimum deviation. Measurement of refractive index with spectrometer.

Spherical lenses. Foci and formation of images with a single lens. The simple microscope. Telescope constructed with two simple convex lenses.

Photometry.

Dispersion by means of slit, lens and prism.

Magnetism and Electricity.

Magnetic attraction and repulsion. Permanent and temporary magnetism. Magnetic lines of force. Magnetic fields. Molecular magnets. Coulomb's law. Unit magnetic pole. Magnetic moment. Strength of magnetic field. Couple on magnet in a magnetic field.

The magnetic elements. Measurement of Declination and Dip.

Electrostatic attraction and repulsion. Coulomb's law.

Electrical lines of force. Ice pail experiment. Potential. Equipotential surfaces. Electrical force inside a hollow conductor.

Capacity of a conductor. Condensers.

The electric current. Electromotive force. Oersted's experiment. Lines of force and strength of magnetic field due to a current. Units of quantity and E. M. F. Field at centre of a circular current. Astatic galvanometer. Tangent galvanometer.

Ohm's law. Specific resistance. Resistance of systems of conductor Shunts. Wheatstone's bridge.

Joule's law.

Force acting on a straight conductor, and on a rectangular coil carrying a current when placed in a magnetic field.

Induced currents. Lenz's law. Electromagnetic induction.

Faraday's laws of electrolysis.

The voltaic cell. Daniell's, Grove's and Leclanché cells.

Every candidate shall complete a laboratory course in accordance with the regulations issued from time to time by the Syndicate. Each candidate shall produce a certificate from the Principal of his College that he has completed in a satisfactory manner at least the prescribed number of exercises, and that his laboratory journal has been properly kept.

Every candidate must record his observations directly in his laboratory journal and write therein a report on each exercise performed. Every journal is to be signed periodically by a member of the laboratory staff and certified at the end of the year. Candidates are to produce their journals at the practical examination and each candidate is to be examined practically on the work done by him in the laboratory as shown in his journal which shall be taken into account by the examiners in assigning marks.

A candidate may, however, be asked to perform exercises in the practical examination which differ in unessential details from those which he has carried out in the laboratory.

Course of Practical Work at present prescribed.

At least twenty of the following exercises :—

1. The use of vernier callipers and of the screw micrometer.
2. Spherometer, measurement of thickness and curvature.
3. Use of the balance. Method of vibrations.
4. Jolly's spring balance, determination of the relation between weight and deflection. Methods of weighing.
5. Determination of Young's modulus by the stretching of a wire.
6. Atwood's Machine.
7. Co-efficient of friction with the inclined plane. Efficiency of the inclined plane as a machine for raising weights.
8. Efficiency of practical pulley blocks.
9. Specific gravity with hydrostatic balance.
10. Specific gravity, the pyknometer.
11. Capillary constant with tubes.
12. Boyle's Law.
13. Expansion of solids.
14. Determination of the co-efficient of apparent expansion of a liquid by using a pyknometer as a weight thermometer.
15. Co-efficient of expansion of a liquid with U-tubes.
16. Expansion of a gas at constant pressure.
17. Change of pressure of a gas at constant volume when the temperature is changed.
18. Specific heat, method of mixture.
19. Latent heat of fusion of ice.

20. Latent heat of vaporisation of water.
21. Dew-point.
22. Relative conductivity of solids.
23. Measurements with simple photometers.
24. Concave mirror, focal length and radius of curvature.
25. Determination of the refractive index of a prism by a simple method for red and blue lights.
26. Focal lengths of lenses.
27. Sketching the lines of force as shown by iron filings for different arrangements of magnets and pieces of soft iron.
28. Tracing the magnetic lines of force round magnets and round conductors conveying current with a suspended magnet needle.
29. Resistance by substitution in a galvanometer circuit.
30. Resistance by Wheatstone's bridge.
31. Determination of the internal resistance of a cell.
32. Comparison of the electromotive forces of different cells.
33. Determination of the constant of a tangent galvanometer with the water voltameter.
34. Measurement of the current, electromotive force and power used to light up different numbers of incandescent lamps.
35. Estimation of the relative strengths of magnetic fields by observations of the throw of a galvanometer needle when a coil in circuit with the instrument is moved so as to cut the lines of force.

III.—CHEMISTRY.

(One Paper and a Practical Examination of not more than six hours.)

Inorganic Chemistry.

The character of physical and chemical changes including solution, distillation, crystallisation, thermal dissociation, combustion, precipitation, neutralization, electrolysis, the conditions which influence and determine them and the attendant phenomena. Catalysis.

Symbols, formulæ, equations and chemical calculations.

Acids and bases.

Oxides, their formation and classification.

The formation and decomposition of salts.

Oxidation and reduction.

The general laws of gases. Avogadro's hypothesis. Molecular weights. Experimental determination of the density of gases and of vapours. Atomic hypothesis. Experimental determination of atomic weights. Symbols, formulæ, equations and chemical calculations.

Gas mixtures. Diffusion.

The atmosphere.

Oxygen and Ozone ; preparation and properties.

Hydrogen ; preparation and properties.

Water ; natural waters, temporary and permanent hardness, methods of softening on a large scale ; water of crystallisation, efflorescence, deliquescence. Hydrogen peroxide.

Carbon ; varieties of carbon ; carbon dioxide, the carbonates. Carbon monoxide, producer gas and water gas ; calcium carbide and acetylene. Chemistry of flame.

Silicon ; silica and silicates ; glass, pottery, bricks.

Nitrogen ; ammonia ; oxides of nitrogen ; nitrous acid and the nitrites ; nitric acid and the nitrates.

Chlorine, bromine, and iodine ; hydrochloric acid and the chlorides, bleaching powder and bleaching solutions. Potassium chlorate. Hydrobromic and hydriodic acids. The family of the halogen elements including fluorine.

Sulphur ; sulphur dioxide and sulphur trioxide. Sulphuric acid and the sulphates, tests for sulphates. Sulphuretted hydrogen, and the sulphides. Carbon disulphide. The oxygen-sulphur family.

Phosphorus, phosphorus pentoxide, phosphoric acid and the phosphates ; phosphine ; the nitrogen-phosphorus family.

Silver and copper and their compounds including silver nitrate, oxide, hydroxide, chloride, bromide and iodide ; cupric sulphate, nitrate, chloride, oxide, hydroxide, sulphide ; cuprous chloride, oxide, sulphide ; basic carbonates of copper.

Mercury and zinc and their compounds including mercuric sulphate, chloride, nitrate, oxide, hydroxide, sulphide ; mercurous nitrate, chloride, oxide ; zinc sulphate, hydroxide, oxide, chloride, sulphide, carbonate.

Borax and boric acid. Aluminium and its compounds including aluminium sulphate and the alums, aluminium oxide, hydroxide, sodium aluminate. China clay ; the action of aluminium on certain metallic oxides (Goldschmidt's process).

Tin and lead and their compounds including stannic chloride, sulphide oxide ; stannic and metastannic acids ; stannous chloride, sulphide ; lead nitrate, acetate, hydroxide, oxides, sulphide ; red lead and white lead.

The rusting of tin plate and of galvanized iron.

The carbon-silicon-tin-lead family.

Chromium ; chromates and dichromates, chromium oxide.

Manganese ; oxides and salts of manganese ; manganates and permanganates.

Iron ; cast iron, steel and wrought iron. Oxides of iron. Ferric chloride, sulphate, hydroxide ; ferrous sulphate, chloride, hydroxide.

Magnesium ; magnesium sulphate, oxide and carbonate.

The compounds of calcium, barium and strontium, including calcium sulphate, phosphate, chloride, hydroxide, oxide, carbonate and carbide ; barium carbonate, chloride, sulphate, hydroxide, and oxides ; strontium carbonate, chloride, sulphate, hydroxide and oxide.

Sodium and potassium and their compounds, including sodium chloride, sulphate, carbonates, hydroxide, nitrate ; potassium chloride, sulphate, carbonates, hydroxide, nitrate, chlorate.

Ammonium salts, including ammonium sulphate, nitrate, chloride, carbonates, hydroxide, and sulphide.

Organic Chemistry.

Compound radicals. Closed and open Carbon chains. Saturated and unsaturated compounds. Isomerism. Metamerism. Polymerism. The Paraffins and their principal derivatives with special reference to methane and ethane. Fermentation. The Alcohols. Aldehydes and fatty acids.

The Olefines and their oxidation products. Glycerol. Saponification. Allyl Alcohol. Tetra, Penta, and Hexahydric alcohols. Carbohydrates. Aromatic Compounds. Benzene and its principal derivatives. The Glucosides. Amygdalin, Salicin and Tannin.

Practical Examination.

Each candidate must produce a certificate from the Principal of his College that he has completed in a satisfactory manner a practical course on the lines laid down from time to time by the Syndicate and handed in a note-book containing a full record of his work. Each candidate is required to have performed satisfactorily some portion at least of each of the exercises and to be prepared to satisfy any tests demanded by the Examiners within the standard and scope of the syllabus prescribed. Experiments and observations should be made quantitative as far as possible, and some knowledge be obtained as to the extent of the error incidental to each.

Course of Practical Work at present prescribed.

Part I.

1. The cutting and bending of glass tubing. The preparation of simple apparatus involving the use of corks and tubes, *e.g.*, gas generating tubes and flasks, wash bottles.
2. Purification of liquids, *e.g.*, water, by distillation: purification of salts, by crystallisation.
3. Solubility of gypsum, common salt, or similar substances in water. Determination of a solubility curve for a salt such as potassium chlorate.
4. Observation of the effect of heating sulphur, carbon, magnesium, iron, zinc, copper, aluminium, lead or other substances in air.
Determination of the change in weight when iron filings rust.
Determination of the change in weight on heating a known weight of magnesium or other substance in air.
5. Neutralisation and salt formation; preparation of sodium chloride, potassium sulphate, potassium nitrate; preparation of barium sulphate, lead chromate, zinc sulphide by precipitation; preparation of lead nitrate from litharge; zinc sulphate from zinc; magnesium sulphate from magnesium carbonate. Preparation of other salts obtained by similar methods. Quantities of material and yield to be measured.
6. Decomposition of salts on heating; the qualitative and quantitative results of heating such substances as lead nitrate, slaked lime, red lead.
7. Preparation of oxygen on a small scale; properties of the gas.
Determination of the percentage weight of oxygen given off on heating potassium chlorate and the calculation of the approximate molecular weight of oxygen from the volume of oxygen collected.
8. Determination of the volume of hydrogen evolved when equal weights of different metals are dissolved in hydrochloric acid, and the equivalent weights of metals, such as magnesium, zinc, aluminium.
9. Oxidation and reduction; action of potassium chlorate, potassium nitrate, potassium permanganate solution, chlorine water, and other similar agents.

The effect of heating metallic oxides with carbon.

The action of reducing agents such as stannous chloride solution or zinc and sulphuric acid.

10. The use (not preparation) of standard and normal solutions, such as simple acidimetry and alkalimetry determinations. Simple determinations by oxidation and reduction.

Part II.

Candidates will be expected to detect the presence of any of the following elements and radicles:—Potassium, Sodium, Ammonium, Barium, Strontium, Calcium, Magnesium, Zinc, Iron, Aluminium, Manganese, Chromium, Nickel, Cobalt, Silver, Lead, Mercury, Bismuth, Copper, Cadmium, Arsenic, Antimony, Tin, in the form of Oxide, Sulphide, Sulphate, Carbonate, Borate, Phosphate, Chromate, Chloride, Bromide, Iodide, Nitrate, Chlorate, Cyanide, Acetate, Citrate, Tartrate, or Oxalate in powders or solutions containing not more than one acid and one base in each.

Candidates may or may not be allowed to use their laboratory note-books during the practical examination at the discretion of the Examiners.

IV.—GEOLOGY.

(One Paper and a Practical Examination of not more than six hours.)

(a) *Physical Geography.*

The earth as a planet. Form, size and motions of the earth. Measurement and mapping of the earth's surface. Position of the earth in the solar system. The agents at work on and beneath the surface of the earth: water, frost, snow, ice. The atmosphere. Its composition, height, pressure, temperature and moisture. Its movements and general phenomena in relation to climate. The climates of India. The sea and the tides. Rivers and lakes. Rocks and their formation. The interior of the earth and the phenomena connected with its internal heat. Volcanoes. Earthquakes. Geysers. Elevation and depression of land. Mountain building and valley carving. Hot springs. Distribution of land and water. Ocean currents.

(b) *Structural and Dynamical Geology.*

Temperature and density of the earth. The crust of the earth. The rock forming minerals. Igneous, metamorphic and sedimentary rocks. Their origin, arrangement, structure and composition. Classification, history, and microscopical structure of fragmental, crystalline, and fragmento-crystalline rocks. Hypogene and epigene actions. Movements in the earth's crust. Stratification, joints, inclination, curvature, cleavage and dislocation of rocks. Intrusive and interbedded rocks. Metamorphism, local and regional. Mineral veins.

Practical Examination.

Every candidate shall complete a laboratory and field course in accordance with the regulations issued from time to time by the Syndicate. Each candidate shall produce a certificate from the Principal of his College that he has completed in a satisfactory manner at least the prescribed laboratory and field course, and that his laboratory and field journals have been properly kept.

Every candidate must record his observations directly in his laboratory and field journals and write a full report on the work performed. Every journal is to be signed periodically by a member of the laboratory staff and certified at the end of the year. Candidates are to produce their journals

at the practical examination and each candidate is to be examined practically on the work done by him in the laboratory and field as shown in his journals, which shall be taken into account by the examiners in assigning marks.

A candidate may, however, be asked to perform exercises in the practical examination which differ in unessential details from those which he has carried out in the laboratory.

Course of Practical Work at present prescribed.

- (1) The identification of specimens of the following typical minerals and rocks:—

Quartz, orthoclase, albite, microcline, hornblende, augite, biotite, muscovite, chlorite, epidote, talc, serpentine, tourmaline, calcite, selenite, apatite, garnet, hæmatite, magnetite, iron-pyrites.

Granite, syenite, dolerite, basalt, diorite, gabbro, conglomerate, sandstone, quartzite, limestone, shales, schists, gneiss, the Deccan Trap, laterite.

- (2) A full description to be entered in the laboratory journal of the physical properties and chemical composition, as determined by the blow-pipe, of at least six of the abovementioned minerals and the results of the examination of the mineral composition, structure, texture, etc., of at least six igneous, three sedimentary and three metamorphic rocks from the above list.
- (3) Excursion or excursions under the guidance of the Professor or teacher to some place of geological interest. The aggregate time spent on these excursions should not be less than seven days in the year. Full notes of the field work should be kept.

V.—ELEMENTARY BIOLOGY.

(One Paper and a Practical Examination of at least three hours.)

The fundamental facts and laws of Biology.

The distinctive properties of living and non-living bodies.

Protoplasm: the growth, structure, physical and chemical properties of the cell; its multiplication; tissues and organs.

The elements of animal and vegetable physiology.

Reproduction.

The fundamental facts of heredity, variation, environment, adaptation and evolution.

Candidates will be required to show a practical knowledge of the structure, functions and life-histories of Yeast, Mucor, Spirogyra, Fern, Oycas, Maize, Sunflower, Amceba, Paramœcium, Hydra, Earthworm, Rock-Lobster and Frog.

Practical Examination.

Every candidate shall complete a laboratory course in accordance with the regulations issued from time to time by the Syndicate. Each candidate shall produce a certificate from the Principal of his College that he has completed in a satisfactory manner the prescribed course.

Every candidate must record his observations directly in his laboratory journal and write therein a report on each exercise performed. Every journal is to be signed periodically by a member of the laboratory staff and certified at the end of the year. Candidates are to produce their journals at

the practical examination, with a series of at least ten preparations for the microscope certified by his teacher to be the *bond fide* work of the candidate. Both the journal and the slides shall be taken into account by the examiners in assigning marks.

Course of Practical Work at present prescribed.

The dissection, examination and preparation for the microscope of the abovementioned animals and plants and parts of them. The recognition of microscopic preparations of the same.

VI.—BOTANY.

(One Paper and a Practical Examination of at least three hours.)

The general conditions of life; the fundamental principles of Biology. The distinctive properties of protoplasm; nutrition, growth, respiration, irritability, reproduction.

The cell: cell-fusions, tissues and organs.

Transpiration, respiration; the absorption and movement of water and other substances in the plant body. Response to light, heat, moisture and gravity.

Reproduction, sexual and asexual. The fundamental facts of heredity, variation, adaptation, environment and evolution.

Students must have a practical knowledge of the structure, functions, life-history and relationships of Bacillus, Yeast, Mucor, Protococcus, Spirogyra, Fern, Cycas, Maize, Bean, Torenia and Sunflower.

Practical Examination.

Every candidate shall complete a laboratory course in accordance with the regulations issued from time to time by the Syndicate. Each candidate shall produce a certificate from the Principal of his College that he has completed in a satisfactory manner the prescribed course.

Every candidate must record his observations directly in his laboratory journal and write therein a report on each exercise performed. Every journal is to be signed periodically by a member of the laboratory staff and certified at the end of the year. Candidates are to produce their journals at the practical examination with a series of at least ten preparations for the microscope certified by his teacher to be the *bond fide* work of the candidate. Both the journal and the slides prepared shall be taken into account by the examiners in assigning marks.

Course of Practical Work at present prescribed.

The dissection, examination and preparation for the microscope of plants or parts of plants mentioned in the foregoing syllabus. The recognition of microscopic specimens of these plants.

VII.—ZOOLOGY.

(One Paper and a Practical Examination of at least three hours.)

The fundamental laws and principles of Biology. The distinctive properties of protoplasm; nutrition, growth, respiration, secretion, excretion, reproduction.

The Cell, its methods of division; differentiation. Tissues. The elements of Animal Physiology.

The formation of spermatozoa and ova, segmentation of the ovum.
Development of Fowl up to the third day of incubation.

The chief facts and theories of heredity, variation, adaptation. The principles of classification and origin of species.

Students must have a practical acquaintance with the structure, functions and life history of *Amœba*, *Paramœcium*, *Vorticella*, *Hydra*, *Pheretima*, *Panulirus*, Cockroach, Frog and Rabbit.

Practical Examination.

Every candidate shall complete a laboratory course in accordance with the regulations issued from time to time by the Syndicate. Each candidate shall produce a certificate from the Principal of his College that he has completed in a satisfactory manner the prescribed course.

Every candidate must record his observations directly in his laboratory journal and write therein a report on each exercise performed. Every journal is to be signed periodically by a member of the laboratory staff and certified at the end of the year. Candidates are to produce their journals at the practical examination, with a series of at least ten preparations for the microscope certified by his teacher to be the *bonâ fide* work of the candidate. Both the journal and the slides prepared shall be taken into account by the examiners in assigning marks.

Course of Practical Work at present prescribed.

The dissection, examination and preparation for the microscope of the abovementioned animals and parts of them. The recognition of microscopic preparations of the same.

10. To pass the Examination the candidate must obtain thirty-three per cent. (33%) of the full marks in each paper and in each practical examination. In Mathematics a candidate must obtain thirty-three per cent. (33%) of the total marks. Should a candidate, however, not obtain thirty-three per cent. (33%) of the full marks in one paper or practical examination *only*, or in Mathematics *only*, he may be declared by the Examiners to have passed the Examination, provided he obtains at least forty per cent. (40%) of the total marks in all subjects taken together. Those of the successful candidates who obtain sixty per cent. (60%) of the total marks obtainable will be placed in the First Class, and those obtaining forty-eight per cent. (48%) in the Second Class.

11. A candidate who has obtained 44 per cent. of the total marks in any subject (including the practical) at any one examination may, at his option, be excused from appearing in that subject (provided he has obtained the minimum in each paper and practical of that subject required by Regulation 10) at a subsequent examination and will be declared to have passed the whole Examination when he has passed in all the subjects of the examination; provided that in the subject or subjects in which he appears on the last occasion he must obtain the minima in each paper or subject or practical required by Regulation 10. Candidates passing the examination in this manner in compartments will not be eligible for a class or for any prize or scholarship to be awarded at the examination.

12. On such day as the Syndicate may appoint the Examiners will publish a list of successful candidates in two Classes and Pass, the names in each Class and Pass being arranged in alphabetical order.

13. A certificate will be given to those who pass the Examination. (*Vide Form 22*).

EXAMINATION FOR THE DEGREE OF B.Sc.

14. The Examination for the Degree of Bachelor of Science will be held annually at Bombay, commencing on the Monday following the fourth Monday in March.

15. No candidate will be admitted to this Examination, unless he shall have, after passing the Intermediate Examination in Science, kept four terms at a College or Institution recognized for the purposes of the Examination for the Degree of Bachelor of Science by the University of Bombay, and unless he produces satisfactory testimonials under Form 23.

N. B.—Bachelors of Agriculture who are exempted from undergoing an examination in Chemistry and Elementary Biology at the Intermediate Examination in Science under the N. B. to Regulation 7 will be permitted to keep terms for the B.Sc. Examination before passing the Intermediate Examination in Science, provided that the terms so kept will be regarded as terms for the B.Sc. Examination, only when the candidates have passed the Intermediate Examination in Science.

16. A student who has passed in all subjects but one at the Intermediate Science Examination in conformity with Regulation 11 of that examination will be allowed to keep terms for the B.Sc. Examination and will be allowed to appear for the B. Sc. Examination after keeping four terms, but will not be declared to have passed that examination under any circumstances, unless he has passed in the remaining subject of the Intermediate Science Examination held either in a previous or in the same examination season.

17. A candidate may appear in his subsidiary subject only after two terms if he chooses, and if he passes in it, he may appear for the principle subject only after keeping two more terms. He will be eligible for a class or a distinction or for any prize or scholarship awarded at the examination according to his marks in his principal subject.

18. Candidates must forward their applications (*vide* Form 23) to the Registrar on or before the 20th February with certificates of attendance during the first three terms. Certificates of attendance during the fourth term should be forwarded by Principals of Colleges on or before the 10th March (*vide* Form 8.)

19. Each candidate must pay to the Registrar, through the Principal of his College or otherwise, as the Syndicate may direct, a fee of Rs. 50.

20. Failure to pass the Examination will not disqualify the candidate from presenting himself on a subsequent occasion on a new application being forwarded and a fresh fee paid.

21. Candidates must select one of the following groups, one of the subjects to be a principal subject and the other a subsidiary one:—

- (1) Physics and Chemistry (students selecting this group must take a course of the Calculus).
- (2) Mathematics and Physics.
- (3) Chemistry and Botany.
- (4) Chemistry and Geology.
- (5) Botany and Zoology.
- (6) Geology and Zoology.
- (7) Botany and Geology.

22. On the recommendation of the Boards of Studies, the Syndicate may from time to time prescribe or recommend text-books in the various subjects of this Examination and modify from time to time as may be found necessary the details of the practical courses laid down for this Examination.

23. There shall be 600 marks for a principal subject, each paper and each practical examination to carry 75 marks when there are four papers and four practical examinations or eight papers, and each paper and each practical examination to carry 100 marks when there are three papers and three practical examinations.

24. There shall be 300 marks for a subsidiary subject, each paper or practical examination carrying 75 marks.

I.—PHYSICS.

(As a subsidiary subject.)

(Two Papers and two Practical Examinations of not more than three hours' duration each.)

The subject to be treated mathematically as well as experimentally (using the mathematics of the Intermediate Examination in Science and the Elements of the Integral Calculus) as in the text-books recommended from time to time by the Syndicate.

Candidates will be examined in the subjects specified for the B.A. (Pass) course with the addition of the following:—

Mechanics of solids and fluids.

Gravitation. Work done by attraction and repulsion. Kepler's laws. The Cavendish experiment.

* Moments of inertia. Principle of perpendicular axes, and of parallel axes.

* Centres of oscillation and suspension for a compound pendulum. Equivalent simple pendulum. Reversible pendulums.

Bifilar pendulum.

* Bending of rods. Determination of Young's modulus by bending.

* Modulus of rigidity. Torsion of a wire. Torsion pendulum.

* Hydrostatics.

Diffusion of liquids. Osmotic pressure.

* Elasticity and compressibility. Elasticity of gases.

Effusion, diffusion and occlusion of gases.

Heat.

Measurement of the two specific heats of a gas. Variation of specific heat.

Effect of curvature of surface on vapour pressure. Triple point.

Freezing point of solutions. Heat of solution. Freezing mixtures.

Boiling point of solutions. Isobars and isothermals. Critical point.

Measurement of conductivity of solids, liquids and gases.

Adiabatic curves. The indicator diagram.

Carnot's cycle. Absolute scale of temperature. Second law of thermodynamics.

* Portions not marked with an asterisk are sufficiently treated in Watson's Text-Book of Physics.

Sound.

Velocity of a transverse wave along a string. Velocity of gravitational waves in water. Velocity of compressional wave in an elastic fluid.

Transverse vibration of plates. Torsional vibrations.

Supply of energy to a sounding body. Damping.

Limits of audition. Combination tones. Consonance and dissonance. Timbre.

Light.

Compound eye-pieces. Achromatic lenses. Elementary theory of the rainbow.

The diffraction grating. Colours of thin plates. Newton's rings.

Rectilinear propagation of light on the wave theory.

Displacement of spectral lines. Anomalous dispersion.

Calorescence, phosphorescence and fluorescence. Distribution of energy in the spectrum.

Colour sensations.

Polarisation by reflection. Brewster's law. Wave surface in a uni-axal crystal.

Huyghen's construction for the directions of the rays in a uni-axal crystal. Rotation of the plane of polarisation.

Magnetism and Electricity.

* Gauss's theorem regarding normal induction over a closed surface.

Distribution of energy in electrostatic field. Strength of field near, and mechanical force exerted on, a charged conductor.

Parallel plate condenser with compound dielectric. Capacity of spherical condenser. Attracted disc electrometer.

Thermo-electricity.

Hysteresis. Molecular theory of magnetism.

* Potential due to a short magnet. Relation between magnetic intensity and magnetic potential. Potential due to a magnetic shell.

* Intensity of field at any point due to a small magnet.

* Suspended coil galvanometer. Ballistic galvanometer.

* General principles of electro-magnetic induction. Self induction.

* Mutual induction.

* Graphical representation of alternating currents. Current, E. M. F. and power in alternating current circuits.

Dimensions of electrical and magnetic quantities. Connection between the electrostatic and electro-magnetic systems of units.

Migration of ions. Ionic velocities. Polarisation. Contact difference of potential.

Paper 1.—Mechanics of Solids and Fluids, General Properties of Matter, Sound, Heat.

Paper 2.—Light, Electricity and Magnetism.

* Portions not marked with an asterisk are sufficiently treated in Watson's Text-Book of Physics.

Every candidate shall complete a laboratory course in accordance with the regulations issued from time to time by the Syndicate. Each candidate shall produce a certificate from the Principal of his College that he has completed in a satisfactory manner at least the prescribed course, and that his laboratory journal has been properly kept.

Every candidate must record his observations directly in his laboratory journal and write therein a report on each exercise performed. Every journal is to be signed periodically by a member of the laboratory staff and certified at the end of the year. Candidates are to produce their journals at the practical examination and each candidate is to be examined practically on the work done by him in the laboratory as shown in his journal, which shall be taken into account by the Examiners in assigning marks; and in addition to such exercises, candidates may be examined in exercises of the kind contained in the books on Practical Physics recommended for the Examination.

Course of Practical Work at present prescribed.

A course of exercises covering the whole of the above syllabus.

(As a principal subject.)

(Four papers and four practical examinations of not more than three hours' duration each.)

The subject to be treated mathematically as well as experimentally, using the mathematics of the Intermediate Examination in Science and the Elements of the Integral Calculus.

Mechanics—

Principles of Statics. Gravity. The Mechanical Powers. The Balance. Principles of Kinetics. Laws of falling bodies. Elements of Dynamics. The Pendulum. Energy. Elasticity. Friction.

Hydrostatics. Density and its determination. Capillarity. The Barometer. Pumps. Efflux of Liquids.

Acoustics—

Production and Propagation of Sound. Numerical Evaluation of Sound. Modes of Vibration. Analysis of Vibrations. Constitution of Sounds. Consonance, Dissonance and Resultant Tones.

Heat—

Thermometry. Expansion of Solids, Liquids, and Gases. Calorimetry. Fusion and Solidification. Evaporation and Condensation. Ebullition. Quantitative measurements relating to Vapours. Hygrometry. Conduction of Heat. Radiation. Steam and other Heat engines. Thermodynamics.

Light—

Propagation of Light. Reflection. Refraction. Mirrors and Lenses. Vision and Optical Instruments. Dispersion. Spectrum Analysis. Colour. Wave Theory. Interference. Polarisation and Double Refraction. Electromagnetic Theory of Light.

Radio-activity—

The nature of α , β and γ rays. The degeneration of radio-active elements. The release of the internal energy of the atom. Theory of atomic structure.

Electricity and Magnetism—

Introductory Phenomena. Induction. Measurement of Electrical Forces. Electrical Machines. Potential. Condensers. Electrometers. Atmospheric Electricity. Magnets. The Magnetic Elements and their determination. Galvanic Batteries. Galvanometers. Electro-Chemistry. Ohm's Law. Relation between Electricity and Heat. Electro-Dynamics. Induction of currents. Diamagnetism. Applications of Electricity. Electrical and Magnetic Units. Electric waves. Conduction of Electricity in Gases. Cathode rays. Anode rays. Electrons. Roentgen rays.

The papers will be constituted as follows:—

Paper 1.—General Properties of Matter, Mechanics of Solids and Fluids.

„ 2.—Heat and Thermo-dynamics.

„ 3.—Sound, Light and Radio-activity.

„ 4.—Electricity and Magnetism.

In all four papers a certain number of alternative questions will be set involving the use of higher mathematical methods, which may be attempted by candidates who are taking Mathematics as their subsidiary subject. In paper 1 a certain number of questions on Elementary Mechanics will be set, which may be attempted by those candidates only who are taking Chemistry as their subsidiary subject.

Every candidate shall complete a laboratory course in accordance with the regulations issued from time to time by the Syndicate. Each candidate shall produce a certificate from the Principal of his College that he has completed in a satisfactory manner at least the prescribed course, and that his laboratory journal has been properly kept.

Every candidate must record his observations directly in his laboratory journal and write therein a report on each exercise performed. Every journal is to be signed periodically by a member of the laboratory staff and certified at the end of the year. Candidates are to produce their journals at the practical examination and each candidate is to be examined practically on the work done by him in the laboratory as shown in his journal, which shall be taken into account by the Examiners in assigning marks.

This regulation is not intended to prevent examiners from setting practical exercises designed to test the originality of the candidate and his power of applying his knowledge to novel conditions.

In judging a candidate's practical work during the two years of the course, examiners are to take into consideration any evidence he may offer that he has devoted a portion of his time to the construction of pieces of apparatus.

Course of Practical Work at present prescribed.

A course of exercises covering the whole of the above syllabus.

II.—CHEMISTRY.

(As a subsidiary subject.)

(Two Papers and two days' Practical Examination.)

Papers I and II.—Questions on all branches of the subject may be asked in each paper.

The subject as defined for the examination where Chemistry is the principal subject, but treated in a more elementary manner. Candidates will be expected to show a thorough acquaintance with the fundamental laws of Chemistry, with the preparation of the more important elements and their compounds, both inorganic and organic, and with the principles of chemical classification.

Practical Examination.

1. Exercises in qualitative analysis, not containing more than two inorganic acids and two inorganic bases.
2. Preparation and purification of inorganic salts.
3. Preparation and purification of the simpler organic compounds.
4. Determination of melting point, boiling point, density, including that of vapours, solubility, molecular weight.
5. Gravimetric and volumetric analysis, and their application to the estimation of the more commonly occurring bases and inorganic acids in simple salts. Calculation of errors.

N.B.—The use of reference books may be permitted during the practical examination.

(As a principal subject.)

(Three Papers and at least three days' Practical Examination.)

Paper I.—Inorganic Chemistry.

The subject as for the Intermediate Examination in Science treated more fully, including the consideration of the elements and their compounds not then discussed.

Special attention will be given to the relationships of the elements and their compounds to one another.

The technical methods employed in preparing the elements and their compounds.

Paper II.—Organic Chemistry.

Analysis of organic compounds: empirical and molecular formulæ: determination of molecular weight.

Classification of organic compounds.

Hydrocarbons of the fatty series, saturated and unsaturated, and their halogen derivatives.

Alcohols and Ethers.

Aldehydes and Ketones.

Fatty acids and their derivatives, including esters.

Derivatives of the hydrocarbons of the fatty series containing sulphur and nitrogen. Organo-metallic compounds.

Carbohydrates.

The Purin group.

Hydrocarbons of the Aromatic series and their derivatives. Aromatic halogen compounds and nitro-compounds.

Aromatic Amines and their derivatives. Diazo compounds. Azo compounds and azo dyes.

Phenols. Aromatic alcohols, aldehydes, ketones, quinones and their derivatives.

Aromatic acids and their derivatives.

Multinuclear hydrocarbons. Naphthalene, Anthracene, etc.

Terpenes and Camphors.

Heterocyclic compounds.

Alkaloids.

Proteids and their derivatives.

Paper III.—General and Theoretical Chemistry.

Historical development of chemical science.

Fundamental laws of mass. The elements. Atomic weights and their determination. Numerical relations of atomic weights. The molecular theory, and its application to chemical compounds.

Gases and the laws relating to them. The Kinetic theory of gases.

Fusion and solidification. Vaporization and condensation. The Phase rule.

Liquids and their properties. Solutions and the current theories with regard to them. The properties of solids, Crystals, Colloids and their properties.

Relation of physical properties to chemical constitution.

Chemical Dynamics. Chemical equilibrium.

Balanced actions. Velocity of chemical reactions. Catalysis. Dissociation.

Thermo-chemistry. Application of thermo-dynamics to chemical phenomena.

The chemical action of light.

Electro-chemistry. Electrolysis. Electric conductivity of electrolytes and non-electrolytes.

Relation between chemical and electrical energy.

Chemical affinity. Relative strengths of acids and bases. Influence of the nature, composition and constitution of substances on their affinity.

Practical Examination.

1. Exercises in qualitative analysis, such as the analysis of artificial mixtures of moderate complexity, of alloys and of ores.

2. Preparation of inorganic substances, so chosen as to elicit evidence of the candidate's acquaintance with ordinary chemical operations

3. The preparation of organic compounds involving ordinary brominations, nitrations, condensations and the like. Common methods of purification of organic compounds. Detection of common organic groups. The investigation of simple unknown organic compounds.

4. Ordinary physico-chemical determinations, such as determination of errors, determination of boiling point, melting point, density, molecular weight and the like. Determination of the velocity of typical reactions. Determination of electric conductivities.

5. The gravimetric and volumetric estimation of commonly occurring substances. Organic combustions.

N.B.—The use of reference books may be permitted during the practical examination.

III.—MATHEMATICS.

(*As a subsidiary subject.*)

(Four Papers of three hours each.)

PAPER I.

Analytical Geometry.—Properties of ellipse, parabola, hyperbola when referred to rectangular or polar co-ordinates, reduction and tracing of curves given by the general equation of the second degree.

Solid Geometry.—The straight line, plane, sphere and transformation of axes.

PAPERS II AND III.

Differential and Integral Calculus and Differential Equations.—As defined for the examination where Mathematics is a principal subject, including simultaneous differential equations of the first order and elementary ideas on partial differential equations.

PAPER IV.

Statics.—Coplanar forces; moments, couples, equilibrium of rigid bodies acted on by coplanar forces, centre of gravity, friction, principle of virtual work.

Dynamics.—Rectilinear, parabolic, circular motion; simple harmonic motion and the pendulum; principles of work, energy, momentum; collision.

(*As a principal subject.*)

(Eight Papers of three hours each.)

PAPER I.

Analytical Geometry.—Cartesian and polar co-ordinates; the ellipse, parabola and hyperbola; the general equation of the second degree.

Algebra and Theory of Equations.—Binomial, exponential and logarithmic series; convergency; partial fractions; summation of simple series; elements of determinants; solution of numerical equations; solution and theory of the cubic and biquadratic equations.

PAPER II.

Plane Trigonometry.—De Moivre's Theorem; expansions of $\sin n\theta$, $\cos n\theta$ in powers of $\cos \theta$; expansions, infinite products and partial fraction expressions for $\sin \theta$, $\cos \theta$, etc.; factorisation; hyperbolic functions.

Differential Calculus.—Taylor's Theorem for two variables; partial differentiation; undetermined forms; maxima and minima for functions of two variables; radius of curvature; rectilinear asymptotes, singular points and easy curve tracing.

PAPER III.

Integral Calculus.—Integration, areas, lengths of curves; surfaces and volumes of surfaces of revolution; the double integral and applications to centroids, centres of pressure and moments of inertia. Fourier's series without formal proof, with illustrations.

Differential Equations.—Ordinary equations of the first and second order excluding integration by series.

PAPER IV.

Spherical Trigonometry.—Properties of triangles relating to sides and angles; Napier's analogies and formulæ of right-angled triangles; solution of triangles.

Solid Geometry.—Analytical Geometry of point, line, plane, sphere and ellipsoid referred to its principal axes.

PAPER V.

Statics.—Analytical; principle of virtual work for two dimensions with application to frame works; simple applications of the funicular and force polygons; equilibrium of inelastic strings in two dimensions.

PAPER VI.

Dynamics.—Elementary, with rectilinear and simple harmonic motion; parabolic motion and motion when variation of gravity is taken into account; principles of momentum, work, energy; collision of two elastic bodies; integration of motion under the law of gravitation and motion in the ellipse and parabola; composition of harmonic motions; motion about a fixed axis.

PAPER VII.

Hydrostatics.—Equilibrium of floating bodies; metacentre for surfaces of revolution; centre of pressure; rotating fluids about a vertical axis under gravity; laws of gases; hydrostatic and pneumatic machines.

Astronomy.—The earth; astronomical instruments; refraction, parallax, aberration, precession and nutation; the sun and the solar system; the moon; eclipses; determination of latitude, first point of Aries and obliquity of ecliptic; time.

The subject to be treated mathematically with the use of the properties of the right-angled spherical triangle.

PAPER VIII.

Problem Paper.

IV.—BOTANY.

(As a subsidiary subject.)

(Two Papers and two Practical Examinations.)

Candidates must have an acquaintance with the general principles of Biology, a special knowledge of the Morphology, Physiology and Ecology of plants, including the practical use of the microtome, microscope and other instruments, apparatus and reagents employed in the study of Physiology and Histology (including Cytology).

Reproduction, asexual and sexual. Fertilisation ; self and cross-fertilisation and the agencies by which they are secured. Hybridisation ; the discoveries of Mendel and his followers.

The principles of classification, the phenomena and theories of Variation, Heredity and Evolution.

Distribution of plants in space and time.

An elementary knowledge of fossil plants to elucidate the phylogeny of existing species.

A special acquaintance must be made of the following groups :—

Schizomycetes, Cyanophyceæ, Myxomycetes, Flagellata, Diatomaceæ, Chlorophyceæ, Phaeophyceæ, Rhodophyceæ, Charales, Phycomycetes, Ascomycetes, Basidiomycetes, Lichenes, Hepaticæ, Musci, Filicinæ, Equisetinæ, Selaginellaceæ, Cycadinæ, Graminaceæ, Cyperaceæ, Palmaceæ, Araceæ, Liliaceæ, Amaryllidaceæ, Scitamineæ, Orchidaceæ, Urticaceæ, Nyctaginaceæ, Anonaceæ, Cruciferae, Capparidaceæ, Leguminosæ, Rutaceæ, Euphorbiaceæ, Anacardiaceæ, Malvaceæ, Passifloraceæ, Myrtaceæ, Aristolochiaceæ, Apocynaceæ, Asclepiadaceæ, Convolvulaceæ, Verbenaceæ, Labiatae, Solanaceæ, Rubiaceæ, Cucurbitaceæ, Compositæ.

Practical Examination.

Each candidate must produce a Field and Laboratory Note-Book certified by his teacher as a faithful record of actual work done by the candidate.

Candidates must be prepared to examine, dissect and prepare for the microscope any vegetable structure ; to refer to their proper systematic position plants or parts of plants belonging to any of the groups specified in the foregoing syllabus ; to demonstrate a working knowledge of the methods, apparatus and reagents used in physiological or histological research ; to demonstrate the reactions of protoplasm, sugar, inulin, tannin, starch and other cell-contents, of cellulose, lignin and other components of the cell-wall.

Each candidate must bring a series of at least 20 permanent specimens prepared for the microscope certified by the teacher as the *bond fide* production of the candidate.

(As a principal subject.)

(Three Papers and three Practical Examinations.)

(a) The foregoing syllabus treated in greater detail and in addition a knowledge of the following groups :—

Peridinea, Heterocontæ, Deuteromycetes, Lycopodiaceæ, Isoetaceæ, Ginkgoineæ, Coniferae, Gnétinæ Hydrocharidaceæ, Amarantaceæ, Nymphaeaceæ, Papaveraceæ, Ochnaceæ, Tiliaceæ, Sterculiaceæ, Meliaceæ, Guttiferae, Lythraceæ, Combretaceæ, Scrophulariaceæ, Bignoniaceæ, Acanthaceæ.

(b) A candidate engaged in original research or in study of a special branch of Botany may present a thesis, series of preparations, record of work or such other evidence as the Examiners may desire on that special branch or subject of research at least two months before the examination.

He shall submit to a special oral, written or practical examination on the subject of his thesis, and any closely allied matter and pass an examination of the subsidiary standard in the remaining branches of Botany. Notice with particulars of the special subject of research or branch of study shall be given to the Registrar at least thirteen months before the date of the examination. The Registrar will submit the notice to the Examiners for the time being who may approve or reject the candidate's proposal.

V—ZOOLOGY.

(As a subsidiary subject.)

(Two Papers and two Practical Examinations.)

The subjects prescribed for the B.A. Examination treated more fully.

Distribution of animals in time and space : the comparative anatomy of the more important animal fossils.

The distinctive characters including the embryology of the phyla, classes, and more important orders of animals.

Additional animals for dissection, microscopical examination or study of life-history :—

Monocystis, Laverania, Volvox, Herpetomonas, Spongilla, Obelia, Carmarina, Asterias, Ascaris, Filaria, Brachionus, Fasciola, Taenia, Nereis, Hirudo, Palæmon, Carcinus, Sacculina, Lepisma, Acridium, Musca, Scolopendra, Scorpio, Unio, Aplysia, Sepia, Flustra, Echinus, Doliolum, Serranus, Chelone, Naia, Lepus.

Candidates must be able to distinguish by external characters the Indian snakes lethal to man.

A practical acquaintance must be shown with the skeletal parts of the following as well as of the above animals :—

Nautilus, Spirula, Triton, Chiton, Crocodilus, Struthio, Ornithorynchus, Macropus, Equus, Ovis, Felis, Homo.

Each candidate must produce evidence of having undergone a course of at least three months' practical instruction in animal histology in a recognized College or Institution.

His laboratory note-book, duly certified by his teacher, must satisfy the Examiners that he has dissected and otherwise examined specimens of the majority of the phyla and classes of animals.

(As a principal subject.)

(Three Papers and three Practical Examinations.)

A fuller knowledge of the above syllabus in all its branches ; or

A candidate engaged in original research or in study of a special branch of Zoology may present a thesis, series of preparations, record of work or such other evidence as the Examiners may consider desirable on that special branch or subject of research at least two months before the examination.

He shall submit to a special oral, written or practical examination on the subject of his thesis and any closely allied matter, and pass an examination of the subsidiary standard in the remaining branches of Zoology.

Notice with particulars of the special subject of research or branch of study shall be given to the Registrar at least thirteen months before the date of the examination. The Registrar will submit the notice to the Examiners for the time being who may approve or reject the candidate's proposal.

VI.—GEOLOGY.

(As a subsidiary subject.)

(Two Papers and two Practical Examinations.)

Paper I.—(1) General Geology including all branches except the one taken up for Paper II.

Paper II.—(2) Crystallography and Mineralogy, or Palæontology.

When Geology is taken as a subsidiary subject the student is expected to take the subjects prescribed under the sub-heads mentioned below much less elaborately treated than when Geology is taken as a principal subject. Students who take up Chemistry as the principal subject will be required to take group (d), and the Zoology and Botany students group (e) treated as fully as in the principal subject as defined below.

Field work may, if practicable, form part of the practical work which shall be as prescribed for the principal course.

(As a principal subject.)

(Three Papers and three Practical Examinations.)

(a) *General and stratigraphical Geology and Ore deposits.*

General principles of stratification. Table of stratified formations. Classification of the rocks of the earth's crust. The general character of the rocks, minerals and fossils of the primary, secondary and tertiary rocks. Local developments. Ore deposits. Mineral veins. Their origin, structure and contents. Successive infilling. Relation to faults and surrounding rocks. Decomposition and recomposition. The chief metalliferous ores.

(b) *Indian Geology.*

The relation of Indian and European formations. The geology and petrology of the crystalline and metamorphic series of India. The Gondwana system. The Deccan and Malwa Traps. The intertrappean beds. The tertiary deposits. General character, composition, origin, distribution, mode of occurrence and the age of laterite. The age and origin of the Himalayas. The geological history generally of the Peninsula.

(c) *Petrology.*

Megascopic and microscopic examination of typical rocks. Structure composition, state of aggregation, colour and lustre, feel and smell, specific gravity and magnetism of rocks. Sedimentary rocks, clastic and crystalline. Eruptive and schistose metamorphic rocks, and crystalline schists. Marble and limestones. Effects of heat, heated

water, compression, tension, and fracture of rocks. The glassy and porphyritic rocks. Calcareous, siliceous, phosphatic, glauconitic, carbonaceous, ferruginous rocks. Intrusive rocks. Rosenbusch-Hatch petrological tables.

(d) *Crystallography and Mineralogy.*

Rock-forming minerals. Optic, thermal, electrical, and magnetic properties of minerals. Axes of extinction. Physical, chemical, and pyrognostic characters of minerals. Water of crystallisation. Specific gravity apparatus. Principles of crystallography. Crystal structure, crystal individual, and crystal aggregate. The crystalline systems. Crystallographic axes. Law of symmetry. Planes and axes of symmetry. Twinned and pseudo-symmetric crystals, and their formation. Physical properties characteristic of crystals. Optical properties. Biaxial and uniaxial crystals. Theories of crystalline structure. Measurement of crystals by contact goniometer.

(e) *Palæontology.*

Conditions of the entombment and preservation of fossils (organic remains both on land and in sea. Fossilisation. Description of the fauna and flora of the earth during successive periods of its history. Uses of fossils in geology. Means of identifying species. Rules of nomenclature. Fossils as indicative of stratigraphical order. Relative palæontological value of organic remains. Chief zone fossils and their use. Bearing of palæontological data upon evolution. Classification, distribution, and range of fossils; appearance of new types. The more common and characteristic genera belonging to the several formations.

Practical Laboratory and Field Work.

Practical work in the laboratory shall consist of (1) preparation of six petrological slides; (2) entry into proper journals of the description of twenty hand specimens of typical rocks and their corresponding microscopic slides, with drawings of at least six of these slides; (3) drawings of the crystalline forms of at least fifteen typical minerals; (4) notes of blow-pipe analyses of twenty typical minerals; and (5) preparation of Geological Maps of India and Great Britain and Ireland on a scale not smaller than 1 inch to 100 miles.

Field Work.—Excursion or excursions to any places of geological interest under the immediate guidance of the Professor. The aggregate time spent on the excursions shall not be less than fifteen days during the course. Students shall keep a full journal of the work done in the field, including a sketch map with the requisite sections, of an area of about 25 square miles.

All the journals and the field notes should be countersigned from time to time by the Teacher and Professor.

The practical examination shall consist of an examination on the laboratory and field work of the student as shown by his journals, and the identification of specimens of typical minerals, rocks and fossils.

25. To pass the examination a candidate must obtain in each subject thirty-three per cent. (33%) marks separately in the papers taken together, and in the practical examinations taken together, or in Mathematics in all the papers taken together. Should a candidate fail in either the practical or written examination in the subsidiary subject only, he may be declared by the Examiners to have passed the examination, provided he obtains at least

forty per cent. (40%) of the total marks in his principal subject. Those of the successful candidates who obtain forty-eight per cent. (48%) of the total marks in their principal subject will be placed in the Second Class, and those who obtain sixty per cent. (60%) in the First Class. Candidates who obtain sixty-six per cent. (66%) in their principal subject will be declared to have passed with distinction in that subject.

26. A candidate who secures 44 per cent. of the total marks in his principal subject at any one examination may, at his option, be excused from appearing again in that subject (provided he has obtained the minima in the papers and in the practicals required by Regulation 25) and will be eligible for the B. Sc. degree by qualifying in accordance with Regulation 25 in the subsidiary subject at a subsequent examination. A candidate who passes his B. Sc. Examination in this way will not be eligible for a class, prize or scholarship awarded at the examination.

27. On such day as the Syndicate may appoint, the Examiners will publish a list of successful candidates in two Classes and Pass, the names in each Class and Pass being arranged in alphabetical order. The list will show also the names of the candidates who have passed with distinction in their principal subject.

28. A certificate will be given to those who pass the Examination. (*Vide* Form 24).

MASTER OF SCIENCE.

29. The Examination for the Degree of Master of Science will be held annually in Bombay, commencing on the second Monday in March.

30. Any person who has passed the B.Sc. Examination of this University or the B.Sc. Examination of any other University recognized by this University which may be considered by the Syndicate equivalent to the B. Sc. Examination of this University* not less than two academical years previously, may be admitted to the Examination for the Degree of Master of Science and should he pass the Examination in any one of the under-mentioned branches he will be admitted to the Degree of M.Sc.

31. The candidate must produce satisfactory evidence before the Board of Studies of having done sufficient work to entitle him to appear for the Examination. The candidate is recommended to furnish a detailed and indexed account of all the work done by him since graduation, showing to what extent the several portions of the syllabus have been carried out.

32. A candidate may submit four months before the date of his Examination a thesis.† Such thesis may be accepted in lieu of the whole or a part of the Examination. If the Board of Studies is satisfied that in its opinion a *prima facie* case has been made out for the consideration of the thesis, it shall submit the thesis to a referee or referees, named by the Board, who shall report to the Board as to whether the thesis should be accepted in lieu of the whole or any part of the ordinary Examination for the Degree of Master of Science. The Board shall then finally decide the nature of the Examination to be taken by the candidate.

*Under the provisions of this regulation the Syndicate have accepted the B. Sc. Examination of the Calcutta, Dacca and Allahabad Universities only as equivalent to the B. Sc. Examination of this University.

†Ten copies should be submitted with the candidate's application. The thesis must be proved to the satisfaction of the Board of Studies to be the original work of the student which may be carried out under the guidance or supervision of the Professor. If more than one thesis are submitted they should be on the same or allied subjects. No thesis which is submitted under the joint names of the student and any other worker shall be accepted except as a support.

33. Candidates must forward an application to the Registrar at least four months before the Examination. (*Vide* Form 25).

34. Each candidate must pay to the Registrar a fee of Rs. 100, for which a receipt will be given.

35. Failure to pass the Examination will not disqualify the candidate from presenting himself at any subsequent M.Sc. Examination on a new application being forwarded and a fresh fee paid. On the same conditions a candidate who has already passed the Examination may appear on a subsequent occasion in a different branch.

36. The Examination will comprise the following branches:—

- | | | |
|-----------------|---------------|-------------|
| 1. Mathematics. | 3. Chemistry. | 5. Zoology. |
| 2. Physics. | 4. Botany. | 6. Geology. |

37. Each candidate for the Examination shall be required to show *in addition* to a general acquaintance with the whole of one of the above subjects (except Mathematics) a special acquaintance with some one branch thereof.

I.—MATHEMATICS.

N.B. —If a candidate has passed his M.A. Examination in one of the Mathematics groups A or B, he will have to appear for the other group to qualify for the degree of M.Sc.

[The same as at the M.A. Examination.]

II.—PHYSICS.

(Five Papers and four Practical Examinations of not more than three hours each.)

In sending in his application to the Registrar each candidate is to enclose a full account of the course of reading and of practical work he has completed, and the lectures he has attended since passing the examination for the Degree of Bachelor of Science. In particular he is to state in which of the special subjects contained in the following list he has prepared himself:—

Advanced Heat and Thermodynamics.

Geometrical Optics and Theory of Optical Instruments.

Physical Optics and the Electromagnetic Theory of Light.

The Theory of Electromagnetic Measurements.

The Theory of the Production and Transmission of Electromagnetic Energy.

Radio-activity. The Electron Theory. Atmospheric Electricity.

The Syndicate, on the recommendation of the Board of Studies, may at any time modify this list; or add new subjects to it.

The number and nature of the papers to be answered by any candidate and the number of practical examinations he has to attend, is to be decided by the Board of Studies after consideration of the course of reading he has undertaken, the practical work he has done and the lectures he has attended since passing the examination for the Degree of Bachelor of Science, and also of the thesis, if any, which he has handed in.

In no case will there be more than five papers and four practical examinations of three hours each.

Every candidate, however, must be examined in one of the special subjects in the list above, and in that branch of Physics, of which the special subject forms a part, unless after consideration of a thesis submitted by him the Board of Studies excuses him entirely from examination, or from all examinations except one on his thesis.

In the examinations on the special subjects questions will be set dealing with recent advances as described in the standard scientific journals.

A candidate who has taken Chemistry as his subsidiary subject in the B.Sc. Examination will be expected to be able to use the Mathematics of the Intermediate Science Examination, and in addition elementary integral calculus. He should understand the nature of simple differential equations. All branches in which he offers himself for examination should be treated experimentally as well as mathematically.

A candidate who has taken Mathematics as his subsidiary subject in the B.Sc. Examination will be expected to be able to use this Mathematics in the treatment of the several branches of Physics, and in particular of the selected special subject and the related branch, both of which should be treated experimentally also.

A candidate who has taken Mathematics as his principal subject in the B.Sc. Examination and who appears for the M.Sc. Degree in Physics must show a thorough knowledge of the experimental side of the subject, and an advanced mathematical and experimental knowledge of one of the special subjects.

If there are more candidates than one, and their preparation for the examination is not along the same lines, there shall be, where necessary, a certain number of alternative questions, and the Examiners shall instruct each candidate as to which questions he may attempt.

III.—CHEMISTRY.

(Four Papers and at least four days' Practical Examination.)

Paper I.—Inorganic Chemistry.

Paper II.—Organic Chemistry.

Paper III.—General and Theoretical Chemistry, including the History of Chemistry.

Paper IV.—One of the following :—

- (a) Mineral and Metallurgical Chemistry.
- (b) Physical Chemistry (higher). Candidates who take this branch of the subject are expected to know the simpler portions of the Differential and Integral Calculus and to be able to apply them to chemical problems.
- (c) Organic Chemistry (higher).
- (d) Biological Chemistry and the Chemistry of Foods.

The Syndicate, on the recommendation of the Board of Studies, may specify additional subjects under Paper IV.

In each of these papers candidates will be expected to show a thorough acquaintance with the subject, including the more important recent developments in the several sections of it. They will be expected to be able to refer to and abstract the recent chemical literature, and be able to suggest methods for the investigation of specific problems.

Practical Examination.

The practical examination will occupy at least four days : the Examiners shall have the option, if they deem such a course advisable, to extend the period of examination. The Examiners are at liberty to apply any test which they think desirable either *vis à voce*, or by writing, or by experimental work, in order to obtain evidence as to the knowledge of the subject possessed by the candidates.

One day *at least* will be devoted to a practical examination in the special subject offered by the candidate under Paper IV.

A thorough command of the methods, instruments and apparatus utilized in chemical work will be demanded, and special familiarity with those used in connection with the special subject which the candidate offers.

IV.—BOTANY.

(Three Papers and at least three days' Practical Examination.)

A candidate will be expected to show a general knowledge of Botany in all its branches. In addition he shall furnish evidence of having been engaged on some special subject or branch of Botany which he shall specify by notice in writing to the Registrar at least four months before the examination. He may submit a thesis, a series of preparations or any other evidence of his work, and the Examiners shall take such evidence into consideration in assigning him marks at the Examination.

The practical examination will occupy at least three days. Examiners are at liberty to apply any test they think desirable either *visd voce*, by writing, or by experimental work, in order to obtain evidence as to the knowledge the candidate possesses.

A thorough command of the methods, instruments and apparatus utilized in botanical work will be demanded and a special familiarity with those used in connection with the special subject which the candidate offers.

V.—ZOOLOGY.

(Three Papers and at least three days' Practical Examination.)

A candidate will be expected to show a general knowledge of Zoology in all its branches. In addition he shall furnish evidence of having been engaged on some special subject or branch of Zoology which he shall specify by notice in writing to the Registrar at least four months before the examination. He may submit a thesis, a series of preparations or any other evidence of his work, and the Examiners shall take such evidence into consideration in assigning him marks at the examination.

VI.—GEOLOGY.

(Three Papers and at least three days' Practical Examination.)

The examination for the degree will consist of a searching test in the whole subject as prescribed for the B.Sc. much more fully treated. The student shall specialise besides in any one of the branches (a) to (e) or any restricted portion of any branch approved by the Board of Studies.

38. On such day as the Syndicate may appoint the Examiners in each branch will publish a list of successful candidates arranged in alphabetical order. The successful candidates will be divided into those who pass and those who pass with distinction.

39. A certificate will be given to those who pass the Examination. (*Vide* Form 26).

BACHELOR OF AGRICULTURE.

40. A Candidate for the Degree of Bachelor of Agriculture must produce a certificate (*vide* Form 6) signed by the Principal of an affiliated Arts College, to the effect that he has satisfactorily carried out at such College the work appointed by the University for the first year after Matriculation, or must have passed the Previous Examination of the University of Bombay.

41. A Candidate will be required to pass two Examinations, *viz.*, the Intermediate Examination in Agriculture*, and the Examination for the Degree of Bachelor of Agriculture.

* A student who has passed the B. Sc. Examination of this University, with Chemistry and Botany as the subjects for that Examination, will be excused the Intermediate Examination in Agriculture.

INTERMEDIATE EXAMINATION IN AGRICULTURE.

42. The Intermediate Examination in Agriculture will be held annually, commencing on the first Monday in March. The Examination will be held at Poona, or such other place as the Syndicate may appoint.

43. No Candidate will be admitted to this Examination unless he produces satisfactory testimonials of having, subsequent to his receiving the certificate from the Principal of an affiliated Arts College referred to in Regulation No. 40, or subsequent to his passing the Previous Examination of this University, kept two terms in a school or college recognized in Agriculture by this University.

44. Candidates must apply to the Registrar by January 31st in each year. (*vide* Form 27).

45. Each Candidate must pay to the Registrar, through the Principal of his College, or otherwise as the Syndicate may direct, a fee of Rs. 30.

46. Failure to pass the Examination will not disqualify the Candidate for presenting himself at any subsequent Examination on a new application being forwarded and a fresh fee paid.

47. Candidates will be examined in the following subjects :—

I.—Agriculture and Geology.	IV.—Mathematics and Elementary Physics.
II.—Chemistry.	
III.—Botany.	

I.—AGRICULTURE AND GEOLOGY.

(Two Papers and a Practical Examination.)

Introductory.

Importance, scope, relationship to other industries and sciences.

Origin of Agricultural Land.

1. The earth's crust, its present condition and composition.
2. Minerals, formation and classification.
3. Rocks, formation and classification.
4. Rocks and minerals of the Bombay Presidency.
5. Rock weathering, soil formation, geological nature of agricultural land.

Soils.

1. Description, depth, sub-soil, physical properties.
2. Composition of soils --
 - (a) Physical,—sand, silt, clay, organic matter, and soil water, proportion, source and function of each.
 - (b) Chemical, from the point of view of plant nourishment.
3. The relation of soil to plants: (1) as a home, (2) as a source of nourishment.

Soils of the Bombay Presidency.—Their formation, classification and characters.

Tillage.

1. Objects and methods.
2. Implements, indigenous and introduced, their construction, adjustment, cost, action, working and care.

Practical Examination.

Notes of the practical work done by each candidate during the course are to be recorded in a note book, which must be attested by the Principal of the College, and presented to the Examiners.

Recognition of minerals, rocks and soils of the Bombay Presidency.

Practical use of all the farm tillage implements. Discrimination of the implements suited to different agricultural conditions and to different parts in Western India.

The adjustment of indigenous implements and the carrying out of all the usual farm operations, *e.g.*, ploughing, harrowing, sowing, interculturing and harvesting, with them. Testing the value of implements.

II.—CHEMISTRY.

(Two Papers and a Practical Examination.)

Inorganic Chemistry.

Measurements, chemical balance.

Atoms and molecules, symbols, formulæ, equations, chemical calculations. Physical and chemical changes.

General laws for gases. Atomic hypothesis. Avogadro's hypothesis. Determination of the density of gases and vapours. Methods and means for the determination of atomic, molecular and combining weights. Gas mixtures : diffusion of gases.

Classification of elements.

Hydrogen : preparation and properties.

Oxygen : preparation and properties ; oxides, their formation and classification. Acids, bases and salts. Oxidation and reduction.

Water. Electrolysis, synthesis, solution, crystallisation, water of crystallisation. Efflorescence and deliquescence. Natural waters. Temporary and permanent hardness. Methods for softening on a large scale.

Nitrogen. Ammonia. Oxides of nitrogen. Nitric acid and the nitrates.

Atmosphere. Ventilation.

Carbon. Varieties of carbon. Carbon dioxide and the carbonates. Carbon monoxide.

Combustion. Flame. Safety lamp.

Chlorine, bromine and iodine. Hydrochloric acid and the chlorides. Hydrobromic and hydriodic acids. The family of the halogen elements.

Sulphur. Sulphur dioxide and sulphur trioxide. Sulphuric acid and the sulphates, sulphuretted hydrogen and the sulphides. Carbon bisulphide. The oxygen-sulphur family.

Phosphorus. Phosphorus pentoxide. Phosphoric acid and the phosphates. The nitrogen-phosphorus family.

Arsenic, and arsenious oxide.

Silicon, silica and the silicates.

The following metals and their chief compounds :—Sodium, Potassium (Ammonium), Calcium, Barium, Aluminium, Iron, Lead, Copper, Mercury, Manganese, Zinc, Magnesium.

Chemistry of carbon compounds.

Carbon compounds : their general composition, physical properties, general classification.

Compound radicles, closed and open carbon chains, saturated and unsaturated compounds.

Isomerism : metamerism : polymerism.

Hydrocarbons : methane, ethane, ethylene and acetylene

Ethyl chloride, ethyl bromide, ethyl iodide, chloroform, iodoform.

Alcohols : methyl and ethyl alcohols. Glycerine.

Ethyl ether.

Aldehydes and Ketones : formaldehyde, acetaldehyde, acetone.

Acids : formic, acetic, palmitic, stearic, oleic, oxalic, lactic, tartaric, citric, and malic. Fats and oils, soaps.

Carbohydrates : cane sugar, dextrose, levulose, lactose, starch, cellulose.
Use of the polariscope.

Acetamide. Urea.

Cyanogen compounds : cyanogen, hydrocyanic acid and potassium cyanide.

Aromatic compounds : benzene, nitrobenzene, aniline, ordinary phenol benzaldehyde, benzoic acid.

Practical Chemistry.

Notes of the practical work done by each candidate during the course are to be recorded in a note book, which must be attested by the Principal of the College and presented to the Examiners.

1. Observation of the effect of burning sulphur, carbon, magnesium and a candle in air.
2. Detection of moisture and carbon dioxide in air.
3. Determination of boiling and freezing points of water. Influence of solids in solution.
4. Detection of the presence of dissolved gases, inorganic salts and organic matter in natural waters.
5. Investigation of the properties of acid and basic oxides and the products of their interaction.
6. Preparation of crystals and determination of the amount of water of crystallisation.
7. Rough determination of the density of air and oxygen.
8. Preparation and properties of oxygen, hydrogen and chlorine.
9. Solubility of sand, soil, gypsum and common salt in water.
10. Detection of chloride, bromide, iodide, sulphate, sulphide, nitrate, carbonate and phosphate of any one of the metals considered in the theoretical course. The compound should be soluble in water or dilute hydrochloric acid.
11. Preparations of the following salts or others similarly prepared :—Ammonium sulphate, sodium chloride, potassium hydrogen sulphate, copper sulphide, lead iodide and sodium nitrate.
12. Estimation of calcium, iron, copper, aluminium, sulphate and phosphate.

III.—BOTANY.

(One Paper and a Practical Examination.)

Morphology of Plants.

Seeds : their structure and germination.

Root : primary and secondary roots, root hairs, varieties of root.

Shoot : buds, parts of a shoot, varieties of shoots, branching of shoots.

Leaf : parts of a leaf, varieties of leaf, arrangement of leaves in a shoot, arrangement of leaves in buds.

Flower : the parts of a flower. The arrangement, symmetry and number of floral parts and variations of these.

Inflorescence ; Racemose, cymose, and mixed inflorescences.

Fruit : Dry and succulent fruits, dehiscent and indehiscent fruits. Schizocarps.

Anatomy and Cytology of Plants.

Cell : the plant cell and its parts. Cell division.

Tissues : meristematic, tegumentary, mechanical, absorbing, photosynthetic, conducting, storage, ventilating, secretory, excretory, motor, sensory.

Special parts : the anatomy of normal roots, stems and leaves. The anatomy of the anther and ovule.

Physiology of Plants.

Nutrition : The food of plants and its absorption. Osmosis, root pressure, photosynthesis. Translocation and storage of foods, transpiration and guttation.

Growth : Conditions influencing growth, growing regions in plants.

Metabolism : the cycle of plant energy, respiration, enzymes and the digestion of reserve foods.

Response : geotropism, heliotropism, chemotropism, hydrotropism, haptotropism, traumatropism.

Reproduction : vegetative reproduction by tubers, bulbils, bulbs, corm and suckers. Reproduction by gametes, the process of fertilisation and the development of the zygote, self and cross fertilisation.

Classification of Plants.—Principles underlying modern classification. A knowledge of the general characters of the following natural orders with examples of these orders drawn from economic plants :—Gramineæ, Scitamineæ, Palmæ, Malvaceæ, Cruciferae, Leguminosæ, Solanaceæ, Compositæ, Rutaceæ, Cucurbitaceæ, Euphorbiaceæ, Cactaceæ.

Practical Examination.

Notes of the practical work done by each candidate during the course are to be recorded in a note book, which must be attested by the Principal of the College and presented to the Examiners.

The recognition, dissection, microscopic examination, drawing, and description of plants. The student will be expected to make hand sections of plants, but will not be expected to use a microtome.

IV.—MATHEMATICS AND ELEMENTARY PHYSICS.

(One Paper and a Practical Examination.)

Mensuration.—Areas of plane surfaces, applied to the measurement of land. Volumes of solids, regular and irregular, applied to the measurement of stacks, sheds, heaps, and the like. Capacities of tanks, ponds, and wells. Use of slide rule.

Physics.

The measurement of length, area, volume, time, force, weight, pressure, tension.

Energy.—Work, power, conservation of energy, simple machines, the balance.

The different states of matter.

Solids — Properties and structure.

Liquids. — General properties : hydrostatic machines.

Specific gravity of solids and liquids.

Solution, diffusion, osmosis, capillarity.

Gases. — General properties.

The atmosphere : barometers.

Isobars, cyclones and anticyclones.

Water-pump, air-pump.

Heat.—Temperature, expansion and contraction, thermometers.

Specific heat.

Conduction, radiation, convection.

Circulation of the atmosphere, winds.

Change of state, fusion, solidification, vaporisation, latent heat.

Tension of vapours, dew.

Transformation of heat energy into mechanical energy.

Cooling by expansion of gases and heat by compression.

Production of clouds and rain by rising currents of moist air.

Measurement of rain : rain-gauge.

Practical Examination.

Notes of work done by each candidate are to be recorded in a laboratory note book, which must be attested by the Principal of the College and presented to the Examiners.

A series of elementary experiments to be approved by the Syndicate designed to illustrate the subject as treated in the theoretical course.

48. All candidates in the Intermediate Examination in Agriculture must obtain, in order to pass, forty per cent. of the total number of marks obtainable, and thirty-three per cent. of the number obtainable in the papers in each subject and in each practical examination. Candidates who obtain sixty per cent. of the total will be placed in the first class.

49. A candidate who has obtained 44 per cent. of the total marks in any subject (including the practical) at any one examination may, at his option, be excused from appearing in that subject (provided he has obtained the minima in the papers and in the practical of that subject as required by Regulation 48) at a subsequent examination and will be declared to have passed the whole examination when he has passed in all the subjects of the examination ; provided that in the subject or subjects in which he appears on the last occasion he must obtain the minima in each paper or subject or practical together with the percentage of the total marks in that subject or subjects required by Regulation 48. Candidates passing the examination in this manner in compartments will not be eligible for a class or for any prize or scholarship to be awarded at the Examination.

50. Candidates who fall short of the minimum required to pass under one head by not more than three per cent. and who obtain an aggregate of at least fifty per cent. of the total marks obtainable shall, on the recommendation of a majority of not less than two-thirds of the Examiners present at the final meeting, be declared to have passed the Examination.

51. As soon as practicable after the conclusion of the Examination the Examiners will publish a list of successful candidates in two classes, the names in each class being arranged in order of merit.

EXAMINATION FOR THE DEGREE OF B.Ag.

52. The Examination for the Degree of Bachelor of Agriculture will be held annually, commencing on the first Monday in March, and will be held in Poona or such other place as the Syndicate shall appoint.

53. No candidate will be admitted to this Examination unless he has kept four terms in a school or college recognized in Agriculture by the University of Bombay, subsequent to passing the Intermediate Examination in Agriculture, or subsequent to passing the B.Sc. Examination of the Bombay University with Chemistry and Botany as the subjects of that examination.

54. A student who has passed in all subjects but one at the Intermediate Examination in Agriculture in conformity with Regulation 49 of that Examination will be allowed to keep terms for the B. Ag. Examination and will be allowed to appear for the B. Ag. Examination after keeping four terms, but will not be declared to have passed that examination under any circumstances, unless he has passed in the remaining subject of the Intermediate Examination held either in a previous or in the same examination season.

55. Candidates must apply to the Registrar on or before January 31st in each year. (*Vide Form 28*).

56. Each candidate must pay to the Registrar, through the Principal of his College, or otherwise as the Syndicate may direct, a fee of Rs. 50.

57. Failure to pass the Examination will not disqualify the candidate from presenting himself at any subsequent Examination for the Degree of Bachelor of Agriculture on a new application being forwarded and a fresh fee paid.

58. Candidates will be examined in the following subjects :—

I.—Agriculture, including Veterinary Science.

II.—Chemistry of Agriculture.

III.—Agricultural Botany.

IV.—Plant Pests and Plant Diseases.

V.—One of the following special subjects :—

(a) Agricultural Economics, Land Development and Intensive Farming.

(b) Advanced Botany, including Plant Breeding, Mycology and Plant Diseases.

(c) Agricultural Chemistry, advanced.

(d) Stock Breeding, Feeding and Dairying.

(e) Advanced Entomology, as applied to Agriculture.

I.—AGRICULTURE, INCLUDING VETERINARY SCIENCE.

(Three Papers and Two Practical Examinations.)

First Paper.

Agricultural Statistics of India, especially of Bombay. The division of lands into arable, pasture, forest and waste.

Conditions affecting productivity.—Geographical position, Climatic nature of the plants and their effects on the soil.

Crops and their production.

(a) Choice of crops and variety as determined by climate, soil, seasons, special requirements of crops and market. Importance of leguminous crops, rotations, principles underlying rotation, fallows and mixtures.

(b) Production, selection and care of seed, steeping and fumigation. Sowing methods. Preparation for market. Storage of produce.

(c) Improvement of crops by selection of seed and other methods.

(d) Field and garden crops of the Bombay Presidency, and their requirements.

Manures and Manuring.—Objects of manures. Classification, composition, sources, action—direct and indirect, method of application, system of manuring, comparative value and cost of manures available in India. Unit values. Farmyard manure, supply, conservation and preservation. Sewage and nightsoil as manures.

Irrigation and Drainage.—Necessity of Irrigation. Sources of water. Soils suitable for irrigation. Water requirements of crops. Methods of raising water. Contrivances for raising water, their capacity and cost of working. Management of irrigated lands. Advantages of different systems of irrigation. Relation of irrigation to drainage. Necessity, advantages and methods of drainage. Control of soil moisture.

Agricultural Climatology.—Factors which determine climate. Determination of those factors. General Circulation of atmosphere. Monsoon. Precipitation and the influence of geographical position, forests, deserts, sea, mountains, etc., upon it. Temperature and the influence of latitude, altitude, forests, sea, deserts, mountains, etc., upon it. Relation of climate to nature of crops and kind of agriculture, with special application of the principles to each Indian Province and to each part of the Bombay Presidency. Famines, their relationship to climate, in general and in India. General ideas and knowledge of weather forecasting.

Second Paper.

Animal Husbandry.—Classification of domestic animals. Outlines of anatomy and physiology of the ox, buffalo, sheep, goat. Breeds of Indian cows and buffaloes; description, distribution, their merits and defects. Sheep and goats. Indian races, their merits and defects. A general knowledge of the abovenamed animals as found in Western countries.

Management of live stock. Breeding of live stock: objects, principles, and methods. Treatment of young animals, and pregnant females. Housing of live stock, especially in India. Disposal of animal dung and other refuse.

Feeding of stock. Cattle foods available in India and their relative value. Forage crops and their production. Silos and ensilage.

Dairy husbandry and dairy management.

Veterinary Science.

Signs of health and disease. Simple surgery. Treatment of simple wounds, as contusions, goring wounds. Treatment of tumours, abscesses and sores. Treatment of lameness. Common parasites and parasitic diseases.

Diagnosis and treatment of common diseases* in cattle. Diagnosis and the principles of treatment of the more deadly forms of contagious diseases.†

* These will include—aphtha, burns, catarrh, conjunctivitis, constipation, diarrhoea, dysentery, fever, foot-rot, hornia-umbilical, husk, impaction of rumen, impaction of omasum, indigestion, mange, liver rot, tympanitis.

† These will include—anthrax, epizootic aphtha, contagious pleuro-pneumonia, rinderpest, tuberculosis, hæmorrhagic septicæmia, black-quarter, bovine tick-fever, surra, glanders and farcy.

Veterinary Materia Medica. A knowledge of drugs easily available in local bazars, and such other drugs as are in daily veterinary practice. The drugs should be limited to those in use in treating common diseases of cattle.

Simple obstetrics, including the more common forms of abnormal parturition. **Treatment of the diseases of parturition.**

Castration, principles and practice.

Poisons commonly used to destroy cattle. Symptoms and treatment.
Shoeing of animals. Principles and practice.

Third Paper.

Farm Management.

Management of farms, farm accounts and farm book-keeping. Cost of cultivation and profits. Valuation of crops.

Agricultural Economics.

Production, Land.—Relation between landlord and tenant. Principles of land classification and settlements in the Bombay Presidency. Economic principles determining size of holdings. *Capital*, Supply of agricultural capital. Principles of co-operative credit. *Labour*, Wages. Factors which determine wages.

Consumption.—Demand. Market and marketing. Prices.

Elementary Agricultural Engineering.—Statics, force, simple machines, workshop appliances as applied to the construction of agricultural implements, including the transmission of power. Machines as applied to agricultural implements. Water lifts and pumping machinery.

Practical Examinations.

Each candidate must have cultivated in a satisfactory manner, during one year, with his own hands, a plot at least one-tenth of an acre in size with two crops, and must present a certificate signed by the Principal of the College to that effect.

Each candidate must have managed in a satisfactory manner, during one year, a plot at least one acre in extent and must present duly filled cultivation and labour sheets, balance sheets, and diary of operations, with a certificate signed by the Principal of the College to that effect.

Each candidate must have, during his third year, taken an agricultural tour in the Bombay Presidency and the notes taken in connection therewith must be presented to the Examiners.

Each candidate must have conducted, with others, the survey of a piece of agricultural land, at least two hundred acres in extent, and run a line of levels for a road or water channel about a mile in length, and have laid out experimental plots and gradients for irrigation channels. A plotted survey and section with the survey book and level book (certified as the work of the student by the Principal of the College) must be submitted to the Examiners.

The whole of the practical work done by each student during the four terms must be recorded in note books which must be attested by the Principal of the College and presented to the Examiners. In all cases candidates may be examined orally or practically on the work recorded in their note books.

First Practical Examination.

Recognition of crops and manures. Ability to recognize good seed and to select plants suitable for seed production. Steeping and fumigation of seed. Estimation of the weights of farm products. Estimation of the probable outturn of growing crops. Valuations.

Ability to do all the farm operations in the cultivation of crops, viz., sowing, planting, transplanting, weeding, laying out fields for irrigation, interculturing, harvesting and preparation of crops for market. Working of the different contrivances for raising water.

Practical work in carpentry and smithy as required for the ordinary repairs of agricultural implements.

Elementary surveying and levelling.

Second Practical Examination.

Determination of breeds of agricultural animals. Detection of merits and defects of individual animals.

Handling of agricultural animals, and recognition of their parts. Throwing of animals. Methods of determining age of animals.

Practical dairy work. Preparation of rations. Separating milk. Making of butter and ghee.

Treatment of sick animals, including the use of the clinical thermometer, taking pulse and respiration, nursing, drenching, bandaging, dressing wounds, dieting, application of ointments and liniments.

Treatment of wounds, tumours, and abscesses. Diagnosis and treatment of lameness.

Materia Medica—common remedies only. Making of drenches, powders, infusions, and decoctions.

II.—CHEMISTRY OF AGRICULTURE.

(One Paper and a Practical Examination.)

The Soil.—Origin of soils. Nature of soil constituents; sand, clay, chalk and humus. Methods of sampling soils. Mechanical analysis and interpretation of results. Physical characters of soils. Chemical analysis of the soils and interpretation of the results. Dormant and available plant food. Analysis of typical Indian soils. The living organisms of the soil: decay and humification of organic matter in soil. Fixation of free nitrogen by bacteria. Nitrification and de-nitrification. The power of the soil to absorb salts. Retention of manures. Causes of fertility and sterility of soils; drought, waterlogging, presence of injurious salts. The amelioration of soils.

Fertilisers.—Organic and mineral.

The Plant.—Proximate and ultimate constituents of plants. Chemical composition of seeds and stems of crops. Assimilation of food, its products and their transformations. Chemical changes during germination. Methods of analysis.

Agricultural Animals.—The chief constituents of the animal body. Relative value of food constituents to repair loss. Adaptation of food to requirements of animals under different conditions of life. Relation of food to manure.

The Dairy.—Constituents of milk and their relative amount. Composition of cream, butter and cheese. Changes in the preparation of dairy products.

Practical Examination.

Each student is to complete to the satisfaction of the college authorities the exercises to be prescribed from time to time by the Syndicate. The work done by each Candidate is to be recorded in a laboratory note book which must be attested by the Principal and presented to the Examiners. Candidates will be examined practically on the work recorded in their note books.

Course of Practical work at present prescribed by the Syndicate.

Carbohydrates.—Demonstrations of the chief properties; proof of their presence in the vegetable kingdom. Fermentation of sugars, and proof that alcohol is formed.

Oils.—Vegetable and mineral. Chief characteristics. Determination of percentage of oil in agricultural products.

Proteids.—Preparation and properties of wheat gluten, egg albumen and milk casein.

Soils.—Mechanical analysis by sedimentation. Detection of salt or alkali in soils.

Feeding stuffs.—Proof of the presence of chief constituents. Determination of fat, nitrogen, ash and fibre.

Manures.—Examination of manures for valuable ingredients. Determination of nitrogen, phosphoric acid, potash and lime.

Milk.—Use of lactometer. Determination of fat and total solids. Proof of the presence of the chief constituents.

III.—AGRICULTURAL BOTANY AND HORTICULTURE.

(One Paper and a Practical Examination.)

The main horticultural operations. Propagation, Grafting, Budding, Pruning, Transplanting. The cultivation of the chief fruit crops.

Seed testing, including recognition of the seeds of crops and of common weeds.

Ecology of plants, as shown by the distribution and characters of crops and of common weeds. The vegetation of areas with special conditions, such as lands reclaimed from the sea, salt areas, areas of heavy rainfall, areas of drought, shallow soils, waterlogged soils, areas adjacent to forest, etc.

Outlines of the principles of plant breeding for crop improvement.

Practical Examination.

The work done by each candidate in the college laboratory must be recorded in a laboratory note book which must be attested by the Principal of the College. Candidates may be examined orally or practically on the work recorded in their note books.

Description and identification of plants or parts of plants of agricultural importance.

The operations of horticulture, including propagation, grafting and budding, pruning and transplanting.

The recognition and testing of seed samples.

IV.—PLANT PESTS AND PLANT DISEASES.

(One Paper and a Practical Examination.)

Plant Diseases not caused by parasitic plants or animals.

Plant Diseases caused by animals.—Classes of animals attacking plants. Vertebrate animals (pigs, rats, and other vermin, etc.), and the damage they do. Crustacea (crabs) and other invertebrates attacking plants. Eelworms, insects and allied forms of life. Structure of a caterpillar and the chief types of winged insects. Metamorphosis of insects. Life history of insects; chief characters of the principal orders of insects. Food of insects and method of feeding.

How insects and similar animals become injurious. Natural checks. Influence of climate on the life of insects. General methods of control,—agricultural, mechanical, insecticidal. Pests of the chief crops of Western India, their life history, and control.

Insects attacking stored products, and their control.

Plant diseases caused by plant pests.—Non-fungoid diseases, their symptoms and their treatment. *Striga*, *Loranthus*, *Orobanche*, *Cuscuta*.

Recognition of fungoid diseases: their symptoms, and their treatment. White rust of Cruciferae (*Cystopus*): leaf shred of Gramineae (*Sclerospora*): downy mildews (*Plasmopara*, *Peronospora*): damping off of seedlings (*Pythium*): koleroga of betel nuts (*Phytophthora*): powdery mildews (*Erysiphaceae*): sooty moulds (*Meliola*, *Capnodium*): sugary disease of jowar (*Sphacelia*): green or false smut of rice (*Ustilaginoidea*): smuts and bunts (*Ustilagineae*, *Tilletiaceae*): rust (*Uredineae*): wound parasites (*Fomes*): leaf spots (*Phyllosticta*, *Septogloeum*, *Cercospora*, *Pestalotzia*, *Macrosporium*): red rot of sugar cane (*Colletotrichum*): anthracnose (*Glaesporium*, *Colletotrichum*): wilts (*Fusarium*, *Cephalosporium*, *Rhizoctonia*, *Bacteria*).

Practical Examination.

The candidate must present to the examiners a collection of injurious insects made by himself, and also a note book containing an account of the practical work done in connection with this course, both collection and note book being attested by the Principal of the College. Candidates may be examined orally or practically on the work recorded in their note books.

Identification of insect pests (in the field) by the nature of their damage to crops. Recognition of insects of agricultural importance.

Recognition of the plant diseases caused by fungoid and non-fungoid plants mentioned in the above syllabus.

The practical application of remedial measures against plant pests and plant diseases, including a knowledge of the construction of the apparatus used and of the composition of chemical remedies.

V.—OPTIONAL SUBJECT.

(Three Papers and a Practical Examination).

A.—AGRICULTURAL ECONOMICS, LAND DEVELOPMENT AND INTENSIVE FARMING.

(First Paper.)

Agricultural Economics.—(a) Production: Land. Various systems of tenure: nature and advantages. Tenures in India. System adopted in the Bombay Presidency. Relations between landlord and tenant. Elements of Land Revenue Code, Chapters V, VI, VII and VIII. Principles of Land classification and settlement in the Bombay Presidency.

(b) Distribution and nature of land, economic principles determining size of holdings, nature of the holdings, the size of the holdings. Sub-letting and rents, difficulties in the way of developing lands, common grazing lands.

(c) Capital: Fixed and circulating capital. Uses to which farmers' capital is put; relation of capital to profits; relation of capital to type of farming; supply of agricultural capital. Principles of co-operative credit, the organization of credit, Agricultural Banks and Co-operative Credit Societies.

(d) Labour: History of labour supply in Europe and India. Labour power: its factors. Efficiency of individual labourer, organization of industry. Division of labour and its advantages. Agricultural labour—manual labour—team labour, temporary and permanent labour, their chief advantages. Labour supply—hired labour and wages. Factors on which the rates of wages depend. Kinds of wages; time wages; task or piece wages; contract wages.

(e) System of payment: payment in kind or money; connection between prices and wages; current wages distinguished from normal wages.

(f) Consumption.—Demand. Markets and Marketing, prices.

(Second Paper.)

Land Development.—Conditions suitable for land development. Levelling, Embanking, Silt-catching, Draining, Well-boring. Construction of simple farm buildings, water channels, and fencing. The application of agricultural machinery, including the management of the simpler oil engines, pumps, cane crushers, chaff cutters, etc. Cost and value of improvements.

(Third Paper.)

Intensive Farming.—Conditions suitable for intensive farming. Detailed knowledge of the growing and treatment of the more valuable intensively cultivated (including garden) crops, including sugarcane, turmeric, potatoes, chillies, betel leaf, fruit crops, table vegetables.

Practical Examination.

The candidates will be expected to show a thorough practical acquaintance with the designing and carrying out of the land development works mentioned above, with the working and repair of agricultural machinery, with the driving of simple oil engines and the detection of causes of break-

down and the repair of simpler cases. In addition, they will be expected to have a thorough and practical acquaintance with the operations of horticulture and garden culture generally.

B.—ADVANCED APPLIED BOTANY.

(First Paper.)

Plant Breeding.

(a) Variations: fluctuating variations and mutations, their causes and heritability.

(b) Acquired characters: their causes and heritability.

(c) Selection: theory and practice. Pure line culture.

(d) Hybridisation: theory and practice. The work of Mendel and his followers.

(e) Special crops: the breeding of cereals, pulses, fibre plants, fruit trees, vegetables and other plants of economic value. The breeding of ornamental plants.

(f) Technique: Methods of starting pure cultures. The study of pollination methods. The prevention of cross fertilisation. The harvesting and preserving of seeds of plants. The recording of breeding work. The hybridisation of different types of flowers.

(Second Paper.)

Mycology.

(a) Morphology of Fungi: Comparison of fungi with other groups of the vegetable kingdom; morphology of vegetative parts; forms of sporophores and spores; sclerotia and rhizomorphs.

(b) Histology of Fungi: The cell and cell contents.

(c) Physiology of Fungi: Life habits of fungi—different substrata in which fungi live; parasitism and saprophytism, symbiosis and nutrition; mode of attack of parasites; the food of fungi; physiology of reproduction, reproduction by spores and vegetative reproduction; liberation and dispersal of spores; the influence of food on the formation of spores; polymorphism; "biologic forms." Fungi as disease-causing organisms. Epidemics and conditions favouring them.

(d) Classification: General characters of the main classes, Phycomycetes, Ascomycetes, Basidiomycetes, Deuteromycetes, and detailed study of the following orders and genera:—

(1) *Phycomycetes*—

Orders: Chytridiaceæ, Peronosporaceæ and Mucorinæ.

Genera: Synchytrium; Pythium; Phytophthora; Cystopus; Sclerospora; Bremia; Plasmopara; Peronospora; Mucor; Rhizopus; Chætophora; Pilobolus.

(2) *Ascomycetes*—

Orders : Protomycetaceæ ; Saccharomycetaceæ ; Gymnoasci ; Pyrenomycetaceæ ; Discomycetaceæ.

Genera : Protomyces ; Saccharomyces ; Zygosaccharomyces ; Schizosaccharomyces ; Exoascus ; Taphrina ; Sphærotheca ; Podosphæra ; Eurotium ; Microsphæra ; Erysiphe ; Phyllactinia ; Penicillium ; Meliola ; Capnodium ; Neocosmospora ; Nectria ; Balansia ; Ustilaginoides ; Claviceps ; Phyllachora ; Asterina ; Morchella ; Helvella ; Pseudopeziza ; Sclerotinia ; Ascobolus.

(3) *Basidiomycetes*—

Orders : Ustilagineæ ; Tilletiaceæ ; Uredinæ ; Exobasidiæ ; Polyporaceæ ; Agaricineæ ; Gasteromycetaceæ.

Genera : Ustilago ; Cintractia ; Polyposporium ; Tilletia ; Urocystis ; Uromyces ; Puccinia ; Melampsora ; Hemileia ; Exobasidium ; Polyporus ; Fomes ; Trametes ; Armillaria.

(4) *Deuteromycetes*—

Orders : Sphæropsiæ ; Melanconiaceæ ; Hyphomycetaceæ.

Genera : Phyllosticta ; Phoma ; Macrophoma ; Sphæroneuma ; Cytospora ; Diplodia ; Lasiodiplodia ; Ephelis ; Gloeosporium ; Colletotrichum ; Septogloeum ; Pestalozzia ; Cephalosporium ; Ramularia ; Thielaviopsis ; Cladosporium ; Halminthosporium ; Cercospora ; Macrosporium ; Alternaria ; Polydesmus ; Exosporium ; Fusarium ; Rhizoctonia.

(e) *Methods of Investigation of Diseases.*—Isolation and pure cultures of Fungi and Bacteria ; Principles and methods of sterilisation ; Preparation of culture media ; Technique of fixing ; Imbedding and staining ; germination studies ; Artificial infection.

(Third Paper.)

Horticulture.—(In the study of this subject special attention will be given to the application of botanical knowledge to the elucidation of practical problems).

(a) Study of the following fruit plants with reference to their morphology, anatomy, physiology, varieties, diseases and cultivation :—

Mango, banana, guava, papaya, citrus, pomægranate, grape, chiku, fig.

(b) The principles and practice of artistic garden planning. The chief ornamental plants available in the Bombay Presidency, their varieties and culture.

Practical Examination.

A. Plant Breeding.—Each candidate must have carried out, during two years, practically, the following operations :—the methods of selection and isolation of a type, the hybridisation of plants and study of their progeny, the recognition and description of variations. He must be able to carry out, at the Examination, so far as time allows, any of the methods requisite for such operations.

B. Mycology.—Microscopic examination and identification of the genera mentioned ; the methods employed in the artificial culture of fungi.

C. Horticulture.—Recognition and description of species and varieties of fruit trees and their fruits, and of ornamental plants. Investigation in field and laboratory of practical problems in connection with these. Planning gardens.

C.—ADVANCED AGRICULTURAL CHEMISTRY.

(First Paper.)

The Soil.—A thorough study of the methods of formation of soils, their physical characters, the relation of these physical characters to the growth of plants. The constituents of soils, their determination, their condition, their importance. Chemical analysis of the soil ; determination of total and available plant food. Injurious constituents of soil, their detection and examination. The living organisms of the soil, and their behaviour. Improvement of soils.

(Second Paper.)

Plant Chemistry and Plant Nutrition.—Thorough study of plant chemistry and physiology and the production and utilisation of the constituents of plant products.

Manures.—Source of manures, their action and value. Thorough discussion of the character of the manures available, their preservation, their manufacture, their analysis.

(Third Paper.)

Animal Chemistry.—This will include a thorough study of the principles of feeding, of the value of different rations under different conditions, of the methods of examination of foods, the detection of the common poisons. Relation of food to manure.

Dairy Chemistry.—A thorough study of milk and its products and the changes which take place during dairy operations. General knowledge of milk bacteria, both good and bad, and their control.

Practical Examination.

The practical examination of soils, farm waters, manures, foods, plant products, milk, butter and other dairy products. The investigation of injurious foods. The examination of infertile soils. A good knowledge will be required of the operations usually carried on in the laboratory of an agricultural chemist.

D.—STOCK BREEDING, FEEDING, AND MANAGEMENT, INCLUDING DAIFFING.

(First Paper.)

Agricultural Animals, their characters and breeding.—Cattle. Comparison of European breeds with reference to purposes for which they have been bred and causes which have led to their present points of excellence. Indian cattle compared with European. Indian breeds, their merits and defects. Average weight. Tractive force as shown by the dynamometer in case of work cattle.

Buffaloes.—Races found in India : description and distribution : their merits and defects.

Sheep.—European breeds : purposes for which they are bred. History of their development. Indian races : their merits and defects.

Goats.—Indian races : their merits and defects. Indian breeds compared with European.

Horses.—Arabs. History of their development. European breeds : purposes for which they are bred. History of the development of the principal types. Indian races : their merits and defects.

Poultry.—Breeds, Indian and foreign : their characters and advantages.

Breeding of stock.—General principles of breeding. Care of breeding males. Mating. Care of pregnant females. Management during parturition. Treatment of young animals. Castration : its value. The time for it, its influence upon the development of the animal.

(*Second Paper.*)

Management of Stock in Health and Disease.

(a) Housing of stock. Housing requirements in India : their situation and construction. Drainage of cattle byres. Location and construction of manure pits.

(b) Feeding of stock.—Principles of stock feeding. Composition of food. Nutrient requirements for working, dairy and growing animals. Digestibility. Digestion coefficients. Rations. Feeding standards. Cattle food available in India. Forage crops : their proper harvesting and preserving to give the greatest feeding value.

(c) Feeding and management of poultry.

(d) Treatment of stock in disease. More thorough knowledge and practice, but similar to scope required under Agriculture Paper 2, Part 2, and also including the diseases of fowls.

(*Third Paper.*)

Dairying.

(a) Dairying in India and abroad. Selection of dairy farm. Equipment and management of a dairy and a dairy farm.

(b) Anatomy of udder. Physiology of milk secretion. Milk and its products. Nature and general composition. Conditions exerting an influence on the quality and quantity of milk. Comparison of milk of Indian cows, European cows, buffaloes and goats. Yield of average animals of various breeds. Conditions required to produce wholesome and sanitary milk. Milking : milking machines. Contamination of milk, sources and prevention. Testing milk.

(c) Treatment of milk, straining, cooling, pasteurising, sterilising and marketing. Use of hygienic milk jugs and bottles. Cooling the dairy. Care of milk vessels. Creaming and separation of milk. Pasteurisation of cream, flavours.

(d) Milk Products.—Churning : principles involved in churning. Butter and curd-making and marketing. Grating and judging butter. Butter-testing. Ghee-making and marketing. Condensed milk. Milk powder. By-products of the dairy,—skim milk, butter milk, their food value.

(e) Dairy chemistry.—A thorough study of milk and its products and the changes which take place during dairy operations.

Practical Examination.

Each candidate must have had the care of animals and must present a diary, recording the feeds, work, or milk of the animals under his charge, attested by the Principal of the College.

Determination of breeds. Detection of merits and defects of individual animals. Handling of dairy animals. Milking of animals. Rations and making them up. Separating, churning, butter-making. Testing of milk and milk products.

Feeding and handling of poultry. Making of rations. Use of incubators. Testing of eggs.

E.—ADVANCED AGRICULTURAL ENTOMOLOGY.

(First Paper.)

The morphology, anatomy, and physiology of insects and allied animals which have or are likely to have agricultural importance.

Classification of insects and the principles on which it is based. Habits of typical insects of the various families.

(Second Paper.)

The life history of insects and allied animals, especially of such as have agricultural importance.

Bees, Silks, Lac and other insects producing valuable commercial products.

(Third Paper.)

The detailed history and present position of the methods of control of injurious insects. The machinery employed in the control of insects. Insecticides, their preparation and manner of action.

Literature of such Indian insects and allied animals as are pests. The prevalence and importance of each of the pests in various parts of India.

Practical Examination.

The student should present a note book of his laboratory and field work attested by the Principal of the College, and may be examined practically or orally on the work recorded therein. He should also present, in the same way, a thorough study by himself of one insect pest from every point of view. A student must have made a special study of one special family of insects, its classification into genera and species, and special methods of investigation with regard to it, and must present full notes on the subject.

Identification of insects into families. Discovery of causes of plant attack. Preparation and carrying out of schemes against insect pests. Management of valuable insects (silk, lac, etc.) and their products.

59. All candidates in the Examination for the Degree of Bachelor of Agriculture, must obtain, in order to pass, forty-five per cent. of the total number of marks obtainable; forty per cent. of the marks obtainable in Agriculture, Agricultural Chemistry and the Optional subjects; and thirty-three per cent. in the remaining subjects. Candidates who obtain sixty-six per cent. of the total will be placed in the first class.

60. A candidate who has obtained 50 per cent. of the total marks obtainable in Agriculture, Agricultural Chemistry or the optional subject, or who has obtained 44 per cent. of the total marks in any of the remaining subjects may, at his option, be exempted from appearing in that subject at a subsequent examination and will be declared to have passed the whole examination when he has passed in all the subjects of the examination; provided that in the subject or subjects in which he appears on the last occasion he must obtain the minima in each subject together with the percentage of the total marks in that subject or subjects required by Regulation 59. Candidates passing the examination in this manner in compartments will not be eligible for a class or for any prize or scholarship to be awarded at the examination.

61. Candidates who fall short of the minimum required to pass under one head by not more than three per cent. and who obtain an aggregate of at least 55 per cent. of the total marks obtainable shall, on the recommendation of a majority of not less than two-thirds of the Examiners present at the final meeting, be declared to have passed the Examination.

62. As soon as practicable after the conclusion of the examination, the Examiners will publish a list of successful candidates arranged in two classes, the names in each class being arranged in order of merit.

SCHEDULE OF EXAMINATIONS.

INTERMEDIATE EXAMINATION.

Subjects.			Papers.		Practical Examination.		Total.
			Number.	Marks.	Number.	Marks.	Marks.
Agriculture	2	200	1	100	300
Chemistry	2	200	1	100	300
Botany	1	100	1	100	200
Mathematics and Physics	..		1	100	1	50	150
Total	...		6	600	4	350	950

EXAMINATION FOR THE DEGREE.

Subjects.	Papers.		Practical Examination.		Total.
	Number.	Marks.	Number.	Marks.	Marks.
Agriculture, &c.	3	300	2	200	500
Chemistry	1	100	1	100	200

Plant Pests and Plant Diseases	1	100	1	50	150
Optional Subject	3	300	1	100	400
Total	9	900	6	550	1,450

MASTER IN AGRICULTURE.

63. Each candidate for the Degree of Master in Agriculture must be a graduate in Agriculture of this University of not less than three years' standing, and must have been engaged in the practice of agriculture or of work or research in connection with agriculture, for a period of at least three years after receiving the Degree of Bachelor or Licentiate of Agriculture.

64. Each candidate must submit, with due authentication, before December 31st, in any year, a full report of work or research of an original character in the agricultural field, together with copies of any publications which he has made subsequent to his graduation. This report, with any documents accompanying it, will be submitted to Examiners appointed by the Syndicate, who shall consider whether it represents a definite contribution to knowledge in the agricultural field sufficient to warrant the conferring of the Degree. The Examiners shall have the option of calling the candidate and examining him orally in connection with the work which he presents for their consideration.

65. Each candidate must pay to the Registrar a fee of Rs. 100 for which a receipt will be given.

66. The names of any successful candidates will be published by the Examiners not later than April 1st, in each year.

67. A certificate will be given to those who pass the Examination (*Vide* Form 29).

BACHELOR OF ENGINEERING (CIVIL, MECHANICAL, OR ELECTRICAL).

68. A Candidate for the Degree of Bachelor of Engineering must produce a certificate (*vide* form 6), signed by the Principal of an affiliated Arts College, to the effect that he has satisfactorily carried out at such College the work appointed by the University for the first year after Matriculation, or have passed the Previous Examination of this University.

69. A Candidate will be required to pass three Examinations: the first, to be called the First Examination in Engineering; the second, the Second Examination in Engineering (Civil, Mechanical, or Electrical); and the third, the Examination for the Degree of Bachelor of Engineering (Civil Mechanical, or Electrical).

FIRST EXAMINATION IN ENGINEERING.

70. The First Examination in Engineering will be held annually in Poona or such other place as the Syndicate may appoint, commencing on the third Monday in March.

71. No Candidate will be admitted to this Examination unless he produces satisfactory testimonials of having kept two terms in a School or College recognized in Engineering by the University of Bombay.

72. Candidates must apply to the Registrar three weeks before the examination. (*Vide* Form 30.)

73. Each candidate must pay to the Registrar, through the Principal of his College, or otherwise as the Syndicate may direct, a fee of Rs. 30, for which a receipt will be given.

74. Failure to pass the Examination will not disqualify the candidate for presenting himself at any subsequent First Examination on a new application being forwarded and a fresh fee paid.

75. Candidates will be examined in subjects I, II, III, IV and V specified below. As regards subject VI, Practical Carpentry, there will be no University examination therein. Each Candidate must, however, produce a certificate from the Principal of his College that he has satisfactorily completed the course prescribed in that subject in the College Workshops.

I.—Mathematics.
II.—Drawing.
III.—Physics.

IV.—Chemistry.
V.—Engineering.
VI.—Practical Carpentry.

I.—MATHEMATICS. (One Paper.)

Plane Trigonometry and Calculus.

(1) *Plane Trigonometry*.—Different systems of angular measurements, trigonometrical ratios, elementary trigonometrical formulæ, trigonometrical solution of triangles with numerical examples involving the use of logarithmic and other tables, heights and distances, inverse notation and the construction and use of slide-rule; with easy examples.

The scope of the above course and the character of the problems to be set are defined by the Text Book recommended by the Syndicate.

Text Book recommended :—Borchardt and Perrott's Trigonometry, Chapters I—XIII, XVIII, and Appendix II.

(2) *Elements of Calculus*.—Fundamental differential co-efficients, differentiation of products and quotients, gradient of curves, differentiation of simple functions of one variable, maxima and minima of a function of one variable; integration as the reverse of differentiation, also as the limiting form of summation; with easy examples.

The scope of the course and the character of the problems to be set are defined by the Text Book recommended by the Syndicate.

Text Book recommended :—Gibson's Introduction to the Calculus, Chapters I—V, VII, Art. 33.

II.—DRAWING. (One Paper.)

(Four hours to be allowed for the work.)

(1) *Freehand and Model Drawing*.—Drawing from flat examples in outline, ornamental figures; drawing in outline from solid objects such as cube, cylinder, cone and Indian pots in simple positions.

Printing; construction of ordinary, diagonal, and vernier scales.

(2) *Practical Plane Geometry*.—Problems on straight lines and circles; drawing of curves, ellipse, parabola, hyperbola, cycloid, etc., from equations and from geometrical properties.

(3) *Practical Solid Geometry*.—Orthographic projection of solids in simple positions; sphere, cylinder, cone, pyramid.

(4) *Isometric Projection*.—Of carpentry joints, and combinations of simple objects used in model drawing—cube, prism, cone, cylinder, sphere. Isometric scale.

(5) *Perspective*.—Definitions and terms used; principles and their application to the representation of a cube, cone, cylinder, cross, building.

III.—EXPERIMENTAL PHYSICS. (Two Papers and Practical.)

(Candidates will be expected to work simple numerical problems illustrating the principles involved.)

Paper I.—*Mechanical Energy*.

Length, Area, Volume, Mass, Density, Time, C. G. S. system of units.

Uniform, Uniformly accelerated and Simple Harmonic motions and combinations of these.

Parallelogram of Velocities. Relative Velocity. Angular Velocity. Parallelogram of Accelerations.

Motion under Gravity. The Laws of Motion Atwood's Machine.

Work. Power or Activity. Horse Power. Energy of Gravitational Separation or Potential Energy. Energy of Motion or Kinetic Energy. Transformation of Energy. Conservation of Energy.

The Pulley, Lever, Inclined Plane, Wheel and Axle, Screw and Pendulum as illustrating the Law of Conservation of Energy.

Impulse. Projectiles. Direct Collision of Elastic Bodies.

The Hodograph. Uniform Circular Motion.

Moment of Inertia. Acceleration and Kinetic Energy of a Rotating Body.

Composition and Resolution of Forces. Equilibrium of a Particle acted upon by a system of forces in one plane.

Parallel Forces. Moments, Couples.

General conditions of equilibrium of a Rigid Body acted on by a system of forces in one plane.

Centre of Gravity. Stable and Unstable Equilibrium. The Common balance, the Steelyard.

Friction. Work against Friction.

Tension of elastic strings. Elastic Energy. Storage of Energy in Springs.

Stretching. Bending. Torsion.

Cohesion in Solids. General properties of Solids.

Elastic properties of Gases.

Conversion of Energy of Compressed Air into Mechanical Energy.

Rate of Efflux of Liquids determined by Energy relations.

Storage of Energy in High Reservoirs of Water.

Water-Wheels. Turbines.

Paper II.—*Heat, Sound and Light Energy.*

Heat Energy.

Heat produced by Friction.

Heat measured in mechanical units or special heat units.

Expansion of Solids, Liquids and Gases by addition of Heat Energy, with practical examples.

Temperature. Thermometers, Maximum and Minimum Thermometers, Gas Thermometers.

Co-efficients of Expansion of Solids, Liquids (real and apparent) and of Gases. Variation of Density with Temperature. Maximum Density of Water.

Kinetic Theory of Gases, Boyle's Law, Avogadro's Hypothesis.

Change of Pressure with Temperature at constant volume.

Absolute Scale of Temperature.

Determination of Density of Gases.

Measurement of Heat Energy.

The Calorie, Specific Heat, Calorimeters, Method of Mixture, Ice Calorimeters.

Movement of Heat Energy. Conduction in Solids, Liquids and Gases. Convection in Liquids and Gases.

Wind, Land and Sea Breezes and Trade Winds.

Change of state, Fusion and Solidification, Solution.

Energy of Fusion. Change of Volume during Fusion. Freezing Mixtures.

Evaporation, Factors influencing its rapidity.

Tension of Vapours. Saturated and unsaturated Vapours. Tension in Communicating Vessels.

Boiling, influence of Pressure. Boiling and Evaporation explained by the Kinetic Theory. Energy of Vaporisation.

Cold due to Evaporation, Cryophorus, Ice machines. Liquefaction of Vapours, Distillation. Spheroidal state. Density of Steam.

Hygrometry. Dew point. Hygrometers.

Sources of Energy.

Solar Radiation, Tides, Terrestrial Heat.

Conversion of Radiant Energy from the Sun into Energy of Chemical Separation by green plants, and also into Wind and Water Power.

Production of Heat Energy from Mechanical Energy by Friction, Compression and Percussion; from Radiant Energy by Absorption; from Energy of Chemical Separation by Chemical Union; from Electrical Energy by the passage of a Current through a Resistance.

Mechanical Energy obtained from Heat Energy in Heat Engines.

Mechanical Equivalent of Heat.

Cooling by the Expansion of Gases.

Production of Cloud and Rain by rising currents of Moist Air.

Sound Energy.

Sound and Noise. Cause of Sound. Propagation of Sound. Velocity, Reflection, Echoes.

Intensity, Vibration-frequency, Wave length, Pitch and Quality of Sounds.

Interference, beats.

Radiant Energy.

Transformation of Heat Energy into Radiant Energy.

Nature of Radiant Energy. The Wave Theory.

Laws of Propagation of Radiant Energy.

Light Energy.

Images produced by Small Apertures.

Photometers Rumford's and Bunsen's.

Laws of Reflection. Images formed by Plane Mirrors.

Reflection at Spherical Surfaces, Foci and Formation of Images.

Laws of Refraction. Index of Refraction, Total Reflection, Critical Angle. Parallel sided transparent Sheets.

Prisms, Minimum Deviation, Conditions of Emergence.

Spherical Lenses, Foci and Formation of Images.

Decomposition of White Light.

Continuous and Bright Line Spectra and the method of producing them with a Prism.

Chromatic Aberration. Achromatic Lenses.

Microscope, Telescope. Structure and Accommodation of a Normal Eye.

Text Books to be recommended from time to time by the Syndicate.

*Text Books at present recommended:—*Watson's Physics and Loney's "Mechanics and Hydrostatics."

Practical.

Each candidate must produce a certificate from the Principal of his College that he has completed in a satisfactory manner a practical course on the lines

laid down from time to time by the Syndicate and handed in a note-book containing a full record of his work.

Each candidate shall be examined practically on the work recorded in his note book.

Course of Practical Work at present prescribed by the Syndicate.

- (1) The use of vernier callipers for measuring regular solids and obtaining their volumes and the areas of their surfaces.
- (2) The use of the screw micrometer and wire gauge.
- (3) Spherometer, measurement of thickness and of curvature.
- (4) Volume of irregular solids by displacement of water in a graduated vessel. Density.
- (5) Use of the balance.
- (6) Jolly spring balance, determination of the relation between weight and deflection. Methods of weighing.
- (7) Accelerated motion. Ball running down an inclined plane and on to a level track.
- (8) Study of a slow simple harmonic motion.
- (9) Simple pendulum, verification of simple laws including $t \propto \sqrt{l}$.
- (10) Equilibrium on an inclined plane. Verification of the law of conservation of energy with the inclined plane.
- (11) Co-efficient of friction by means of an inclined plane and determination of the efficiency of the machine.
- (12) Measurement with pulleys and levers of the potential energy lost and gained when a given movement takes place. Efficiency of pulleys.
- (13) The same as No. 12 with the wheel and axle. Efficiency.
- (14) Verification of fixed points on a thermometer.
- (15) Construction of a water thermometer, and graduation by comparison with a mercury thermometer.
- (16) Weekly reading of thermometer, barometer, maximum and minimum thermometers and the wet bulb thermometer throughout the College terms. Construction of curves.
- (17) Expansion of a gas at constant pressure.
- (18) Specific heat, simple method of mixture.
- (19) Energy of fusion of ice.
- (20) Energy of vaporisation of water.
- (21) Dew point.
- (22) Velocity of sound in a tube by resonance with a fork.
- (23) Vibration-frequency of a fork by determination of the difference of path producing interference.
- (24) Use of Rumford's photometer.
- (25) Use of Bunsen's photometer.
- (26) Verification of laws of reflection in plane mirrors.
- (27) Focal length of concave mirrors.
- (28) Determination of refractive index by tracing the paths of different rays through a block of glass.
- (29) Determination of refractive index by tracing the path of a ray through a prism.
- (30) Focal length of convex lenses by elementary methods.
- (31) " " " (Bessel's method).
- (32) Arrangement of two lenses to make simple forms of telescope and microscope.

(33) Arrangement of slit, lens and prism to get a pure spectrum, and measurement of angle of deviation.

(34) Use of Atwood's machine to measure "g."

(35) The efficiency of the screw used as a machine for raising weights.

(36) The stretching of a wire. Determination of Young's modulus.

(37) The bending of a rod supported at both ends. Determination of Young's modulus.

(38) Verification of the laws of Torsion by the statical method.

At least twenty of the above exercises are to be carried out satisfactorily by each candidate.

Candidates are not to submit experiments which they have already worked at School, or in the first year's course of an Arts College.

IV.—INORGANIC CHEMISTRY. (One Paper and Practical.)

The character of physical and chemical changes including solution, distillation, crystallisation, thermal dissociation, combustion, neutralization, electrolysis, the conditions which influence and determine them, and the attendant, phenomena.

Symbols, formulæ, equations and Chemical Calculations.

Oxides, their formation and classification.

The formation and decomposition of Salts.

Oxidation and reduction.

The general laws of Gases; Molecular formulæ and Molecular weights; Atoms and Molecules; Atomic hypothesis; Avogadro's hypothesis; experimental determination of the density of gases and vapours; methods and means for the determination of Atomic weights; Gas mixtures; diffusion of gases.

The atmosphere.

Oxygen; preparation and properties.

Water; natural waters, temporary and permanent hardness, methods of softening on the large scale; Water of Crystallisation, efflorescence, deliquescence.

Hydrogen; preparation and properties.

Carbon; varieties of Carbon; Carbon dioxide, the Carbonates, tests for Carbonates; Carbon Monoxide, producer gas and water gas; Calcium Carbide and Acetylene.

Silicon; Silica and the Silicates; glass, pottery, bricks.

Nitrogen; Ammonia; Oxides of Nitrogen; Nitrous Acid and the Nitrites; Nitric Acid and the Nitrates.

Chlorine; *Bromine and Iodine*; Hydrochloric Acid and the Chlorides, tests for the Chlorides; bleaching powder and bleaching solutions; Potassium Chlorate. Hydrobromic and Hydriodic Acids. The family of the Halogen Elements.

Sulphur; Sulphur dioxide and Sulphur trioxide; Sulphuric acid and the Sulphates, tests for Sulphates; Sulphuretted hydrogen, and the Sulphides; Carbon disulphide. The Oxygen-sulphur family.

Phosphorus; Phosphorus pentoxide, phosphoric acid and the phosphates, phosphine; the Nitrogen-phosphorus family.

Silver and Copper and their Compounds including silver nitrate, oxide hydroxide, chloride, bromide and iodide; cupric sulphate, nitrate, chloride, oxide, hydroxide, sulphide; cuprous chloride, oxide, sulphide; basic carbonates of copper.

Mercury and Zinc and their Compounds including mercuric sulphate, chloride, nitrate, oxide, hydroxide, sulphide; mercurous nitrate, chloride, oxide; zinc sulphate, hydroxide, oxide, chloride, sulphide, carbonate.

Borax and *Boric acid*. *Aluminium* and its Compounds including aluminium sulphate and the alums, aluminium oxide, hydroxide, sodium aluminate; china clay; the action of aluminium on certain metallic oxides (Goldschmidt's process).

Tin and Lead and their Compounds including stannic chloride, sulphide, oxide; stannic and metastannic acids; stannous chloride, sulphide; lead nitrate, acetate, hydroxide, oxides, sulphide; red lead and white lead.

The rusting of tin plate and of galvanized iron.

The Carbon-silicon-tin-lead family.

Chromium; Chromates and dichromates, chromium oxide.

Manganese; oxides of manganese and permanganates.

Iron; cast iron, steel and wrought iron. Oxides of iron. Ferric chloride, sulphate, hydroxide; ferrous sulphate, chloride, hydroxide.

Magnesium; magnesium sulphate, oxide and carbonate.

The Compounds of Calcium and Barium, including calcium sulphate, phosphate, chloride, hydroxide, oxide, carbonate and carbide; barium carbonate, chloride, sulphate, hydroxide and oxides.

Sodium and Potassium and their Compounds, including sodium chloride, sulphate, carbonates, hydroxide, nitrate; potassium chloride, sulphate, carbonates, hydroxide, nitrate, chlorate.

Ammonium Salts, including ammonium sulphate, nitrate, chloride, carbonates and hydroxide.

Text Books to be recommended from time to time by the Syndicate.

Text Books at present recommended:—Walker's Elementary Inorganic Chemistry, supplemented by Roscoe and Harden's Inorganic Chemistry for Advanced Students.

Practical.

Each candidate must produce a certificate from the Principal of his College that he has completed in a satisfactory manner a practical course on the lines laid down from time to time by the Syndicate and handed in a note-book containing a full record of his work.

Each candidate shall be examined practically on the work recorded in his note-book.

Course of Practical Work at present prescribed by the Syndicate.

1. The cutting and bending of glass tubing. The preparation of simple apparatus involving the use of corks and tubes, *e. g.*, gas generating tubes and flasks, wash bottles.

2. Preparation of distilled water.

3. Solubility of sand, gypsum and common salt in water.

Determination of a solubility curve for potassium chlorate. Each member of the class to find the solubility at some definite temperature. The curve to be the joint work of the class.

4. Observation of the effect of heating sulphur, carbon, magnesium, iron, zinc, copper, aluminium, lead, in air.

Determination of the change in weight when iron filings rust.

Determination of the change in weight on heating a known weight of magnesium in air.

5. Neutralization and salt formation; preparation of sodium chloride, potassium sulphate, potassium nitrate; preparation of barium sulphate, lead chromate, zinc sulphide by precipitation; preparation of lead nitrate from litharge; zinc sulphate from zinc; magnesium sulphate from magnesium carbonate. Quantities of material and yield to be measured.

6. Decomposition of salts on heating: the qualitative and quantitative results of heating lead nitrate, calcium carbonate, slaked lime, red lead.

7. Preparation of oxygen on a small scale from potassium chlorate and manganese dioxide; properties of the gas.

Determination of the percentage weight of oxygen given off on heating potassium chlorate and the calculation of the approximate molecular weight of oxygen from the volume of oxygen collected.

8. Determination of the volume of hydrogen evolved when equal weights of different metals are dissolved in hydrochloric acid, and the equivalent weights of the metals magnesium, zinc, aluminium.

9. Oxidation and reduction: action of potassium chlorate, potassium nitrate, potassium permanganate solution and chlorine water.

The effect of heating metallic oxides with carbon.

The action of stannous chloride solution on mercuric and ferric salts.

10. Investigation of the action of hydrochloric acid, sulphuric acid, sulphuretted hydrogen, ammonium sulphide, caustic soda, ammonia solution, sodium carbonate, potassium chromate on known solutions of salts of silver, lead, copper, mercury, zinc, aluminium, manganese, barium, calcium, magnesium, ammonium.

11. The testing of water for the presence of sodium chloride, ammonia, nitrates and nitrites, lead, copper and the determination of hardness by Clark's soap test.

12. The determination of moisture, carbon and ash in samples of coal.

13. The use (not preparation) of standard and normal solutions: simple acidimetry and alkalimetry determinations; the estimation of total iron in iron ores by means of decinormal potassium dichromate or potassium permanganate solution; the estimation of chlorides by decinormal silver nitrate solution.

N. B.—Each candidate is required to have performed satisfactorily some portion at least of each of the above exercises.

V.—ENGINEERING. (One Paper.)

Materials of Construction.

(a) *Classification of the Materials of Construction.*—Solid materials—Stone, Brick, Wood, Metals. Cementing Materials—Mortars, Cements, Mastics, Glue. Protecting Materials—Plasters, Paints, Solutions of Salts, Bituminous substances.

(b) *Of the Structure and Chemical Constituents of Natural Stone.*—Structural characters of rocks. The unstratified rocks; stratified rocks. Characteristics of laminated structure, compact crystalline structure, slaty structure, granular crystalline structure, compact granular structure, porous granular structure, conglomerate structure. Characteristics of various fractures.

Chemical constituents of stones—Silica, Alumina, Lime, Magnesia, Potash, Soda, Carbonic Acid.

The predominant minerals of stones—Quartz, Felspar, Hornblende, Augite, Mica, Chlorite, Carbonate of Lime, Dolomite.

(c) *Classification of Building stones—Their characteristic qualities.*—Silicious stones, Granite and Syenite, Gneiss and Mica slate, Greenstone, Trap and Basalt, Tale, Chlorite slate, Soapstone, Quartz rock, Hornstone, Flint, Hornblende slate, Sandstone, Silicious sandstone, Calciferous sandstone. Argillaceous stones—Porphyry, Clay slate.

Calcareous Stones—Marble, Compact limestone, Granular limestone, Magnesian limestone or Dolomite.

Strength and Durability of Stones—Testing durability of stone.

Preservation of Stones—Bituminous matters. Drying oil, Silicate of Potash, Silicate of limes, Artificial stones.

(d) *Quarrying Stones.*—Mode of conducting quarrying operations in India—Blasting.

(e) *Bricks*.—Characteristic qualities of clay for bricks. Porcelain clay or Kaolin. Summary of the processes of brick-making. Characteristic qualities of good bricks.

Selection of brick earths. Pure clays. Marls, Loams. Fire-clays. Baked bricks distinguished from burnt or vitrified bricks. Colours of bricks. Yellow bricks. White bricks. Red bricks. Blue bricks.

Preparation of brick earths. Tempering the brick earth—By spade labour and treading. By grinding between rollers. By grinding in a pug mill or pugging.

Moulding bricks—Slop moulding. Sand moulding. Moulding bricks for ornamental purposes. Sizes and shapes of bricks. Drying bricks. Burning bricks. In clamps. In kilns.

(f) *Cementing Materials—Limes—Cements—Mortars—Concretes—Plasters*.—Classification and Characteristics of limes. Rich limes, poor limes, slightly hydraulic limes, eminently hydraulic limes.

Varieties of limestone suitable for mortars and cements. Chalk limestone used in India. Tufa. Limestone boulders. Kankar. Testing limestone. Lime should be used fresh. Proportions of gravel and sand. Natural hydraulic limes. Artificial hydraulic mortars. Puzzolanas, natural and artificial.

Strength of mortars. Adhesion of mortars. Lime burning. Lime kilns. Intermittent kilns. Perpetual kilns. Slaking lime. Forming mortar. Applying mortar. Grouting.

Hydraulic cements, natural and artificial. Roman cement. Pasley's cement. Portland cement. Concrete. Beton. Materials as aggregates for mortars and concretes. Lime and cement setting. Preparation of concrete. Lime concrete. Portland cement concrete. Machinery for mixing mortars and concretes. Concrete building by frames and by blocks. Superiority of Portland cement concrete. Concrete arches. Re-enforced concrete. Plasters. Lime-plaster. Gypsum. Glue. Animal glue. Marine glue.

(g) *Wood*.—Structure of wood. Cellular tissue. Vascular tissue or woody fibre. Pith. Medullary rays. Silver grain. Sap. Sapwood. Heart-wood. Structure of a branch. Knots.

Felling Timber. Age of trees proper for felling. Season for felling.

Seasoning timber. Natural seasoning. Drying timber. Water seasoning. Steaming and boiling timber. Smoke drying, scorching and charring timber. Seasoning by the extraction of sap. Seasoning by hot air.

Durability of timber. Causes of decay in timber, namely—Continued dryness, continued wetness, alternate dryness and moisture, continued moisture with heat, rot, dry rot, wet rot. Destruction of timber by marine animals; by ants.

Preservation of timber—By good ventilation and avoiding moisture. By the use of oil paint. By the application of tar boiled with powdered chalk. When kept wet with salt water. Bethell's process of creosoting. Boucherie's process of injecting sulphate of copper.

Measurement of timber.

(h) *Metals*.—Iron ores—how obtained and prepared. Blast furnace; hot and cold blast; production of pig-iron, its composition, and the impurities it usually contains; effects of impurities—silicon, sulphur, phosphorus, and manganese.

Cast-iron; composition, appearance, and general properties; grey and white cast-iron; chilled iron; malleable cast-iron.

Wrought-iron—composition, appearance, and general properties; puddling, shingling, rolling; cold short and hot short; forging and welding; case hardening; manufacturer's lists of shapes and sizes.

Steel—composition, appearance, and general properties; hardening and tempering; varieties of steel—blister steel, shear steel, cast steel, Siemens-Martin steel, Bessemer steel, basic process, tool steel, mild steel, forging and welding.

Copper—appearance and general properties; casting, rolling into plates and drawing into wire; impurities.

Alloys—brass, Muntz metal; bronze or gun metal; phosphor bronze; manganese bronze; Babbitts metal for bearings.

Text Books to be recommended from time to time by the Syndicate.

Text Books at present recommended :—

1. Roorkee Treatise—Building Materials.
2. Marryatt's Specifications.

VI.—PRACTICAL CARPENTRY.

Use of hand-tools—Plane, chisel, saw, etc.; sharpening of tools.

Construction of halved joints, single mortise and tenon joint, mitre joint, dovetailed joint, single oblique mortise and tenon joint, rafter joint.

Text Book to be recommended from time to time by the Syndicate.

*Text Book at present recommended :—*Manual Training for Indian Schools.

Each candidate must produce a certificate from the Principal of his College that he has satisfactorily completed a course in the above subject in the College Workshops.

76. To pass the Examination the Candidate must obtain one-fourth of the full marks in Mathematics, in the paper of Heat, Sound and Light, and in the paper of Chemistry, one-third of the full marks in the paper of Mechanics, in Drawing and in Engineering, one-fourth of the full marks in the Practical Examination in each of the subjects, Physics and Chemistry, and 40 per cent. of the total marks obtainable. Those of the successful Candidates who obtain 60 per cent. of the total marks obtainable will be placed in the First Class.

77. A candidate who has obtained 40 per cent. of the total marks in Mathematics, Heat, Sound and Light, or Chemistry, or who has obtained 44 per cent. of the total marks in Mechanics, Drawing or Engineering will, at his option, be excused from appearing in that subject (provided he has obtained the separate minima in the paper and in the practical of that subject required by Regulation 76) at a subsequent examination and will be declared to have passed the whole examination when he has passed in all the subjects of the examination; provided that in the subject or subjects in which he appears on the last occasion he must obtain the minima in each paper, subject or practical, together with the percentage of the total marks in that subject or subjects required by Regulation 76. Candidates passing the examination in this manner in compartments will not be eligible for a class or for any prize or scholarship to be awarded at the examination.

78. Candidates who fall short of the minimum required to pass under one head by not more than three per cent. and who obtain an aggregate of at least 50 per cent. of the total marks obtainable shall, on the recommendation of a majority of not less than two-thirds of the Examiners present at the final meeting, be declared to have passed the Examination.

79. As soon as practicable after the conclusion of the Examination the Examiners will publish a list of successful candidates in two Classes, the names being arranged in order of merit.

80. A certificate will be given to those who pass the Examination. (*Vide* Form 31).

SECOND EXAMINATION IN ENGINEERING (CIVIL).

81. The Second Examination in Engineering (Civil) will be held annually at Poona or such other place as the Syndicate may appoint, commencing on the third Monday in March.

82. No candidate will be admitted to this Examination unless he produces satisfactory testimonials of having kept two terms in a School or College recognized in Civil Engineering by the University of Bombay subsequently to passing the First Examination in Engineering.

83. A student who has passed in all subjects but one at the F. E. Examination in conformity with regulation 77 of that examination will be allowed to keep terms for the S. E. (Civil) Examination and will be allowed to appear for the S. E. (Civil) Examination after keeping two terms, but will not be declared to have passed that examination under any circumstances, unless he has passed in the remaining subject of the F. E. Examination held either in a previous or in the same examination season.

84. Candidates must apply to the Registrar three weeks before the Examination. (*Vide* Form 32).

85. Each Candidate must pay to the Registrar, through the Principal of his College, or otherwise as the Syndicate may direct, a fee of Rs. 30, for which a receipt will be given.

86. Failure to pass the Examination will not disqualify the Candidate for presenting himself at any subsequent Second Examination on a new application being forwarded and a fresh fee paid.

87. Candidates will be examined in the following subjects:—

- | | |
|--------------------------|--|
| I—Mathematics. | IV—Engineering Drawing. |
| II—Experimental Physics. | V—Surveying. |
| III—Mechanics. | VI—Masonry and Foundations,
Roads and Railways. |

I.—MATHEMATICS. (Two Papers.)

Paper I.—*Solid Geometry and Analytical Geometry.*

Solid Geometry, with easy deductions.

Analytical Geometry.—Simple properties of straight line, circle, parabola and ellipse.

Paper II.—*Mensuration and Calculus.*

Mensuration, with easy problems.

Calculus.—Tangents and normals. Curvature = $\frac{d^2y}{dx^2} \cos^3 \phi$ where ϕ is the

gradient angle, double integration, centre of gravity, moment of inertia, centre of pressure, lengths, areas, and volumes; easy problems.

In Mensuration Candidates may use, at their option, the methods of the Calculus.

The scope of the above course and the character of the problems to be set are defined by the Text Books recommended by the Syndicate.

Text Books recommended:—Hall and Stevens' School Geometry, Part VI, pp. 347—433.

Baker's Algebraic Geometry, Articles 1—41, 83—92, 127—130, 136—141, 159—163, 182—183, 187—192.

Gibson's Introduction to the Calculus, Chapters VI—VIII, Chapter IX, Articles 41—42, Chapter X, Chapter XII, Article 58, Chapter XIII, Articles 63—66 and 70.

II.—EXPERIMENTAL PHYSICS. (One Paper and Practical.)

Candidates will be expected to work simple numerical problems illustrating the principles involved.

Hydrostatics and Pneumatics.

General Characters of Liquids, Fluid Pressure.

Hydraulic Press. Artesian Wells. Water Level. Spirit Level.

Principle of Archimedes. Density and Specific Gravity and their Determination.

Pressure at different points of a Homogeneous Fluid. Centre of Pressure. Resultant Thrust.

Equilibrium of Floating Bodies. Metacentre.

Capillary phenomena.

Pressure of the Atmosphere. Mercury Barometer. Aneroid Barometer. Barometric Corrections. Determination of Heights by the Barometer.

Compressed Air Manometer. Bourdon's Steam Gauge.

Diving Bell. Common Pump. Siphon.

Efflux of Liquids; Flow through tubes, Viscosity.

Electricity and Magnetism.

Such parts of the subjects as are contained in the Text Books to be recommended by the Syndicate.

Text Books recommended :—For Hydrostatics and Pneumatics "Watson's Physics" and "Loney's Mechanics and Hydrostatics," and for Electricity and Magnetism "Elementary Lessons in Electricity and Magnetism" by Prof. S. P. Thompson (Edition of 189.), omitting the following paragraphs:—

22—54, 65—83, 193—194, 249—258, 273—278, 284—287, 290—327, 334—336, 344—351, 355—356, 359—360, 389, 392—398, 411, 417—425, 442—443, second part of 458 after definition of henry, 460, 479, 481—486, 500—509, 513 to end.

Practical.

Each candidate must produce a certificate from the Principal of his College that he has completed in a satisfactory manner a practical course on the lines laid down from time to time by the Syndicate and handed in a note-book containing a full record of his work.

Each candidate shall be examined practically on the work recorded in his note-book.

Course of Practical Work at present prescribed by the Syndicate.

1. Specific gravity of heavy solid with hydrostatic balance.
2. Specific gravity of light solid with hydrostatic balance.
3. Specific gravity of liquid with specific gravity bottle.
4. Specific gravity of solid with specific gravity bottle.
5. Specific gravity of solid soluble in water.
6. Specific gravity of solid with Nicholson's hydrometer.
7. Construction of hydrometer scale, and use of variable immersion hydrometers.
8. Capillary constant with tubes.
9. " " " plates.
10. Use of the gold leaf electroscope for investigation of the production of electricity by friction and by induction.
11. Determination of the strength of a magnet pole in absolute units with the Hibbert magnetic balance.
12. Use of Coulomb's torsion balance to show that the couple acting on a magnet varies as the sine of the angle of deflection from the magnetic meridian.
13. Comparison of magnetic fields by counting the vibrations of a suspended needle.
14. Sketching the lines of force as shown by iron filings for different arrangements of magnets and pieces of soft iron.
15. Tracing magnetic lines of force, and equipotential lines, by means of a suspended magnet needle provided with a pointer at right angles to it.

16. Comparison of magnetic moments by the deflections of a suspended needle.

17. Comparison of magnetic moments by determination of vibration period and moment of inertia.

18. Tracing the magnetic lines of force due to electric currents.

19. Resistance by substitution.

20. Resistance by the slide wire bridge.

21. Resistance by the Post Office Box.

22. Resistance by tangent galvanometer method.

23. Verification of an ampere meter by electrolysis.

24. Comparison of electromotive forces by the potentiometer method.

25. Measurement of heat produced from electric energy.

26. Use of an exploring coil and a ballistic galvanometer in comparing magnetic fields.

27. Determination of dip with the earth inductor.

28. Measurement of inductance with an alternating current.

29. Setting up and use of the principal types of primary cell.

30. Determination of specific resistance of different metals.

31. Determination of temperature coefficient of resistance of a metal.

32. Measurement of inductance by balancing with a variable standard inductance in the Wheatstone's bridge.

33. Measurement of the E. M. F. of a dynamo with constant excitation on open circuit at different speeds.

34. Measurement of the torque of a motor with constant excitation and different currents.

At least eighteen of the above exercises are to be carried out satisfactorily by each candidate.

Candidates are not to submit experiments which they have already worked at School, or in the first year's course of an Arts College.

III.—MECHANICS. (One Paper.)

As at the Second Examination in Engineering (Mechanical).

IV.—ENGINEERING DRAWING. (One Paper.)

Design of simple structures in connection with subject VI. Copying processes.

Each candidate must produce a certificate from the Principal of his College that he has handed in a satisfactory set of drawings executed by himself within the walls of the College and showing all the drawing work he has done in connection with subjects IV, V and VI.

V.—SURVEYING. (One Paper, and a practical examination in the use of instruments.)

Construction of scales. Representative fraction. Diagonal and vernier scales. Surveying by the chain only. Cross staff. Optical square. Field book. Prismatic compass. Surveying compass. Plane table. Method of plotting surveys. Map, plan. Levelling. Corrections for earth's curvature and for refraction. The Y and dumpy levels and their adjustments. Levelling field books. Benchmarks. Plotting the work. Contours, sections and cross-sections.

The theodolite-telescope, vernier, and principal parts; adjustments, temporary and permanent; Everest, Y, and transit theodolites; method of observing with the theodolite. Precautions to be observed in using and handling a theodolite. Gale's traverse system. Trigonometrical surveying. Laying out railway curves; by offsets within the curve; by offsets from the tangent; by one theodolite by angles at the circumference; by two theodolites. Determination of true meridian and latitude. Theory and practical use of planimeter.

Text Books to be recommended from time to time by the Syndicate.

*Text Books at present recommended:—*Rankine's Civil Engineering, Part I; Burki Volume.

VI.—MASONRY AND FOUNDATIONS: ROADS AND RAILWAYS. (Two Papers).

Paper I.—*Masonry and Foundations.*

Masonry.

Stone masonry.—Ashlar. Block in course. Coursed rubble. Common rubble. Rubble backing. Strength of a mass of masonry as depending on size of stone, the bond and accuracy in dressing. Bonding. Headers and stretchers. Quoins. Direction of beds in battering walls. String courses and copes. Pointing.

Mechanism for moving large stones. Instruments used in building. Mensuration of masonry.

Brick-work.—General principles of brick-work. Bond. Operations of brick-laying. Mortar joints. Fine joints. Lime putty. Scaffolding. Precautions against settlement. Joining new work to old. String courses and copes. Stone quoins. Labour of ordinary brick-work. Mensuration of brick-work.

Foundations.

Design and Execution of Foundations.—Importance of slight and uniform settlement. Various modes of attaining that object. Action of water on foundations. Various conditions dependent on nature of bearing strata.

Dry foundations. Rock, gravel, sand. Mixed strata of rock and clay. Bearing stratum underlying soft ground of considerable depth. Crust of good ground overlying soft substratum.

Foundations on good natural bottom under water. Piled foundations. Timber piling. Cast and wrought-iron piling. Iron screw piles. Hollow cast iron cylinders. Brick wells as employed in India. Sand pump. Solid foundations laid under water. Pierre perdue. Random blocks of beton. Beton laid in caissons lined with tarpaulin. Solid masonry built on the natural bottom by divers. Solid masonry in cribs.

Foundations on sites where the water can be temporarily excluded. Solid masonry sunk in caissons on a bottom dredged out and levelled with beton. The same on a piled bottom. Solid masonry built in a cofferdam.

Land foundations on artificial bottom. Consolidation of soft ground by driving piles. Platforms of fascines, timber or concrete forming floating foundations.

Foundations under water on an artificial bottom. Cofferdams. Fascine beds.

Importance of ascertaining the character of bearing strata. Trial pits. Borings.

Mechanical construction of foundations. Footings. Planking. Use of sand, concrete and beton. Pile driving.

Text Books to be recommended from time to time by the Syndicate.

Text Books at present recommended:—

Rankine's Civil Engineering, Part II, Chapter III, Sections I to VI; Chapter IV, Section I; Chapter VI, Section II.

Burki Volume.

*Paper II.—Roads and Railways.**Roads.*

Fair-weather roads in districts liable to inundations. Permanent roads. Macadam roads. Telford roads. Resistance of vehicles on roads variously paved. Ruling gradients. Staking out the centre line. Formation-breadth and cross-section. Earthwork. Culverts and drains. Road metalling. Rolling. Paving with stone blocks. Maintenance and repairs. Hill roads.

Railways.

Status of existing railways in India. Survey and choice of line. Gradients and curves. Resistance of railway trains on a level straight line and on curves and steep gradients.

Formation of roadway. Earthworks. Formation level base. Culverts. Regulations about bridges. Level-crossings. Fencings. Mile posts. Gradient posts. Permanent-way of railways. Gauge of railways. Ballast. Timber sleepers. Rails. Chairs. Rail-joints. Fish joints. Cast-iron sleepers. Wrought-iron sleepers. Cant of rails. Elevation of outer rail on curves. Sidings. Switches and crossings. Turn-tables. Railway stations. Selection of site. Approaches, roads and yards. Position of principal buildings. Platforms. Engine shed. Water tanks and water cranes. Goods stations. Signals. Rolling stock of Railways. Carriages. Goods wagons. Brake.

Train resistance. Tractive power. Adhesion. Express and coupled engines. General description of ordinary engines. Goods engines. Augmentation of the evaporative power, and utilisation of the entire weight for adhesion. Limit of load on wheels. Fatigue of rails. Description of engines for exceptional circumstances. Engines for heavy inclines. Engines for exceptionally heavy trains on moderate inclines. Engines for narrow gauge lines.

Effects of curves on wear of tires ; provision for reducing the effect of sharp curves.

Tunnelling in rock and clay ; Alpine tunnels.

Text Books to be recommended from time to time by the Syndicate.

*Text Books at present recommended :—*Rankine's Civil Engineering, Part II, Chapter II, Sections I, II and III ; Chapter VI, Section 1 ; Part III, Chapter I.

Barry's Railway Appliances.

Simm's Tunnelling.

Rurki Volume.

88. To pass the Examination the Candidate must obtain one-fourth of the full marks in Mathematics, in the paper and in the Practical Examination in Physics ; one-third of the full marks in Mechanics, Engineering Drawing, in the paper and in the Practical of Surveying and in the papers of Masonry and Foundations and of Roads and Railways ; and 40 per cent. of the total marks obtainable. Those of the successful Candidates who obtain 60 per cent. of the total marks obtainable will be placed in the First Class.

89. A candidate who has obtained 40 per cent. of the total marks in Mathematics or in Physics, or who has obtained 44 per cent. of the total marks in Mechanics, Engineering Drawing, Surveying, or Masonry and Foundations and Roads and Railways will, at his option, be excused from appearing in that subject (provided he has obtained the minima in the paper and in the practical of that subject required by Regulation 88) at a subsequent examination and will be declared to have passed the whole examination when he has passed in all the subjects of the examination ; provided that in the subject or subjects in which he appears on the last occasion he must obtain the minima in each paper, subject or practical, together with the percentage of the total marks in that subject or subjects required by Regulation 88. Candidates passing the examination in this manner in compartments will not be eligible for a class or for any prize or scholarship to be awarded at the examination.

90. Candidates who fall short of the minimum required to pass under one head by not more than three per cent. and who obtain an aggregate of at least 50 per cent. of the total marks obtainable shall, on the recommendation of a majority of not less than two-thirds of the Examiners present at the final Meeting, be declared to have passed the Examination.

91. As soon as practicable after the conclusion of the Examination the Examiners will publish a list of successful candidates in two classes, the names being arranged in order of merit.

92. A certificate will be given to those who pass the Examination. (*Vide* Form 33).

EXAMINATION FOR THE DEGREE OF BACHELOR OF ENGINEERING (CIVIL).

93. The Examination for the Degree of Bachelor of Engineering (Civil) will be held twice a year at Poona or such other place as the Syndicate may appoint, commencing on the fourth Monday in March and the second Monday in October.

94. No candidate will be admitted to the Examination unless he shall have kept two terms in a School or College recognized in Civil Engineering by the University of Bombay subsequently to passing the Second Examination in Engineering (Civil).

95. A student who has passed in all subjects but one at the S. E. (Civil) Examination in conformity with Regulation 89 of that examination will be allowed to keep terms for the B. E. (Civil) Examination and will be allowed to appear for the B. E. (Civil) Examination after keeping two terms, but will not be declared to have passed that examination under any circumstances, unless he has passed in the remaining subject of the S. E. (Civil) Examination held either in a previous or in the same examination season.

96. Candidates must apply to the Registrar three weeks before the Examination. (*Vide* Form 34).

97. Each Candidate must pay to the Registrar, through the Principal of his College, or otherwise as the Syndicate may direct, a fee of Rs. 50, for which a receipt will be given.

98. Failure to pass the Examination will not disqualify the Candidate for presenting himself at any subsequent Examination for the Degree of Bachelor of Engineering (Civil) on a new application being forwarded and a fresh fee paid.

99. Candidates will be examined in the following subjects:—

- | | |
|---------------------------------|--|
| I.—Mechanics. | IV.—Drawings and Project. |
| II.—Geology. | V.—Prime Movers. |
| III.—Hydraulics and Irrigation. | VI.—Water-supply and Sanitary-Engineering. |

I.—MECHANICS. (One Paper).

Analytical and graphical determination of forces transmitted by members of framed structures. Travelling Loads. Diagrams of bending moments and shearing forces. Moments of resistance. Deflection. Continuous Beams, Roofs and Bridges. Distribution of loads, wind pressure, working stresses. Types of roofs and bridges. Stone and brick arches. Retaining walls for earth and water.

Text Books to be recommended from time to time by the Syndicate.

Text Book at present recommended.—Alexander and Thomson's Applied Mechanics.

II.—GEOLOGY. (One Paper and Practical.)

General Geology.—Objects and methods. Divisions of the subject. The crust and interior of the earth.

Geological Agencies, subaerial and subterranean. The work of these agencies; volcanoes and earthquakes.

Petrology of the stratified rocks.—Formation of the stratified rocks. Stratification and lamination. Dip, strike, outcrop, and foldings of rocks. Conformity and unconformity of rocks and their significance. Outliers and inliers. Joints in stratified rocks. Faults, their varieties and importance in mining and well sinking. Classification of stratified rocks. Their more important varieties. Industrial aspects. Artesian wells.

The Igneous Rocks.—Their origin and characters. Chemical composition and principal minerals. Old and modern method of classification. Arrangement in the earth's crust. Contemporaneous and intrusive rocks. Technical terms employed. Joints in igneous rocks. Industrial aspects.

Altered and Metamorphic Rocks.—Agencies and varieties of alteration and metamorphism. Metalliferous and mineral veins. Foliation and cleavage. Crush breccias. The characters, origin and classification of altered and metamorphic rocks. Recent opinions of mode of origin of the foliated rocks. Examples of these rocks. Industrial aspects.

Historical Geology.—Its aims and methods. The main guides to true chronological classification of the geological formations. Chronological groups or cycles. More detailed classification of the aqueous rocks into systems and divisions.

Paleontology.—General principles. Classification of animals and plants. Relative age and position of the various formations with their more characteristic rocks and fossils. Coal and its formation. The glacial period, and its causes and results.

Indian Geology.—Distribution of the stratified and igneous rocks in India. Occurrence of the more important ores and minerals.

Geological maps and sections ; surveying.

Practical.

Identification of specimens of the principal Indian rocks.

Text Book to be recommended from time to time by the Syndicate.

*Text Book at present recommended :—*Intermediate Text Book of Geology by Lapworth.

III.—HYDRAULICS AND IRRIGATION. (One Paper.)

(a) Hydraulics—

General principles. Law of fluid friction. Flow of water through orifices. Flow of water through pipes. Flow of water over weirs. Flow of water through channels.

Canal and river gauging. Instruments used.

General principles of the water-wheel, turbine, and hydraulic ram.

(b) Irrigation—

Irrigation systems. Well irrigation. Tank irrigation. Irrigation from head waters of rivers as in Upper India. Delta irrigation in Southern India. Irrigation by inundation. Comparative conditions of irrigation in the various Provinces of India.

Reservoirs—contents, rainfall and run-off from catchment basins. Estimation of supply available. Rain gauges. Masonry dams. Conditions to be attended to in designing a masonry dam. Most economical form of dam. Earthen dams. Puddle walls and trench. Regulating sluices in dams. Waste weirs. Pick-up weirs. Canal head-works.

Canals and distributary channels. Alignment. Capacity, gradient, section, velocity. Cross drainage works, weirs, falls, rapids, locks, diversions, aqueducts, culverts, drains, inlets, level-crossings, superpassages, regulating bridges, stop-gates, escapes.

Measurement of discharge. Regulation and duty of water. Modules. Methods of charging for water.

Functions of irrigation works. Importance of irrigation works. Conditions affecting the use and value of irrigation in India. Natural facilities for irrigation.

Text Books to be recommended from time to time by the Syndicate.

Text Books at present recommended.—Love's Hydraulics and Buckley's Irrigation.

IV.—DRAWINGS AND PROJECT.

The class will be divided in the College into small parties of students; and each party will be required to make a survey for a portion of a railroad, canal or some scheme for water-supply or drainage or sewerage, through some district of country in the neighbourhood of the College; to select the line; to make a traverse and run the needful levels, with cross-sections, along the line selected; to lay down the line in plan and sections; and finally to prepare a general estimate of the work. Each candidate will be required to construct three drawings on paper of double elephant size as follows:—

(a) One Engineering or Architectural Drawing.

(b) Two Drawings in connection with the Project.

The drawing (a) should be carefully inked in and coloured as a *finished* drawing with the information printed by hand; the two drawings (b) should be carefully inked in and coloured as *working* drawings with the information neatly written in.

The three drawings and the necessary field books, and the specification for the project, authenticated by the Principal of the College, are to be submitted to the Examiners.

All drawings submitted to the Examiners to bear the following certificate:—

Certified that this drawing was executed within the walls of _____*
by _____ and completed on the _____
(Signed)

Date _____

Principal of the _____

V.—PRIME MOVERS. (One Paper and Practical.)

As at the Second Examination in Engineering (Mechanical).

VI.—WATER-SUPPLY AND SANITARY ENGINEERING. (One Paper.)

Sources of water for town supply. Quality of water most suitable. Demand in relation to population. Supply from natural streams. Construction of open and covered conduits.

Storage when supply is limited. Reservoirs. Separation of flood waters.

Pumping arrangements when necessary.

Cornish and Retative Engines. Stand pipes, air vessels, service reservoirs.

Filtration and distribution of water.

Determination of diameters of pipes. Forms of pipes. Valves. Hydrants.

Pipe aqueducts and laying pipes.

Materials of construction considered with regard to their sanitary aspect, fire-proof construction, principles of calculating areas, cubic space.

Air and warming. Theory of air movements, velocity and discharge through pipes, appliances used in ventilation, the principal methods employed in ventilating buildings.

* Name of College.

Drainage and sewerage—the proper conditions of good drainage, systems of drainage, open drains and sewers; construction and ventilation of sewers; sanitary appliances, house connections; drain testing and inspection; plumber's work; sewage disposal, precipitation, filtration and biological processes; disposal of refuse, destructors.

Text Books to be recommended from time to time by the Syndicate.

Text Books at present recommended.—Burton's Water-supply and Moore's Sanitary Engineering.

100. To pass the Examination the Candidate must obtain one-third of the full marks in the paper and in the Practical of Geology and in Prime Movers; 40 per cent. of the full marks in Mechanics, Hydraulics and Irrigation, Drawings and Project, and Water-supply and Sanitary Engineering; and 45 per cent. of the total marks obtainable. Those of the successful Candidates who obtain two-thirds of the total marks obtainable will be placed in the First Class.

101. A candidate who has obtained 44 per cent. of the full marks in Geology or in Prime Movers, or who has obtained 50 per cent. of the full marks in Mechanics, Hydraulics and Irrigation, Drawings and Project or Water Supply and Sanitary Engineering will, at his option, be excused from appearing in that subject (provided he has obtained the minima in the paper and in the practical of that subject required by Regulation 100) at a subsequent examination and will be declared to have passed the whole examination when he has passed in all the subjects of the examination; provided that in the subject or subjects in which he appears on the last occasion he must obtain the minima in each paper, subject or practical, together with the percentage of the total marks in that subject or subjects required by Regulation 100. Candidates passing the examination in this manner in compartments will not be eligible for a class or for any prize or scholarship to be awarded at the examination.

102. Candidates who fall short of the minimum required to pass under one head by not more than three per cent. and who obtain an aggregate of at least 55 per cent. of the total marks obtainable shall, on the recommendation of a majority of not less than two-thirds of the Examiners present at the final meeting, be declared to have passed the Examination.

103. As soon as practicable after the conclusion of the Examination the Examiners will publish a list of the successful Candidates in two Classes, the names being arranged in order of merit.

104. A certificate will be given to those who pass the Examination. (*Vide* Form 35).

SECOND EXAMINATION IN ENGINEERING (MECHANICAL).

105. The Second Examination in Engineering (Mechanical) will be held annually at Poona or such other place as the Syndicate may appoint, commencing on the third Monday in March.

106. No Candidate will be admitted to this Examination unless he produces satisfactory testimonials of having kept two terms in a School or College recognised in Mechanical Engineering by the University of Bombay subsequently to passing the First Examination.

107. A student who has passed in all subjects but one at the F. E. Examination in conformity with Regulation 77 of that examination will be allowed to keep terms for the S. E. (Mechanical) Examination and will be allowed to appear for the S. E. (Mechanical) Examination after keeping two terms, but will not be declared to have passed that examination under any circumstances, unless he has passed in the remaining subject of the F. E. Examination held either in a previous or in the same examination season.

108. Candidates must apply to the Registrar three weeks before the Examination. (*Vide* Form 36).

109. Each Candidate must pay to the Registrar, through the Principal of his College, or otherwise as the Syndicate may direct, a fee of Rs. 30, for which a receipt will be given.

110. Failure to pass the Examination will not disqualify the Candidate for presenting himself at any subsequent Second Examination on a new application being forwarded and a fresh fee paid.

111. Candidates will be examined in the following subjects :—

- | | |
|---------------------------|--|
| I.—Mathematics. | V.—Electrical Engineering. |
| II.—Experimental Physics. | VI.—Prime Movers. |
| III.—Mechanics. | VII.—Workshop Appliances and Practice. |
| IV.—Machine Drawing. | |

I.—MATHEMATICS.

As at the Second Examination in Engineering (Civil).

II.—EXPERIMENTAL PHYSICS.

As at the Second Examination in Engineering (Civil).

III.—MECHANICS. (One Paper.)

Theory of Machines, Elementary Combinations. Friction and lubrication. Transmission of Energy. Power required to drive Machinery. Efficiency of Machines. Simple problems in fly wheels and governors. Storage of energy, water reservoirs, accumulators, etc. Elementary theory of structures and strength of Materials. Link and Vector polygons. Bending moment and shearing force diagrams.

Testing of materials and determination of strength and stiffness of simple beams, shafts and springs.

Text Book to be recommended from time to time by the Syndicate.

Text Book at present recommended :—Unwin's Machine Design.

IV.—MACHINE DRAWING. (One Paper.)

Construction of scales ; representative fraction ; diagonal and vernier scales ; theory and practical use of planimeter ; copying processes.

Riveted joints, bolts, screws, stays, shafting, shaft couplings, pulleys, plummer blocks, toothed gearing, belts, ropes, chains, pumps and cranes. Engine details.

Machine tools, lathes, planer, shaper, drill, slotting machine, screwing machine.

Text Book to be recommended from time to time by the Syndicate.

Text Book at present recommended :—Cryer and Jordan's Machine Construction and Mechanical Drawing.

Each Candidate must produce a certificate from the Principal of his College that he has handed in a complete and satisfactory set of drawings on the above subjects executed by himself within the walls of the College.

V.—ELECTRICAL ENGINEERING. (Practical.)

As at the Second Examination in Engineering (Electrical).

VI.—PRIME MOVERS. (One Paper and Practical.)

Fuels and combustion ; mechanical equivalent of heat ; work.

Properties of steam ; sensible and latent heat ; internal and external work expansive working. Compound engine and condenser.

Boilers, various types of ; strength and power.

Steam Engines—Stationary, locomotive and marine.

Gas and Oil Engines.

Indicator and Indicator diagrams ; indicated horse power ; brake horse power.

Text Books to be recommended from time to time by the Syndicate.

Text Book at present recommended :—Jamieson's Elementary Steam.

Laboratory course.—Gas and oil engine tending ; gas and oil engine testing. Indicator diagrams, indicated horse power and brake horse power of Steam Engines.

Each Candidate must produce a certificate from the Principal of his College that he has completed in a satisfactory manner a practical course on the lines laid down from time to time by the Syndicate and handed in a note-book containing a full record of his work.

Each candidate shall be examined practically on the work recorded in his note-book.

VII.—WORKSHOP PRACTICE.

Practical Examination.

Chipping and filing; wood turning, pattern making; moulding in brass and iron; smithery; tinsmith work and brazing.

Each Candidate must produce a certificate from the Principal of his College that he has satisfactorily completed the course.

Text Book to be recommended from time to time by the Syndicate.

*Text Book at present recommended:—*Mitchell and Davey's Workshop Practice.

112. To pass the Examination the Candidate must obtain one-fourth of the full marks in Mathematics, in the paper and in the Practical Examination in Physics and in Electrical Engineering; one-third of the full marks in Mechanics, Machine Drawing, Prime Movers and in Workshop Practice; and 40 per cent. of the total marks obtainable. Those of the successful Candidates who obtain 60 per cent. of the total marks obtainable will be placed in the First Class.

113. A candidate who has obtained 40 per cent. of the total marks in Mathematics, Physics, or Electrical Engineering, or 44 per cent. of the total marks in Mechanics, Machine Drawing, Prime Movers or Workshop Practice will, at his option, be excused from appearing in that subject (provided he has obtained the minima in the paper and in the practical of that subject required by Regulation 112) at a subsequent examination and will be declared to have passed the whole Examination when he has passed in all the subjects of the examination; provided that in the subject or subjects in which he appears on the last occasion he must obtain the minima in each paper, subject or practical, together with the percentage of the total marks in that subject or subjects required by Regulation 112. Candidates passing the examination in this manner in compartments will not be eligible for a class or for any prize or scholarship to be awarded at the examination.

114. Candidates who fall short of the minimum required to pass under one head by not more than three per cent. and who obtain an aggregate of at least 50 per cent. of the total marks obtainable shall, on the recommendation of a majority of not less than two-thirds of the Examiners present at the final Meeting, be declared to have passed the Examination.

115. As soon as practicable after the conclusion of the Examination the Examiners will publish a list of successful Candidates in two classes, the names being arranged in order of merit.

116. A certificate will be given to those who pass the Examination. (*Vide* Form 37).

EXAMINATION FOR THE DEGREE OF BACHELOR OF ENGINEERING (MECHANICAL).

117. The Examination for the Degree of Bachelor of Engineering (Mechanical) will be held twice a year at Poona or such other place as the Syndicate may appoint, commencing on the fourth Monday in March and the second Monday in October.

118. No Candidate will be admitted to the Examination unless he shall have kept two terms in a School or College recognized in Mechanical Engineering by the University of Bombay subsequently to passing the Second Examination in Engineering (Mechanical).

119. A student who has passed in all subjects but one at the S. E. (Mechanical) Examination in conformity with regulation 113 of that examination will be allowed to keep terms for the B. E. (Mechanical) Examination and will be allowed to appear for the B. E. (Mechanical) Examination after keeping two terms, but will not be declared to have passed that examination under any circumstances, unless he has passed in the remaining subject of the S. E. (Mechanical) Examination held either in a previous or in the same examination season.

120. Candidates must apply to the Registrar three weeks before the Examination. (*Vide* Form 38).

121. Each Candidate must pay to the Registrar, through the Principal of his College, or otherwise as the Syndicate may direct, a fee of Rs. 50, for which a receipt will be given.

122. Failure to pass the Examination will not disqualify the Candidate for presenting himself at any subsequent Examination for the Degree of Bachelor of Engineering (Mechanical) on a new application being forwarded and a fresh fee paid.

123. Candidates will be examined in the following subjects :—

- | | |
|---------------------------------|--|
| I.—Mechanics. | V.—Hydraulics and Hydraulic Machinery. |
| II.—Machine Drawing and Design. | VI.—Workshop Appliances and Practice. |
| III.—Prime Movers. | |
| IV.—Electrical Engineering. | |

I.—MECHANICS. (One Paper.)

As at the Examination for the Degree of Bachelor of Engineering (Civil).

II.—MACHINE DRAWING AND DESIGN. (One Paper.)

Drawing from students' sketches of Machinery and Engine details, valve diagrams and valve gears; pumps; accumulator; dynamos; motors. Design of engine parts and of parts of simple machine tools.

Each Candidate must produce a certificate from the Principal of his College that he has handed in a complete and satisfactory set of drawings on the above subjects executed by himself within the walls of the College.

III.—PRIME MOVERS. (One Paper.)

Laws of thermo-dynamics; temperature-entropy diagrams; efficiency of perfect engines; saturated and superheated steam; expansion of steam; steam jacket; feed heater; Lancashire water tube and fire tube boilers; indicator; indicator diagrams for compound engines; valves and valve diagrams; governors and fly wheels; refrigerating machines.

Various types of engines—Stationary, locomotive, marine.

Turning moment diagrams; balancing of engines.

Gas producers; turbines.

Motor car mechanism.

Calorific value of fuels—coal, oil, gas; boiler testing; steam engine testing.

Text Book to be recommended from time to time by the Syndicate.

Text Book at present recommended.—Ripper's Steam Engine Theory and Practice.

IV.—ELECTRICAL ENGINEERING. (One Paper.)

As at the Second Examination in Engineering (Electrical).

V.—HYDRAULICS AND HYDRAULIC MACHINERY. (One Paper.)

(a) *Hydraulics*—

General principles. Laws of fluid friction. Flow of water through orifices. Flow of water through pipes. Flow of water over weirs. Flow of water through channels.

Canal and river gauging. Instruments used.

General principles of the water wheel, turbine and hydraulic ram.

(b) *Hydraulic Machinery*—

Hydraulic motor; water wheels overshot and undershot; centrifugal pumps forms of spiral chamber; economical speed; efficiency.

Lift pump; force pump; bucket; plunger; air vessel. Pumps for mines Worthington pump; pulsometer; hydraulic ram; accumulator and Pelton wheel. Turbine; forms of vanes; efficiency. Propellers—paddle wheel and screw.

Text Book to be recommended from time to time by the Syndicate.

*Text Book at present recommended:—*Manual of Hydraulics by Busquet.

VI.—WORKSHOP APPLIANCES AND PRACTICE. (One Paper and a Practical Examination.)

(a) *Workshop Appliances*—

Measuring instruments, hand tools for metal and wood; surface plates; lathes; drills; planing, shaping, slotting, punching and shearing machines; distribution of motive power by gearing, spur wheels, belts, ropes, chains.

Text Book to be recommended from time to time by the Syndicate.

*Text Book at present recommended:—*Shelley's Workshop Appliances.

(b) *Workshop Practice*—

Pattern making, smithery; preparation and tempering of cutting tools for metal turning, etc.; practice on power lathes, drills; planer, slotter and milling machine; screw cutting; gear cutting; steam engine and boiler tending.

Text Books to be recommended from time to time by the Syndicate.

*Text Books at present recommended:—*Pattern Making; Iron Founding; Metal Turning; Principles of Fitting. { Whittaker & Co., London.

Each Candidate must produce a certificate from the Principal of his College that he has completed in a satisfactory manner a practical course on the lines laid down from time to time by the Syndicate and handed in a note-book containing a full record of his work.

Each candidate shall be examined practically on the work recorded in his note-book.

124. To pass the Examination the Candidate must obtain one-third of the full marks obtainable in Mechanics and in Electrical Engineering; 40 per cent. of the full marks in Machine Drawing and Design, Prime Movers, Hydraulics and Hydraulic Machinery, and Workshop Appliances and Practice; and 45 per cent. of the total marks obtainable. Those of the successful Candidates who obtain two-thirds of the total marks obtainable will be placed in the First Class.

125. A candidate who has obtained 44 per cent. of the full marks in Mechanics or Electrical Engineering, or who has obtained 50 per cent. of the full marks in Machine Drawing and Design, Prime Movers, Hydraulics and Hydraulic Machinery or Workshop Appliances and Practice will, at his option, be excused from appearing in that subject at a subsequent examination and will be declared to have passed the whole examination when he has passed in all the subjects of the examination; provided that in the subject or subjects in which he appears on the last occasion he must obtain the minima in each

the percentage of the total marks in that subject or subjects, which by regulation 124. Candidates passing the examination in this compartments will not be eligible for a class or for any prize or to be awarded at the examination.

126. Candidates who fall short of the minimum required to pass under one head by not more than three per cent. and who obtain an aggregate of at least 55 per cent. of the total marks obtainable shall, on the recommendation of a majority of not less than two-thirds of the Examiners present at the final meeting, be declared to have passed the Examination.

127. As soon as practicable after the conclusion of the Examination the Examiners will publish a list of the successful Candidates in two Classes, the names being arranged in order of merit.

128. A certificate will be given to those who pass the Examination. (*Vide* Form 39).

SECOND EXAMINATION IN ENGINEERING (ELECTRICAL).

129. The Second Examination in Engineering (Electrical) will be held annually at Poona or such other place as the Syndicate may appoint, commencing on the third Monday in March.

130. No Candidate will be admitted to this Examination unless he produces satisfactory testimonials of having kept two terms in a School or College recognized in Electrical Engineering by the University of Bombay subsequently to passing the First Examination.

131. A student who has passed in all subjects but one at the F. E. Examination in conformity with Regulation 77 of that examination will be allowed to keep terms for the S. E. (Electrical) Examination, and will be allowed to appear for the S. E. (Electrical) Examination after keeping two terms, but will not be declared to have passed that examination under any circumstances, unless he has passed in the remaining subject of the F. E. Examination held either in a previous or in the same examination season.

132. Candidates must apply to the Registrar three weeks before the Examination. (*Vide* Form 40).

133. Each Candidate must pay to the Registrar, through the Principal of his College, or otherwise as the Syndicate may direct, a fee of Rs. 30, for which a receipt will be given.

134. Failure to pass the Examination will not disqualify the Candidate for presenting himself at any subsequent Second Examination on a new application being forwarded and a fresh fee paid.

135. Candidates will be examined in the following subjects :—

- | | |
|----------------------------|--|
| I.—Mathematics. | VI.—Prime Movers. |
| II.—Experimental Physics. | VII.—Electrical Engineering (Practical). |
| III.—Mechanics. | VIII.—Workshop Practice. |
| IV.—Machine Drawing. | |
| V.—Electrical Engineering. | |

I.—MATHEMATICS.

As at the Second Examination in Engineering (Civil).

II.—EXPERIMENTAL PHYSICS.

As at the Second Examination in Engineering (Civil).

III.—MECHANICS.

As at the Second Examination in Engineering (Mechanical).

IV.—MACHINE DRAWING. (One Paper.)

Construction of scales; representative fraction; diagonal and vernier scales; theory and practical use of planimeter; copying processes.

Rivetted joints, bolts, screws, stays, shafting, shaft couplings, pulleys, plummer blocks, toothed gearing, belts, ropes, chains, pumps, and cranes. Engine details.

Dynamos, motors, switch gear, starting gear and connections.

Each Candidate must produce a certificate from the Principal of his College that he has handed in a complete and satisfactory set of drawings on the above subjects executed by himself within the walls of the College.

V.—ELECTRICAL ENGINEERING. (One Paper.)

The magnetic properties of iron.

Theory and construction of continuous current dynamos and motors.

Manufacture and use of incandescent lamps.

Arc lamps—open and enclosed types. Electric heaters.

Cables—Transmission lines, overhead and underground; interior wiring and accessories.

Three wire system.

Measuring Instruments and chief type of Ammeter, Voltmeter and Wattmeter.

Recording instruments.

Integrating instruments: ampere hour and Watt hour meters.

Maximum demand indicators.

Testing instruments: measurement of very small resistances and of very large resistances (insulation resistance), Potentiometer.

Switch gear—Switches and fuses, switch boards, lightning arresters, motor starting switches.

Storage cells—Manufacture, elementary theory, method of setting up and of charging and discharging, use in central stations.

General description and simple theory of single phase alternators.

Test Books to be recommended from time to time by the Syndicate.

VI.—PRIME MOVERS. (One Paper.)

As at the Second Examination in Engineering (Mechanical). Practical work (elementary) to be done in third year.

VII.—ELECTRICAL ENGINEERING. (Practical Examination.)

Determination of resistance of dynamos, motors, lamps and measuring instruments.

Insulation resistance.

Characteristic curves of shunt and series dynamos; relation between electromotive force, speed and excitation in dynamos and motors.

Brake Test—Efficiency of continuous current motor.

Losses in armature and field copper, and in friction, hysteresis and eddy currents. Coupling up, running and testing motors, incandescent lamps, arc lamps, electric fans, electric heaters.

Management of storage cells, charging and discharging.

Photometry.

Jointing and insulating of cables.

Standardisation of ammeters and voltmeters.

Each Candidate must produce a certificate from the Principal of his College that he has completed in a satisfactory manner a practical course on the lines laid down from time to time by the Syndicate and handed in a note-book containing a full record of his work.

Each Candidate shall be examined practically on the work recorded in his note-book.

VIII.—WORKSHOP PRACTICE. (Practical Examination.)

As at the Second Examination in Engineering (Mechanical).

136. To pass the Examination the Candidate must obtain one-fourth of the full marks in Mathematics, in the paper and in the Practical Examination in Physics, in Mechanics and in Workshop Practice; one-third of the full marks in Machine Drawing, Prime Movers, in the paper and in the Practical in Electrical Engineering; and 40 per cent. of the total marks obtainable. Those of the successful Candidates who obtain 60 per cent. of the total marks obtainable will be placed in the First Class.

137. A candidate who has obtained 40 per cent. of the total marks in Mathematics, Physics, Mechanics, or in Workshop Practice, or who has obtained 44 per cent. of the total marks in Machine Drawing, Prime Movers, or in Electrical Engineering will, at his option, be excused from appearing in that subject (provided he has obtained the minima in the paper and in the practical of that subject required by regulation 137) at a subsequent examination and will be declared to have passed the whole examination when he has passed in all the subjects of the examination; provided that in the subject or subjects in which he appears on the last occasion he must obtain the minima in each paper, subject or practical, together with the percentage of the total marks in that subject or subjects required by regulation 137. Candidates passing the examination in this manner in compartments will not be eligible for a class or for any prize or scholarship to be awarded at the examination.

138. Candidates who fall short of the minimum required to pass under one head by not more than three per cent. and who obtain an aggregate of at least 50 per cent. of the total marks obtainable shall, on the recommendation of a majority of not less than two-thirds of the Examiners present at the final meeting, be declared to have passed the Examination.

139. As soon as practicable after the conclusion of the Examination the Examiners will publish a list of successful Candidates in two Classes, the names being arranged in order of merit.

140. A certificate will be given to those who pass the Examination. (*Vide* Form 41).

EXAMINATION FOR THE DEGREE OF BACHELOR OF ENGINEERING (ELECTRICAL).

141. The Examination for the Degree of Bachelor of Engineering (Electrical) will be held twice a year at Poona or such other place as the Syndicate may appoint, commencing on the fourth Monday in March and the second Monday in October.

142. No Candidate will be admitted to the Examination unless he shall have kept two terms in a School or College recognized in Electrical Engineering by the University of Bombay subsequently to passing the Second Examination in Engineering (Electrical).

143. A student who has passed in all subjects but one at the S. E. (Electrical) Examination in conformity with regulation 137 of that examination will be allowed to keep terms for the B. E. (Electrical) Examination and will be allowed to appear for the B. E. (Electrical) Examination after keeping two terms, but will not be declared to have passed that examination under any circumstances unless he has passed in the remaining subject of the S. E. (Electrical) Examination held either in a previous or in the same examination season.

144. Candidates must apply to the Registrar three weeks before the Examination. (*Vide* Form 42).

145. Each Candidate must pay to the Registrar, through the Principal of his College, or otherwise as the Syndicate may direct, a fee of Rs. 50, for which a receipt will be given.

146. Failure to pass the Examination will not disqualify the Candidate for presenting himself at any subsequent Examination for the Degree of Bachelor of Engineering (Electrical) on a new application being forwarded and a fresh fee paid.

147. Candidates will be examined in the following subjects :—

- | | |
|------------------------------|---------------------------------------|
| I.—Electrical Design. | IV.—Electrical Laboratory. |
| II.—Prime Movers. | V.—Hydraulics and Hydraulic Machinery |
| III.—Electrical Engineering. | VI.—Workshop Practice. |

I.—ELECTRICAL DESIGN. (One Paper.)

House wiring. Switches and Switch boards.

Central stations. Feeders and distributors.

Arrangement of storage batteries. Continuous current motors and dynamos. Alternators. Transformers.

Each Candidate must produce a certificate from the Principal of his College that he has handed in a complete and satisfactory set of drawings on the above subjects executed by himself within the walls of the College.

II.—PRIME MOVERS. (One Paper and a Practical Examination.)

As at the Examination for the Degree of Bachelor of Engineering (Mechanical).

Each candidate must produce a certificate from the Principal of his College that he has completed in a satisfactory manner a practical course on the lines laid down from time to time by the Syndicate and handed in a note-book containing a full record of his work.

Each candidate shall be examined practically on the work recorded in his note-book.

*Course of practical work at present prescribed by the Syndicate:—*Gas and oil engine tending ; gas and oil engine testing. Indicator diagrams; Boiler testing ; steam engine testing.

III.—ELECTRICAL ENGINEERING. (Two Papers and a Practical Examination.)

Alternating and polyphase currents. General description and theory of alternators, alternating current and polyphase motors, transformers, rotary converters. Alternating current, polyphase current and combined alternating current and continuous current systems of distribution. Switch gear. Switch boards.

The arrangement of Steam and Electric Plant in typical central stations and sub-stations.

The cost of electrical energy under different conditions.

Tramways—Overhead construction, trolley wires and feeders, bonding of rails, continuous welding by different processes, conduit systems, motors and gearing, controllers, trolleys and trolley poles, trucks.

Railways—Third rail and overhead systems, use of direct and alternating currents. Electric locomotive, multiple unit system. Electrolytic production of copper. Electric furnaces.

Manufacture of aluminium and calcium carbide.

Text Books to be recommended from time to time by the Syndicate.

Practical Course.

Connecting up, running and testing alternators, polyphase generators, rotary converters, transformers and alternating current arc lamps. Electric welding, electroplating.

Each candidate must produce a certificate from the Principal of his College that he has completed in a satisfactory manner a practical course on the lines laid down from time to time by the Syndicate and handed in a note-book containing a full record of his work.

Each candidate shall be examined practically on the work recorded in his note-book.

IV.—ELECTRICAL LABORATORY. (Practical Examination.)

Use of instruments of precision; measurement of capacity and inductance; permeability, hysteresis.

Each candidate must produce a certificate from the Principal of his College that he has completed in a satisfactory manner a practical course on the lines laid down from time to time by the Syndicate and handed in a note-book containing a full record of his work.

Each candidate shall be examined practically on the work recorded in his note book.

V.—HYDRAULICS AND HYDRAULIC MACHINERY.

As at the Examination for the Degree of Bachelor of Engineering (Mechanical).

VI.—WORKSHOP PRACTICE. (Practical Examination.)

As at the Examination for the Degree of Bachelor of Engineering (Mechanical).

148. To pass the Examination the Candidate must obtain one-third of the full marks obtainable in Prime Movers, Hydraulics and in Workshop Practice; 40 per cent. of the full marks in Electrical Design, Electrical Engineering and in Electrical Laboratory; and 45 per cent. of the total marks obtainable. Those of the successful Candidates who obtain two-thirds of the total marks obtainable will be placed in the First Class.

149 A candidate who has obtained 44 per cent. of the full marks in Prime Movers, Hydraulics, or Workshop Practice, or who has obtained 50 per cent. of the full marks in Electrical Design, Electrical Engineering or Electrical Laboratory will, at his option, be excused from appearing in that subject (provided he has obtained the minima in the paper and in the practical of that subject required by regulation 148) at a subsequent examination and will be declared to have passed the whole examination when he has passed in all the subjects of the examination; provided that in the subject or subjects in which he appears on the last occasion he must obtain the minima in each subject together with the percentage of the total marks in that subject or subjects required by regulation 148. Candidates passing the examination in this manner in compartments will not be eligible for a class or for any prize or scholarship to be awarded at the examination.

150. Candidates who fall short of the minimum required to pass under one head by not more than three per cent. and who obtain an aggregate of at least 55 per cent. of the total marks obtainable shall, on the recommendation of a majority of not less than two-thirds of the Examiners present at the final meeting, be declared to have passed the Examination.

151. As soon as practicable after the conclusion of the Examination the Examiners will publish a list of the successful Candidates in two Classes, the names being arranged in order of merit.

152. A certificate will be given to those who pass the Examination. (*Vide* Form 43).

MASTER OF CIVIL ENGINEERING.

153. The Examination for the Degree of Master of Civil Engineering will be held annually at Bombay, commencing on the first Monday in March.

154. Each Candidate must have obtained the degree of Licentiate or Bachelor of Civil Engineering in the University of Bombay, or some University recognized by it, and must have practised as a Civil Engineer for at least three years after receiving his degree.

155. The Degree may be obtained in two ways :

(a) A candidate may submit with due authentication a full report of such Engineering work as may have been designed or executed by himself, together with the necessary working drawings and specifications. Copies of any publications which he has made subsequent to his graduation may also be submitted. Such report with all its accompaniments will be submitted to a Referee or Referees appointed by the Board of Studies, who shall consider whether the work is original enough and of sufficiently high merit to warrant the conferring of the degree without the ordinary examination. The Referee or Referees shall have the option of calling the candidate and examining him orally or by setting a paper in connection with the work presented by the candidate.

(b) A candidate may submit to an examination in one of the following subjects :—

1. Building Materials and Construction and Structural Engineering,
2. Bridges and Railways,
3. Hydraulics and Irrigation,
4. Sanitary Engineering and Water Supply,

or any other branch of Civil Engineering approved by the Board of Studies.

156. Each candidate shall be required to show, in addition to a general acquaintance with the whole of any one of the above subjects, a special acquaintance with the practical side of one branch thereof. The Examiners shall have discretion to impose such written, oral or practical test as may be considered necessary by them.

157. Candidates must apply to the Registrar two months before the Examination (*vide* Form 44) and pay a fee of Rs. 100 for which a receipt will be given.

158. Failure to pass the Examination will not disqualify the candidate from presenting himself at any subsequent M.C.E. Examination on a new application being submitted and a fresh fee paid. On the same condition a candidate who has already passed the Examination in one subject may appear on a subsequent occasion in a different branch.

159. On the second Monday after the commencement of the Examination the Examiners will publish a list of successful Candidates arranged in alphabetical order in two Divisions, Pass and Pass with Distinction.

160. A Certificate will be given to those who pass the Examination. *Vide* Form 45).

III.—LAW.

BACHELOR OF LAWS.

1. Candidates for the Degree of LL. B. must have obtained the Degree of B.A. or B.Sc. in this University, or in a University recognized by this University, and will be required to pass two Examinations in Law, the first to be called the First Examination for the Degree of LL.B., and the second, the Second Examination for the Degree of LL.B.

FIRST LL.B. EXAMINATION.

2. The First Examination for the Degree of LL.B. will be held twice a year in Bombay, commencing on the fourth Monday in March and the second Monday in October.

3. No Candidate will be admitted to this Examination unless he shall have obtained the Degree of B.A. or B.Sc. in this University, or in a University recognized by this University, and have, after passing the Examination for the said Degree, kept two terms in a School of Law affiliated to this University

4. Candidates must forward their applications to the Registrar three weeks before the Examination. (*Vide* Form 46).

5. Each Candidate must pay to the Registrar through the Principal of his College, or otherwise as the Syndicate may direct, a fee of Rs. 30, for which a receipt will be given.

6. Candidates will be examined in the following subjects:—

First Paper	Roman Law.
Second Paper	General Jurisprudence and Constitutional Law.
Third Paper	The Law of Contracts and Torts.
Fourth Paper	The Law of Crimes and Criminal Procedure.

Text-books in these subjects will be prescribed or recommended from time to time by the Syndicate.

7. Failure to pass the Examination will not disqualify the Candidate for presenting himself at any subsequent Examination on a new application being forwarded and a fresh fee paid.

8. The Examination will be conducted, so far as practicable, by means of printed papers.

9. To pass the Examination the Candidate must (a) obtain one-third of the full marks in each paper, and (b) obtain one-half of the total marks obtainable. Should a candidate, however, fail to obtain the prescribed minimum for passing in one paper only, he shall be declared to have passed the Examination if, on a review of his marks, a majority of not less than two-thirds of the Examiners present at the final Meeting decide that he should pass, provided always that no candidate shall so pass unless he obtains at least 60 per cent. of the total marks in all papers. Those of the successful Candidates who obtain two-thirds of the total marks obtainable will be placed in the First Division.

10. A candidate who has obtained 50 per cent. marks in any paper may, at his option, be exempted from appearing in that paper at a subsequent examination and will be declared to have passed the examination when he passes in the remaining papers; provided that in the paper or papers in which he appears on the last occasion he must obtain the minimum in each paper and the percentage of the total marks in that paper or papers required by regulation 9. Such candidates will not be eligible for a class, prize or scholarship awarded at the examination.

11. As soon as practicable after the conclusion of the Examination, the Examiners will arrange and publish in two Divisions, *viz.*, a First Division arranged in order of merit and a Second Division arranged in alphabetical order, the names of such of the Candidates as may have passed.

12. A Certificate will be given to those who pass the Examination. (*Vide Form 47*).

SECOND LL.B. EXAMINATION.

13. The Second Examination for the Degree of LL.B. will be held twice a year in Bombay, commencing on the fourth Monday in March and the second Monday in October.

14. No Candidate will be admitted to this Examination unless he shall have passed the First Examination for the Degree of LL.B. in this University, and, after passing the said Examination, shall have kept two terms in a School of Law affiliated to this University.

15. A student who has passed in all subjects but one at the First LL.B. Examination in conformity with regulation 10 of that examination will be allowed to keep terms for the Second LL.B. Examination and will be allowed to appear for the Second LL.B. Examination after keeping two terms, but will not be declared to have passed that examination under any circumstances, unless he has passed in the remaining subject of the First LL.B. Examination held either in a previous or in the same examination season.

16. Candidates must forward their applications to the Registrar three weeks before the Examination. (*Vide Form 48*).

17. Each Candidate must pay to the Registrar through the Principal of his College, or otherwise as the Syndicate may direct, a fee of Rs. 50, for which a receipt will be given.

18. Candidates will be examined in the following subjects:—

First Paper	Succession and Family Rights, with special reference to Hindu and Mahomedan Law.
Second Paper	The Law of Property (including the Law of Transfer), the Law of Easements and the following Land Tenures, <i>viz.</i> , Ryotwari, Watans, Saranjams and Inams.
Third Paper	Equity, with special reference to the Law of Trusts and Specific Relief.
Fourth Paper	The Law of Evidence, Civil Procedure, and Limitation.

Text-books in these subjects will be recommended from time to time by the Syndicate.

19. Failure to pass the Examination will not disqualify the Candidate for presenting himself at any subsequent Examination on a new application being forwarded and a fresh fee of Rs. 50 paid.

20. The Examination will be conducted, so far as practicable, by means of printed papers.

21. To pass the Examination the Candidate must (a) obtain one-third of the full marks in each paper, and (b) obtain one-half of the total marks obtainable. Should a candidate, however, fail to obtain the prescribed minimum for passing in one paper only, he shall be declared to have passed the Examination if, on a review of his marks, a majority of not less than two-thirds of the Examiners present at the final Meeting decide that he should pass, provided always that no candidate shall so pass unless he obtains at least 60 per cent. of the total marks in all papers. Those of the successful Candidates who obtain two-thirds of the total marks obtainable will be placed in the First Division.

22. A candidate who has obtained 50 per cent. marks in any paper may, at his option, be exempted from appearing in that paper at a subsequent examination and will be declared to have passed the examination when he passes in the remaining papers; provided that in the paper or papers in which he appears on the last occasion he must obtain the minimum in each paper and the percentage of the total marks in the paper or papers required by regulation 21. Such candidates will not be eligible for a class, prize or scholarship awarded at the examination.

23. As soon as practicable after the conclusion of the Examination, the Examiners will arrange and publish in two Divisions, *viz.*, a First Division arranged in order of merit and a Second Division arranged in alphabetical order, the names of such Candidates as may have passed.

24. A Certificate will be given to those who pass the Examination. (*Vide Form 49*).

25. Candidates who have obtained the Degree of B.A. or B.Sc. in this University, or in a University recognized by this University, and have kept two terms under the old regulations in a School of Law affiliated to this University, but not after passing the Final Examination for the said Degree, will be admitted to the First LL.B. Examination on a certificate from the Principal of a School affiliated to this University and recognized for the First LL.B. Examination, endorsed on their application that they have attended, for a period not exceeding two terms, a further course of lectures in the subjects comprised in Papers III and IV sufficient, in the opinion of the Principal, to qualify them for admission to the Examination.

26. Candidates who have passed the First LL.B. Examination under the old regulations and have obtained the Degree of B.A. or B.Sc. will be admitted to the First LL.B. Examination on such certificate as is mentioned in Rule 25 and shall (at their option) be exempted from Papers I and II.

27. Candidates who have passed the First LL.B. Examination under the old regulations and have obtained the Degree of B.A. or B.Sc. in this University, or in a University recognized by this University, and have, after passing both the Final Examination for such Degree and the First LL.B. Examination, kept four terms in a School of Law affiliated to the University of Bombay and recognized for the Second LL.B. Examination, under regulation 12* of the old regulations, will not be required to keep any further terms and shall (at their option) be admitted simultaneously to the First and Second LL.B. Examinations and be exempted from Papers I and II at the First LL.B. Examination; provided, however, that candidates appearing simultaneously for both Examinations as aforesaid will not be declared to have passed the Second LL.B. Examination if they fail to pass the First LL.B. Examination.

* The regulation referred to was as follows :—

“12. No Candidate will be admitted to this Examination unless he shall have passed the First Examination for the Degree of LL.B. of this University, and shall have obtained the Degree of B.A. or B.Sc. in this University, or in a University recognized by this University, and shall have, after passing both the Final Examination for the Degree of B.A. or B.Sc. and the First Examination for the Degree of LL.B., kept four terms in a School of Law affiliated to this University.

[*N.B.*—This Regulation applies to all students who at the beginning of the second term of 1907 had not taken advantage of the old regulation.]”

Note.—The old regulation required students to pass only the B.A. or B.Sc. Examination before commencing to keep terms for the Second LL.B. Examination.

EXAMINATION FOR THE DEGREE OF LL.M.

28. The Examination for the Degree of LL.M. will be held annually in Bombay, commencing on the first Monday in March.

29. No Candidate shall be admitted to the Examination for the Degree of LL.M. unless he has passed, not less than two years previously, the Second Examination for the Degree of Bachelor of Laws in this University or a Degree Examination in Law in some other University accepted by the Syndicate as equivalent thereto.*

30. Candidates must forward an application to the Registrar at least two months before the Examination. (*Vide* Form 50).

31. Each Candidate must pay to the Registrar a fee of Rs. 150, for which a receipt will be given.

32. Candidates will be examined in any one of the following four branches :—

BRANCH I.

First Paper	Jurisprudence.
Second Paper	Roman Law.
Third Paper	International Law (Public).
Fourth Paper	International Law (Private).
Fifth Paper	Principles of Legislation.
Sixth Paper	Constitutional Law (British and Indian).

BRANCH II.

First and Second Papers	Hindu Law.
Third and Fourth Papers	Mahomedan Law.
Fifth Paper	The Law of Wills.
Sixth Paper	The Law of Marriage and Succession in British India.

BRANCH III.

First and Second Papers	Real Property (including the Law of Vendors and Purchasers, Mortgages, Gifts and Leases, and the Law relating to Mines and Minerals, Foreshore and Seashore).
Third Paper	Principles of Equity, with special reference to the Law of Trusts and Specific Relief.
Fourth Paper	The Law of Easements and Prescription.
Fifth and Sixth Papers	Customary and Statute Law relating to Land Tenure in British India.

BRANCH IV.

First Paper	The Law of Contracts in General.
Second Paper	The Law of Agency, Partnership and Companies.
Third Paper	Mercantile Law.
Fourth Paper	Maritime Law.
Fifth Paper	The Law of Torts.
Sixth Paper	The Law of Crimes.

* The LL.B. Degree Examination of each of the following Universities is accepted by the Syndicate as equivalent to the Second LL.B. Examination of this University :—

Calcutta, Madras, Punjab, Allahabad, Dacca.

33. To pass the Examination the Candidate must obtain 33 per cent. of the full marks in each paper and 50 per cent. of the total number of marks obtainable. Those of the successful Candidates who obtain 66 per cent. of the total marks obtainable will be placed in the First Division.

34. Failure to pass the Examination will not disqualify the Candidate for presenting himself at any subsequent Examination on a new application being forwarded and a fresh fee paid.

35. On the Friday in the ensuing week, or so soon thereafter as may be found practicable, the Examiners will publish lists of the successful Candidates in two classes, first and second, the names in each class being arranged in alphabetical order.

36. A Certificate will be given to those who pass the Examination. (*Vide* Form 51).

IV.—MEDICINE.

DEGREES OF M.B., B.S.

1. A Candidate for the Degrees of M.B., B.S. must produce a Certificate (*vide* Form 6), signed by the Principal of an affiliated Arts College, to the effect that he has satisfactorily carried out at such College the work appointed by the University for the first year after Matriculation, or have passed the Previous Examination of this University. He must have been engaged during five University years in professional study at a Medical College recognized by this University. A year spent by a Candidate in studying for the Intermediate Examination in Science at a College recognized for this purpose by the University will be counted as a year of professional study at a Medical College.

2. Candidates for the Degrees of Bachelor of Medicine and Bachelor of Surgery shall be required to pass three Examinations, namely—

- (i) The Intermediate Examination in Science in the D Group.
- (ii) The Intermediate Examination for the Degrees of Bachelor of Medicine and Bachelor of Surgery.
- (iii) The Final Examination for the Degrees of Bachelor of Medicine and Bachelor of Surgery.

3. Candidates who have, at any other Examinations of this University, passed in any of the subjects of the Intermediate Science Examination in the D Group or the Intermediate M.B., B.S. Examination, will, at their option be exempted from examination in these subjects at the respective Examinations, but, except as provided in regulations 8 and 20, they shall not be allowed to appear at the Intermediate or Final M.B., B.S. Examination, as the case may be, unless they have passed at the Intermediate Science or Intermediate M.B., B.S. Examination in all those subjects thereof in which they were not previously examined; provided also that the standards attained at the other Examinations are, in every respect, not lower than those required for the M.B., B.S. Examinations. Candidates so exempted shall not be classed or be eligible for University awards. Candidates who have passed in all the subjects of the Intermediate Science Examination in the D Group at any other Examination or Examinations of this University shall be exempted from the Intermediate Science Examination and considered as having completed one year of Medical study, provided also that the standards attained at that Examination or those Examinations are, in every respect, not lower than those required at the Intermediate Science Examination.

4. A Candidate failing in one or more subjects of an Examination for the Degrees of Bachelor of Medicine and Bachelor of Surgery shall, on his making a new application and paying a fresh fee, be re-admitted to the Examination at any future time, but, subject to the exceptions in regulations 8 and 20, no such Candidate shall be allowed to proceed to the next higher Examination until he has passed in all the subjects of the lower Examination.

5. The Intermediate and Final Examinations for the Degrees of Bachelor of Medicine and Surgery shall be held twice a year, but only such Candidates shall be eligible for University awards as have passed the Examinations held at the end of the academic year.

THE INTERMEDIATE EXAMINATION FOR THE DEGREES OF BACHELOR OF MEDICINE AND SURGERY.

6. The Intermediate Examination for the Degrees of Bachelor of Medicine and Surgery will be held twice a year at Bombay, commencing on the Monday following the Monday fixed for the commencement of the B.A. Honours Examination and on the last Monday in September.

7. No Candidate shall be admitted to this Examination unless he shall have—

(a) passed the Intermediate Science Examination in the group of Physics, Chemistry and Biology, and shall have been engaged in Medical study for at least two years after passing such Examination; and

(b) attended the following courses:—

In Anatomy.—Two courses of at least 50 lectures and demonstrations.

In Physiology and Histology.—Two courses of at least 50 lecture and a course of demonstrations including Practical Physiology.

In Materia Medica and Pharmacology.—A course of at least 50 lectures and demonstrations.

In Practical Pharmacy.—One course of at least three months producing a certificate of having a practical knowledge of the preparation and compounding of medicines.

(c) been engaged in dissection for two years, in the course of which he must have dissected the whole human body twice.

8. A student who has passed in all subjects but one at the Intermediate Science Examination in the D Group in conformity with regulation 11 of that examination will be allowed to keep terms for the Intermediate M.B., B.S. Examination and will be allowed to appear for the Intermediate M.B. B.S. Examination after keeping four terms, but will not be declared to have passed that Examination under any circumstances, unless he has passed in the remaining subject of the Intermediate Science Examination held either in a previous or in the same examination season.

9. Candidates must apply to the Registrar three weeks before the Examination. (*Vide Form 52*).

10. Each Candidate must pay to the Registrar, through the Principal of his College; or otherwise as the Syndicate may direct, a fee of Rs. 30, for which a receipt will be given.

11. Failure to pass the Examination will not debar the Candidate from appearing at any subsequent Examination on the submission of a new application and the payment of a fresh fee.

12. Candidates will be examined in the following subjects:—

(a) Anatomy, Descriptive and Practical.

(b) Physiology and Histology.

(c) Materia Medica, Pharmacology and Practical Pharmacy.

13. The Examination will consist of one written and one practical Examination in each subject.

14. To pass the Examination the Candidate must obtain 50 per cent. of the full marks in each subject. Should a candidate, however, fail to obtain the prescribed minimum for passing in one subject only, he shall be declared to have passed the Examination if, on a review of his marks, a majority of not less than two-thirds of the Examiners present at the final Meeting decide that he should pass, provided always that no candidate shall so pass unless he obtains at least 60 per cent. of the total marks in all subjects. Those of the successful Candidates who obtain 66 per cent. of the total marks obtainable will be placed in the First Class.

15. A candidate who has obtained 60 per cent. of the full marks in any subject at any one examination may, at his option, be excused from appearing in that subject at a subsequent examination and will be declared to have passed the whole examination when he has passed in all the subjects of the examination: provided that in the subject or subjects in which he appears on the last occasion he must obtain the minima in each subject required by regulation 14. Candidates passing the examination in this manner in compartments will not be eligible for a class or for any prize or scholarship to be awarded at the examination.

16. On the third Monday after the commencement of the Examination or on such other day as the Syndicate may from time to time appoint, the Examiners will publish a list of successful Candidates in two Classes, *viz.*, a First Class arranged in order of merit, and a Second Class arranged in alphabetical order.

17. A certificate will be given to those who pass the Examination. (*Vide* Form 53).

THE FINAL EXAMINATION FOR THE DEGREES OF BACHELOR OF MEDICINE AND SURGERY.

18. The Final Examination for the Degrees of Bachelor of Medicine and Surgery will be held twice a year in Bombay, commencing on the third Monday in June and the third Monday in November.

19. No Candidate shall be admitted to this Examination unless he shall have passed the Intermediate Examination for the Degrees of Bachelor of Medicine and Surgery and shall have been engaged in medical study for at least two years after passing such Examination.

20. A student who has passed in all subjects but one at the Intermediate M.B.,B.S. Examination in conformity with regulation 15 of that examination will be allowed to keep terms for the Final M.B.,B.S. Examination and will be allowed to appear for the Final M.B.,B.S. Examination after keeping four terms, but will not be declared to have passed that examination under any circumstances, unless he has passed in the remaining subject of the Intermediate M.B.,B.S. Examination held either in a previous or in the same examination season.

21. Each Candidate must have attended the following courses:—

In the Principles and Practice of Medicine and General Therapeutics.

—Two courses of at least 50 lectures each.

In Clinical Medicine.—One course of 15 lectures.

In the Principles and Practice of Surgery.—Two courses of at least 50 lectures each.

In Clinical Surgery.—One course of 15 lectures.

In the Principles and Practice of Midwifery.—Two courses of at least 50 lectures each.

In Diseases of Women and Children.—One course of at least 20 lectures.

In Diseases of the Eye.—One course of at least 25 lectures.

In Pathology.—One course of at least 30 lectures and a course of practical laboratory instruction.

In Bacteriology.—A course of at least 20 lectures and a course of practical laboratory instruction.

In Hygiene.—One course of at least 20 lectures.

In Medical Jurisprudence and Practical Toxicology.—One course of at least 50 lectures.

In Operative Surgery.—One course of at least 25 instructions.

In Mental Diseases.—One course of at least 10 lectures.

And have (1) dissected the Surgical regions and performed operations on the dead subject during two terms in Medicine;

(2) Attended hospital practice with Clinical lectures and instructions during a period of at least two academical years in the following manner, *viz.* :—

- (a) Two years at the Medical Practice of a recognized hospital or hospitals (during at least nine months of which he must have officiated as Clinical Clerk).
- (b) Two years at the Surgical Practice of a recognized hospital or hospitals (during at least nine months of which he must have officiated as Surgical Dresser).
- (c) Six months at the Obstetric and Gynæcological Practice of a recognized hospital or hospitals (during at least three of which he must have officiated as Obstetric Clerk), and must also have personally conducted at least twenty cases of labour.
- (d) Three months at the practice of Ophthalmology.
- (e) Three months at the practice of an Infectious Diseases Hospital with Clinical Instructions.
- (f) A certificate of having received practical instruction in Vaccination from one of the authorized Government Vaccinators.
- (g) Have attended the practice in the Out-Patient Departments, in Medicine, Surgery, Gynæcology, Ophthalmic Surgery, and Ear, Nose and Throat Diseases for two courses of three months each.

22. Candidates must apply to the Registrar three weeks before the Examination. (*Vide* Form 54).

23. Each Candidate must pay to the Registrar, through the Principal of his College, or otherwise as the Syndicate may direct, a fee of Rs. 60 for Parts I and II taken together, or Rs. 40 for each Part, if taken separately. A receipt will be given.

24. Candidates will be examined in the following subjects:—

- (1) The Principles and Practice of Medicine and Therapeutics.
- (2) The Principles and Practice of Surgery, including Surgical Anatomy.
- (3) The Principles and Practice of Midwifery and Diseases of Women and Children.
- (4) Medical Jurisprudence, including Practical Toxicology, and Mental Diseases.
- (5) General Pathology and Bacteriology.
- (6) Ophthalmology.
- (7) Hygiene.

25. The Examination will be held in two divisions, both of which may be passed at the same time, or each separately. Candidates who pass in all subjects but one will be exempted from a future examination in the subjects in which they have passed.* Candidates passing under the latter provision as well as those passing in the two divisions separately will not be eligible for Prizes or Medals, but those who pass the two parts separately will be arranged according to class with the other Candidates when they have passed the whole Examination.

PART I.

The Principles and Practice of Medicine, including Special Pathology and Therapeutics.

Medical Jurisprudence, including Practical Toxicology, and Mental Diseases.

General Pathology and Bacteriology.

Hygiene.

The Examination will be written, oral and practical, and will consist of—

- (a) One paper in each subject. •
- (b) A Clinical Examination in the wards of any recognized Hospital or Hospitals.
- (c) An Oral and Practical Examination in Medical Jurisprudence including Toxicology :—
 - (i) The Oral and Practical Examination in Medical Jurisprudence will include oral questions covering the whole field of the subject, the recognition of macro and microscopical specimens and the method of performing post-mortem examinations for medico-legal purposes. The candidate will also be expected to show the requisite knowledge for the treatment of cases of poisoning.
 - (ii) The Practical Examination in Toxicology will include the recognition of specimens of the common vegetable and mineral poisons.
- (d) Practical Medical Pathology, Bacteriology and Morbid Anatomy.
- (e) An Oral Examination in Hygiene. •

* This provision applies only to such candidates as offer all the seven subjects at one and the same examination and pass in all but one.

PART II.

The Principles and Practice of Surgery, and Surgical Anatomy.

The Principles and Practice of Midwifery and Diseases of Women and Children.

Ophthalmology.

The Examination will consist of—

- (a) One paper in each subject.
- (b) A Clinical Examination in the wards of any recognized Hospital or Hospitals.
- (c) Surgical Anatomy and Surgical Operations on the dead body.
- (d) The use of Surgical and Midwifery instruments and appliances.
- (e) Practical Surgical Pathology and Morbid Anatomy.

26. The Degree will not be conferred until both parts of the Examination have been passed.

27. If one part of the Examination only is taken up by a Candidate, he will be required, except as provided in regulation 30, to pass in all the subjects of that part at the same Examination.

28. Failure to pass the examination will not debar the candidate from appearing at any subsequent Examination on the submission of a new application and the payment of a fresh fee.

29. To pass the Examination the Candidate must obtain 50 per cent. of the full marks in Medicine, in Surgery, and in Midwifery, and 40 per cent. in each of the remaining subjects. Should a candidate, however, fail to obtain the prescribed minimum for passing in one subject only, he shall be declared to have passed the Examination if, on a review of his marks, a majority of not less than two-thirds of the Examiners present at the final Meeting decide that he should pass, provided always that no candidate shall so pass unless he obtains at least 60 per cent. of the total marks in all subjects. Those of the successful candidates who obtain 66 per cent. of the total marks obtainable will be placed in the First Class.

30. A candidate who has obtained 60 per cent. of the full marks in Medicine, Surgery or Midwifery, or who has obtained 50 per cent. of the full marks in any of the remaining subjects may, at his option, be excused from appearing in that subject at a subsequent examination and will be declared to have passed the whole examination when he has passed in all the subjects of the examination; provided that in the subject or subjects in which he appears on the last occasion he must obtain the minima in each subject required by regulation 29. Candidates passing the examination in this manner in compartments will not be eligible for a class or for any prize or scholarship to be awarded at the examination.

31. On the third Monday after the commencement of the Examination or on such other day as the Syndicate may from time to time appoint, the Examiners will publish a list of successful Candidates in two Classes, *viz.*, a First Class arranged in order of merit and a Second Class arranged in alphabetical order.

32. A certificate will be given to those who pass the Examination (*Vide* Form 55).

BACHELOR OF HYGIENE.

33. The Examination for the Degree of Bachelor of Hygiene will be held annually in Bombay, commencing on the Monday following the Monday fixed for the commencement of the B.A. Honours Examination.

34. No Candidate shall be admitted to this Examination unless he has passed not less than a year previously the Examination for the Degree of Bachelor of Medicine and Surgery of this University or of any University recognized by this University or taken the Degree of Licentiate of Medicine and Surgery of this University and unless he produce satisfactory testimonials to the following effect:—

That after passing any of the Examinations mentioned above—

- (a) he has attended during a period of six months courses of Practical Laboratory Instruction in (1) Chemistry, (2) Bacteriology, (3) Animal Parasitology (including the life history of those animals concerned in the transmission of diseases to man), and (4) the Pathology of those Diseases of Animals that are transferable to man; *
- (b) he has during six months (of which at least three months shall be distinct and separate from the period of the above Laboratory Instruction) been diligently engaged in acquiring a practical knowledge of the duties, routine and special, of Public Health Administration under the supervision of an approved Health Officer; †
- (c) he has attended during three months the practice of an Hospital for Infectious Diseases of at least 50 beds at which opportunities are afforded for the study of Clinical instruction in Infectious Diseases and methods of Administration.

35. Candidates must apply to the Registrar two months before the Examination (*Vide* Form 56).

36. Each Candidate, whether offering both Parts of the Examination or one Part only, must pay to the Registrar a fee of Rs. 75. A receipt will be given.

37. The Examination will be held in two Parts, both of which may be passed at the same time or each separately, Part I first and Part II afterwards. If any Candidate taking both Parts together passes in Part I or Part II, he will be exempted from that Part of the Examination in which he has passed.

Part I, which will consist of two papers and a Practical Examination in the Laboratory work and a *visà voce* Examination, will have reference to the General Principles of Sanitary Science and will comprise the following subjects:—

The elements of Chemistry, Physics and Geology, methods of chemical analysis, and in particular the analysis of air and water, including a knowledge of the interpretation of results. The laws of heat and the elements of pneumatics, hydrostatics and hydraulics, in their application to warming, ventilation, water-supply and drainage. The geological and other conditions determining the healthiness of sites for dwellings, sources, storage, and purification of water-supply. The elements of Meteorology in relation to health, meteorological instruments, their construction and use. Principles of building construction in their application to dwellings, factories, hospitals and schools. The disposal of sewage and refuse and the general

* The Laboratories recognized for the above course are:—

i. Grant Medical College Laboratories.

ii. Bombay Municipal Laboratory (for Chemical purposes only).

The Laboratory Instruction and practical knowledge of Public Health Administration given in any part of the United Kingdom and approved by the General Medical Council of Education will be accepted.

† The Health Officers approved at present by the Syndicate are the Health Officers of Bombay, Calcutta and Madras. The Laboratory Instruction and practical knowledge of Public Health Administration given in any part of the United Kingdom and approved by the General Medical Council of Education will be accepted.

principles of Sanitary Engineering. The reading and interpretation of Geological and Ordinance Survey Maps. Disinfectants, their chemical and bacteriological efficiency and use, Dietetics and the chemical and microscopical examination of foods, and the detection of the commoner forms of adulterations. The methods of bacteriological investigation and analysis. The bacteriology of air, water, food and soil. Animal parasitology and life history and recognition of those animals concerned in the transmission of disease to man. The general pathology of infection and of the diseases of animals that are transmissible to man. Nature of immunity and protection from infectious diseases.

Part II, which will consist of two papers and a Practical Examination in and reporting on subjects connected with out-door sanitary work and a *viva voce* Examination, will have reference to State Medicine and applications of Pathology and Sanitary Science and will comprise the following subjects :—

Laws and statutes relating to Public Health.* The Model By-laws of the Local Government Board and Regulations for prevention of Plague, Cholera, and Yellow Fever. Sanitation of dwellings, schools, factories and workshops and of villages and towns. Inspection of slaughter-houses, cow-sheds, etc. Inspection of meat and other articles of food. General epidemiology with special reference to the origin, pathology, symptoms, propagation, geographical distribution and prevention of the epidemic, endemic and other infectious diseases, both of temperate and tropical climates. The methods applicable to the medical investigation of epidemics. Effects on health of overcrowding, vitiated air, impure water, polluted soils and bad or insufficient food. Unwholesome trades and occupations and the diseases to which they give rise and the prevention of nuisances arising therefrom. Nuisances injurious or dangerous to health. Nature and origin of parasitic diseases. The effects on health of season and climate. Duties of sanitary authorities and their officers. The principles and methods of vital statistics in relation to Public Health.

38. The Degree will not be conferred until both Parts of the Examination have been passed.

39. As soon after the conclusion of the Examination as may be practicable the Examiners shall report whether the Candidates have passed or failed.

40. A Certificate will be given to those who pass the Examination. (*Vide* Form 57).

DOCTOR OF MEDICINE.

41. The Examination for the Degree of Doctor of Medicine will be held annually at Bombay, commencing on the first Monday in March. The Examination is open to those who have passed the M.B., B.S. Degrees Examination of the University of Bombay or of any University recognized by this University, and to the Licentiates of Medicine and Surgery of this University only.

* Candidates will be examined in the provisions of the English statutes relating to Public Health, *viz.*—(i) The Public Health Act (1875); (ii) The Public Health Acts Amendment Act (1890); (iii) The Housing of the Working Classes Act (1890); (iv) Factory and Workshops Act (1901), and the following Acts of Bombay :—

- (a) City of Bombay Municipal Act (1888) amended to date.
- (b) Epidemic Diseases Act, Bombay.
- (c) Municipal Act relating to towns in the Bombay Presidency.
- (d) Factory and Workshop Act (Government of Bombay).

42. No Candidate will be admitted to this Examination unless he has taken the Degree of L.M. & S. or M.B., B.S. and produces a certificate showing that—

(i) he, having passed the L.M. & S. Examination, or having passed the M.B., B.S. Degrees Examination, has been engaged in not less than five years' continuous practice of the Medical profession subsequent to his passing the Examination for the L.M. & S. degree, or the M.B., B.S. degrees, as the case may be, and that he has been engaged for not less than a year in the post-graduate study of the particular branch in which he offers the Examination, at a recognized Hospital or Institute*,

or

(ii) he, after his passing the Examination for the M.B., B.S. degrees, or being a graduate in Arts or Science of this University or a University recognized by this University, after his passing the Examination for the degree of L.M. & S., has been engaged in continuous practice of the Medical profession for not less than three years, two of which at least he must have passed in post-graduate study at a recognized Hospital or Institute*,

(iii) he has been engaged in continuous practice of the Medical profession for three years after his passing the Examination for his Medical Degree, one of which at least he must have passed in post-graduate study at a recognized Hospital or Institute*, if he has taken a First Class at the M.B., B.S. Examination or, being a graduate in Arts or Science of this University or a University recognized by this University, has taken a First Class at the L.M. & S. Examination.

Each Candidate must also produce testimonials signed by at least two Doctors of Medicine or Masters of Surgery showing that he is in habits and character a fit and proper person for the Degree of Doctor of Medicine.

43. Candidates must apply to the Registrar two months before the Examination (*Vide* Form 58).

44. Each Candidate must pay to the Registrar a fee of Rs. 200, for which a receipt will be given.

45. Failure to pass the Examination will not disqualify the Candidate for presenting himself at any subsequent M.D. Examination on a new application being forwarded and a fresh fee paid. On the same conditions a Candidate who has already passed the Examination may appear on a subsequent occasion in a different branch.

46. Candidates shall be examined in one of the following Branches :—

BRANCH I—MEDICINE, INCLUDING MENTAL DISEASES AND PATHOLOGY.

- (a) Medicine, including Mental Diseases. Two papers, of which a part may be a subject for commentary on a Medical case.
- (b) Pathology, including Mental Pathology One paper.
- (c) A Clinical Examination, with the examination of Pathological specimens.
- (d) A *visd voce* Examination at the discretion of the Examiners.

* By the term "recognized Hospital or Institute" is meant an Hospital or Institute recognized by the University of Bombay for the purposes of this examination.

BRANCH II—MIDWIFERY, INCLUDING DISEASES OF WOMEN AND CHILDREN

- (a) Midwifery and Diseases of Women. Two papers, a part of which may be a subject for commentary on a case included in these two subjects (a) and (b).
- (b) Diseases of Children, including the Pathology of these Diseases. One paper.
- (c) Clinical Examination, with the examination of Pathological specimens.
- (d) A *vivâ voce* Examination at the discretion of the Examiners.

47. On or before the second Monday after the commencement of the Examination, the Examiners shall report whether the Candidates have failed, or passed, or passed with distinction.

48. A certificate will be given to those who pass the Examination (*Vide* Form 59).

DOCTOR OF HYGIENE.

49. The Examination for the Degree of Doctor of Hygiene will be held annually in Bombay, commencing on the first Monday in March.

50. This Examination is open only to such candidates as have passed at least two years previously the Examination for the Degree of Bachelor of Hygiene of this University or a similar examination of any other University accepted by the Syndicate as equivalent thereto.

51. No Candidate shall be admitted to this Examination unless he produces a certificate of having attended since his obtaining the Degree of Bachelor of Hygiene out-door and in-door work of a Medical Officer of Health for one year under the supervision of an approved Health Officer* or of having been employed for at least one year as Health Officer of a town of not less than 100,000 inhabitants.

Each Candidate must also produce testimonials signed by at least two Doctors of Medicine or Masters of Surgery showing that he is in habits and character a fit and proper person for the Degree of Doctor of Hygiene.

52. Candidates must apply to the Registrar two months before the Examination (*Vide* Form 60).

53. Each Candidate must pay to the Registrar a fee of Rs. 200, for which a receipt will be given.

54. The Examination will be conducted as follows :—

- (i) Public Health—Three papers and a Practical and an Oral Examination.
 - (a) Sanitation and Sanitary Medicine—Two papers.
 - (b) Practical Sanitation, including Sanitary Engineering in relation to Public Health and Vital Statistics—One paper.
- (ii) Sanitary Laws of England and India—One paper and an Oral Examination.

Candidates will be required to show a competent knowledge of Sanitary Science in all its branches. The scope of the Examination will be fuller than that for the Degree of Bachelor of Hygiene and will also include

* The Health Officers approved at present by the Syndicate are the Health Officers of Bombay, Calcutta and Madras.

legislative measures concerning food stuffs and control of the same in different countries; preservation of food; food during famine and effects on health; Practical Sanitation, including Sanitary Engineering; Personal Hygiene; clothing; physical education; Hygiene of childhood and School Hygiene; Hygiene of traffic; Hygiene of markets, fairs, famine camps, etc.; Marine Hygiene; Professional Hygiene and care of Working Classes; Demography; Geography of infectious diseases; History of previous epidemics and lessons taught by them.

Candidates will be required to solve sanitary problems involving Mathematics up to the standard of the First Year's Course in Arts and use of Logarithms.

55. On the third Monday after the commencement of the Examination the Examiners shall report whether the candidates have failed, or passed, or passed with distinction.

56. A Certificate will be given to those who pass the Examination (*Vide* Form C1).

MASTER OF SURGERY.

57. The Examination for the Degree of Master of Surgery will be held annually at Bombay, commencing on the first Monday in March. The Examination is open to those who have passed the M.B., B.S. Degrees Examination of the University of Bombay or of any University recognized by this University, and to the Licentiates of Medicine and Surgery of this University only.

58. No Candidate will be admitted to this Examination unless he has taken the Degree of L. M. & S. or M.B., B.S. and produces a certificate showing that—

(i) he, having passed the L. M. & S. Examination, or having passed the M.B., B.S. degrees Examination, has been engaged in not less than five years' continuous practice of the Medical profession, subsequent to his passing the Examination for the L. M. & S. degree, or the M.B., B.S. degrees, as the case may be, and that he has been engaged for not less than a year in the post-graduate study of Surgery at a recognized Hospital or Institute*,

or

(ii) he, after his passing the Examination for the degrees of M.B., B.S., or being a graduate in Arts or Science of this University or a University recognized by this University, after his passing the Examination for the degree of L. M. & S., has been engaged in continuous practice of the Medical profession for not less than three years, two of which at least he must have passed in post-graduate study at a recognized Hospital or Institute*,

or

(iii) he has been engaged in continuous practice of the Medical profession for three years after his passing the Examination for his Medical Degree, one of which at least he must have passed in post-graduate study at a recognized Hospital or Institute* if he has taken a First Class at the M.B., B.S. Examination or, being a graduate in Arts or Science of this University or a University recognized by this University, has taken a First Class at the L. M. & S. Examination.

Each Candidate must also produce testimonials signed by at least two Doctors of Medicine or Masters of Surgery showing that he is in habits and character a fit and proper person for the Degree of Master of Surgery.

* By the expression "recognized Hospital or Institute" is meant an Hospital or Institute recognized by the University of Bombay for the purposes of this Examination.

59. Candidates must apply to the Registrar two months before the Examination (*Vide Form 62*).

60. Each Candidate must pay to the Registrar a fee of Rs. 200, for which a receipt will be given.

61. Failure to pass the Examination will not disqualify the Candidate for presenting himself at any subsequent M. S. Examination on a new application being forwarded and a fresh fee paid.

62. Candidates shall be examined in Surgery, including Operative Surgery in all its branches, and Regional Anatomy. This Examination shall consist of—

- (a) Surgery. Two papers, of which a part may be a subject for commentary on a Surgical case.
- (b) Surgical Anatomy and Pathology of Diseases, particularly Surgical—One paper.
- (c) Clinical and Practical Examination with operations on the dead body.
- (d) A *viva voce* Examination at the discretion of the Examiners.

63. On or before the second Monday after the commencement of the Examination, the Examiners shall report whether the Candidates have failed, or passed, or passed with distinction.

64. A certificate will be given to those who pass the Examination (*Vide Form 63*).

GENERAL.

1. No question shall be put at any University Examination calling for a declaration of religious belief on the part of the Candidate; and no answer or translation given by any Candidate shall be objected to on the ground of its expressing any peculiarity of religious belief.

2. The following are the Standards for passing the Examinations:—

School-Leaving Examination.

To pass the Examination, a Candidate, who offers to be examined for the School-Leaving Examination certificate which is either accepted by the University of Bombay for the purposes of Matriculation or which shall qualify him for Government Service, shall obtain at least 33 per cent. of the full marks in each paper in English and in the paper in Additional language, 25 per cent. of the full marks in each of the other subjects (excepting, however, subject 10 in which he must obtain 25 per cent. of the full marks separately in the sections dealing with (i) Book-keeping and (ii) Commercial Correspondence), and 33 per cent. in the grand total.

All other candidates for the Examination shall, to pass it, obtain at least 33 per cent. of the full marks in each subject in which they offer to be examined.

Should a Candidate, however, fail by not more than three marks in one paper only in English or by any number of marks in one of the other subjects, he shall be declared to have passed the Examination if, on a review of his marks, a majority of not less than two-thirds of the Examiners present at the final meeting decide that he should pass, provided always that no Candidate shall so pass unless he obtains at least 40 per cent. of the total marks in all subjects.

Intermediate Examination in Arts.

To pass the Examination the Candidate must obtain 30 per cent. of the full marks in the paper on English Composition, 30 per cent. in all the three papers in English (taken together) and 30 per cent. in each of the other subjects. Should a Candidate, however, not obtain 30 per cent. of the full marks in one head of passing only, he shall be declared to have passed the Examination, if, on a review of the Candidate's marks, a majority of not less than two-thirds of the Examiners present decide that the Candidate

should pass, provided always that no Candidate shall so pass unless he obtains at least 40 per cent. of the total marks in all subjects. Those of the successful Candidates who obtain 60 per cent. of the total marks obtainable will be placed in the First Class, and those obtaining 45 per cent. in the Second Class.

B.A. Examination.

Candidates who appear only for the Pass Degree Examination must, in order to pass the Examination, obtain at least 30 per cent. of the full marks separately in Compulsory English and in the Optional Group. In Group (e) or (f) candidates must also obtain at least 30 per cent. of the full marks allotted to the practical examinations taken together.

Should a candidate, however, not obtain 30 per cent. of the full marks either in Compulsory English or in his Optional Group, he shall be declared to have passed the Examination if, on a review of his marks, a majority of not less than two-thirds of the Examiners present decide that he should pass, provided always that no candidate shall so pass unless he obtains an aggregate of at least 40 per cent. of the total marks obtainable.

Candidates who appear for the Honours Examination in English, Sanskrit, Latin, Persian, Arabic, French, German, Avesta and Pahlavi, History and Economics or Mental and Moral Philosophy must obtain at least 30 per cent. of the full marks separately (a) in Compulsory English and (b) in the four optional papers (taken together) which they have in common with the candidates for the Pass Examination. Candidates will be declared to have passed with First Class Honours if they obtain not less than 60 per cent. of the total number of marks in all the Honours papers as defined in paragraph 3, regulation 49, of the subject or group in which they appear for Honours, and with Second Class Honours if they obtain not less than 40 per cent. of the total number of marks in all the above papers. Those who obtain less than 40 per cent. but have obtained not less than 30 per cent. in the papers which they have in common with the Pass Examination will be entitled only to the Pass Degree and will be placed in the same list with those who have obtained the Pass Degree; and the regulation in the preceding paragraph shall apply to the case of such candidates, their Pass papers only being considered.

Of those candidates who appear for Honours in Mathematics, Physics, and Chemistry, or Botany and Zoology, and have obtained not less than 30 per cent. of the full marks in Compulsory English, such as have obtained not less than 60 per cent. in their Honours subject will be declared to have obtained First Class Honours, and such as have obtained not less than 40 per cent. will be declared to have obtained Second Class Honours. Those who obtain less than 40 per cent. will be declared to have obtained a Pass Degree if the Examiners of the Group recommend that the Pass Degree be given. In Groups (e) and (f), candidates for Honours, in order to be entitled to Honours, must obtain also at least 30 per cent. of the full marks in the written papers and 40 per cent. in the practical examinations in each subject of the group. Should a Candidate, however, fail under not more than one head of passing, he shall be declared to have passed the Pass Examination if, on a review of his marks, a majority of not less than two-thirds of the Examiners present decide that he should pass, provided always that no Candidate shall so pass unless he obtains an aggregate of at least 40 per cent. of the total marks obtainable.

M.A. Examination.

To pass the Examination the Candidate must obtain (a) one-fourth of the full marks in each paper, and (b) three-eighths of the total marks obtainable. Those of the successful candidates who obtain 65 per cent. of the total marks obtainable will be placed in the First Class, and those obtaining 50 per cent. in the Second Class.

Intermediate Examination in Commerce.

To pass the Examination the Candidate must obtain 40 per cent. of the full marks in each subject. Should a Candidate fail to obtain 40 per cent. of the full marks in one only of the following subjects, General Elements of Economics, Geography, Accounting, he should be declared to have passed the Examination if, on a review of his marks, a majority of not less than two-thirds of the Examiners present at the final Meeting decide that he should pass, provided always that no Candidate shall so pass unless he obtains at least 50 per cent. of the total marks in all subjects. Those of the successful candidates who obtain 66 per cent. of the total marks obtainable will be placed in the First Class and those obtaining 50 per cent. in the Second Class.

B.Com. Examination.

To pass the Examination the Candidate must obtain 40 per cent. of the full marks in each subject. Should a Candidate, however, fail to obtain 40 per cent. of the full marks in one subject only, he shall be declared to have passed the Examination if, on a review of his marks, a majority of not less than two-thirds of the Examiners present at the final Meeting decide that he should pass, provided always that no Candidate shall so pass unless he obtains at least 50 per cent. of the total marks in all subjects. Those of the successful candidates who obtain 66 per cent. of the total marks obtainable will be placed in the First Class, and those obtaining 50 per cent. in the Second Class.

B. T. Examination.

A candidate for Part I of the Examination must obtain, in order to pass, 40 per cent. of the marks allotted to each of the three subjects specified in Rule 91. A candidate for Part II must obtain, in order to pass, at least 50 per cent. of the total marks. Candidates who obtain 60 per cent. of the total in both Parts taken together will be placed in the First Class.

Candidates who fall short of the minimum required to pass, in one subject as in Rule 91, Part I, by not more than 5 per cent. and who obtain an aggregate of at least 50 per cent. of the total marks obtainable in that Part, shall, on the recommendation of a majority of not less than two-thirds of the Examiners present at the final meeting in connection with that Part, be declared to have passed the Examination.

Intermediate Examination in Science.

To pass the Examination the Candidate must obtain 33 per cent. of the full marks in each paper and in each practical examination. In Mathematics a Candidate must obtain 33 per cent. of the total marks. Should a Candidate, however, not obtain 33 per cent. of the full marks in one paper or practical examination *only*, or in Mathematics *only*, he may be declared by the Examiners to have passed the Examination, provided he obtains at least 40 per cent. of the total marks in all subjects taken together. Those of the successful candidates who obtain 60 per cent. of the total marks obtainable will be placed in the First Class and those obtaining 48 per cent. in the Second Class.

B.Sc. Examination.

To pass the Examination a Candidate must obtain in each subject 33 per cent. marks separately in the papers taken together, and in the practical examinations taken together, or in Mathematics in all the papers taken together. Should a Candidate fail in either the practical or written examination in the subsidiary subject only, he may be declared by the Examiners to have passed the examination, provided he obtains at least 40 per cent. of the total marks in his principal subject. Those of the successful candidates who obtain 48 per cent. of the total marks in their principal subject will be placed in the Second Class, and those who obtain 60 per cent. in the First Class. Candidates who obtain 66 per cent. in their principal subject will be declared to have passed with distinction in that subject.

M.Sc. Examination.

Successful candidates will be divided into those who pass and those who pass with distinction.

Intermediate Examination in Agriculture.

All candidates in the Intermediate Examination in Agriculture must obtain, in order to pass, 40 per cent. of the total number of marks obtainable, and 33 per cent. of the number obtainable in the papers in each subject and in each practical examination. Candidates who obtain 60 per cent. of the total will be placed in the First Class.

B.Ag. Examination.

All candidates in the Examination for the Degree of Bachelor of Agriculture must obtain, in order to pass, 45 per cent. of the total number of marks obtainable; 40 per cent. of the marks obtainable in Agriculture, Agricultural Chemistry and the Optional Subjects; and 33 per cent. in the remaining subjects. Candidates who obtain 66 per cent. of the total will be placed in the First Class.

First Examination in Engineering.

To pass the Examination the Candidate must obtain one-fourth of the full marks in Mathematics, in the paper of Heat, Sound and Light, and in the paper of Chemistry; one-third of the full marks in the paper of Mechanics, in Drawing and in Engineering; one-fourth of the full marks in the Practical Examination in each of the subjects, Physics and Chemistry; and 40 per cent. of the total marks obtainable. Those of the successful candidates who obtain 60 per cent. of the total marks obtainable will be placed in the First Class.

Second Examination in Engineering (Civil).

To pass the Examination the Candidate must obtain one-fourth of the full marks in Mathematics, in the paper and in the Practical Examination in Physics; one-third of the full marks in Mechanics, Engineering Drawing, in the paper and in the Practical of Surveying, and in the papers of Masonry and Foundations and of Roads and Railways; and 40 per cent. of the total marks obtainable. Those of the successful candidates who obtain 60 per cent. of the total marks obtainable will be placed in the First Class.

Examination for the Degree of Bachelor of Engineering (Civil).

To pass the Examination the Candidate must obtain one-third of the full marks in the paper and in the Practical of Geology and in Prime Movers; 40 per cent. of the full marks in Mechanics, Hydraulics and Irrigation, Drawings and Project, and Water-supply and Sanitary Engineering; and 45 per cent. of the total marks obtainable. Those of the successful candidates who obtain two-thirds of the total marks obtainable will be placed in the First Class.

Second Examination in Engineering (Mechanical).

To pass the Examination the Candidate must obtain one-fourth of the full marks in Mathematics, in the paper and in the Practical Examination in Physics, and in Electrical Engineering; one-third of the full marks in Mechanics, Machine Drawing, Prime Movers and in Workshop Practice; and 40 per cent. of the total marks obtainable. Those of the successful candidates who obtain 60 per cent. of the total marks obtainable will be placed in the First Class.

Examination for the Degree of Bachelor of Engineering (Mechanical).

To pass the Examination the Candidate must obtain one-third of the full marks obtainable in Mechanics and in Electrical Engineering; 40 per cent. of the full marks in Machine Drawing and Design, Prime Movers, Hydraulics and Hydraulic Machinery, and Workshop Appliances and Practice; and 45 per cent. of the total marks obtainable. Those of the successful candidates who obtain two-thirds of the total marks obtainable will be placed in the First Class.

Second Examination in Engineering (Electrical).

To pass the Examination the Candidate must obtain one-fourth of the full marks in Mathematics, in the paper and in the Practical Examination in Physics, in Mechanics and in Workshop Practice; one-third of the full marks in Machine Drawing, Prime Movers, in the paper and in the Practical in Electrical Engineering; and 40 per cent. of the total marks obtainable. Those of the successful candidates who obtain 60 per cent. of the total marks obtainable will be placed in the First Class.

Examination for the Degree of Bachelor of Engineering (Electrical).

To pass the Examination the Candidate must obtain one-third of the full marks obtainable in Prime Movers, Hydraulics and in Workshop Practice; 40 per cent. of the full marks in Electrical Design, Electrical Engineering and in Electrical Laboratory; and 45 per cent. of the total marks obtainable. Those of the successful candidates who obtain two-thirds of the total marks obtainable will be placed in the First Class.

First LL.B. and Second LL.B. Examinations.

To pass the Examination the Candidate must (a) obtain one-third of the full marks in each paper, and (b) obtain one-half of the total marks obtainable. Should a Candidate, however, fail to obtain the prescribed minimum for passing in one paper only, he shall be declared to have passed the Examination if, on a review of his marks, a majority of not less than two-thirds of the Examiners present at the final Meeting decide that he should pass, provided always that no Candidate shall so pass unless he obtains at least 60 per cent. of the total marks in all papers. Those of the successful candidates who obtain two-thirds of the total marks obtainable will be placed in the First Division.

LL.M. Examination.

To pass the Examination the Candidate must obtain 33 per cent. of the full marks in each paper and 50 per cent. of the total number of marks obtainable. Those of the successful candidates who obtain 66 per cent. of the total marks obtainable will be placed in the First Class.

Intermediate M.B., B.S. Examination.

To pass the Examination the Candidate must obtain 50 per cent. of the full marks in each subject. Should a Candidate, however, fail to obtain the prescribed minimum for passing in one subject only, he shall be declared to have passed the Examination if, on a review of his marks, a majority of not less than two-thirds of the Examiners present at the final Meeting decide that he should pass, provided always that no Candidate shall so pass unless he obtains at least 60 per cent. of the total marks in all subjects. Those of the successful Candidates who obtain 66 per cent. of the total marks obtainable will be placed in the First Class.

Final M.B., B.S. Examination.

To pass the Examination the Candidate must obtain 50 per cent. of the full marks in Medicine, in Surgery, and in Midwifery, and 40 per cent. in each of the remaining subjects. Should a Candidate, however fail to obtain the prescribed minimum for passing in one subject only, he shall be declared to have passed the Examination if, on a review of his marks, a majority of not less than two-thirds of the Examiners present at the final Meeting decide that he should pass, provided always that no Candidate shall so pass unless he obtains at least 60 per cent. of the total marks in all

subjects. Those of the successful candidates who obtain 66 per cent. of the total marks obtainable will be placed in the First Class.

3. Candidates at the Intermediate Agriculture, F. E. and S. E. Examinations who fall short of the minimum required to pass under one head by not more than three per cent. and who obtain an aggregate of at least 50 per cent. of the total marks obtainable shall, on the recommendation of a majority of not less than two-thirds of the Examiners present at the final Meetings, be declared to have passed the Examinations.

4. Candidates at the B.Ag. and B.E. Examinations who fall short of the minimum required to pass under one head by not more than three per cent. and who obtain an aggregate of at least 55 per cent. of the total marks obtainable shall, on the recommendation of a majority of not less than two-thirds of the Examiners present at the final Meetings, be declared to have passed the Examinations.

5. Candidates on application and on payment of a fee* shall be furnished with their Examination marks.

* The fee for the supply of marks in each head of passing is Rs. 2. Applications for the supply of marks under this provision may be made at any time after the declaration of the results of examinations.

The fee for the supply of marks in each individual paper and practical examination is Rs. 5. Applications for marks under this provision must be made within a period of six months after the declaration of results. Other wise, they will not be entertained.

V

FIRST LL. B. EXAMINATION, OCTOBER 1922 (177).*First Division (in order of merit).*

Kaji, Jayadevlal Atmaram.
Dehaikulkarni, Madhav Ramrao.

Bagali, Muttappa Sidlingappa.

Second Division.

Almoula, Krishnalal Bapalal.
Appajiah, Narayanaswamy.
Bangalore, Thimmappa Kempanna.
Bellary, Venkat Shrinivasrao.
Bhave, Damodar Ganesh.
Bulsara, Rustom Sorabji.
Butala, Ganpatlal Bapulal.
Butala, Sundar Metha.
Castellino, Ignatius.
Chakranarayan, Gaius Nabothrao.
Chaugule, Baburao Annappa.
Chindhado, Sadashiv Govind.
Damania, Maneklal Gulabchand.
Damble, Yashwant Dinkar.
Dangarwala, Manilal Chimanlal.
Dave, Gaurishankar Vidyaram.
Deshmukh, Madhav Dinkar.
Deshmukh, Madhukar Dwarkanath.
Deshpande, Balkrishna Pandharinath.
Deurkar, Keshav Ramchandra.
Dharap, Vinayak Chintaman.
Dhekno, Bhalchandra Narayan.
Dhruva, Pralhadbhai Anandshankar.
Dhurandhar, Sumant Moghvarna.
Doraiswami, Seetharam Vaidyanath.
Erode, Venkataramana Iyer Pattabhi Ramaier.
Gadgil, Kondo Vishnu.
Gokhale, Ramchandra Vishwanath.
Hato, Anandrao Ramkrishna.
Huilgolkar, Krishnarao Laxmanrao.
Jaripatke, Rangnath Pandharinath.
Joshi, Gangadhar Krishna.
Joshi, Nilkanth Parashram.
Joshi, Shriram Narayan.
Kadaba, Srinivasa Murthy.
Kalke, Rajaram Raghunath.
Kesari, Mahadev Shidheswar.
Kesar, Keshav Ganesh.
Khan, Akbar Muhammad.
Kikkeri, Visveswariah.

Kothari, Harilal Talakchand.
Kothavale, Yeshwant Baburao.
Krishna Aiyar, K. R.
Kulkarni, Balvant Bhimrao.
Kulkarni, Shankar Rajaram.
Lakado, Raghunath Malhar.
Madon, Rustomji Dorabji.
Marathe, Bhaskar Sakharan.
Medora, Nariman Manekji.
Monteiro, Edwin Denys.
More, Jayawant Ghanashyam.
Mughal, Abdulrahman Wahidbux.
Nagarkatti, Shripad Subrao.
Nanavati, Firoze Dinshaw.
Nathani, Hussein, Karmali.
Nuggehalli, Krishnamurti.
Paricharak, Gangadhar Govind.
Pathara, Waman Shamrao.
Patil, Basangouda Devangouda.
Patil, Mahadev Anant.
Patki, Narayan Dattatraya.
Phansalkar, Shripad Dattatraya.
Phatak, Vithal Balvant.
Saraiya, Gulabdas Trikamdas.
Satpute, Chandrakant Narayan.
Shah, Khimchand Jhaverchand.
Shah, Lallubhai Jivandas.
Sheth, Sakorlal Motiram.
Shetye, Ramkrishna Murari.
Shirsath, Damodar Kondaji.
Straiya, Abdulkarim Mohmed Omer.
Thacker, Dwarkadas Sunderdas.
Thakar, Harilal Ghelabhai.
Thakore, Dalpatram Dhyabhai.
Tilve, Mangesh Vasudev.
Valimbe, Vaman Chintaman.
Valsangkar, Vishnu Shamrao.
Vasavada, Vinodrai Trambakrai.
Velkar, Chandrakant Balmakund.
Vyas, Revashankar Navalshankar.

Pass.

Abhyankar, Chintaman Damodar.
Abhyankar, Sitaram Mahadev.
Achyuta Menon, M.
Adhikari, Sanmukhlal Maganlal.
Amin, Bhailal Ghelabhai.
Barve, Narayan Sadashiv.
Barve, Ramkrishna Ganesh.
Belvady, Chandrasekhariya.
Betai, Kalyanji Govardhandas.

Bhargara, Erach Pestonji.
Bhat, Keshav Upendra.
Bhatt, Ambashankar Prabhashankar.
Bhide, Ganesh Narayan.
Bindiganavale, Gopalakrishnaiongar.
Chatpar, Sundardas Jethanand.
Chaudhari, Shankar Vithal.
Chincholkar, Abraham Moses.
Chitre, Govind Kashinath.

Pass—contd.

Couto, Victor Francis.
 DeCruz, Cosmas Joseph.
 Desai, Dahyalal Hiralal.
 Desai, Dhanprasad Narsingprasad.
 Desai, Manubhai Umiadhar.
 Desai, Vishnuprasad Hariprasad.
 Deshpande, Gundo Sadashiv.
 Deshpande, Shamrao Keshavrao.
 Deshpande, Vithal Rangrao.
 Dev, Ganesh Shankar.
 Dholakia, Kamleshankar Labhshankar.
 Dhongde, Vishnu Vinayak.

VIII.

Affiliation.

I.—RECOGNIZED UNIVERSITIES.

The Universities of Great Britain and Ireland, and of India*, in all the Faculties in which Degrees are granted by them respectively.

II.—RECOGNITION OF THE UNIVERSITY OF BOMBAY
BY THE UNIVERSITIES OF OXFORD
AND CAMBRIDGE.

The University of Bombay has been admitted by the University of Oxford to the privileges of a Colonial University, under the provisions of *Statt. Tit. II. Sect. VII.* "On Colonial and Indian Universities."

The University of Cambridge also has passed the following resolutions relating to the affiliation of the University of Bombay :—

1. That the University of Bombay be adopted as an Institution affiliated to the University of Cambridge;

2. That any matriculated student of the University of Bombay be entitled to be admitted to the privileges of Affiliation who has (1) in accordance with the regulations of that University studied for not less than two years at one or more Colleges or Institutions for the education of adult students recognized in Arts; (2) passed the Matriculation and Previous Examinations, and also passed in the first class in the Intermediate Examination for the Degree of Bachelor of Arts or in the first or second class in the Examination for the Degree of Bachelor of Arts of that University; provided that in one of these Examinations or in some other Examination held by that University he has satisfied the Examiners in Greek, Latin, Sanskrit, Arabic or Persian.

III.—AFFILIATION OF INSTITUTIONS IN THE DIFFERENT
FACULTIES.

[See Sections 21, 22, 23 and 24 of the Indian Universities Act (VIII of 1904), pp. 38-39].

* By the expression "Universities of India" is meant all the statutory Indian Universities and the University of Mysore. The following is a list of statutory Universities in India :—Calcutta, Madras, Bombay, Panjab, Allahabad, Benares (Hindu), Patna, Dacca, Aligarh (Muslim), Rangoon, Lucknow, Delhi, Nagpur.

IV.—INSPECTION OF COLLEGES.

1. An inspection of every affiliated College shall be held under section 23, sub-section (2) of the Indian Universities Act of 1904, at least once in three years and at other times when, in the judgment of the Syndicate, special reasons exist in the case of any College for such inspection.

2. The inspection will be directed to the purpose of ascertaining if the main conditions of affiliation are maintained or not.

3. If the report submitted by the persons deputed to inspect calls for any action by the Syndicate, the Syndicate shall, after full enquiry, specify definitely the point or points in which they consider the College deficient and fix a time to be extended (upon good cause shown) within which the College shall take the action necessary to rectify the deficiencies pointed out.

RETURNS.*

4. Every College shall submit annually to the Syndicate in the prescribed forms—

- (a) A Return of the Teaching Staff. (*Vide* Form 2.)
- (b) A Return of Finances. (*Vide* Form 3.)
- (c) A Return of the number of Students attending the College. (*Vide* Form 4.)

REGISTERS.

5. Every College shall maintain—

- (a) a Register giving, for every student who has been admitted to the College, the date of admission, date of birth, name of birth place, attendance at College Examinations and results of such Examinations, and a record of University career and the date of withdrawal;
- (b) a Register of daily attendance of each student.

INTER-COLLEGIATE RULES.

6. No student shall at any time be admitted to another College unless he produces from the College he leaves—

- (i) A certificate (called Transference Certificate, Form 5)† showing—
 - (a) the number of days kept at the College the student has left in all the terms during which he attended the College after passing his last University Examination;
 - (b) the number of College Examinations he did and did not attend with the result of each Examination, since the last University Examination that he passed;
 - (c) that he has no books belonging to the College he has left in his possession;
 - (d) that nothing is owing by him for College dues;
 - (e) that he bears a good moral character;
 - (f) his date of birth as entered in the School Register.
- (ii) In the case of a First Year student his laboratory journal certified by the Head of the College he is leaving to be a record of work actually done by the student.

* The Syndicate desire that the Returns be submitted by the 1st of October in each year. Return (b) should give the accounts for the preceding Government financial year.

† The Syndicate desire that applications for Transference Certificates should be made by students without unnecessary delay through the Principal of the College to which they wish to be transferred.

7. In no case except as provided in Rule 10 shall a Transference Certificate be refused, provided the required entries therein can be made.

8. In all questions arising out of clause (e) in the Certificate the decision of the Syndicate shall be final.

9. The Head of every affiliated College is empowered to levy a fee of Rupee one when a student does not apply for a Transference Certificate within one month after the commencement of the Term following that in which he leaves the College.

10. If as the result of a student leaving one College to join another it will be necessary for him to count the attendances kept in more than one College to enable him to make up the necessary number of attendances, for his first year in the case of a first year student, or for the Term in the case of any other student, a Transference Certificate shall not be granted except—

- (i) in case the parent or guardian with whom the student has been residing is transferred to another district ;
- (ii) a change of air for the improvement of the student's health has been recommended by a recognized Medical Practitioner ;
- (iii) for other reasons which appear to the Syndicate to be sufficient.*

RESIDENCE OF STUDENTS.

11. Each College shall provide residential quarters for such a percentage of its students as the Syndicate may from time to time approve.

12. Those who do not live in College residential quarters or with their parents or guardians shall live in lodgings known to and approved by the authorities of the College to which they belong.

V.—REGISTRATION OF SCHOOLS.

13—21. The operation of these Regulations is suspended up to the end of June 1924.

VI.—LIST OF COLLEGES AFFILIATED TO THE UNIVERSITY, 1923-24.

- I.—Elphinstone College, Bombay.—*In Arts, excluding the B.Com. and B.T. Degrees; in Science for the purposes of the Examinations for the B.Sc. Degree.*

AFFILIATED COLLEGES.

I.—ELPHINSTONE COLLEGE, BOMBAY.

(AFFILIATED, 1860.)

In 1824 an English school was established by the Bombay Native Education Society. A meeting of the Society was held on the 22nd August 1827, to consider the most appropriate method of testifying the affectionate and respectful sentiments of the inhabitants of Bombay to the Honourable Mountstuart Elphinstone, on his resignation of the Government of Bombay. The result of this meeting was that a sum of money, amounting to Rs. 2,29,656, was collected by public subscription, towards the endowment of Professorships for teaching the English language, and the Arts, Sciences, and Literature of Europe to be denominated the Elphinstone Professorships. This sum afterwards accumulated to Rs. 4,43,901, and the interest of it is augmented by an annual subscription from Government. In 1835 two Elphinstone Professors opened classes distinct from the school. In 1840 the professors' classes were united with the Society's school to form the Elphinstone Native Education Institution. In 1845 the name was shortened to Elphinstone Institution. In 1856, the Institution was divided into the Elphinstone College and Elphinstone High School. In 1860 the College was recognised by the University of Bombay.

In 1863, Cowasji Jehanghier Readymoney, Esq., Justice of the Peace, Bombay, presented Government with one hundred thousand Rupees towards erecting suitable College Buildings for Elphinstone College, to be called the "Cowasji Jehanghier Buildings."

In 1864, on account of the rise in the prices of building materials and labour, Mr. Cowasji Jehanghier Readymoney added a second sum of one hundred thousand Rupees to his former munificent donation. Elphinstone College was removed on the 20th of February 1871 to the building on the Parel Road. In April 1888 the College was removed to a building on the Esplanade near the Secretariat, and in May 1889 the plot of land on the south side of the building was assigned to the College for a recreation ground. In 1911 plots on the Oval and Kennedy Sea face were substituted for this.

The property and endowments of Elphinstone College are under the guardianship of the Trustees of the Elphinstone Funds. The Present Trustees are Sir. D. E. Wacha, Divan Bahádur G. S. Rao, Mr. H. J. Bhabha and the Accountant-General.

The following endowments are connected with Elphinstone College :—

The Elphinstone Professorship fund subscribed in 1827 by Sirdars, Rajas and others in honour of the Honourable Mountstuart Elphinstone, Governor of Bombay.

The West Scholarship Fund, subscribed in 1828, in honour of Chief Justice Sir Edward West.

The Clare Scholarship Fund, subscribed in 1835, in honour of the Earl of Clare, Governor of Bombay.

The Gaikavad Scholarship Fund, established by His Highness the Gaikavad in 1850 producing two monthly Scholarships of Rs. 10.

The Bell Prize Fund, subscribed in 1848, as a testimonial to Professor John Bell of the Elphinstone Institution and producing an annual prize of Rs. 60, awarded for an essay in Physical or Natural Science.

The Sundarji Jivaji Prize Fund, established in 1842 by Babaji Sundarji in memory of his father and producing an annual prize of Rs. 60, awarded for the best Sanskrit essay.

The Raja of Dhar Prize Fund, given by the Raja of Dhar in 1853 and producing an annual prize of Rs. 40, awarded to the student who stands first in necessary English in the Senior B. A. Class.

The Ganpatrao Vithal Prize Fund, given in 1854 by Ganpatrao Vithal of Indore and producing an annual prize of Rs. 60, awarded for the best English essay.

The Nawab of Sachin Prize Fund, given in April 1871 by His Highness the Nawab of Sachin in memory of his fourth son, Sidi Abdul Karim Khan, and producing an annual prize of Rs. 50, awarded for excellence in Mathematics in the B. A. or B. Sc. Class.

The Mountstuart Elphinstone Prize, founded in 1874. This prize consists of Rs. 250, and is annually awarded to the student who passes the First Year's Certificate Examination with the highest aggregate number of marks, and who is certified to be on the rolls of the College.

The Gokhale Prize, founded in 1885 by the students of Elphinstone College and others in memory of the late Mahadev Vishnu Gokhale. The prize consists of Rs. 30 (the interest of Rs. 1,000 in Government Securities), and is annually awarded to the student who passes the Intermediate Arts Examination with the highest aggregate number of marks.

The Surbhai Dayalji Desai of Poona Scholarship Fund, founded in 1887 by Rao Bahadur Gopalji Surbhai Desai in memory of his father. The interest produces a monthly Scholarship of Rs. 10, tenable for four years, and awarded to the Anavla Bráhmán who passes highest in the Matriculation, or failing such, to a Kathiawari student.

The Cama Prize, founded in 1902 in memory of the late Byramji Navroji Cama by his father and friends, consists of Rs. 50 and is annually awarded to the student of the Intermediate Class, Arts or Science, who gains the highest marks in a mathematical examination held in the College.

The Gulabdass Bhaidass Vakil Queen-Empress Victoria Scholarship founded in 1902 by Mr. G. B. Vakil of Surat, consists of about Rs. 100 and is annually awarded to the Anavla Bráhmán of the College who passes highest in the First Year's Certificate Examination with Sanskrit as his Classical Language and continues at the College, or failing such, to a Surat, Gujarati, or other Bráhmán.

The Kanga Prize, founded in 1905 in memory of the late Byramji Bhikaji Kanga by his widow, consists of books to the value of about Rs. 30 and is annually awarded to the student of the Senior B.A. Class who gains the highest marks in an examination in English History held in the College.

The Ráo Báhádur Sitaram Vishwanath Patwardhan Scholarship Fund, founded in 1907 by Ráo Bahádur S. V. Patwardhan of Poona in grateful remembrance of benefits conferred on him by the Elphinstone College. The Fund produces one scholarship of the value of Rs. 15 per mensem awarded annually and tenable for two years by such poor but intelligent and deserving Chitpáwan Karada or Deshastha Bráhmán student in the B.A. Class of the Elphinstone College, selected by the Principal, as has passed the Intermediate Examination in the second class at least.

The Saraswatibai Kunte Scholarship, founded in 1913 by Mr. Yeshwant Anna Kunte in memory of his mother. The fund produces one monthly Scholarship of Rs. 15 tenable for one year but renewable for a second, and awarded to the students of Elphinstone College belonging to the Deccan Bráhmán Community (such as Chitpáwan, Karadha, Deshastha or Deorukha) who has passed the Intermediate Examination with highest marks in Sanskrit and continues to study Honours in Sanskrit at the College. Failing a Deccani Brahman the Scholarship may be given to any vegetarian Brahman.

The Dastur Memorial Prize Fund, founded in 1913 to commemorate the services of Khan Bahadur F. M. Dastur, Professor of Mathematics from 1902 to 1913. The prize produces an annual income of about Rs. 40 and is annually awarded to the student who passes the College Certificate Examination at the end of the first year with the highest marks in Mathematics.

The Isfahani Memorial Prize Fund, founded in 1917 in memory of the late S. M. Isfahani, Professor of Persian from 1st January 1906 to 13th May 1916, produces an annual prize of Rs. 50 awarded to the student of the Elphinstone College, who passes the Intermediate Examination with the highest number of marks in Persian and continues to study in an Arts College affiliated to the Bombay University.

Ramakant Keshav Padhye Prize founded in 1921 by Mr. K. A. Padhye, B.A., LL.B. in memory of his son Ramakant, student in the B.A. class of this college. The prize consists of books to the value of about Rs. 60 and is annually awarded to] the

student of the Elphinstone College who passes with honours the university B.A. Examination in History with the highest number of marks in History.

The Elphinstone West and Clare Funds produce the following Scholarships, each tenable for one year and annually open for competition in the College :—

A.—Senior Scholarships.

16 of Rs. 20 per mensem.

B.—Junior Scholarships.

1st Class.	10 of Rs. 15 per mensem.
2nd Class.	17 of Rs. 10.

Fellows in the Royal Institute of Science.

1 Majmudar, V. D.	3 Bamji, C. N.
2 Naik, K. G.	

II.—DECCAN COLLEGE, POONA.

(AFFILIATED, 1860.)

On the occupation of the Deccan by the British Government in 1818, it was found that a certain portion of the revenue of the Maratha State had been yearly set apart for pensions and presents to Brahmans (Dakshina). To prevent hardship and disappointment, the British Government continued these payments; but as the pensions and allowances fell in, they resolved to devote a portion of these to a more permanently useful end, in the encouragement of such kinds of learning as the

Brahmans were willing to cultivate. With this view the Poona College was founded in 1821 as Sanskrit College.

In 1837 some branches of Hindu learning were dropped, the study of the Vernacular and of English was introduced, and the College was opened to all classes; and after having been amalgamated with the English School in 1851, it arose in its present form in 1857, by a separation of the College Division from the School Division.

In 1863, Sir Jamsetji Jijibhoy, Bart., offered to Government the sum of one hundred thousand rupees to provide suitable College Buildings for the Deccan College.

In March 1868, the new buildings were occupied, and the Government directed that the name, which had been Poona College, should henceforth be Deccan College.

The following Endowments are connected with the Deccan College :—

1.—GOVERNMENT.

Sir Dakshina Fellowships of Rs. 50 per mensem.

SCHOLARSHIPS.

A.—Senior Scholarships.

Five, tenable for one year . . Rs. 20 per mensem.

B.—Junior Scholarships.

Five, tenable for one year . . Rs. 15 per mensem.

Ten, tenable for one year . . Rs. 10 per mensem.

II.—PRIVATE.

In the year 1857, a fund was raised by some Indian friends of Major Candy, some time Principal of the College, in memory of his long services in the cause of Indian literature and education. From this fund two prizes are awarded annually, one for the best Essay in Marathi on a subject announced each year in March; the other to the student of the senior B.A. Class who gets the highest marks in Sanskrit at the College Preliminary Examination in September.

In the year 1877, a fund was raised by subscription amongst Bombay Civil Servants to perpetuate the memory of William Henry Havlock, some time Revenue Commissioner, S. D. The interest is devoted to a prize of about Rs. 66 for a special English subject announced each year in March, and open to all students of the College of not more than three years' standing.

In the year 1879, Mr. Vishnu Moreshwar Mahajani, M.A., some time student and fellow of the College, presented the sum of one thousand rupees to found an annual Prize. This is awarded to the student of the Previous Class who obtains the highest marks for Sanskrit in the Preliminary Examination.

In the year 1884, Rao Bahadur Narayan Govind Apte presented the sum of one thousand rupees to found an annual Prize. This is awarded to the student of the Intermediate Class who obtains the highest marks for Sanskrit in the Preliminary Examination.

In accordance with the wish of his uncle, the late H. G. Padhye, B.A., an old student of the Deccan College, Mr. D. G. Padhye, M.A., handed to Government in 1899 Rs. 1,000 in Government promissory notes, to found an annual prize called the "HARI GOPAL PADHYE PRIZE". It is awarded to the student of the Deccan College who passes the B.A. Examination with Logic and Moral Philosophy as his voluntary subject, and who in consideration of his progress in class and the marks obtained by him in the subject at the College Examination and University B.A. Examination is pronounced by the Common Room Meeting of the College Professors to be the best student of the Logic and Moral Philosophy Class: provided that no student shall be eligible for the prize who does not pass his B. A. Examination within five years of his passing the Matriculation Examination.

In 1904 Ráo Bahádúr G. A. Mankar presented a Government Promissory Note for one thousand rupees, the interest on which is to spent yearly in the purchase of books in his name for the College Library.

Mr. Yeshwant Kashinath Karnik, retired Mamlatdar, handed to Government Promissory Notes of Rs. 5,000 found a scholarship of Rs. 15 per mensem approximately in the Deccan College for the student of the Chandraseniya Kayastha Prabhu caste who obtains the highest marks in the Previous Examination.

In 1919 a fund known as the Karnatak Prize Fund amounting to Rs. 1,340 was raised by subscription, the income to be devoted to an annual prize for the best Essay in Kanarese on a set subject.

These funds are under the guardianship of Trustees. The present Trustees are Sir Jamsetji Jijibhoy, Bart., Sir Ramkrishna Gopal Bhandarkar, M.A., K.C.I.E., and Sir Narayan Ganesh Chandavarkar, B.A., LL.B.

III.—WILSON COLLEGE, BOMBAY.

(AFFILIATED IN 1861).

This College is to be traced to an English School for Native youths founded by the Rev. John Wilson in 1834, and originally dependent on local contributions. It was recognized by the Church of Scotland in 1835, and in 1843 its supporters completed the

erection of the building in Kalkadevi known until recently as the General Assembly's Institution. But at this time Dr. Wilson and his colleagues and work passed under the control of the Free Church of Scotland. Consequently another building had to be procured. The School now designated the Free General Assembly's Institution was henceforth located in Khetwadi. In 1861 the higher section was affiliated with the University and the Institution was recognized as teaching the entire Arts' course. Later it was recognized for the Science courses when these were instituted.

In 1882 the Rev. Dr. Mackichan being on furlough was authorized to raise subscriptions towards the erection of a new building for the College department which would be separately known as Wilson College. About £6,000 were subscribed in Scotland. Several Native Princes of Western India, from respect for the memory of Dr. Wilson, gave substantial contributions. A site in Chaupati was liberally granted by Government. The building, including external Laboratory, was erected at a cost of Rs. 1,81,000, of which Rs. 87,000 were granted by Government. The foundation stone had been laid by His Excellency Sir James Ferguson on 10th March 1885, and the new College was formally opened by His Excellency Lord Reay on 14th March 1889. Classes commenced in the new building in June of that year. In 1908 by means of an Imperial grant of Rs. 50,000 a third storey was added to the main building; and about the same time the Chemical Laboratory was enlarged.

The College possesses two hostels—one in the College grounds which grew out of the hostel which was erected at the same time as the main College building and has accommodation for about 80 students, the other named "Mackichan Hall" with rooms for 120 students erected in 1912-13 at a cost of over Rs. 2,00,000 on a site immediately adjoining the College grounds.

Since 1900, in which year the Free Church of Scotland entered into union with the United Presbyterian Church of Scotland, the College has belonged to the United Free Church of Scotland. It is supported by funds annually contributed by the United Free Church of Scotland, by fees and Government grant.

Endowed Prizes.

Vithal Narayan Pathak prize (value Rs. 40).
 Hormasji Pestanji Essay Prize (value Rs. 40).
 William Graham Prize (value Rs. 20).
 Miller Scripture Prizes (value Rs. 60 and Rs. 40).
 Joseph Wilson Dhanjibhai Prize (value Rs. 28).
 Vincent D'Cunha Prize (value Rs. 10).
 Shavaksha Fardunji Karaka Prize (value Rs. 52-8-0).
 O. S. Pedraza Prize (value Rs. 16).
 Menant Prize (value Rs. 10).
 Reay Prize (for Indian History—open to lady students) (value Rs. 10).
 The Revd. Dr. Mackichan Science Prize (value Rs. 45).
 Bai Sonabai Narayan Kanade Prize (open to lady students), value Rs. 17.
 Hari Mahadev Bhadkamkar Sanskrit Prize, value Rs. 60.
 Dadabhai K. Kateli Scholarship, Value Rs. 105.

Endowed Scholarships.

One Fleming Scholarship	Rs. 100 per annum.
Nesbit (R.) Memorial Theological Scholarship..	120 per annum.
Smyttan (G.) Memorial Scholarship..	60 per annum.
Lang (W.) Scholarship	20 per annum.
Miller (H.) do.	100 per annum.
Nesbit (R.) Memorial Literary Scholarship	60 per annum.
St. Clair Jameson Memorial Scholarship	40 per annum.
Four Fleming (Jas. N.) Nomination Scholarships, each	40 per annum.
Purvis (Col.) Scholarship	50 per annum.
Molesworth (J. T.) Scholarship	40 per annum.
Davidson (D.) do.	40 per annum.

Ratanbai Ardesir Vakil Scholarship	175 per annum.
Farish Scholarship	144 per annum.
Tudball (C.) Scholarship	56 per annum.

These endowments together with other invested funds including a large gift from Sir Shapurji Bharucha, Kt. a generous benefactor of the College, furnish an annual income which provides.

16 Scholarships of Rs. 20 per mensem

V.—GUJARAT COLLEGE, AHMEDABAD.

(With which is incorporated the Madhavlal Ranchhodlal Science Institute).

In 1856 Mr. T. C. Hope (afterwards Sir Theodore Hope), then Educational Inspector for the Northern Division, was instrumental in raising a sum of over Rs. 50,000 for the purpose of promoting higher education in Gujarāt. In 1861 classes were started in Law, Literature, Logic, Mathematics and Drawing in the old High School Building, the institution being known as the Gujarāt Provincial College. As the College was not affiliated to, or recognised by the University of Bombay, regular students for the Arts Examinations would not attend it. The classes got so reduced in number that in 1872 Government closed the institution. A fresh effort was accordingly made in that year to raise additional funds, to resuscitate the College, and to improve on its past, and a sum of Rs. 28,000 was collected for the purpose. Government consented to revive the institution, and to make the necessary provision to teach up to the First Arts Examination, the present Intermediate. The University of Bombay recognised the College for this Examination in 1879.

In response to the public demand for a full-time Government Arts College in its own building a third effort to raise funds for this purpose was made in 1884-1885, when a sum of over Rs. 1,12,000 was subscribed, bringing the total capitalised funds of the College to a figure close on Rs. 2,00,000. Accordingly Government undertook the management of the College from 1884, withdrew the College classes from the High School to a separate building, and appointed a distinct staff. The University of Bombay also recognised the College up to the B.A. degree examinations. From 1884 to 1887 the College was a Government institution. In 1887 the Government handed over charge of the College to the Society for the Promotion of Higher Education in Gujarāt. The College was controlled by a Committee composed of Government officials, representatives of the Society, and the Municipality. On July 16th, 1912, the Society for the Promotion of Higher Education in Gujarāt dissolved itself and handed back the College to Government.

To assist Government to assume effective control of the College Sir Chinubhai Madhavlal, Bart., C.I.E., gave a handsome donation of Rs. 2,00,000 for the purpose. Sir Chinubhai also gave the munificent sum of Rs. 1,00,000 for the expansion of the Science side of the old College, and the Madhavlal Ranchhodlal Science Institute was inaugurated in 1912 by His Excellency Lord Sydenham (then Sir George Clarke). Sir Chinubhai's benefactions were further increased by a gift of Rs. 1,50,000 for the provision of a separate Library building, named after Sir George Clarke, and a College Hall designated " The King-Emperor George V Hall ".

The following are the College Endowments :—

*Government Scholarships (Open).***First Year Arts Class :—****Five Scholarships as under :—**

- One of Rs. 15.
- One of Rs. 12.
- Three of Rs. 10 each.

Junior B. Sc. Class.

1st of Rs. 20 per mensem.
2nd of Rs. 15 per mensem.

Desai Manubhai, G.
Shah Mohanlal, H.

VI.—RAJARAM COLLEGE, KOLHAPUR.

(AFFILIATED 1880).

The Rajaram College, which is maintained by the Kolhapur State, owes its origin partly to the growth and development of the Rajaram High School and partly to the desire of Government to make a suitable provision for the education of Chiefs and Sardars in the Southern Maratha Country. The British Government having assumed the administration of the State in 1844, laid the foundation of English education in 1851 by opening an English School in the town of Kolhapur. This in 1867 was raised to the status of a High School, called the Rajaram High School, after the lamented Rajaram Maharaj of Kolhapur, who while travelling in Europe died at Florence in 1870.

In 1880 the Government on the recommendation of the then Political Agent, raised the School to an Arts College, which was subsequently recognized in the Faculty of Arts of the University of Bombay for the purposes of the Previous Examination, and in 1883 it was further recognized for the purposes of the First Examination for the Degree of B.A.

The College is provided with a substantial and ornamental building which cost the Kolhapur State nearly five lakhs of Rupees, the foundation stone being laid in 1869 by the late Rajaram Maharaj and the building completed in 1874.

Since the commencement of the first term of the year (1919-20) the College has, under an agreement, been handed over to the Arya Pratinidhi Sabha, U. P.

From the beginning of the year 1920-21 the Sabha was able to raise this College to the status of a full grade one with the permission of the Government of Bombay and provision was made to teach students for the B.A. pass degree with the following voluntary subjects :—

- (1) Languages (English and Sanskrit).
- (2) Mathematics, (3) History and Economics and
- (4) Moral Philosophy.

The affiliation of this College has further been extended to the B.A. (Honours) courses in the above subjects from the 20th of June 1922, and suitable additions to the staff have been made as required by the Senate. Marathi has also been allowed to be included in the group of Language from this year.

Endowments.

Government has sanctioned the transfer of the sum of Rs. 760, being the annual interest on the so-called Sardars' Fund at Belgaum, where a Sardars' Class was opened some years ago.

In 1883 the Raja of Mudhol on leaving the College presented an endowment of Rs. 15,000 to be held in trust by the Political Agent, Southern Maratha Country, and the Raja of Mudhol for the time being : the interest of this sum to be applied towards the support of a "Ghorpade Lectureship" in honour of the Raja's father.

The late Rajaram Maharaj to commemorate the visit of His Royal Highness the Duke of Edinburgh to this country, invested Rs. 45,000 in four per cent. Promissory notes, the interest thereon being applied to the formation of Scholarships for the

encouragement of higher education in the State. The following Scholarships are awarded every year :—

- (a) Four Alfred Scholarships of Rs. 10 per mensem, to be held for one year at the Rajaram College, will be awarded to four deserving students who have passed the Matriculation Examination from the Rajaram High School after having attended it for not less than two continuous years immediately previous.
- (b) Three Alfred Scholarships of Rs. 10 per mensem, each tenable for one year, and to be held at the Rajaram College, Kolhapur, will be awarded to the three students who obtain the highest number of marks in the College Examination held at the end of the First Year's Course.
- (c) Two Alfred Scholarships of Rs. 15, each tenable for two years and to be held at the Rajaram College, will be awarded to two deserving students who have passed the Intermediate Examination from the Rajaram College after having attended it for full two terms.
- (d) One Alfred Prize will be awarded when funds are available to the student of the Rajaram College who passes the Previous Examination with the highest total of marks :—

If he merely passes he will receive Rs. 150
If he is placed in the 2nd Class Rs. 200
Do. do. 1st Class Rs. 250

He will be required to prosecute his studies in the Intermediate Class of this College.

- (e) One Alfred Scholarship of Rs. 20 per mensem, tenable for four years at the Grant Medical College, Bombay, or three years of the College of Science, Poona, will be awarded to a deserving Graduate who shall have passed through the full course of the Rajaram College. The stipend may be continued for a fifth year in the case of a medical student, if funds are available and the Principal recommends it.

Note.—Only one scholar can be maintained at the Grant Medical College or the College of Science at a time.

N.B.—When a graduate is not available the Scholarship will be awarded to a deserving student who shall have passed through the full course of the Rajaram College.

In 1884, Mr. Krishnaji Bhikaji Gokhale presented the sum of Rs. 1,500 in 4 per cent. Government Paper to found a “ Bhikajipant Scholarship ” in memory of his father, the late Mr. Bhikajipant Gokhale. The stipend of Rs. 5 (now Rs. 4 only) per mensem is to be held for one year by that undergraduate of the Rajaram College who passes the Matriculation Examination with the highest number of marks from the Miraj High School. The scholar is admitted free to the College.

“ Waller Medal ”.—From funds presented to the College by the subscribers to a Fund raised to perpetuate the memory of the late Colonel Waller, V. C., a silver medal is awarded annually by competition among the undergraduates of the College in English Composition, English Grammar, and translation from Vernacular into English.

In 1904, the late Rao Saheb Trimbak Moreshwar Marathe, Huzur Chitnis of Kolhapur, presented a sum of Rs. 1,500 for founding a “ Jayasingrao Ghatge Scholarship ” in memory of Shrimant Jayasingrao *alias* Aba Saheb Ghatge Vajarat Ma-Ab, the late Chief of Kagal (Senior). The stipend of Rs. 5 (now Rs. 4 only) per mensem is to be held for one year by that student of the Previous Class, Rajaram College, who passes his Matriculation Examination from the Rajaram High School with the highest number of marks in Mathematics among all the students from the same. The student is to be admitted free into the College.

The Hangandi Desai Scholarship.—These Scholarships were founded by Shri Appasaheb Desai of Hangandi for the purpose of supporting deserving students of the Jain religion in the Rajaram College, Kolhapur. A sum of Rs. 2,000 given by him has been deposited by the Southern Maratha Jain Association in the Huzur Treasury of Kolhapur and the interest on this sum is spent in accordance with the following rules governing the Scholarships :—

- (1) That the Scholarships shall be called the Hangandi Desai Scholarships.
- (2) That two Scholarships, tenable for one year and of the monthly value of Rs. 6 each, shall be awarded to deserving Jain students in the Rajaram College.

- (3) That in the case of there being no such student in the College, the Scholarships shall be given to Jain students in the High School.
- (4) That students who reside in the Jain Students' Institute, Kolhapur, shall alone be eligible for election.
- (5) That the election to the scholarships shall be made by the Principal of the College in consultation with the Secretary of the Jain Students Institute of Kolhapur.
- (6) That the balance of the interest of the trust after defraying the expenses of the Scholarships shall be used yearly on a Prize called "the Hangandi Desai Prize" to be given to the Jain student of the College or the Matriculation Class who gains the highest percentage of marks in the yearly examination.

Note.—Students holding these Scholarships are made free students of the College and the High School.

List of Principals.

 Chhatre Memorial Prizeman.—Mr. Upalekar (P.E.).
 Sovani Prizeman.—Mr. Parulekar (P.E.).
 Waller Medalist for 1921-22.—Mr. Deshpande. A. S. (J.B.A.).

VII.—BARODA COLLEGE.

(AFFILIATED, 1881).

The Baroda College was founded to complete the system of English education organized in the Baroda State by the Government of His Highness the Maharaja Sayajirao Gaikwar, and on the 1st of October 1881 was recognized in the Faculty of Arts of the University of Bombay for the purposes of the Previous Examination. Further developments afterwards took place, and at present the College is recognized in Arts and Science.

There are three boarding-houses in the College compound capable of accommodating about 160 students and one more in the vicinity of the College altogether capable of accommodating about 200 students.

Endowments.

The Scholarships attached to the Baroda College are as follows :—

B.A. Class—4 Scholarships of the aggregate value of Rs. 22 per mensem.

Intermediate Arts Examination Class—2 Scholarships of the aggregate value of Rs. 11 per mensem.

First Year Class—5 Scholarships of the aggregate value of Rs. 20 per mensem.

B. Sc. Class—2 Scholarships of the aggregate value of Rs. 16 per mensem.

Intermediate Science Examination Class—2 Scholarships of the aggregate value of Rs. 11 per mensem.

Kazi Shahabuddin Scholarships—Two of the aggregate value of Rs. 12 per mensem or Science students.

The Elliot Memorial Scholarship of the value of Rs. 12 per mensem tenable by a First Year student, awarded by the Commissioner of Education, Baroda, on the recommendation of the Headmaster, Baroda High School.

The Tait Memorial Scholarship of Rs. 10 per mensem, tenable for one year by the student of the First Year Class who passed the last Matriculation Examination with the highest of marks from any High School in the Baroda State.

The Bhau Kolhatkar Scholarship of Rs. 35 per term, tenable by the female student in the Previous Class who passed the last Matriculation Examination from any High School in the Baroda State with the highest number of marks; in the absence of a female candidate, awarded to a male student under similar conditions.

The Elliot Memorial Prize—Books of the value of Rs. 30 are awarded by the Commissioner of Education, Baroda, to a student passing the B.A. Examination with the highest number of marks in English, recommended by the Principal, Baroda College.

The Ambalal Sakarlal Desai Baroda Memorial Prize—Law Books of the value of about Rs. 100 are awarded to a Baroda College Graduate and, in his absence, to a Graduate who is a Baroda State subject passing the First LL. B. Examination in April with the highest number of marks; applications to be sent in June with necessary certificates.

The Professor Fariduddin Persian Prize of Rs. 17-0-0, awarded to the student of the Baroda College who passes the Intermediate Arts Examination with the highest number of marks in Persian.

Two K. B. Kersasp Rustamji Debating Society prizes for essays on social and scientific subjects of the aggregate value of about Rs. 48 annually open to competition by the undergraduates of the Baroda College.

The University awards the Melville Memorial Scholarship to the student who obtains the highest number of marks at the Intermediate Examination in Science.

One "Sayajirao Gackwar Antyaj Scholarship" of the value of Rs. 20 per mensem will be awarded to Antyaj student after passing the Matriculation Examination for further study at any College affiliated to the University of Bombay, preference being given to Baroda State subjects.

The Dutt Memorial Scholarship of the monthly value of Rs. 6, tenable for one year will be awarded to a student who passes from the Baroda College with the highest number of marks in Indian History at the Intermediate Examination and takes up History and Political Economy in the B.A. Class.

One Palanpur Scholarship of the value of Rs. 12 per mensem will be awarded to a deserving Baroda State Mahomedan student on the birth-day of His Highness the Maharaja Saheb Shri Sayajirao Gackwar.

VIII.—FERGUSSON COLLEGE, POONA

(AFFILIATED, 1884.)

The Fergusson College owes its origin to the development and growth of the New English School, Poona, founded in 1880 by the late Vishnu Krishna Chiplunker and Messrs. B. G. Tilak, G. G. Agarkar and M. B. Namjoshi for the purpose of cheapening and facilitating education. Gradually several other gentlemen joined the staff of teachers with the object of devoting their lives for the work, and the body thus formed felt that they were in a position to take a higher step. Before doing so, however, they called a meeting of the sympathisers of private education on the 24th October 1884, and this meeting formed themselves into the "Deccan Education Society" for the purpose of carrying out the original objects of the promoters of the New English School. Soon after, the Council of the Society resolved to start a College under the name of the "Fergusson College" to mark their appreciation of the interest which His Excellency the Right Honourable Sir James Fergusson, Bart., Governor of Bombay, took in the cause of private education generally and in the growth and prosperity of their school in particular; and on their application, the College was recognised in the Faculty of Arts for the purposes of the Previous Examination on the 13th December 1884. Further developments afterwards took place and at present the College is recognised in the whole Faculty of Arts. It has also been recognised this year in the Faculty of Medicine for the purposes of the Preliminary Scientific Examination for the Degree of M.B., B.S.

The College is under the direct control and supervision of the Governing Body of the Deccan Education Society which consists of the Life members on the one hand and fellows and patrons—i.e., persons contributing Rs. 200 and over and Rs. 1,000 and over respectively—on the other. The permanent funds of the Society are under the control of the Council of the Society.

The permanent funds of the Society including sums subscribed and realised upto date and grants from Government of a permanent nature amount to about ten lakhs of rupees. Of this sum by far the greater part has been spent in buildings and other immovable properties for the use of the various institutions of the Society. These

institutions are, besides the College, the New English School, Poona, the New English School, Satara, the Hostel for the N. E. School, Poona, the Navin Marathi Shala, and the Willingdom College at Sangli; the Society has also affiliated to it the Dravid High School of Wai and the Mawji Madhavji School of Umbargaon. Most of the remaining funds of the Society are in the form of endowments for the various institutions. The buildings, etc., that are used for the College are as follows :—

- (1) The main College buildings opened by Lord Sandhurst on the 27th March 1895 consisting of ten large sized rooms and a big Library Hall.
- (2) The Wadia Amphitheatre (opened by Lord Sydenham in 1912) and the adjoining lecture halls consisting of the large amphitheatre to accommodate an audience of about two thousand, two large sized class rooms and eight small sized lecture rooms; the trustees of the N. M. Wadia Charities contributed Rs. 25,000 for the Amphitheatre and the remaining cost of about Rs. 75,000 was met out of Imperial and Provincial Government grants and public subscriptions.
- (3) The Kashinath Waman Kane Chemical Laboratory built in 1904 to which an additional laboratory hall for practical work has been added.
- (4) The Physical Laboratory consisting of a demonstration hall, a large hall for practical work, a dark room, and several other rooms built out of the Imperial grant.
- (5) The Savai Tukoji Rao III Maharaja Holkar Biological Laboratory for which H. H. the Maharajah Holkar contributed Rs. 20,000 and which was opened by Lord Willingdon on 20th June 1916.
- (6) The Sir Shapurji Broacha Students' Reading Room and Library built out of a donation of Rs. 10,000 from Sir S. B. Broacha and opened on the same day.
- (7) The Sir Bhagwatsinhaji Quarters for students opened along with the main building of the College on 27th March 1895 named after H. H. the Thakoresaheb of Gwal.
- (8) Another large hostel opened in 1915 built mainly by means of a debenture loan.
- (9) Another hostel for 100 students built mainly by means of donations from Messrs. Tulsidas Tejpal and Madhadji Hariram of Bombay thus giving a Hostel accommodation for about 350 students.
- (10) Hostel for lady students accommodating about 32 lady students.
- (11) Quarters for the Principal and five resident professors on the College grounds.
- (12) A botanical garden extending over about two acres and a half.
- (13) The provision for the Athletic training of the students consists of large cricket and football grounds, with a pavillion and gymnasium on the college compound, an extensive play-ground with four tennis courts.

Scholarships.

Scholarships of the total monthly value of about Rs. 250 are open to general competition. Of these, the following are endowed.

The endowed Scholarships are awarded under the following conditions :—

- (a) Two Scholarships of the monthly value of Rs. 17-8-0, one of Rs. 10 and the other of Rs. 7-8-0, called " Govind Hari Scholarships," and tenable for one year, are open for general competition by all the College Students. The Chief of Sangli has made a donation to the College of a sum of Rs. 6,000 invested in 3½ per cent. Government Promissory Notes, and the interest is appropriated for Scholarships in the name of the ancestor of the Patvardhans.
- (b) Mr. G. R. Kirane, some time State Engineer, Sangli, has placed the sum of Rs. 1,500 at the disposal of the Society. The interest at 3½ per cent. on the endowments is to be applied to found a monthly Scholarship of Rs. 4-6-0, to be called " Kirane Scholarships", tenable for one year, and to be awarded to a student educated at the New English School as a free student intending to prosecute his studies in the Fergusson College and who may have matriculated with the highest number of marks in Mathematics.

- (c) The "Yadneshwar Bhagvat Scholarship", of Rs. 3½ per month endowed by Mr. R. V. Bhagvat of Karad to be given to a poor Brahmin student in the first year class who passes his Matriculation from the New English School, Poona.
 - (d) Two Scholarships of Rs. 15 each (of which the Colleges contribute Rs. 5) founded by Rao Bahadur S. V. Patvardhan and the late Rao Bahadur G. A. Mankar in the former of these is for Brahmin students only.
 - (e) A Scholarship of Rs. 6 per month to be held by a Maratha Brahmin student in Mathematics in the B.A. Class founded by Mr. V. N. Nene and his brother in their late brother's name.
 - (f) The late Shrimant Vithalrao Krishna *alias* Nanasaheb Vinchurkar had directed his executors to award annually in the College a Scholarship of Rs. 12-8-0 per month.
 - (g) "Annapurnabai Chitale Scholarship" of Rs. 12 per month to be held by a Konkanaatha Brahmin student in the College founded by Mr. P. K. Chitale.
 - (h) Four 'Brahme' Scholarships of Rs. 10 per month each carrying a free studentship to be held by poor deserving Rigvedi Deshastha Brahmins and also an annual prize of Rs. 50 for general competition endowed by Mr. Nana Saheb Brahme.
 - (i) "Jankibai Limaye" Scholarship of Rs. 5 per month to be held by a student of the College who passes his Matriculation from the Jamkhindi High School and is recommended by Mr. Kale and endowed by Mr. P. B. Kale. The scholar is also made a free student.
 - (j) "Nimkar" Scholarship of Rs. 10 per month endowed by Mr. Nimkar of Kolhapur to be held by a poor Devarukha Brahmin and the absence of such a one by any Hindu Student getting the highest number of marks at a University Examination.
 - (k) "K. P. Joshi" Science Scholarships two of Rs. 15 per month and one of Rs. 10 per month endowed by Mr. K. P. Joshi of Athani to be held by poor, deserving, Konkanaatha (Chitpawan) Brahmin studying Science in the College on the results of the University or College examinations. In case of equality of qualifications, preference will be given according to seniority of classes. In the particular examination the Scholar must have obtained 45 per cent. marks in other subjects and 50 per cent. in the Science subject.
 - (l) "Bhagirathibai Dravid" Scholarship of Rs. 10 per month endowed by Mr. Bhikaji Venkatesh Dravid of Yeotmal. This is open to general competition but may be given to a lady student at the discretion of the Common Room suspending the ordinary rules.
 - (m) Wadadekar Scholarship of Rs. 3 per month from half the interest on promissory notes of Rs. 2,100 received from the trustees of the late Mr. Wadadekar of Poona.
 - (n) "Madhaorao Limaye" Scholarship of Rs. 5 per month founded by Dr. Chintaman Mahadeo Limaye of Kolhapur to be held by a deserving Brahmin student in the F. Y. Class and continued till he passes the B.A. Examination.
 - (p) Four Scholarships from Baroda State (two of Rs. 15 per month and two of Rs. 10 per month) to be awarded to Pali students tenable for five years.
 - (q) "Ichharambhai" Scholarship of Rs. 15 per month founded by R. B. Ichharambhai Bhagwandass of Poona to be awarded to a deserving poor student in the F.Y. Class tenable upto the B.A. Examination.
- The Selection to be made by the donor and to be proposed by the Board of Life Members of the Fergusson College.
- (r) Two "K. P. Joshi German" Scholarships of Rs. 15 per month endowed by Mr. K. P. Joshi of Athani to be awarded to Konkanaath Chitpawan Brahmin student passing the Matriculation with the highest number of marks in German and continue the study of that language for higher examination in the Arts Course in the Fergusson College. Each scholarship tenable for two years.
 - (s) *Ganpatrao Ramkrishna Bapat Scholarship*.—Mr. G. R. Bapat of Dhulia has contributed Rs. 2,400 to found a scholarship of Rs. 7 called "Ganpatrao Ramkrishna Bapat Scholarship". The scholarship is given to a poor, deserving

Konkanastha (Chitpavan) Brahmin in the F.Y. Class and tenable till he passes his I.Sc. or B.Sc. examination.

- (i) "Sadashiv" Scholarship of Rs. 10 per month endowed by Dr. D. K. Kale of Kolhapur to be awarded to a Hindu student passing his Inter-examination and standing first among the students of his class and joining the Fergusson College for further studies; not tenable with any other scholarship generally.
- (ii) Ganpatrao Ramkrishna Bapat Scholarship of Rs. 8 per month endowed by Mr. G. R. Bapat of Dhulia and to be awarded to a Rigvedi Deshastha Brahmin student who passes the School-Leaving examination with more than 40 per cent. marks and to be continued to him till he passes his B.A. examination.

Vasanji Laxmidas Scholarship.

"Vasanji Laxmidas Scholarship" of Rs. 20 per month to be awarded every year to the most promising and deserving Hindu student studying in the D.E. Society's colleges. Amongst the candidates preference should be given to a poor and deserving student of the Bhatia Community.

V. S. Apte Sanskrit Scholarship.

The Trustees of the Apte Memorial Fund, Poona, have contributed to the D. E. Society Rs. 2,000 in the form of 3½ p.c. G. P. Notes to found a scholarship of Rs. 5 per month.

Besides these Scholarships, about 10 per cent. free studentships are allowed. Of these one is called a "Godbole Free Studentship", four "Ichalkaranji Free Studentships" (to be nominated by the Chief of Ichalkaranji), one "Mudhol Free Studentship" (to be nominated by the Chief of Mudhol), five "Gondal Free Studentships" (to be awarded to subjects of Gondal State in Kathiawar), and one "Cutch Free Studentship" (to be awarded to students from Cutch).

Ordinary free studentships are awarded on a review of progress and pecuniary circumstances and are not awarded to married students except in the case of backward classes. Scholarships and free studentships are generally redistributed in the beginning of every term on the results of the University and Terminal Examinations.

Prizes.

There are thirteen Prizes attached to the College and awarded in accordance with the following Regulations :—

The Sir James Fergusson Prize.

A Prize (value Rs. 45-8-0) ; entitled "The Sir James Fergusson Prize," consisting of books shall be awarded every year to the student from the Fergusson College who shall have obtained the highest number of marks in the College First Year Examination provided he obtains at least 45 per cent. of the aggregate number of marks, and provided that he shall have attended the said College for one academical year.

The Gulve Prize.

A Prize (of Rs. 17-8-0), entitled "The Gulve Prize," consisting of books of the value of Rs. 17-8-0, shall be awarded every year to the student from the Fergusson College who passes the Intermediate Examination of the University of Bombay with the highest number of marks in Mathematics, provided that he shall have attended the said College for one academical year and provided also that he obtains at least 50 per cent. of the maximum number of marks assigned to that subject.

The Janardan Gopal Prize.

A prize of Rs. 60 endowed by Mr. Janardan Gopal, Solicitor, Bombay, to be awarded to a student who passes his College First Year Examination with the highest number of marks in English.

Bhatavadekar Prize.

"Gajanan Krishna Bhatavadekar" Prize of Rs. 35 endowed by Sir Bhalechandra Krishna Bhatavadekar of Bombay to be awarded to the student who passes the Intermediate Examination with the highest number of marks in the First Class. Failing such a candidate it shall be awarded to the student who, in the opinion of the College authorities, has brought greatest distinction to the College throughout his College career.

C. N. Apte Prizes.

Two prizes, each of Rs. 25, have been founded in the College by Mr. V. N. Apte of Poona in the name of his late brother C. N. Apte. One of them is awarded to a student from the I.E. Class who stands first in the Terminal Examination, and the other to a student who stands first in the B.A. Class in that Examination.

Durgabai Apte Prize.

The annual prize of Rs. 50 is to be awarded to a female student from the Fergusson College who passes the Intermediate Examination in Arts with the highest number of marks, and failing such it is to be awarded to a female student passing the B.A. Examination with the highest number of marks. In the absence of the above two conditions it is to be given to a male student passing the I.E. Examination from the Fergusson College with the highest number of marks.

The form of the prize shall be determined by the Principal in consultation with the student in each case.

Haribhan Babaji Bhapker Prize.

A prize of Rs. 35 endowed by Mr. H. B. Bhapker of Bombay to be awarded to a Maratha student who passes his matric with the highest number of marks and in case of failure to be given to a Maratha student of the I.E. class with highest number of marks.

Preference to be given to those students who are residents of Kolhapur, Baroda, Satara, Poona, Sholapur and Ahmednagar Districts.

Ramabai Chaphekar Prize.

A prize of Rs. 35 endowed by Mr. N. G. Chaphekar of Dhulia to be awarded to a Kokanastha Chitpavan Brahmin girl who passes her First Year Examination with highest number of marks. Failing such a candidate it shall be awarded to any Hindu girl.

The prize will be in the form of books or cash at the discretion of the Principal.

Sir P. M. Mehta Prize.

Mr. F. M. Kanga, Solicitor, Bombay, has offered a sum of Rs. 25 a year in the name of Sir P. M. Mehta to a student who passes the Inter examination with the highest number of marks in History.

Bramhe Prize.

A prize of Rs. 45 called "N. B. Bramhe Prize" shall be awarded every year to any student irrespective of caste who passes the Inter examination or B.A. examination with the highest number of marks from the Fergusson College.

Dani Prize.

A prize in books of Rs. 60 called the "Ganpatrao Dani Prize" consisting of books shall be awarded every year to a student from the Fergusson College who obtains the highest number of marks in English in the Inter Arts examination of Bombay University.

The selection to be made by the Principal and the name of the scholar intimated yearly to the founder of the prize.

Sir W. Wedderburn Prize.

A prize of Rs. 35 founded by Mr. S. R. Bomanji of Bombay to be awarded to a student of the Fergusson College who passes his I.E. or I.Sc. examination in the 1st class and has not secured other prizes on the result of that examination from the college of a value of greater than Rs. 100 and continues to study for the B.A. or B.Sc. in the Fergusson College.

Should the prize be not awarded in any year the income should go towards increasing the corpus of the donation.

Manurkar Gokhale Prize.

A prize of Rs. 50 endowed by Mr. S. A. Manurkar of Poona in memory of the late of Mr. G. K. Gokhale to be awarded to the Lingayat student who stands highest in the First Year Examination.

Mrs. Jankibai Kanade Prize.

A prize of Rs. 30 endowed by Mr. R. G. Kanade of Poona in the name of his deceased wife to be awarded to any Brahmin Girl student in the Intermediate Class of the Fergusson College, Poona.

All these Prizes in connection with the College shall not be awarded to one who joins another Arts College.

Hari Govind Limaye Prize.

A prize of Rs. 75 is hereby instituted in memory of the Professor H. G. Limaye. It is to be given from year to year to the best essay sent in for competition. Open to all undergraduates of the Societies' Colleges. The subject may be chosen from the field of Politics, Economics or History.

- 1885. Vaman Shivram Apte, M.A.
- 1892. Gopal Ganesh Agarkar, M.A.
- 1895. Mahadeo Shivram Gole, M.A.
- 1904. The Honourable Mr. Raghunath Purushottam Paranjpye, M.A.
(Cantab.), B.Sc. (Bom.), D.Sc. (Cal.)

1922-1923.

Principal.

The Hon'ble Dr. Raghunath Purushottam Paranjpye, M.A., B.Sc., D.Sc.,
(On leave).

Acting Principal.

Keshav Ramchandra Kanitkar, M.A., B.Sc., Professor of Physics.

Vice-Principal.

Gopal Balkrishna Kolhatkar, M.A., Professor of Chemistry.

Professors.

The Hon'ble Mr. Vaman Govind Kale, M.A., Professor of History and Economics.
 Vishwanath Balwant Naik, M.A., Professor of Mathematics.
 Dhundiraj Laxman Dixit, B.A., Professor of Botany and Zoology.
 Krishnaji Keshav Joshi, M.A. (Bombay), Ph. D. (Wurzburg), Prof. of German.
 Gopal Vishnu Tulpule, M.A. Professor of English and Marathi.
 Ganesh Hari Kelkar, M.A. (Bombay and Cantab.), Professor of English.
 Mahadeo Krishnaji Joshi, M.A., Professor of Chemistry.
 Vasudeo Gopal Paranjpye, M.A., LL.B., Ph. D., Professor of English and Sanskrit.
 Shankar Ramchandra Kanitkar, M.A., Professor of History.
 Krishnaji Mahadeo Khadye, M.A., B.A. (Cantab.) Professor of English.
 Vishwanath Keshav Joag, M.A., Professor of Logic and Moral Philosophy.
 Trimbak Govind Yeolekar, M.A., B.Sc., Professor of Botany and Zoology.
 Madhav Trimbak Patwardhan, M.A., Professor of Persian.
 Purushottam Vishwanath Bapat, M.A., Professor of Pali.
 Narhar Ganesh Damle, M.A., Professor of Logic and Moral Philosophy.
 Vishwanath Atmaram Apte, M.A. Bombay, L.T. (Allahabad), Professor of Mathematics.
 Chintaman Ramchandra Deodhar, M.A., Professor of Sanskrit.

Ramchandra Narayan Joshi, B.Sc., Professor of Physics.
 Ganesh Sakharan Mahajani, B.A., Professor of Mathematics. (On study leave).
 Vasudeo Shastri Abyankar, Sanskrit Shastri.
 Mohamadkhan Munshi, Professor of Persian.

Lecturers in Composition.

Vishwanath Dattatraya Karkhanis, B.A.
 Mr. S. G. Gokhale, B.A.

Lecturers in Biology.

Mr. D. D. Samarth, B.A.
 Mr. S. M. Phadnis, B.A.

Lecturer in Sanskrit and English Composition.

Ramchandra Kashinath Khandekar, B.A.

Lecturer in Mathematics.

Mr. D. V. Bapat, B.A.

Demonstrators.

Ganesh Narayan Bhade, B.A., B.Sc. (Physics).
 Hari Sadashiv Bhide, B.A. (Physics).
 Mr. B. V. Gadgil, B.A. (Physics).
 „ K. S. Nargund, B.A. (Physics).
 „ G. V. Gurjar, B.Sc. (Physics).
 „ Vishwanath Vinayek Kane, B.Sc. (Chemistry).
 „ Y. G. Lele, B.Sc. (Chemistry).
 „ S. G. Shenolikar, B.A. (Chemistry).

Clerks.

Vinayak Hari Soman, Esq.
 Sadashiv Natesh Palkhe, Esq.
 Trimbak Balkrishna Burev, Esq.
 Mr. P. P. Raste.
 R. S. Parkhi, Esq.
 R. G. Bhadkamkar, Esq.

Dakshina Fellows.

G. G. Takle, B.A.
 D. D. Wadekar, B.A.
 G. K. Deshmukh, B.A.

Winners of Endowed Prizes and Scholarships

1921-1922.

Apte Prize.

Deshmukh, G. K. (S.B.A.)
 Patankar, N. V. (I.E.)

Apte Durgabai Prize.

Bapat Shanta (I.E.)

Brahme Prize.

Bhagwat, B. V. (M.A.)

Bhatwadekar Prize.

Parasnis, S. R. (J.B.A.)

Bhapkar Prize.

Ghatge, R. B. (F.Y.)

Chaphekar Prize.

Joshi Sahkubas (I.Sc.)

Dani Prize.

Jog, R. S. (J.B.A.)

Fergusson Prize.

Karkhanis, N. D. (I.E.)

Gulwe Prize.

Bhave, S. D. (J.B.A.)

Janardan Gopal Prize.

Karkhanis, N. D. (I.E.)

Sir P. M. Mehta Prize.

Chavan, S. B. (J.B.A.)

Manurkar and Gokhale Prize.

Patil, V. G. (I.E.)

Wederburne Prize.

Bhide, B. V. (I.Sc.)

Kanade Jankibai Prize.

Bapat Shanta (J.B.A.)

Annapuranabai Chitale Scholarship.

Bapat, K. G. (J.B.A.) 1st term.

Patankar, N. V. (I.E.) 2nd term.

Bapat Sadashiv Scholarships.

Bhave, V. N. (F.Y.) 2nd term.

Argade, S. K. (F.Y.) 1st & 2nd term.

Bhave, V. N. (F.Y.) 1st term.

Bhagwat Ydneskwar Scholarship.

Sathe, V. V. (F.Y.)

Brahme Scholarships.

Hasabnis, A. V. (F.Y.) 2nd term.

Kulkarni, D. R. (F. Y.) 1st term.

Bokil, K. V. (S.B.A.)

Compalli, G. D. (J.B.A.) 1st term.

Shaligram, D. V. (I.E.)

Katti, A. V. (J.B.A.) 2nd term.

Dravid Bhagirthibai Scholarship.

Kusum Jayawant (F.Y.) 1st term.

Kolhatkar Vimala (J.B.A.) 2nd term.

Govind Hari Scholarships.

Jog, R. S. (J.B.A.) 1st term.
 Misar, J. S. (I.E.) 2nd term.
 Sathe, V. P. (I.E.) 2nd term.

Ichharambhai Scholarship.

Mahajani, V. S. (F.Y.)

K. P. Joshi Science Scholarships.

Bhide, B. V. (J.B.Sc.)
 Bapat, G. K. (I.Sc.)
 Maydeo, A. G. (I.Sc.) 2nd term.
 Patwardhan, B. B. (S.B.Sc.) 2nd term.

Jankibai Limaye Scholarship.

Patil, V. H. (F.Y.)

Limaye Mahadeo Scholarships.

Bhide, M. R. (F.Y.) 2nd term.
 Bhate, G. P. (F.Y.) 1st term

Mankar Scholarships.

Deshmukh, G. D. (S.B.A.) 1st term.
 Deshmukh, G. K. (S.B.A.) 2nd term.

Nimkar Scholarship.

Ambedkar, S. N. (I.E.)

Patwardhan Scholarships.

Karkhanis, N. D. (I.E.) 1st term.
 Shenolikar, G. B. (S.B.A.) 2nd term.

Sadashiv Scholarships.

Hasabnis, A. V. (I.Sc.) 1st term.
 Bedekar, V. M. (J.B.A.) 2nd term.

Wadadekar Scholarship.

Purnapatre, G. G. (F.Y.)

Vinchurkar Scholarship.

Parasnis, S. R. (J.B.A.) 1st term.

K. P. Joshi German Scholarship.

Chafekar, H. G. (F.Y.) 1st term.
 Gharpure, K. C. (F.Y.)

College Scholarships.

Karkhanis, B. D. (J.B.A.)
 Vartak, P. V. (I.E.) 1st term.
 Tarkunde, B. M. (F.Y.) 1st term.
Kale, Gangoo (I.E.) 2nd term.
 Deshpande, G. K. (S.B.A.) 2nd term.
 Shenolikar, G. G. (S.B.A.) 2nd term.
 Pandit, V. V. (S.B.Sc.) 2nd term.
 Sathaye, V. P. (I.E.) 2nd term.
 Sathe, V. V. (F.Y.)
 Bhave, V. N. (F.Y.)

College Scholarship—contd.

Purnapatre, G. G. (F.Y.)
 Bhatt, G.P. (F.Y.) 1st term.

IX.—SAMALDAS COLLEGE, BHAVNAGAR.

(AFFILIATED, 1885.)

This College was founded by His Highness Sir Takhtasinghji Jasvantsinghji, G.C.S.I., LL.D., the late Maharaja Saheb of Bhavnagar, in memory of his late Diwan, Azam Samaldas Parmananddas.

The foundation stone was laid on the 25th November 1884 by His Excellency Sir James Fergusson, Bart., and the lecture-hall was declared open by his successor, His Excellency the Right Honourable Lord Reay, on the 17th December 1886. The College classes were opened in January 1885, and the new building was occupied in 1893.

Within easy reach of the College building, there are two hostels with kitchens attached; accommodation is provided for about sixty students, and for a Hostel Superintendent and a Fellow in residence.

The College is maintained by the Bhavnagar State, and is now under the supervision of the President, Council of Administration, Bhavnagar State.

The following endowments are connected with this College :—

Fourteen Darbari Scholarships of the aggregate value of Rs. 126 per mensem.

Two Juvansinhji Scholarships, each of the value of Rs. 10 per mensem.

One Vidyaram Scholarship of the value of Rs. 8 per mensem, awarded to the student who passes the Matriculation Examination with the highest number of marks in Sanskrit and prosecutes his studies in the College.

One Gaurishankar Scholarship of the value of Rs. 10 per mensem awarded to the student who stands highest at the Matriculation Examination and prosecutes his studies in the College.

The Gaurishankar Medal of the approximate value of Rs. 80, awarded annually to the student who stands highest at the Examination for the degree of B.A. and has studied at this College for two years immediately preceding that Examination.

The Lord Northcote Gold Medal, awarded annually to the student who, after attending the College for two years continuously, passes the B.A. Examination with the highest number of marks (not less than 45 per cent.) in any voluntary subject.

One Darbari Fellowship of the value of Rs. 50 per mensem tenable for one year.

The Pitamberdas Prize, founded by Mr. Labhshankar Pitamberdas Mehta, B.A., LL.B., awarded yearly to the student who passes the Intermediate Examination from this College with the highest number of marks in the English and Sanskrit Languages (not less than 45 per cent. of the aggregate number) and prosecutes his studies in the College.

The Professor K. J. Sanjana Prize, founded by Professor Tribhovandas Pitamberdas Trivedi, M.A., LL.B., awarded yearly to the student who passes the First Year's Certificate Examination of this College with the highest number of marks in Mathematics (not less than 50 per cent. of the aggregate number) and prosecutes his studies in the College.

The Professor B.A. Enti Prize, founded by his Bhavnagar pupils and friends, awarded yearly to the student who passes the Intermediate Examination from this College with the highest number of marks in Indian History and Administration and takes up the History Group as his voluntary subject in the B.A. Class.

The Professor Isfahani Memorial Scholarship, founded by his Bhavnagar pupils and friends, of the value of Rs. 25 per term and tenable for one year, awarded to the student who passes the Intermediate Examination from this College with the highest number of marks in Persian and takes up the English and Persian Languages for his voluntary subjects in the B.A. Class.

The Becharlal Karsanji Vakil Scholarship, founded by the late Mr. Mohanlal Tribhovandas Broker of Bombay, of the value of Rs. 30 per term and tenable for one year, awarded to the student of the Dasha Shrimali Bania Caste, who passes the Matriculation Examination with the highest number of marks and joins the First Year class of the College.

Upadhyaya, Ratilal Keshavlal.

Jam Shri Vibhaji Scholar :—

Andharia, Jethalal Lallubhai.

X.—DAYARAM JETHMAL SIND COLLEGE, KARACHI.

(AFFILIATED, 1887.)

In 1882 an influential body of Indian gentlemen of Karachi address a memorial to the Education Commission then sitting at Calcutta, urging the Commission to recommend the foundation of an Arts College for the Province of Sind, and adding that they could guarantee a sum of at least Rs. 30,000 as the nucleus of an endowment fund. Two years afterwards the writers of the memorial, together with other gentlemen, formed themselves into a Committee which extensively canvassed all parts of the Province for support, pecuniary and otherwise, to the project, and then dissolved in favour of a new body, the Sind College Association, of which the Honourable Mr. Dayaram Jethmal was appointed President; the Association is registered under Bombay Act XXI of 1860. Before the close of the year 1886-87, the Committee was able to announce that the College Endowment Fund exceeded one hundred thousand rupees, and that a sum of Rs. 27,550 had been promised towards the annual income of the College, to which sum Government had agreed to contribute Rs. 10,000, the Sind Municipalities Rs. 10,850, and the Sind District Local Boards Rs. 6,700. Of the Endowment Fund a sum of Rs. 1,19,700 has been invested, and the interest made available for the annual maintenance of the College.

The support thus liberally accorded by all classes was considered sufficient to justify the Association in arranging for the opening of the Sind Arts College in temporary premises in Karachi early in 1887, and the preliminary arrangements being completed, the College was accordingly opened by His Excellency Lord Reay, the Governor of Bombay, on the 17th January 1887. The College was at first recognised up to the 1st B.A. Examination only, but has since been recognized for the purposes of the M.A. and Second B.Sc. Examinations, the recognition extending from the beginning of the first term of the year 1887-88.

An Engineering Branch is attached to the College, the full course of instruction in Civil and Mechanical Engineering extending over three years; the proficiency of the students is tested annually by examinations conducted by the Public Works Department, and the certificates are granted on the results of these examinations, but it is not proposed at present to prepare students for the Degree, in Engineering of the University of Bombay. A special grant is made by Government in aid of these classes, and four appointments in the Public Works Department are granted annually to students holding the full certificate.

The management and the control of the College are vested absolutely in the College Board, which forms the governing body of the Sind College Association, and consists of representatives of Government, of the Association, and of the contributing Municipalities and District Local Boards. The Commissioner in Sind and the Judicial Commissioner of Sind are *ex-officio* the President and the Vice-President, respectively, of the College Board.

This College, which was formerly named the Sind Arts College, has now been renamed the "Dayaram Jethmal Sind College," after the late Honourable Mr. Dayaram Jethmal, in whose memory a fund was raised by his friends and admirers in this Province. This sum, having been supplemented by a handsome donation from Messrs. Dowlatram Jethmal and Bulchand Dayaram, relatives of the deceased, has been made over to the College Board.

The Hostel attached to the College, named the "Metharam Hostel" after the late Diwan Metharam Gidumal Shahani of Hyderabad, at present accommodates 164 students, and contains a Swimming Bath, named the "Fatechchand Atmaram Swimming Bath," after the late Seth Fatechchand Atmaram of Karachi.

Scholarships and Prizes.

Eight Sind Scholarships of Rs. 10 per mensem are tenable at the College by students of various degrees of seniority, and two scholarships of Rs. 15 per mensem are tenable by ex-students of the College wishing to study Medicine at the Grant Medical College, Bombay. Special reservations are made in favour of the Mahomedans and other backward classes.

Four special scholarships, one for each class (F.A., Intermediate Arts, Junior B.A., Senior B.A.) of the value of Rs. 20 per mensem, are established in the College for lady-students, are awarded to lady-students who have obtained the highest marks at the preceding annual examinations held or recognized by the University of Bombay and are tenable on condition of regular attendance, diligence, satisfactory progress and good behaviour.

The Macleod Scholarship, which was established in 1854 in memory of the late John Macleod, Deputy Collector of Customs at Karachi, is of the annual value of Rs. 140, being the interest of Rs. 4,000 forming the Macleod Scholarship Fund. It is tenable for one year at the College by the Native Sindhi student of the Narayan Jagannath High School, Karachi, who shall have passed with the highest number of marks the Matriculation Examination of the University of Bombay held in the preceding year.

The Sitabai Dayaram Scholarship of Rs. 52-8-0 per annum is annually awarded to a poor student of the Amil caste.

The Edulji Dinshaw Prize of Rs. 25-8-0 (the interest on Rs. 1,500 invested in Government securities), given by the late Mr. Edulji Dinshaw, C.I.E., is awarded annually to the student of the College who obtains the highest number of marks in the highest examination for which the College sends up candidates to the University in any year.

The Sir Maxwell Melvil Memorial Prize is awarded annually to the student of the College who shows the greatest proficiency in General Knowledge.

The Awatrai Sanskrit Prize of Rs. 17-8-0 per annum is awarded annually to the student of the College who obtains the highest number of marks in Sanskrit in the Intermediate Arts Examination.

The Erskine Prize of Rs. 91-8-0 per annum, founded by the friends and admirers of the late Mr. Henry Napier Bruce Erskine, C.S.I., for several years Commissioner in Sind, to commemorate his eminent services, is devoted to the encouragement of the study of Science at the College, and is awarded annually to students passing the B.Sc., Intermediate Science or the Science B.A. Examination of the University.

The Lalchand Hassomal Prizes, each of the value of Rs. 20 per annum founded by Mr. Lalchand Hassomal, B.A., LL.B., are awarded annually to the Mahomedan student who passes the Intermediate Arts Examination with the highest number of marks in History and to the Hindu student who passes the B.A. Examination with the highest number of marks in History and Political Economy.

A sum of Rs. 1,000 has been received from the executors of the late Mr. Showaram Ramrakhiamal to found a prize for Sanskrit.

There is also a prize for Science, being the interest of Rs. 500, founded in memory of the late Mr. Dalpatrai Rochiram, B.A., a former student of the College, and is awarded every year to a student of the Engineering Branch of the College for proficiency in Science.

The Devibai Mathradas Javehri Prize, founded by Mr. Mathradas Ramchand Javeri, B.A., LL.B., being the interest on Rs. 1,000, is awarded to a member of the Bhatia community who passes the B.A. Examination of the University of Bombay in any year with higher marks than any other Bhatia student of the College in any division of Science.

The Edulji Dinshaw Medal is awarded annually to the student who obtains the highest number of marks in Logic at the Intermediate Examination in Arts.

The Santsing Khushalsing Science Prize, being the interest on Rs. 400 and founded by the students in memory of one of their number who died in the year 1913 is awarded annually to the student of the First Year Arts Class who gains the highest number of marks in Physics.

The Naik Memorial Prize of Rs. 30 (the interest on Rs. 600 invested in 5 per cent. War Loan, 1929—1947) founded by the friends and ex-students of the late Rao Sahib Professor Bhimbhai Jivanji Naik, M.A., for 28 years Professor of Mathematics at the D. J. Sind College, is awarded annually to that student of the College who does best in mathematics at the B.A. Examination.

Sir Evan James Prize, founded by Rao Bahadur Seth Alumaal Trikamdass, B.A., a Jaghirdar in Sind in a letter dated 28th May 1920, offered to the Commissioner in Sind and President of the D. J. Sind Arts College Board the sum of Rs. 1,500 in 6 per cent. Government Loan Notes for the foundation of a Sir Evan James Prize as a memorial of the friendship of Sir Evan James, K.C.I.E., C.S.I., for his grandfather the late Seth Naomal, C.S.I., and his interest in Seth Naomal's family to be awarded biennially to a candidate who writes the best essay on a prescribed subject.

XI.—BAHAUDDIN COLLEGE, JUNAGADH.

(AFFILIATED, 1901)

His Highness Sir Rasulkhanji, G.C.S.I., late Nawab of Junagadh, made a grant of two lakhs of rupees for the establishment of an Arts College at Junagadh and undertook to maintain the Institution.

The friends and admirers of the late Vazier Bahauddinbhai Hashambhai, C.I.F. who had collected a sum of Rs. 60,000 with the intention of perpetuating the Vazier's name, supplemented this grant by contributing that amount.

The foundation-stone of the building was laid by Colonel J. M. Hunter, C.S.I., Political Agent, Kathiawar, on the 25th March 1897. His Excellency Lord Curzon, Viceroy and Governor-General of India, formally opened the building on the 3rd November 1900. In 1901 the College was affiliated to the Bombay University and was recognized for the whole course in Arts.

In November 1920 the College was transferred from the old building to a new and more commodious edifice which contains eighteen class rooms, a large hall and a First Year Class room measuring sixty feet in length.

The hostels consisting of 4 blocks, which have been recently built in connection with the College, contain accommodation for 96 students. These hostels, which have been built on the open space outside the city-walls and within easy reach of the College building, contain also residential quarters for four supervising Professors.

Scholarships.

At present the State gives 14 scholarships of the aggregate value of Rs. 110 per month to undergraduates. Twelve scholarships, each of the value of Rs. 20 per mensem have been recently founded for the benefit of Muhammadan students who are natives of Kathiawar.

Free Studentships.

All Muhammadans are admitted to the College without payment of fees and as a special encouragement from the State to Muhammadan students, a few deserving ones are given monthly stipends for maintenance. Besides these a limited number of students, other than Musalmans, are admitted without payment or with part payment of fees.

Applications for remission or part remission of College fees are considered *only if received on or before the tenth day of each term.*

The application must contain applicant's full name and caste, his age, residence father's name, occupation and monthly earnings, an account of the University Examinations he has passed, and the position obtained by him in each of them, and must be accompanied by :—

- (1) Certificates of good character, etc., from former Head Master or Principal.
- (2) Certificates of good character and inability to pay the College fees signed by persons of known respectability.

XII.—NEW POONA COLLEGE.

(AFFILIATED, 1916.)

The "New Poona College" has its origin in the growth and development of the "Nutan Marathi Vidyalaya" which was started on 1st January 1883 by a few earnest workers to perpetuate the memory of the late Mr. Vishnushastri Chiplunkar, by spreading and facilitating intellectual, moral, physical and scientific education through the medium of Marathi. This band of workers belonged to the Poona Training College for Men and was thoroughly imbued with the idea that in order to have a sound superstructure capable of additions and expansions it was essential to begin careful and methodical work at the very place where the foundations of future greatness are laid. They, therefore, commenced the really arduous task of imparting instruction in the lowest Vernacular Standards. As the founders received energetic and capable colleagues into their body and the Vernacular Standards gained in strength, efficiency and popularity, English came to be gradually introduced into the upper standards. This process of development from within went on steadily until there grew up, by the end of 1895, a full fledged High School out of the original Marathi School.

In the meanwhile the original founders, and their new colleagues, thinking it desirable to place their body on a permanent footing under the guidance of men of light and leading, and to give it a regular constitution, called a meeting of their friends and sympathisers on 5th February 1888, at which the Society named the *Marathi Shikshana*

Prasarak Mandali, now called the *Shikshana Prasarak Mandali*, was formed. It was then registered under Act XXI of 1860 on 12th March 1888. The Mandali took under its management the Nutan Marathi Vidyalaya with a view to carry out the original objects of the promoters of the Institution and under the direction of its Council the Institution grew and flourished in the manner aforesaid. The Nutan Marathi Vidyalaya High School having well stood the test of a public Educational Institution for 20 years, the Council of the Mandali thought that their Institution had reached a condition in which a College Department might be usefully added to it for the permanent well-being, stability and perfection of the original Institution as much as for meeting the growing demand for another College in Poona. The Council, therefore, applied to the University for the affiliation of the Second Grade Arts College which they proposed to open on behalf of their Mandali and which they intended to develop early into a First Grade Arts College. The Senate having recommended that affiliation might be granted for a period of five years for the purposes of the First Year's Course and the Intermediate Examination in Arts, Government were pleased to sanction the same in their Notification No. 1011-A of 13th April 1916.

* The New Poona College is at present located in the City in the Mandali's New Building, which was opened by HIS EXCELLENCY LORD WILLINGDON on 14th June 1916 and regular work commenced after Sir Ramkrishna G. Bhandarkar had delivered his inaugural address on 20th idem.

An application for the affiliation of the College as a full grade Arts College was made on 19th November 1917, which the Senate recommended to Government subject to certain conditions in March 1918. Government were pleased to notify their sanction to the Senate's recommendation on 21st May 1918. The B.A. Class was opened by the Honourable Sir Ibrahim Rahimtoola, Kt., on 20th June 1918 and the College became a full grade College provisionally for 3 years teaching the B.A. course.

An application for the permanent affiliation of the College was made on 21st October 1920 which the Senate recommended to Government subject to the same conditions and limitations as those under which it was provisionally affiliated. Government were pleased to notify their sanction to the Senate's recommendation on 30th April 1921.

The College is under the management of the Mandali's Council which consists of 9 non-Life-Members elected from amongst the Patrons and Fellows, (i.e., persons contributing Rs. 500 and over and Rs. 100 and over respectively) of the Mandali and 5 Life-Members elected by the Mandali's Board of Life-Members. The permanent funds of the Mandali are under the direct control of the Council of the Mandali.

Scholarships of the total monthly value of Rs. 135 are open for general competition. Of these four of the value of Rs. 10, Rs. 10, Rs. 8 and Rs. 8 are founded by Mrs. Ganga-bai Gokhale of Poona and are awarded respectively to the best and poor Chitpavan Brahman student in Sanskrit in Senior B.A. Class, in History in the Junior B.A. Class and to any intelligent deserving Brahmin student in the Intermediate Class (Mathematics) and in the F.Y. Class for general efficiency; the remaining are paid out of the current funds of the Mandali.

The chief of Ichalkaranji has made an endowment of Rs. 5,000 out of the interest on which 4 free-studentships are to be given to students from his state nominated by him.

Besides these Scholarships, there are nine prizes :—

- (a) One of the value of Rs. 50 to be awarded to the student of this College that passes the Intermediate Examination in Arts in the First Class with the highest number of marks, provided he continues to study in the College for his B.A. examination. This prize is offered by a past student of the N. M. Vidyalaya, who hopes to make it a permanent prize ere long.
- (b) One of the value of Rs. 15 is offered by Professor R. D. Karmarkar in the name of his father, to be called "Damodar Govind Karmarkar Sanskrit Prize" and is to be awarded to the student who passes the First year's Certificate Examination of this College with the highest number of marks in Sanskrit and prosecutes his studies for the I.E. in this College.

- (c) One of the value of Rs. 20 is offered by Mr. G. V. Sane; Jubulpore, to be called the "Gangadhar Prize," to be awarded to the student of the Intermediate Class getting the highest number of marks in History and Indian Administration.
- (d) One of the value of Rs. 20 is offered by Professor D. B. Deodhar to be called the "Laxmibai Sanskrit Prize," to be awarded annually to the student getting the highest number of marks in Sanskrit in the Intermediate Arts Examination.
- (e) One of the value of Rs. 50 is offered by Shrimant Bhavanrao Abajirao *alias* Babasaheb Pantpratinidhi of Vishalgad in the name of his wife, to be called "Shrimant Soubhagyavati Parvatibai Vishalgadkar Prize" to be awarded annually to the lady student who passes with the highest number of marks in the First year's examination.
- (f) One of the value of Rs. 30 is offered by Professor R. D. Karmarkar in memory of his sister to be called "Ahalyabai Sanskrit Prize", and is to be awarded to the lady student of the highest class in the college, who passes the annual examination (College or University) with the highest number of marks in Sanskrit, provided she secures at least 50 per cent. marks in that subject and prosecutes her studies further in this college; failing such a candidate, the prize is to be given to the student who passes the B.A. Examination from this College securing the highest number of marks in Sanskrit (Honours).
- (g) One of the value of Rs. 25 is offered by Professor R. D. Karmarkar in memory of his sister to be called "Chandrabhaga Prize" and is to be awarded to the lady student of the First Year Class in the College who passes the F.Y. Certificate Examination with the highest number of marks in Sanskrit, provided she secures at least 45 per cent. marks in that subject and prosecutes her studies further in this College. Failing such a candidate, the prize is to be given to the student who stands first in the Intermediate Arts Examination.
- (h) One of the value of Rs. 100 to be called "Vinayakrao Apte Prize" is awarded to the student who passes the Inter Arts Examination of the University with the highest total in the First Class from the New Poona College provided he continues his B.A. studies in this College.
- (i) One of the value of Rs. 80 to be called "Vinayakrao Apte Prize" is awarded to the student who passes the Matriculation Examination of the University with the highest total from the N. M. V. High School provided he is placed among the first ten in the University and continues his studies at the New Poona College.

In addition to these Scholarships and prizes 10 per cent. free studentships are allowed. Mr. A. S. Pambe of Junagad has offered two scholarships of Rs. 5 each, to be awarded to poor students.

List of Principals.

1916. V. G. Apte, B.A.

1922. N. M. Shah, B.A. (Bom.), M.A. (Cantab.).

1922-1923.

Principal.

V. G. Apte, B.A. (on furlough preparatory to retirement).

N. M. Shah, B.A. (Bom.), M.A. (Cantab.), Ag. Principal.

Teaching Staff.

Vinayak Ganesh Apte, B.A., Professor of English and Sanskrit (on furlough preparatory to retirement).

Nagindas Maneclal Shah, B.A. (Bom.), M.A. (Cantab.), Professor of Mathematics.

Datto Waman Potdar, B.A., Professor of History and Marathi.

Triambak Bhikaji Hardikar, M.A., Professor of Mathematics.

Rajaram Parashuram Sabnis, B.A. (Bom.), M.A. (Cantab.) Professor of History and Economics.

Hari Vithal Tulpule, B.A., LL.B., Professor of English.

Raghunath Damodar Karmarkar, M.A., Ph. D. (Washington, U.S.A.), Professor of English and Sanskrit.

Goviṇḍ Parashuram Patvardhan, M.A., Professor of Sanskrit and History (on deputation).

Dinkar Balvant Deodhar, M.A., Professor of Sanskrit.

Pralhad Govind Padhye, M.A., Professor of History and Economics (on study leave in England).

Ramchandra Krishna Lagu, M.A., Professor of English.

Narayan Ganesh Naralkar, M.A., L.T., Professor of Philosophy and English.

Shankar Vaman Dandekar, M.A., Professor of Philosophy.

Vasudeo Purushottam Patvardhan, M.A., Professor of Philosophy and English.

Laxman Ganesh Lele, Esq., Professor of Marathi.

Maheshwar Shankar Godbole, M.A., Professor of Mathematics.

Mahadeo Ramchandra Paranjpye, M.A., B.Sc., Professor of Physics.

Vaman Ramchandra Kinjavadekar, Shastri.

Shankar Dattatraya Gokhale, B.Sc., Lecturer in Physics.

Sarah Simpson, B.A. (Hons.), Honorary Lecturer in French.

Demonstrators in Physics.

Dnyandeo Vishnu Karandikar, B.A.

Dinkar Ramchandra Joglekar, B.Sc.

Fellows.

Dattatraya Damodar Bagul, B.A.

Dattatraya Sadashiv Sane, B.A.

Clerks.

Dattatraya Kashinath Bapat.

Vaman Balvant Kapade.

Librarian.

Vithal Mahadeo Kolhatkar.

Total Number of Students in each Class at the end of December 1922.

Class.	Males.	Females.	Total.
M.A.	5	2	7
Senior B.A.	50	1	51
Junior B.A.	41	41
Intermediate Arts	75	1	76
First Year	253	13	266
Total	424	17	441

SCHOLARS IN THE YEAR 1922-23.

University Scholar.

Varjivandas Madhavdas Sanskrit Scholar.

1. Mr. S. A. Gopujkar.

College Scholars.

(Senior B.A.)

1. Mr. T. D. Waknis (I and II terms).
2. Mr. V. S. Gupte (I term).

(Junior B.A.)

1. Mr. S. A. Gopujkar (I and II terms).
2. Mr. N. G. Abhyankar (I term).
3. Mr. V. K. Joshi (II term).

Intermediate Arts.

1. Mr. S. A. Kher (I and II terms).
2. Mr. G. P. Sohoni (I term).
3. Mr. S. S. Pathak (I and II terms).
4. Mr. G. A. Ratnaparkhi (II term).

First Year.

1. Mr. V. M. Bapat (I and II terms).
2. Mr. B. V. Sudumbrokar (I and II terms).
3. Mr. D. R. Joglekar (I and II terms).
4. Mr. V. D. Agashe (I and II terms).
5. Mr. M. V. Mahajan (I term).
6. Miss Gangabai Khare (I term).
7. Mr. D. B. Ranade (II term).
8. Mr. G. S. Vaze (II term).

XIII.—KARNATAK COLLEGE, DHARWAR.

(AFFILIATED, 1917.)

The question of founding an Arts College for the Karnatak had been several times brought to the notice of Government, but the first formal reference was made to the subject in 1902 by Mr. E. Giles, Director of Public Instruction. The matter was again put forward by the Dharwar Municipality in 1904 in an address to Lord Lamington, and finally, was brought up in the Legislative Council in September 1912 by the Honourable Rao Bahadur S. K. Rodda. The Council passed a resolution "That the Governor in Council may be pleased to consider the establishment of an Arts College in Dharwar". The Governor in Council then invited the opinion of the University Senate, which body passed unanimously resolutions in favour of the scheme in August 1915. In view of the financial situation it was considered impossible to proceed with the original plan at the time : however the agitation for an Arts College in the Southern Division became increasingly insistent, and Government agreed to assist the project provided that a sufficient sum was collected to create the presumption that there was an effective demand. A sum of one lakh was thereupon collected from the non-Lingayat population by Rao Bahadur S. K. Rodda on behalf of the Karnatak College Association, and an equal sum was subscribed by Rao Bahadur R. C. Artal, I.S.O., on behalf of the Lingayat Community.

Government then proceeded to organize, as a temporary measure, a second grade College for 200 students. The staff was to consist of a Principal, 4 Lecturers and a Demonstrator. It was to be located in a block of the Training College for Men, Dharwar.

The proposed College was inspected by a Committee appointed by the Senate, and on the recommendation of this Committee was provisionally sanctioned for three years by a resolution passed at a Senate meeting held on 15th June 1917.

On June 20th, 1917, in the absence of His Excellency Lord Willingdon, the Honourable Sir Mahadev B. Chaubal, at a meeting in the College Hall which was attended by the Commissioner, S. D., the Collector of Dharwar and many well-wishers of the institution, declared the College open.

On July 29th, 1919, the foundation-stone of the new buildings was laid by His Excellency Sir G. A. Lloyd, G.C.I.E., D.S.O., Governor of Bombay.

It was subsequently decided to buy up the Central Offices of the M. and S. M. Railway and to convert them into a First Grade College. The work was begun in January 1920 and finished in the following June. The work was inspected by a committee appointed by the University on 14th April 1920, and the Senate sanctioned the opening of the College as a First Grade College at a meeting held on 14th June 1920.

The new buildings were formally opened by His Excellency Sir G. A. Lloyd, Governor of Bombay, on 15th July 1920, in the presence of the Commissioner, S. D., Collector of Dharwar and a distinguished audience. As it stands at present, the College is sanctioned to hold the following numbers :—

First year	250
Intermediate	150
B.A.	130
Fellows	4	

The College contains 5 class-rooms capable of holding 150 students each, a science laboratory for 50 with gas and water laid on, a large lecture theatre, an ample Examination hall, and a library with 4,000 volumes. Hostel accommodation for 200 students is provided, and the Principal, Vice-Principal and 6 Professors have bungalows on the premises. A feature of the College is a students' Institute and recreation room.

Endowments.

Government scholarships to the value of Rs. 400 per mensem and fellowships to the value of Rs. 200 per mensem.

The Chaubul Scholarship founded by the Karnatak College Association, to the value of Rs. 10 per mensem to be awarded to the student joining the Karnatak College with the highest number of marks in the Matriculation Examination of the same year.

The Willingdon Scholarship founded by the Karnatak College Association, to the value of Rs. 10 per mensem, to be awarded to the student of the Karnatak College Intermediate Class who obtained highest marks in the Karnatak College First Year Examination of the previous year.

The Narayan Tatya Ichalkaranji Scholarship founded by Shrimant Narayan Rao Babasaheb, Chief of Ichalkaranji, to commemorate the memory of his ancestor Narayan Rao Tatyasaheb Ghorpade, who was Governor of the Dharwar Subha about the middle of the 18th Century. The scholarship of the value of Rs. 15, tenable for two years, is to be awarded to the student at the Karnatak College from the Ichalkaranji State with the highest number of marks at the Matriculation Examination. The scholarship is to be awarded every alternate year.

List of the present teaching staff (1922-23).

1. H. G. Rawlinson, M.A. (Cantab.), I.E.S., F.R. Hist. S., Principal and Professor of English.
 2. H. V. Hampton, M.A. (Dublin), I.E.S., Vice-Principal and Professor of English and Philosophy.
 3. N. S. Takakhav, M.A. (Bom.), I.E.S., Professor of English and History.
 4. C. P. Saldanha, M.A. (Bom.), Professor of Mathematics.
 5. S. G. Beri, M.A. (Bom.), Professor of History and Political Economy.
 6. V. G. Bhat, B.A. (Cantab.), Professor of Sanskrit.
 7. A. D. Dhopeswarkar, M.A., LL.B. (Bom.), Joint Professor of History and Logic.
 8. T. K. Devalalkar, M.A., B.Sc. (Bom.), Lecturer in Science.
 9. A. M. Moulvi, M.A. (Bom.), Lecturer in Persian.
 10. Narayan Shastry, M. A. (Arya, Sahitya Samaj), Temporary Lecturer in Kanarese.
- R. G. Bhadkamkar, M.A. (Bom.), Assistant to the Professor of Sanskrit.
 R. B. Raddi, Vidyabhushan, Sanskrit Shastri.
 T. M. Patil, M.A. (Bom.), 1st Assistant to the Professor of Mathematics.
 B. B. Bagi, B.A. (Bom.), 2nd Assistant to do.
 G. T. Thadhani, B.Sc. (Bom.), 1st Demonstrator in Physics (on leave).
 N. R. Mumlay, B.A. (Bom.), Ag. do. do.

L. B. Kolhatkar, M.A. (Bom.), 2nd Demonstrator in Physics (Deputed to the College of Engineering, Poona).

N. R. Tavade, B.A., B.Sc. (Bom.), Ag. 2nd Demonstrator in Physics.

D. V. Kale, B.A. (Bom.), Hostel Superintendent and Librarian.

T. M. Parvatikar, Head Clerk.

B. G. Halkatti, 2nd Clerk.

N. V. Patil, 3rd Clerk (on deputation).

H. K. Mahishi, Ag. 3rd Clerk.

XIV.—M. T. B. ARTS COLLEGE, SURAT.

(AFFILIATED IN 1918.)

The M. T. B. Arts College, Surat, can be said to owe its origin to the growth and development of a private Anglo-Vernacular School started in 1888, with the object of imparting sound education as cheaply as possible. This school, when started, was a proprietary concern, known as "The English School, Surat". It was subsequently

known as the "Sarvajani High School, Surat". With a view to place this institution on a permanent and sound footing and with a view to spread education of all sorts in the Surat District "The Sarvajani Education Society" was started in 1912 and registered under Act XXI of 1860. The school with its funds and properties was then transferred by its then proprietor to the Society. Later on in 1915 the Society took up the movement of starting a second grade Arts College, as need for such an institution in Gujarat was sorely felt owing to an increasing number of boys being refused admission to the existing colleges for want of accommodation. An appeal for funds was made to the public and the Society was in a position to apply early in 1917 to the University of Bombay for the affiliation of the college which was eventually recommended for a period of 5 years, for the purposes of the First Year course and the Intermediate Examination in Arts and the Government have been pleased to sanction the same by their Notification No. 481, dated 18th February 1918.

The College was declared open before an influential and enlightened gathering of the citizens of Surat on 19th June 1918 by The Honourable Sir Chimanlal Harilal, Setalvad, Kt., B.A., LL.D., Vice-Chancellor of the Bombay University. The College which is now affiliated to the University of Bombay as a First Grade College by Government Notification No. 2929, dated 14th July 1920, meets in a spacious building of its own near the Athwa Lines erected at a cost of about Rs. 1,55,000 which was declared open by His Excellency the Governor of Bombay on 2nd September 1920. It is recognised for the following courses :—

English	} Pass course.
Persian	
Logic and Philosophy	
Mathematics	
Gujarati	} Pass and Honours courses.
Sanskrit	
History and Economics	
Arabic	

The College is under the direct control and supervision of the Executive Committee of the Society which consists of Patrons, Vice-Patrons and Life-Members, who have to contribute minimum amounts of Rs. 1,000, Rs. 500 and Rs. 100, respectively, to the funds of the Society. Honorary Fellows and Volunteers join the society with the object of devoting their lives to the cause of education.

The permanent funds of the Society are managed by the Managing Committee. This College, at first, called the Sarvajani College, Surat, is now named "The Maganlal Thakordas Balmukunddas Arts College, Surat" in recognition of the magnificent donation of Rs. 2,00,000 made by Mr. Maganlal Thakordas Modi.

The permanent funds of the Society amount to Rs. nine lakhs and three quarters. These include an endowment fund of Rs. 1 lakh from the Tapidas and Tulsidas Varajdas Trust Fund for giving free studentships to deserving Hindu students a donation of Rs. 30,000 from Mr. T. N. Malvi and another of Rs. 2,00,000 from Mr. Maganlal Thakordas Balmukunddas, etc. A large portion of the permanent funds has been spent on the erection of buildings for the Society's institutions and purchase of sites. These buildings are the Sarvajani High School Building, Malvi Laboratory, Kalyandas Nanabhai Hostel and Ganpatram Ambalal Gymnasium. The M. T. B. College Building, Principal's quarters and the College Hostels, 3 blocks and the Sarvajani middle school building. A special site of about 20 acres in area has been purchased at a cost of about Rs. 25,000 for the college. The College building is now built there, with 3 blocks of 20 rooms each accommodating 20 students in single rooms and quarters for the Principal who stays on the premises. A large plot has been also purchased at a cost about Rs. 20,000 for a building for the Sarvajani Middle School. The society has also under its direct control and management an Anglo-Vernacular School teaching up to standard III at Katargam near Surat.

Endowments.

Endowed scholarships and Freestudentships as mentioned below are open to general competition. They are subject to rules framed for their award by the College authorities :—

(1) Mr. Gulabchand Devchand Zaveri has contributed Rs. 3,000 in 4 per cent. Port Trust Bonds to found a scholarship of the monthly value of Rs. 10 to be called "Devchand Lalbhai Scholarship."

(2) Messrs. Jivanchand Lallubhai and Company have contributed Rs. 3,000 in 4 per cent. Port Trust Bonds to found a scholarship of Rs. 10 per mensem to be known as "Dharamchand Udechand Scholarship."

(3) Messrs. Khimchand Uttamchand and Nemchand Abhechand have contributed Rs. 3,000 in 4 per cent. Port Trust Bonds to found a Scholarship of Rs. 10 per mensem and to be known as "Uttamchand and Abhechand Mulchand Scholarship."

(4) Messrs. Naranbhai, Hiralal, Dhirajlal and Manilal Dayabhai Nanavati have contributed Rs. 3,000 in 4 per cent. Port Trust Bonds to found a scholarship of Rs. 10 per mensem to be called "Rao Bahadur Dayabhai Harjivandas Nanavati Scholarship."

(5) Mr. Mafatlal Gagalbhai has contributed Rs. 3,000 to found a scholarship of Rs. 10 per mensem to be known as "Gagalbhai Scholarship."

(6) Navabzada Meer Masud Alamkhan has contributed Rs. 2,300 in 5½ per cent. War Bonds to found a scholarship of Rs. 10 per mensem in his own name.

(7) Sheth Salebhai Tyebji has contributed Rs. 3,000 to found a scholarship in his own name.

(8) Sheth Narandas Purshottamdas has contributed Rs. 25,000 in cash and securities to name a lecture-room after himself and to found 4 scholarships, each of the monthly value of Rs. 10. Three of these scholarships will be known as "Narandas Purshottamdas" and one as "Pranjivandas Narrandas Scholarship." All these scholarships are to be awarded to deserving students, preference to be given to students of Visa Nagar Bania community residing at any place; in default of such students, to deserving students of any other caste or community. These scholarships are to be distributed over the different classes as far as possible.

(9) Mrs. Nanigavri Atmaram has contributed Rs. 15,000 in 3½ per cent. Government Promissory Notes—

(a) To construct a lecture-room to be named after the late Mr. Chunilal Dharamdas Saraiya.

(b) To found a scholarship of Rs. 10 per mensem to be known as "Chunilal Dharamdas Saraiya Scholarship" and to be awarded to a student of the Dasa-Desaval Bania caste (preferably of Surat) and in his absence to any Bania student of Surat.

(c) To found a scholarship of Rs. 10 per mensem to be called "Mrs. Chhotigavri Chunilal Saraiya Scholarship and to be preferably given to a female Hindu student of Surat and in her absence to any male student.

(10) Messrs. Ishvarlal, Nanubhai and Kishorlal, sons of the late Mr. Ichharam Rangildas Mashruwala, have contributed Rs. 5,000 in 4 per cent. Preference Shares:—

(a) To found a scholarship of Rs. 10 per mensem to be awarded in the name of their father Mr. Ichharam Rangildas.

(b) To found a scholarship of Rs. 10 per mensem to be named "Mrs. Manglagavri Ichharam Scholarship" and to be awarded to a Bania student, preferably of Zarola Bania caste.

(11) Mr. Jagooobhai Kasandas has contributed Rs. 2,500 in 5 per cent. Preference Shares to found a scholarship of Rs. 10 per mensem to be named "Kalabhai Jagooobhai Scholarship." This scholarship is to be awarded to a student of the Visa Nagar Bania caste who resides in Surat and passes the Matriculation Examination of the Bombay University from one of the schools in Surat whenever the interest is available for being so used. The scholarship is tenable for 2 consecutive years. In absence of any student of the Visa Nagar Bania caste in any of the two classes, Previous and Intermediate, the scholarship may be awarded to a student of any Bania caste or Nagar Brahmin priest class or otherwise, preference being given to poor boys, according to the results of the Terminal Examination of the Previous Class of the College. In the latter case the scholarship awarded will be tenable for three terms and will be Rs. 7 per mensem on the same conditions as in the case of a boy of the Visa Nagar Bania caste. The holder of this scholarship may be

allowed to continue to hold this scholarship, even if he fails in the Terminal Examination either of the Previous or Intermediate class provided always the failure is due to illness or some other equally good reason. Even if his failure to pass may not be due to any of the above reasons, the Principal may allow him to continue holding the scholarship if he does not fail miserably of which the Principal will be the sole judge.

(12) Mr. Krishn Lal Nagindas Kaji has contributed Rs. 1,500 in 4 per cent. Port Trust Bonds to found a scholarship of Rs. 5 per mensem to be named "Nagindas Damodardas Scholarship". This scholarship is to be awarded to a student of Dasa Lad Bania caste of any town or village.

(13) Mr. Chunibhai Dayabhai Vakharvala has contributed Rs. 1,500 in 5 per cent. Preference Shares to found a free studentship to be named "Uttambhai Chunibhai Free Studentship."

(14) Mr. Kilabhai Durlabhram Dalal has subscribed Rs. 3,600 in Railway Shares:—

(a) To found a scholarship of Rs. 10 per mensem to be named "Durlabhram Ichharam Dalal Scholarship."

(b) To found a scholarship of Rs. 5 per mensem to be awarded to a Mahomedan student in the name of his friend Khansaheb Dr. Sheikh Lalmahomed.

(15) Sheth Mulji Haridas has contributed Rs. 3,000 to found a scholarship of Rs. 10 per mensem to be known as "Sheth Mulji Haridas Scholarship".

(16) Messrs. Manganlal M. Modi, Ratanlal M. Modi and Ambalal M. Modi have contributed Rs. 1,800 in 7 Preference Shares and $3\frac{1}{2}$ per cent. Government Promissory Notes to found a scholarship of Rs. 10 per mensem to be named "Motiram Triundas and Bai Gulab Scholarship", to be awarded to a deserving student of the Surti Modh Visa Adalja Bania community studying in the First Year's Arts Class; in default of any such student to any deserving Bania student; in default of any such to any Gujarati Hindu student studying in the same class.

(17) Mr. Rammiklal Ratanlal Modi has contributed Rs. 3,600 in 7 per cent. Preference Shares and $3\frac{1}{2}$ per cent. Government Promissory Notes to found two scholarships of Rs. 10 each, one in the First Year's Arts Class and the other in the Intermediate Arts Class to be called "Bai Jivkor Scholarships" to be awarded to a deserving student of the Surti Modh Visa Adalja Bania community; in default of such students, to any deserving Bania Student and in default of such, to any Hindu Gujarati Student.

(18) Mrs. Jaikore A. Modi, Mrs. Lalita D. Khandwala and Mrs. Hiragavri C. Marfatia have contributed Rs. 6,000 in 4 per cent. Port Trust Bonds to found.

(a) a scholarship of Rs. 10 per mensem to be called "Bai Jadav Scholarship" to be given in the First Year's Art Class,

(b) a scholarship of Rs. 10 per mensem to be called "Thakordas Vijbhukhan das Scholarship" to be given in the Inter Arts Class.

These scholarships are to be awarded to deserving students of the Surti Modh Visa Adalja Bania Community; in default of such students, to any deserving Gujarati Bania Student; in default of any such, to any deserving Hindu Gujarati Student.

(19) The Executors of the will of the late Mr. Baloobhai Bhaidas have contributed Rs. 2,400 in cash and $5\frac{1}{2}$ per cent. War-bonds to found a scholarship of Rs. 10 per mensem to be called "Baloobhai Bhaidas Scholarship" to be awarded to any Hindu Student who passes the First Year's Class Examination of this College with the highest number of marks in Sanskrit and continues his studies in the Inter Arts Class.

(20) The Trustees of the estate of the late Mr. Chunibhai Lallubhai Javeri have contributed Rs. 2,500 to found a scholarship of Rs. 10 per mensem to be known as "Sheth Chunibhai Lallubhai Jhaveri Scholarship" to be awarded to a Jain student of Surat in the Inter Arts Class who has passed the First Year's Arts Examination of this College with the highest number of marks in Science; in default of any such student, to a student of any community whatsoever who passes the said Examination with the highest number of marks in Science.

(21) Mrs. Vasumati Dhimantram Pandit has contributed Rs. 6,500 in 3½ per cent. Government Promissory Notes to found

- (a) Navalram Laxmiram Pandit Freestudentship,
- (b) Mrs. Manigavri Navalram Freestudentship,
- (c) Dhimantram Navalram Pandit Freestudentship,

to be awarded to any three poor deserving Hindu Students studying in any class or classes of this College. The holder of such a Freestudentship shall not be debarred from getting any College Scholarship.

(22) Rao Bahadur Kamalashankar Pranshankar Trivedi has given Rs. 1,000 in 5 per cent. Government Promissory Notes to found the following two prizes to be awarded under the following conditions :—

(a) A prize of Rs. 25 to be designated “The Rao Bahadur Kamalashankar Pranshankar Trivedi Prize” and to be awarded annually in cash to a student of this College who passes the University Intermediate Examination in Arts with the highest number of marks in Sanskrit.

(b) A prize of Rs. 25 to be designated “The Chhmanben Sanskrit Prize” and awarded every year in cash to a student of this College who comes second in Sanskrit at the University Intermediate Examination in Arts.

For the purposes of the above-named prizes no distinction of students and ex-students shall be made. Whoever sends his Examination form to the University Registrar through the Principal, Sarvajanik (M.T.B.) College, should be held eligible for the prizes.

In case the Government returns the money of the loan, the proceeds to be invested in the most profitable Government Loan then available in the market and the income thereof to be divided equally for the purpose of these two prizes.

When the B. A. Class is opened, the students getting the above prizes should continue their studies in this College for at least one term.

Should the University drop the Inter Arts Examination or Sanskrit as a Subject in that Examination, the prizes should be awarded on the merits of any other University Examination that the Society may deem proper.

(23) Mr. Madhavram Harinarayan Vyas has given Rs. 5,000, to be named “Madhavram Harinarayan Scholarship Fund”, to the Treasurer, Charitable Endowments, Bombay Presidency, to found scholarships as follows :—

The income accruing from the fund shall be administered by the Chairman of the Managing Committee of the Sarvajanik Society, Surat and shall be spent on two scholarships, to be named “Madhavram Harinarayan Vyas Scholarships”, of the annual value of Rs. 96 each, to the students satisfying the following conditions (hereinafter called “qualified students”).

- (i) That they belong to the Audichya Sahasra Brahmin Caste.
- (ii) That they belong to Surat District or to the portion of the territory of the State of Baroda included in the Palwada division as hereinafter defined.
- (iii) That they are studying in the M.T.B. College, Surat with Sanskrit as their Second Language.
- (iv) That they are eligible under conditions hereinafter prescribed.

(a) The Scholarships shall be tenable for one year and shall be paid in two instalments of Rs. 48 each.

(b) (i) One of the scholarships shall be awarded to a qualified student studying for the First Year Arts Examination and the other to a qualified student studying for the Intermediate Examination. Both scholarships shall be awarded to qualified students for Intermediate Examination and *vice versa* ;

(ii) If there is only one student eligible under provisions of sub-clause (i) of this clause, the remaining scholarship shall be awarded to a qualified student of the Junior B.A. Class and if there is no qualified student under sub-clause (i), the remaining scholarship shall be awarded to a qualified student in the Junior B.A. Class. If there is no qualified student in the

Junior B.A. Class, the scholarship shall be awarded to a qualified student of the Senior B.A. Class or *vice versa*.

(iii) In the event of there being no student, no award shall be made.

(c) In the event of there being more than one qualified student applying for the same scholarship, preference shall be given :—

(i) To a qualified student from the town of Bardoli, failing him, to a qualified student from the Palwada Division, failing him, to a qualified student from any other place in the Surat District.

Note.—The Palwada Division shall be deemed to include the following towns from the Surat and Navsari Districts :—

Bardoli, Valod, Kadod, Sarbhon, Vyara, Mandvi, Palsana, Bulesar, Mahuva, Bansda and Dharampore.

(ii) subject to the provisions of sub-clause (i) of this clause, to a student who passes the qualifying test for the examination for which he is studying with the highest number of marks.

(d) A student who has failed to pass either a University or a College annual examination shall not be eligible for a scholarship when he is studying for the same examination.

(e) No student shall hold more than one of these scholarships.

(f) Save as provided in these conditions, the general rules of the college in force for the time shall govern the award of these Scholarships.

The Scholarships shall be subject to conditions of good behaviour and satisfactory progress.

The names and addresses of the students to whom the Scholarships are awarded shall be communicated by the Administrator of the Fund to the donor every year, during his lifetime.

In the event of scholarship not being awarded or there being any surplus accumulated from the income of the fund from any cause whatsoever, the amount shall be added to the fund and shall be utilised at the discretion of the Administrator either in augmenting the value of the said Scholarships or towards the foundation of new Scholarships.

The Trust shall operate in favour of any other institution by which the M.T.B. Arts College, Surat, may with the approval of the Governor in Council be replaced and for such other purposes of a like nature in the furtherance of the intent specified as shall at any time seem proper to the Governor in Council and the investment, management, and the dispensation of the Fund shall be at the discretion of the Government.

(24) A Scholarship of Rs. 10 per mensem to be called "The Ghelabhai Bhukhandas Shah Scholarship" will be given to a student of the Sarvajanic High School, who gets the highest number of marks in the School-Leaving Certificate Examination and joins this College.

In case the student is entitled to any other Scholarship the amount of which is greater than Rs. 10, this scholarship should be given to the student standing next to him. If he is also entitled to a similar scholarship, it should be given to the third one and so on.

The award and enjoyment of the Scholarship shall be subject to the general rules for the award of Scholarships at the M.T.B. College, Surat.

(25) Mr. M. A. Patheria has given Rs. 2,500 for using the interest thereof to found a scholarship of Rs. 10 per month to be named "Sheth Ahmedbhai Rahemtullah Scholarship" to be given to a Dawoodi Bohra student of the F. Y. A. Class of this College and to be continued in the Intermediate Arts Class if he passes the F. Y. A. Examination. In awarding the said scholarship preference to be given to a Dawoodi Bohra who has passed the School-Leaving Examination with Arabic.

Should there be more than one student of the said community, preference to be given to the poorest. The award and enjoyment of the said scholarship shall be subject to the general rules for the award of Scholarships at the M. T. B. College. Should there be no Dawoodi Bohra in the F.Y.A. Class, the scholarship shall be given to such a student in the I. A. Class ; failing that, the proceeds shall be added to the Society's General Fund.

Students getting University Scholarships shall not be entitled to this scholarship for the same period.

26. A scholarship of Rs. 10 per mensem to be called " Bai Jadavbai Maganlal Modi Scholarship " shall be, in the first instance, be given to a lady student of the Gujarati Hindu Community joining the Previous or the First Year's class at the Sarvajanic College, Surat, who has passed the Matriculation Examination or such other Examination as may hereafter be substituted hereafter in lieu thereof for entrance into an Arts College, with the highest number of marks.

(b) If more than one such student are bracketed together at the said examination, the poorest amongst them shall be given preference.

(c) The Scholarship shall not be granted or continued to any lady student who suffers a failure in the said Previous of the First year in Arts Examination.

(ii) In absence of any lady student attending the said College or in the event of the scholarship not being awarded to or continued to any such student, by reason of the condition in clause (c) above such scholarship shall be awarded to any male Gujarati Bania student who has stood highest amongst the Gujarati Bania successful students at the said Matriculation or any entrance Examination as mentioned above provided that if he becomes eligible for one such scholarship, he shall not be entitled to receive more than one such scholarship at a time, and if this scholarship is not awarded to such Gujarati Bania student owing to aforesaid condition, the same shall be awarded to the next eligible Gujarati Bania student. The Clause (c) above shall apply to this clause also.

(iii) In default of there being any Gujarati Bania student eligible for the Scholarship in the College it shall be awarded to a student of any other Gujarati Hindu Community and all the provisos in clauses (i) and (ii) above shall apply *mutatis mutandis* to the such an award.

(iv) The Provisions mentioned in clauses (ii) and (iii) above shall be subject to the condition that if any student eligible for this Scholarship gets any other scholarship or scholarships, he shall not be entitled to this scholarship which shall, in that event, be awarded to the next eligible student under the said provisos. If any student gets any University Scholarship, he shall not, by reason thereof, be disqualified from being eligible for this Scholarship.

27. A monthly Scholarship of Rs. 6 to be called the " Gulabrai Durgaram Dave Scholarship " shall be awarded to a student of Vadnagra Vaidik Nagar Brahmin Caste, who has secured the highest number of marks at the School Leaving Certificate Examination and join this College in the F. Y. A. Class.

In case, there be no such student in the F. Y. A. Class in any year, the Scholarship shall be awarded to a student of the said caste who passes the F. Y. A. Examination with the highest number of marks and continues his study in this College in the I. A. Class. In default of this, the Scholarship shall be awarded to a student of the said Community who passes the I. A. Examination amongst the students studying in the B. A. Class.

If in any year there be no such student of the said community in the College, the Scholarship shall be awarded to a Brahmin student passing the School Leaving Examination with the highest number of marks amongst the Brahmin students studying in the F. Y. A. Class.

28. A prize of Rs. 47-8-0 called the " Burjorji Nusserwanji Vakil Prize " shall be awarded annually to the Parsi student, who passes his Inter Arts Examination from the M. T. B. College and secures the highest number of marks of all the students who pass the examination and continues his studies in the said College. Failing such student the interest shall be added to the General Fund of the Society.

On redemption of the Loan, the Sarvajanic Education Society being vested with the power to invest the proceeds into such authorized Trust securities as they deem proper, should the interest realised fall below Rs. 50 the Society may give a prize of books worth the amount then realised after deducting 5 per cent. of the income for the General Fund of the Society, on terms stated above.

29. Mr. Rustomji Manchorji Cooka has given Rs. 5,000 in 4 per cent. Bombay Improvement Trust Bonds for free studentships to two Poor, intelligent Zoroastrian students studying in this College. The balance of the income that remains after deducting 5 per cent. of the income accruing from this endowment for the Society's General Fund will be utilized every year for College books to one or both the students who may receive the Freestudentships.

30. R. B. Manubhai Nandshanker Mehta has given Rs. 3,000 to found a Scholarship of Rs. 10 per mensem to be called "Markand Nandshanker Mehta Scholarship" and to be awarded to the topmost lady student who joined the College. In event of there being no Lady Student studying in the College the Scholarship would be given to the student who passes the Intermediate Arts Examination with the highest number of marks in History and continues his studies at the College.

31. Bui Manchha widow of Mr. Maneklal Rajaram contributed Rs. 1,000 in 4 per cent. Bombay Port Trust Bonds to found a Half Free studentship to be called "Maneklal Rajaram Half Free studentship" and to be awarded to a student of the Nagar Brahman Community studying in the B. A. Class of the College and in default of this to any poor deserving Brahmin student studying in the B. A. Class. If no such student is eligible in the B. A. class for it, should be given to a student of the Nagar Brahmin Community studying in the Intermediate Arts Class and in default of which to any poor deserving Brahmin student studying in the Inter Arts Class of the College.

15.	„ Khajotia, M. M.	Full		Rustomji Mancherji Cooka Free studentship.
16.	„ Pandya, P. S.	$\frac{1}{2}$		Maneklal Rajaram, Half Free studentship.

Prizes.

1. Shroff, C. V. .. R. B. K. P. Trivedi Sanskrit Prize of Rs. 25.
2. „ Desai, B. L. .. The Chhambanben Sanskrit Prize of Rs. 25.

Mr. Burjorji Nusservanji Prize cannot be awarded this time as there is no student eligible for it among the successful students at the last Intermediate Arts Examination.

XV.—WILLINGDON COLLEGE, SANGLI.

(AFFILIATED, 1919.)

The Willingdon College owes its origin to the opportunity which offered itself in the Summer of 1918, to the Deccan Education Society, Poona, to open an Arts College to serve the Southern Maratha Country.

The tract between Sangli and Miraj being the heart of the Southern Maratha Country seemed the fittest place to start the proposed College. Fortunately a fine plot of ground on a high level was found out. This site being within walking distance from both Sangli and Miraj and being adjacent to the Railway line between the two towns was selected for the permanent location of the new College.

The Deccan Education Society at once formulated a definite Scheme and approached the late Governor of Bombay, Lord Willingdon. He gave his wholehearted sympathy to the Scheme, but for which this College would not have come into existence and in view of which, therefore, the College was named after him.

The Southern Maratha Country Chiefs were appealed to and encouraging responses were received from them. But as the buildings on the selected site would take two or three years to be completed, it was decided to start the College at first, in temporary buildings.

With a view to secure such buildings Shrimant Appasaheb, Chief of Sangli, was approached and he readily and kindly consented to lend us the use of three State buildings fully repaired at his own expense, two for holding College, Classes and one for the Students' Hostel.

Shrimant Balasaheb, Chief of Miraj, made a generous gift of his splendid collection of books on a variety of subjects containing in all 5,000 volumes as also his collection of Scientific Apparatus. According to the wishes of Shrimant Balasaheb, the Library is named after his wife Shrimant Soubhagyawati Umabaisaheb Patwardhan Library and Laboratory is named after his father, Shrimant Ganpatrao Patwardhan Laboratory. After all the arrangements regarding the College were settled the Council of the Deccan Education Society, Poona, applied to the University, for the affiliation of the Willingdon College as a Second Grade Arts College till the new buildings on the selected site should be ready. The University after receiving a favourable report from the Inspection Committee granted recognition for the first two classes for three years and the Government of Bombay were pleased to sanction the affiliation in May 1919. In January 1922 the College was permanently recognised as a first grade college.

The Willingdon College, Sangli, was declared open by the Vice-Chancellor Sir Chimanlal H. Setalwad, on 22nd June 1919 and it is at present held in the temporary buildings lent for the purpose by the Chief of Sangli and in two rooms newly built by the Deccan Education Society, Poona.

The College is under the direct control and supervision of the Governing Body of the Deccan Education Society, Poona, which consists of the Life Members on the one hand and Fellows and Patrons on the other. The permanent funds of the Society are under the control of the Council of the Society. (Full information regarding the Society, its funds and the institutions under its control is given in an account of the Fergusson College.)

XVI.—SIND NATIONAL COLLEGE, HYDERABAD

(AFFILIATED, 1922.)

Early in 1917, Mrs. Annie Besant, President of the Theosophical Educational Trust—an Association registered under Act of XXI of 1860, received a nucleus donation of Rs. 20,000 to start an educational institution in Sind. Accordingly, Mr. Ernest Wood, Secretary of the Trust, came to Sind in August 1917, and with the help of local leaders at Karachi and Hyderabad started "The Sind National College" on 1st October 1917. A little later, the Theosophical Educational Trust was merged into a registered Body called the Society for the Promotion of National Education, which took over the institutions of the Trust about 39 in number and started a National University at Madras with Dr. Rabindra Nath Tagore as Chancellor. The Sind National College formed a constituent College of this University, and undertook to prepare students for degrees in Arts, Science, Commerce and Political Science.

Meantime, the Non-Co-operation movement had gathered great force, and as the Promoters of the Sind National College materially differed in their ideals of education from the Non-Co-operators and refused to fall in with the prevailing mood, the support of the public in students and money was withdrawn from the institution. The Primary and the Secondary Departments of the High School, which had grown round the College, were closed in April 1921 and the recognition of the Joint Examination Board was sought and obtained for the High School Classes.

The desire for an Arts College affiliated to the Bombay University had long been felt by a number of leading people at Hyderabad. When the continuance of the Sind National College on independent lines became impossible, it was decided to apply for its affiliation to that University. This was done in September 1921. Subsequently an appeal was made to the public for support, and in November 1921 an influential Committee was formed to take the matter in hand to push it through. The most difficult task that the Committee had to do was to collect a sufficiently large amount of Endowment Fund, the difficulty being enhanced by the fact that some money had already been promised or paid to a Committee that was formed for a similar object in 1917, and of which the Secretary Rao Bahadur Dewan Bulchand Dayaram happened to be away in England. With the generous help of Dewan Sherumal Chainrai who offered to place at the disposal of the College the interest on a sum of Rupees One lac

deposited with the Government Treasurer, Charitable Endowments, Bombay, on behalf of the Dewan Metharam Dharamada Trust, this difficulty was eventually got over, and Collego started work as a Second Grade College of the Bombay University on 20th June 1922.

1922-23.

XVII—THE SYDENHAM COLLEGE OF COMMERCE AND ECONOMICS, BOMBAY.

(AFFILIATED, 1914.)

The general purpose of this College is to furnish young men embarking on a business career with a University education of such a kind as will assist them by deepening and widening their understanding of industrial and commercial organization, to rise to the more important and responsible positions in their respective vocations, and concurrently, from the larger public and cultural point of view, to promote the study of social conditions in general, by means, of specialized courses in the various branches of economic science and by original research.

The Degree of Bachelor of Commerce having been instituted by this University in January 1912, a further step was taken on June 24th of that year when it was announced in a Press Note that His Excellency Sir George Clarke (now Lord Sydenham), the Governor of Bombay had received promises of donations and subscriptions yielding an annual income of Rs. 23,000 for the establishment of a Government College of Commerce in Bombay and that Government would contribute an annual grant of

Rs. 15,000. The donations and subscriptions were from Sir Jugmohandas Vurjee vandas, Kt., Sir Chinubhai Madhavlal, the Trustees of the Wadia Charities, the Bombay Chamber of Commerce, the Indian Merchants' Chamber, the Millowners' Associations of Bombay and Ahmedabad, and the Native Piecegoods Merchants' Association. His Excellency the Governor in Council trusted "that the establishment of this College, the first of its kind in this country, would in time go far to supply the growing needs of special commercial education not only of the Presidency but of India generally".

Subsequently sanction was accorded to the appointment of a Principal and a Professor to be recruited in England, and of two other Lecturers. It was further announced that the College would be entirely under Government control, but that an Advisory Board would be constituted in order that the courses of study might be made to harmonize with the practical requirements of commerce and industry. This Board consists of the Director of Public Instruction (Chairman), the Principal of the College, Representatives of the Donors and other prominent business men.

As the Secretary of State had not selected a Principal for the College and as it was not considered desirable to postpone the establishment of the College for another year, it was announced in a Press Note of the 10th of October 1913 that provisional arrangements had been made for starting the College forthwith with Mr. K. Subramani Aiyar, B.A., L.T., F.S.A.A., as Honorary Principal.

"The Bombay Government were glad that this Institution which so largely owed its inception to Mr. Aiyar's labours in the cause of commercial education, should first commence operations under his Principalship."

The College commenced work on October 22nd, 1913, in the Elphinstone College Building. On February 1st, it was transferred to the upper part of the Whiteaway Laidlaw Building temporarily, and was located there till the end of 30th June 1922, when from 1st July 1922, it was shifted to its own building (formerly known as the Indo-British Institution), near Sir J. J. School of Art on Hornby Road.

Mr. Percy Anstey, B. Sc. (Econ.), Lecturer in charge of the Economic Department at the University of Bristol, was appointed by the Secretary of State to be the permanent Principal and in March 1914 he took up his duties. On his death on 23rd November 1920, he was succeeded by Mr. Mohan Lal Tannan, B. Com. (Birm.), Bar.-at-Law, I.E.S.

1922-23.

XVIII.—THE SECONDARY TRAINING COLLEGE, BOMBAY.

(AFFILIATED IN 1922).

This College is a Government Institution and was started in 1906 with the object of providing both Government and recognized Secondary Schools with a supply of trained and competent teachers. It undertakes to train 34 teachers annually. Out of these 5 places are reserved for teachers deputed by recognized Schools in the Presidency or by the Educational Departments of Native States. The remainder are filled by teachers already in permanent service deputed by the Educational Department or by graduates of either sex serving on probation in Government Institutions. These teachers continue to receive their ordinary pay during the period of their training.

The College is located in the Elphinstone High School Buildings where it has now the exclusive use of the whole of the two upper floors. It is also having a separate Demonstration Theatre. A hostel has also been provided quite close to the college, which accommodates 20 students and has a resident Superintendent. The Principal also lives on the premises.

The practical work of the college is done in the Elphinstone High and Middle Schools which are used as its practicing schools.

Prior to the affiliation of the college to the University for the purposes of the B. T. Degree, the course of study pursued at the college was laid down by the Department and lasted for one University year, at the end of which an examination was held by a Board constituted by the Department. On the results of the Examination and the year's practical work diplomas were issued to the successful candidates who were graded in two classes. The Diploma was known as the Secondary Training College Diploma and was recognized by Government as specially qualifying the holders for employment as teachers in the Educational Department. In earlier years these diplomas were granted to both graduates and undergraduates alike on the successful completion of the course. Latterly, however, no undergraduates being deputed by the Department, graduates alone had been receiving the Diploma.

In the year 1920 the whole question of the reorganization and the expansion of the Secondary Training College was considered by a representative committee of educationalists appointed by Government which reported in favour of the affiliation of the college to the University. This recommendation being accepted by Government, the college was finally affiliated to the University in the year 1922-23.

List of the present teaching staff

1922-23.

H. A. Sadarangani, Esq., M.A., S.T.C., Principal and Professor of Education.

XIX.—POONA AGRICULTURAL COLLEGE.

(AFFILIATED, 1907).

The Poona Agricultural College owes its origin to the development of the agricultural classes at the College of Science, Poona. Training in Agriculture was given at that College from the year 1878, but it only developed to any extent after the institution of the degree of Licentiate in Agriculture by the Bombay University in 1899. The growth was however so rapid from 1900 to 1905 that the accommodation available at the College of Science became insufficient. Separate quarters were of necessity obtained, and the ultimate establishment of an entirely separate institution for agricultural education was considered by Government. The result of this consideration was the complete separation of the agricultural classes from the parent institution on January 1st, 1908, and the establishment of the Poona Agricultural College.

Buildings for the permanent use of the College are now complete, and were fully occupied from July 1st, 1911.

The College is under the direct control and supervision of the Director of Agriculture in the Bombay Presidency, acting for the Government of Bombay.

The following endowments are connected with the Poona Agricultural College :—
I.—Government Scholarships—

Fifteen, awarded each year and tenable for three years, of Rs. 15 per mensem.

II.—The "Gulabdas Bhaidas Vakil King-Emperor Edward VII Scholarship", of the value of Rs. 110, is annually awarded to the student belonging the Anavla Brahmin caste, who obtains the highest marks in the Intermediate Examination in Agriculture of the University of Bombay. The award is made by the trustees of the Scholarship Fund on the recommendation of the Principal of the Poona Agricultural College.

III.—The "Gulabdas Bhaidas Vakil King-Emperor George V. Scholarship", of the value of Rs. 87-8-0, was originally annually awarded to the student who obtained the highest marks in the Second Year's Examination in Agriculture of the University of Bombay. Since the abolition of that examination, it is awarded on the result of the second year's College examination. The trustees of the endowment are the Director of Agriculture and the Principal of the Agricultural College.

IV.—The "P. J. Bhatt Memorial Prize" is annually awarded to the student who, obtains the highest marks in agricultural chemistry in the University Examination for the degree of Bachelor of Agriculture.

V.—The "G. D. Mehta Memorial Prize" is annually awarded to the students who obtains the highest marks in agriculture in the University Examination for the degree of Bachelor of Agriculture.

1922-23.

Principal.

Harold H. Mann, D.Sc., M.Sc., F.I.C., F.L.S. (Acting Director of Agriculture)

XX.—COLLEGE OF ENGINEERING, POONA.

(AFFILIATED, 1865).

The Poona College of Engineering (formerly the Poona College of Science and still earlier the Poona Civil Engineering College) arose out of a school established in Poona in 1854 by Government at the suggestion of Lieut-Colonel Walter Scott, Bombay Engineers, for the purpose of educating subordinates for the Public Works Department.

The College is under the control of the Principal, who is subordinate to the Director of Public Instruction.

Selected students who have studied for at least one year in an Arts College affiliated to the Bombay University are educated through the medium of the English language for the University Degrees of Bachelor of Engineering (Civil), and Bachelor of Engineering (Mechanical).

A school for engineering apprentices is attached to the College. Instruction is given in the three following classes :—

- (a) Sub-Overscer class.
- (b) Mechanical Apprentice class.
- (c) Electrical Apprentice class.

In July 1863, Cowasjee Jehangir Readymoney, Esquire, presented to Government the sum of Rs. 50,000 to assist in the erection of suitable buildings for the College. The foundation-stone was laid by His Excellency Sir Bartle Frere on the 5th August 1865.

The Endowments belonging to the College are held by Trustees. The present Trustees are Sir Cowasjee Jehangir, the Honourable Divan Bahadur K. R. Godbole and Mr. V. T. Agashe.

Fellowships.

Two Fellowships of Rs. 50 per mensem, tenable for one year, are attached to the College.

Scholarships.

The following Scholarships, each tenable for one year, are annually open for competition :—

(Civil Engineering Branch.)

1 of Rs.	12 per mensem.
1 „	10 „
1 „	9 „
2 „	8 „
4 „	7 „
3 „	6 „
6 „	5 „

(Mechanical Engineering Branch.)

1 of Rs.	12 per mensem.
1 „	10 „
1 „	9 „

McDougall Scholarship.

On the retirement from India of the Rev. James McDougall in 1862 a subscription was raised by the ex-students of the Poona Civil Engineering College for the purpose of perpetuating in the then school the name of its former Principal. A sum of Rs. 1,500 was subscribed, and from the interest accruing from this sum the amount of Rs. 52 is placed annually at the disposal of the Principal, to be awarded as a Scholarship to the most deserving student.

Frere Scholarship.

At a meeting of the Native inhabitants of Poona held on 11th November 1866, Khan Bahadur Padamji Pestanji presiding, it was resolved that, in order to perpetuate in Poona the memory of His Excellency Sir Bartle H. E. Frere, a fund be raised, and a Scholarship in connection with His Excellency's name be established in the Poona Civil Engineering College. This Scholarship, value Rs. 24 per mensem, is tenable for one year, and will be conferred on that student who shall have obtained most marks in the preceding Second Examination in Civil Engineering, provided that he shall not at the same time hold a Fellowship or Scholarship in any College affiliated to the University.

Rustamji Sorabji Woonwala Scholarship.

This Scholarship, of the value of Rs. 100 per annum, to be paid from the interest of the sum of Rs. 3,000 in 3½ per cent. Government Paper placed at the disposal of Government to found a Scholarship in the name of Rustamji Sorabji Woonwala by Mr. Karkoshru Rustamji Woonwala, to be given to that Parsi student who at the previous Examination, passed before his entry into the College of Science, obtains the highest number of marks.

2. The Scholarship is to be tenable for three years.

The Bhimji Morarji Scholarship.

This Scholarship was founded in 1912 by Messrs. Kothari Amritlal Bhimji and Manilal Bhimji in memory of their father, Rao Bahadur Bhimji Morarji, a retired

Government servant of the Kathiawar Political Agency. The Scholarship is of the annual value of Rs. 350 per annum and is tenable for three years. It is to be awarded to a student of the Dasha Shrimali Bania community (preferably a *bona fide* native of Kathiawar) who is studying for the B.E. degree.

The Gaurishankar Udesankar Oza, C.S.I., Scholarships.

(*Vide* Government Resolutions, Educational Department, Nos. 598 and 1212, dated 23rd March 1904 and 1st July 1904, respectively).

These Scholarships of the value of Rs. 15 per mensem are to be paid from the interest of the sum of Rs. 5,500 placed at the disposal of Government to found Scholarship in the name of Gaurishankar Udesankar Oza, C.S.I., by his son, Mr. Vajeshankar Gaurishankar of Bhavnagar to be given to the students of the Vadanagara Nagar Brahmin community of Bhavnagar in the first instance and, in the case of there being no such candidate to claim it, to be awarded to a student of that community residing in any place in Kathiawar or Gujarat.

The persons claiming the Scholarship must have passed such examination of the University of Bombay as may be required for admission into the College.

In the case of there being more than two candidates to claim the Scholarships, they shall be awarded to the candidates who have passed such examination with the highest number of marks. The Principal has the power of forfeiting the Scholarships if the holder proves himself unworthy of them.

A Scholarship (tenable for three years) will be granted every third year. In addition to this a Scholarship tenable for one year will be granted every alternate year, if funds are available.

The Nusserwanji Jehangirji Wadia Scholarship.

The University of Bombay awards the N. J. Wadia Scholarship of the value of Rs. 199 per annum, every alternate year, to the highest among Parsi candidates at the S. E. Civil examination, tenable for one year at this College.

The Jehangir Hormasji Mehta Prize.

The sum of Rs. 800 has been placed at the disposal of Government by Mr. Hormasji Beramji Mehta to endow a prize of the value of Rs. 50 in books, in the name of his son Jehangir Hormasji Mehta, a former student of the college who graduated as L.C.E. in 1909 (*vide* Government Order, Educational Department, No. 2605 of 22nd October 1917).

Special Scholarships.

Rules regulating the grant of special scholarships in the Colleges of Medicine, Engineering and Commerce for :—

- (a) Mahomedan.
- (b) Backward classes (including the Marathas) other than Mahomedans and Depressed Classes.
- (c) Members of Depressed Classes—All in the Bombay Presidency.

Eighteen scholarships will ordinarily be awarded annually to enable students of the above classes (a), (b), (c) who have passed the First Year Certificate Examination of an Arts College or its equivalent and whose ages are between 16 and 30 years, to prosecute the course of studies in a College of Medicine, Engineering or Commerce as the case may be, affiliated to the Bombay University.

- (a) Six of these Scholarships will be open only to Mahomedans born or domiciled in the Bombay Presidency.
- (b) Eight of them will be open only to students of the Backward Communities, including the Marathas, born or domiciled in the Bombay Presidency, but excluding Mahomedans and the Depressed Classes.
- (c) Four of them will be open only to students of the Depressed Classes born or domiciled in the Bombay Presidency.

2. The scholarships will be of the value of Rs. 30 per month each in the case of Sind candidates and Rs. 25 per month each in the case of others, and will ordinarily be distributed among the revenue divisions of the Presidency (*vide* Government Orders, Educational Department, Nos. 5601 and 148 of 8th December 1919 and 13th January 1920, respectively).

The Lato Mr. A. K. Motiwala, B.E. (Civil), Scholarship.

A scholarship, to be called "The Ardeshir K. Motiwala Scholarship", of the value of Rs. 85, shall be awarded annually to the Parsee student who passes the F.E. Examination with the highest number of marks at the first attempt, provided he continues his studies at the College for the S.E. (Civil) Examination.

In the event of several candidates passing the F.E. Examination with the same highest number of marks, all at the first attempt, and joining the S.E. (Civil) class, the Scholarship shall be awarded to the candidate who also passes highest at the Preliminary Examination of the College.

Stipends under the Bombay Municipal Scheme.

•Under Government Order, General Department, No. 8912 of 25th October 1919 two graduates will be recommended to Government whose names will be sent to the Municipal Commissioner to Bombay as candidates for a three years' course of training in Municipal Engineering.

A sum of Rs. 1,500 must be deposited by each apprentice, which will be retained by the Municipality during the training period as a guarantee of good behaviour. It will be returned to the apprentice on his completing the course prescribed.

Sums of Rs. 60, 70 and 80 per month will be paid to the apprentices during the 1st, 2nd and 3rd year, respectively, of their apprenticeship as pocket expenses, such payment being discontinued after the expiry of this period.

It is understood that in case of vacancies occurring in the engineering departments of the Bombay Municipality it is proposed to give preference to men who have undergone this course of training satisfactorily; the starting pay proposed to be given will, in accordance with the schedule at present obtaining, be Rs. 110 *plus* 30 conveyance allowance per month and the appointment starting at this pay will be a graded one—Rs. 110-5-140-10-200 per month.

LIST OF PRINCIPALS.

- 1854. The Rev. James McDougall.

XXI—GOVERNMENT LAW SCHOOL, BOMBAY.

(AFFILIATED, 1860.)

The foundation of this Institution is due to a subscription which was raised by the inhabitants of Bombay in the month of November 1852 on the eve of the departure from India of Sir Thomas Erskine Perry Knight, Chief Justice, who had been for nearly nine years President of the Board of Education to found a Professorship of Jurisprudence, as a memorial of his long connection with both law and education in India.

This endowment yields a yearly income of Rs. 1,879, to which Government contribute a subsidy which was fixed in 1856 at Rs. 100 per mensem, but which has been reduced to Rs. 81 since the year 1892, the aggregate being the stipend of the Perry Professor of Jurisprudence. Up to June 1900, Government contributed Rs. 600 per mensem for the maintenance of two Professorships of Law.

At the close of the year 1897-98, a Committee of Enquiry was appointed by Government to inquire into the working and constitution of the Law School, which resulted in the appointment of three additional Professors. A Board of Visitors was also appointed, and a grant was made for the purpose of awarding Prizes to those students who distinguished themselves at periodical examinations to be held by the Professors.

At the commencement of the year 1915-16 another committee was appointed by Government to consider the needs of the Government Law School and make suggestions and recommendations in the light of the suggestions made by Sir Alfred Hopkinson for the re-organization and improvement of the Law School. The Committee was appointed jointly by Government and the University of Bombay. The result was an addition of four Professors to the existing staff and such other changes.

The Sir John Heaten Prize Fund was established in 1922 by the Bombay Judicial Service Association, Surat, in the name of Sir John Heaten, Kt. The Fund yields an annual income of Rs. 180 to be utilized in awarding a prize in each year to a student of the Government Law School, Bombay, who shall pass in all subjects at one and the same time at the Second Examination held by the University of Bombay for the Degree of Bachelor of Laws and who shall amongst the candidates secure the highest number of marks in the subjects known as "Procedure, Evidence and Limitation" or other similar subject on a comparison of the results of such examination at the two University Examinations which are held every year.

In the event of there being no such student in any year who is qualified to receive such prize the Principal for the time being of the Government Law School, Bombay, shall award the said prize to such deserving student at the said Law School as he may nominate for the purpose.

Lectures are delivered on the following subjects.—

1. Roman Civil Law. Elements of General Jurisprudence and Constitutional Law.
2. Succession and Family Rights, with special reference to Hindu and Mahomedan Law.
3. The Law of Contracts, and of the Transfer and Lease of Immovable Property.
4. Equity, with special reference to the Law of Trust, Mortgages and other securities, for money, and Specific Relief.
5. The Law of Torts and Crimes.
6. The Law of Evidence, Civil Procedure, including Limitation and Criminal Procedure.

List of Principals.

- 1895 L. J. Robertson, Bar.-at-Law.
 1901 D. D. Dayar, Bar.-at-Law.
 1902 M. R. Jardine, B.A., Bar.-at-Law.
 1903 G. S. Rao, M.A., LL.B.
 1906 D. F. Mulla, M.A., LL.B., Advocate.
 1912 B. N. Lang, B.A., Bar.-at-Law.
 1914 M. A. A. Khan, B.A., Bar.-at-Law.
 1919 B. J. Wadia, M.A., LL.B., Bar.-at-Law.

1922-23.

Principal.

XXII.—GRANT MEDICAL COLLEGE, BOMBAY.

(AFFILIATED, 1860.)

This College was established in the year 1845, under the name of the Grant Medical College, as a tribute to the memory of the late Sir Robert Grant, Governor of Bombay, with whom the system of instruction pursued in it originated. The object of its establishment is to “impart, through a scientific system, the benefit of medical instruction to the Natives of Western India.” A moiety of the cost of the building was defrayed by Sir Robert Grant's friends—the remainder by Government. The funds for the support of the College, with the exception of certain endowments for the encouragement of deserving students, are contributed by Government.

The College is under the immediate control of a Dean, who is subordinate to the Surgeon-General. Lectures are delivered in the English language on every branch of Medical Science.

Attached to the College is a Laboratory for Scientific Medical Research, the gift of Mr. Framji Dinshaw Petit. This Institution was opened on the 17th February 1891.

Clinical instruction is imparted in the Jamsetji Jeejeebhoy Hospital which contains 296 beds, in the Cowasji Jehangir Ophthalmic Hospital containing 73 beds, the Bai Motlibai Obstetric Hospital containing 40 beds, and the Dinshaw Manekji Petit Hospital for Women and Children containing 40 beds.

The students are arranged in classes.—

1. Graduates and Undergraduates of the University of Bombay and other affiliated Universities who are educated through the English language for Medical Degrees in Western Medicine.

2. Members of the European and domiciled European communities who are educated through the English language for the grade of Military Assistant Surgeon.

3. Undergraduates and others for the diplomas of the College of Physicians and Surgeons, Bombay.

The College possesses the following endowments.—

The Farish, Carnac, Anderson, Reid, McLennan, Jamkhindi, Cowasji Jehangir Readymoney, Lishoa, and Cursetji Framji Khory Scholarship Funds: the Sir Jamsetjee Jeejeebhoy Prize Gold Medal, Arnott Prize Medal and Hemabbhy Vakutchund Medal Funds: the Sir Jamsetji Jeejeebhoy Medical Book Fund: the Sir Jamsetji Jeejeebhoy Medical Prize, Sir Cowasjee Jehangir Readymoney Morbid Anatomy Prize: Sir J. P. Willoughby, Hunter, Cursetji Framji Khory, and Dinbai Dinshaw Wachha Prize Funds: the Hunter, MacDougall, Hewlett and Wellington Gray Memorial Funds: the Petit Library Fund: The Lord Reay Lectureship Fund; the Avbba Patell Prize Fund; the Gaurishankar U. Oza Scholarship and Dr. Gopal Shivram Scholarship Funds: the T. M. Shah Medal Fund: the Phiroze B. H. Nanavatty Memorial Book Prize Fund: the Anna Moreshwar Kunte Scholarship Fund: the Bhimji Morarji Scholarship Fund: the Dr. Henry Peers Dimmock Prize Medal Fund, the Dr. Waman Gopal Kane Book Prize Fund, the A. R. Baxi Scholarship Fund and the Nusserwanji Fakirji Surveyor Prize Gold Medal Fund: the N. J. Wadia Scholarship; the Lt.-Col. Edulji M. Damla Scholarship Fund and the Dr. Rustumji Jamshedji Nadershaw Scholarship Fund.

The aggregate sum on account of these endowments, amounting to Rs. 2,77,300 is lodged as follows:—

	Rs.
With Government	1,11,300
In the Imperial Bank of India, Bombay, with the Trustees appointed by Government	1,66,000
Total	2,77,300

Formerly the College conferred upon its students a Diploma or License to practise medicine, and the designation "Graduate of Grant Medical College." There are at the present time a few such Graduates. Upon the establishment of the University of Bombay, the College ceased to grant diplomas, and became affiliated to the University as a College for medical education.

List of Principals.

1845. Charles Morehead, M.D., F.R.C.S.

1860. John Peet, M.D., F.R.C.S.

1865. Herbert John Girand, M.D.

1865. Robert Haines, M.B. (London).

1866. William Guyer Hunter, M.D., F.R.C.S.

1876. Henry Cook, M.D., F.R.C.P. (London), F.R.C.S., F.G.S., F.M.S.

1886. Henry Vandyke Carter, M.D. (London).

1888. Wollington Gray, L.M., L.Ch. (Dublin).
 1893. George Archibald Maconachio, M.D., C.M. (Aberdeen), M.R.C.P. (London)
 1897. William Keith Hatch, M.B., C.M. (Aberdeen), F.R.C.S (England).
 1903. Henry P. Dimmock, M.D., L.R.C.P., M.R.C.S.
 1911. Lieut.-Colonel C. H. L. Meyer, M.D., I.M.S.
 1913. Lieut.-Colonel L. F. Childe, M.B., I.M.S.
 1915. Lieut.-Colonel A. Street M.B., F.R.C.S., I.M.S.

List of Deans.

1919. Lieut.-Colonel R. Markham Carter, C.B., F.R.C.S., D.T.M., I.M.S., J.P.
 1921. Major B. Higham, M.B., B.S. (Lond.), I.M.S., J.P.

1922-23.

Dean.

Major B. Higham, M.B., B.S. (Lond.), I.M.S., J.P.

Professors.

- Lieut.-Colonel T. S. Novis, F.R.C.S., I.M.S., J.P., Professor of Surgery and Clinical Surgery (on leave).
 Dr. A. K. Dalal, F.R.C.S. (Eng.), J.P. (Acting).
 Major A. F. Hamilton, M.B., F.R.C.S., I.M.S., J.P., Professor of Midwifery and Diseases of Women and Children.
 Lieut.-Colonel G. McPherson, M.A., M.B., C.M. (Glass.), I.M.S., J.P., Professor of Ophthalmology. (On leave).
 Dr. J. N. Duggan, L.M. & S., D. O. (Oxon.) (Acting).
 Lieut.-Colonel E. F. Gordon Tucker, M.B., B.S., M.R.C.P. (London), I.M.S., Professor of Medicine.
 Dr. F. N. Kapadia, M.D., (Bom.), Acting Professor of Pathology and Curator of Pathological Museum.
 Lieut.-Colonel R. Markham Carter, C.B., F.R.C.S., D.T.M., I.M.S., J.P., Professor of Materia Medica.
 Major S. B. Mehta, F.R.C.S. (Edin), I.M.S., (Retd.), Acting Professor of Operative Surgery.
 Captain S. L. Bhatia, M.C., I.M.S., Acting Professor of Physiology and Histology and Hygiene.
 Dr. Y. G. Nadigr, M.S. (Bom.), Professor of Anatomy.
 Major B. Higham, M.B., B.S. (Lond.), I.M.S., J.P., Professor of Chemistry.
 Dr. W. Nunan, M.D., D.Ch., Professor of Medical Jurisprudence.
 Dr. B. P. Karani, L.M. & S., Professor of Biology.
 Dr. D. A. Turkhud, M.B., C.M. (Edin), Professor of Bacteriology. (On deputation).
 Dr. P. A. Dalal, L.M. & S., D.T.M. & H. (Cantab.) (Acting).
 Dr. J. A. D'Souza, B.A., L.M. & S., J.P., Professor of Physics.
 Dr. J. J. Mody, L.M. & S., L.D.S. (Eng.), Professor of Dentistry.
 Dr. S. H. Modi, F.R.C.S. (Eng.), M.R.C.P. (Lon.), Professor of Ear, Nose and Throat Diseases.
 Dr. J. R. Jagose, L.M. & S., L.M. (Rot.), D.T.M., L.M.R.C.P. (I), Professor of Anæsthetics.
 Dr. C. Fernandez, M.D., J.P., Professor of Skin Diseases.
 Dr. S. B. Nayak, L.M. & S. Professor of Electro-Therapeutics.

Associate Professors (Hon.).

- Dr. R. D. Chinoy, M.D. (Bom.), Associate Professor of Medicine.
 Dr. P. R. Vakil, M.D. (Bom.), Associate Professor of Surgery.
 Dr. K. M. Dubash, M.D. (Bom.), Associate Professor of Midwifery.

Assistant Professors.

- Dr. J. M. Manekshaw, L.M. & S., B.M.S., Asstt. Professor of Anatomy.
 Dr. E. P. Ghadiali, L.M. & S., L.R.C.P., M.R.C.S., Asstt. Professor of Pathology.
 Dr. C. S. Thakar, L.M. & S., Asstt. Professor of Physiology.

Registrars.

- Dr. J. R. Wadia, L.M. & S., B.M.S., Surgical Registrar.
 Dr. R. N. Karode, M.D., B.M.S., Medical Registrar.

Tutors.

- Dr. N. V. Ajinkya, M.D., L.M., L.M.R.C.P.I., Tutor in Midwifery,
 „ M. J. Parmanand, M.B., B.S., Senior Tutor in Bacteriology.
 „ V. K. Chandavarkar, M.B., B.S., Junior Tutor in Bacteriology,
 „ S. K. Engineer, L.M. & S., F.R.C.P., Tutor in Materia Medica,
 „ H. Mody, M.B., B.S., Junior Tutor in Materia Medica.
 „ B. R. Patharkar, M.B., B.S., Senior Tutor in Surgery.
 „ P. H. Doctor, M.B., B.S., Junior Tutor in Surgery.
 „ R. C. Lam, M.B., B.S., Senior Tutor in Medicine.
 „ V. K. Dongre, M.B., B.S., Junior Tutor in Medicine.
 „ B. V. Ved, L.M. & S., Tutor in Physiology.
 „ D. S. Ajinkya, L.M. & S., Tutor in Physiology.
 „ L. D. Dhavale, B.A., M.D., Senior Tutor in Pathology.
 „ R. P. Mayenkar, M.B., B.S., Junior Tutor in Pathology.
 „ S. M. Munshi, M.B., B.S., Senior Tutor in Anatomy.
 „ V. R. Bhoosrath, M.B., B.S., Junior Tutor in Anatomy.
 „ H. D. Khote, M.B., B.S., D.P.H. (Cantab.), Tutor in Hygiene.
 „ N. V. Dhavale, L.M. & S., Senior Tutor in Physics.
 „ V. P. Kamat, M.B., B.S., Junior Tutor in Physics.
 „ D. A. Contractor, L.M. & S., B.Hy., Senior Tutor in Chemistry.
 „ K. P. Mody, B.A., L.M. & S., Junior Tutor in Chemistry.
 „ F. J. Sequeira, M.B., B.S., Senior Tutor in Biology.
 „ A. R. Rangnekar, M.B., B.S., Junior Tutor in Biology.
 „ G. T. Mody, M.B., B.S., D.O. (Oxon.), Tutor in Ophthalmology.

Demonstrators in Physiology.

- Dr. A. Fernandez, M.B., B.S.
 „ D. S. Shirali, M.B., B.S.
 „ T. G. Paymaster, M.B., B.S.
 „ V. B. Desai, M.B., B.S.

Bombay University Library.

RULES AND REGULATIONS.

Section I.—Library Committee.

1. The management of the Library shall vest in the Library Committee subject to the control of the Syndicate, provided that the Committee shall have full power to make the appointments of its staff except the Librarian and grant leave to all the members of the staff. Salaries of the said members shall be fixed by the Committee with the previous sanction of the Syndicate, and no member of the staff shall be suspended or dismissed without such sanction.

2. The Library Committee shall have power to administer all funds established or set apart by the Syndicate for the purchase of books and manuscripts or for the general purposes of the Library.

3. The Librarian shall keep an account of all such funds administered by the Library Committee; also of all expenditure authorised by the Committee on behalf of the Library. At the end of every financial year he shall submit to the Committee a statement of the Library Accounts for the year, which when passed by the Committee, shall be forwarded to the University Registrar for submission to the Syndicate.

4. There shall be a separate account in the Bank under the name of "Library Account", and the cheque book shall be kept by the Librarian.

5. All bills in respect of books purchased for the Library shall be verified and checked by the Librarian and shall be countersigned by the Librarian in attestation of their correctness.

6. All cheques shall be signed by the Registrar after he has satisfied himself that the amounts entered in them are as they are in the bills and countersigned by a member of the Library Committee.

7. The Library Committee shall have power to purchase such books as in its opinion are desirable and as the funds at its disposal permit.

8. Subject to the sanction of the Syndicate the Library Committee shall have power to dispose of such books as in its opinion are either worthless, unserviceable or so far destroyed (by worms and ants or otherwise howsoever) as to be useless.

Section II.—Library.

1. The Library shall be open from 11-30 A.M. to 6-30 P.M. on all days except holidays and other days on which it shall be reserved for other purposes by order of the Syndicate or of the Library Committee.

2. The following persons shall be permitted to read books or manuscripts in the Library:—

- A. Fellows of the University of Bombay.
- B. Principals and Professors of colleges affiliated to the University of Bombay.
- C. The University Staff.
- D. Graduates of the University.
- E. Students of affiliated colleges recommended by the Principal of their college.
- F. Other persons admitted by special order of the Library Committee.

3. Readers' tickets shall be issued to eligible persons by the Librarian on application. Such tickets shall remain in force for one year or until cancelled by the Librarian, the Library Committee or the Syndicate, and shall not be transferable.

4. Readers shall not write upon, damage, turn down the leaves of, or make any mark upon any book, manuscript or map belonging to the Library; nor shall they lay the paper on which they are writing upon any book, manuscript or map. No tracing and no copying of any manuscript shall be done without express permission from the Librarian.

5. Readers shall have the right, on application to the Librarian, to reserve not more than two books or manuscripts for their use on the following day, provided that they may not reserve the same books for more than six successive days, and if they are not present in the Library by 12 noon, the books shall thereafter be no longer reserved.

6. The books of the Library shall be issued for purposes of study outside the Library to Fellows of the Bombay University only. The books and manuscripts referred to in rule 12 shall not be issued even to Fellows.

7. Not more than two books or six volumes of a single work shall be at one time in the possession of a Fellow.

8. No books shall be removed from the Library by a Fellow until he shall have signed his name in the register kept for the purpose for all the books taken by him, or sent a signed receipt for them to the Librarian.

9. Books and other documents that have been taken out are liable to recall at any time, but if not so recalled they may be kept for a space of a fortnight, which may be prolonged by the Librarian at his discretion. Books and documents so called for shall be returned within seven days from the date of the call.

10. Every Fellow taking a book out of the Library and every reader within the Library shall be responsible for its safe custody and return uninjured, and in the event of its being lost or suffering damage (including pencil or ink marks) shall either replace the book or pay such compensation as may be fixed by the Library Committee.

11. The Librarian shall keep a record showing to whom every book is issued and the date of issue and return.

12. No book forming part of the "Reference Collection," nor any book valuable for its rarity or its illustrations, nor any manuscript shall in any circumstances be removed from the Library by any one except on the recommendation of the Library Committee and with the sanction of the Syndicate.

13. The erasure of any mark or any writing on book, manuscript or map belonging to the Library is strictly prohibited.

14. Conversation, loud talking and smoking are strictly prohibited in the Library.

15. A new book shall not be taken out of the Library during the first three months after it has been received.

16. A list of new books shall be displayed in a conspicuous place in the Library. The Librarian shall keep a book in which those who use the Library may enter the names of books whose purchase is suggested. Such suggestions and any that may be received from Boards of Studies, University Professors, Readers and Lecturers, shall be laid before the Committee at its meetings.

17. Periodical publications shall lie on the table till the receipt of the next number and shall not be taken out of the Library till then.

18. The cost of sending out books shall be defrayed wholly by the borrower.

19. The Library Committee shall have power to refuse admission to any one infringing the rules and regulations of the Library.

X.

Academic Costume.

1. Academic Costume is worn at Convocations for conferring Degrees.

2. Such of the Fellows of the University of Bombay as are Graduates of other Universities, or as are entitled to wear official* costume or uniform, may appear in the academic dress of their own Universities, or in such costume or uniform, wearing in addition the Fellow's Scarf of the University of Bombay.

3. Other Fellows wear the Fellow's Gown and Scarf of the University of Bombay. The head-dress of the European Fellows is a College Cap.

Academic Costume to be worn by the Senate and Graduates of the University of Bombay.

CHANCELLOR.

GOWN.—Black damask silk with gold lace and tufts.

CAP.—Black velvet Academic Cap with gold tassel.

VICE-CHANCELLOR.

GOWN.—The same, but with silver lace and tufts.

CAP.—The same, but with silver tassel.

REGISTRAR.

GOWN.—The same, but with black silk lace and tufts.

CAP.—Black cloth Academic Cap, with black silk tassel.

FELLOWS.

GOWN.—Bishop's purple silk, with full sleeves.

SCARF.—Of the same colour, with gold fringed ends.

GRADUATES.

B. A.

GOWN.—Black silk or stuff, shape as Oxford B.A.

HOOD.—Black silk, bound with garter blue silk, one inch wide.

M. A.

GOWN.—Black silk or stuff, as Oxford M.A.

HOOD.—Garter blue silk, lined the same.

B. Com.

GOWN.—Black silk or stuff, shape as Oxford B.A.

HOOD.—Black silk, bound with violet silk, one inch wide.

B. Sc.

GOWN.—Black silk or stuff, shape as Oxford B.A.

HOOD.—Black silk, bound with yellow silk, one inch wide.

M. Sc.

GOWN.—Black silk or stuff, as Oxford M.A.

HOOD.—Black silk, lined with yellow silk.

B. Ag.

GOWN.—Black silk or stuff, shape as B.A.

HOOD.—Black silk, bound with green silk, one inch wide.

e.g., Judges, Bishops, Barristers, Military and Naval Officers, etc.

M.Ag.

GOWN.—Black silk or stuff, as Oxford M.A.

HOOD.—Black silk, lined with green silk.

L.C.E. AND B.E.

GOWN.—Black silk or stuff, shape as B.A.

HOOD.—Black silk, bound with brown silk, one inch wide.

M.C.E.

GOWN.—Black silk or stuff, as M.A.

CONVOCATIONS OF THE UNIVERSITY, 1921 AND 1922.

ANNUAL CONVOCATION FOR CONFERRING DEGREES, 1921.

The Annual Convocation for conferring Degrees was held in the Sir Cowasji Jehangir Hall of the University on Tuesday, the 16th August 1921, at 5-45 p.m., when the following Fellows were present :—

The Chancellor.

- 1 His Excellency the Honourable Sir George Lloyd, G.C.I.E., D.S.O.

The Vice-Chancellor.

- 2 The Hon'ble Sir Chimanlal H. Setalvad, Kt., B.A., LL.D.

The Director of Public Instruction.

- 3 F. B. P. Lory, Esq., M.L.C., M. A.

Deans.

- 4 Dr. N. A. F. Moos, D.Sc., L.C.E., F.R.S.E.
- 5 The Hon'ble Mr. Justice A. M. Kajiji, B.A., LL.B., Bar.-at-Law.
- 6 Dr. D. A. D'Monte, M.D., F.C.P.S.

Syndics.

- 7 Sir Temulji B. Nariman, Kt., L.M., F.C.P.S.
- 8 The Hon'ble Justice Sir Lallubhai A. Shah, Kt., M.A., LL.B.
- 9 Principal A. L. Covernton, M.A.
- 10 Mirza Ali Mohammed Khan, Esq., M.A., LL.B
- 11 K. Natarajan, Esq., B.A.
- 12 Professor P. A. Wadia, M.A.
- 13 Dr. R. N. Ranina, L.M. & S.
- 14 Professor K. R. Kanitkar, M.A., B.Sc.
- 15 Principal V. G. Apte, B.A.
- 16 The Rev. Father E. Blatter, S.J., Ph.D., F.L.S.

The Registrar.

- 17 Khan Bahadur Fardunji M. Dastur, M.A.

Board of Accounts.

The Honourable the Vice-Chancellor and Fellows assembled in the University Library where they were joined by His Excellency the Chancellor. A procession was formed and, headed by the Assistant Registrar who carried the University Mace, it entered the Sir Cowasji Jehangir Hall in pairs in the following order followed by the candidates for Degrees :—Honorary Fellows, Ordinary Fellows, Members of Legislative Bodies, the Minister of Education, Members of Council, Members of the Board of Accounts, the Registrar, Syndics, Deans, the Director of Public Instruction, the Vice-Chancellor, and the Chancellor. The procession advanced until it reached the steps of the platform where it halted and formed a double line, each pair of Fellows having separated to the right and left, through which the Chancellor and Vice-Chancellor advanced to their seats followed by the University Officers and Fellows.

The Chancellor, Vice-Chancellor and Fellows having taken their seats, the Dean of the Faculty of Science, Dr. N. A. F. Moos, rose and supplicated a Grace of the Senate in the following form of words:—

“Mr. Chancellor,—On behalf of Kanaiyalal Ishvarlal Patel and 23 others who have been examined and found qualified for the Degree of Bachelor of Agriculture I move that the Senate do pass a Grace for their admission to the said Degree.”

Whereupon the Chancellor put the question, “Doth it please you that this Grace be passed ?”, and the Senate assenting, the Chancellor said, “This Grace is passed.”

Dr. Moos then presented some of the candidates to the Chancellor and prayed for the admission of all in the following form of words:—

“Mr. Chancellor,—I present to you 16 of the candidates who have been examined and found qualified for the Degree of Bachelor of Agriculture to which I pray they may be admitted; and on behalf of the rest who have been permitted to take their Degree *in absentia* I pray that they also may be admitted thereto.”

And the Chancellor thereupon admitted the candidates to their Degree in the following form of words:—

“By the authority given me as Chancellor of this University I admit you, one and all, to the Degree of Bachelor of Agriculture, and I charge you that ever in your life and conversation you prove yourselves worthy of the same: I admit also the other candidates to the Degree *in absentia*.”

The same forms were gone through successively in the case of the candidates for the Degrees of Bachelor of Commerce, Bachelor of Engineering, Bachelor of Medicine and Bachelor of Surgery, Bachelor of Science, Bachelor of Arts, Bachelor of Hygiene, Bachelor of Laws, Master in Agriculture, Master of Science, Master of Arts and Doctor of Medicine; Dr. N. A. F. Moos, Dean in Science, supplicating for and presenting the candidates in Science and Engineering, Mr. F. B. P. Lory, Senior Fellow in Arts, supplicating for and presenting the candidates in Arts and Commerce, Dr. D. A. D'Monte, Dean in Medicine, supplicating for and presenting the candidates in Medicine, and the Honourable Mr. Justice A. M. Kajiji, Dean in Law, supplicating for and presenting the candidates in Law, and the same words *mutatis mutandis* being used.

The Registrar then made a declaration of the Degrees as follows:—

I hereby declare the following Degrees this day conferred:

- | | |
|--|---------------------------|
| 1. Bachelor of Agriculture. | 7. Bachelor of Hygiene. |
| 2. Bachelor of Commerce. | 8. Bachelor of Laws. |
| 3. Bachelor of Engineering. | 9. Master in Agriculture. |
| 4. Bachelor of Medicine and Bachelor of Surgery. | 10. Master of Science. |
| 5. Bachelor of Science. | 11. Master of Arts. |
| 6. Bachelor of Arts. | 12. Doctor of Medicine. |

His Excellency the Chancellor then presented the following Medals to their respective winners:—

The Chancellor's Medal.—To Mr. Gulabbhai Naranji Joshi.

The Queen-Empress and the Lady Reay Medals.—To Miss Maneckbai Khanderao Navalkar.

The Moos Medal.—To Mr. Dhires Lobhan Sen.

The K. T. Telang Medal.—To Mr. Vasudev Purushottam Patwardhan.

The Kinloch Forbes Medal.—To Mr. Utsavilal Lalubhai Shah.

The J. C. Lisboa Medal.—To Mr. Kedar Nath Kulshreshtha.

The Lord Sandhurst Medal.—To Mr. Bhaskar Balvantrao Yodh.

The James Berkley Medal.—To Mr. Mahadev Laxman Champhekar.

The Dinanath S. Mankar Medal.—To Mr. Laxman Trimbak Gholap.

The following Report of the proceedings of the University during the past year was then read by the Registrar:—

The Syndicate have pleasure in laying before the Senate on the occasion of the Annual Convocation a Report of the proceedings of the University since the last Annual Convocation for conferring Degrees, held on the 17th August 1920.

Ex-Students ..	20	3	4	7	35·00
Total ..	112	4	5	25	25	59	52·67

The successful ex-students belonged to the following Colleges :—Wilson (4), St. Xavier's (1), Baroda (2). Of the successful candidates, 46 were Hindus, 11 Parsis, 1 was a Mahomedan, and 1 an Indian Christian. 4 of the candidates placed in the First Class obtained distinction in their principal subject, namely, Mathematics (1) and Chemistry (3). In 1920, there were 114 candidates, of whom 64 passed the Examination, and in 1919, there were 93 candidates, of whom 58 proved successful.

Examination for the Degree of M.Sc.—Of the 10 candidates who had applied for admission to the Examination, 7 passed and 3 were absent. 1 candidate, a Hindu from the Fergusson College, passed in the Mathematics Branch (Group B). 5 candidates, all Hindus, passed in the Chemistry Branch, one of them obtaining distinction. One of them was from the Wilson College, 1 from the Gujarat College, 2 from the Poona Agricultural College, and 1 (who obtained distinction) from the Indian Institute of Science, Bangalore. 1 candidate, a Parsi from the Gujarat College, passed in the Botany Branch. In 1920, there were 12 candidates, of whom 10 passed the Examination, and in 1919, there were 2 candidates, both of whom proved successful.

Intermediate Examination in Agriculture.—Of the 70 candidates sent up by the Poona Agricultural College, 45 passed, 20 failed and 5 were absent. 2 were placed in the First Class. 34 were Hindus, 4 Karen Christians, 3 Burman Buddhists, 2 Mahomedans, 2 Indian Christians. In 1920, there were 62 candidates, of whom 50 passed the Examination, and in 1919 there were 49 candidates, of whom 38 proved successful.

Examination for the degree of B.Ag.—Of the 41 candidates sent up by the Poona Agricultural College, 38 passed and 3 failed. 34 were Hindus, 2 Parsis, 1 was an Indian Christian, and 1 a Burman Buddhist. In 1920, there were 37 candidates, of whom 36 passed the Examination, and in 1919 there were 30 candidates, of whom 27 proved successful.

Examination for the Degree of M.Ag.—There were 4 candidates, of whom 3 (all Hindus) passed the Examination. In 1920, there were 3 candidates, all of whom passed the Examination, and in 1919 there were 2 candidates, both of whom proved successful.

First Examination in Engineering.—Of the 76 candidates sent up by the College of Engineering, Poona, 65 passed and 11 failed. 21 were placed in the First Class. 53 were Hindus, 9 Parsis, and 3 Mahomedans. In 1920, there were 54 candidates, of whom 39 passed the Examination, and in 1919 there were 71 candidates, of whom 65 proved successful.

Second Examination in Engineering (Civil).—Of the 55 candidates sent up by the College of Engineering, Poona, 42 passed and 13 failed. 6 were placed in the First Class. 31 were Hindus, 5 Parsis, 4 Mahomedans, and 2 Europeans. In 1920, there were 70 candidates, of whom 50 passed the Examination, and in 1919 there were 68 candidates, of whom 44 proved successful.

Examination for the Degree of B.E. (Civil), October 1920.—Of the 18 candidates sent up by the College of Engineering, Poona, 16 passed and 2 failed. 1 was placed in the First Class. 9 were Hindus, 6 Parsis, and 1 was an Indian Christian.

Examination for the Degree of B.E. (Civil), March 1921.—Of the 40 candidates sent up by the College of Engineering, Poona, 30 passed and 10 failed. 6 were placed in the First Class. 24 were Hindus, 5 Parsis, and 1 was a Mahomedan. In 1920, there were 55 candidates, of whom 36 passed the Examination, and in 1919, there were 59 candidates, of whom 42 proved successful.

Second Examination in Engineering (Mechanical).—4 Hindu candidates were sent up by the College of Engineering, Poona, all of whom proved successful. In 1920, there were 13 candidates, of whom 11 passed the Examination, and in 1919 there were 11 candidates, of whom 7 proved successful.

Examination for the Degree of B.E. (Mechanical), October 1920.—4 candidates were sent up by the College of Engineering, Poona, of whom 1 (a Hindu) proved successful.

Examination for the Degree of B.E. (Mechanical), March 1921.—12 candidates were sent up by the College of Engineering, Poona, of whom 7 passed and 5 failed. All the successful candidates were Hindus. In 1920, there were 12 candidates, of whom 5 passed the Examination, and in 1919 there were 7 candidates, of whom 4 proved successful.

First Examination for the Degree of LL.B. (October 1920).—Of the 369 candidates sent up by the Government Law School, Bombay, 139 passed, 209 failed, and 21 were absent. 2 were placed in the First Division. 128 were Hindus, 4 Parsis, 4 Indian Christians, 2 Mahomedans, and 1 was a Jew. In 1919, there were 260 candidates, of whom 115 passed the Examination, and in 1913 there were 227 candidates, of whom 112 proved successful.

First Examination for the Degree of LL.B. (March 1921).—Of the 369 candidates sent up by the Government Law School, Bombay, 134 passed, 219 failed, and 16 were absent. 9 were placed in the First Division. 119 were Hindus, 7 Parsis, 4 Mahomedans, 1 was an Indian Christian, 1 a Syrian Christian, 1 an Anglo-Indian, and 1 a Jew. In 1920, there were 393 candidates, of whom 129 passed the Examination, and in 1919 there were 416 candidates, of whom 202 proved successful.

Second Examination for the Degree of LL.B. (October 1920).—Of the 255 candidates sent up by the Government Law School, Bombay, 132 passed, 117 failed, and 6 were absent. 1 was placed in the First Division. 115 were Hindus, 10 Parsis, 4 Mahomedans, 2 Indian Christians, and 1 was a Jew. In 1919, there were 195 candidates, of whom 100 passed the Examination, and in 1918 there were 197 candidates, of whom 99 proved successful.

Second Examination for the Degree of LL.B. (March 1921).—Of the 244 candidates sent up by the Government Law School, Bombay, 139 passed, 95 failed, and 10 were absent. 5 were placed in the First Division. 124 were Hindus, 6 Parsis, 6 Mahomedans, 2 Indian Christians, and 1 was a Syrian Christian. In 1920, there were 244 candidates, of whom 134 passed the Examination, and in 1919 there were 251 candidates, of whom 128 proved successful.

Examination for the Degree of LL.M.—Three candidates were examined at this Examination, 1 in Branch I and 2 in Branch II. All of them proved unsuccessful. In 1920, there were 5 candidates, of whom 2 passed the Examination, and in 1919, there were 9 candidates, of whom 3 proved successful.

Preliminary Scientific Examination for the Degrees of M.B., B.S. (October 1920 and April 1921).—Of the 131 candidates registered for the October Examination, 89 passed, 36 failed, and 6 were absent. Of the 340 candidates registered for the April Examination, 185 (including one placed in the First Class) passed, 147 failed, and 8 were absent. The following statement shows in the case of each College the number of candidates examined, the number of successful candidates, and the percentage of passes :—

College.	October 1920.			April 1921.		
	No. examined.	No. passed.	Percentage of passes.	No. examined	No. passed.	Percentage of passes.
Elphinstone	5	2	40·00
Wilson	.. 16	7	43·75	33	14	42·42
St. Xavier's	.. 37	23	62·16	67	34	50·74
Gujarat	.. 6	5	83·33	21	12	57·14
Baroda 6	4	66·66	20	7	35·00
Fergusson	.. 20	16	80·00	48	19	39·58
D. J. Sind	.. 4	2	50·00	7	4	57·14
Grant Medical	.. 36	32	88·88	131	93	70·99
Total ..	125	89	71·20	332	185	55·72

Of the successful candidates in the October Examination, 67 were Hindus, 12 Indian Christians, 9 Parsis, and 1 was a Mahomedan. 6 of the successful candidates were ladies (3 Hindus, 2 Indian Christians, 1 Mahomedan).

Of the successful candidates in the April Examination, 116 were Hindus, 36 Parsis, 23 Indian Christians, 5 Mahomedans, 2 Anglo-Indians, 2 Jews, and 1 Chinese Buddhist. 15 of the successful candidates were ladies (6 Indian Christians, 4 Parsis, 3 Hindus, 1 Anglo-Indian, 1 Jew).

In October 1919, there were 96 candidates, of whom 54 passed the Examination, and in April 1920, there were 401 candidates of whom 254 proved successful.

Intermediate Examination for the Degrees of M.B., B.S. (October 1920).—Of the 190 candidates sent up by the Grant Medical College, 100 passed, 84 failed, and 6 were absent. 71 were Hindus, 17 Parsis, 8 Indian Christians, 4 Mahomedans. 3 of the successful candidates were ladies (all Parsis). In 1919, there were 119 candidates, of whom 62 passed the Examination, and in 1918, there were 101 candidates, of whom 63 proved successful.

Intermediate Examination for the Degrees of M.B., B.S. (April 1921).—Of the 278 candidates sent up by the Grant Medical College, 132 passed, 135 failed, 10 were absent and 1 was expelled. 6 were placed in the First Class. 96 were Hindus, 21 Parsis, 8 Indian Christians, 5 Mahomedans, 1 was an Anglo-Indian, and 1 a Syrian Christian. 5 of the successful candidates were ladies (4 Parsis, 1 Hindu). In 1920, there were 184 candidates, of whom 85 passed the Examination, and in 1919, there were 167 candidates, of whom 100 proved successful.

Final Examination for the Degrees of M.B., B.S. (October 1920).—Of the 117 candidates sent up by the Grant Medical College, 42 passed the whole Examination, 9 passed in Part I, 11 in Part II, 47 failed, 7 were absent, and 1 was expelled. Of the successful candidates in the whole Examination, 24 were Hindus, 9 Parsis, 6 Indian Christians, 2 Mahomedans, and 1 was a Jew. One of the successful candidates was a lady (Jew). In 1919, there were 122 candidates, of whom 56 proved successful, and in 1918 there were 113 candidates, of whom 50 proved successful.

Final Examination for the Degrees of M.B., B.S. (April 1921).—Of the 161 candidates sent up by the Grant Medical College, 80 passed the whole Examination, 28 in Part I, 11 in Part II, 35 failed, and 7 were absent. 2 were placed in the First Class. Of the candidates who passed the whole Examination, 50 were Hindus, 15 Parsis, 11 Indian Christians, 2 Mahomedans, 1 was an Anglo-Indian, and 1 a Burman Christian. 5 of the successful candidates were ladies (3 Hindus, 2 Indian Christians). In 1920, there were 103 candidates, of whom 50 passed the Examination, and in 1919, there were 102 candidates, of whom 39 proved successful.

Examination for the Degree of B.Hy.—Of the 6 candidates sent up by the Grant Medical College, 2 passed the whole Examination, 1 passed in Part I, 2 failed and 1 was absent. Of the successful candidates in the whole Examination, 1 was a Hindu and the other a Parsi. In 1920, there were 4 candidates, none of whom passed the Examination, and in 1919, there were 2 candidates, of whom 1 proved successful.

Examination for the Degree of M.D.—Ten candidates were examined at this Examination, 9 in the Medicine and 1 in the Midwifery Branch. 4 passed in the Medicine Branch and the rest failed. 3 belonged to the Grant Medical College and 1 to the Civil Hospital, Karachi. 3 were Hindus and 1 was a Parsi. In 1920, there were 5 candidates, of whom 1 passed the Examination, and in 1919, there were 6 candidates, of whom 2 proved successful.

Examination for the Degree of M.S.—There were 2 candidates, both of whom proved unsuccessful. In 1920, there were 6 candidates, of whom 2 passed the Examination, and in 1919, there were 2 candidates, both of whom proved successful.

UNIVERSITY AWARDS.

During the year under report the University Scholarships, Prizes, and Medals were awarded as under :—

The Jugonnath Sunkersett Sanskrit Scholarships.—The first to Sulabha Panandikar, of High School for Indian Girls, Poona; the second divided between Narhar Gopal Shinde, of Private High School, Rajapur, and Kashinath Bhavanishankar Sukthankar, of Chikitsaka Samuha High School, Girgaum, Bombay.

The Jam Shri Vibhaji Scholarship.—To Jethalal Lallubhai Andharia, of Alfred High School, Bhavnagar.

The Sir Cowasji Jehangir Latin Scholarship.—To Edward S. J. X. Lawrence, of St. Xavier's High School, Bombay.

The Kinloch Forbes Gold Medal and Prize.—To Utsavlal Lallubhai Shah, of Government Law School.

The James Berkley Gold Medal and Prize.—To Mahadev Laxman Champhekar, of the College of Engineering, Poona.

The Ellis Prize (Sanskrit).—To Sulabha Panandikar, of High School for Indian Girls, Poona.

The Ellis Scholarship.—To Ramkrishnarao Narsingrao Burgul, of Fergusson College.

The Chancellor's Medal (History).—To Gulabbhai Naranji Joshi, of Wilson College.

The Arnould Scholarship.—To Mohanlal Shamji Vakil, of Government Law School.

The Bai Maneckbai Byramjee Jeejeebhoy Prize (History).—To Narhar Gopal Shinde, of Private High School, Rajapur.

The Rao Sir Pragmalji Scholarships.—The first to Gulabrai Navalshankar Mehra, of Baroda High School, and the second to Suleman Haji Khoja, of Alfred High School, Bhuj.

The Sir Jasvantsingji Scholarships.—The first to Jethalal Lallubhai Andharia and the second to Purshottam Chatrabhuj Mehta, both of Alfred High School, Bhavnagar.

The Hughlings Prize.—To Bindumadhav Dhondopant Sattigeri, of Deccan College.

The James Taylor Prize.—To Ardeshir Darabshaw Shroff, of Elphinstone College.

The Bhau Daji Prize.—To Nath Hari Purandare, of Fergusson College.

The Vinayakrao Jagannathji Sunkersett Prize.—To Vinayak Sadashiv Agashe, of Elphinstone College.

The Merwanji Framji Panday Scholarship.—To Vishwanath Damodar Limaye, of the College of Engineering, Poona.

The Kahandas Muncharam Scholarship.—To Jayantilal Hargovindas Talati, of the College of Engineering, Poona.

The Dhirajlal Mathuradas Scholarship.—To Shantilal Harilal Trivedi, of Wilson College.

The Gibbs Prize.—To N. C. Anantha Krishnamachari, of Fergusson College.

The Narayan Vasudev Scholarship (Botany and Zoology).—To Krishnarao Ramchandra Jadhav, of Baroda College.

The Cobden Club Medal.—To Dattatraya Gopal Karve, of Fergusson College.

The Sir George LeGrand Jacob Scholarship.—To Ramnikrai Bhagvandas Vasavada, of Alfred High School, Rajkot.

The Jairazbhoy Peerbhoy Scholarship.—To Saif Faiz Tyabji, of St Xavier's High School, Bombay.

The Varjivandas Madhavdas Sanskrit Scholarship.—To Mohoniraj Keshav Shaligram, of Deccan College.

The Jamshedji Dorabji Naegamvala Prize.—To Mahadev Laxman Champhekar, of the College of Engineering, Poona.

The Sir Frank Souter Scholarship (Matriculation).—To Abdulkaiyum Ilahibax Shaikh, of Sarvajanic High School, Surat.

The Sir Frank Souter Scholarships (Intermediate Arts).—To Kalil Dehdasti, of St. Xavier's College, and Abdulkadir Shaikh Anar Kureshi, of D. J. Sind College.

The Charles Morehead Prize.—Divided between Kisharam Gobindram Java, Kedar Nath Kulshreshtha, Mangesh Vishnu Parulkar, Joseph Pereira, Yeshwant Shivram Pitambare and Homi Meherjibhoy Sethna, all of Grant Medical College.

The Balkrishna Sudamji Prize.—To Shantabai Sitaram Salvi, of Grant Medical College.

The Bhavnagar Percival Scholarship.—To Nandlal Maganlal Mehta, of Samaldas College.

The Bhau Saheb Desai Scholarships.—To Kantilal Mohanlal Shah and Vrajraj Mukundrai Desai, both of Nadiad High School.

The Queen-Empress Silver Medal.—To Maneckbai Khanderao Navalkar, of Grant Medical College.

The Kutchi Divan Bahadur Manibhai Prize.—To Gulabrai Navalshankar Mehta, of Baroda High School.

The James Greaves Scholarship.—To Nariman Bamansha Cama, of R. S. Dalal High School, Broach.

The Colonel Patrick French Scholarship.—To Purushottam Shridhar Deo, of the College of Engineering, Poona.

The Divan Bahadur Laxman Jagannath Vaidya Scholarship.—To Kusum Jayavant, of High School for Indian Girls, Poona.

The Scholarship of the Medical Women for India Fund.—To Maneckbai Khanderao Navalkar, of Grant Medical College.

The Sir James Fergusson Scholarship in Arts.—To Gopal Vaman Bhagwat, of Fergusson College.

The Sir James Fergusson Scholarship in Medicine.—To Sonu Madhavrao Patwardhan, of Grant Medical College.

The Lady Reay Silver Medal.—To Maneckbai Khanderao Navalkar, of Grant Medical College.

The Lady Reay Medical Scholarship.—To Sonu Madhavrao Patwardhan, of Grant Medical College.

The D. B. Bahadur Manibhai Cutch Memorial Technical Scholarship.—To Madhukar Harsuram Mehta, of Baroda High School.

The Judge Spencer Prize.—To Mohanlal Shamji Vakil, of Government Law School.

The Bai Shirinbai Ratansha Parakh Scholarship.—To Piroja Nusserwanji Mody, of Grant Medical College.

The Vallabhdas Valji Scholarship.—To Tulsidas Meghji Asar, of M. K. Natha Bhatia High School, Bombay.

The Pestanji Hormusji Cama Scholarship.—To Shirin Phirozshaw Mehta, of Sardar Dastur Noshirwan Girls' High School, Poona.

The Bai Hirabai Pestanji Hormusji Cama Gold Medal.—To Shantabai Sitaram Salvi, of Grant Medical College.

The Government of India Scholarship.—To Ganesh Sakharam Mahajani, B. A., of Fergusson College.

The R. M. Sayani Khoja Testimonial Scholarship.—To Karmalli Ebrahim, of St. Xavier's High School, Bombay.

The Muncherji Navroji Banaji Scholarship.—To Rustamji Nanabhoy Banboat of Government Law School.

The Mrs. Satyavati Lulubhai Sumaldas Scholarship.—To Bhavani Natarajan, of Grant Medical College.

The Sir Dinshaw Maneckji Petit Medical Scholarship.—To Sharada T. Adhav, of Grant Medical College.

The Wordsworth Scholarship and Prize.—To Sunderlal Trikamal Desai, of Elphinstone College.

The Kashinath Trimbak Telang Gold Medals (Philosophy).—To Vasudev Purushottam Patwardhan and Gangadhar Krishna Sane, both of Fergusson College.

The Dosabhai Framji Cama Scholarship.—To Dara Nusserwanji Kanga, of New High School, Bombay.

The Gungabai Bhat Scholarship.—To Manjula Ganpatrao Dhumatkar, of Elphinstone College.

The Bai Aimai K. R. Cama Scholarship.—To Ardeshir Hormusji Desai, of Sir Cowasji Jehangir Madressa, Navsari.

The Perozshaw Mervanji Jijibhai Scholarship.—Divided between Ardeshir Hormusji Dastur and Fardunji Navroji Dastur, both of Wilson College.

The Bai Dayācore Morarbhoj Vijbhukhandas Scholarship.—To Vinayak Sadashiv Agashe, of Elphinstone College.

The Framji Sorabji Bhavnagri Scholarship.—To Kaikhusru Kavasshah Dastur, of St. Xavier's College.

The Uttamram Memorial Scholarship.—To Ramnikrai Bhagvandas Vasāṇvada, of Alfred High School, Rajkot.

The Ebrahim Nurdin Scholarship.—To Ebrahim Hyderali Kurwa, of Tutorial High School, Bombay.

The Sir Mangaldas Nathubhai Legal Scholarship.—To Mohanlal Shamji Vakil, of Government Law School.

The Chatfield Prize.—To Sulabha Panandikar, of High School for Indian Girls, Poona.

The Rao Bahadur Karamsi Damji Scholarship.—To Kalyanji Liladhar Kapani, of Alfred High School, Bhuj.

The J. C. Lisboa Gold Medal.—To Kedar Nath Kulshreshtha, of Grant Medical College.

The Sir Mangaldas Nathubhai Technical Scholarships.—To Trimbak Sitaram Sabnis, B.A., M.Sc., of St. Xavier's College (Plant Breeding and Diseases of Economic Plants), and Jivan Durlabh Dhruva, M.B., M.S., of Grant Medical College (Orthopædics).

The Miss Yamunabai Atmaram Dalvi Scholarship.—To Sulabha Panandikar, of High School for Indian Girls, Poona.

The Byramji Nusserwanji Koyaji Scholarship and Silver Medal.—To Dadabhoy Perojshaw Settna, of John Connon High School, Bombay.

The Rao Bahadur Parvatishankar Manishankar Dave Scholarship.—To Jyotindra Hariharshankar Dave, of M. T. B. College, Surat.

The Rajaram Govindram Scholarship.—To Natverlal Mohanlal Shah, of R. C. High School, Ahmedabad.

The Sir Dinshaw Manekji Petit (First Baronet) Avesta Scholarship.—To Ardeshir Bejonji Kutar, of Sir Cowasji Jehangir Madressa, Navsari.

The Sir Dinshaw Manekji Petit (First Baronet) Science Scholarship.—To Ardeshir Jehangirji Karkaria, of Elphinstone College.

The Nusserwanji Jehangirji Wadia Scholarship (Engineering).—To Maneksha Kavasi Bilimoria, of the College of Engineering, Poona.

The Dr. Ismail Jaffer Mahomed Scholarship.—To Gulam Murtuja Amir Shaikh, of Union High School, Broach.

The Lord Sandhurst Gold Medal.—To Bhaskar Balvantrao Yodh, of Grant Medical College.

The Noormahomed Jairazbhoy Peerbhoy Scholarship.—To Mohomed Zillur Rehman Siddiqi, of Grant Medical College.

The Ibrahimbhoy Rahimtulla Khoja Testimonial Scholarship.—To Suleman Jafferbhoy Rahimtulla, of St. Xavier's College.

The Dr. Tribhrowandas Motichand Shah Scholarship.—To Hiralal Tuljaram Topiwala, of Sir C. J. Readymoney High School, Gandevi.

The Springer Research Scholarship.—To Vinayak Keshav Bhagvat, M.Sc., of Baroda College (Chemistry of Alkaloids).

The Sir Lawrence Jenkins Scholarship.—To Chandulal Ranchhoddas Shah, of Wilson College.

The Pralhad Sitaram Patwardhan Scholarship.—To Vishnu Dattatraya Karkhanis, of Fergusson College.

The Gungadas Rangildas Scholarship.—To Jayadevlal Atmaram Kaji, of Wilson College.

The Mangaldas Hurivallabhdas Commerce Scholarship A.—To Bhikaji Dhondo Chirputkar, of Private High School, Rajapur.

The Mangaldas Harivallabhdas Commerce Scholarship B.—To T. S. Parasurama Iyer, of Sydenham College.

The Mangaldas Harivallabhdas Commerce Scholarship C.—To Trimbak Vishwanath Datar, of Sydenham College.

The Mangaldas Harivallabhdas Commerce Prize.—To Mangaldas Premji Lohana, of Sydenham College.

The Sir James Begbie Scholarship in Commerce.—To Pallath Kochukrishna Menon, of Sydenham College.

The Pragji Thackersey Moolji Science Scholarship.—To Ranchhodji Dajibhai Desai of Wilson College.

The Pragji Thackersey Moolji Science Scholarship (in Arts).—To Jayadevlal Atmaram Kaji, of Wilson College.

The Moos Medal (Chemistry).—To Dhires Lobhan Sen, of the Indian Institute of Science, Bangalore.

The Dinanath S. Mankar Gold Medal.—To Dara Nusserwanji Kanga, of New High School, Bombay.

The Miss Sokaribai S. Manlar Scholarship.—To Gulestan Jamshedji Bahadurji, of St. Xavier's College.

The Sardar Bhimrao Ramrao Akbarnawis Sanskrit Scholarship.—To Anant Bhargav Kulkarni, of Rajaram High School, Kolhapur.

The Sardar Bhimrao Ramrao Akbarnawis Science Scholarship.—To Narhar Ramchandra Damle, of Fergusson College.

The Dr. Dadabhai Navroji Scholarship.—To Freny D. R. Mobedji, of St. Helena's School, Poona.

REGULATIONS.

Under the rules which were in force up to the last year, students, who had failed at a medical examination, were required to produce a certificate that they had, during the interval between the declaration of their failure and subsequent re-appearance at the examination, attended lectures and done practical work in the subjects of the examination to the satisfaction of the Principal of their college. During the year under report, these rules were abrogated, as the accommodation and educational facilities available at the Grant Medical College, which is the only College affiliated in the Faculty of Medicine, were quite insufficient to provide for the needs of new students as well as unsuccessful students of previous years.

The courses in Mathematics for the M.A. and M.Sc. examinations being identical, a student who had passed one of these examinations could claim both degrees. This anomaly was obviated by a new provision that a candidate who had obtained one of these degrees in one of the Mathematical groups should, to obtain the other degree, pass the other examination in the other group.

Experience having proved the desirability of including French, German, and Avesta and Pahalvi among the Honours subjects of the B.A. examination, the regulations have been altered to allow candidates to take Honours in these languages.

The proposal to recognise Portuguese as a Second Language at the University Arts examinations was subjected to a very careful enquiry and consideration before it was submitted to the Senate for acceptance. The Syndicate had satisfied themselves that the language was spoken by a considerable portion of the population in British India and was the only European language that had taken root in the country as one of its vernaculars and that it possessed a copious vocabulary and a literature rich in classical prose and poetry.

Sociology has many points of contact with History as well as Philosophy. To emphasise this fact and to encourage the study of such relationship, Sociology has been introduced into the curriculum of the M.A. examination as one of the alternatives in the groups of History and Philosophy.

To such graduates in Engineering as aspire to the highest academic distinction in the subject, the old provision that they should possess an Arts degree in addition to the Engineering degree has proved such a serious discouragement that in the long roll of

such graduates there is only one who has obtained the M.C.E. degree. The Senate has now removed this obstacle and the Syndicate hope that the M.C.E. degree will in future be as ardently sought after as the M. D. degree under the revised regulations.

It was stated in the last report that in order to afford facilities to the Masters of Arts of the Bombay and Calcutta Universities who wish to proceed to the B.Com. degree of this University, an attendance of only two terms at the Sydenham College of Commerce and Economics is now demanded from such of them as have passed the B.A. examination with Economics as one of their optional subjects. Last year the same facility was extended to the Masters of Arts of all other statutory Indian Universities and the Mysore University.

The increasing importance which is given to the study of the vernaculars in this University made it desirable that they should have a Board of Studies of their own. They were, therefore, removed from the purview of the Board of Studies in Sanskrit and allied languages and placed under the direction of a separate Board.

In December 1918, the Senate passed the regulations relating to the Degree in teaching. In 1920, Government appointed a Committee (on which Principal A. M. Masani represented the Syndicate and the late Mr. J. D. Bharda the Joint Examination Board) to discuss certain points connected with the re-organization of their Secondary Training College. The discussions held at the meetings of the Committee were subjected to a careful consideration by the Board of Studies in Teaching and the revised regulations which the Senate passed in April last were the outcome of such labour of the Board.

The periodical incidence of certain Hindu holidays in the neighbourhood of the commencement of the second academic term causes inconvenience to students and obstructs the regular working of the colleges. To remove this difficulty the Senate empowered the Syndicate, whenever they considered it necessary to do so, to shift a college vacation by a period not exceeding two weeks without in any way altering the period of its duration.

SCHOOL OF ECONOMICS AND SOCIOLOGY.

This School is under the direction of Professor Geddes, assisted by Mr. S. N. Pherwani as Assistant Professor of Sociology. The following extracts from Professor Geddes' report to the Syndicate will give the Senate an idea of the working of the school :—

"The Department has been regularly kept open from 8 or 8-30 a.m. to 6, 6-30 or 7 p.m. daily, so as to give the fullest possible time for study. Excursions have been conducted on Saturday afternoons, and a larger one (of four days) to Poona.

"My small senior class (3 to 4 students) has met here daily (save 12 days at Wilson College) with personal teaching from 8-30 or 9 to 11. I have daily had the general class (including most of the second and third term students) from 11-30 to 1-15 or 1-30. These long periods have been possible by giving them something of conversational and 'seminar' character.

"Individual reading has been encouraged; and essays demanded especially at beginning and close of term. All essays, after careful reading, are tutorially re-read and criticised in detail with their writers; and now separately by Mr. Pherwani as well as by myself.

"The general class numbered 18 at the beginning, including among these 5 old students, but has fallen off to 11 at the close. Two old students, both good ones, holding scholarships and doing active and original work, left me (though with warmly expressed regret) as non-co-operators; and they are now teaching Sociology and Economics at Sabarmati. Perhaps one or two other students may have had similar explanation, but did not give it. But the main cause of small numbers, and of leaving through discouragement, is undoubtedly due to their realising that the class does not yet count for graduation; though others have mentioned press of professional or other degree work, or shown lapse of interest. Perhaps our most eager student of all has had unfortunately to leave from severe illness.

"With all these deductions, however, an actively interested group of 11 ordinary class and 3 seminar class = 14 students has remained to the end out of the original $18+3=21$. Of these, the majority desire to continue for another year though this is in

several cases conditioned by the continuance of scholarships, or the award of these. They also desire to present themselves in Sociology in 1922, should this, as all here hope and trust, be now clearly recognised as a graduation subject.

"The prime aim of this Department is of course towards promoting active and original work ; and these two winters of preparation have now at least been opening the way towards this. The larger numbers who may be expected to attend henceforth for graduation purposes will naturally yield a larger number of subsequent workers and investigators. I cannot, however, as yet submit any essays for publication ; for though many of these have been up to College Magazine or newspaper levels, I have used them only for inspiring ambition towards a more scientific standard. I may mention, however, that the Indore Minister of Commerce is printing the report of one of our two scholars who gave their vacation last year to working under him, and with notes expected from the report of the other."

The appointment of a Professor of Economics in the School had been long under the consideration of a Committee appointed by the Syndicate to select a suitable person. The choice of the Committee, as the Senate knows, fell on Dr. Radha Kamal Mookerji, Lecturer in Economics in the Calcutta University. At the last moment, Dr. Mookerji declined the appointment which was offered to him by the Senate. It is expected that the Committee will be able soon to recommend to the Syndicate a properly qualified person for the post.

The School still continues indebted to Government for permission to hold its classes in the building of the Royal Institute of Science. The Syndicate regret that on account of unforeseen circumstances, no part of the new University buildings is yet ready for their reception.

RECOGNITION.

The Senate has, with the sanction of Government, granted to the New Poona College permanent affiliation to the University and has further permitted it to teach the Honours course in Mathematics for the B. A. Degree.

ENDOWMENTS.

Dr. Dadabhoy Navroji Scholarship.—An offer of a sum of Rs. 10,216-5-4 subscribed by the Indian community in Kobe, Japan, for the foundation of a scholarship to perpetuate the memory of the late Dr. Dadabhoy Navroji, to be awarded every year to any Indian girl who obtains the highest number of marks in English at the Matriculation examination, was accepted by the Senate. It was a matter of great gratification to the Senate that an opportunity was thus afforded to it to connect the name of the great Indian patriot with this University in the cause of female education which he had so much at heart.

Sirdar Bhimrao Ramrao Akbarnavis Scholarships.—Regulations for the award of these scholarships, intended to foster and promote a spirit of research among our young students, were prepared in accordance with the donor's wishes for submission to the Senate who were pleased to approve of them.

An offer of Rs. 10,000 made by Mr. E. Dalgado, M.A. (Oxon.), Solicitor, for the foundation of a scholarship to be awarded every year to the candidate at the Matriculation examination who obtains the highest number of marks in Portuguese has been accepted by the Syndicate. When the regulations for the award are adopted by the donor and the Syndicate, they will be submitted to the Senate for approval.

ROYAL INSTITUTE OF SCIENCE.

An application was received from the Director of Public Instruction for the affiliation of the Royal Institute of Science. It was laid before the Senate with the recommendation that the Institute be recognised as a full grade College of Science teaching up to the B.Sc. degree course. Considering the magnitude of the resources which the Institute commanded, the Senate adopted the view that it could more profitably concern itself with the cultivation of research than with the teaching of Science, as required for the B.Sc. degree. It therefore resolved that the Syndicate be requested to review their decision. When the matter came up before the Syndicate for reconsideration, they, on the suggestion of the Director of Public Instruction,

decided to withhold their final judgment till Government had appointed an Advisory Board and the Syndicate were put in possession of the views of the Board in regard to all the details connected with the future working and conduct of the Institute.

REPORT OF THE SENATE COMMITTEE APPOINTED TO CONSIDER THE RECOMMENDATIONS OF THE CALCUTTA UNIVERSITY COMMISSION.

There is very little to be said on this subject, as the Report of the Committee is already in the hands of the Senate. The Syndicate, however, wish to bear witness to the patience and care with which the Committee dealt with the issues submitted for their consideration and investigated the applicability of each issue to the conditions prevalent in this Presidency. It would be impossible for any Committee, however willing and conscientious, to pass in review and make definite pronouncements on every point dealt with in the report of the Commission, and the Syndicate are of opinion that the Committee exercised a wise discretion in confining their attention to the most salient questions raised by the Commission leaving minor matters and details to be dealt with when a decision had been arrived at on the fundamental principles and issues. In view of the complexity and great importance of the subject, the Senate resolved to go into Committee, and the report of the Senate in Committee is now waiting to be dealt with by the Senate.

MISCELLANEOUS.

Professor N. S. Takakhav has been appointed Wilson Philological Lecturer for the current year to deliver a course of lectures on Latin Language and Literature.

The Syndicate were approached by the Secretaries of the Bhandarkar Oriental Institute for financial aid towards the preparation and publication of a critical edition of the *Mahabharata*. In view of the importance and magnitude of the undertaking and of the great impetus which would be imparted to Indian scholarship by the patronage which it may receive from the University, the Syndicate resolved to make to the projectors of the undertaking an annual grant of Rs. 3,000 for 5 years on certain conditions.

Dr. F. G. Selby, the Rev. Dr. D. Mackichan and Professor Patrick Geddes were appointed delegates to represent this University at the Congress of the Universities of the Empire which was held at Oxford last month.

Towards the end of the year 1920, a Special Convocation of the Senate was held to confer the honorary degree of Doctor of Laws on the Right Honourable Lord Sinha, the Honourable Sir Narayan G. Chandavarkar and the Honourable Sir Chimanlal H. Setalvad for their eminent position and attainments.

JOINT EXAMINATION BOARD.

The number of candidates who presented themselves at the last School Leaving Examination was 6,396 against 5,873 of the previous year. The following table shows the numbers of the candidates who appeared in the different sections of the Examination :—

Examination.	No. of candidates.	No. passed.
Matriculation only	4,995	2,279
Matriculation	1,026	523
and		—Total—2,802
Government Service		273
Government Service Certificate only	370	62
Individual subjects	5	—Total—335
		1

Out of 1,026 who appeared both for the Matriculation and Government Service Certificate Examinations, only 252 succeeded in passing in both at the same time.

The above figures show that those who apply for Government Service Certificate only are weaker in their studies than those whose aim is to take up University studies. Again, the percentage of passes among those who offered themselves for the Matriculation only is 45.6, while among those who offered themselves both for Matriculation and Government Service Certificate, 51 per cent. passed for Matriculation, while only 24.6 per cent. obtained the Certificate for Government Service. The majority of those who passed the Matriculation Examination but failed in Government Service Certificate Examination, failed in Elementary Science—a subject in which only a certificate is demanded by the Board for the purposes of Matriculation.

During the year twenty-two additional schools were brought on the Board's Register. Three of them which were housed, equipped and staffed according to the Board's requirements were granted permanent registration. The remaining nineteen being defective in one respect or another, were recognised provisionally for periods varying from one to three years. If, on the next inspection, the latter schools are found to reach the standard of completeness fixed by the Board, they will receive permanent recognition. Also the provisional recognition of two schools which were already on the last year's list was confirmed.

Twenty-seven schools were removed from the Register, fourteen for their failure to pay the Registration Fee, eight for their failure to present candidates for the last two years, two on applying for disaffiliation on account of their being nationalised, two on withdrawing for the same reason after the Board had decided to register them and one on changing the Management.

Thus there were 241 schools on the books of the Board against 246 of last year.

Last year a new centre was formed at Kolhapur for the convenience of students from the Southern Maratha Country and its neighbourhood. His Highness the Maharaja of Kolhapur has generously undertaken to defray all the expenses which such a centre would entail. The report received from the Senior Supervisors appointed by the Board to conduct the Examination at Kolhapur bears testimony to the very satisfactory arrangements made by His Highness for the reception and accommodation of the candidates and facilities provided by him for the efficient control of all the details pertaining to the Examination.

The most gratifying feature of the last Examination was that it was held in buildings at all centres except in Poona and Kolhapur where it is not easy to find buildings large enough to hold nearly a thousand candidates. The Board tender their best thanks to the Heads of Government and private Colleges who ungrudgingly placed their buildings and furniture at their disposal for the purpose of this Examination and in other respects helped the Board with their advice and co-operation.

Representations were addressed to the Board suggesting that the School Leaving Examination be held a month later than at present, i.e., in the third week of April instead of the third week in March, in order to afford the schools sufficient time to get through the whole course prescribed by the Board. The Board approached the Senate to sanction the proposed change, but the Senate sent back the proposal to the Board for reconsideration. In the meantime as the Syndicate were called upon to consider the whole question of the present system of terms as it affects Colleges as well as schools, they resolved to invite the opinions of all the affiliated institutions on this important subject before coming to any final decision for the consideration of the Senate.

A proposal to make "Co-operative Movement" a subject of study for the School Leaving Examination was negatived by the Board on the ground that the curriculum as it was, was already sufficiently full and did not allow of any addition to it.

The Senate accepted the recommendation of the Board to add Portuguese to the list of Additional Languages with the proviso that no candidate can at one and the same time offer that language as an Additional Language as well as a vernacular.

The most important event of the year was the abolition of the age limit for the School Leaving Examination. The restriction as to age operated very much to the disadvantage of really intelligent students, without doing any substantial good to the average student. The Board are confident that the removal of the restriction will not lead, in any appreciable number of cases, to over-pressure on the energy and intelligence of ordinary pupils, while a pupil endowed with superior intelligence will be spared the serious loss of time and dull repetition of studies involved in his waiting for the Examination till he reaches a certain age.

Another important change was the recognition of the Matriculation Examination of all other Indian Statutory Universities and the Mysore University unconditionally as equivalent to the Matriculation Examination of this University. By thus placing the Matriculation Examinations of the other Indian Universities on a footing of equality with our own, the Senate has removed a serious grievance and made it possible for foreign students whom circumstances have drawn to Bombay to prosecute their University studies in this University on the same terms as in their native University.

The Inspecting Officers under Government and Native States have continued their courtesy of furnishing valuable reports on the condition of Registered Schools which they have inspected. These reports enable the Board to keep themselves acquainted with all essential facts relating to the schools under their control and to call for explanations for any retrogression from the expected standard of efficiency that may be noticeable.

On his appointment as Minister of Education in the Government of Bombay, the Honourable Mr. R. P. Paranjpye resigned his seat on the Board. The valuable services rendered by him as a Member of the Board to the cause of Secondary Education in this Presidency were acknowledged in an appreciative resolution placed on the records of the Board.

THE CHANCELLOR'S SPEECH.

His Excellency the Chancellor, in addressing the Convocation, said—

Mr. Vice-Chancellor and Members of the Senate of the University of Bombay,

Since I last had the privilege of addressing the Convocation, we have been some of us actors in and others spectators of the most interesting drama that history can ever present to its students. There is nothing in the whole of the world's history that so fascinates the mind and captures the interest alike of the contemporary writer and the future historian as do the later stages in a nation's growth to political manhood; and it seems to me that the reason lies in the essential sameness that pervades each renewal of this world-old struggle.

As each successive nation has drawn nearer to its goal, it has inscribed upon its banner the ancient devices and adopted for its war cry the old watchwords that throughout the centuries have inspired the march of progress. These devices and these well known watchwords have performed a great service to mankind, but like all faithful servitors they have not escaped the fate of being abused or forced into performing duties naturally abhorrent to them. Many reactionary movements have been disguised under the cloak of progress, and not a few nations have undergone terrible punishments for following those who cried the names of liberty, equality and fraternity, but stood in reality for anarchy and bloodshed.

To-day we in India are enrolled under the banner of political progress, and are answering to the cry of liberty. Events are moving fast, faster than many of us realise, so fast that we have hardly time to see and to tell each other whither we are going. Indeed the time has come when we are in danger of being mesmerised into headlong obedience to strange doctrines irrespective of the tests of experience or of their real credentials. The historian can multiply instances of the danger of unreasoning response to such calls. He would tell us, I think, that there comes a time in the history of every nation when it is imperative that it should examine the real meaning of the ideals at which it aims, and convince itself that it is not being misled into an acceptance very different from that which all experience has shown to be the true one. And I, as I anxiously examine the tendencies of our present times, am more than convinced that in India that time has now come. Liberty is the cry we hear around us. Are we sure that we know what liberty means, have we paused to consider whether what we call liberty is the same in conception as the great ideal that has inspired all the noblest advances in the progress of mankind? I suppose that every nation, ever since the time when Cicero wrote that "*populi Romani res est propria libertas*", has claimed liberty for its own child: and Rome perhaps could support that claim against the nations that were its contemporaries. But I hold it true that of modern races the Anglo-Saxon may lay claim unchallenged to have attained an earlier perception of the moral advantages of liberty, and a better understanding of its right uses than any other race upon the face of the earth.

Long before other races had begun to awaken to political consciousness, Englishmen were entering upon the long struggle in which the first victory was the signature of the Great Charter and the Declaration of Right perhaps the most significant. "Liberty, Liberty", cried Madame Roland, "what crimes have been committed in thy name": but the story of the Anglo-Saxon struggle for liberty contains hardly a crime that can be pilloried at the bar of history. Men were found in plenty to fight for liberty, to suffer and to die for it—there was no lack of courage in the followers of that banner. But it was in the hour of victory that they showed their real worth, showed also that true liberty—nothing more and nothing less—was the ideal that inspired their every effort. They knew from the first that the journey before them was long and difficult, that each step forward must be deserved before it could be made, and realising this they never lost patience or turned to autocratic or vindictive methods but remained true to their ideal. They accepted negotiation when they could, and fought only when they must, and so for centuries generation after generation took up the struggle where their predecessors had left it and went forward with unfaltering perseverance till the goal was won. The liberty for which they fought and suffered was the model upon which every nation that has struggled successfully for freedom has based its ideal, it was no spiritual state, no self sufficient rule of life laid down by schoolmen. Pericles may have been right when he wrote that a good conscience is liberty: but the liberty our ancestors fought for was a liberty that extended to every phase of life, freedom to work and freedom to develop—a secure practical heritage that they could bequeath to those that come after them, and we who to-day enjoy that heritage are very sure that the liberty they have bequeathed us is the true liberty. The liberty we prize, the liberty we have fought for all over the world, the liberty which once again after four years of struggle we have resecured for the world, is not expressed in the decision of a committee, is not found in the fiat of this ephemeral leader or that, is not buttressed by intimidation or supported by clamour. It is a liberty to think, speak, teach, move and profess what we believe and hold, subject only, but subject always to laws whose structure rests on the experience of centuries and which are sealed by the sanction of civilised opinion all over the world.

It is a corporate liberty belonging to each one of us not as an individual being but as a member of a community and the privileges it confers are bound up with the responsibilities it entails. So in our social relations we render homage to true worth and to constituted authority, securely confident that no other power on earth can force us to other obedience. In religion we hold ourselves free to believe what our heart and reason teach, but not free to suppress or to jeer at the beliefs of others: in business free to reap the fruits of our own industry, but not free to rob others of their just due. For our liberty depends upon the just fulfilment of our responsibilities towards our fellows.

It may be objected that the claim which the Anglo-Saxon races put forward to the truest knowledge of the meaning of liberty, is a claim that exists only in the racial mind, that each race is prejudiced in judging its own history.

Let us test it then by results, which are the only incontrovertible evidence. At the end of the 18th century when the French nation fell into that fever for free Government, the infection of which was not stayed until it had touched almost every nation on the Continent, they aimed at converting their constitution in one step from an absolute monarchy to a broadly enfranchised democracy. They were led to think that liberty might be had by rooting out at once and for ever every vestige of the form of Government under which they and their forefathers had lived for so long. What did they gain by this undisciplined and vindictive impatience? The answer is best given in the words of a contemporary writer:— "France when she let loose the reins of legal authority doubled the license of a ferocious dissoluteness of manners and of an insolent irreligion in opinions and practices. . . . France has bought undisguised calamities at a higher price than any nation has purchased unequivocal blessings: France has bought poverty by crime!"

And if more were needed, to-day before our eyes is being enacted a drama of crime that has purchased poverty—a drama which teaches us in equally striking fashion that hatred and vindictiveness are autocratic masters, and that the law is the only barrier that saves each man among us from the tyranny of those stronger than himself. Disregard and trample down the law and there follows the tyranny of anarchy that is worse than any restraint of authority—a tyranny under which no man knows what

chance whim may direct his life : under which he lives in perpetual fear lest the fruits of his labour, his property, his land, even his life be taken from him, and dares hardly move abroad, or open his lips in speech. France 100 years ago and Russia to-day were alike persuaded that they were on the road to liberty : the same road that England had been treading for so many years. How was it then that England and the nations who modelled their efforts for freedom upon hers escaped the dreadful catastrophe that those two nations underwent ? The reason of their salvation is not I think far to seek. In short it lies in discipline and in the respect for constituted authority which discipline ensures. It was thus that those old stalwarts who drafted the famous Petition of Right were saved from mistaking anarchy for freedom : it was because, in the words of Burke, " they preferred the positive recorded hereditary title to all which can be dear to the man and the citizen, to that vague speculative right which exposed their sure inheritance to be scrambled for and torn to pieces by every wild and litigious spirit." In other words, they had inherited and received the inculcation of a spirit of discipline, and therefore they were imbued with a strong respect for constituted authority and they realised that respect for law and order is vital to political progress. This is no *obiter dictum*, but a principle widely accepted both by statesmen and political scientists. Plato, the father of political philosophy, has pointed out in the *Republic* that excess of freedom, whether in politics or individuals, seems to pass directly to excess of slavery, and there has survived a line of the poetry of a later Greek writer which gives us what must have been every Greek statesman's definition of liberty. " Every free man " ; it says " is a slave to one thing only, the law." Why did the Athenian polity at its best procure for its citizens so wonderful a condition of contentment and prosperity—simply because the whole of Athenian life was based upon self-discipline and therefore upon moderation.

The statesmen of the Roman Republic knew that its greatness rested upon the same foundation, and that the freedom of its citizens was bound up with a disciplined respect for law and order.

To what conclusion does this comparison of modern and classical instances lead us ? Surely, to one conclusion only—that liberty does not mean every man having the power to do what he wants, rather liberty is only present in a state when every man realises that the only giver of his freedom is the law which shelters and protects him from the interference of his neighbours : and that upon his disciplined observance of the law depends its continued existence. Should it continue, there is no limit to the progress that the individual or the nation may achieve. The individual is free to develop to the utmost in every phase of life ; while by the gradual expansion of trade and commerce the nation may establish widely and upon secure foundation, and by the acquisition of wealth may acquire international power, and its internal organisation can gradually so perfect itself that every man is in effect at once a landowner, a scholar, and a Cabinet Minister.

" The only liberty ", said Burke, " that is valuable is the liberty connected with order : that not only exists along with order and virtue, but which cannot exist at all without them. It inheres in good and steady government as in its substance and vital principle." That is a phrase that every reformer should learn by heart and remind himself constantly of its meaning. If his achievements are consistent with the principle it enunciates, then they will be great achievements, noble and enduring. If he deserts that principle of design or in a rash moment of impatience, he must expect at no distant period of time to see all he has fought for and all he holds most dear flung into the cauldron of anarchy and license there to be irretrievably destroyed.

First of all then to appreciate and understand the real nature of liberty, what it is and what it is not, and then to fashion your conduct in defence of the real principles of true liberty, is the first duty of those of you who to-day are on the happy threshold of your working life. If anything I have said to-day may help you to that understanding I shall have achieved not only my own object, but that of this great University whose sons you are and whose repute is always in your keeping. (Applause.)

On the conclusion of his speech His Excellency the Chancellor declared the Convocation dissolved and the assembly rose and remained standing during the retirement of the procession of the Chancellor, Vice-Chancellor and Fellows, which observed the order of the entering procession reversed.

SPECIAL CONVOCATION FOR PRESENTING AN ADDRESS
OF WELCOME TO HIS ROYAL HIGHNESS THE
PRINCE OF WALES.

A Special Convocation for presenting an address of welcome to His Royal Highness the Prince of Wales was held in the Sir Cowasji Jehangir Hall of the University on Tuesday, the 22nd November 1921, at 11 a.m., when the following Fellows were present :—

The Chancellor.

1. His Excellency the Honourable Sir George Ambrose Lloyd, G.C.I.E., D.S.O.

The Vice-Chancellor.

2. The Honourable Sir Chimanlal H. Setalvad, Kt., B.A., LL.D.,

The Director of Public Instruction.

3. F. B. P. Lory, Esq., M.L.C., M.A.

Deans.

4. The Honourable Sir Narayan G. Chandavarkar, Kt., B.A., LL.D.
5. Dr. N. A. F. Moos, D.Sc., L.C.E., F.R.S.E.
6. The Honourable Mr. Justice A. M. Kajiji, B.A., LL.B., Bar.-at-Law.
7. Major-General W. E. Jennings, M.L.C., M.D., C.M., D.P.H., F.C.P.S., I.M.S

Syndics.

8. Sir Temulji B. Nariman, Kt., L.M., F.C.P.S.
9. The Honourable Justice Sir Lallubhai A. Shah, Kt., M.A., LL.B.
10. Principal A. L. Covernton, M.A.
11. Mirza Ali Mohammed Khan, Esq., M.A., LL.B.
12. K. Natarajan, Esq., B.A.
13. Dr. R. N. Ranina, L.M. & S.
14. The Rev. John McKenzie, M.A.

The Registrar.

15. Khan Bahadur Fardunji M. Dastur, M.A.

Board of Accounts.

16. K. S. Aiyar, Esq., B.A., L.T., F.S.A.A.
17. Professor D. D. Kapadia, M.A., B.Sc.

Bishop of Bombay.

18. The Right Rev. Edwin James Palmer, M.A., D.D.

Member of Council.

19. The Honourable Mr. M. H. W. Hayward, LL.B., Bar -at-Law, I.C.S.

Minister of Education.

20. The Honourable Mr. R. P. Paranjpye, B.Sc., M.A.

Judge of the High Court.

21. The Honourable Mr. Justice A. B. Marten, LL.D., M.A., Bar -at-Law,

Members of Legislative Bodies.

22. The Honourable Mr. Lalubhai Samaldas, C.I.E.
23. The Honourable Sir Dinshah E. Wacha, Kt.
24. N. M. Samarth, Esq., M.L.A., B.A., LL.B.
25. Divan Bahadur Kashinath R. Godbole, M.L.C., B.A., M.C.E.
26. Dr. Kavasji E. Dadaochanji, M.L.C., L.M. & S.

Ordinary Fellows.

27. Shams-ul-Ulama, Dr. Jivanji J. Modi, C.I.E., B.A., Ph.D.
28. Dr. D. A. D'Monte, M.D., M.R.A.S., F.C.P.S.
29. Dr. Accacio G. Viegas, L.M. & S., F.C.P.S.
30. Dr. B. E. Ghasvala, L.M. & S.
31. Principal G. C. Bhate, M.A.
32. Lt.-Col. R. Rqw, M.D., D.Sc., F.C.P.S., I.M.S. (Hony.)
33. Principal A. C. L. Wilkinson, M.A.
34. E. D. Talati, Esq., B.A.
35. Professor Shaikh Abdulkadir Surfraz, M.A.
36. Faiz B. Tyabji, Esq., M.A., Bar.-at-Law.
37. Thē'Rev. W. G. Robertson, M.A., B.D.
38. Dr. C. J. J. Fox, B.Sc., Ph.D.
39. Bhulabhai J. Desai, Esq., M.A., LL.B.
40. Professor A. R. Normand, M.A., B.Sc.
41. Professor Muhammad Abbas, M.A.
42. Moulvi Rafiuddin Ahmad, Bar.-at-Law.
43. Dr. T. M. Kajiji, M.A., LL.D. Bar.-at-Law.
44. Professor N. D. Minocher-Homji, B.A.
45. J. R. Gharpure, Esq., B.A., LL.B.
46. Dr. H. M. Masina, F.R.C.S., F.C.P.S.
47. Dr. A. N. Meldrum, D.Sc., A.R.C.Sc.
48. Dr. Dossibai J. R. Dadabhoy, M.D., M.R.C.P.
49. Major J. N. Duggan, D.O., L.M. & S., F.C.P.S., I.M.S. (Hony.).
50. Professor P. V. Kane, M.A., LL.M.
51. Professor B. K. Thakore, B.A.
52. Professor H. R. Hamley, M.A., B.Sc.
53. Lt.-Col. R. M. Carter, C.B., F.R.C.S., D.T.M., I.M.S.
54. D. G. Dalvi, Esq., M.A., LL.B.
55. Professor Patrick Geddes.
56. S. P. Dastur, Esq., B.A.
57. Principal M. L. Tannan, B.Com., Bar.-at-Law.
58. Dr. Mangaldas V. Mehta, B.A., L.M. & S., F.R.C.P.I.
59. Khan Bahadur Dr. B. H. Nanavatty, L.M. & S., F.R.C.S.E., F.C.P.S.
60. Major B. Higham, M.B., B.S., I.M.S.
61. K. B. Marzban, Esq., B.A.

Honorary Fellows.

62. Khan Bahadur Jamshedji A. Dalal, M.A., LL.B.
63. Sir Gokuldas K. Parekh, Kt., B.A., LL.B.

64. Shams-ul-Ulama Dastur Darab Peshotan Sanjana, B.A.
65. Fardunji M. Kanga, Esq., B.A., LL.B.
66. Dr. G. B. Prabhakar, L.M.& S., L.R.C.P., F.C.P.S.
67. Shivram V. Bhandarkar, Esq., B.A., LL.B.
68. C. M. Cursetjee, Esq., B.A., Bar.-at-Law.
69. The Rev. Braz DeMonte, D.D., D.C.L.
70. C. A. Latif, Esq., B.A., Bar.-at-Law.
71. Narayan Vishnu Gokhale, Esq., B.A., LL.B.
72. Rao Bahadur P. B. Joshi, F.R.G.S.
73. Manekji D. Kanga, Esq., B.A., LL.B.
74. Pestonji N. Wadia, Esq.

The Honourable the Vice-Chancellor and Fellows assembled in the University Library where they were joined by His Excellency the Chancellor. A procession was formed and, headed by the Assistant Registrar who carried the University Mace, it entered the Sir Cowasji Jehangir Hall at 10-45 a.m. in pairs in the following order:—Honorary and Ordinary Fellows, Members of Legislative Bodies, Judge of the High Court, the Minister of Education, Member of Council, the Bishop of Bombay, members of the Board of Accounts, the Registrar, Syndics, Deans, the Director of Public Instruction, the Vice-Chancellor and the Chancellor. The procession of Fellows proceeded to the Apse in the Hall where they took their seats. Syndics and Deans lined the gangway at the entrance to await His Royal Highness. His Royal Highness the Prince of Wales arrived at 11 a.m. and was received at the main entrance by the Chancellor and Vice-Chancellor, who, preceded by the Syndics and Deans, led him to his seat. Fellows and Professors and students assembled in the Hall and also in the *Shamiana* on the lawn outside the Hall rose from their seats on the arrival of the Prince and remained standing until His Royal Highness had taken his seat. His Royal Highness took his seat with the Chancellor on his left and the Vice-Chancellor on his right.

His Excellency the Chancellor having declared the Convocation open, the Honourable the Vice-Chancellor rose and read the following address on behalf of the Senate of the University; His Royal Highness and the whole assembly remained standing while the address was being read.

To

His Royal Highness Edward Albert Christian George Andrew Patrick David, K.G., G.C.S.I., G.M.M.G., G.C.I.E., G.M.B.E., M.C., Prince of Wales and Earl of Chester, Prince of Great Britain and Ireland, Duke of Cornwall, Duke of Rothesay, Earl of Carrick, Baron of Renfrew, Lord of the Isles, and Great Steward of Scotland.

“ May it please your Royal Highness,

We the Members of the University of Bombay beg humbly to offer to your Royal Highness our loyal and cordial welcome to these shores with our homage to our Most Gracious Sovereign, His Majesty the King Emperor.

“ Your Royal Highness's visit to India has at this moment a special significance when viewed from the standpoint of the Indian Universities. In the first place, those Universities are bound by an enduring bond of attachment to the British Throne because, shortly after the Mutiny of 1857 and just before the transfer of the Government of India from the East India Company to the Crown, the establishment of these Universities was the first fruit of the far-seeing statesmanship, and of the policy declared in the Proclamation of your Royal Highness's illustrious ancestor, Her late Majesty Victoria the Good. The beneficent effects of that Proclamation, which India's people cherish as their Great Charter, have been visible in no direction more than in the work of the Universities, inspiring our countrymen of all classes and creeds with a fervent desire to make the Universities increasingly the vehicle of their highest national culture and noblest aspirations. The realisation of these aspirations has been facilitated by the transfer of education to Indian Ministers responsible to the Legisla-

tive Councils under the scheme of reforms inaugurated by His Royal Highness the Duke of Connaught, whom this Presidency of Bombay was proud to welcome as an old and devoted friend.

"Thus the Universities of India have formed a bond of union between the East and the West, earnestly pursuing a great common idea under the *ægis* of the British Empire, overcoming racial and religious differences and promoting the cause of brotherhood and humanity among the people.

"The great war has devastated the world but it has left behind it one bright spot as a beacon of light to that world's future. The spirit of humanity and patriotism of the young men of the Empire, who readily gave their lives in its cause for the world's freedom has furnished an inspiring illustration of the truth of what Lord Morley has said :—"An age touched by the spirit of Hope inevitably turns to the young, for with the young lies fulfilment." You, Sir, stand now as a personification of that spirit. The courage, tact, good temper, self-restraint and industry which have marked your youthful career have brought you wherever you have been the love and respect of all classes of His Majesty's subjects. You have lived and are living true to the letter and spirit of the classic and ancient motto of your Royal rank as the Prince of Wales embodied in the simple words "I serve." In this you are following the living example of your Royal Highness's August Father and Mother our Sovereign and his Gracious Consort of whom it was rightly said in the House of Commons, when that House adopted an humble address of congratulations to His Majesty on the conclusion of the Armistice, that Their Majesties "have always felt and shown by their life and their conduct that they are there not to be ministered unto but to minister" rejoicing with the joys and sympathising with the sorrows of their people. To the Youth of India, the future hope of this country, your example cannot but be a worthy inspiration and model. India's re-awakened life, though it be no less chequered than that of all Nations striving for greatness, is manifest in the enthusiasm of service to the Motherland which now animates her youth. They only crave for ampler opportunities, a free and fair field for that service. Our Universities are among the higher Agencies fitting them for the pursuit of that ideal and its realisation. Our youth look upon you, Sir, as their Royal brother, brought home to their hearts by your strenuous life with its practical ends and high ideals. Nothing has touched them more than your desire to meet them and make friends of them during your tour in India. That enhances the value of the visit and in bidding you welcome we pray, Sir, that the Almighty may in His Grace make your presence among us fruitful of blessings to you and blessings to the Empire at large.

"We beg Your Royal Highness to be graciously pleased to convey to their Majesties Your August Father and Mother the devoted loyalty and affection of the University of Bombay."

One student then recited specially composed Sanskrit *Shlokas* welcoming the Prince to the University of which the following is an English translation :—

"1. O glorious Prince, attractive by your virtues, the idol of people's excessive affection, on your arrival to this beautiful Bharata from London, some indescribable unique kind of great joy arises in our heart. Will not the pond of night-lotuses rejoice at the sight of the lord of full moon night

2. On the naturally charming throne of our hearts, endowed with the beauty of the gold of loyalty and resplendent with the jewels of the arts and sciences with which we are familiar, take your seat, O Lord, with a delighted mind and affectionately accept this welcome, which we offer in pure devotion and which is couched in affectionate terms.

3. Lines of bees clinging to a lotus do not discern anything through joy. Similarly, O Prince, at the sight of the lotus of your face we are bewildered and know not how to express adequately the feelings of our hearts. Indeed, men bewildered are bereft of understanding.

4. Whatever parts of the Empire you visit, there the people attain prosperity, peace and happiness. Thus the drum of your virtues and fame is everywhere heard. Hence, say, how would your arrival here at present be fruitless ?

5. You are the stout pillar of the Empire, its support ; the full treasure of the hopes of the Emperor, your father ; the abode of our great confidence in the matter of progress. May this land of the Aryas attain fortune through you, O good Prince.

6. Be endowed with long life, ample strength and prowess. May the river of your fame and fortune flow through the Empire. May your sharp weapon prevail against the enemies alone and may your policy always conduce to the bestowal of happiness on people here."

Another student recited a Persian *Qasida* of which the following is a translation :—

" Tidings oh Ind ; by the grace and blessings of God
Prosperity attends the Star of thy Fortune ;

From the Mansion of Nobility has arisen a
resplendent (moonlike) Star—the Prince—
whose like the Sky has not seen since its existence ;

Light of the eyes and Heir-Apparent of (H. M.) George,
the Emperor of India ; Noble, Glorious and Victorious Prince ;

Remember the days when by the dread of Conquerors,
India used to tremble all round ;

Neither is there any sign, now, of Alexander, nor of Mahmood ;
the road (of foreign invasion) is blocked by the Justice
of the King of the dignity of the Sky ;

Great and small, have all joined hands, Wolf and
Lamb both drink at the same stream ;

Disorder has prepared itself for departure from Ind in such a way
that if it is sought, it escapes like quicksilver ;

Oh Lord ! as long as the Sun courses from the East to the West,
may this Glory and Majesty of the Empire endure in prosperity. "

HIS ROYAL HIGHNESS'S REPLY.

His Royal Highness was pleased to make the following gracious reply to the address presented to him on behalf of the Senate :—

" Gentlemen,

I want to thank you for the very kind things which you have said about myself ; but I more especially prize your reference to my Father and Mother ; and I am deeply gratified and touched by the thought that you appreciate their life of unselfish public service. If I can one day prove worthy of their high example, I may justly deserve all the kind expressions which you have used with reference to me. It will give me great pleasure to convey to His Majesty your loyal expressions of homage and devotion.

" I must also thank you for giving me an opportunity of getting into touch with the students of your University to-day through you ; and the remarks, which I now make, are addressed to them in particular.

" In my journeys about the Empire it has been my special desire to meet and mingle with the youth of each country. I want to understand what is passing in their minds. I want to know to what they are looking forward. I should like them also to have some insight into the ideals which I hold in reverence.

"As the years advance, experience is enlarged and greater practical responsibilities fall on our shoulders. It is important that we should know enough about one another to be able to march together in sympathy towards a common goal and that we should have a mutual understanding as to what we hold to be honourable and true.

"You are particularly fortunate in your equipment for the tasks of life. You have a University training. You have drunk at the fountain of knowledge. You have learnt the value of work. You have lived in institutions where order and discipline are part of the system and you have experienced their advantages. You have joined together with each other in games which promote a friendly rivalry and in which individual play must be combined to work for the success of the side.

"All that your University career gives you will be of particular service to each of you both as men and citizens. The qualities which you have acquired here make for success in a great city like Bombay. They will be of inestimable advantage in commercial and civic life and in the wider spheres of the political life of this Presidency. They are qualities on which the British Empire has set the seal of approval and by the exercise of which its unity and strength rests assured. It is the privilege of youth to be able to some extent to mould the future. Let us make a beginning here now and see that, as the years go on, the ardour of youth is preserved and sustained in the practice of these high qualities. Let us keep undimmed our love for learning, for hard work, for discipline and order and for friendly co-operation. Let us have our bond of brotherhood in our common enthusiasm to serve our country and our King.

"Gentlemen, I thank you again for your address. May the years to come strengthen the ties of sympathy, of trust and of understanding between us. I wish the University all success. May it prosper in its mission for the promotion of culture, good-will and concord. May it help the youth of this historic land to a realization of what India, the home of ancient civilization and learning, may accomplish for the Empire and mankind."

His Royal Highness then left his seat and conversed informally with the students assembled in the Hall and passing thence through the north side door spent a few minutes with other students seated in the *Shamiana* on the lawn and re-entered the Hall through the south side door accompanied by the Chancellor and Vice-Chancellor.

The Convocation was then dissolved and His Royal Highness left the Hall by the main entrance followed by the Chancellor, Vice-Chancellor and Fellows.

ANNUAL CONVOCATION FOR CONFERRING DEGREES, 1922.

The Annual Convocation for conferring degrees was held in the Sir Cowasji Jehangir Hall of the University on Wednesday, the 16th August 1922, at 5.45 p.m., when the following Fellows were present:

THE CHANCELLOR.

1. His Excellency the Honourable Sir George Ambrose Lloyd, G.C.I.E., D.S.O.

THE VICE-CHANCELLOR.

2. The Honourable Sir Chimanlal H. Setalvad, Kt., B.A., LL.D.

THE DIRECTOR OF PUBLIC INSTRUCTION.

3. F. B. P. Lory, Esq., M.L.C., M.A.

DEANS.

4. Dr. N. A. F. Moos, D.Sc., L.C.E., F.R.S.E.
5. The Honourable Mr. Justice A. M. Kajri, B.A., LL.B., Bar-at-Law.
6. Dr. B. E. Ghasvala, L.M. & S.

SYNDICS.

7. Sir Temulji B. Nariman, Kt., L. M., F.C.P.S.
8. The Honourable Sir Lallubhai A. Shah, Kt., M.A., LL.B.
9. Principal A. L. Covernton, M.A.
10. Mirza Ali Mohammed Khan, Esq., M.A., LL.B.
11. K. Natarajan, Esq., B.A.
12. Professor P. A. Wadia, M.A.
13. Dr. R. N. Ranina, L.M. & S., F.C.P.S.
14. Principal K. R. Kanitkar, M.A., B.Sc.
15. The Rev. Father E. Blatter, S.J., Ph.D., F.L.S.

THE REGISTRAR.

16. Khan Bahadur Fardunji M. Dastur, M.A.

BOARD OF ACCOUNTS.

17. Professor D. D. Kapadia, M.A., B.Sc.
18. Principal M. L. Tannan, B.Com., Bar.-at-Law.

ARCHBISHOP OF BOMBAY.

19. The Most Rev. Dr. A. Goodier, S.J., D.D.

MINISTER OF EDUCATION.

20. The Honourable Dr. R. P. Paranjpye, M.A., D.Sc.

JUDGE OF THE HIGH COURT.

21. The Honourable Mr. Justice A. B. Marten, M.A., LL.D., Bar.-at-Law.

MEMBERES OF LEGISLATIVE BODIES.

22. The Honourable Mr. Lalubhai Samaldas, C.I.E.
23. The Honourable Mr. V. G. Kale, M.A.

ORDINARY FELLOWS.

24. Shams-ul-Ulama Dr. Jivanji J. Modi, C.I.E., B.A., Ph.D.
25. Dr. D. A. D'Monte, M.D., F.C.P.S.
26. Principal A. M. Masani, M.A., B.Sc.
27. Principal G. C. Bhate, M.A.
28. Bhulabhai J. Desai, Esq., M.A., LL.B.
29. Dr. A. R. Normand, M.A., B.Sc., Ph.D.
30. Sir Fazulbhoy Currimbhoy Ebrahim, Kt., C.B.E.
31. Dr. T. M. Kajiji, M.A., LL.D., Bar-at-Law.
32. Professor N. D. Minocher Homji, B.A.
33. Dr. H. M. Masina, F.R.C.S., F.C.P.S.
34. Dr. A. N. Meldrum, D.Sc., A.R.C.Sc.
35. V. G. Apte, Esq., B.A.
36. Dr. Dossibai J. R. Dadabhoy, M.D., M.R.C.P.
37. Major J. N. Duggan, D.O., L.M. & S., F.C.P.S., I.M.S. (Hony.).
38. Professor P. V. Kane, M.A., LL.M.

39. Professor B. K. Thakore, B.A.
40. Professor H. R. Hamley, M.A., B.Sc.
41. D. G. Dalvi, Esq., M.A., LL.B.
42. S. P. Dastur, Esq., B.A.
43. Dr. W. Burns, D.Sc.
44. Dr. Mangaldas V. Mehta, B.A., L.M. & S., L.M., F.R.C.P.I., F.C.P.S.
45. Khah Bahadur Dr. B. H. Nanavatty, F.R.C.S.E., F.C.P.S.
46. S. Woods Hill, Esq., A.R.I.B.A.
47. Major B. Higham, M.B., B.S., I.M.S.
48. K. B. Marzban, Esq., B.A.
49. Sheikh Yakub Vazir Mohamed, M.B.E., B.A.
50. Principal B. J. Wadia, M.A., LL.B., Bar.-at-Law.
51. Professor N. C. Daruwalla, M.A.
52. Dr. P. T. Patel, M.D., M.R.C.P., D.T.M. & H.
53. Professor S. G. Sathe, M.A.

HONORARY FELLOWS.

54. The Rev. Dr. Braz DeMonte, D.D., D.C.L.
55. Jamshedji M. Antia, Esq., M.A.
56. Narayan Vishnu Gokhale, Esq., B.A., LL.B.
57. Pestonji N. Wadia, Esq.

The Vice-Chancellor and Fellows assembled in the University Library where they were joined by His Excellency the Chancellor. A procession was formed and, headed by the Assistant Registrar who carried the University Mace, it entered the Sir Cowasji Jehangir Hall at 5-45 p. m. in pairs in the following order followed by the candidates for degrees:—Honorary and Ordinary Fellows, Members of Legislative Bodies, Judge of the High Court, Minister of Education, Archbishop of Bombay, Members of the Board of Accounts, the Registrar, Syndics, Deans, the Director of Public Instruction, the Vice-Chancellor, the Chancellor. The procession advanced until it reached the steps of the platform where it halted and formed a double line, each pair of Fellows having separated to the right and left, through which the Chancellor and Vice-Chancellor advanced to their seats, followed by the University Officers and Fellows.

The Chancellor, Vice-Chancellor and Fellows having taken their seats, the Dean of the Faculty of Science, Dr. N. A. F. Moos, rose and supplicated a Grace of the Senate in the following form of words:—

“Mr. Chancellor,—On behalf of Balkrishna Pandurang Deshpande and 13 others who have been examined and found qualified for the degree of Bachelor of Agriculture I move that the Senate do pass a Grace for their admission to the said degree.”

Whereupon the Chancellor put the question, “Doth it please you that this Grace be passed?” and the Senate assenting, the Chancellor said, “This Grace is passed.”

Dr. Moos then presented some of the candidates to the Chancellor and prayed for the admission of all in the following form of words:—

“Mr. Chancellor,—I present to you some of the candidates who have been examined and found qualified for the degree of Bachelor of Agriculture to which I pray they may be admitted; and on behalf of those who have been permitted to receive their degree *in absentia* I pray that they also may be admitted thereto.”

And the Chancellor thereupon admitted the candidates in the following form of words:—

“By the authority given me as Chancellor of this University I admit you, one and all, to the degree of Bachelor of Agriculture, and I charge you that ever in your life and conversation you prove yourselves worthy of the same: I admit also the other candidates to the degree *in absentia*.”

The same forms were gone through successively in the case of the candidates for the degrees of Bachelor of Commerce, Bachelor of Engineering, Bachelor of Medicine and Bachelor of Surgery, Bachelor of Science, Bachelor of Arts, Bachelor of Hygiene, Bachelor of Laws, Master in Agriculture, Master of Science, Master of Arts and Doctor of Medicine; Dr. N. A. F. Moos, Dean in Science, supplicating for and presenting the candidates in Science, including Engineering, Mr. F. B. P. Lory, Senior Fellow in Arts, supplicating for and presenting the candidates in Arts, including Commerce, the Honourable Mr. Justice A. M. Kajiji, Dean in Law, supplicating for and presenting the candidates in Law, and Dr. B. E. Ghasvala, Dean in Medicine, supplicating for and presenting the candidates in Medicine, and the same words *mutatis mutandis* being used.

The Registrar then made a declaration of the degrees as follows :—

I hereby declare the following degrees this day conferred :—

1. Bachelor of Agriculture.
2. Bachelor of Commerce.
3. Bachelor of Engineering.
4. Bachelor of Medicine and Bachelor of Surgery.
5. Bachelor of Science.
6. Bachelor of Arts.
7. Bachelor of Hygiene.
8. Bachelor of Laws.
9. Master in Agriculture.
10. Master of Science.
11. Master of Arts.
12. Doctor of Medicine.

The following Medals were then presented by His Excellency the Chancellor :—

The Queen-Empress, Lady Reay and Bai Hirabai P. H. Cama Medals.—To Mrs. N. Sivakamu.

The Kinloch Forbes Gold Medal.—To Mr. Liladhar Arjunlal Mehta.

The James Berkley Gold Medal.—To Mr. Shrinivas Satyendra Divatia.

The Cobden Club Medal.—To Mr. Manjunath Subrao Herwatte.

The J. C. Lisboa Gold Medal.—To Mr. Bhanu Prabhashankar Shukla.

The Lord Sandhurst Gold Medal.—To Mr. Dorab Pirojshah Bilimoria.

The Dinanath S. Mankar Gold Medal.—To Mr. Dara Nusserwanji Kanga.

The K. T. Telang Gold Medal.—To Mr. Manohar Ramchandra Palande.

The Chancellor's Medal.—To Mr. Anant Sadashiv Altekar.

The Prince of Wales Gold Medal.—To Dr. Ramchandra Narayan Karode.

The following report of the proceedings of the University during the past year was then read by the Registrar :—

The Syndicate have pleasure in laying before the Senate on the occasion of the Annual Convocation a Report of the proceedings of the University since the last Annual Convocation for conferring Degrees held on the 16th August 1921.

The Report mentions the principal results of the University Examinations, the awards of University Scholarships, Prizes and Medals, and the important academical events of the past year.

EXAMINATIONS.

School Leaving Examination.—This Examination was held at Bombay, Poona, Kolhapur, Ahmedabad, Baroda, Rajkot, Dharwar, Karachi and Surat. The Examination replaces the University Matriculation and Government School Final Examinations and was held by a Board constituted for the purpose jointly by the University and Government.

Of the 6,917 candidates registered for the Examination, 3,616 qualified for Matriculation and 427 for Government Service.

The following is a statement showing for each of the Registered Schools, the number of candidates presented and the number of those who succeeded in passing the Examination for the purposes of (1) Matriculation and (2) Government Service, M. signifying Matriculation and G. Government Service :—

Examination for the Degree of M.S.—There were 2 candidates, both of whom failed to pass the Examination. In 1921, there were 2 candidates, both of whom proved unsuccessful, and in 1920 there were 6 candidates, of whom 2 passed the Examination.

UNIVERSITY AWARDS.

During the year under report the University Scholarships, Prizes and Medals were awarded as under :—

The Bhugwandass Purshotumdass Sanskrit Scholarship.—To Anant Sadashiv Altekar, of Deccan College.

The Juggonnath Sunkersett Sanskrit Scholarships.—The first to Purushottam Mangesh Lad, of Chikitsaka Samuha High School, Bombay, and the second to Madhav Vasudev Patwardhan, of Satara High School.

The Sir Cowasji Jehangir Latin Scholarship.—To Albert D'Souza, of St. Paul's High School, Belgaum.

The Kinloch Forbes Gold Medal and Prize.—To Liladhar Arjunlal Mehta, of Government Law School, Bombay.

The David Sassoon Hebrew Scholarship.—To Milcah Solomon Joseph, of Imperial High School, Bombay.

The James Berkley Gold Medal and Prize.—To Shrinivas Satyendra Divatia, of the College of Engineering, Poona.

The Ellis Prize (Persian).—To Vishindas Lilaram Chandiramani, of Navalrai Hiranand Academy, Hyderabad (Sind).

The Hebbert and LaTouche Scholarship.—To Manubhai Pranjivan Vaidya, of Padra High School.

The Ellis Scholarship.—To Abdulrazak Abdulkarim Kureshi, of D. J. Sind College.

The Chancellor's Medal (Languages).—To Anant Sadashiv Altekar, of Deccan College.

The Arnould Scholarship.—To Kanchanlal Maganlal Desai, of Government Law School, Bombay.

The Duke of Edinburgh Fellowship.—To Dattaram Wamanrao Kerkar, of Elphinstone College.

The Bai Manekbai Byramjee Jeejeebhoy Prize (Mathematics).—To Damodar Anant Paranjpe, of Chintamanrao High School, Shahapur, Belgaum.

The Rao Sir Pragmalji Scholarships.—Two scholarships of equal value to Prabhulal Kanji Dave, of Gokuldas Tejpal High School, Cutch-Mandvi, and Ketatal Chaturbhuj Mehta, of N. J. High School, Karachi.

The Sir Jasvantsingji Scholarships.—The first to Prataprai Kashiram Bhatt, of Alfred High School, Bhavnagar, and the second divided between Amidas Harivallabh Modi, of Sanatana Dharma School, Bhavnagar, and Ratilal Keshavlal Upadhyaya, of Alfred High School, Bhavnagar.

The Hughlings Prize.—To Sushila Vishnupant Jakatdar, of St. Xavier's College.

The James Taylor Prize.—To Bhalechandra Narayan Gokhale, of Elphinstone College.

The Bhau Daji Prize.—To Ganesh Ramchandra Kanade, of Wilson and Elphinstone Colleges.

The Vinayekrao Juggonnathji Sunkersett Prize.—To Sharatchandra Anant Gopujkar, of New Poona College.

The Merwanjee Framjee Panday Scholarship.—To Damodar Pandurang Chhatre, of the College of Engineering, Poona.

The Kahandas Muncharam Scholarship.—To Hiralal Motilal Patel, of the College of Engineering, Poona.

The Gibbs Prize.—To Dwarkadas Nagindas Wani, of Baroda College.

The Narayan Vasudev Scholarship (Physics and Chemistry).—To Ardeshir Jehangirji Karkaria, of Elphinstone College.

The Cobden Club Medal.—To Manjunath Subrao Herwatto, of Wilson College.

The Sir George LeGrand Jacob Scholarship.—To Dattaram Laxman Chodankar, of Savantwadi High School.

The Jairazbhoy Peerbhoy Scholarship.—To Abdurrahman Rahimbaksh Arain, of Sind Madressa, Karachi.

The Varjivandas Madhavdas Sanskrit Scholarship.—To Sharatchandra Anant Gopujkar, of New Poona College.

The Jamshedji Dorabji Naegamvala Prize.—To Narayan Balkrishna Gadre, of the College of Engineering, Poona.

The Melvill Memorial Scholarship.—To Ramanbhai Manibhai Desai, of Baroda College.

The Sir Frank Souter Scholarship (Matriculation).—To Abdurrahman Rahimbaksh Arain, of Sind Madressa, Karachi.

The Sir Frank Souter Scholarships (Intermediate Arts Examination).—To Qaimuddin Allahdinokhan Jatoti and Shahmahomed Gulmahomed Shaikh, both of D. J. Sind College.

The Charles Morehead Prize.—Divided between Ganesh Venkatrao Gollerkeri and Bhanu Prabhashankar Shukla, both of Grant Medical College.

The Balkrishna Sudamji Prize.—To Dinshaw Hormusji Dudha, of Grant Medical College.

The Majmudar Manishankar Kikani Sanskrit Scholarship.—To Janmashankar Morarji Pandya, of Wilson College.

The Bhavnagar Percival Scholarship.—To Jayantkumar Manishankar Bhatt, of Samaldas College.

The Bhau Saheb Desai Scholarships.—To Dahyabhai Motibhai Patel and Ramanlal Ambelal Desai, both of Nadiad High School.

The Queen-Empress Silver Medal.—To N. Sivakamu, of Grant Medical College.

The Kutchi Divan Bahadur Manibhai Prize.—Divided between Prabhulal Kanji Dave, of Gokuldas Tejpal High School, Cutch-Mandvi, and Ketatal Chaturbhuj Mehta, of N. J. High School, Karachi.

The James Greaves Scholarship.—To Thakoral Bapubhai Desai, of R. S. Dalal High School, Broach.

The Colonel Patrick French Scholarship.—To Chintaman Vaman Godbole, of the College of Engineering, Poona.

The Divan Bahadur Lakshman Jagannath Vaidya Scholarship.—To Dwarkanath Ramchandra Pradhan, of Nasik High School.

The Scholarship of the Medical Women for India Fund.—To N. Sivakamu, of Grant Medical College.

The Sir James Fergusson Scholarship in Medicine.—To Meherbanoo Pirojshah Bharucha, of Grant Medical College.

The Lady Reay Silver Medal.—To N. Sivakamu, of Grant Medical College.

The Lady Reay Medical Scholarship.—To Meherbanoo Pirojshah Bharucha, of Grant Medical College.

The Dixon Bahadur Manibhai Cutch Memorial Arts Scholarship.—To Ibrahim Sidik Khatri, of D. J. Sind College.

The Sujna Gokulji Zala Vedanta Prize (1922).—To Ramakant Pandharinath Kangle, of Elphinstone College.

The Mohobat Fellowship.—To Zuhoor Husain S. Bukhari, B.A., of Bahauddin and Baroda Colleges.

The Judge Spencer Prize.—To Kanchanlal Maganlal Desai, of Government Law School, Bombay.

The Vallabhdas Valji Scholarship.—To Dalichand Meghji Ashar, of M. K. Natha Bhatia High School, Bombay.

The Bai Hirabai Pestunji Hormasji Cama Gold Medal (Surgery).—To N. Sivakamu, of Grant Medical College.

The R. M. Sayani Khoja Testimonial Scholarship.—To Dostmahomed Meherali Manji, of Esplanade High School, Bombay.

The Pandit Bhagwanlal Indruji Prize (1918).—To Govind Sadashiv Ghurye, M.A., of Elphinstone College.

The Muncherji Navroji Banaaji Scholarship.—To Hormusji Muncherji Vakil, of Government Law School, Bombay.

The Mrs. Satyawati Lalubhai Samaldas Scholarship.—To Sulochana Shrikhande, of Grant Medical College.

The Sir Dinshaw Manekji Petit Medical Scholarship.—To Durga Vishnu Parulkar, of Grant Medical College.

The Wordsworth Scholarship and Prize.—To Qaimuddin Allahdinokhan Jatoi, of D. J. Sind College.

The Kashinath Trimbak Telang Gold Medal (History).—To Manohar Ramchandra Palande, of Fergusson College.

The Dosabhai Framji Cama Scholarship.—To Purushottam Mangesh Lad, of Chikitsaka Samuha High School, Bombay.

The Gangabai Bhat Scholarship.—To Sushila Visnupant Jakatdar, of St. Xavier's College.

The Bai Aimai K. R. Cama Scholarship.—To Bejanji Barjorji Chinai, of Sir J. J. Parsi Benevolent Institution, Bombay.

The Perozshaw Merwanji Jijibhai Scholarship.—To Hormusji Rustomji Dastur, of St. Xavier's College.

The Bai Dayacore Morarbhoj Vijbhukhandas Sanskrit Scholarship.—To Anant Shankar Gadre, of Wilson College.

The Framji Sorabji Bhavnagri Scholarship.—To Ardeshir Hormusji Desai, of Wilson College.

The Uttamram Memorial Scholarship.—To Girdharlal Talakchand Chavda, of Bahadurkhanji High School, Junagadh.

The Narayan Mahadev Parmanand Prize (1921).—To Jethalal Govardhandas Shah, B.A., of Gujarat College.

The Ebrahim Nurdin Scholarship.—To Shaikh Sirajuddin Vasi, of Bharda New High School, Bombay.

The Chatfield Scholarship.—Divided between Ganesh Mahadev Joshi, of New English School, Poona, and Sadashiv Keshav Deshpande, of New English School, Satara.

The Chatfield Prize.—To Indumati Chimanlal Sheth, of Government Girls' High School, Ahmedabad.

The Rao Bahadur Karamsi Damji Scholarship.—To Kamlakant Gopalji Lohana, of Tutorial High School, Bombay.

The J. C. Lisboa Gold Medal.—To Bhanu Prabhashankar Shukla, of Grant Medical College.

The Abdulla Meheralli Dharamsi Khoja Testimonial Scholarship.—To Suleman Haji Khoja, of Alfred High School, Bhuj.

The Sir Mungaldas Nathubhai Scholarships.—To Tolaram Jethanand Mirchandani, M.A., M.Sc., of D. J. Sind College (Electrical Engineering), and Vinayak Keshav Bhagvat, M.Sc., of the Indian Institute of Science, Bangalore (Alkaloids).

The Miss Yamunabai Atmaram Dalvi Scholarship.—To Iravati Karmarkar, of High School for Indian Girls, Poona.

The Byramji Nusserwanji Koyaji Scholarship and Silver Medal.—To Shera Munchershaw Cooper, of Imperial High School, Bombay.

The Rao Bahadur Parvatishankar Manishankar Dave Scholarship.—To Mahendra Balaji Dave, of Gujarat College.

The Nandashankar Parvatishankar Dave Scholarship.—To Bhaskar Janardan Pathakji, of Government Law School, Bombay.

The Rajaram Govindram Scholarship.—To Vasantilal Chhaganlal Clerk, of Union High School, Surat.

The Sir Dinshaw Manekji Petit (First Baronet) Scholarship.—To Kershasp Ardesar Tata, of Sir J. J. Parsi Benevolent Institution, Bombay.

The Sir Dinshaw Manekji Petit (First Baronet) Science Scholarship.—To Ramanbhai Manibhai Desai, of Baroda College.

The Nusserwanji Jehangirji Wadia Scholarship.—To Meherbanoo Pirojshah Bharcha, of Grant Medical College.

The Dr. Ismail Jan Mahomed Scholarship.—To Gulam Mahomed Isufji Patel, of R. S. Dalal High School, Broach.

The Lord Sandhurst Gold Medal.—To Dorab Pirojshah Billimoria, of Grant Medical College.

The Noormahomed Jairazbhoy Peerbhoy Scholarship.—To Karmally Abdulla, of Grant Medical College.

The Ibrahimbhoy Rahimtoola Khoja Testimonial Scholarship.—To Abdulla Mahomed Hassan, of St. Xavier's and Wilson Colleges.

The Sir Lawrence Jenkins Scholarship.—To Anant Sadashiv Altekar, of Deccan College.

The Gangadas Rangildas Scholarship.—To Vishnutirth Narayanacharya Adavi, of Deccan and Elphinstone Colleges.

The Dr. F. G. Selby Memorial Scholarship.—To Navnitlal Chandulal Vakil, of Elphinstone College.

The Mangaldas Harivallabhdas Commerce Scholarship A.—To Ravishankar Mohanlal Trivedi, of Telang High School, Godhra.

The Mangaldas Harivallabhdas Commerce Scholarship B.—To S. R. Subrahmanyam, of Sydenham College.

The Mangaldas Harivallabhdas Commerce Scholarship C.—To Shri Krishna Tankha, of Sydenham College.

The Sir James Begbie Scholarship in Advanced Banking.—To M. V. Gopalkrishna Menon, of Sydenham College.

The Praggi Thackersey Moolji Science Scholarship.—To Jagmohandas Narayandas Mehta, of Gujarat College.

The Praggi Thackersey Moolji Science Scholarship (in Arts).—To Shankar Rao Kantebet, of Wilson and St. Xavier's Colleges.

The Moos Medal (Chemistry).—To Dinkar Dhondo Karve, of the Indian Institute of Science, Bangalore.

The Dinanath S. Mankar Gold Medal.—To Purushottam Mangesh Lad, of Chikitsaka Samuha High School, Bombay.

The Miss Sokaribai S. Mankur Scholarship.—To Mozelle Isaacs, of St. Xavier's College.

The Sardar Bhimrao Ramrao Akbarnawis Sanskrit Scholarship.—To Vasudev Jivbhat Dikshit, of Sangli High School.

The Sardar Bhimrao Ramrao Akbarnawis Research Scholarship.—To Gopal Subrao Kulkarni, M.Ag., of Poona Agricultural College.

The Dr. Dadabhai Navroji Scholarship.—To Ella Baptista, of St. Teresa's High School, Girgaum, Bombay.

The Prince of Wales Gold Medal and the Hansraj Praggi Thackersey Prince of Wales Fellowship.—To Ramchandra Narayan Karode, of Grant Medical College.

The Sir William Wedderburn Scholarship.—To Manohar Ramchandra Palande, of Fergusson College.

The Bai Jaiji Pallonji Lalcaia Scholarship.—To Sushila Vishnupant Jakatdar, of St. Xavier's College.

The Edward Dalgado Scholarship.—To Albino do Nascimento Colaco, of Goan Union High School, Bombay.

WILSON PHILOLOGICAL LECTURES.

These lectures for this year will be delivered by Professor R. L. Turner, M.A., of the Queen's College, Benares, on "Introduction to Indian Linguistics."

REGULATIONS.

To enable candidates for the B.Com. degree to pass in more than one special subject, Regulation 75 in Arts was amended. A Bachelor of Commerce on payment of a fresh fee can now be admitted to a subsequent Examination without keeping terms in any one of the special subjects in which he has not already passed; no candidate is, however, allowed to appear thus in more than two special subjects. Bachelors of Arts of this University who have taken a pass degree are now permitted to go in for an Honours examination and also those who have qualified for Honours in one subject are permitted to appear for Honours in other subjects or groups on a subsequent occasion. The question whether attendance at College for this purpose shall be required is still under consideration.

Arabic has been recognised as a subject for the Honours examination for the B.A. degree.

Candidates at the B.A. Honours Examination in the science groups have now to pass separately in the written and practical tests in each subject of the group, as it was brought to the notice of the Senate that candidates did not pay proper attention to the theoretical portions of the subjects.

Regulations regarding the submission of a thesis at the M.A. Examination in History and Philosophy were framed and have been approved.

A general regulation providing for the grant of exemptions in cases where identical papers are set in a subject at different examinations has been passed by the Senate and sanctioned by Government.

With a view to giving an impetus to the study and cultivation of vernacular literatures of the Presidency, regulations allowing candidates at the B.A. and M.A. Examinations an option to answer in the vernacular all the questions in the papers on the vernacular languages except a question on translation from the vernacular into English have also been passed by the Senate and sanctioned by Government.

The number of labour cases to be conducted by candidates for the Final M.B., B.S. Examination has been raised from 6 to 20 to meet the requirements of the General Medical Council. The authorities of the Municipal Maternity Homes and the Cama Hospital have kindly consented to afford students the necessary facilities.

With a view to raising the minimum standard of general education of medical students to the standard required by the General Medical Council for registration, a proposal to abolish the Preliminary Scientific Examination and to make the Intermediate Examination in Science in group D (Physics, Chemistry and Biology) the only examination qualifying a student for admission to the second year of the

medical course was recently placed before the Senate and has been passed by them. The adoption of this proposal will also mitigate to some extent the difficulties of the students resulting from the restriction of admission into the Grant Medical College by allowing them the alternative of proceeding to the B.Sc. Degree.

SCHOOL OF ECONOMICS AND SOCIOLOGY.

The work in both the departments of the School is now regularly going on. Professor Geddes' term of office has been extended for a further period of two years. Mr. S. N. Pherwani will continue in the office of Assistant Professor of Sociology for one year more.

In the department of Economics the following appointments were made :—

Mr. K. T. Shah, B.A. (Bom.), B.Sc. (Econ. Lond.), has been appointed Professor of Economics for a term of three years on a monthly salary of Rs. 1,000 from November 10th, 1921; Mr. C. N. Vakil, M.A. (Bom.), M.Sc. (Econ. Lond.), F.S.S., has been appointed Assistant Professor of Economics for a term of five years on Rs. 500—50—750.

In the last term the numbers of students in the departments of Economics and Sociology were 13 and 14 and in the current term they are respectively 12 and 12. One candidate presented at the last M.A. Examination a thesis on an economic subject in lieu of four papers which was deemed of sufficient merit to entitle him to exemption from those four papers.

The School of Economics holds its classes in the South Wing of the new Buildings which is now almost completed. The School of Sociology still continues to hold its classes in the Examination Halls of the Royal Institute of Science kindly placed by Government at the disposal of the University. The Civic Exhibition planned by Professor Geddes, which is a very valuable and instructive medium for the teaching of Sociology, is also located in those Halls.

Mr. S. B. Raikar, B.A., has been appointed Secretary and Librarian to the School with effect from the 1st of April 1922.

RECOGNITION.

The Willingdon College, Sangli, has been granted permanent affiliation. It has now become a first grade College teaching up to the standard of the B.A. degree.

The Senate also recommended, in the case of the Rajaram College, Kolhapur, permanent affiliation from the current year for the Pass courses in certain subjects of the B.A. Examination and provisional affiliation for a period of three years for the Honours courses in the same subjects.

The Senate also considered favourably an application from the Sind National College, Hyderabad, for affiliation as a second grade College teaching up to the standard of the Intermediate Arts Examination. The College has been recommended for provisional affiliation for a period of two years under certain conditions. The recommendations of the Senate in respect of the Kolhapur and Hyderabad Colleges have been submitted to Government.

Certain new subjects were added to the courses of study for the B.A. degree in respect of which the New Poona, Karnatak and Surat Colleges were affiliated.

EXAMINATIONS BY COMPARTMENTS.

In June 1918, Government asked the opinion of the Syndicate as to whether the present system of examining students in all subjects at once led to deterioration in their health and whether other causes such as inadequate tuition, faulty methods of work, unhealthy surroundings, led to the same result. In July 1919, the Syndicate after careful deliberation endorsed the conclusion arrived at by all the Faculties which had been consulted in the matter, viz., that a *prima facie* case had been made out in favour of examination by compartments and they appointed a strong Committee to draw up a concrete scheme in regard to those examinations which lent themselves more readily to the experiment and to indicate how the principle was to be given effect to at those Examinations. Accordingly, a scheme was drawn up and placed before the Senate; it was approved by them and sanctioned by Government. The

scheme does not apply to the School-Leaving Examination and to the Examinations for the Master's and Doctor's degrees.

Under the scheme a candidate who fails in one or more subjects but at the same time secures in other subjects a prescribed higher percentage of marks than the minimum required for passing, is exempted from appearing at a subsequent Examination in the latter subjects. Also if a candidate fails in one subject only at an examination but secures the fixed higher percentage in all the other subjects, he is allowed to keep terms generally for the next higher examination and to appear for that examination, but he will not be declared to have passed the higher examination unless he has passed in the remaining subject of the lower examination held either in a previous or in the same examination season.

RECOMMENDATIONS OF THE CALCUTTA UNIVERSITY COMMISSION.

In March 1920, the Senate appointed a Committee of their own to advise them as to the action, if any, to be taken in regard to any of the recommendations made in the report of the Calcutta University Commission so far as they were applicable to the Bombay University. The Committee held several meetings and submitted their report to the Senate on the 5th April 1921.

The Senate considered the report and adopted certain resolutions which were sent to Government with a request to take necessary action on the lines indicated in the resolutions. The action of Government on the subject is awaited.

ENDOWMENTS.

Prince of Wales Gold Medal and H. P. Thackersey Prince of Wales Fellowship.—In commemoration of the visit of His Royal Highness the Prince of Wales, an offer of Rs. 25,000 in 6 per cent. Government paper from Mr. Hansraj Pragji Thackersey for the foundation of a gold medal and a fellowship of the value of Rs. 1,200 per annum, to be awarded in connection with the examination for the Degree of Doctor of Medicine or Master of Surgery, was accepted by the Senate.

Sir William Wedderburn Scholarship.—An offer of Rs. 12,300 in Government Paper from the Honourable Sir Dinshah Wachha on behalf of the subscribers to the Sir William Wedderburn Memorial Fund for the endowment of a University Scholarship bearing the name of the late Sir William Wedderburn, Bart., to be awarded to a graduate of this University who passes the Examination for the degree of M.A. with the highest total of marks in History, was also accepted.

Bai Jaiji Pallonji Lalkaka Scholarship.—The Senate also accepted another offer of Rs. 10,000 in 6 per cent. Government Paper from the Honourable Sir Dinshah Wachha on behalf of Mr. Bapuji Pallonji Lalkaka, of Shanghai, for the endowment of a University Scholarship in the name of Bai Jaiji Pallonji Lalkaka to be awarded to the candidate who passes the Intermediate Arts Examination with the highest number of marks from among all the female candidates and prosecutes her studies for the B.A. Honours Examination.

Edward Dalgado Scholarship.—The regulations for this Scholarship were submitted and have been approved by the Senate.

ADDRESS OF WELCOME TO HIS ROYAL HIGHNESS THE PRINCE OF WALES.

The Senate had passed in June 1920 a resolution to present on behalf of the University to His Royal Highness the Prince of Wales on his arrival in India a loyal address of welcome at a Special Convocation to be held for the purpose. Accordingly, on Tuesday, the 22nd November 1921, a Special Convocation was held for the presentation of the address to His Royal Highness to which His Royal Highness was pleased to make a gracious reply. A gathering of students of the Bombay Colleges was also held at the same time to afford His Royal Highness an opportunity of meeting them.

RAISING OF EXAMINATION FEES.

In view of the recurring heavy deficits it was found necessary to provide immediately for an additional income of Rs. 50,000 a year to cover these deficits and Rs. 25,000 to provide for the future needs of the University and increasing demands on its resources. In order to satisfy these requirements the fees for admission to most of the University Examinations had to be increased and an annual subsidy of Rs. 300 had to be levied from the affiliated Colleges. The Senate approved the scheme laid before them and Government have sanctioned it.

UNIVERSITY BUILDINGS.

Mr. J. C. Banerji, the original Contractor, having failed to carry out the contract, arrangement has been made to finish the work of the two buildings as soon as possible. The South Wing is now in use and the North Wing, which is intended for the office, will, it is hoped, be completed by the end of this year. The original estimated cost was Rs. 5,10,000, but the actual cost will be about Rs. 8,13,000. It is earnestly hoped that public spirited citizens will come forward with donations to enable the University to make up the deficit. In the meantime the Government of India have been requested to permit the University to supply the deficit from the accumulations of the recurring Grant.

JOINT EXAMINATION BOARD.

The number of candidates who presented themselves at the last School-Leaving Examination was 6,917 against 6,396 of the previous year. The following table shows the number of candidates who appeared in the different sections of the Examination :—

Examination.	Number of candidates.	Number passed.
Matriculation only	5,504	2,968
Matriculation and Government Service	968	648
Government Service Certificate only	435	322
Individual subjects	10	105
		Total 3,616.
		Total 427.

Out of 968 who appeared both for Matriculation and Government Service Certificate Examinations only 322 succeeded in passing in both at the same time.

During the year 13 additional Schools were brought on the Board's Register. All of them were recognised provisionally for periods varying from 1 to 3 years. The provisional recognition of 5 Schools which were already on the last year's list was made permanent. Extension of provisional recognition was granted to 13 Schools which appeared on the last year's list as provisionally registered.

Twelve Schools were removed from the Register, three for their failure to pay the registration fee, six for their failure to present candidates for the last two years, two on applying for disaffiliation on account of their being nationalised and one on applying for disaffiliation on account of its being temporarily closed for want of funds.

Thus there were 242 Schools on the books of the Board against 241 of last year.

At the suggestion of the Examiner in Book-Keeping and Commercial Correspondence which was accepted by the Board, the Senate resolved that candidates who selected that optional group be required to pass separately in each of the subjects of Book-Keeping and Commercial Correspondence.

The Senate has also accepted the recommendation of the Board to raise the fee for the School-Leaving Examination from Rs. 12 to Rs. 15.

As the Board, in view of the large number of candidates who last year appeared at the Examination at Kolhapur, were satisfied of the necessity of a Centre for the School-Leaving Examination there and as in their opinion the arrangements made by the Kolhapur Durbar for the last year's Examination were eminently satisfactory, they resolved to continue holding the Examination there, so long as the arrangements continue to meet all the requirements of an efficient conduct of the Examination.

The proposal to change the date of the School-Leaving Examination from the third week in March to the third week in April did not find favour with the Senate.

The Board have considered the question of the desirability of continuing the existing arrangements for holding the School-Leaving Examination which under the original constitution was to hold good for five years only and have referred it to the Syndicate with a recommendation to continue it for five years more.

The important question as to whether the medium of examination should be English or the Vernacular is pending before the Senate.

It is the painful duty of the Board to record here their sense of loss at the untimely death of Mr. Jalbhai D. Bharda. He was one of the most zealous and energetic members of the body and his advice on most matters which came before the Board was always well considered and carried great weight. To fill the vacancy thus caused the University and Government representatives of the Board co-opted Mr. K. B. Marzban, Mr. Bharda's colleague as Principal of the New High School.

INSPECTION OF COLLEGES.

A Committee was appointed by the Syndicate to hold the triennial inspection of Colleges. The Committee finished their work in March last and will shortly submit their report.

MISCELLANEOUS.

Shams-ul-Ulama Dr. J. J. Modi and Professor Muhammad Abbas were appointed delegates to represent this University at the 2nd Oriental Conference held in Calcutta in January last.

Dr. R. N. Ranina has been elected a University representative on the Advisory Committee of the Grant Medical College.

The University Buildings with their contents have been insured.

The Trustees of the Prince of Wales Museum have kindly reserved a room in the Museum Building as a class room for advanced students of the University who want to study inscriptions, etc.

Mr. S. N. Pherwani having resigned the post of Librarian, the Syndicate appointed as his successor Mr. R. V. Sabnis, who had already served in the Library for 13 years.

THE VICE-CHANCELLOR'S SPEECH.

The Honourable the Vice-Chancellor, in addressing the Convocation, said:—
Mr. Chancellor, Members of the Senate, Ladies and Gentlemen,

When I addressed the Convocation in 1918, I dwelt upon the part the Indian Universities had played for over fifty years in spreading knowledge and culture, in building up character, in supplying the country with a class of able and honest public servants, and above all in engendering public spirit, and in kindling the fire of patriotism. I claimed that we in Bombay had good reason to be proud of the achievements of this University in all directions. The War, while it lasted, did not affect our Universities in the manner the great Universities of Europe were affected. Those Universities were denuded of almost all their young Under-graduates, who were called to the trenches. Their activities were almost wholly suspended and the great University of Louvain was devastated and destroyed. Our seats of learning in India, owing to the protection given by the mighty armies and navy of the British Empire, escaped that fate and were able to pursue unmolested their normal activities. The War has ended and peace treaties have been signed, but Europe is still peaceless. Signor Nitti, Ex-Prime Minister of Italy, in his forceful book styled "Peaceless Europe", gives a serious warning about the decadence that Europe is threatened with, more owing to

the Peace Treaties than as a result of the War. Having witnessed the catastrophe of War, the World is now witnessing the greater catastrophe of Peace. Trade stagnation, high cost of living, unemployment, debased currencies, fluctuating exchange, impoverished exchequers, high taxation, and international hatred and distrust, are producing human misery and suffering rivalling the horrors of the War. The pressing problems of poverty, unemployment, and reparation have crushed out that life of ease, leisure, and culture, without which no advance in science and other branches of knowledge is possible. Further, the entire mental outlook of the people all over the world has changed; there is general unrest and discontent with the existing order of things, political as well as social; there is impatience of all restraint and authority and an undefined yearning for greater freedom and transfer of more power into the hands of the people. The tide of democracy is flowing in. India has been moved by this world impulse and she demands responsible Self-Government and recognition of her status as an equal Member in the British Commonwealth. The British Parliament have taken a substantial step towards full responsible Government in India by enacting the Government of India Act, 1919, under which Councils elected on a wide franchise have been brought into existence in the Provinces, and the administration of various departments has been transferred to the care of Ministers responsible to the Legislative Councils; and largely elective Central legislatures with effective powers of control over financial and other matters have also been created.

I desire to invite attention to the larger obligations and needs in the matter of education which are the necessary implications of these constitutional changes. The greatest need in popular or democratic Government is "Order and Progress" and this can only be secured by Education. Extension of suffrage must be accompanied by extension of training for the intelligent use of the suffrage. The State can protect itself only by securing that voters acquire sufficient knowledge to understand their responsibilities and the methods of discharging them. Voters of all classes must be trained to exercise intelligent and independent judgment in casting the ballot. Unless this is done, Aristotle's Sequence—Democracy, Mobocracy, Despotism—is sure to come true. Popular and representative Government cannot exist and thrive without universal education and the first canon of State policy, must, therefore, be the education of the masses. Universal education must not, however, be confined to the children. Bringing all the children in the country into the Schools for a prescribed period will bear fruit when these children grow up and get the vote. But the present voters are the parents of those children. And universal education not only of the children but of the adults must be undertaken. "Educate your masters" said Robert Lowe at the time of the Reforms Act in 1868 in England. That is what is necessary to be done in India to-day.

But let us not be under the delusion that universal education alone will make democracy really safe. In speaking of universal education, we ordinarily mean the ability to read and write. We assume that the literate possess a higher intelligence and knowledge than the illiterate. This is not always true. There are many men who have not learnt how to read and write but still possess natural shrewdness and intelligence which enable them to exercise sound judgment. The men who merely read and write but are unable to think for themselves, are sometimes more likely to be swayed by half truths and lies disseminated by the party press and to be led into hasty and ill-considered action. It is thinking that is of greater importance than reading and reading is necessary only as a means for proper thinking. The people, therefore, in addition to reading and writing, must be taught to reflect and judge. Higher education is, therefore, essential. There is special need of capable and honest leaders, and, it is here that the Universities can render inestimable service to representative Government by producing men, who, having acquired the habit of clear thinking and being inspired by wide outlook and liberal ideas, can rise above passion and prejudice and can lead the masses to the right path. The nation needs citizens with proper equipment and ideals and the University can and ought to supply them. This is a function which goes to the root of the welfare of the State and the State must help the Universities freely and liberally. The view that proper provision for higher and University education is not an obligation of the State, whose main concern should be elementary education, is, I venture to say, not quite sound. That doctrine has not rigidly guided educational policy even in England. In 1913-14, the total grants to the Universities and Colleges of the United Kingdom were close upon half a million pounds. In 1919-20, they rose to three-fourths of a million, with £3,00,000 for non-recurring grants, altogether well over a million. In 1921, I believe, a further half a million was added. And Oxford and

Cambridge, who for centuries had relied wholly on their own resources, are also to receive State aid.

In order to fit young men to be proper citizens, the University must give them training that would bring them into harmony with their environment. The great danger to man and civilization does not come from Nature but from man's own passions. What is happening in Russia and Ireland demonstrates how human knowledge and power over Nature can be made barren by political or economic conflicts. The study of history, civics, politics and social economics, must be largely encouraged in the University in order to supply training for social life, cultural life, political life and economic life. The study and practice of science so essential for economic life must be put on a sound basis not only in the University but in the lower stages, so that our growing population might win from our boundless natural resources a fuller and more varied sustenance and enrich the country and rescue it from its present poverty. The benefits of University education should not be confined to the students within the portals of the University, but must be made available to larger numbers outside as well. It is not correct to suppose that because a person has not been to a secondary school he is not capable of imbibing higher knowledge. By means of University Extension and Extra-mural work, a large portion of the population can and should be brought under the influence of higher education. This alone will enable the University to lay sound foundations for responsible Government in the country by fulfilling its mission, according to Cardinal Newman, of "raising the intellectual tone of Society", of "cultivating the public mind" and of "purifying the national taste."

But it is said that it is hardly possible for the University to carry out the programme above indicated, so long as the work of University education has, under the present system, to be carried on through the medium of a foreign language. It is maintained that, the only way in which education can be extended and made effective is by having both instruction and examinations conducted through the medium of the vernacular languages and that English should be taught merely as an additional language. Mahadeo Govind Ranade took the lead in this matter years ago and we now have both in the University and amongst educationists outside, a strong and growing party of vernacularists dissatisfied with the place of the vernacular languages in Indian education and bent upon forcing the pace of reform in this matter. Mr. Chancellor, I am a vernacularist myself. But to accept a broad general principle is not necessarily to support every detailed proposal in which it might be sought by enthusiasts to give effect to it. Except in a few favoured places like Poona, our city populations in this Presidency are ethnically and linguistically more mixed than in C. P. or Bengal, in U. P. or the Punjab. We are a province with an extensive sea-board, with a length out of all proportion to its breadth. To make the vernaculars the medium of instruction and examination in all Colleges, at Karachi or Dharwar, at Bombay or Ahmedabad, at Surat or Junagadh, would have consequences, which, I submit, in all earnestness, we would do well to ponder over. In a cosmopolitan city like Bombay, every Arts College in every one of its classes would have to provide for instruction before long in every subject, through the medium of English and also through the medium of every vernacular of the Presidency, Gujarati, Urdu, Marathi, Kanarese, Sindhi and Portuguese. Every Bombay College would thus break up in effect into seven institutions under a single roof. Every Arts College in Bombay would be like a powerful electrical fan with seven blades vigorously rotating on the same plane, chasing one another in seven circles within the same circumscribed area of academic endeavour. And while the prospect might not be so breathless in other cities, none of those I have named could do without four or at least three sides in each class and for every subject. Our annual and terminal examinations would moreover break up for almost every subject into seven distinct examinations. Would such a change be anything short of a revolution? We need, it is universally admitted, to intensify such academic atmosphere as we have succeeded in building up and we want steady progress all along the line at an accelerated pace. Would such a change help us to achieve those ends or would it not, on the other hand, altogether imperil them? Would a B. A. in Sanskrit Honours won through instruction and examination in Marathi at Poona have the same value as a B. A. in Sanskrit Honours won through the medium of Sindhi at Karachi? Would Persian Honours through the medium of Gujarati or Urdu have the same value as Persian Honours won through the medium of Kanarese or Marathi?

Further, look at the matter from the point of view of the staff and its cost, the organisation and administration of our system of collegiate education. We would have to duplicate and triplicate the staff almost everywhere and in Bombay itself we would need an almost seven-fold increase. Have we such large numbers available possessing the high qualifications of our staff at present? Can we afford the extra expenditure and would the results be a fair return for it? It is obvious that if we can afford to spend more on higher education we would obtain far more valuable returns by utilizing the funds in other ways. Again, consider how the proposed change would affect the position of the professors in institutions maintained by Government! It would hamper at every step the transfers and promotions of professors and teachers from one institution to another. It is perhaps natural that, those who are wedded for the working years of their lives to a single institution might overlook the reactions of the change they desire on matters of departmental administration and organisation, but such matters have nevertheless an importance of their own which responsible educationists must weigh and consider.

Then there are higher considerations still, which no responsible educationist can overlook except at the risk of squandering away the slow and laborious achievements of decades and pushing the higher education of the country down the easy slopes of reaction and decay. At the moment when the Imperial Civil Service and other competitive examinations for our premier services have begun to be held in this country as well as in England, it behoves our Universities to steadily persevere in acclimatizing the highest culture in our midst, so that our alumni winning the highest places in these competitions here, might meet their English colleagues selected in England out of the pick of the English Universities, on absolutely equal terms. No equality established by law from above is worth anything unless there is as a matter of fact a substantial equality of intellectual training and attainments from year to year between the recruits obtained simultaneously from the two countries out of the best products of two different systems of education. The Indianisation of the higher services in our country could proceed apace with increased efficiency and economy only in proportion as the Indian recruits, naturally superior to their English colleagues in knowledge of the country and the people, prove themselves at least their equals in character, culture and faculty also. The law can only throw the doors open and keep them open for a space until the results of the new adventure are visible to all. It is for the Indian Universities and their alumni to seize the new opportunities thus offered to them with a will, and prove by resolute and rapid advances that the Indian statesmen who fought strenuously for and won this privilege of equality were fully justified in their faith in the moral and intellectual capacity of the rising generations of their country.

Are our Universities then already on a level with English Universities in the higher branches of study. And if we have to admit in all humility that they are not, that culture here neither attains to the heights familiar to it in English centres of learning, nor is it yet so well planted in our soil as to take firm root and develop a vigorous growth by its own unaided effort,—the question is pertinent, what would be the effect of a rapid vernacularisation of the Universities on their life and vigour and growth? If determined vernacularists will look at the question from this higher point of view, perhaps they will begin to understand why an increasing number of responsible educationists are becoming more and more resolved that they will defend the real interests of higher culture in this country as strenuously as they are being assailed.

Furthermore, our solution of this problem is also bound to react on an interest higher still than that of the highest culture, and that interest is the Unity of India. The Unity of India has been a plant of extremely slow growth. Cashmere, Punjab and Sindh became integral parts of India only under the Mogul Empire. Bengal and Delhi became firmly welded together in one political organisation only under the same regime. The Grand Mogul monarchs from Akbar to Aurangzeb further advanced to weld the North and the South of India together into one political whole, but the task proved altogether beyond their capacity. The Marathas from their western fastnesses then tried to bring all India together under the *Bhaqwa Jhenda*; they put forth surprising vitality; they produced a series of great leaders, giants in daring and marvels in adaptability to their surroundings; but neither their clouds of light-armed horsemen, nor their tentacles of policy, thin as gauze but strong as wires of steel, availed against Ali Verdi Khan in the East, or Haider Ali in the South, or the

trans-montane Moslem invader from the North. By that time, however, the naval supremacy and imperial policy of England had isolated India, and it is this Power with a sympathetic tolerance for the various races, religions, languages and levels of Indian humanity, greater than that shown by Indians amongst themselves, and armed, moreover, with the science and resources of the nineteenth century, which has really achieved or rather laid the first solid foundation for that Unity of India, which till our own day has been a concept or a vision of dreamland, rather than a concrete possession in the world of reality. This Unity of India is not even yet a permanent acquisition of our inner political consciousness. The educated few have grasped it, but it has still to spread among the masses, and like Liberty, like Swarajya, like economic and cultural self-sufficiency, it can be securely won by us only by continuous vigilance and well directed education for decades to come. I may in concluding this argument quote the weighty sentences in which a member of the Senate has recently set forth his own conclusion: "Indian patriotism has to transcend local nationalisms, or else it cannot build up or sustain a United India. Uniform education, through the medium of the English language in its higher stages, is more important than a nationalist education, at least during the period of transition. It is to be hoped that Indian nationalisms will prove themselves sane enough to realise the inestimable value of the moral bond that a uniform modern education all over India can furnish, making for unity and harmonious growth."

How then, it will be asked, are we to raise vernacular literature and the popular education of the masses through the vernaculars to higher and higher levels of culture? It has been often noted, and the statement will bear repetition, that faculties of expression trained through whatever medium are available for the many-sided cultivation of the mother-tongue, if the writer or speaker or poet begins using his own tongue for expressing himself before his mental powers become set in fixed grooves. The marvellous advance of Bengali language and literature at the hands of men of genius like Bankim Chandra Chatterji and Rabindra Nath Tagore is a noteworthy fact in the history of world literature. If our own Presidency has not yet achieved a similar New Birth in any of its vernaculars, the progress here has still been great in mere volume and is remarkable in its steady advance from high to higher qualities. My acquaintance with Marathi literature and its recent history are slight, but still I too have heard of the essays of Chiplonker, Agarkar and Patwardhan, the novels of Apte and Joshi and the plays of Khadilkar, Gadkari and Kolhatker. And coming to my own Gujarati language and literature, the progress has been continuous and varied from the works of Narmadashanker and Dalpatram and Navalram, Manasukhram, Mahipatram, Mohanlal Jhaveri and Karsondas, through Ambalal Sakarlal, Manilal Nabhubhai, Dolatram Kriparam, Harilal Dhruva, Ichharam Desai and Goverdhanram Tripathi, to writers still happily active although many of them no longer in their prime, such as Narsinhrao Divatia, Keshav Dhruva, Manishanker Bhatt, Anandshanker Dhruva, Ramanbhai, Krishnalal Jhaveri, Nanalal Kavi and Kanaivalal Munshi. Here are twenty names of authors known for cultured work of intellectual eminence wherever the Gujarati language is spoken and read, and any one familiar with modern Gujarati literature could easily add another twenty names of perhaps nearly equal eminence and popularity to the list. Our vernacular languages and literatures, then, are so far from being neglected and starved by our present system of University education, that in poetry and in philosophy, in history and in travel, in the novel and the play, and in many other forms, they are producing more work of higher quality and certainly of greater variety and appeal also than perhaps at any former period of their long history. The present condition of our vernacular languages and literatures is not only no stigma on our present system of University education, but on the contrary is the best testimony to its life and vigour, no less conclusive because indirect.

I hope I will not be misunderstood. I have already said I am a vernacularist myself. I too want vernacular Universities and higher education through the medium of the vernaculars as much as anybody else. My whole difference with other vernacularists is in this and in this only that while they hold the Bombay University to be the proper field of experiment, while they want the Bombay University itself gradually transformed into a vernacular University, that is a view which I cannot possibly endorse. I want the Bombay University to continue as it has

been from the date of its foundation, a Modern University, teaching the highest world culture through the medium of the English language, and if possible also co-operating with Western Universities of the highest eminence in the fields of research. I want the University of Bombay to be our one window towards the West through which world culture might continue to pour in and humanise and elevate us, and I want exactly similar Universities at Madras and Calcutta and Rangoon and Colombo also to unify the Indian intellect in the highest realms of human thought and research. But I also want at the same time, a Marathi University at Poona, a Gujarati University at Ahmedabad, a Kanarese University at Dharwar and so on. When these vernacular Universities advance from perhaps small beginnings and experimental courses to higher culture in the fullest sense, their work will converge more and more in one field of knowledge after another to that of the University of Bombay. And then will dawn the day, decades hence, when we shall have really to face the question of altering the medium of education and examinations inside the University of Bombay itself.

And now, my young friends at the threshold of life, who have just won your spurs in such contests as were open to you, let me congratulate you from the bottom of my heart for your success. I know the ambitions your University education has stirred in your hearts are for the uplift of your land and your people rather than for personal wealth and distinction. Those of you who develop the character and the capacity, the enterprise and indomitable will, have before you opportunities much greater than what were open to your fathers and grandfathers. In this city and even within the four corners of this very hall there is before you ample evidence for my message of hope. You will find captains of industry and merchant princes with enormous annual incomes and who have made Bombay what it is. The country has been advancing in its trade and industry and economic organisation, and their fortunes have participated in the advance. The generation now starting on its career is destined to carry this advance forward at a quicker pace than ever before, and those of you who succeed, will participate in this advance too, until some of you will be in the fullness of time, at the head of businesses or industries or other economic organisations with a reputation and an influence of an imperial, or, it may even be, a worldwide character. Or perhaps there are some amongst you, my young friends, whose ambitions are in the direction of power and position to be utilized for the good of your countrymen. To such of you I say, with equal confidence, that you have immense opportunities for the gratification of your ambitions in the liberal professions and in the fields of politics and administration under the new constitution. Free your minds, I say, of passing gusts of emotion and judge for yourselves. And I assure you, without the slightest hesitation, that the best amongst you are destined to duties and positions as framers of the policy of India as a whole at critical junctures and on matters of vital moment, and even as pillars of the Empire. This is not only my hope, it is also my conviction and my faith. May it also be yours !

On the conclusion of the Vice-Chancellor's address His Excellency the Chancellor declared the Convocation dissolved and the assembly rose and remained standing during the retirement of the procession of the Chancellor, Vice-Chancellor and Fellows which observed the order of the entering procession reversed.

XIII.

A. CONSPECTUS OF SCHOLARSHIPS, PRIZES, MEDALS AND FELLOWSHIPS.

2. English Prose Selections:—
 - (1) Adventures of a Shilling. ("Essays of Joseph Addison." The Tatler.)
'I was last night visited by a friend of mine... the hat among a penny-worth of farthings.'
 - (2) The Dignity of Work (Labour) ("Past and Present", by Carlyle.)
'There is a perennial nobleness.....the immeasured solitudes of Time.'
 - (3) Description of a Quack Doctor. (An Essay, by Daniel Defoe.)
'M. Mist, Passing occasionally the other day.....Mr. Mist, your humble servant, Philygeia.'
 - (4) The True Gentleman. ("Self-Help," by Smiles, Chapter XIII.)
'The crown and glory of life is character.....of itself cannot fail to prove permanently beneficial.'
 - (5) The Broken Heart. ("Sketch Book," by W. Irving.)
'I never heard of any true affection but 'twas.....from her own loved island of sorrow!'
 - (6) The Education of Girls. (Ruskin's "Sesame and Lilies," II-Sections 70-72.)
'Do not think you can make a girl lovely.....for all who are desolate and oppressed.'
 - (7) The Death of Nelson. ("The Life of Nelson," by Robert Southey.)
'Villeneuve was a skilful seaman.....He expired at 30 minutes after four,—three hours and a quarter after he had received his wound.'

- (8) What is War? (John Bright's Speech delivered [at a Conference of the Peace Society in Edinburgh.)
 'What is War? I believe that half the people that.....neither shall they learn war any more.'
- (9) The Defence of Arcot. (Essay on Clive, by Macaulay.)
 • 'Clive was now 25 years old. After hesitating.....
 They had retired, leaving to the English several guns and a large quantity of ammunition.'
- (10) The Last Days of George III. ("The Four Georges," by Thackeray.)
 'Of all the figures in that large family group.... his pageant, his pride, his grief, his awful tragedy.'
- (11) The Game of Life. ("A Liberal Education And Where to Find It" in "Lay Sermons, Addresses and Reviews", 1870, by Huxley.)
 'Suppose it were perfectly certain that the life and fortuneI should accept it as an image of human life.'
- (12) The Parable of the Sower. (The New Testament, St. Matthew, Chap. XIII.)
 • 'The same day wentwhich also beareth fruit, and bringeth forth, some an hundredfold, some sixty, some thirty.'
- (13) All Things Change. ("The English Mail-Coach—The Glory of Motion," Thomas De Quincey.)
 'Ah reader! when I look back upon those days.....where is sculptured the eternal writing which proclaims the frailty of earth and her children.'
- (14) Characteristics of Nature. The Open Sky. (Ruskin's "Modern Painters".)
 'The open sky. It is a strange thing how little in general people..... is chiefly taught and the blessing of beauty given.'

Poetry—

William Morris	... "Atalanta's Race."
Byron	... "The Prisoner of Chillon."
Shakespeare	... "King John", Act III, Scene IV. ("So, by a roaring tempest.....My widowed comfort and my sorrow's cure".)

1. Karnatak Kavicharite, Vols. I and II, by S. G. Narasimhacharya and R. Narasimhacharya.
2. The History of Kanarese Literature by E. P. Rice ("Heritage of India Series").
3. Introduction to Caldwell's Comparative Grammar of Dravidian Languages.
4. Chhandamalike by Shrinivas Raghavacharya.
5. Karnatak Vyākaranopanyās Manjari by R. Raghunathrao.

1924.

1. Pampa Ramayana Ashwasas 2 and 3 edited by Karnatak Sahitya Parishat, Bangalore.
2. Kabbigara Kavani, whole (Kalanidhi Series).
3. Uttara Ramcharitra Natakam by Asthana Kavi Basappa Shastry.
4. Kumudini or Balakke Badidata by Venkatesh Tirko Kulkarni, Galaganath.

1925.

1. Neminath Purana by Nemichandra, Ashwasas 1 to 4.
2. Nitimanjari, Part II (whole), by R. Narasimhacharya..
3. Panchatantra Sara by M. P. Pujar, Dharwar.
4. Satwa Sara or Shourya Sanjivana by Venkatesh Tirko Kulkarni.

FOR THE M.A. EXAMINATION.

N. B.—Candidates are expected to read the standard works on the grammar, poetics and philology of Kanarese and the history of Kanarese literature, especially, *Apratimavira Charita* by Tirumalaya, *Shringar Ratnakar*, *Kavisamaya* by Rāmānujāyṅgar, *Shabdamanidarpana*, *Karnatak Kavicharita*, and Caldwell's *Comparative Grammar of Dravidian Languages* (2nd and revised edition.)

1924.

1. *Chandra Prabha Purana* by Aggala Ashwasas 9 to 11 (Kavya Kalanidhi Series, Mysore).
2. *Kadambari* by Nagavarma Stanzas 503 to 752.
3. *Kavya Sara* by Abhinava Vadi Vidyananda, Padyas 1 to 261 (Kavya Kalanidhi Series, Mysore).
4. *Torva Ramayan Yuddhakanda*, Sandhis 1 to 6.
5. *Panchatantra* by Durga Sinha, Prathama Tantra (Kavya Kalanidhi Series, Mysore.)
6. *Life of Booker Washington* by M. Venkat Krishnayya.
7. *Visha Vriksha* by B. Venkatacharya.

1925.

1. *Gadayuddha* by Rama (Kavya Kalanidhi Series, Mysore).
2. *Jayanripa Kavya* by Mangarasa, Sandhis 6 to 10 (Kavya Kalanidhi Series, Mysore).
3. *Abhinava Dashakumara Charite* by Choundarasa Ashwasas 1 to 4 (Kavya Kalanidhi Series, Mysore).
4. *Karnatak Mahābhārata* by Kumar Vyās, Adiparva, Sandhis 21 to 25 (Government Central Book Depot, Bangalore).
5. *Mitra Vinda Govinda*, by Singarīya (Bharati Vilas Book Depot, Mysore).
6. *Chikadevaraya Vanshavalī* (Kavya Kalanidhi Series, Mysore.)
7. *Ashoka or Priyadarshi* by M. P. Pujar (Karnatak V. V. Sangha, Dharwar).

1926.

1. *Mallinath Purana* by Nagachandra Ashwāsās 5 to 7 (Kavya Kalanidhi Series, Mysore).
2. *Girija Kalyān* by Hariharadeva Ashwāsās 1 to 3 (Kavya Kalanidhi Series, Mysore).
3. *Kabbigara Kavam* by Andayya (Kavya Kalanidhi Series, Mysore).
4. *Aparajiteshwar Shataka*, whole (Kavya Kalanidhi Series, Mysore).
5. *Chawundaraya Purana* (Published by Karnatak Sahitya Parishat, Bangalore).
6. *Indrakila Vijaya Natakam* by M. Sitaram Shastri (Bharati Vilas Book Depot, Mysore).
7. *Ananda Matha* by B. Venkatācharya (Bharati Vilas Book Depot, Mysore).

XVIII.—Sindhi.

FOR THE SCHOOL-LEAVING EXAMINATION.

1924.

Prose—

Prof. H. M. Gurbaxani ... Nurjahan (Whole Book).

Poetry—

Gul Mahomed Halai ... Diwan Gul (1,000 lines or first 85 odes).

FOR THE B.A. PASS EXAMINATION.

Books recommended for general reading.

1926 to 1930.

1. Grierson.—Linguistic Survey of India, Vol. VIII, Part II.
2. Jhamatmal's Grammar.
3. Mian Mahmud's Grammar.
4. Trumpp's Grammar.
5. Mirza Kalich Beg's Ilm Nahv.

Books prescribed.

1926.

Prose—

1. Udham and Navalrai—Russell's, pages 311.
2. Kewalram.—Gul, pages 93.
3. Mirza Kalich Beg.—Tahzib Ikhlāq.
4. Kauramal.—Ratnavali.
5. Lilaramsing.—Harishchandra.

Poetry—

1. Gul.—Diwan (complete), pages 131.
2. Shah Abdul Latif.—Muntakhib by Kazi Haji Ahmed.
3. Sabit Alishah.—Part I (Marsiās).
4. Lalū.—Kamsen Kamrup.
5. Ghulam Murtaza.—Usf Zulaikha

1927.

Prose—

1. Lutfullah.—Gulbandan, pages 166.
2. Kewalram.—Gul Shakar, pages 231.
3. Mirza Kalich Beg.—Kinnia-us-Saadat.
4. Kauramal.—Pako Pah.
5. Lilaramsing.—Drupadi.

Poetry—As in 1926.

1928.

*Prose—As in 1927.**Poetry—*

1. Fazi.—Diwan (complete).
2. Sami Ja Salok.—Part I.
3. Shah Karim.—Risalo
4. Abdul Samad.—Bayan-ul-Arafin.
5. Bahar and Akhund.—Saiful-Maluk.

1929.

Prose—

1. Kewalram.—Gulbandan.
2. Mahomed Bux.—Gulzar Chumbeli.
3. Mirza Kalich Beg.—Shah Alia.
4. Munshi Jethanand.—Nal Danyanti.
5. Gurbuxani.—Nur Jahan.

Poetry—As in 1928.

1930.

Prose—As in 1929.

Poetry—

1. Sami Ja Salek.—Part II.
2. Shah Abdul Latif.—Surs:
 - (1) Suhni Mehar,
 - (2) Umar Marui,
 - (3) Sasui,
 - (4) Kohyari,
 - (5) Dasi,
 - (6) Maazuri.
3. Sangi.—Diwan, Part I.
4. Mirza Kalich Beg.—Ajib Jawahar.
5. Hyder Shah.—Hira Ranjhu.

XIX.—History and Economics.

FOR THE INTERMEDIATE EXAMINATION
IN ARTS.
1924.

1. Period of Indian History:—
1757 to 1857, including the Indian Mutiny (to be read from any standard text-book).
2. Indian Administration (to be read from an ordinary text-book written for the subject).

N.B.—The Imperial Gazetteer, Vol. III, Chapter X, and Vol. IV, pp. 1—56, 126—241, 278—325 and 384—480, is recommended to students for general reference.

1925, 1926.

1. *Indian History (1757 to 1920)* :—

To be studied so far as it bears on the growth of the Indian Administration from any standard text-book.

2. *Indian Administration* :—

To be read from an ordinary text-book written for the subject.

N.B.—The Imperial Gazetteer, Vol. III, Chapter X, and Vol. IV, pages 1 to 56, 126 to 241, 278 to 325 and 384 to 480, and the Government of India Act, 1919 (Consolidated), are recommended to students for general reference.

FOR THE B.A. EXAMINATION.

The books named below are recommended, not as compulsory subjects of examination, but for the purpose of indicating the scope of reading required.

No question will be asked on events and topics dating less than six months previous to the end of the last term preceding the date of examination.

PASS COURSE.

1924, 1925.

History of England (1756-1880) .—

To be read from any standard text-book.
Seeley.—Expansion of England.

Constitutional History :—

Marriott.—English Political Institutions.

Masterman.—History of the British Constitution.

Political Economy :—

Gide's Principles of Political Economy ; or Nicholson's Elements of Political Economy.

Marshall.—Economics of Industry.

History of Rome and Greece :—

E. S. Shuckburgh.—A History of Rome to the Battle of Actium.

T. M. Taylor.—Constitutional and Political History of Rome.

Outlines of the History of Greece, as in Oman.

Greenidge.—Handbook of Greek Constitutional History.

Indian History :—

The period 1192—1707 (to be read from *any* standard text-book).

N.B.—This course has been selected so as to cover the whole period of Mahomedan Rule in India and it is expected that all phases of that Rule in Northern and Southern India will be studied.

European History :—

The period from 1453 to 1871 A. D.—

Outlines of European History, Part I, by Robinson and Breasted ; Part II, by Robinson and Beard.

Renaissance and Reformation (1453—1660), by Mary A. Hollings.

The Age of the Enlightened Despot (1660-1789), by A. H. Johnson.

The Remaking of Modern Europe (1789-1878), by J. A. R. Marriott.

(All from Six Ages of European History published by Methuen).

1926.

History of England (1456 to 1919) :—

To be read from *any* standard text-book.

Constitutional History :—

Marriott.—English Political Institutions.

Masterman.—History of the British Constitution.

Political Economy :—

Gide's Principles of Political Economy ; or Nicholson's Elements of Political Economy.

Marshall.—Economics of Industry.

History of Rome and Greece :—

E. S. Shuckburgh.—A History of Rome to the Battle of Actium.

T. M. Taylor.—Constitutional and Political History of Rome.

Oman.—Outlines of the History of Greece.

Greenidge.—Handbook of Greek Constitutional History.

Indian History (1526 to 1761) :—

To be read from *any* standard text-book.

European History (1715 to 1900) :—

Balance of Power, 1715 to 1789, by A. Hassall.

Revolutionary Europe, 1789 to 1815, by H. Morse Stephens.

Modern Europe, 1815 to 1899, by W. Alison Phillips.

ADDITIONAL FOR HONOURS.

1924, 1925, 1926.

Politics :—

Leacock.—Elements of Political Science ; or Gettell.—Introduction to Political Science.

A. L. Lowell.—Government and Parties in Continental Europe.

Indian Economics :—

No text-books are recommended.

Note.—Materials for the subject of Indian Economics may be found available in the following books :—

1. Imperial Gazetteer, Volumes III and IV.
2. B. H. Baden-Powell.—Land Revenue in British India.
3. Theodore Morison.—Economic Transition in India.
4. G. Keatinge.—Rural Economy in the Bombay Deccan.
5. Wolff.—People's Banks.
6. Land Revenue Policy of the Indian Government.
7. The last Decennial Report of the Moral and Material Progress of India.
8. Alston's Indian Taxation.
9. Keynes' Indian Finance and Currency.
10. The Report of the Currency Commission.
11. Ewbank's Manual of Co-operative Societies.

FOR THE M.A. EXAMINATION.

1924, 1925, 1926.

English Constitutional History.—The following books are suggested :—

Taswell-Langmead.—English Constitutional History.

Medley.—English Constitutional History.

Erskine May.—Constitutional History of England (with the Supplementary Volume).

The study of original documents is strongly recommended—for which Prothero's "Statutes and Constitutional Documents, 1559—1625," Gardiner's "Constitutional Documents of the Puritan Revolution" and Stubbs' "Select Charters" will be found useful.

Indian History.—

One of the following periods to be chosen by the candidate :—

(i) *Ancient India.*—The Maurya Empire, 321–184 B.C.

The following books are recommended :—

V. A. Smith.—Early History of India, Second Edition, Chapters I, II, V, VI, VII.

V. A. Smith.—Edicts of Asoka.

V. A. Smith.—Asoka (Rulers of India Series).

Rhys Davids.—Buddhist India.

R. C. Dutt.—A History of Civilization in Ancient India, Books III and IV (Trübner).

McCrindle.—The Indika of Megasthenes and Arrian.

R. Shamasastry.—Kautilya's Artha Shastra.

N. N. Law.—Studies in Ancient Hindu Polity.

Rapson.—Ancient India.

Fergusson.—History of Indian Architecture, Books I and II.

A. K. Coomaraswamy.—Arts and Crafts of India and Ceylon, New Edition, Chapters I, II, IV.

- (ii) *Mahomedan Period*.—History of the Early Mahomedans (beginning from Mahomed Ghori, 1186, and ending with Babar, 1526, including the Mahomedan Kingdoms in the Deccan).

The following books are recommended :—

- Raverty.—*Tabakat-i-Nasiri*.
 Elliot and Dowson.—*The History of India as told by its own Historians*, Vols. II, III, IV and V. (Trübner, London.)
 Briggs.—*Ferishta*, 4 Vols. (R. Cambray & Co.)
 Al Badauni.—*Muntakhab-ut-Tawarikh*. (Translated by Ranking and published by the Asiatic Society of Bengal.)
 Thomas.—*The Chronicles of the Pathan Kings of Delhi*.
 Forbes.—*Rasmala*.
 Todd.—*Rajasthan*.
 Sewell.—*Forgotten Empire*.

N.D.—Only such portions of these books as deal with the appointed period are recommended study.

- (iii) *The Marathas*.—The Peshwas, from 1750 to 1818.

The following books are recommended :—

- Grant Duff.—*History of the Marathas*.
 Siyar-ul-Mutakherin.
 Malcolm.—*Central India*.
 Ranade.—*Introduction to the Diaries of the Peshwas*.
 Elphinstone.—*Report on the Territories conquered from the Peshwas*.
 Forrest.—*Selections, Maratha Series*.
 Keene.—*Life of Madhavrao Sindia (Rulers of India Series)*.
 Owen.—*Selections from Wellesley's Despatches*.

Students are recommended to study original sources as in—

- Sane.—*Bhausahabachi Bakhar*.
 Sane.—*Kavyetihas Sangriha*, Letters, etc.
 Khare.—8 Volumes of *Historical Letters (Summaries given at different places to be carefully studied)*.
 Rajwade.—*Marathyanchya Itihasachi Sadhane*, Vol. I.

- (iv) *British Period*.—1773—1805.

The following books are recommended :—

- Forrest.—*Selections from State Papers of the Governors-General :—*
 Warren Hastings, Vol. II.
 Cornwallis—*Correspondence*.
 Wellesley—*Despatches*, edited by Owen.
 Forrest.—*Selections from the Minutes and State Papers relating to the Governors-General (Warren Hastings, 2 Vols.) and Maratha Series*.
 Malleon.—*Warren Hastings*.
 Malcolm.—*Central India*.
 Malcolm.—*Political History of India*.
 Seton Carr.—*Selections from the Calcutta Gazetteer*.
 Ramsay Muir.—*Making of British India*.

Politics.—

Students are recommended to study especially the following books :—

- Sidgwick.—*Politics*.
 Warde-Fowler.—*City State of the Greeks and Romans*.

Bryce.—American Commonwealth.

Aristotle.—Politics (Welldon's Translation).

Sidgwick.—Development of European Polity.

Woodrow Wilson.—The State.

Political Economy.—A critical study of the main problems of Political Economy.

Mediæval History.—The Early Middle Ages, 476—888; from the foundation of the German Kingdoms to the fall of the Carolingians.

Modern History.—The Age of Louis XIV.

British Colonial History.—The scope of the subject will be found in books like the following :—

Egerton.—A Short History of British Colonial Policy.

Egerton.—Federations and Unions in the British Empire.

Keith.—Responsible Government in the Dominions.

Economic History, of England and, in addition, the History of Commerce in Europe as outlined by Gibbins.

History of Economics.—A critical study of the principal systems of economic thought.

Indian Economics.—A study of the principal economic problems in India.

Sociology.—

Students will be examined in the elementary methods and principles of Sociology according to the standard of treatment in books like the following :—

Herbertson.—Man and His Work.

Newbiggin.—Geography.

Thomson.—Science of Life.

Thomson and Geddes.—Evolution.

Marett.—Anthropology.

Tylor.—Anthropology.

Stanley Hall.—Youth.

Sorley.—The Moral Life.

Patten.—The Social Basis of Religion.

Hay.—Introduction to Sociology.

Carver.—Sociology and Social Progress

Works of Reference.

Spencer.—Study of Sociology.

Spencer.—Principles of Sociology.

Bridges.—Comte's General View of Positivism.

Westermarck.—History of Human Marriage.

Westermarck.—The Origin and Development of Moral Ideas.

Wells.—The Outline of History.

Fleure.—Human Geography in Western Europe.

Muller-Lyer.—Introduction to the Study of Social Institutions.

Geddes.—Cities in Evolution.

XX.—Logic.**FOR THE INTERMEDIATE EXAMINATION IN ARTS.****1924, 1925, 1926.**

Students will be examined on the prescribed syllabus according to the standard of treatment in books like—

1. Minto's *Logic*.
2. Carveth Reed's *Deductive and Inductive Logic*.
3. Mellone's *Introductory Text-Book of Logic*.
4. Fowler's *Inductive Logic*.
5. Welton and Monahan's *Intermediate Text-Book of Logic*.

XXI.—Philosophy.**FOR THE B.A. EXAMINATION.****1924, 1925, 1926.**

Students will be examined on the prescribed syllabus according to the standard of treatment in books like the following :—

PASS COURSE.*Elements of Ethics—*

- J. S. Mackenzie.—*Manual of Ethics*.
 J. Seth.—*Ethical Principles*.
 Dewey and Tufts.—*Ethics*.

Elements of Psychology—

- G. F. Stout.—*Manual of Psychology*.
 • William James.—*Text-Book of Psychology*.
 * H. Höffding.—*Outlines of Psychology*.

*History of Philosophy—***1924, 1925***History of Ancient Philosophy up to Aristotle*—*

- Burnet.—*History of Greek Philosophy from Thales to Plato*.
 Adamson.—*Development of Greek Philosophy*.
 Rogers.—*History of Philosophy*.
 Stace.—*Critical History of Greek Philosophy*.

1926, 1927.*History of Modern Philosophy from Descartes to Kant—*

- Adamson.—*Development of Modern Philosophy*.
 Palckenberg.—*History of Modern Philosophy*.
 Caird.—*Spinoza*, } Blackwood's Philosophical
 Mahaffy.—*Descartes*, } Classics.
 Campbell Fraser.—*Locke and Berkeley*, }
 A. D. Lindsay.—*Kant (People's Series)*.

* The Philosophy of Aristotle is not included in this course.

ADDITIONAL FOR HONOURS.

History of Ethics—

H. Sidgwick.—History of Ethics.

Rogers.—History of Ethics.

Metaphysics—

Mackenzie.—Elements of Constructive Philosophy.

A. E. Taylor.—Elements of Metaphysics.

Watson.—An Outline of Philosophy.

Special Philosopher—

1924 and 1925 —Hume.

1926 and 1927.—Plato.

FOR THE M. A. EXAMINATION.

1924, 1925, 1926.

History of Ancient Philosophy—

The following books are recommended for reference :—

Burnet.—Early Greek Philosophy.

Zeller.—Outlines of the History of Greek Philosophy : Presocratics ; Socrates and Socratic Schools ; Plato and the Older Academy ; Aristotle and the Earlier Peripatetics ; Stoics, Epicureans and the Sceptics.

Gomperz.—Greek Thinkers.

History of Modern Philosophy—

To include a knowledge of the systems of Bacon, Descartes, Spinoza, Leibnitz, Locke, Berkeley, Hume, Kant, Hegel and Spencer, to be studied at first hand in—

Descartes.—Discourse on Method.

Leibnitz.—Monadology.

Hume.—Treatise on Human Understanding.

Hume.—Enquiry concerning Human Understanding (omitting sections X and XI.)

Locke.—Essay on Human Understanding.

Fraser.—Selections from Berkeley.

Kant.—Prolegomena to Future Metaphysics.

Hegel's Logic.

Spencer.—First Principles.

The following books are recommended for reference :—

Hoffding.—History of Modern Philosophy.

Falkenberg.—History of Modern Philosophy.

Moral Philosophy—

To be read :

H. Sidgwick.—Methods of Ethics.

T. H. Green.—Prolegomena to Ethics.

J. S. Mill.—Utilitarianism

Abbott.—Kant's Theory of Ethics.

To be consulted :

- Wundt's Ethical Works.
 Paulsen.—System of Ethics.
 G. Moore.—Principia Ethica.
 Martineau.—Types of Ethical Theory.

Psychology—

- G. F. Stout.—Analytic Psychology.
 William James.—Principles of Psychology.
 C. S. Myers.—Text-Book of Experimental Psychology.
 Ward.—Principles of Psychology.

Natural Theology—**Books to be consulted :**

- Flint.—Antitheistic Theories.
 Martineau.—Study of Religion.
 Caird.—Evolution of Religion, Vol. I, 7 Chapters.
 Flint.—Agnosticism.
 Ward.—Naturalism and Agnosticism.
 Royce.—The World and the Individual.
 Pringle Pattison.—Ideas of God, etc.

History of Indian Philosophy—

The following books are recommended for reference:—

- Dr. Bhandarkar.—Vaishnavism and Shaivism.
 Max Müller.—Six Systems of Indian Philosophy.
 Sarvadarshana Saṅgraha of Madhava, translated by Cowell (Trübner Series).
 John Davies.—Hindu Philosophy (Trübner Series).
 Deussen.—Philosophy of the Upanishads.
 • Gough.—Philosophy of the Upanishads.
 Rhys Davids.—Buddhist Psychology.

Special Philosophers—**(a) Plato—**

To be read :

Plato's Dialogues (Jowett's Translation).

To be consulted :

- A. E. Taylor.—Plato.
 Stewart.—Myths of Plato; Plato's Doctrine of Ideas.
 Burnet.—History of Greek Philosophy from Thales to Plato.

(b) Aristotle—

To be read :

Aristotle's Ethics, Politics and Metaphysics.

To be consulted :

- Grant.—Introductory Essays on Aristotle.
 Gomperz.—Aristotle.
 Barker.—Political Thought of Plato and Aristotle.

(c) Kant—

To be consulted :

- Caird.—Critical Philosophy of Kant.
 Norman Kemp Smith.—A Commentary to Kant's Critique of Pure Reason.

J. Watson.—Kant Explained.
Paulsen.—Kant.

(d) Sankhya—

To be consulted:

Sankhya Karika, translated by H. T. Colebrook.

Sankhya Philosophy by Ballantyne.

Sankhya Pravachana Sashya by Garbe.

Sankhya System by Keith.

Das Gupta.—History of Indian Philosophy.

(e) Buddhism—

Mrs. Rhys Davids.—Buddhism (Home University Series).

H. Kern.—Manual of Indian Buddhism.

Sut Zuki.—Introduction to Mahayana Philosophy, published by Luzac.

Yamakam.—System of Buddhist Thought (published by the Calcutta University).

De La Vallée Poussin.—Opinions.

Warren.—Buddhism in Translations.

(f) Advaita of Shankaracharya—

To be studied in (i) First four Sutras of the First Pad of the First Adhyaya, and Pad 1 and 2 of the Second Adhyaya; (ii) Vedantasar, translated and annotated by Jacob.

To be consulted :

Deussen.—System of Vedanta according to Shankaracharya.

S. A. Fesai.—Vedanta Philosophy.

Das Gupta.—History of Indian Philosophy.

Sociology.—The same books as those recommended in the History Branch.

XXII.—Mathematics.

FOR THE FIRST YEAR EXAMINATION IN ARTS.

Algebra.—Todhunter and Loney.

Geometry.—Hall and Stevens, Part V, or Barnard and Child (with easy Riders).

Trigonometry.—Borchardt and Perrot, Chapters II, III, IV, V, VI (portions covered by the syllabus only), VII, VIII, IX, X (to include simple problems in two dimensions only).

FOR THE INTERMEDIATE EXAMINATION IN ARTS.

Trigonometry.—Loney, Part I, or Borchardt and Perrot, both Parts (excluding Chapters XXIII and XXIV).

Analytical Geometry.—Baker, Chapters I, II, III, V, VIII (Articles 127—142 and 159—167), X (Articles 182—203 and 219—228).

Solid Geometry.—Davison, Chapters I, II (excluding Articles 35—38) and III.

Calculus.—Love's Elements of the Differential and Integral Calculus (omitting Chapters, IX, XI and Appendix).

FOR THE B.A. EXAMINATION.

PASS COURSE.

Algebra and Theory of Equations :—

Davison.—Higher Algebra, Chapters I—X, XV—XIX.

Loney.—Trigonometry, Part II, Chapters 1, 2, 3, 5.

Analytical Geometry :—**Charles Smith.**—Conic Sections, Chapters I—IX.

Differential Calculus :—**Edwards.**—Elementary Treatise (Portions covered by the syllabus : Problems of the same standard as those in the body of the Chapters and not those at the end of the Chapters).

Integral Calculus :—**Edwards.**—Integral Calculus (whole).

Statics :—**Dobbs.**—Elementary Statics.

Dynamics :—**Baker.**—Dynamics.

Hydrostatics :—**Loney.**—Hydrostatics.

Astronomy :—**Parker.**—Astronomy.

HONOURS COURSE.

Analytical Geometry :—**C. Smith.**—Conic Sections, Chapters 1—X.

Algebra and Theory of Equations :—**Davison**, Chapters 1—10, 15—22.

Trigonometry :—**Loney**, Part II.

Differential Calculus :—**Edwards**, Elementary Treatise. Chapters 1—6, 7 (arts. 191—210), 8 (arts. 236—257, 265—269), 9 (arts. 271—296), 10 (arts. 318—332), 12, 14, 15.

Integral Calculus :—**Williamson**, Chapters 1—10, 13.

Differential Equations :—**Murray** (the portion covering the syllabus).

Spherical Trigonometry :—**Todhunter** and **Leathem**, Chapters 1—5 (slightly altered to suit the course).

Solid Geometry :—**Smith**, Chapters 1, 2, 4 (arts. 86—100).

Statics :—

Dobbs, Elementary Statics.

Loney, Elementary Treatise, Chapters 1—5, 8 (arts. 134—148), 12 (arts. 250—260).

Dynamics :—

Loney.—Elementary Treatise on Dynamics.

Loney.—Dynamics of a Particle and Elementary Rigid Dynamics (arts. 1—55, 65—74, 144—150, 160—178).

Hydrostatics :—**Greaves**.

Astronomy :—**Barlow** and **Bryan** (with use of Spherical Trigonometry)

FOR THE INTERMEDIATE EXAMINATION IN SCIENCE.

The same books as those for the Intermediate Examination in Arts.

FOR THE B.Sc. EXAMINATION.

AS A SUBSIDIARY SUBJECT.

Analytical Geometry :—As for the B.A. Examination (Pass Course).

Solid Geometry :—Smith, Chapters I, II, IV (arts. 86—90).

Differential Calculus } As in B.A. Honours (standard of riders required
Integral Calculus } to be that for the Pass Course).

Differential Equations :—Murray, Chapters 1, 2, 3, 4, 5, 6, 10, 11, 12 (up to art. 123).

Statics :—Dobbs, *Elementary Statics*.

Dynamics :—

Baker.

Jeans, *Theoretical Mechanics* (first 10 Chapters).

AS A PRINCIPAL SUBJECT.

The same books as those for the B.A. Examination (Honours Course).

N.B.—Students in Mathematics for the B.A. and B.Sc. Examinations are recommended to read the following books for general information, but they will not form subject-matter of examination :—

Bull's *History of Mathematics* or Cajon's *History of Mathematics*.

Kelland and Tait's *Introduction to Quaternions*.

Mach's *Science of Mechanics*.

Maxwell's *Matter and Motion*.

Poincaré's *Science and Hypothesis*, translated by Greenstreet.

FOR THE M.A. EXAMINATION.

N.B.—Students are recommended to read books on the history of Mathematics, especially those on the history of the special groups selected by them and also to read original papers relating to them.

GROUP A.

Algebra :—Chrystal, Volumes I and II.

Pure Geometry :—Askwith. (Works by Russel and Ducrel might also be consulted).

Solid Geometry :—Bell.

Theory of Equations :—Burnside and Panton, Vols. I and II.

Trigonometry :—Hobson.

Spherical Trigonometry :—Todhunter and Leathem.

Plane Analytical Geometry :—Askwith. (Salmon's work might also be consulted).

Higher Plane Curves :—Salmon, *Basset*. (Elementary portions of both only).

Differential Calculus :—Edwards; Jordan (*Cours d'Analyse*, 3 vols.), and Goursat (*Cours d'Analyse*, 2 vols.).

Integral Calculus :—Williamson, Whittaker's *Modern Analysis* (for Fourier's Series), Jordan (*Cours d'Analyse*, 3 vols.), and Goursat (*Cours d'Analyse*, 2 vols.).

Theory of Functions:—Whittaker (*Modern Analysis*, Chapters 1—6), Jordan (*Cours d'Analyse*, 3 vols.), and Goursat (*Cours d'Analyse*, 2 vols.).

Differential Equations:—Forsyth (*Elementary Treatise*), Jordan (*Cours d'Analyse*, 3 vols.), and Goursat (*Cours d'Analyse*, 2 vols.).

Spherical Harmonics:—Byerley, Whittaker (Chapters 10, 12.)

Statics:—Loney (*Elementary Treatise on Statics*).

Dynamics:—Loney (*Dynamics of a Particle and Rigid Dynamics*).

Hydrostatics:—Besant and Ramsay.

Spherical Astronomy:—Godfray.

Higher Algebra and Finite Groups:—Weber: *Lehrbuch der Algebra*. Vols. I and II (A French translation is published).

Theory of Functions:—Forsyth; Picard (*Traité d'Analyse*).

Elliptic Functions:—Appell and Lacour (*Functions Elliptiques*). (Consult also Tannery and Molk and Greenhill).

Algebraic Functions:—Appell et Goursat. (Baker's *Abelian Functions* and Baker's *Multiply Periodic Functions* might also be consulted.)

Theory of Numbers:—Bachmann (*Irrationalzahlen*); Mathews Bachmann (*Niedere Zahlentheorie*). [Consult Bachmann (*Zahlentheorie*, 4 vols.); Dirichlet-Dedekind (*Zahlentheorie*).]

Differential Equations:—Forsyth, 6 vols.; Picard (*Traité d'Analyse*).

Projective Geometry:—Cremona; Reye (*Geometrie der Lage*); Whitehead (*Axioms of Projective Geometry—Cambridge Tracts*); Coultidge *Non-Euclidean Geometry*.

Line Complex:—Jessop's *Line Complex*.

Quaternions and Vector Analysis:—Tait; Joly; Gibbs and Wilson (*Vector Analysis*); Whitehead (*Universal Algebra*, omitting the Chapter on the *Algebra of Logic*).

Analytical Geometry of Curves and Surfaces:—Salmon (*Solid Geometry*); Salmon (*Higher Plane Curves*); Forsyth (*Differential Geometry*); Eisenhardt. (Consult also Darboux: *Théorie des Surfaces*, 4 vols., and Clebsch-Lindemann: *Leçons sur la Géométrie*).

Calculus of Variations:—Bolza; Kneser; Hadamard.

Fourier's Series:—Picard (*Traité d'Analyse*, Chapter IX); Original *Memoirs*, especially of Riemann; Carslaw (*Fourier's Series and Integrals*); Hobson (*Functions of a real variable*, Chapter VII).

Harmonic Analysis:—Gray and Mathews (*Bessel Functions*); Heine (*Kugelfunctionen*); Todhunter (*Laplace's etc. Functions*); Lommel (*Bessel'sche Functionen*); Thomson and Tait (*Natural Philosophy*, Appendix).

Book of reference for Formulæ; Pascal, *Repertorio di Matematica*, 2, vols. (German translation also published.)

GROUP B.

N.B.—An elementary knowledge of Quaternions and of the methods of vector analysis will be assumed in all these subjects. Books recommended:—Kelland and Tait; Coffin (*Vector Analysis*).

Differential Calculus:—Edwards.

Integral Calculus:—Williamson.

Solid Geometry:—Smith.

Differential Equations:—Forsyth (*Elementary Treatise*).

Fourier's Series:—Byerley.

Statics :—Routh, 2 vols ; Minchin (Statics, 2 vols.), Tarleton (Elasticity), Appell (Cours d'Mécanique Rationnelle, Vols. 1 and 3, so far as they cover the subject).

Dynamics of a Particle :—Routh & Appell, Vol. I.

Rigid Dynamics :—Routh, Vol. 1 and Vol. II (first two Chapters); Appell, Vol. II.

Hydrostatics :—Besant and Ramsay ; Appell, Vol. III.

Spherical Astronomy :—Godfray ; Ball. (Consult Chauvenet).

Electricity and Magnetism :—J. J. Thomson (Elementary Electricity); Jeans.

Hydrodynamics and Sound :—Basset (Elementary Treatise); Appell, Vol. III ; Lamb (Sound); (Lamb's Hydrodynamics might also be consulted)

Elasticity :—Love ; (Thomson and Tait—Natural Philosophy, 2 Vols., might also be consulted).

Higher Dynamics :—Routh, Vol. II ; Whittaker ; (Consult Thomson and Tait).

Hydrodynamics, and Theory of Tides :—Lamb ; Basset, 2 Vols.; Darwin (Papers on Tides); (Thomson and Tait—Natural Philosophy, might also be consulted).

Vibrations and Sound :—Rayleigh, 2 Vols.

Physical Optics :—Walker (Analytical Theory of Light); MacLaurin; Basset; Preston (Theory of Light).

Physical Astronomy :—Tisserand (Mécanique Céleste, 4 Vols.); (Consult Poincaré's Books).

Electricity and Magnetism :—Maxwell, 2 Vols. ; J. J. Thomson (Recent Researches); Larmor (Ether and Matter); Lorentz (Electrons); Hertz (Electric Waves); MacDonald (Electric Waves).

Quaternions : The same as in Group A.

FOR THE M.Sc. EXAMINATION.

The same as those for the M.A. Examination.

XXIII.—Physics.

FOR THE FIRST YEAR EXAMINATION IN ARTS.

No Text-Book is recommended.

FOR THE B.A. EXAMINATION.

PASS COURSE.

1. Watson.—Physics.
2. Wagstaffe.—Properties of Matter.
3. Allen and Moore.— Practical Physics.

HONOURS COURSE.

The same as those for the subsidiary B.Sc. course.

FOR THE INTERMEDIATE EXAMINATION IN SCIENCE.

1. Watson.—Physics.
2. Allen and Moore.—Practical Physics.

FOR THE B.Sc. EXAMINATION. AS A SUBSIDIARY SUBJECT.

1. Watson.—Physics.
2. Wagstaffe.—Properties of Matter.
3. Hadley.—Magnetism and Electricity for Students.
4. Allen and Moore.—Practical Physics.

AS A PRINCIPAL SUBJECT.

1. Watson.—Physics.
2. Edser.—General Physics, omitting Chapters, IV, XI, XII, XIII.
3. Datta.—Sound, omitting the extension of Fourier's Theorem.
4. Poynting and Thomson.—Heat.
5. Houston.—Treatise on Light, Chapters I to IV, IX to XVII.
6. Starling.—Electricity and Magnetism.
7. Crowther.—Molecular Physics.
8. Watson.—Practical Physics.

FOR THE M.Sc. EXAMINATION

No Text-Books are recommended.

XXIV.—Chemistry.

FOR THE B.A. EXAMINATION.

PASS AND HONOURS COURSES.

The same as those for the subsidiary B.Sc. course.

FOR THE INTERMEDIATE EXAMINATION IN SCIENCE.

The course will be covered by Walker's Elementary Inorganic Chemistry or by Lewis's Inorganic Chemistry, and J. B. Cohen's Organic Chemistry* supplemented by Alex. Smith's Introduction to General Inorganic Chemistry, or Holleman's Text-Book of Inorganic Chemistry. The standard of treatment will be fairly represented by Walker's and Cohen's books.

FOR THE B.Sc. EXAMINATION.

AS A SUBSIDIARY SUBJECT.

Alex. Smith.—Introduction to General Inorganic Chemistry.

Holleman.—Text-Book of Inorganic Chemistry.

J. B. Cohen.—Theoretical Organic Chemistry.

G. Senter.—Physical Chemistry.

AS A PRINCIPAL SUBJECT.

Inorganic Chemistry :—

Alex. Smith.—Introduction to General Inorganic Chemistry.

Holleman.—Text-Book of Inorganic Chemistry.

Mellor.—Modern Inorganic Chemistry.

Mendeleef.—Principles of Chemistry.

Caven and Lander.—Systematic Inorganic Chemistry.

Grossmann.—Elements of Chemical Engineering.

Organic Chemistry :—

Wade.—Organic Chemistry.

W. Holleman.—Text-Book of Organic Chemistry.

Berntsen.—Organic Chemistry.

General and Theoretical Chemistry :—

Walker.—Introduction to Physical Chemistry.

G. Senter.—Outlines of Physical Chemistry.

Ostwald.—Outlines of General Chemistry.

Findlay.—Practical Physical Chemistry.

Spencer.—Experimental Course of Physical Chemistry.

FOR THE M.Sc. EXAMINATION.

No Text-Books are recommended.

XXV.—Biology.

FOR THE INTERMEDIATE EXAMINATION
IN SCIENCE.

H. G. Wells.—Text-Book of Biology (Parts 1 and 2).

R. E. Lloyd.—An Introduction to Biology for Students in India.

Parker.—Elementary Biology.

XXVI.—Botany.**FOR THE B.A. EXAMINATION.****PASS COURSE.**

- J. M. Lowson.—A Text-Book of Botany.
 J. R. Green.—Manual of Botany, Vols. I and II.
 F. O. Bower and D. T. Gwynne Vaughan.—Practical Botany for
 Beginners.

HONOURS COURSE.

The same as those for the subsidiary B.Sc. course.

**FOR THE INTERMEDIATE EXAMINATION
IN SCIENCE.**

- J. M. Lowson.—A Text-Book of Botany.
 F. O. Bower and D. T. Gwynne Vaughan.—Practical Botany for
 Beginners.
 E. Evans.—An Intermediate Text-Book of Botany.

FOR THE B.Sc. EXAMINATION.**AS A SUBSIDIARY SUBJECT.**

- Strasburger.—Text-Book of Botany.
 C. J. Chamberlain.—Methods in Plant Histology.
 J. A. Thomson.—Heredity.
 Strasburger and Hillhouse.—Handbook of Practical Botany.

AS A PRINCIPAL SUBJECT.

- Strasburger.—Text-Book of Botany.
 Strasburger and Hillhouse.—Handbook of Practical Botany.
 Chamberlain.—Methods in Plant Histology.
 Darwin and Acton.—Practical Physiology of Plants.
 J. A. Thomson.—Heredity.
 Punnett.—Mendelism.

FOR THE M.Sc. EXAMINATION.

No Text-Books are recommended.

XXVII.—Zoology.**FOR THE B.A. EXAMINATION.****PASS COURSE.**

- A. E. Shipley and E. W. MacBride.—An Elementary Text-Book of
 Zoology.

- J. A. Thomson.—*Outlines of Zoology*.
 R. E. Lloyd.—*An Introduction to Biology for Students in India*.
 T. J. Parker and W. N. Parker.—*Elementary Course of Practical Zoology*.
 A. Milnes Marshall and C. H. Hurst.—*A Junior Course of Practical Zoology*.

HONOURS COURSE.

The same as those for the subsidiary B. Sc. course.

FOR THE INTERMEDIATE EXAMINATION IN SCIENCE.

- Parker.—*Biology*.
 R. E. Lloyd.—*An Introduction to Biology for Students in India*.
 H. G. Wells (revised by A. Davies).—*Text-Book of Zoology*.
 Marshall and Hurst.—*A Junior Course of Practical Zoology*.

FOR THE B.Sc. EXAMINATION.

AS A SUBSIDIARY SUBJECT.

- T. J. Parker and W. A. Haswell.—*A Text-Book of Zoology*, Vols. I and II.
 A. J. Wall.—*Poisonous Snakes of India*.
 T. J. Parker and Wildersheim.—*Elements of the Comparative Anatomy of Vertebrates*.

AS A PRINCIPAL SUBJECT

- Sedgwick.—*Student's Text-Book of Zoology*, Vols. I, II and III.
 Parker and Haswell.—*A Text-Book of Zoology*, Vols. I and II.
 A. Dendy.—*Outlines of Evolutionary Biology*.

FOR THE M.Sc. EXAMINATION.

No Text-Books are recommended.

XXVIII.— Geology.

FOR THE INTERMEDIATE EXAMINATION IN SCIENCE.

- Blanford.—*Physical Geography*.
 Tarr.—*New Physical Geography*.
 Bird.—*Elementary Geology*.
 Bird.—*Advanced Geology*, with the exception of the chapters on Historical Geology.

FOR THE B.SC. EXAMINATION.

BOTH AS A SUBSIDIARY AND PRINCIPAL SUBJECT.

Geikie.—Text-Book of Geology.
 Holland.—Mineral Resources of India.
 Oldham and Vredenberg.—Indian Geology.
 Harker's or Hatch's Petrology.
 Williams' Crystallography.
 Rutley's Mineralogy.
 Wood's Palæontology (Invertebrate).
 Smith Woodward's Palæontology (Vertebrate).
 D. H. Scott.—Studies in Fossil Botany.
 Cole.—Aids in Practical Geology.
 Geikie.—Structural and Field Geology.

FOR THE M.Sc. EXAMINATION.

No Text-Books are recommended. .

II. BOOKS RECOMMENDED IN LAW.**I.—FOR THE FIRST LL.B. EXAMINATION. .****1924, 1925, 1926.**

1. Hunter.—Introduction to Roman Law.
2. Ortolan—History of Roman Law.
3. Sanders.—Institutes of Justinian, Books I, II and III.
4. Salmond —Jurisprudence.
5. Dicey. —Constitutional Law.
6. The Negotiable Instruments Act, 1881 (India Act XXVI of 1881, as amended by India Act II of 1885).
7. The Indian Majority Act, 1875 (India Act IX of 1875).
8. The Indian Contract Act, 1872 (India Act IX of 1872).
9. The Indian Penal Code (India Act XLV of 1860).
10. The Code of Criminal Procedure (India Act V of 1898, as amended by subsequent enactments).
11. Anson's Law of Contract.
12. Pollock's Law of Torts.
13. Ratanlal and Dhirajlal's Law of Torts.
14. Stevens' Mercantile Law (the whole of Parts II and III, omitting Shipping and Stock Exchange).
15. H. Campbell.—The Law of War and Contract (Chapters IV and V).

II.—FOR THE SECOND LL.B. EXAMINATION.**1924, 1925, 1926.**

1. The Easements Act, 1882 (India Act V of 1882).
 The Transfer of Property Act, 1882 (India Act IV of 1882, as amended by India Act III of 1885).

3. The Indian Trusts Act, 1882 (India Act II of 1882).
4. The Indian Succession Act, 1865 (Stokes' edition recommended).
5. The Parsi Succession Act.
6. The Hindu Wills Act.
7. The Indian Registration Act, 1908 (India Act XVI of 1908 Part III "Of Registrable Documents."
8. The Indian Limitation Act, 1908 (India Act IX of 1908).
9. The Indian Evidence Act, 1872 (India Act I of 1872).
10. The Dekkan Agriculturists' Relief Act, as amended by subsequent enactments.
11. The Code of Civil Procedure (India Act V of 1908).
12. Tyabji's Mahomedan Law (Students' Edition).
13. Mulla's Principles of Mahomedan Law.
14. Mayne's Hindu Law.
15. Ghose's Hindu Law.
16. Snell's Principles of Equity.
17. Digby's Law of Real Property.
18. The Specific Relief Act.
19. The Indian Probate and Administration Act V of 1881.
20. The Succession Certificate Act VII of 1889.

III.—FOR THE LL.M. EXAMINATION.

1924, 1925, 1926.

The following books are recommended, but it is to be distinctly understood that the questions set at the Examination will not necessarily be confined to them :—

BRANCH I.

Jurisprudence :—

Austin's Jurisprudence.

Holland's Jurisprudence.

Maine's Village Communities, Early History of Institutions, Early Law and Custom.

Bentham's Theory of Legislation.

Holmes's Common Law.

Roman Law :—

Gaius's Institutes (Posto's Edition).

Muirhead's Historical Introduction to Roman Law.

International Law :—

(a) *Public International Law :*

Hall's International Law.

Wheaton's International Law

(b) Private International Law :

Dicey's Conflict of Laws.

Westlake's Private International Law. •

Nelson's Selected Cases on Private International Law.

Constitutional Law :

Anson's Law and Custom of the Constitution.

Dicey's Constitutional Law. •

Ilbert's Government of India. •

Cowell's Tagore Law Lectures (1872).

BRANCH II.

Hindu Law :—

Manu's Institutes, Chapters I, III, VII, VIII and IX (Sacred Books of the East, Vol. XXV).

Yajñavalkya's Institutes, Book II on Vyavahara or Positive Law (Mandlik's Translation).

The Mitakshara (Stokes' Edition),

The Smṛiti Chandrika (Krishna Swamy

Iyer's Translation, 1867).

The Vyavahara Mayukha (Mandlik's

Translation),

The Dayabhaga,

The Dattaka Mimamsa,

The Dattaka Chandrika,

The Tagore Law Lectures on Marriage, Stridhana, Inheritance, Adoption and Endowments.

• West and Buhler's Digest.

Mahomedan Law :—

Amcer Ali's Mahomedan Law, Volumes I and II.

Wilson's Digest of Anglo-Mahomedan Law.

The Law of Wills :—

Vaughan Hawkins on Wills.

Majumdar on the Hindu Wills Act

Frevlyan's Hindu Wills.

BRANCH III.

The Law of Real Property :—

Challis on Real Property.

Ghose's Law of Mortgage.

The Transfer of Property Act.

Fawcett on Landlord and Tenant.

Williams on Real Property. •

Principles of Equity:—

Story on Equity Jurisprudence.
 Ashburner on Equity.
 Agnew on the Law of Trusts.
 White and Tudor's Leading Cases in Equity.
 The Indian Specific Relief Act.

The Law of Easements and Prescription:—

Goddard on the Law of Easement.
 The Indian Easements Act.
 Tagore Law Lectures, 1882 and 1899.

Customary and Statute Law relating to Land Tenures in British India:—

Phillips and Saroda Charn Mitter's Land Tenures in Bengal.
 Baden Powell on the Indian Village Community, and Land Systems of British India.
 Case Law relating to the Land Tenures of the Bombay Presidency.

BRANCH IV.

Leake on Contracts.
 Pollock's Indian Contract Act.
 Pollock on Torts.
 Story on Agency.
 Story on Bailment.
 Lindley on Partnership.
 Scrutton's Charter Parties.
 Smit's Mercantile Law.
 Tudor's Leading Cases on Mercantile Law.
 Stephen's History of the Criminal Law of England.

III. SYLLABUS AND TEXT BOOKS FOR THE B. T. EXAMINATION.

I. THE SCIENCE OF EDUCATION.

TWO PAPERS—100 MARKS EACH.

The course in this subject is indicated generally in the Regulations for the Degree of B. T. and is intended to cover principles Education—its data and bases—and their application to school work, specially with reference to Indian conditions.

Books recommended—

1. Introduction to Psychology by Loveday and Green (Oxford University Press).
2. Principles of Education by Jones (Macmillan & Co.).
3. The Educative Process by Bagley (Do.)

Books to be consulted—

1. Human Behaviour by Calvin and Bagley (Macmillan & Co.).
2. The Evolution of Educational Theory by Adams, Chapters I and II (Macmillan & Co.).
3. The Psychology of Education by Welton (Macmillan & Co.).

II. HISTORY OF EDUCATION.

TWO PAPERS—75 MARKS EACH.

A (1)—History of Education in Europe from the Renaissance—

Outline study of the educational aspects of the great historical movements that arose in Europe since the Renaissance and of the evolution of educational theory as exemplified by the doctrines of the following reformers and educators: *Loyola, Milton, Comenius, Locke, Rousseau, Pestalozzi, Herbart, Froebel, Herbert Spencer and Montessori*

Books recommended—

1. Grave's "Students' History of Education". Macmillan & Co.
2. Quick's Educational Reformers. Longmans.
3. The Doctrines of the Great Educators by Rusk. Macmillan & Co.

Books to be consulted—

1. Introductions to Locke, Rousseau, Pestalozzi and Froebel. (Educational Classics Series, Arnold & Sons.)
2. The Evolution of Educational Theory by Adams.

A (2)—History of Education in India—

(i) General Characteristics of Ancient Indian Education: Later influences in the Mahomedan Period.

(ii) The Modern Renaissance in India—its spirit, ideals, and educational aspects: the introduction and development of the Western system of Education, with special reference to these in the Bombay Presidency.

Books recommended—

1. Education and Statesmanship in India by James.
2. An Article on Indian Education in the Cyclopædia of Education edited by Monroe.

Books to be consulted—

1. Selected matter from Official reports and resolutions of the Sadler Committee's Report.
2. A History of Education in Ancient India by N. M. Mazumdar (Macmillan & Co.).

B. Present day Problems—

Present educational policy and administration: state control and relation to public bodies such as the Municipalities, Local Boards, and the Universities: their relation to various types of schools; present position with regard to Primary and Secondary education; moral and religious education; denominational education; technical education; vocational training; education of the depressed classes; place of vernaculars in the education system; medium of instruction; female education; value and possibilities of co-education and such other problems as are attracting public attention at the present time.

N.B.—Students are expected to consult recent literature on these subjects appearing in the form of official reports, resolutions, and reviews in magazines, etc.

III. THE PRACTICE OF EDUCATION.

THREE PAPERS.

(a) *School management, including Hygiene, one paper—75 marks.*

(1) *Physiology and Hygiene—*

Elementary knowledge of the structure of the human body and the functions of the vital organs; the first laws of Health and Sanitation; common ailments of school children and infectious diseases, their signs and prevention; Firt, Ayl; Health in Schools:—Locality, site and construction of school buildings; proper lighting and ventilation of class rooms; good and bad postures; eye-sight; kinds and value of physical exercise; School furniture, fatigue, etc.

(2) *School organization and class management—*

The organization and management appropriate to each stage of school course; classification, curriculum, discipline, arrangement of syllabuses, home work. Time tables, School records, Social life at School, etc.

Books recommended—

1. Instruction in Indian Secondary Schools by Mackenzie, chapters I and II.
2. Bagley's Class room Management, Part I, Chapters I to VIII.
3. Lyster's School Hygiene (University Tutorial Press).
4. First Laws of Health (Oxford University Press).

Books to be consulted—

1. Indian School Organization by Wren, selected portions.
2. Health and Mortality amongst educated Indians by Kanta Prasad and published by Panini Office.

(b) *Method of teaching in general, one paper—75 marks.*

Psychological Principles governing the teaching process; their application as determined by the capacity and growth of the pupil and the nature of the subjects taught; types of lessons; appropriate methods of exposition; illustration; questioning; correction; experiment and practical work; uses and methods of revision, testing and examination, etc. These to be studied with reference to subjects included in the Secondary School Course in Bombay.

Books recommended—

1. A Primer of Teaching by Green (Longmans).
2. Principles of Education by Jones.
3. The Educative Process by Bagley.

Books to be consulted—

The Essentials of Teaching by Burnett.

Principles of Teaching by Welton, Selected, Chapters.

Principles of Teaching by Raymont (Longmans), Selected Chapters.

(c) Methods of teaching particular subjects, one paper—100 marks.

General Note.—Students are expected to have an adequate knowledge of the subjects selected so as to be able to teach the entire course in accordance with the syllabuses prescribed by the Department and the Joint School Board, for different standards in the Secondary Schools of Bombay. Such knowledge must be adapted for school purposes to ensure proper presentation and assimilation in accordance with the needs of the pupils in different standards. The same with the kind of practical work needed.

The following points are suggested for consideration in connection with each subject:—

English.—The aim of language work: different aims in teaching a classical, a vernacular and a foreign language. Consequent differences in method; aims in teaching English in India; Special methods—the direct as opposed to the translation methods; use of the vernacular; judicious use of translation; place and value of grammar and selection of grammatical material; forms of composition, oral and written, suited to various standards and appropriate methods of teaching: Reading, writing and spelling. Intensive and rapid reading, value and appropriate methods; Literature, value and appreciation; co-ordination of all branches of work in English; preparation of syllabuses for various grades, etc.

Books recommended—

1. Chapters on 'The Teaching of English' in *Instruction in Indian Secondary Schools* by Mackenzie.
2. Paragraphs on Language and Literature in Chapter II of Jones's *Principles of Education*.
3. Chapter on English in Welton's *Principles of Teaching*.

Classical Language.—The aim of Language work; different aims in teaching a classical, a vernacular and a foreign language. Consequent differences in method; aims in teaching the selected classical language in India; traditional methods and possibilities of improvement by the application of sound methods of teaching. Selection of grammatical material; suitable forms of composition in various standards. Co-ordination of reading, Grammar and composition work. Appreciation of Literature. Advantages of teaching through the vernacular instead of English; preparation of syllabuses, etc.

N.B.—Choice of books bearing on the subject of teaching the language selected is left to the authorities of the affiliated schools and Colleges. Books selected should be reported to the University.

Vernacular Language.—Aim of language work; different aims in teaching a classical, a vernacular and a foreign language. Consequent differences in method. The vernacular as the medium of instruction in Schools; co-ordination of reading, Grammar and composition work. Methods of teaching Grammar and composition. Appreciation of Literature and preparation of syllabuses, etc.

N.B.—Choice of books bearing on the subject of teaching the language selected is left to the authorities of the affiliated schools and Colleges. Books selected should be reported to the University.

Mathematics.—The educational value of Mathematics; place in the School curriculum; application of general methods to the teaching of Mathematics; theory and method of teaching the various parts of the High School course as laid down in the Departmental syllabuses; the kind of practical work to be done at each stage in connection with the prescribed courses; correlation of different branches; preparation of suitable syllabuses, etc.

Books recommended—

1. Chapter on the Teaching of Mathematics in Instruction in Indian Secondary Schools by Mackenzie.
2. The Teaching of Mathematics in Secondary Schools by Schultze (Macmillan & Co.).
3. The Teaching of Mathematics by Young (Longmans).

History.—The aim and value of teaching History in Schools; Principles underlying the selection of matter for different stages in the School course; Appropriate method of teaching; aim and value of teaching English History in Indian Schools. Co-relation with other subjects; the preparation of syllabuses; the kind of practical work needed at different stages; Preparation of charts and maps, etc.

Books recommended—

1. Chapter on Teaching of History in Instruction in Indian Secondary Schools by Mackenzie.
2. Paragraphs on History in Chapter II of Jones's Principles of Education.
3. The Teaching of History in Elementary Schools by Archer, Lewis and Chapman (A. & C. Black) Selected Portions.
4. Studies in the Teaching of History by Keatings (A. & C. Black) Selected Portions.

Geography.—Modern conception of Geography; scope of School Geography; aims of Geography teaching in Schools; methods applicable to each stage of the School course; fundamental facts and general principles of Geography together with the practical work required in teaching the prescribed School course. Co-relation with other subjects; preparation of syllabuses, etc.

Books recommended—

1. The Teaching of Geography in Elementary Schools by Archer, Lewis and Chapman (A. & C. Black) Selected Portions.
2. Chapter on the Teaching of Geography in Instruction in Indian Secondary Schools by Mackenzie.
3. Principles and Methods of the Teaching of Geography by Holtz (Macmillan & Co.).

Book to be consulted—

The Teaching of Geography by Wallis, Selected Portions (Cambridge University Press).

Science.—Aim and value of Science teaching; methods applicable at various stages of the school course; Co-relation with other subjects; practical work with a view to perform the experiments prescribed in the departmental syllabuses; Work-shop practice in glass and wood work for the purpose of making simple apparatus and models required for use in class and simple repairs. Use of text-books and Boys' Note books; preparation of suitable syllabuses; equipment of School laboratory, etc.

Books recommended—

1. Teaching of Chemistry and Physics by Hall and Smith (Longmans).
2. The Teaching of Scientific Method by Armstrong.
3. Chapter on 'Teaching of Physics and Chemistry' in Instruction in Secondary Schools by Mackenzie.

Books to be consulted—

1. Memorandum on Nature Study and the Teaching of Science, Scotch Ed. Deptt.
2. Natural Science in the Educational System of Great Britain, Government of India Bureau of Education, Pamphlet No. 3.

XVII.

**SYLLABUSES FOR THE SCHOOL LEAVING EXAMINATION OF 1924 AND
SUBSEQUENT YEARS PRESCRIBED BY THE JOINT
EXAMINATION BOARD.**

In each paper there will be more questions than are required to secure full marks.

ENGLISH—TWO PAPERS—(each of three hours)—100 marks each.

In English there will be two papers, one containing alternative subjects for composition, a passage for translation from the vernacular (with an option for those who do not offer any vernacular), and unseen passages for explanation or to have the substance given : the other containing general questions on the subject-matter of the prescribed books, together with questions on direct and indirect speech, the analysis of sentences, and other matters coming under the general head of "grammar," to which, however, not more than 40 per cent. of the marks in that paper will be assigned. Grammatical subtleties, recondite allusions, and isolated idioms will be avoided.

SECOND LANGUAGE—ONE PAPER—(3 hours)—100 marks.

One of the following :—

1 Sanskrit.	4 Persian.	7 Latin.
2 Avesta and Pahlavi.	5 Hebrew.	8 Greek.
3 Arabic.	6 Portuguese.	9 French.
		10 German.

In the Second Language there will be one paper containing prose passages for translation from and into English and questions in grammar, these last being limited to 30 per cent. of the paper. In the case of Sanskrit, Persian, French and German there will be simple poetical passages also for translation into English.

In the case of Sanskrit the standard of grammar will be as in Dr. Kielhorn's Sanskrit Grammar or Dr. Bhandarkar's 1st and 2nd Sanskrit Books supplemented by Chap. IX, Sections 539—575, and Chap. X of Dr. Kielhorn's Sanskrit Grammar, omitting the 1st and 2nd Person Forms of the Perfect Tense and requiring only recognition of forms in the case of Aorist, Benedictive, Desiderative, and Frequentative Forms.

ARITHMETIC—ONE PAPER—(2 hours)—75 marks.

Simple and compound rules, vulgar and decimal fractions (omitting recurring decimals), contracted methods of multiplication and division, proportion, metric system, exchanges, interest, present worth and discount, stocks and shares, profit and loss, square root, volumes and areas—in the case of rectangular areas and rectangular solids, triangle, parallelogram, circle and cylinder.

The use of algebraical symbols and processes shall be permitted.

Examples of a difficult nature or involving lengthy processes will not be set.

ALGEBRA—ONE PAPER—(2 hours)—75 marks.

Simple rules, easy factors, highest common factor and least common multiple (both as far as solvable by easy factorisation), simple fractions, simple simultaneous equations with not more than two unknown quantities (not involving literal coefficients), easy numerical quadratic equations by factorisation, easy problems on the above types of equations, square root, use of squared paper for plotting points and straight lines, graphical solution of simple simultaneous equations, elementary ratio, proportion and variation.

GEOMETRY—ONE PAPER—(2 hours)—75 marks.

The questions in Practical Geometry shall be set on the constructions contained in Schedule A together with easy extensions of them as riders if desired. A candidate should provide himself with a ruler graduated in inches and tenths of an inch and in centimetres and millimetres, a set square, a protractor, compasses and a hard pencil.

All figures should be drawn accurately.

The questions on Theoretical Geometry shall consist of theorems contained in Schedule B, together with questions upon these theorems, easy deductions from them, and arithmetical illustrations. Any proof of a proposition shall be accepted which forms a part of any systematic treatment of the subject; the order in which theorems are stated in Schedule B is not imposed as the sequence of the treatment.

The use of intelligible abbreviations is recommended.

SCHEDULE A.

Bisection of angles; of straight lines and arcs of circles.

Construction of perpendiculars to straight lines.

Construction of an angle equal to a given angle.

Construction of parallels to a given straight line.

Simple cases of construction of triangles from sufficient data.

Division of straight lines into a number of equal parts.

Construction of tangents to a circle.

Construction of regular figures of 3, 4, 6, 8 sides in or about a given circle.

Description of a circle in or about a triangle and a square.

Description of a segment of a circle on a given straight line containing a given angle.

SCHEDULE B.

Angles at a point.

If a straight line stands on another straight line, the sum of the two angles so formed is equal to two right angles: and the converse.

If two straight lines intersect, the vertically opposite angles are equal.

Parallel Straight Lines.

When a straight line cuts two other straight lines, if

(i) a pair of alternate angles are equal, or

(ii) a pair of corresponding angles are equal, or

(iii) a pair of interior angles on the same side of the cutting line are together equal to two right angles,

then the two straight lines are parallel and the converse.

Straight lines which are parallel to the same straight line are parallel to one another.

Triangles and Rectilinear Figures.

The sum of the angles of a triangle is equal to two right angles.

If the sides of a convex polygon are produced in order, the sum of the angles so formed is equal to four right angles.

If two triangles have two sides of the one equal to two sides of the other, each to each, and also the angles contained by these sides equal, the triangles are congruent.

If two triangles have two angles of the one equal to two angles of the other, each to each, and also one side of the one equal to the corresponding side of the other, the triangles are congruent.

If two sides of a triangle are equal, the angles opposite to these sides are equal; and the converse.

If two triangles have the three sides of the one equal to the three sides of the other, each to each, the triangles are congruent.

If two right-angled triangles have their hypotenuses equal, and one side of the one equal to one side of the other, the triangles are congruent.

If two sides of a triangle are unequal, the greater side has the greater angle opposite to it; and the converse.

Of all the straight lines that can be drawn to a given straight line from a given point outside it, the perpendicular is the shortest.

The opposite sides and angles of a parallelogram are equal, each diagonal bisects the parallelogram, and the diagonals bisect one another.

If there are three or more parallel straight lines, and the intercepts made by them on any straight line that cuts them are equal, then the corresponding intercepts on any other straight line that cuts them are also equal.

Areas.

Parallelograms on the same or equal bases and of the same altitude are equal in area.

Triangles on the same or equal bases and of the same altitude are equal in area.

Equal triangles on the same or equal bases are of the same altitude.

Illustrations and explanations of the geometrical theorems corresponding to the following algebraical identities :—

$$k(a+b+c+\dots) = ka+kb+kc+\dots$$

$$(a+b)^2 = a^2 + 2ab + b^2 ;$$

$$(a-b)^2 = a^2 - 2ab + b^2 ;$$

$$a^2 - b^2 = (a+b)(a-b).$$

The square on a side of a triangle is greater than, equal to, or less than the sum of the squares on the other two sides, according as the angle contained by those sides is obtuse, right or acute. The difference in the cases of inequality is twice the rectangle contained by one of the two sides and the projection on it of the other.

In any triangle the sum of the squares on two sides is equal to twice the square on half the base, together with twice the square on the median which bisects the base.

Loci.

The locus of a point which is equidistant from two fixed points is the perpendicular bisector of the straight line joining the two fixed points.

The locus of a point which is equidistant from two intersecting straight lines consists of the pair of straight lines which bisect the angles between the two given lines.

The Circle.

A straight line drawn from the centre of a circle to bisect a chord which is not a diameter, is at right angles to the chord ; conversely, the perpendicular to a chord from the centre bisects the chord.

There is one circle, and one only, which passes through three given points not in a straight line.

In equal circles (or in the same circle) (i) if two arcs subtend equal angles at the centres, they are equal ; (ii) conversely, if two arcs are equal they subtend equal angles at the centres.

In equal circles (or in the same circle) (i) if two chords are equal, they cut off equal arcs ; (ii) conversely, if two arcs are equal, the chords of the arcs are equal.

Equal chords of a circle are equidistant from the centre ; and the converse.

The tangent at any point of a circle and the radius through the point are perpendicular to one another.

If two tangents are drawn to a circle from an external point—

(i) the tangents are equal,

(ii) they subtend equal angles at the centre of the circle,

(iii) they make equal angles with the straight line joining the given point to the centre.

If two circles touch, the point of contact lies on the straight line through the centres.

The angle which an arc of a circle subtends at the centre is double that which it subtends at any point on the remaining part of the circumference.

Angles in the same segment of a circle are equal ; and, if the line joining two points, subtends equal angles at two other points on the same side of it, the four points lie on a circle.

The angle in a semicircle is a right angle ; the angle in a segment greater than a semicircle is less than a right angle ; and the angle in a segment less than a semicircle is greater than a right angle.

The opposite angles of any quadrilateral inscribed in a circle are supplementary; and the converse.

If a straight line touch a circle, and from the point of contact a chord be drawn, the angles which this chord makes with the tangent are equal to the angles in the alternate segments.

If two chords of a circle intersect either inside or outside the circle, the rectangle contained by the parts of the one is equal to the rectangle contained by the parts of the other; and the converse.

ELEMENTARY HISTORY OF ENGLAND AND OF INDIA— ONE PAPER—(3 hours)—100 marks.

Commencing respectively from the Tudor and the Mogul Period and ending in both cases with the close of the Great War.

Elementary knowledge of the present administration of India :—

1. External Defence: the Army and Navy.
2. Maintenance of Internal Order; the Magistracy and Police.
3. The Secretary of State and his Council.
4. The Viceroy and Governor General. His Executive and Legislative Councils.
5. The Provincial Governments. Provincial Legislative Councils.
6. The Administration of Justice.
7. Chief Sources of Revenue and Heads of Expenditure.
8. Local Self-Government.
9. The Native States.

N.B.—Questions in this paper will be confined to important events and issues and will not include minute details of wars, treaties, statutes, etc.

ELEMENTARY SCIENCE—ONE PAPER—(3 hours)—100 marks.

N.B.—1. *The syllabus is intended for general guidance only in regard to the character and amount of work required.*

2. *The practical work suggested for the students should be done side by side with the class work prescribed.*

3. *The course is to be illustrated by demonstration experiments and the students allowed to handle the apparatus used whenever possible.*

A. I Class work (with demonstration experiments performed by the teacher).

GENERAL PHYSICS.—Measurement; its meaning. Units; their meaning. British and metric systems of units of length. The graph and its uses. Meaning and importance of H. The measuring instruments. Metro rule; its use. The slide calipers. The wedge and the principle of similar triangles. **MEASUREMENT OF TIME:**—Mean solar day. Sidereal day. Unit of time. Instruments for measuring time. Water clock. Simple pendulum. **MEASUREMENT OF AREA:**—British and metric measure of areas. Use of squared paper. Measurement of irregular areas and geometrical figures. **MEASUREMENT OF VOLUME:**—Volume—Units of volume and capacity. British and metric units. Determination of volume by geometrical rules and displacement. Use of graduated vessels. Measuring cylinder. Burette. Pipette. **MASS:** “Mass is not weight.” The weight of a given mass may vary from place to place. Metric and British units of mass. Principle of the balance. Precautions in weighing and method of using weights. Weighing by substitution. **DENSITY:**—The meaning of density. Relative density. **PROPERTIES OF MATTER:**—The three states of matter. Change of state. Further sub-divisions of states of matter. Solids, rigid and soft. Liquids, viscous and mobile. Constancy of mass in different states, Molecular constitution of matter. Properties of matter. Distinctive characteristics of liquids: Bramah's press. Distinctive characteristics of gases. **HYDROSTATICS:**—Measurement of pressure. Apparent loss in weight of a solid when suspended in a liquid. Principle of Archimedes. Measurement of density of solids heavier than water by means of the hydrostatic balance. Relative density of liquids by means of a U tube. Use of a simple hydrometer. **ATMOSPHERIC PRESSURE:**—Weight of air. Pressure of the atmosphere. Action of a syringe. Principle of the mercury barometer. Construction of the barometer. Pressure of the atmosphere at different altitudes. Relation between pressure and volume. Some instruments depending on atmospheric pressure. Air Pump. Common pump. Siphon. Tantalus cup. **SOUND.**—How sound is produced. Air necessary for the propagation of sound. The voice.

A. II—PRACTICAL WORK.

Experiment 1.—To measure the length of straight and curved lines and to find the relation between centimeters and inches by drawing a graph.

Experiment 2.—To determine the relation between the circumference and diameter of a circle by measuring the diameter and circumference of circles, cylinders, etc., and plotting a graph.

Experiment 3.—To determine the internal diameter of a tube by means of a wedge.

Experiment 4.—To measure the area of any figure by means of a squared paper and to prove that in the case of

a rectangle, area = $h \times b$

a circle, area = $\pi \times r^2$

a triangle, area = $\frac{1}{2}h \times b$.

Experiment 5.—To determine the volume of a cube, a rectangular block, cylinder, and sphere by measurement and geometrical rules; and to verify the result by displacement of water.

Experiment 6.—To graduate a gas jar or a lb. bottle by means of a measuring cylinder.

Or

To test the accuracy of a pipette by means of a burette.

Experiment 7.—To find the weight of a few solids by the method of substitution.

Experiment 8.—To find the weight of unit volume of wood, iron and glass by finding the weight and measuring the volume by displacement.

Experiment 9.—To find the weight of unit volume of kerosene and a salt solution.

Experiment 10.—To determine the loss in weight of a regular solid suspended in water and to verify by measurement and calculation that this loss is equal to the weight of an equal volume of water.

Experiment 11.—To determine the density of irregular solids heavier than water by loss of weight in water.

Experiment 12.—To find how many inches of water will balance one inch of mercury.

Experiment 13.—To prove that in the case of a floating body, the weight of the body is equal to the weight of the water displaced.

Experiment 14.—To determine the pressure the lungs of an individual can exert,

Or

To determine the pressure of the gas in the laboratory.

B. I Class work (with demonstration experiments performed by the teacher).

MECHANICS.—Definition of Motion. Average speed. Acceleration. Momentum. Third Law of Motion. Force. Inertia. First Law of Motion. Graphic representation of forces. Parallelogram of forces. **WORK:** Principle of work. Power. Friction. **MACHINES:** Lever. Law of moments. Centre of gravity. Conditions of stability. Pulley. Fixed pulley—its use. Use of a movable pulley. Principle of work applied to pulleys. Water wheels. Turbines. **HEAT: EXPANSION THERMOMETERS.** Change of size. Expansion of solids, liquids, gases. Measurement of changes of temperature. Mercury thermometer. Construction of a thermometer. The fixed points on a thermometer. The Centigrade and Fahrenheit scales. Marking the lower and higher fixed points. Maximum and minimum thermometer. The clinical thermometer. Expansion of liquids. Measurement of expansion of liquids. Anomalous expansion of water. Expansion of gases. **QUANTITY OF HEAT AND ITS MEASUREMENT.** Difference between heat and temperature. Hydrostatic analogy. Quantity of heat in water at different temperatures. Loss and gain of heat. Unit quantity of heat. Comparison of heat quantities. Capacity of water for heat. Comparison of capacities for heat of different metals. **EVAPORATION AND BOILING:** Elementary kinetic theory of gases. Evaporation of liquids. Cooling caused by evaporation. Boiling. Effect of change of pressure on boiling point of water. Effect of dissolved solids on the boiling point. Moisture in the air. Cloud. Rain and its measurement. Fog. Dew. **MELTING POINT AND LATENT HEAT:** Temperature of melting. Latent heat. Heat required to melt ice. Expansion during solidification. Contraction of ice when it melts. Latent heat of steam. Heat of vaporisation. Manufacture of ice. **TRANSFERENCE OF HEAT:** (a) Conduction. Difference

in conductivity of different metals. Davy's safety lamp. Bad conductors. (b) Convection. Convection in liquids and gases. Convection currents in air. Ventilation and winds. (c) Radiation of heat. Heat is a form of energy. Conversion of motion into heat. Conservation of energy. Conversion of heat into motion. Steam engine, motor car.

LIGHT : Light is a form of radiation. Opaque and transparent media. Light travels in straight lines. Reflection in plane mirrors. Laws of reflection. Equality of distance of object and image from the mirror. The periscope. Refraction of light. A double convex lens. Focus of a lens. Images formed by a double convex lens. Double convex lens as a magnifying glass. Dispersion of light. Analysis of light by a prism and its practical uses. Rainbow.

B. II—PRACTICAL WORK.

Experiment 1.—To determine the principle of the parallelogram of forces.

Experiment 2.—To determine the friction between wood and wood.

Experiment 3.—To determine the law of equilibrium for different classes of levers and to prove the law of moments.

Experiment 4.—To determine the relation between 'power' and load for (a) one movable pulley and (b) two movable pulleys.

Experiment 5.—To find the lower fixed point of a thermometer.

Experiment 6.—To find the higher fixed point of a thermometer.

Experiment 7.—To compare the readings of the Fahrenheit and Centigrade thermometers and to find the relation between them by a graph.

Experiment 8.—To show that the loss of heat in one body is equal to the gain of heat in another.

Experiment 9.—To find the amount of heat given out by 1 gm. of a candle.

Experiment 10.—To determine the boiling point of a saturated salt solution.

Experiment 11.—To determine the melting point of naphthalene by a cooling curve.

Experiment 12.—To prove the law of reflection by the pin method.

Experiment 13.—To determine the focal length of a convex lens and to examine the image of a candle formed by it.

C. I Class work (with demonstration experiments performed by the teacher).

MAGNETISM.—Magnets and Magnetic poles. Attraction and repulsion. Magnetic induction. Artificial magnets, how prepared. The earth a magnet. Lines of force round a magnet. Demagnetisation.

ELECTRICITY.—Electric current and its chemical action. Voltaic cell. Its different parts. The action of an electric current on a magnetic needle. The heating effect of an electric current. Electric light. The action of an electric current on soft iron when it flows round it. An electro-magnet. Electric call-bell. The telegraph. Electric current produced by a moving wire coil in a magnetic field.

CHEMISTRY: PHYSICAL CHANGES—Solution. Solubility. Separation of two substances. Crystals and crystallisation. Other solvents. **BURNING OR COMBUSTION** : Air necessary for burning. Gain in weight during burning. Part of air is used up when a substance burns in it. Use of copper to obtain the inactive part. Slow burning of phosphorus. Rusting of iron and protection of iron from rusting. **OXYGEN** : Action of heat on oxides. Preparation of oxygen. Properties of oxygen. Elements, compounds and mixtures. Chemical and physical changes. Composition of air. Air a mixture. Respiration. How animals and plants use air. **NITROGEN** : Plants and nitrogen. **HYDROGEN** : Action of dilute acids on metals. Preparation of hydrogen. Properties of hydrogen. Formation of water by burning hydrogen. **WATER** : Natural waters. Drinking water. Composition and analysis of water. **SULPHUR** : Occurrence of sulphur. Properties of sulphuric acid and of acids in general. **CARBON** : Forms of Carbon. Properties and some uses of charcoal. Properties of carbon dioxide. Action of carbon dioxide on lime water. Coal gas. Combustion : The flame. The primus stove. The incandescent gas lamp. **CARBONATES** : Calcium carbonate, lime, quick lime and slaked lime. Uses of lime, mortar, cement. Hard and soft water. **PHOSPHORUS** : Properties of phosphorus. Red phosphorus. Uses of phosphorus. Matches. Acids, Bases and Salts. **GENERAL CHARACTERS OF METALS** : **IRON** : Forms of iron. Wrought iron, steel. **COPPER** : Properties of copper. Uses of copper. Alloys of copper. **LAWS**

OF CHEMICAL ACTION : Law of definite proportions. COMPOSITION OF WATER BY WEIGHT. Composition of calcium carbonate. The meaning of symbols and formulæ. The meaning of simple equations (without numerical examples).

C. II—PRACTICAL WORK.

Experiment 1.—To examine a simple cell and the action of the current on a magnetic needle.

Experiment 2.—To determine the solubility of common salt and nitre at room temperature.

Experiment 3.—(a) To distil fresh water from a salt solution. (b) To find out whether garden soil will dissolve in water and to separate the insoluble from the soluble particles. (c) To recrystallise nitre or salt from solutions.

Experiment 4.—To heat pieces of wood in a crucible covered with sand and to examine the contents (a) before and (b) after cooling.

Experiment 5.—To heat a piece of magnesium (20 cms. of magnesium ribbon) and to measure the gain in weight.

Experiment 6.—To heat some zinc, copper filings and tin in an open crucible and to notice the change.

Experiment 7.—To get copper from copper oxide by heating the latter in a crucible and adding a few drops of methylated spirit.

Experiment 8.—To prepare oxygen by heating potassium chlorate and to test its properties.

Experiment 9.—(a) To examine a mixture of sulphur and iron or salt and chalk. (b) To heat copper and sulphur in a crucible and to note the change.

Experiment 10.—To determine whether wood is a simple substance by heating it in a test tube.

Experiment 11.—To find the effect of an acid on an alkali (sodium hydroxide and hydrochloric acid) and to test the nature of the product.

Experiment 12.—To prepare hydrogen and to test its properties.

Experiment 13.—To prepare carbon dioxide by means of chalk and concentrated hydrochloric acid and to examine its properties.

Experiment 14.—To heat powdered coal in a combustion tube closed at one end or a hard glass test tube and to examine the properties of the gas evolved.

Experiment 15.—To examine a lump of quick-lime and to test the properties of its solution in water.

Experiment 16.—To heat calcium carbonate strongly and to find the amount of carbon dioxide in 100 gms. of it.

Experiment 17.—To compare the hardness of different samples of water.

Experiment 18.—To find the amount of oxygen given by 100 gms. of potassium chlorate by heating the latter in a crucible.

GEOGRAPHY. One paper—(Three hours)—100 marks.

N. B.—For convenience of teaching, the syllabus is divided into two parts, Standard VI and Standard VII, but questions will be set on both the parts. It is not intended, however, to prevent any teacher who prefers to take certain portions of the syllabus in earlier standards from so doing.

STANDARD VI.

(A)

The earth as a heavenly body :—Its shape and size, how ascertained ; observations of the daily movements of the sun and other heavenly bodies and their explanation by the rotation of the earth ; rotation and longitude ; Greenwich time and Indian Standard time ; observation and explanation of the movements of heavenly bodies caused by the revolution of the earth ; the inclination of the planes of rotation and revolution ; effects of vertical and slanting rays of the sun, the seasons ; observation of a few important constellations and their movements (Orion, Great Bear, Little Bear, the Pole Star, the Bull, Ladies' Chair, Southern Cross).

Maps and Map reading :

Poles and equator, latitude and longitude, scale of a map representation of relief features of land and depths of seas ; zones of the earth.

Land and water :

Land and water forms ; principal features of relief ; formation of springs and rivers ; work of rain, springs and rivers ; denudation and deposition, formation of valleys and plains ; glaciers and their work.

Atmosphere :

Height of the atmosphere, weathering action, temperature of land and water surfaces and of air, pressure of air ; land and sea breezes ; winds and their work ; waves and ocean currents ; vapour and precipitation.

Climate :

Important factors of climate, influence of climate on plant and animal life ; types of vegetation and animal life.

(B)**Physical influences on economic development :**

Position, coast, natural formation, climate, soil and mineral deposits as affecting plant and animal life, human occupations and settlements, and means of communications ; conditions of agriculture, manufacture and commerce ; growth of towns and lines of communication ; railways, waterways and irrigation.

(C)**Geography of India and the British Empire : the study to include :**

Political boundaries and their relation to physical features. The character of the coast and the position of plains, plateaus, highlands, mountains, river systems and lakes, as affecting the occupations and settlements of the inhabitants, the growth of town and parts and the lines of communication.

Climate and its influence on natural products and the life and habits of the inhabitants.

Natural resources, principal vegetable and animal products and the distribution of minerals.

Principal industries and commerce. Railways and population.

Political divisions (including the chief cities) and forms of Government.

STANDARD VII.**(A)****The earth as a heavenly body :**

Appearance of the daily turning of the heavenly dome as seen from the different places of the world. Observation of the phases of the Moon and its movement among the stars and their explanation by the revolution of the Moon round the earth ; why the Moon moves round the earth ; gravity ; observation of how planets change their places among the stars and elementary notions of the planets as bodies like our earth revolving round the sun ; important features of planets, the sun and stars.

Maps and Map reading :

Elementary ideas of contours, reading a contour map, representative fraction of a map, how latitude and longitude of a place are ascertained before marking it on a map. Globular and Mercator's projections.

Land and water :—Sedimentary and igneous rocks, weathering of rocks, formation of soil. The crust of the earth, hot springs and geysers, internal heat of the earth, movement of upheaval and subsidence of the crust, continents, world ridges and water sheds ; primary and secondary rocks, how rocks tell the past history of the earth, folding of rocks by internal pressure, formation of mountains, volcanoes and volcanic action, earthquakes ; oceans and ocean floor, ooze and chalk, corals and their work, work of waves and tides.

Atmosphere :—Seasonal distribution of temperature and pressure, systems of winds and ocean currents, and distribution of rainfall over the world.

Climate :—Division of the world into climatic regions. Distribution of vegetation and animal life over the world.

(B)

Physical influences on economic development:—Soil and climate in relation to agriculture and stock rearing; conditions favourable for the production of food stuff (wheat, rice, rye, barley, oats, maize and potatoes); groceries (tea, coffee, sugar, cocoa and spices); drinks (wine and beer); textile raw materials (cotton, wool, flax, hemp, jute and silk); tobacco and opium, vegetable oils, cocoanuts, rubber. Climate and the possession or proximity of coal and iron in relation to manufacture. The manufacture of textile raw material and of mineral products (coal, iron, copper, lead, tin, zinc and petroleum), the timber manufacture. Geographical position and facilities of locomotion in relation to commerce. Principal trade routes; the leading countries producing, exporting and importing the above mentioned natural and manufactured products.

(C)

General survey of all the continents and the principal island groups:—the study to include—

Political boundaries and their relation to physical features. The character of the coast and the position of plains, plateaus, highlands, mountains, river systems and lakes, as affecting the occupation and settlements of the inhabitants, the growth of towns and ports and the lines of communication.

Climate and its influence on natural products and the life and habits of the inhabitants.

Natural resources, principal vegetable and animal products and the distribution of minerals.

Principal industries and commerce.

Railways and population.

Administrative divisions (including the chief cities) and forms of Government.

DRAWING—One Paper—(Three hours)—100 marks.

Subject A.

OBJECT DRAWING—(1½ hours).

A group of natural or manufactured objects to be drawn in outline and simply shaded with pencil or a wash of any one colour, to show the cast shadows and the tones of the various planes.

Subject B.

NATURE DRAWING—(1½ hours).

A spray of flowers,

Foliage,

Fruits,

Shells,

Butterflies, or

Other natural specimens, to be drawn and painted in colour.

Subject C.

MEMORY DRAWING—of animate and inanimate subjects
(½ hour).

MANUAL TRAINING—One Paper—(three hours)—100 marks.

- (a) Use of drawing-board, T-square, set squares, compasses. Construction and use of scales. Construction and use of protractor.
- (b) Construction of simple geometrical figures. Areas of simple geometrical figures (1) by ordinate method, (2) by the use of squared paper.
- (c) *Orthographic Projection*.—Projection of points, lines, plane figures. Determination of true length of line, having given its projections. Determination of true shape of plane figure, having given its projections. Projection of regular solids. Sections of solids, and solids of revolution.
- (d) *Isometric Projection*.—Projection of simple solid figures.

- (e) Drawing of a simple piece of wood-work, such as carpentry joint, box, chair, stool, table, door, window, bookcase. The drawing to be to scale, from orthographic or isometric sketches and given data.
- (f) *Sketching*.— Making dimensioned sketches of simple actual objects such as are mentioned under the preceding head, the dimensions being obtained by actual measurements. The sketches to be intelligible, and sufficiently complete to afford all the data required for making a drawing of the object to scale.

- (g) Elementary knowledge of "timber". Growth, structure, seasoning, shrinkage, properties, and uses of the kinds of wood in ordinary use.

Candidates must bring drawing-board, instruments, scales, protractor, pencils, rubber, and drawing pins.

PRACTICAL EXAMINATION (Three hours)—100 marks.

- (a) Use of tools ; plane, square, rule, marking gauge, compasses, chisel, saw, turning lathe.
- (b) Construction of a simple piece of work :—
1. Joints :—Halved, mortise and tenon, dovetailed, scarf, tongue and groove.
 2. Table, chair, box, bookshelf, model roof truss.

Wood of proper sizes will be provided. Candidates must bring their hand tools :—plane, saw, chisels, marking gauge, etc.

BOOK-KEEPING AND COMMERCIAL CORRESPONDENCE—ONE PAPER. (Three hours)—100 marks.

1.—*Book-keeping and Commercial Arithmetic*—64 marks.

Double entry book-keeping, keeping the bought and sold books, the cash and bill books, and the journal, and recording therein transactions involving purchases and sales, cheques, bills receivable and payable, personal accounts, real accounts and nominal accounts like rent, salaries, interest, discount, bad debts and depreciation. Posting and closing the ledger, and preparing the balance sheets and the profit and loss account.

Single entry book-keeping. Keeping the subsidiary books, posting and closing the ledger.

Preparation of invoices, account sales, and interest accounts with interest products ; direct exchange between India and (1) England, (2) France and (3) Japan.

2.—*Commercial Correspondence*—36 marks.

Indexing, dotting and cross-referencing ; the letter book and press-copying ; filling in blank forms of mercantile letters and documents, and drafting short mercantile letters.

The inland postal and telegraphic rates and regulations of India and the postage rates to the United Kingdom.

SHORTHAND AND TYPEWRITING—ONE PAPER.

(Three hours)—100 marks.

I.—Taking down in shorthand in ten minutes a passage of ordinary difficulty of 560 words and letter of 240 words dictated at the rate of 80 words a minute, and transcribing the same into long-hand ; 1½ hours.

II.—Typewriting a letter of 200 words and a passage of 200 words, taking out two or three carbon copies and typewriting a balance sheet or a tabular statement with not more than five columns ; 1 hour.

N. B.—Schools must arrange for the supply of typewriters. At least one typewriter for every four candidates should be supplied.

DOMESTIC SCIENCE—ONE PAPER—(Three hours)—100 marks.

- (a) *Human Physiology* :—The skeleton, Muscles, Nervous System, Circulation, Respiration ; Digestion, Secretion and Excretion. Sense, Organs.

(b) General Hygiene :—

1. Air, Oxygen, Carbonic acid gas.
2. Ventilation, light, germs.
3. Water, boiling and filtering.
4. Wells, pollution and purification.
5. Houses, choice of a site.
6. Waste and impurities. Rubbish, smells, cleaning, white-washing, disinfectants.

(c) Personal Hygiene :—

1. Cleanliness, bathing, nails, hairs, teeth.
2. Clothing. Temperature of body.
3. Exercise. Effect on respiration, blood, digestion, skin-perspiration.
4. Sleep. Rest and recreation, Interdependence of mind and body.
5. Good and bad habits. Temperance.

(d) Management of a home :—

1. Methods of cleaning and arranging a house.
2. Kitchen, cooking utensils, cleaning and tinning.
3. Different kinds of filters, cleaning of them.
4. Composition of food. Detailed study of chief food-stuffs and beverage. Errors of diet. Cooking.
5. Household accounts. Management of money.
6. Choice and care of clothing.
7. Care of infants. General management—way in which they should be bathed and clothed—sleep—exercise—Infant illnesses—Abuse of drugs.

(e) First Aid and Home Nursing :—

1. The Sick room—General rules for treatment of patient—Sick room appliances and management.
2. Ordinary ailments and treatment.
3. Emergent ailments such as fainting, apoplexy, epilepsy, sunstroke.
4. Foreign bodies in the eye, ear, nose and throat.
5. Bites and stings.
6. Treatment of bruises and sprains.
7. Infectious and Contagious Diseases. Symptoms, Prevention and treatment, Vaccination, Inoculation, Disinfection.

First aid in cases of

Bleeding—arteries and veins—ligatures and tourniquets.
 Broken bones—simple compound fractures—splints.
 Snake bite—Incision and cauterisation.
 Poisoning—Corrosive and non-corrosive Emetics.
 Drowning—Artificial respiration.
 Burns and Scalds—Dressing.

9. Invalid cookery.

There will also be a practical examination in the following :—

- (a) Plain cooking—estimate of dishes made being required.
 Preparation of food for infants.
 Invalid cookery.
- (b) Simple laundry work with and without starch.
- (c) First aid.

VERNACULARS.

STANDARD VII.

Reading 200 pages from standard vernacular prose authors, and about 1,000 lines of good poetry (100 by heart) from the books in prose and poetry prescribed by the Joint Examination Board.

N.B.—The same text-books in vernaculars have been prescribed for the purposes of certification and examination and if any Head Master preferred to use any other text-books than those prescribed by the Board he should obtain previous sanction of the Board to do so.

XVIII.

DEVELOPMENT OF UNIVERSITY WORK.

Until the passing of the Indian Universities Act of 1904, which revised the powers of the Indian Universities, the Bombay University, like the others, was limited to the function of examining candidates and arranging for the courses of study which led up to their degrees. It had neither the power to inspect the Colleges where the instruction was given, nor that of itself giving instruction to students. Under the Act of 1904 above quoted, the University received a large extension of its powers. The Act gave it the right itself to organize teaching, to arrange for University extension, to publish such works as were necessary for the direct educational work which it should carry on, and to do anything else which was incidental to such educational work.

Very largely owing to lack of funds, the University was not, however, able to undertake any of these new duties until quite recently. Its financial position had, however, been gradually improving and in 1912 a liberal offer from the Government of India made it possible immediately to launch out in new directions. By a letter dated March 16th, 1912, the Government of India offered to the University a non-recurring grant of Rs. three lakhs, and a recurring grant of Rs. 45,000, for the purpose of developing its activities as a teaching body, provided the scheme drawn up for utilising it had the approval of that Government. At a slightly later date (May 7th, 1913) the non-recurring grant was increased to Rs. five lakhs. These liberal grants were accepted with thanks by the Senate, and the Syndicate thereupon appointed a Committee to draw up a scheme for the development of University work on the lines suggested. In presenting their report the Committee suggested the devotion, not only of the special grant referred to, but also of the annual grant of Rs. 10,000 from the Government of India (which had been enjoyed for a number of years and which was now made permanent) to similar purposes.

The report of this Committee, approved by the Senate on September 30th, 1912, recommended :—

(1) that the University should refer the whole question of its development for advice to an educational expert who should possess an "intimate knowledge of higher education as it is carried on in British, Continental, and American Universities ;"

(2) that as soon as funds were available a University Professor of Economics should be appointed ;

(3) that the University should definitely undertake post-graduate teaching for the M.A. degree by conducting lectures, courses and classes by men selected mainly from the staffs of the Colleges ;

(4) that the University should arrange courses of lectures annually by eminent Professors or Lecturers from Europe or elsewhere ;

(5) that the University Library should be re-organized, a qualified Librarian should be trained for it, and the accommodation for books considerably increased ;

(6) that the University should create a Research Fund from which it would be possible to give encouragement and help to those engaged in research work ;

(7) that as occasion and opportunity arose, the University should undertake the organization of extension lectures and the publication of the results of researches for which there is no other adequate channel.

A beginning was made in carrying out this programme in the winter of 1913-14. Sir Alfred Hopkinson, late Vice Chancellor of Manchester University, was brought to India to advise as to possible and suitable lines of development, and his report has largely influenced all the work undertaken. The University Library has been re-fitted and the whole management of this has been placed in the hands of a special Committee.

In 1914, post-graduate lectures on the basis of the needs of the M.A. students were held for the first time, the scheme for carrying them out being passed by the Senate on September 22nd, 1913, and the lecturers themselves appointed on February 26th, 1914. They were held in the subjects of History, Economics, Sanskrit, Persian and Philosophy, and proved a considerable success. Lecturers were similarly appointed in 1915 and 1916.

Since 1918-19 the scheme has been somewhat modified on inter-collegiate lines. The various colleges in Bombay have arranged a considerable amount of post-graduate teaching which they have, on the suggestion of the University, thrown open to qualified

students of all other colleges who are interested in the subjects or are working for the M.A. degree of the University. A list of such courses of lectures for 1921-22 and 1923-24 is given below. The University has supplemented these by arranging for a limited number of courses on its own account, to deal with matters in which it seemed essential for training to be provided, but which were not adequately covered by the courses provided by the colleges. A list of these is also given below.

In 1922, the Syndicate appointed a Committee to revise the scheme of post-graduate studies in the light of the experience gained of its working since its inauguration. The Committee submitted a report in March 1923 recommending (a) that all the work should be undertaken under a centralized scheme by the University in co-operation with its Colleges, and (b) that the work, so far as Bombay is concerned, be done in the University Buildings as far as possible. The report was submitted to the Senate for approval in September 1923. The Senate, however, referred the report back to the Syndicate for reconsideration. The Syndicate have appointed the same Committee with a few additional members to draw up a fresh scheme for the consideration of the Syndicate and the Senate.

A beginning has, too, been made in obtaining eminent Professors from Europe and elsewhere to deliver lectures and hold conferences in Bombay. A series of conferences on the teaching of History were held by Professor Ramsay Muir of the Manchester University in March 1914, and lectures on the Teaching of Chemistry were delivered by Professor Arthur Smithells of the Leeds University at the same time. Professor Geddes also delivered a course of lectures on the Evolution of Cities in March 1915, and Dr. J. H. Moulton of Manchester a course of lectures on Aryan Antiquities in the early part of 1916. A course of lectures on Puranas and Iranians was delivered by Professors K. N. Sitaram, M.A., of Madras, in July 1920, and a course of lectures on Social Philosophy was delivered in January 1921 by Professor J. S. Mackenzie, formerly Professor of Philosophy in the University College of South Wales. In 1922-23, Professor P. M. Buck, M.A., Dean of the College of Arts and Sciences in the University of Nebraska, U.S.A., delivered a course of lectures on various American subjects in illustration of the American spirit in literature and politics. A course of lectures on the Dyeing and Calico Printing Trades was delivered in June 1923 by Mr. H. B. Shroff, Principal of the Government School of Dyeing and Printing, Cawnpore, and a course of lectures on India's Early Religious History was delivered in November 1923 by Dr. Robert E. Hume, Professor of the History of Religions, Columbia University, New York.

The question of appointing a University Professor of Economics has entered a new phase owing to a further offer from the Government of India to assist in endowing a School of Economics and Sociology in Bombay, under the direction of the University, of which the proposed Professor of Economics should be the centre. This assistance has taken the form of an annual grant of Rs. 12,000 to the cost of such a School, and the offer of the amount was accepted with thanks by the Senate on October 9th, 1914. The Syndicate have made arrangements for the establishment of the School of Economics on a satisfactory footing, and a scheme has been adopted by the Senate and approved by Government. This scheme is given below. The first step under the scheme was taken by the Syndicate in recommending to the Senate the appointment of Professor Patrick Geddes, whose high qualifications as an investigator of social phenomena are widely acknowledged, as University Professor of Sociology to preside over the Sociological Department of the School. The recommendation was approved by the Senate and Government and Professor Geddes accordingly took charge of the appointment on November 22nd, 1919. The appointment was in the first instance for a term of three years which was subsequently extended to five. In July 1920, on the recommendation of Professor Geddes the Syndicate sent Mr. G. S. Ghurye to England as a research scholar in sociology under the scheme. Mr. Ghurye completed his training at the University of Cambridge and returned to India in June 1923 with the Ph. D. degree of that University. The Syndicate have granted him a research scholarship of Rs. 250 a month, tenable for one year in India, on condition that he joins the Sociology Department of the School at the end of the year. In January 1921, the Senate appointed with the approval of Government Mr. S. N. Pherwani, M.A., lately Librarian of the University, to be Assistant Professor of Sociology, for a term of one year, subsequently extended to three years. In April of the same year, Dr. Radha Kamal Mookerji, Lecturer in Economics in the University of Calcutta, was appointed Professor of Economics in the School. For certain reasons he declined to take up the appointment, and in September 1921, the Senate appointed Mr. Khushal T. Shah, B.A. (Bom.), B. Sc. (Econ., Lond.), Bar-at-Law, to this post, for a term of three years from 10th November 1921. In the meanwhile, Mr. C. N. Vakil, M.A., M.Sc. (Econ., Lond.), F. S. S., who was sent to England as a University scholar under the scheme for being trained in research methods in Economics and had

returned to India after completing his training, was appointed Assistant Professor of Economics for a term of five years from the 1st of August 1921. Mr. S. B. Raikar, B.A., was appointed Secretary and Librarian in the School in April 1922. All the appointments under the scheme having been made, the School is now in full working order. The Syndicate have instituted six post-graduate research scholarships, each of the monthly value of Rs. 50 and tenable for one year, and divided equally between the Departments of Economics and Sociology in the School. Regulations regarding the award and tenure of these Scholarships have been approved by the Syndicate and are given below. The Syndicate have also appointed a special Committee to supervise the conduct of the School.

With regard to the other items of the programme already cited, adopted by the Senate on September 30th, 1912, less progress has been made. In 1914-15 a Research Fund was however, established, and is available for grants to workers. Grants as follows were made from this fund in the years 1921-22, 1922-23 and 1923-24.

Name.	Subject of Research.	Amount of grant.
1921-22.		Rs.
Professor H. B. Bhide ..	Geographical Knowledge of the Ancient Jains.	100
Professor P. V. Kulkarni ..	Investigation of the origin and the development of Hindu Law and the relation between the Dharmasutras and the Metrical Smritis.	300
Professor J. F. D'Almeida ..	Physiological Anatomy of the Aquatic Flora of Salsette.	500
Vaidya Appashastri Sathe ..	Publication of a reliable text of Sushrut Samhita (an ancient work on Hindu Medicine and Surgery) with a Marathi translation.	500
Professor T. K. Shahani ..	Collection of materials for a comprehensive History of Sind.	500
1922-23.		
Dr. K. G. Naik ..	Investigation of the factors involved in the manufacture of gold and silver threads by the electro-gilding method.	600
Professor T. K. Shahani ..	Collection of materials for a comprehensive History of Sind.	300*
1923-24.		
Professor P. R. Awati ..	Investigation of Life Histories of certain Pearl Shells in the Thana Creek.	500
Professor Sam J. Khambata.	Identification of the Radio-active substances present in the air in Bombay by the method of Elster and Geitel.	500
Mr. N. R. Damle ..	Examination of the fatty oil and the Glucoside from the fruit of Thevetia Nerifolia.	60
Professor Hiralal R. Karpadia.	Jain Mathematics	500
Mr. Fardunji D. J. Parakh ..	Sassanian Coins	500
Mr. D. B. Diskalkar ..	Copper-plates of the Rulers of Valabhi and Inscriptions of the Chalukya Rulers of Anahilapataka.	500
Professor N. K. Bhagvat ..	Iconography of the Buddhist Hinayanist Caves of Western India compared with the Ruins and Excavations of Ceylon.	300
Dr. V. G. Paranjpe ..	A study of the Abhidharma Kosha	300

*In continuation of the grant of Rs. 500 given for the same subject in 1921-22.

With regard to item 7 of the programme referred to above, some progress has been made. In 1917, No. 1 of the Bombay University Economic Series, viz., Dr. Mann's *Land and Labour in a Deccan Village*, was published by the University. This was followed by the publication in 1919, of No. 2 of the Series, viz., *Indian Co-operative Studies* by Mr. R. B. Ewbank, I.C.S. In 1921, Dr. Mann's Study No. 2, *Land and Labour in a Deccan Village*, was published as No. 3 of the Economic Series. The University has also published the Wilson Philological Lectures on Gujarati Language and Literature delivered by Mr. N. B. Divatia in 1915-16 and Dr. Mackichan's translations of the Introductions to two German books, Dr. Garbe's *Bhagavadgita* and Roth's *Nirukta*. Besides directly undertaking the publication of the above books, the Syndicate have made grants of varying amounts towards the publication of books by various authors. In 1918, a grant of Rs. 250 was made towards the publication of a Devanagari edition of the *Majjhima Nikaya*, a Pali text-book, by Professors C. V. Rajavade, N. K. Bhagvat and P. V. Bapat. In 1920, the Syndicate sanctioned under certain conditions a grant of Rs. 6,000 per volume for three volumes of a *History of Indian Philosophy* in eleven volumes undertaken by Professors S. K. Belvalkar and R. D. Ranade, provided one volume was published every year and the work turned out was of a standard approved by the Syndicate. In 1923, the conditions were modified whereby the Syndicate agreed to receive Rs. 4,000 in cash per volume from the publishers in two instalments of Rs. 2,000 at an interval of six months each from the date of publication, the joint authors holding themselves responsible for the payment of this sum to the University. In 1921, the Syndicate sanctioned a grant of Rs. 3,000 per annum for five years to the Bhandarkar Oriental Research Institute, Poona, towards the expenses of a critical edition of the *Mahabharata* undertaken by the Institute. Grants of Rs. 500 each were made in the same year to Professor Shiv Narayan of the College of Engineering, Poona, towards the publication of his book *Hydro-Electric Installations of India* and to Professor P. V. Bapat, of the Fergusson College, towards the publication of a Devanagari edition of the *Sutta-Nipata*, a Pali text-book for the B. A. Examination. In 1923, the Syndicate sanctioned by way of assistance towards the cost of publication a grant of Rs. 750 for the purchase of 75 copies of a book entitled *Trade, Tariffs and Transport in India* projected by Mr. K. T. Shah, University Professor of Economics.

To carry out the programme already in hand, and also that in view, it is evident that larger accommodation than is at present available must be provided. This was particularly emphasised in the advice given to the University by Sir Alfred Hopkinson and a strong Committee was appointed by the Senate on April 14th, 1914, to make recommendations as to how this could best be made available. The results of the deliberations of this Committee were considered by the Senate on April 9th, 1915, and their recommendations were then approved. These involved the erection of a building for the post-graduate education carried out by the University lecturers and professors at the south end of the University gardens, and of new University offices, etc., at the north end of the gardens, at an estimated cost of Rs. 5,10,307. On the 26th February 1916 the plans for these buildings were approved by the Senate, their construction was commenced in January 1918 and the buildings completed in March 1923. The actual cost of the two extensions has exceeded the estimate by over 3 lakhs of rupees.

List of University Lecturers.

1922-23.

Name.	Subject.	Place.
1. Dr. S. K. Belvalkar	.. Sankhya and Yoga	.. Bombay and Poona.
2. Professor Shaikh Abdulk. Nizami's dir Surfraz.	Sikandar Nama- Bahri.	Bombay.
3. Professor N. G. Damle	.. Psychology	.. Do.
4. Professor A. C. Fernandes	.. Constitutions, past and present, within the British Empire.	Do.
5. Dr. R. N. Cooper	.. Surgical Tuberculosis	.. Do.

1923-24.

The Reverend Father R. Zim- mermann, S. J., Ph. D.	Comparative Philology	.. Bombay.
Dr. F. N. Moos, M.D., B.S., D.P.H., D.T.M. (Lond.).	Pulmonary Tuberculosis and the Medical Aspects of General Tuberculosis.	Do.

List of Inter-Collegiate Lecturers.**1922-23.****ELPHINSTONE COLLEGE.**

Name.	Subject.
Principal A. L. Covernton	Browning's Ring and the Book.
Professor Hamill	Shakespeare, Chaucer and Langland.
Professor Gajendragadkar	Sribhashya of Ramanuja ; Nirukta of Yaska.
Professor D'Andrade	Ancient Philosophy.
Professor Chablani	Analytical Economics
Professor Shaikh	Persian.

WILSON COLLEGE.

Dr. E. A. Parker	Middle English, Chaucer and Langland
Professor H. R. Hamley	Electron Theory, Optical Theories.
Professor Velankar	Rigveda Mandal III and Dharmashastra.
Professor G. N. Joshi	The Economic Outlook with special reference to Indian conditions.

ST. XAVIER'S COLLEGE.

The Reverend R. Zimmermann	Sanskrit Literature.
The Reverend A. Steichen	Physics : Electricity and Magnetism Theory of the Potential.
Professor C. D. Pinto	Latin.
Professor A. Correa-Fernandes	Politics.
Professor F. Correa-Afonso	English.
Professor C. A. Buch	English.

SYDENHAM COLLEGE.

Principal M. L. Tannan	Advanced Currency including Indian Currency Problems.
Professor R. M. Joshi	General Principles of Economic Theory ; Advanced Course. " Distribution." History of Economic Thought—19th Century.
Professor N. B. Mehta	Indian Economic History.

1923-24.**ELPHINSTONE COLLEGE.**

Acting Principal C. J. Sisson	Shakespeare Plays (1st term).
Professor E. A. Wodehouse	Texts under Literature section, paper (a) (1st term).
Principal A. L. Covernton	Rater, Carlyle (2nd term).
Professor Takakhav	Morley's Rousseau (2nd term).
Professor A. C. Farran	Politics (Sidgwick's Politics).
Professor S. G. Panandikar	Economics (Currency and Banking).
Professor A. K. S. Shaikh	Persian (Poetry text).
Professor A. B. Gajendragadkar	Sanskrit (Sribhashya and Siddhanta- tatvabindu.).
Professor J. C. P. D'Andrade	Philosophy (Ethics and Kant).

1923-24—*contd.*ELPHINSTONE COLLEGE—*contd.*

Name.	Subject.
Professor K. R. Gunjikar Electricity and Magnetism. Electron Theory.
Professor N. B. Divatia Gujarati.
Professor G. G. Tipnis Marathi (Dnyaneshwar and his works).
Professor P. V. Kulkarni Dharmashastra.

WILSON COLLEGE.

Dr. E. A. Parker Chaucer, Langland and Browning.
Professor Hamley Physical Optics, Functions of a Complex Variable.
Professor V. N. Hate Indian Cryptogamia.
Professor G. N. Joshi Indian Economics.
Professor Vajankar Rigveda Mandala VII.
Professor Acharya Nirukta.
Professor Ezekiel Insects attacking stored grains and seeds.

ST. XAVIER'S COLLEGE.

The Reverend R. Zimmermann Sanskrit.
The Reverend A. Steichen Physics : Atmospheric Electricity.
Professor C. D. Pinto English.
Professor F. Correa-Afonso English.
Professor A. Correa-Fernandes Politics.
Professor N. N. Lalla English Constitutional History.
Professor N. K. Bhagvat Pali.
Professor K. M. Shembavnekar Sanskrit.
The Reverend H. Heras Indian History.

SYDENHAM COLLEGE.

Principal M. L. Tannan Banking Systems of the leading countries.
Professor R. M. Joshi Indian Economics. History of Economic Thought : Ancient times to the end of 18th Century.
Professor H. L. Kaji Elements of Statistics.
Professor N. B. Mehta Economic Organizations in the West—(England).

**Scheme for a University School of Economics and Sociology adopted
by the Senate in 1918 and approved by Government.**

1. The object of the School is to promote the study of the Indian Social Institutions with reference to their effects on the economic and industrial life of the people and to conduct research in economics and sociology. The centre of the scheme would be the organization of research work in the fields of knowledge named, under the guidance of those who have an intimate acquaintance with India, and with research methods in these subjects.

2. The staff which it would be desirable to have would be :—

- (a) A Professor of Economics, who must be a man with knowledge of and experience in research methods in some branch of economics and who has already shown capacity of doing work in the subjects specified and possesses also an intimate knowledge of Indian conditions ;

- (b) A Professor of Sociology, who would be a man with knowledge of and experience in research methods in some branch of sociology and who has already shown capacity of doing work in the subjects specified and possesses also an intimate knowledge of Indian conditions ;

Provided however that in the case of men of recognized eminence in these subjects, the condition as regards an intimate knowledge of Indian conditions may be dispensed with.

- (c) Two Assistant Professors with similar qualifications ;
(d) One Secretary and Librarian for the School.

Of course, these positions would only be filled as suitable men were available, and if men are advertised for it would be with the distinct understanding that if none of the applicants are considered suitable, the appointment would not be made. All appointments would be for five years.

The pay offered is as follows :

- (a) Rs. 12,000 to Rs. 15,000 per annum (Rs. 1,000 to Rs. 1,250 per month).
(b) Rs. 12,000 to Rs. 15,000 per annum (Rs. 1,000 to Rs. 1,250 per month).
(c) Two positions each at Rs. 6,000 per annum (Rs. 500 per month).
(d) Rs. 1,800 per annum (Rs. 150 per month).

The total average expense on this account would therefore be Rs. 40,800 per annum. The higher figures given should represent the maximum limit of pay.

In order to attract good students willing to devote themselves to research, scholarships sufficient in number and value would be required.

Selected Indian graduates should be sent abroad to such countries as may be approved by Government for the purpose of being trained in research methods at the expense of the University and one or more of these should be appointed for these posts if they distinguish themselves in their work. Until the staff of the School is complete, some of the funds allotted to the payment of the staff may be used for the purpose.

3. In addition to this, occasional courses of lectures or seminars of a month or two's duration, such as at a summer school even elsewhere than in Bombay, would be undertaken. Not more perhaps than two such at a cost of Rs. 600 each per annum, would be contemplated.

4. The cost of the School would be, roughly, as follows :—

	Rs.
Staff of the School as above	40,800
Special men (see paragraph 3)	1,200
Rent (temporary)	3,000
Travelling allowances	3,000
Sundries	2,000
Scholarships for research students	3,600

5. The funds definitely allocated to the purpose of the post-graduate study of economics and sociology are as follows :—

- (1) Rs. 20,000 for a Professor of Economics, sanctioned by the Senate.
(2) Rs. 12,000 offered by the Government of India for the purpose of the School and accepted by the Senate.

Beyond this, the following would also be taken :—

- (3) Rs. 1,500, being approximately the annual amount spent on post-graduate lectures in economics, which in future would be under the direction of the School subject to the control of the Syndicate and Senate.
(4) Rs. 4,000, being one-third of the annual amount (Rs. 12,000) allocated for University lectures by readers.
(5) Rs. 10,000 from the money accumulated for the Professor of Economics, which has been unused for nearly three years. This should be taken for the next five years.

This would give an available fund of Rs. 47,500 per annum.

The balance of the cost of the School would be made up from the ordinary funds of the University to an extent not greater than Rs. 7,000 per annum.

6. A fee of Rs. 10 per course shall be charged for the courses of lectures, and no other fee shall be charged.

7. All appointments under this scheme will be subject to the approval of Government.

**Rules for the award and tenure of Scholarships in the School of
Economics and Sociology.**

1. There shall be not less than six scholarships in all which shall normally be equally divided between the departments of Economics and Sociology.
2. Each Scholarship shall be of the value of Rs. 50 per month.
3. The Scholars shall be appointed each year in the month of August by the Socio-Economic Committee on the recommendation of the Professors. The selection of scholars shall be based on their class work, their previous career, character and conduct and their financial needs.
4. Scholarships will be awarded on the explicit undertaking given in writing that the scholars shall not attend Law classes and present themselves for the M.A. examination in due course.
5. A scholar, who does not fulfil the undertaking referred to in regulation 4, will be liable to refund the whole amount of scholarship drawn by him while he was holding it.
6. Every scholarship shall be paid quarterly in arrears on production of a certificate of regular attendance and satisfactory progress signed by the Professor in charge.
7. At the end of each term, every scholar shall submit through the Professor of his department a report of the work done by him.
8. A scholar shall be liable to forfeit his scholarship on grounds of non-attendance, unsatisfactory work or conduct.
